Wolf howls came one after another, endlessly. At the same time, the sounds of a large number of beasts rushing forward were also transmitted to everyone.

“This lineup…”

“Wolf group!”

“It is noon right now and the water wolves’ nest is nearby, how could a wild wolf group come here?”

Zhong tribe and Chai tribe’s people shifted their gaze towards the location of the sound, as if they were facing a great enemy.

They soon saw the majestic wolf army rushing towards them like a river, through the sparse jungle.

In this wolf group, there were strong night wolves, the defensive turtleback wolves, outstanding wind wolves and the white fur water wolves, which were the majority.

Different from other wolf groups, they were moving harmoniously like an army. There was only one reason for this.

Chai Zhang's heart thumped as he immediately thought of a person – Chang Shan Yin!

Zhong Fei You's expression became extremely unsightly.

Their Zhong tribe also wanted to side with Lord Liu Wen Wu, thus they were coveting after these goods of Chai tribe, but they had never thought someone would upset the whole situation at the crucial moment.

As the wolf group approached closer, the Gu Masters of the two tribes became restless.

"Such a large wolf group!" Someone could not help exclaiming in shock.

"Gasp… this scale, there are at least twenty eight thousand turtleback wolves, fifteen thousand night wolves, and the wind wolves are even more than the night wolves. The water wolves are the largest with about thirty two thousand." Someone drew in a cold breath and calculated the numbers with his rich experience.

The wolf group's size was really too big. They spread open grandly, forming a half-moon shaped formation and covering the two tribes.

Zhong tribe and Chai tribe's Gu Masters were instantly surrounded; and with the crescent lake behind them, they were in an unfavorable situation.

"Didn't they say Chang Shan Yin suffered huge losses after attacking Pei, Bei and Zheng tribes? Why does he still have so many wolves left?!" Chai Zhang's lips turned dry; the dense wolf group not only covered them, there were still many of them left who were hiding in the forest, their figures indistinct.

Zhong Fei You could not keep up his relaxed attitude from before. He looked at the large numbers of thousand beast kings and myriad beast kings among the wolf group; his heart stuck in his throat.

Enslavement path was different from other paths; they could change the situation with just a lone force.Normal enslavement path Gu Masters were already people who should not be underestimated, let alone Chang Shan Yin!

Zhong Fei You understood clearly that these wolf groups were enough to annihilate their Zhong tribe two-three times over and still have enough strength left!

Simply because they were in the wild with no obstacles to rely on. They did not have the walls of their camp, they were not in formation, they did not have time to rest and also no time to recover their primeval essence.

One hump wolf carrying Fang Yuan on its back leisurely walked out of the thin forest.

"Chang Shan Yin!" Zhong Fei You and Chai Zhang similarly called out.

In an instant, countless eyes gathered on Fang Yuan's face.

Fang Yuan expressionlessly rode on the hump wolf with his back upright just like Chang Shan Yin's habit.

His sharp gaze swept through everyone. He did not speak, but his closed lips was sufficient to display Chang Shan Yin's proud and aloof aura vividly.

Zhong tribe and Chai tribe's Gu Masters were silent. They only felt an enormous rock pressing down on their heart; the atmosphere seemed to freeze and made it difficult for them to breathe.

Especially when they thought of the Wolf King Chang Shan Yin challenging three tribes in one night, many started to shiver.

Pei, Bei and Zheng tribe had been mid-scale tribe for long time. While Chai tribe was only a small scale tribe and Zhong tribe had only advanced to mid-scale tribe not long ago.

Zhong Fei You and Chai Zhang glanced at each other, seeing the graveness and the intent to cooperate in each other’s eyes.

The two were similarly agonized: Just now, they were both about to fight, and now they had the hearts to ally. This play of fate really made one not know whether to cry or laugh.

“Lord Chang Shan Yin, your fame is well known to me, Zhong Fei You…” Zhong Fei You gritted his teeth and bowed deeply towards Fang Yuan.

No one felt that the grand tribe leader Zhong Fei You’s action was inappropriate. The other was Chang Shan Yin!

But Zhong Fei You had yet to finish speaking when Fang Yuan waved his hand and indifferently said: “All of you get lost, don’t block me.”

Zhong Fei You’s eyes widened, his eyes showing an unconcealable humiliation.

But he did not retort and instead lowered his head, bowing towards Fang Yuan again before turning around to his Zhong tribesmen: “Retreat.”

Chai Zhang discerned the situation and also immediately shouted: “We are also retreating.”

Immediately, both the tribes started retreating far away.

Soon, the crowded lakeside only had the wolf groups and Fang Yuan, one person.

Of course, there were also those three slow moving black skin fat beetles.

Fang Yuan glanced at these three black skin fat beetles without interest. The things the two tribes were fighting for, did not have enough attractive force towards him.

He waved his hand and the water wolf group immediately rushed into the water, circling and attacking the water wolf nest here.

Chapter 495 - Grey-white Stone Slab

Chapter 495: Grey-white Stone Slab

Translator: ChibiGeneral Editor: ChibiGeneral

The water wolf den here had four thousand water wolves, it was a thousand beast group.

Although water wolves rarely stepped foot on land, when their homes were invaded, that would be another issue.

After sensing Fang Yuan's wolf group approaching, this group of wild water wolves attacked together, engaging with Fang Yuan's wolves.

Facing obstruction, Fang Yuan's wolf group stopped their movement.

But he snorted, activating wolf howl Gu, sending three groups of reinforcements to help.

The wild water wolves only managed to hold on for a moment before being unable to hold the pressure, immediately overwhelmed as they lost completely.

Far away.

"Tribe leader, our things are still there." A Chai tribe elder looked indignantly.

Chai tribe leader sighed deeply: "Nevermind, let it be, it is better than losing our lives."

"Shouldn't we stay and watch? A person like Chang Shan Yin, he might not be interested in these three black skin fat armor worms." Another Chai tribe elder was still hopeful.

But Chai Zhang understood the truth, he snorted: “If you are not worried about offending Chang Shan Yin and attracting his slaughter, then stay.”

This Chai tribe elder’s face froze.

“Hmph, this idea, do you think Zhong tribe can’t think of it? Even if Chang Shan Yin doesn’t want them, we will not be able to take these resources! Sigh, with such an expert like Chang Shan Yin here, we can’t stay in crescent lake any longer, we should set off now, and leave quickly.” Chai Zhang waved his hand, his tone filled with helplessness, but also anger and weakness.

Chai tribe was only a small size tribe, they were weak. Especially with the ten year blizzard approaching, as well as the fight for the Imperial Court, it will be an era of turmoil where northern plains is engulfed in battles and chaos.

A tribe like Chai tribe was like a tiny boat amidst the chaos, being blown by the winds and waves, they can only ride on weakly. Only by clinging onto a stronger force can they increase their chance of survival.

Chai tribe left after packing up, without a bit of delay.

A moment later, Zhong tribe’s investigative Gu Master reported to Zhong Fei You with some afterfear: “Lord, Wolf King was victorious, with just a wave of his hand, he exterminated that wolf den. Out of the four thousand water wolves, he recruited three thousand, yet he only lost three hundred.”

Zhong Fei You and the Zhong tribe higher-ups shuddered upon hearing this.

Such loss to gain ratio was terrifying! No wonder this Wolf King’s wolf group could be replenished so quickly.

“Lord tribe leader, you did not see personally, Chang Shan Yin’s manipulation was otherworldly, he is truly skilled!” Investigative Gu Master wiped the sweat off his forehead as he added.

Zhong Fei You snorted, refusing to put his own tribe down, shamelessly saying: “Chang Shan Yin has a water wolf myriad beast king. The leader of this group of wild wolves is only a thousand beast king. Once they battle, the water wolf group would face great suppression, their battle strength would be weakened. It is easy to recruit them because of them. What about those three black skin fat armor beetles?”

The investigative Gu Master answered: “They were all taken by Chang Shan Yin.”

Zhong Fei You’s expression turned ugly.

He tried to steal a chicken only to end up losing the rice used to lure it 1 , not only did he fail to get the resources, he even made an enemy out of Chai tribe.

Speaking of which, Chai tribe and Zhong tribe were in-laws, they had a close relationship. Otherwise, they would not have moved together, and when they set up camp, they chose to live closely to each other, to look out for one another.

But, the world is cruel.

Right now, the Imperial Court competition was not just about benefits for Zhong tribe and Chai tribe, it was about their survival.

Their relationship was only a method to defend their interests. When it was time to abandon the other, they would do so without hesitation.

In the main tent, there was a pressurizing silence.

Long after, Zhong Fei You sighed: “A person like Chang Shan Yin, even if we gather all our strength, we cannot compete against him. But northern plains is not his alone, there are three enslavement master stronger than him! We will note down this battle, and after we go to Lord Liu Wen Wu, one day, we will take revenge!”

Zhong tribe elders nodded in agreement.

Not long after, Zhong tribe set off as well.

Using a total of nine days, Fang Yuan led the wolf group that had expanded drastically in size back to Ge tribe camp.

Ge Guang led the Ge tribe higher-ups as he went out to welcome Fang Yuan back.

"Lord supreme elder, your cultivation recovered?!" When Ge Guang felt Fang Yuan's rank four peak stage aura, he was shocked and delighted.

Fang Yuan nodded, replying plainly: "It recovered, it was about time anyway."

Back then, Chang Shan Yin's cultivation was rank four peak stage. Later, he fought a grand battle with Ha Tu Gu and was injured to the point of nearing death, going into hibernation.

But now, Fang Yuan's first aperture had reached rank five peak stage. Even with northern plains' suppression, he still had rank five initial stage aura.

His current rank four peak stage aura was only due to the effect of breath concealment Gu.

As for his second aperture, because it first appeared in northern plains, there was no suppression and it was still rank three peak stage.

Keeping it secret for now, and then slowly releasing the aura, not only could be keep it as a trump card, he could even allow others to gradually accept his improvement without suspicion.

Fang Yuan followed the Ge tribe higher-ups back to camp.

Ge tribe camp was expanding, along the way, construction could be seen everywhere. Large numbers of mortal slaves or even Gu Master slaves were being mercilessly utilized.

Winner takes all, this was the cruelty of war, and also the beauty of it.

Ge tribe higher-ups were cheerful and joyous, after Ge tribe took down Bei tribe and Zheng tribe, they expanded greatly, as they tried to digest this new found force, the entire tribe's strength had increased greatly.

The biggest problem now is the lack of slavery Gu. If we had large numbers of slavery Gu, we could send these slave Gu Masters into battle. This will greatly increase our battle strength!" Ge Guang exclaimed.

Slavery Gu was a Gu worm that could control people.

But man is the spirit of all being , they were much harder to manipulate than beasts. The burden on the soul was greater, especially when enslaving Gu Masters with strong soul.

Thus, in general, a Gu Master rarely controlled more than five slaves. As for slave Gu Masters, the numbers were fewer. Normally, a Gu Master could only control one slave Gu Master, any more and the burden on their soul would be too much.

As for those slave Gu Masters with strong souls, to control them, one's soul had to be even stronger.

Fang Yuan naturally had the ability to get lots of slavery Gu.

But if he did so, he would expose many things. Ge tribe was only a chess piece in his plans, he did not need to worry for them to that extent.

"Next, I need to continue cultivating in seclusion. You will help me feed this wolf group." Fang Yuan spoke.

"Yes." Ge Guang quickly replied, but his heart was crying out.

Now that Ge tribe was expanding, they were facing a huge lack of manpower. The wolf group was too huge, the burden of feeding them would be great, this would expend a lot of labour for Ge tribe!

But Fang Yuan's next sentence made this young Ge tribe leader joyous —

"I brought a lot of resources back this time, they were obtained when

I was hunting wolves. Use them as you wish, but remember, the things on those three black skin fat armor beetles are mine, safeguard them for me properly."

"Yes, Lord Supreme Elder!"

For the next few days, Fang Yuan stayed inside Ge tribe camp, cultivating bitterly in seclusion.

His second aperture's cultivation level needed to increase. Although he had thousand man soul, he still needed wolf soul Gu to strength himself, becoming a thousand man soul level wolfman soul.

At the same time, his strength path also needed improvement, he needed to continue using jun strength Gu.

When he needed to relax, he would take out the items on those three black skin fat armor beetles and inspect them.

These resources that Chai tribe painstakingly gathered were very strange, they were all grey-white stone slabs.

But the surface of these stone slabs were filled with black ink lines. Some were straight while others were curled, there were thin and thick lines. The lines were drawn over one another, some looked like letters while others looked like drawings of scenery.

If these stone slabs were real, that would be a huge deal. Tracing their source, they were from the immemorial era, Ren Zu's ninth daughter, Carefree Wisdom Heart.

< > states that in order to save wisdom Gu, Carefree Wisdom Heart came to the Qian Kun Crystal Wall.

Qian Kun Crystal Wall was straight from top to bottom, it floated in mid air like a giant mirror.

In the mirror, there was a book mountain.

On the book mountain, there was a ink waterfall, landing on the mountain rocks to form a literature spring.

The ink waterfall continued to flow, as it landed on the literature spring, water splashed about. These black color splashes flew in the air as the water droplets formed into words.

This was the origin of the hundred clan writing system in the Gu Master world.

After Qian Kun Crystal Wall was broken, it turned into numerous grey-white stone slabs.

Legends say that if one gathered all of the stone slabs, they could piece back Qian Kun Crystal Wall and the Gu Master would be able to enter book mountain again.

If one looked at the history of humanity, they would find that generations of Gu Masters, Gu Immortals, or even Immortal and Demon Venerables collected these stone slabs before.

Precisely so, large numbers of counterfeit stone slabs appeared quickly.

These fake stone slabs were indistinguishable to real stone slabs, unless the Gu Master was an experienced appraiser.

In history, the most authoritative and accomplished appraiser Gu Immortal was treasure yellow heaven's owner, Daoist Countless Treasure who owned treasure light Gu.

But even he could only identify them with an accuracy of seventy to eighty percent.

There were simply too many fake stone slabs, too many Gu Masters tried making fakes, even Thieving Heaven Demon Venerable himself.

Thieving Heaven Demon Venerable purposely created many fakes and scammed many Gu Immortals. The fakes that he made were very convincing, they could even surpass the real deal.

Fang Yuan had never thought of collecting all the stone slabs and restoring book mountain.

Even a rank nine Gu Venerable did not succeed, Fang Yuan had no such drive to waste his effort.

He was only resting now, and tried appraising these stone slabs.

In his previous life, he had trained his eyes to be discerning, he had also once sold and created these fake stone slabs.

Right now, he tried appraising these stone slabs, removing the fakes, it was a form of relaxation.

But unexpectedly, just when he was playing with one of the stone slabs, something happened.

This stone slab that he had evaluated to be a fake, after Fang Yuan injected his primeval essence, the ink lines started to move mystically.

ChibiGeneral ChibiGeneral Chinese proverbs are really funny when translated literally so I like to keep it that way. The ending of this chapter sounds pretty cliche… or is it?

Chapter 496 - Di Qiu Inheritance

Chapter 496: Di Qiu Inheritance

Translator: ChibiGeneral Editor: ChibiGeneral

The ink lines changed and morphed randomly, after a long while, it settled and formed a terrain map.

At the center of the map, there was a heightened land. There were no cliffs as the slope was very gentle, there was an opening that resembled a tunnel.

On this place, two words were indicated — Di Qiu.

All around Di Qiu, there were swamps and forests, at the southwest corner, there was a river.

At the lower area of the map, there were four lines — “light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow.”

Fang Yuan muttered it silently, but after a long time, he had no idea what it was saying 1 .

These four lines were like poems, or not. They sounded like Gu recipes, but unlikely.

But Fang Yuan was sure about one thing, these four riddle-like lines were definitely clues left behind on purpose.

More amazingly, after the map formed for a while, it faded from the grey-white stone slab.

Soon, this stone slab in Fang Yuan’s hands turned white, there was nothing left on it.

But when Fang Yuan closed his eyes, he could easily recall every detail on this map, at an extreme clarity.

This was not his outstanding memory, instead —

“Painting idea Gu. A painting idea Gu was once used on this stone slab. This Gu can turn into scenery images and etch itself into a Gu Master’s memory, so that they will never forget it.”

Light of comprehension flashed across Fang Yuan’s eyes.

Evidently, this was an inheritance that a Gu Master left behind.

In order to appraise these stone slabs, Fang Yuan had taken many crystal clear Gu, sunshine Gu, moonshine Gu etc from Ge tribe’s inventory.

Just earlier, he had used these Gu worms and injected his primeval essence skillfully to test them.

These methods were unique ways to appraise grey-white stone slabs.

In the end, these methods became the key to activating the secret of this stone slab.

“The Gu Master who created this stone slab counterfeit not only used painting idea Gu, he also used other Gu worms to form this effect. This is an inheritance from a Gu Master, in order to find the inheritor, he spent quite a bit of effort.”

Fang Yuan smiled, to think that under such a situation, he obtained the clues to a Gu Master’s inheritance.

Inheritance was one of the cultural identity of this world.

Be it righteous or demonic Gu Masters, they would choose to create an inheritance, to leave behind an imprint unique to them in this world.

Although he was lucky to receive clues about this inheritance, Fang

Yuan did not show much joy.

In his previous five hundred years, he had encountered many of such situations, he was used to it.

Most Gu Masters would leave their inheritances behind.

Therefore, inheritances were always in ample numbers. There were Gu Immortal inheritances, rank four or rank five Gu Master inheritances, these were the truly valuable ones. But there were also many rank two or three inheritances, even those made by rank one Gu Masters.

With the passing of time and natural or man-made disasters, many Gu Masters often leave disappointed when exploring an inheritance.

Some inheritances were destroyed long ago. Others were already taken by the time someone found it. For some inheritances, they were demonic inheritances, traps created by someone meticulously, those mentally twisted Gu Masters who wanted to take revenge on the world before dying.

“I am too busy right now, I cannot abandon my plans for such a vague inheritance. Moreover, with just this map, where am I going to find that ‘Di Qiu’ place anyway.”

Getting Di Qiu inheritance map was only a tiny accident, Fang Yuan quickly forgot about it.

In the following days, he continued cultivating while refining Gu.

From what he gained from the two tribes, he saw an improved recipe and found it interesting.

Taking out a few Gu worms from Ge tribe’s warehouse, he spent a few days, and after failing twice, he refined the rank three eagle wings to the rank four eagle rise Gu.

Speaking of which, this eagle wings Gu was nearly unused in his hands. After Fang Yuan left poison grassland, he came to Hong Yan valley and reached Ge tribe camp. When he walked around the few markets that were set up during his stay, he bought it.

Wolf King Chang Shan Yin was not a flying expert. Fang Yuan would not use this master level technique easily.

This was a trump card, once he used it, it would shock the world.

Chang Shan Yin went missing for more than ten years, it was easy to make an excuse. Who knows what opportunities and inheritances he came across during the years, why couldn't he become a flying expert?

A few days after refining eagle rise Gu, Ge Guang visited Fang Yuan personally and brought the latest news with him.

"Ma tribe had completely absorbed Fei tribe, and became Tian Chuan heroes assembly's main character…"

"At Meng Qiu heroes assembly, Nu Er tribe's representative is a rank five Gu Master Nu Er Tu."

"Cao Fu's Zhao tribe? Mm, that Zhao Lian Yun, Ma Hong Yun's wife, the wondrous woman who became a wisdom path Gu immortal in the future, is only a young innocent girl now."

"No matter what, Ma tribe gained so much attention now, they definitely planning something big, to fight for the coveted throne of the Lord of the Imperial Court. This is the same as in my previous life's memories. But will Ma Hong Yun appear?"

Fang Yuan thought about it as he recalled.

He could vaguely remember that during this contest, Ma tribe showed outstanding strength, especially during the start, they had strong troops and high morale, they defeated many strong foes.

But a tall tree is the first to face destruction, soil that is nearest to the water will be the first to be swept away by the currents.

Ma tribe gained too much attention, they were targeted by experienced tribes of the Huang Jin family, after several tough battles, although they won, they had great losses and were weakened.

Eventually, Ma tribe was forced by Hei Lou Lan, facing encirclement.

Hei tribe had a great number of people, but Ma tribe had fortified defense, they were able to protect themselves.

Hei Lou Lan brought his troops personally but was unable to gain victory, seeing the approaching blizzard, he had to relent.

After Ma tribe submitted to Hei tribe, they gained the rights to enter the Imperial Court. Ma Hong Yun, with his absurd luck, also managed to get in.

Precisely because he used this opportunity, he obtained the partial inheritance of an Immortal Venerable inside the Eighty-Eight Edge Treasure Building, which became the foundation for his rise in the future.

At this moment, Ge Guang spoke, asking Fang Yuan: “Lord Supreme Elder, most of the heroes assembly are taking place fervently now. Our Yu Tian heroes assembly also has many experts and competitors, engaging in fierce competition. Among them, Liu Wen Wu and Hei Lou Lan are the two tribes with the greatest strength, the other forces cannot compete with them.”

“Right now, only our tribe is still left in crescent lake. Even the large-sized tribes have set off for Yu Tian, to attend the heroes assembly. After these days of recuperating, we have already digested most of our battle spoils, and stabilized the situation. If we don’t set off now, we might not make it in time.”

Fang Yuan nodded.

The heroes assembly was a place where forces probed each other and created powerful alliances.

Although Ge tribe gained strength quickly, they were only a mid-sized tribe. If they did not attend the heroes assembly, and detached themselves from the rules of the game, they would be ostracised, that had a huge impact on them.

Although Ge tribe leader was Ge Guang, every since Fang Yuan took the role of supreme elder, his decision was already the number one priority of Ge tribe.

During these days, Ge Guang and the other higher-ups were starting to get anxious.

They did not have Fang Yuan's memories, they did not know that during this Yu Tian heroes assembly, there would be a huge contest, and thus it ended the latest.

Fang Yuan had made his arrangements in light of this.

He waved his hand, saying to Ge Guang: "Although the tribe has stabilized, that is only on the surface. In the dark, there are still many people whose hearts are not with us. If we really went to battle, even with a mid-sized tribe's scale, we would not be able to unleash the corresponding strength."

Ge Guang lowered his head, listening to Fang Yuan's teachings patiently.

Fang Yuan continued: "Yu Tian heroes assembly's contest has just entered the climax. We are in no rush to get there. For now, we are going to onion valley."

"Onion valley?" Ge Guang showed some confusion.

Onion valley was a place like crescent lake, it was a wide valley overgrown with green onions, it was a unique habitat.

There, large numbers of beast groups lived, at a larger scale than crescent lake. of course, there were countless wild Gu worms.

Among them, there was the extremely famous rank two Gu, onion explosion Gu.

This Gu looked like an onion, but it was not green or white, instead it was red like fire. Once activated, it would emit an intense odor.

When wild beasts smell it, they would turn irascible, showing their wild nature, they would be more likely to attack people.

Thus, onion valley was much more dangerous than crescent lake.

Why did he want to go to such a dangerous place instead of attending the heroes assembly?

But soon, Fang Yuan said his reason: “Very long ago, I bred some wolves in onion valley, after these years of growing, they should’ve matured and expanded.”

“So that’s it!” Ge Guang’s eyes shone.

It was very resource expending to nurture an enslavement path Gu Master, just the food needed to feed their wild beasts daily was an astronomical figure.

These days, in order to take care of Fang Yuan’s wolves, Ge tribe had expended a lot of their resources, causing Ge Guang to wince in pain and have a clear understanding of this.

Thus, many enslavement path Gu Master would choose to let beast groups grow on their own.

They would choose some appropriate locations and leave some beasts behind as the seeds.

Once in a while, they would go to check their growth, if the beast group expanded, they would have profited.

Of course, the chances of having gains was low, in most situations, the beast groups would shrivel, or even get exterminated.

But even so, most enslavement path Gu Masters would choose to do so.

After all, enslavement path was a huge burden on resources. How many moral Gu Master could be like Fang Yuan, sending their beast groups into the blessed land?

After Fang Yuan said that, Ge Guang immediately understood.

“After so many years, the wolf king is still around, but I do not know how many wolves there are left. But this time when we attend the heroes assembly, the more wolves there are, the better it is for us. We will have greater authority and voice if our wolf group is larger.”

Hearing Fang Yuan's words, Ge Guang nodded, agreeing: “Lord Supreme Elder is right, then when do we set off?”

“Today.” Fang Yuan said.

Chapter 497 - Mo Shi Kuang

Chapter 497: Mo Shi Kuang

Translator: ChibiGeneral Editor: ChibiGeneral

The sky was pure and azure, and the ground was like a sea of jade.

The soil here was especially fertile with water plants growing lushly, reaching up to a man's knee.

This was the famous Yu Tian of Northern Plains, reputed as one of the most abundant pasturelands. Now, people were gathering here with their banners fluttering in the wind.

Yu Tian's heroes assembly had already lasted for half a month.

In the first week, every tribe was shouting their own slogans, causing clamor and disturbance. But gradually, all the forces began to join up through alliances. And now, the two strongest forces remained.

One side was Liu tribe's Liu Wen Wu and another was Hei tribe's Hei Lou Lan.

At this moment, the two sides were valiantly confronting each other.

In the center of the people was built a spacious battle stage.

In the battle stage, two Northern Plains' Gu Masters were having an intense battle; both of them with rank four cultivation.

Outside the stage, everyone was looking at the battle intensely. Battles at tribe leader levels were not something they normally had a chance to observe.

Especially the two people on the stage; one righteous and another demonic, both were famous characters and had deep hatred against each other!

“Water Demon, hand over your life!” The middle aged Gu Master in the battle stage shouted and stamped his foot, jumping into the air.

In the air, he took a deep breath then breathed out a basket-sized dark flame towards his opponent.

Water Demon Hao Ji Liu’s heart gave warning signs.

His eyes flashed with blue light as he crazily poured his yellow gold primeval essence into water wall Gu.

“Rise!”

He raised his two palms from bottom to top; his movement looked heavy as if he was lifting a weight of ten thousand catties.

Following his movement, boundless water vapor formed into a blue waterfall that rose up from the ground.

The waterfall charged up in reverse and then came down, forming an arch of thick water wall.

The dark flames slowly fell onto the water wall and was immediately extinguished.

“Huh?” The spectators were stunned. They were just about to ridicule Water Demon for making a big fuss over nothing, when suddenly the spark with only a bit of light left in it suddenly exploded!

BOOM!!!

The deafening explosion was like the crackling of the thunder.

Great amounts of flames rushed forth and evaporated the thick water wall into water vapor.

The strong impact created a frantic wind that rapidly spread everywhere.

But the storm could not get out of the stage. There were Gu Masters standing around the battle stage, activating their defensive Gu to form a round barrier that firmly guarded the stage.

“Such terrifying skill!”

“Such intense explosion has already neared the effect of a rank five Gu. This killer move has all along been concealed by Fire Prodigal Chai Ming!”

“Although Water Demon detected it, he still underestimated Lord Chai Ming’s attack.”

As the shocks from the explosion started to dull down, everyone started discussing and making a din with their gaze concentrating on the battle stage.

Even Hei Lou Lan and Liu Wen Wu were unable to take their eyes off.

But within the round light barrier, water vapor caused the stage to become a scene of white, making people unable to see clearly.

Everyone patiently waited and when the water vapor dispersed, Chai Ming was still standing tall on the stage while gasping and looking at the body under his foot: “Water Demon, did you think a day like this would come when you killed my father that year?!”

Water Demon Hao Ji Liu spurted out mouthfuls of blood showing a pained expression under Chai Ming’s step.

“Hahaha, it is our win!”

“Lord Chai Ming is mighty!”

The spectators were dazed for a while before the side belonging to Liu Wen Wu burst out with extremely loud cheers.

On the other hand, on Hei Lou Lan’s side, some onlookers were silent, while others had twitching mouths.

“Brother Lou Lan, you let me win 1 .” Liu Wen Wu stood up from his seat and cupped his fists towards Hei Lou Lan with a smile, showing an elegant demeanour.

Hei Lou Lan looked like he had not expected this result as he coldly snorted. Just as he was about to say few words to keep up with the formalities…

Whoosh!

A soft sound sounded out, and Chai Ming looked towards his chest in shock.

A sharp water blade protruded out of his heart.

He looked back slowly to see his enemy Hao Ji Liu malevolently smiling towards him with his face full of blisters from the fire.

“This is the real body, then under my foot is….” Chai Ming was full of doubts.

Bang.

Coincidentally at this time, the ‘Hao Ji Liu’ under his feet turned into a pool of water and dispersed.

“It is water image Gu!” someone exclaimed.

“Water image Gu is a rare rank four Gu, but Water Demon clearly used many other methods to make his water image look so lifelike.”

The sounds beside his ears allowed Chai Ming to understand the reason for his defeat.

“Despicable….” He said the last word of his life and died with an extremely indignant heart.

“Lord Chai Ming!” Many people cried out in sorrow.

“Brother!!” Chai tribe leader cried out with tears rapidly flowing down his eyes.

“Hahaha…” Hei Lou Lan threw his head back and laughed loudly without concealing his joy in the slightest. He raised his thumb towards the Water Demon, “Hao Ji Liu, you did great! Come, drink this wine!”

“Many thanks for lord’s reward.” Water Demon walked off the stage while grimacing in pain from the burns that were all over his body, but still accepted the cup of wine and drank it in one shot.

“Great wine!” He gave a flattering smile and returned the wine cup to Hei Lou Lan.

Although everyone disdained his shamelessness, his strength was displayed in front of them and with adding in his evil reputation, no one ridiculed or mocked him.

Hei Lou Lan waved his hand and spoke with his coarse and boorish voice: “Take this cup as a reward too. Yan Cui Er, come, bring me a new cup and pour me the best wine!”

Following his beckoning, a beautiful young girl in gorgeous attire obediently walked forward and places several wine cups in the table in front of Hei Lou Lan, then gracefully poured wine.

She was the eldest daughter of Yan tribe, Liu Wen Wu’s fiancee; kidnapped by Water Demon Hao Ji Liu, she was offered to Hei Lou Lan as a meeting gift.

Hei Lou Lan hurriedly brought Yan Cui Er with him to the heroes assembly as an attack against Liu Wen Wu.

“Young master Liu, you can’t win against me. Why not admit defeat and I shall return your fiancee to you?” Hei Lou Lan drank the wine in one shot and boorishly wiped off the wine that dropped to his beard.

“Hehehe, why does a man have to worry about having no wife? This girl is beautiful, but how could she replace the ambition inside my heart? Brother Lou Lan, haven’t you heard of the old saying that women are like clothes while brothers are like our hands and feet ? Since brother Lou Lan likes her, feel free to have her.” Liu Wen Wu chuckled, showing not even a bit of anger.

“Young master Liu is really ambitious!”

“Young master Liu Wen Wu is a true man of our Northern Plains.”

“Right, only such a person is worthy for us to follow!”

Liu tribe’s side spoke one after another in support of Liu Wen Wu. Since it was a woman, they were not moved and did not have any thoughts of retorting.

This was the tradition of Northern Plains, regarding men as superior to women; w omen are like clothes and brothers are like hands and feet — this saying was said by none other than Giant Sun Immortal Venerable.

The bloodlines that Giant Sun Immortal Venerable had passed on was collectively called as Huang Jin family.

Huang Jin family held the supreme authority in Northern Plains and also followed the old ancestor’s tradition.

Since Liu Wen Wu could compete with Hei Lou Lan on equal terms, he was naturally not somebody easy to deal with. His words were instead secretly ridiculing Hei Lou Lan’s lustful and unambitious nature, giving him an appearance that he was not infatuated with the mortal affairs.

Hei Lou Lan furiously snorted: “Your Liu tribe has always been able to talk well. But so what? Come come come, we will send our people on the stage and have a match!”

Liu Wen Wu’s expression immediately changed a little.

Rather than Yan Cui Er, this was his greatest weak spot.

In the previous nine matches, he only won three matches and lost many experts. In the battle just before, he even lost the rank four expert Fire Prodigal Chai Ming.

Now, Hei Lou Lan was inviting him for battle again, and he had no choice but to accept.

If he did not accept, it would show his cowardice. The men of the Northern Plains despised a cowardly master the most.

But if he accepted, he was sure to lose more than win.

“Damn it, this bastard is intentionally challenging me to weaken my elite battle forces. But I cannot show weakness in the heroes assembly. Who should I send this time?”

Liu Wen Wu inwardly gritted his teeth, his gaze sweeping beside him.

There were people from both righteous and demonic path who had sided with him, with no lack of famous characters. But at this moment, they did not dare to meet Liu Wen Wu’s gaze and either lowered their head or gazed far away.

Right as Liu Wen Wu’s subordinates were feeling awkward, a loud voice came from a distance: “Big brother, no need to worry, send me!”

“Third brother has come.” Liu Wen Wu was very happy at the voice.

The crowd parted and created a passage. The person who walked through the path caused everyone to be surprised.

This person was tall with a beefed up body, a fierce mouth and wide nose, skin as dark as ink, with snowy white lush hair and beard that seemed to blend together like a lion’s mane.

The white hair and black skin was such an unusual appearance that caused the crowd to be dazed for a while before someone exclaimed, revealing this person’s identity – “This person — is an inkman!”

Rockman, eggman, hairy man and inkman were not Ren Zu’s descendants but variant men.

Inkman was also recorded in the Legends of Ren Zu. Their homeland was the Book Mountain.

The book mountain had an Ink Waterfall which would crash down on the Literature Spring, and the raging ink would fall on the rocks, forming inkmen.

“Big brother, little brother is late!” This inkman walked to the center of the site and bowed deeply towards Liu Wen Wu.

“Not late, not late. You came at a good time.” Liu Wen Wu patted the inkman's shoulder and introduced him to everyone, "Everyone, this is Mo Shi Kuang, whom I have sworn brotherhood to at my early years."

"Mo Shi Kuang…. Young master Liu really has good vision, fooling around with an insignificant variant man. Alright, let my Viper Prince exchange moves with your brother."

From Hei Lou Lan's side, a male Gu Master with triangular eyes walked out.

"Come." Viper Prince walked to the battle stage and beckoned Mo Shi Kuang with his finger.

Mo Shi Kuang was provoked by this action and immediately jumped to the stage in fury: "Die!"

He clapped his two palms.

BOOM!

An invisible force swept everything, crushing towards viper prince without any obstacle.

"What? Qi path!? Rank four peak stage!! Shit…" Viper Prince could not even finish speaking before he was crushed into minced meat which then splattered everywhere.

The result was decided with one move.

Gasp…

The sounds of sucking in cold breath resounded in the air.

Chapter 498 - Wolf Howl

Chapter 498: Wolf Howl

Translator: ChibiGeneral Editor: ChibiGeneral

Hei Lou Lan looked at Mo Shi Kuang with a gloomy face.

He had a bad premonition when Mo Shi Kuang stepped on the stage, but when Mo Shi Kuang smashed Viper Prince into minced meat with one move, Hei Lou Lan's heart turned heavy.

Mo Shi Kuang was a rank four peak stage expert and cultivated Qi path.

Humans were the spirit of all living beings and could awaken their aperture through hope Gu.

Since variant men had the 'man' word on them, they naturally had higher spirituality than beasts. But this spirituality was much less than humans. Thus, only few variant men could achieve such accomplishments in cultivating.

The absolute majority of the variant men would never awaken their aperture in their whole life, only a few fortunate ones could.

Only the fortunate among these fortunate ones could achieve success in cultivation.

This Mo Shi Kuang was one such special case.

“No wonder Liu Wen Wu made friends with Mo Shi Kuang, if it were me, I will also be willing to make friends with such a rank four peak stage expert.” Realization dawned upon many people.

“Hey, the black-skinned fatty over there, is it you who wants to oppose my big brother? Come come, send your experts, let me slap your lackeys flat!” Mo Shi Kuang patted his chest and shouted loudly, a heroic aura showed in his boorish manner.

“Black-skinned fatty…” Hei Lou Lan’s eyelids twitched and was extremely angry, ‘Although I am fat, am I as black as you? This black boor is really hateful!”

“Hei Xiu Yi.” Hei Lou Lan lightly called, his calm voice holding within a burning rage.

“Here!” A thin man immediately responded.

“Go teach this guy a lesson.”

“Yes, lord tribe leader.” Hei Xiu Yi agreed expressionlessly and unhurriedly walked.

His gaze was as indifferent as ice. As he walked, a black light blossomed over his whole light. The black light condensed and formed an armor that firmly covered him.

Next, a dim green halo flew over his head.

Fifty-six flying bone shields flew out and hovered beside him, completely shielding him.

Similarly, nine greyish-blue ghost faces whimpered and hovered around him.

By the time he stepped on the stage, he was completely armed and protected.

The crowd was in a clamor, Hei Lou Lan’s words were very imposing but he actually sent a defensive Gu Master to bring out Mo Shi Kuang’s trump cards.

“Ahahahaha.” Mo Shi Kuang was instead very happy, “You are a guy asking for a beating, come, eat my punch!”

The moment he finished speaking, his right hand clenched into a fist and fiercely punched at Hei Xiu Yi.

Instantly, his fist strength condensed into a thick fist qi which fiercely slammed at Hei Xiu Yi who was dozen of steps away.

If it was someone else, just this punch would leave them handicapped if not dead.

But Hei Xiu Yi forcibly took on this punch; his upper body shook a bit, but his lower body did not move in the slightest.

“Good!” Mo Shi Kuang was very happy at this. He was different from ordinary inkmen, and was extremely addicted to fighting. He became thrilled at this moment and shouted, “Again!”

He slowly took off to the air, his snow-white hair swaying loosely with the air. After pulling open a distance from Hei Xiu Yi, he started to punch rapidly.

The punch shadows rained down like a torrential rain, the translucent fist qi shooting towards Hei Xiu Yi.

ORA ORA ORA!!!!

The fist qi exploded on Hei Xiu Yi’s armor, producing a sound like that of thunder crackling.

But Hei Xiu Yi was like a giant reef that would stand tall no matter how many sea waves struck it.

The fifty six flying bone shields dispelled most of the force on him.

Some bits and pieces of fist qi struck at his black iron like armor, but it was of no use.

The scattered qi flow was absorbed completely by the nine ghost faces.

When Mo Shi Kuang’s crazed attacks stopped, the halo above Hei Xiu Yi let out a dim green light and shone down upon the flying bone shield, completely repairing the cracks in the shields.

“Let me return this to you.” Hei Xiu Yi sneered; the nine ghost faces opened their mouths together and spurted out dozens of fist qi.

Shockingly, Mo Shi Kuang's attack was returned back to him in full.

Mo Shi Kuang was dazed at the dozens of fist qi; the fist qi exploded on him one after another and he crashed down to the ground.

"Hahaha, rank four peak stage is nothing outstanding." Immediately, someone shouted outside the stage.

"Young master!" A person beside Liu Wen Wu nervously shouted, "Hei Xiu Yi is one of the three commanders of the black banner troops; a rank four upper stage Gu Master specialized in defense. Should we call Mo Shi Kuang back?"

"Don't worry." Liu Wen Wu was not worried and instead had a joyful smile as he looked at Hei Lou Lan then at Hei Xiu Yi at the stage, "My third brother is extremely addicted to fighting. The stronger the opponent is, the more excited he becomes. Hehe, watch the show unfold now."

"Hahaha… refreshing, so refreshing." Mo Shi Kuang suddenly let out a crazed laughter and jumped up from the ground.

His eyes turned as red as fire and he looked at Hei Xiu Yi with a burning gaze.

"You are somewhat interesting, worthy of me using half my strength." Mo Shi Kuang said earnestly.

Hei Xiu Yi was naturally not happy: "Hmph, boastful guy, give me all you've got!"

"HAAAAAAH!" Mo Shi Kuang's body shook, an intense inhuman aura like that of lions or bears erupted from his body, oppressing everyone's hearts.

Whoosh!

He rushed to the sky with overflowing might like that of a demon god, and lifted his right leg.

"Here it comes!" He excitedly shouted and kicked his right leg towards Hei Xiu Yi.

Whoosh!

The sound of the wind suddenly whirled and boundless air condensed into an enormous foot.

This foot was nearly transparent and was as big as a small hill. It crashed down rapidly with an incomparably violent momentum.

“Such an attack!” For a moment, not only Hei Xiu Yi, but Hei Lou Lan and others all stared with their eyes wide open.

“Defend, use all your strength!!” The several rank three Gu Masters who were in charge of defending the site, shouted one after another.

The enormous foot stamped down; Hei Xiu Yi gritted his teeth and immediately sent his fifty-six flying bone shields to take it on.

But the flying bone shields could not last for even a second and were smashed by the foot!

Next, the enormous foot smashed down like a mountain.

The green halo was instantly broken, the nine ghost faces did their best to absorb the force but could only weaken one-tenth of it before dispersing.

The chaotic air flow could not even scatter before it was suppressed by the enormous foot.

Hei Xiu Yi felt an irresistible force heavily pressing down on his spine. He wanted to resist, but was powerless and within a few breaths of time, was pressed down to the ground.

The black iron armor which had made him famous was crushed to pieces by the huge force.

Crack…

The sounds of his bones breaking continuously entered his ears and large amounts of blood flowed out of his seven facial orifices.

The huge force was still spreading towards the surroundings. Several defensive Gu Masters had to sacrifice their lives to maintain the light barrier and not let it collapse.

After the dust dispersed, Hei Xiu Yi was lying on the ground like a dead dog, motionless and at his last breath.

Hei Lou Lan's expression paled as he stood up immediately. Hei Xiu Yi was part of his direct family line and was one of the three commanders of the black banner troops; without him, black banner troop's battle strength would fall by at least twenty percent. At the same time, Hei Xiu Yi was Hei tribe's supreme elder's grand-nephew's son, so this was a matter of utmost concern.

Hei Lou Lan had never expected Mo Shi Kuang to be so strong; his strike could almost jump realms and challenge rank five Gu Masters.

Hei Xiu Yi could not be lost, Hei Lou Lan immediately sent orders: "Bring back Hei Xiu Yi!"

Immediately, two rank three Gu Masters rushed forward.

The defensive Gu Masters hesitated but not wanting to offend Hei Lou Lan, they did not block the way, instead loosening up the barrier.

"Lord, this Hei Lou Lan is extremely shameless, actually is trying to break the rules! Let me go too!" A Liu tribe elder shouted in indignation.

Liu Wen Wu, however, just chuckled: "Nothing to worry, let them experience the power of my sworn brother."

"A group of scoundrels!" Mo Shi Kuang shouted in fury before waving forward with his right fist.

He seemed to be dragging a thousand jun of weight as he moved his hand, giving a feeling of slow exertion of power.

An enormous arm made of qi – fifty feet in length and ten feet wide – rapidly formed under everyone's dumbstruck gaze.

Whoosh…

The qi arm produced a sound like that of a roaring dragon or tiger and also seemed like a hurricane that would blow away everything.

The enormous qi arm fiercely swept across in a wild and unrestrained manner; if it came across mountains, it would break them, and if it came across seas, it would split them!

The two rank three Gu Masters that came to rescue Hei Xiu Yi were like flies as they were swept flying by the enormous qi arm.

The qi arm then swept outside the stage, causing sounds of shocks and screams to resound.

Many spectating Gu Masters who were not able to dodge in time were smashed into minced meat by the qi arm. Hei Lou Lan and his group hurriedly retreated to avoid the brunt of the attack.

“Courting death!”

“Kill him!”

“He actually attacked us, let’s attack him together!!”

Hei Lou Lan and his group who avoided the brunt of the attack, made their moves one after another and immediately shattered the qi arm.

“Hahaha, more!” Mo Shi Kuang did not show a hint of fear in facing so many Gu Masters, and instead became even more happy, his battle intent burning high.

He advanced instead of retreating like a tiger that had came out of the mountain, his beard fluttering as he charged towards Hei Lou Lan and the group.

“Not good, third brother has gone berserk again.” Liu Wen Wu could not remain calm anymore, he waved his hand, “Everyone, follow me to reinforce third brother!”

Liu tribe’s side also entered the battle; heroes assembly immediately turned into a chaotic mess, an unprecedented large chaotic battle suddenly unfolded.

Mo Shi Kuang rampaged here and there in the battlefield, and Hei Lou Lan along with his group smoothly grabbed Hei Xiu Yi and retreated. Chai tribe's Gu Masters charged towards Water Demon Hao Ji Liu, and the heavily injured Hao Ji Liu could only flee here and there…

It was chaos.

"Shit! This is only the heroes assembly, we absolutely cannot have such a battle and suffer huge losses, if so how will we vie for the Imperial Court?"

"What to do? Even if our side wins, it will be a miserable victory!"

Liu Wen Wu and Hei Lou Lan felt the situation was far from good, they tried to stop it but it was in vain.

Howl!

Right at this moment, an intensely desolate wolf howl spread from far away, manifesting the presence of a beast emperor.

Howl!

Countless wolf howls followed soon after. The howling merged into a grand and majestic howl that resounded all over heaven and earth!

Chapter 499 - Turtle Jade Wolf Skin Gu

499 Turtle Jade Wolf Skin Gu

Translator:ChibiGeneral | Editor: ChibiGeneral “What happened?”

“Is there a wolf tide coming?!”

“So many wolves! There are night wolves, wind wolves, turtleback wolves, wait! There are water wolves and vermillion flame wolves!”

The shocked voices called out as the people stopped fighting, turning around and focusing their attention on the wolves.

But what they saw was a grand wolf army approaching from all directions. All sorts of northern plains wolves gathered together, and charged over collectively.

The black and nimble night wolves, the elegant wind wolves, the defensive turtleback wolves, the pure as snow water wolves, and the ones coated in blazing flames, vermillion flame wolves…

These wolf groups came together, each had at least several tens of thousands in number. At once, the grand wolf army filled everyone’s field of vision, causing people to feel suffocated as a chill grew in their hearts.

A group of people moved slowly under the protection of the wolf groups. Large numbers of farm slug Gu, black skin fat armor beetles carried huge amounts of resources, while lizard house Gu moved their four limbs forward. There was a grand tribe flag carried by one of them, symbolizing the main tent’s location. On the blue flag, there was a huge word written as ‘Ge’.

“It’s Ge tribe…”

“That means, this is Chang Shan Yin’s wolf army?”

“Didn’t Chang Shan Yin battle three tribes consecutively, how did his wolf groups expand by so much?”

Suspicion and questions filled everyone’s hearts.

“According to our intel, the Wolf King has night wolves, wind wolves, and turtleback wolves. But where did he get all these water wolves and vermillion flame wolves?” Liu Wen Wu’s face was grim.

“Big brother.” Mo Shi Kuang returned to Liu Wen Wu’s side, the huge wolf groups caused his heart to jump secretly.

“The water wolves can be explained, after all Ge tribe stayed in crescent lake for such a long time, and water wolves are most common there. But can anyone tell me where these eighty thousand vermillion flame wolves came from?”

“Vermillion flame wolves are much rarer than wind wolves, water wolves, and night wolves, they have the strongest attack power among wild wolves. We have to check clearly, where did Chang Shan Yin get such a powerful force suddenly? Can anyone tell me?!”

At once, countless tribe leaders and elders cursed the intel gathering Gu Masters in their tribes.

“Forget the vermillion flame wolves, look at that largest night wolf, is it a wolf emperor?!” Zhong Fei You pointed as he shouted.

The truth is, once the night wolf emperor appeared, numerous gazes were already assessing it.

“It truly is… a night wolf emperor.” The authority of a wolf emperor was absolute, after Bei Cao Chuan clarified it, he said dryly.

Everyone gasped.

Wolf emperor!

This was equivalent to the strength of a rank five Gu Master!!

Chang Shan Yin was only a rank four Gu Master, he actually had control of a wolf emperor?

As expected of an established character, the hero of northern plains, the one who had once single handedly taken down Ha Tu Gu and his band of bandits, this legend!

“Damn it! How did his strength rise so much? With the wolf emperor, he is already on par with Ma Zun, Jiang Bao Ya, and Yang Po Tian!” Pei Yan Fei who wanted to take revenge clenched his fists, the grand wolf army made him feel a strong sense of helplessness and defeat.

Seeing the wolf army approaching them, everyone showed a grim and fearful expression.

The chaotic battle had stopped, everyone was gathering around Liu Wen Wu and Hei Lou Lan’s side, getting into their formations.

Soon after, under everyone’s gaze, Fang Yuan rode the white-eyes wolf as he followed Ge Guang and the rest and came to Hei Lou Lan.

“Wolf King Chang Shan Yin, I’ve long heard of your name!” Hei Lou Lan first greeted him.

Hei Lou Lan’s body was bulky like an angry bear, his uneven shiny white teeth were like daggers giving people a ruthless feeling. His triangular eyes shone with threatening brilliance.

This person was extremely lecherous, it was a well known fact in northern plains.

Fang Yuan laughed lightly as he turned to look at Liu Wen Wu.

Liu Wen Wu wore white clothes, having a scholarly aura, looking like a perfect young master. His eyes were mild and his face was like jade. Beside him, there was a nine feet tall ink man, his body was black and he had white hair, standing like a guardian, he was the number one fierce general in this Imperial Court competition — Mo Shi Kuang.

Liu Wen Wu's heart jumped, Fang Yuan's deep gaze made him feel amiss.

Chang Shan Yin and Chang tribe's enmity had already been spread to the world by Ge tribe during the battle in crescent lake.

Right now, Chang tribe had already submitted to Liu Wen Wu, if Chang Shan Yin wants revenge on Chang tribe, he would first have to deal with Liu Wen Wu.

Fang Yuan retracted his gaze, looking at Hei Lou Lan, he said with a plain tone but his voice resounded in everyone's ears: "The reason why I have returned is to exact revenge. Coincidentally, the competition for the Imperial Court was undergoing, this will also allow me to meet all the grand heroes in northern plains. Brother Lou Lan, why don't we team up?"

Hei Lou Lan's pupils shrunk, as he happily stood up, walking towards Fang Yuan, grabbing his shoulders as he laughed: "Gaining Wolf King's help, it would be my greatest honor!"

At Hei tribe, the people suddenly exploded as their cheered loudly.

"Your defeated opponent, Hao Ji Liu, pays respect to Lord Wolf King." Water Demon paid respects to Fang Yuan with trepidation.

Hei Lou Lan frowned, immediately turning around, although Hao Ji Liu had gained some merits, if he offended Chang Shan Yin, Hei Lou Lan would have to kill him to express goodwill towards Chang Shan Yin.

But Fang Yuan nodded at Hao Ji Liu: "No matter, just do your best from now on."

Hao Ji Liu breathed a huge sigh of relief.

"Hahaha, the Wolf King truly has a big heart, such magnanimity, I am in awe!" Hei Lou Lan's laughter became louder, Hao Ji Liu was a rank four upper stage Gu aster, an absolute expert. Now that he got the best of both worlds, he was overjoyed.

While Hei tribe rejoiced, Liu tribe sank into solemness.

Although Liu Wen Wu had predicted this, his mood still turned terrible.

“If I had known this, I would not have agreed to Chang tribe’s request. How can a Chang tribe compare to Chang Shan Yin? Sigh, but now that the deed has been done, I cannot salvage it further.”

He sighed in his heart.

Yan Cui Er was his wife-to-be, but he could discard her. Not just because of the patriarchal traditions, but also because Yan tribe had been exterminated.

But Chang tribe’s strength was still intact.

If he really gave up on Chang tribe, it would make all the tribes that subdued to him feel disheartened and fearful, he, Liu Wen Wu, could not do such a thing.

“Hei tribe leader, my Wang tribe would like to join you, what do you think?”

“Hei Lou Lan, my Fang tribe will be betting on you this time.”

“Ye tribe is willing to submit to Hei tribe.”

At once, several of the undecided large tribes immediately chose to side with Hei Lou Lan.

Although Liu Wen Wu had fierce generals like Mo Shi Kuang, Wolf King Chang Shan Yin had allied with Hei Lou Lan.

With such a huge wolf group as the vanguard, who knows how many people’s lives would be saved in the future.

This way, all of the tribes at Yu Tian heroes assembly made their choices. A large portion joined Hei Lou Lan, while the rest went to Liu Wen Wu.

“Hahaha, Liu tribe’s lad, we will meet on the battlefield next time!”

“Brother Lou Lan, till we meet again.”

Now was not the time to fight, there were still several powerful forces outside of Yu Tian. The two groups were vigilant as they moved away from each other, towards their main camp.

On the way back, Liu Wen Wu called the intel tribe elder and chided him in public: “Where did Chang Shan Yin’s wolves come from? Investigate, investigate it clearly!”

“Yes young master! I will definitely make up for my mistake…” The tribe elder left with a forehead full of sweat.

“Brother, don’t worry. Regardless of how many wolves he has, I can directly attack and kill that Chang Shan Yin.” Mo Shi Kuang consoled him with a fearless tone.

But Liu Wen Wu was deep in thoughts.

Against an enslavement path master, one would definitely choose the beheading leader tactic. But now that Chang Shan Yin has gone to Hei Lou Lan, when they meet in battle again, Hei tribe would definitely keep him protected.

By then, it would be extremely difficult to kill him!

But, he could not ignore the concern of his sworn brother.

Liu Wen Wu smiled lightly, patting Mo Shi Kuang’s shoulder: “Hehehe, third brother, you are an unparalleled warrior that can easily take the enemy’s head, of course I trust you.”

“Big brother, you forgot about second brother. As long as he comes out of his closed cultivation, us three brothers would be able to work together, what’s there to fear in the entire northern plains?” Mo Shi Kuang laughed.

“Second brother?” Liu Wen Wu’s eyes shone, the pressure lifting in his heart: “That’s right, when second brother comes out, Chang Shan Yin is not our match when we work together. but now, we should not bother with Hei tribe, this is a troublesome tribe. We should take down the west area and gather our strength, and strengthen ourselves.”

“Just do what you want brother, I will follow behind you.”

At the same time, at another group, Hei Lou Lan laughed loudly: “Hahaha, after today, Yu Tian heroes assembly’s news will spread, all the forces around here will feel a great headache. Brother Shan Yin, your wolf army will definitely make them suspicious and scared.”

Fang Yuan had great strength, Hei Lou Lan had paid attention to him long ago. Now that he joined him willingly, this Hei tribe leader definitely had to build a relationship with him.

Not only did he treat Chang Shan Yin as an equal, when they talked, he even started calling him brother.

Fang Yuan heard Hei Lou Lan’s words and knew this was a secretive inquisition, thus he laughed plainly: “To speak the truth, I did not expect such gains. Back then at onion valley, I left some wolves behind. To think that after these years, they would expand to this extent.”

Ge Guang beside him also said: “That’s right, when Lord Supreme Elder came out of onion valley, the endless number of wolves stunned us all.”

The truth was, after Fang Yuan went into onion valley alone, he opened the stargate and connected it to Hu Immortal blessed land, bringing out most of the wolves inside.

When he led the wolf group back to Ge tribe, almost everyone was speechless. This way, the entire Ge tribe was his witness.

At the same time, he covered up his tracks on onion valley.

Right now, the evidences were solid as a mountain.

“Hahaha, brother Shan Yin’s luck is truly admirable. Letting the wolf groups develop on their own is a helpless measure, one rarely gained anything. Brother managed to get some gains, you truly are a fated individual, even heaven wants you to come out of seclusion once more. To speak the truth, after you disappeared, the entire northern plain went silent. Heaven did not want to see this, it did not want a grand character like brother to end up being secluded in the mountains.”

Hei Lou Lan’s words were all flattery, it sounded like the entire northern plains only had Chang Shan Yin.

But Fang Yuan gave a mild smile purposely, laughing arrogantly: “This time, I want to exact revenge, but I also want to spar with Ma Zun, Yang Po Ying, and Jiang Bao Ya. Finally, I want to make use of Imperial Court blessed land and improve my cultivation further.”

Saying so, he acted as if the entire Imperial Court was his own.

Hearing such arrogant words, even Water Demon Hao Ji Liu bit his tongue.

“Good, this is the aspiration of a true northern plains man!” Hei Lou Lan praised, giving a thumbs up to Fang Yuan, taking out a Gu worm as he handed it to him: “Good Gu belongs to heroes, since brother Shan Yin came to me, that is my honor. This rank five Gu is our meeting gift, please accept it.”

Fang Yuan took a look, this was a turtle jade wolf skin Gu, it had great defense. Fang Yuan had heard of this Gu’s recipe back in his previous life, the rank five turtle jade wolf skin Gu was made using a living turtleback wolf emperor.

If there really was a turtleback wolf emperor, Fang Yuan would rather it be part of his force, than sacrifice it and turn it into a Gu.

Although Fang Yuan could use treasure yellow heaven to get rank five Gu as well, this turtle jade wolf skin Gu suited his enslavement path. It would take him a lot of time, effort, and most importantly, immortal essence stones, to get such a Gu.

After all, Fang Yuan only had two immortal essence stones left.

Now that this Gu was given to him for free, that would be the best.

“Alright then, I will happily receive it.” Fang Yuan said, as he really grabbed this Gu without hesitation.

Chapter 500 - Trapped inside and outside, slashing thorns and vines

Chapter 500: Trapped inside and outside, slashing thorns and vines

Translator: ChibiGeneral | Editor: ChibiGeneral

Twelve days later.

In the secret room, Fang Yuan was seated above a cushion with both eyes closed, his whole body was tense, and his mind was in placid tranquility. His attention was solely focused on the turtle jade wolf skin Gu that was within his aperture.

Currently, the Gu floated atop his primeval sea within his first aperture; primeval essence was continuously poured onto it, which caused the Gu to emit a jade colored light.

The light radiated from his aperture, and illuminated Fang Yuan's entire body.

Gradually, the rays of light dimmed. The entire turtle jade wolf skin Gu dissipated into tiny fluorescent particles, thoroughly destroyed.

Fang Yuan was already mentally prepared. Turtle jade wolf skin Gu needed to be consumed, and would leave imprints on the Gu Master's body, similar to the bronze skin Gu and iron bone Gu.

"These past few days I've been in constant seclusion, my body has finally been refined to turtle jade wolf skin."

Fang Yuan slowly opened his eyes, and pulled back the cuffs of his sleeves to examine the skin on his arms.

His skin still retained the natural color of flesh, but when Fang Yuan took out a dagger and ruthlessly slashed at his arm, immediately, the effects of the turtle jade wolf skin Gu activated.

When the dagger made contact with his skin, the skin immediately turned to a jadish-green, while the faint lines of turtle shells pulsated outwards.

Cutting the skin was similar to a collision with iron, or possibly jade, but the skin still retained a degree of flexibility.

Fang Yuan gave a satisfied nod: "The turtle jade wolf skin Gu is rank five, its defensive power is truly remarkable. Most importantly, it does not require active use; as long as one is attacked, the defensive properties would activate, it is extremely practical as no primeval essence is expended in the process."

It wasn't difficult for a Gu Immortal to acquire rank five Gu, though for mortal Gu Masters, they were quite rare.

For a large number of rank five Gu Masters, they only possess one rank five Gu. Some do not even possess rank five Gu, but instead resorted to rank four Gu as substitute.

Upon meeting Fang Yuan, Hei Lou Lan immediately used turtle jade wolf skin Gu to entice him, which, in the eyes of bystanders, was a huge investment.

In the eyes of Fang Yuan, a rank five Gu wasn't much, but it allowed him to sense the sincerity from Hei Lou Lan.

"Turtle jade wolf skin's modification is done. The next step is to improve my strength." Fang Yuan sat still upon his cushion, seizing the most of every minute, diligently improving his strength.

He sent out a strength of ten jun Gu.

This Gu was like an iron weight. After being infused with primeval essence, it suspended itself above Fang Yuan's head, and afterwards blossomed with a glorifying radiance, covering his entire body while engraving a particular strength path Dao mark onto his body.

As time passed, the strength of Fang Yuan slowly and steadily grew.

For quite some time, he cultivated his strength non-stop.

He had already used up the five strength of ten jun Gu he purchased earlier. Now, he would have to use Hei tribe's inventory to acquire more strength of ten jun Gu.

By now, Fang Yuan's body contained the strength of sixty jun, stored in the very depths of his body.

Ten jun was the strength of three hundred jin, sixty jun was equal to one thousand eight hundred jin of strength.

On Earth, Green Dragon Crescent Blade 1 weighed merely eighty-two jin.

"I have already refined this body with turtle jade wolf skin, thus, it can hold about a hundred jun of strength. One hundred jun of strength or more would be the within the range of rank five realm."

Jin strength Gu and jun strength Gu's recipes were the invention of a rank seven Gu Immortal. Compared to traditional beast strength Gu, they were easier to refine, while simultaneously costing less, and thus were widespread in the north.

Fang Yuan abandoned his beast phantom Gu, and picked up the jun strength Gu, not only to keep up with current developments, but also to make his path more convenient, allowing him to disguise his own identity.

However, jun strength Gu could not solve the fundamental problem of strength path.

Fang Yuan had sixty jun of strength within him, but in practice could only exert a small portion of it.

To solve the problem, he would have to rely on all-out effort Gu.

All-out effort Gu could allow a Gu Master to make use of their whole body's strength, allowing them complete liberty to exert strength, it was truly the core Gu of strength path.

Therefore, Fang Yuan decided it would be his second aperture's vital Gu.

But this all-out effort Gu was a mere rank three Gu, and being in a foreign land resulted in it being suppressed to rank two.

Fang Yuan had the recipe for rank four all-out effort Gu, thus, so long as he is in northern plains when he refines the Gu to rank four, it will not be affected by the suppression.

"But… it would be hard to continue accumulating. Turtle jade wolf skin helps in bearing the weight of my strength, but does not benefit enslavement path. Although I have two apertures, I merely have one body."

In this world, there were few things that could satisfy all of one's needs.

While advancing strength path, he could not simultaneously advance enslavement path.

If he wanted to advance enslavement path, Fang Yuan should not have employed turtle jade wolf skin Gu, but rather a different rank five Gu, known as wolf totem Gu.

This Gu could be used to store wolf packs. They would be stored in his skin, and for every wild wolf he keeps, a wolf tattoo would also form on Fang Yuan's skin.

Many enslavement path Gu Masters would choose their corresponding totem Gu, and keep their elite troops in their own bodies.

In critical moments, Gu Masters would reveal the power of their elites, summoning them and making them fight.

Like before, Fang Yuan used rank four impermanence bone Gu, which allowed him to further strengthen his soul.

But impermanence bone Gu did not benefit strength path.

Fang Yuan may be a Gu Master of both the strength and enslavement path, but it was not simple. It was easy to cause a disaster for both paths.

Fang Yuan's problems were far from just this.

Spring Autumn Cicada was gradually recovering, once again putting him under the pressure of death.

His frequent entering and exiting of Hu Immortal blessed land caused his supply of starlight firefly Gu to dwindle.

Immortal Crane Sect's great desire towards Hu Immortal blessed land, the mysterious force's attention due to the fixed immortal travel Gu, the problem of recovering fixed immortal travel and gruel mud Immortal Gu, Hu Immortal blessed land's earthly calamity, the crisis concerning the death of Dang Hun mountain, and constantly pretending to be Chang Shan Yin, and the mental pressure of making sure I do not show any weakness or flaws…

His situation was terrible, it could even be said that he was beset on all sides.

"But because of the crisis , I can look forward to the moment when I cut through the thistles and thorns and break free of worries."

Fang Yuan let out a cold laugh, organizing his state of mind, and left his secret room.

Outside the secret room stood two rank three Gu Masters, standing like guardians.

The Wolf King's identity was the main reason for this situation; after arriving at Hei tribe camp, they immediately decided to strictly protect him.

“Greetings, Lord Wolf King.” When the two Gu Masters saw Fang Yuan come out, they immediately saluted and reported to him, “Lord Hei Lou Lan invited the other lords to attend the banquet to conduct important business.”

After returning to Hei tribe’s compound, Hei Lou Lan one large feast for almost three days, and spent five days at a smaller feast. Several invitations were sent to Fang Yuan, but he was busy cultivating; every sent invitation was completely rejected by him.

Fang Yuan was in a race against time to increase his strength, which was also in accordance with Chang Shan Yin’s haught and lofty disposition.

Though this time, the banquet was extraordinary.

“There are important matters to discuss?” Fang Yuan’s footsteps halted, and he changed his usual attitude towards banquets: “Let’s go”.

The secret room was built underground.

Fang Yuan exited his secret room and arrived above the ground, the curtain of night already enveloped the sky, stars scattered about.

Rushing to the banquet, as he had expected, it was the matter of the blood oath.

These days, the banquet did not have Hei Lou Lan’s usual decadence, rather it focused on talks between leaders negotiating the contracts of an alliance.

This heroes assembly was only the preliminary stage to establishing the genuine union, which would unite the forces of all parties into one alliance.

The contract of the alliance already agreed on various things, and the leaders were now working on their individual tribes’ interests. Fang Yuan looked at the contents and saw no issues, so along with everyone else, he used the poison vow Gu.

poison vow Gu had the power to restriction, and was also the foundation of building mutual trust.

But Fang Yuan was the exception.

He possessed eating one's words Gu. In two hundred years, this Gu would be developed by a western desert chief. When he was in Shang clan city, he used it to break his poison vow with Bai Ning Bing.

And now that he could link with treasure yellow heaven, if he wanted to remove the poison vow, he would merely have to refine it again.

The main tent was brightly lit, with each tribe having their own seat.

Hei Lou Lan held the central seat, and the first to his left was Fang Yuan, with Ge Guang standing behind him.

It was difficult for the young tribe leader to hide his happy expression, holding second seat in the alliance was a result of clinging to Fang Yuan, their benefits surpassed that of any ordinary medium-sized tribe.

Sitting after Fang Yuan were the leaders of the large tribes: Wang tribe, Fang tribe, and Ye tribe.

While down the line were the leaders of the medium-sized tribes, and finally the small scale tribe leaders, as well as the rank four demonic path experts.

Now, the alliance began its preliminary aggregation, before they were merely like loose sand.

"Hahaha, now everyone is family. According to conventional tradition, after having established our alliance, we need to hold a large feast. But these traditions and conventions are total bullshit! I've already thought of something better, rather than annexing those weaker powers, we should instead collect wild wolves." Hei Lou Lan began his speech.

Soon, all eyes concentrated on Fang Yuan's face.

Fang Yuan's complexion was indifferent, his eyes darted across the room, within his heart he understood that by joining in, he had already altered history.

He vaguely remembered, five hundred years ago in his previous life, after Hei Lou Lan's alliance was formed, he immediately assaulted the east, launching a bloody war with the Dong Fang tribe.

"But this is good, although Hei Lou Lan prevailed over Dong Fang tribe, he suffered huge losses in the process. Hei Lou Lan is obviously taking consideration of my night wolf emperor, which was expected. With the night wolf emperor, he could incorporate myriad beast groups into his army. The expansion of the wolf group will be a great thing for me.

Fang Yuan thought about it for a moment, and gave everyone a nod: "Since this is the case, I will do my part."

No one in the camp gave an objection.

The larger the number of wolves, the more they would benefit, while suffering fewer casualties, preserving the strength of their tribes as much as possible.

Hei Lou Lan was relying heavily on Chang Shan Yin, everyone understood and agreed.

It would be a shame to have such a great master of the enslavement path and not put him to use!

As for the sharp rise in strength of the Wolf King, they did not have to be too concerned.

They were not aware of the eating one's words Gu, and had complete trust in the poison vow Gu. Since the covenant had already been formed, they did not have to worry that the Wolf King would take advantage of their interests.

Soon after their discussion, the entire Hei tribe alliance began to work actively. Gu Masters from tribes both large and small dedicated themselves to expanding Fang Yuan's wolf pack.

Chapter 501: Five hundred thousand wolves start a war

Translator: ChibiGeneral Editor: ChibiGeneral

In the grassland shrouded by the night, Sang Yi was running for his life.

The bone-chilling wind pounced on him, but he, however, was perspiring greatly.

“Fast, faster!” He screamed in his heart, pouring his primeval essence frantically into his movement Gu.

Howl!

Behind him, a night wolf group was charging towards him. The reason for that was the corpse of a night wolf’s cub in Sang Yi’s hand; leading to this pursuit that had continued for several minutes.

If it was before, these few minutes would be gone in a blink of an eye to Sang Yi. But with the myriad wolf group closely chasing him, Sang Yi felt every second of time passing very slowly and unendurably.

“Finally, I’ve arrived!” Seeing the small ravine in front of him, Sang Yi burst forth with newfound strength, rushing towards the ravine.

Rumble…

Close to twenty thousand night wolves followed him into the ravine like a dark flood.

“They have entered!” The Gu Masters lying low in the ravine shouted in joy.

“Collect the net quickly, don’t miss it.” A rank three Gu Master who was the leader of this group, sent the command immediately.

“Earth wall, rise up!” A group of rank two Gu Masters simultaneously activated rank two earth mound Gu.

With so many earth mound Gu activated together caused the stones on the entrance of this narrow ravine to rapidly rise up, forming into a barrier like that of a rank three earth wall Gu.

At the same time, on another side of the ravine were dozens of Gu Masters who activated falling stones Gu.

Large numbers of stones fell down and firmly blocked the entrance.

The exit to this ravine was already sealed before. Now with the entrance blocked as well, the night wolf group that had entered was like a turtle trapped in a jar.

The night wolf myriad beast king saw the situation turn bad and immediately led the wolf group to climb up the ravine and cross over it.

However, at this time, a desolate and magnificent wolf howl resounded through the skies.

Fang Yuan was riding on a night wolf emperor, commanding large numbers of night wolves to attack from above.

The wild night wolf group’s eyes turned red and howled furiously, but they hesitated because of the wolf emperor’s presence.

Clear mind Gu!

With a thought, Fang Yuan summoned a clear mind Gu. This was a rank four Gu; after the primeval essence poured into it, it immediately changed into a cool wind.

The cool wind blew gently over the area.

The night wolf group that was starting to turn frenzied due to the effect of onion explosion Gu immediately came to their senses when this cool wind blew over them.

The wolf emperor howled again, turning this wild night wolf group to fall into a chaotic mess; their formation crumbled and their will to fight received a huge impact.

Fang Yuan laughed and commanded his wolf group to attack for real.

There were already Gu Masters who were tangling up the wild myriad wolf king.

Fang Yuan first mobilized his wolf group to divide the wild night wolves before nibbling away at them; the whole situation was in his firm control. Then he approached the wild myriad wolf king and then at the opportune time, used rank four wolf enslavement Gu.

In the end, he only had to pay the lives of few hundred night wolves to smoothly take in this myriad wolf king and close to twenty thousand wolves.

After this great success, the Gu Masters remained behind to clean up the battlefield while Fang Yuan led the increased wolf group towards the next destination.

There, another large group of wild night wolf group was waiting for him.

“You did good.” A rank three leader patted Sang Yi’s shoulder and gave him five hundred primeval stones along with a rank three Gu, “This is your well deserved reward.”

Sang Yi wiped off the sweat off his forehead and looked at these primeval stones and the Gu while breathing heavily.

He then looked at the distance, looking at Fang Yuan’s receding figure with envy and admiration.

“Although I am a rank three Gu Master and have some fame in the demonic path, I cannot be compared to Wolf King. This is a true big shot. When will I have such an accomplishment?”

In this night, Fang Yuan wandered thousands of li and took in seventy thousand wild night wolves.

Only by dawn when night wolves would not go out to hunt and had all returned to their nest, did Fang Yuan lead the wolf group back to Hei tribe camp.

After Hei Lou Lan established the alliance, with the concept of safety in numbers, five enormous camps were stationed nearby.

Fang Yuan's wolf group was divided among these five camps for the specialized people to feed them.

These few days, he had taken in large numbers of night wolves; the night wolf group that was only about thirty thousand originally, had now expanded to three hundred twenty thousand!

The night wolf group had become the greatest force in Fang Yuan's troops in one go.

Adding in the vermillion flame wolves, wind wolves, water wolves and others, Fang Yuan's wolf group had reached a huge size of five hundred and thirty thousand!

"It is thanks to the night wolf emperor that I could incorporate the night wolves so easily." Settling down the wolf group, Fang Yuan brought his exhausted body back to the secret room to rest.

With the increase in the night wolf group, the numbers of myriad wolf kings Fang Yuan had to control also increased by several times.

These large numbers of night wolf myriad beast kings created a burden on his soul, causing him to feel an increasingly heavy feeling in the depths of his soul.

After sleeping for hours, Fang Yuan opened his eyes and sat cross-legged on a cushion and continued to cultivate.

Wolf soul Gu.

He used the wolf soul Gu, slowly converting his thousand man soul into wolfman soul.

Previously, he had hundred soul level wolfman soul which had a human body, wolf ears, wolf tail and wolf claws. But afterwards, he used large numbers of guts Gu in Dang Hun mountain and his soul rapidly expanded to thousand man soul; this instead caused the wolf soul Gu's effect to thin out and his soul recovered the appearance of a normal soul.

The wolf soul Gu's effect was not clear at all, after more than two hours, it only slightly lengthened the wolf ears on Fang Yuan's human soul.

But to Fang Yuan, the heavy feeling in the depths of his soul had lifted by a lot.

With wolfman soul, controlling wolf groups would become much easier because the wolves would acknowledge the Gu Master as one of their own kind from the depths of their soul.

"Unfortunately, I do not have rank five wolf soul Gu and can only use the rank four wolf soul Gu; its effects are clear on hundred man soul, but the effects have great weakened as I progress through thousand man soul."

After using it for a long time, Fang Yuan stopped it while feeling some regret in his heart.

However, rank five Gu were never easy to obtain.

Refining rank four wolf soul Gu required an intact soul of a myriad wolf king. But to refine rank five wolf soul Gu required the soul of a wolf emperor.

Moreover, even a refinement master would only have about fifty percent chance to successfully refine rank five wolf soul Gu.

Fang Yuan had thought of purchasing it in treasure yellow heaven, but when he recalled he only had two immortal essence stones left and the mysterious force hiding in the dark, he dispelled this plan for safety purposes.

"Although I can't directly buy it in treasure yellow heaven, I have already mentioned this request to Hei Lou Lan. Hei tribe is part of the

Huang Jin family and their supreme elders are Gu Immortals, thus they have extremely deep foundations. Two-three days have already gone by, I might as well ask him now."

With this thought, Fang Yuan walked out of the secret room and met Hei Lou Lan, but he expressed that his hands were tied.

"Brother Shan Yin, truth be told, I have already written a letter to request it from the supreme elders. But they thought it would be better to give a live wolf emperor instead of rank five wolf soul Gu. And the wolf emperor cannot be given casually as well, their intention is to use battle merits to exchange for it. After all, I need to convince the masses as well."

Hei Lou Lan was very cunning, ever since Fang Yuan took the poison vow, his attitude was no longer as cordial as before.

Together with the fact that he had used large amounts of manpower and physical resources over these days to help Fang Yuan incorporate the night wolf group, he felt he had done more than enough for Fang Yuan.

Simultaneously, Fang Yuan's wolf group had expanded to over five hundred thousand in number. Such a large force also caused him to inwardly feel fear. Despite the restriction from poison vow, Hei Lou Lan was subconsciously guarded.

Fang Yuan nodded and expressed his understanding.

He had also commanded Little Hu Immortal to keep a close watch on treasure yellow heaven to get any wolf emperors native to northern plains.

Unfortunately, beast emperors were rarely sold. A beast emperor had been put for sale in these days, but it was a boar emperor and not a wolf emperor.

Fang Yuan realized from Hei Lou Lan's words that he was already unable to hold back and was already preparing to start a war campaign.

Over these days, Tian Chuan, Meng Qiu, Cao Fu and every other region of northern plains were already engaging in battle. Among the popular candidates for the ownership of Imperial Court this time, only Hei tribe had been holding back and growing the wolf group.

Now, they had already accumulated enough wolves, Hei Lou Lan who was full of hope had already been impatient.

“Then brother Lou Lan, which force do you want to attack first?” Fang Yuan asked.

Hei Lou Lan laughed heartily and patted Fang Yuan’s shoulder: “Little brother is really sharp. I won’t hide it from brother, I want to attack Cao Fu and eradicate Dong Fang tribe. Dong Fang tribe has lot of beauties, especially that Dong Fang Qing Yu who is a famous beauty in northern plains. I want to kill all their men and capture all their women! Hahaha…”

Fang Yuan was slightly stupefied, history was still steering in the same direction, after making a detour, the focus still returned to Dong Fang tribe.

“But with my five hundred thousand wolf group, it is different from my previous life. Dong Fang tribe… Hehe.” Fang Yuan sneered inwardly.

Reaching this stage, he could already influence the development of the future.

But so what?

Let history be completely changed.

As long as there are profits in front of him, so what if the sky and earth collapses, or if the floods reach heaven! Who cares if his reputation stinks for ten thousand years!

The next day, Hei tribe completely pulled out the camp and began a majestic expedition towards Cao Fu.

This news immediately attracted the attention of all kinds of forces.

The situation was changing crazily and Cao Fu was preparing for a great battle.

Different from Yu Tian's heroes assembly where Liu tribe and Hei tribe were evenly matched, Dong Fang tribe occupied the greatest dominance in Cao Fu's heroes assembly, suppressing the heroes and incorporating large numbers of tribes. Only Zhao tribe was barely resisting the pressure, not willing to agree to Dong Fang tribe's harsh alliance conditions.

The news of Hei tribe large expedition attracted almost all the attention of Dong Fang tribe. Zhao tribe got space for a breather and showed signs of moving their tribe towards a corner.

Dong Fang tribe's current tribe leader was a rank five wisdom path Gu Master Dong Fang Yu Liang.

After making deductions and forecasts over a night without resting, he immediately changed the stiff stance and changed the conditions for joining the alliance to become extremely lenient and generous.

Dong Fang Yu Liang personally travelled to invite Zhao tribe to join the alliance!

Zhao tribe leader hesitated.

Zhao tribe and Dong Fang tribe had enmities between them, and this enmity had gotten deeper over the years. But Dong Fang tribe's sincerity could be clearly seen right now and the conditions they offered were also very attractive.

Maybe, this was a rare opportunity to resolve the old hatred and grudges with Dong Fang tribe?

Chapter 502 - Zhao Lian Yun

Chapter 502: Zhao Lian Yun

Translator: ChibiGeneral Editor: ChibiGeneral

In the study room, Zhao tribe leader placed down the document wearily.

Sunlight passed through the window and shone on his face.

Due to handling the tribe affairs for a long time, this fifty year old rank five initial stage Gu Master already had white hair and a face filled with wrinkles.

These days, because of Hei tribe’s large scale expedition and the personal invitation from Dong Fang Yu Liang, the tribe was divided into two factions.

These two factions argued endlessly; one side wanted to side with Dong Fang tribe and resolve the old grudges, while another side wanted to side with Hei tribe as Hei tribe was much bigger.

Could siding with Dong Fang tribe really resolve the old grudges? When he thought of the deep hatred that had accumulated over the generations between their tribe and Dong Fang tribe, Zhao tribe leader could not speak with certainty.

And siding with Hei tribe was also not right.

Zhao tribe’s main headquarters was after all in this Cao Fu region while Hei tribe represented Yu Tian’s tyrants and had already gone through the vow with their allies. As a tribe who joined later, Zhao tribe would unavoidably be bullied and how much profits could they even obtain? They might even be treated as cannon fodder.

Thus, Zhao tribe leader was deeply conflicted. Especially these days, the tribe higher-ups were always busy arguing; Zhao tribe leader had to guard against that cunning Dong Fang Yu Liang's scheme, while also needing to suppress the internal situation and lead the tribe. He was already very exhausted.

"Sigh…"

He heaved a deep sigh and leaned back on the chair, gazing at the dust that was floating in the sunlight.

In this dazzling sunlight, the tiny dust could be clearly seen and Zhao tribe leader felt he was like one of these dust, hesitating back and forth; now it was floating in the air, but who is to say that it will not fall down to the ground when wind blows over.

The battle between Hei tribe and Dong Fang tribe was precisely a violent wind that would sweep away everything.

Facing such a wind, what path should his tribe take?

Right as Zhao tribe leader was feeling frantic, a weeping sound suddenly came from outside the window.

Hearing this familiar sound, Zhao tribe leader's brows slightly furrowed and revealed a concerned look as he immediately asked: "What's the matter?"

The guard outside the door immediately replied: "Lord tribe leader, big missy slipped on the stairs and knocked her head while running here."

"Ahh!" Zhao tribe leader stood up with a pained expression, "How could my little darling fall? How much blood did she lose? Quick, bring her here."

Zhao tribe leader had several sons but they were all schemed and killed by Dong Fang Yu Liang, leaving behind only a daughter.

His daughter was only about five or six with a very mischievous nature, but her appearance was extremely similar to his late wife and so Zhao tribe leader doted on her very much.

Soon, the door to the study room was pushed open.

The guard supported a little girl to the room.

The girl looked like she was carved out of jade and looked extremely cute with her embroidered clothing. Right now, she, however, was sobbing, covering her forehead with her hand.

“My little darling, my little Yunyun, where did you get hurt?” Zhao tribe leader quickly walked over and hugged the little girl, asking her with concern.

‘Father, did you go blind? The injury is on my forehead…’ The little girl furiously shouted inwardly, but on the surface, she smoothly leaned on Zhao tribe leader’s chest and acted like a spoiled child, “Father, Yunyun’s head hurts…”

“Oh oh, let father take a look.” Zhao tribe leader softly parted the hair that covered the little girl’s forehead and saw a small scrape on her forehead, the scrape had slightly reddened but was still far from bleeding.

But even so, Zhao tribe leader’s heart hurt very much.

He comforted his daughter with warm words before berating the old caretaker that had hurried over: “Nanny Wu, what are you doing? I told you to look after her closely and protect her at all times, look, her forehead is wounded!”

‘This old lady should die! Please forgive me lord tribe leader.” The old caretaker immediately kneeled with fear, cold sweat filling her face. But her heart was full of grievances, this child was the most crafty child she had seen in her whole life, and the most troublesome little demon. Normally, if she lost her concentration even a bit, the child would disappeared somewhere bizarrely. The child was extremely crafty, toying with this adult women until she wished she was dead. But in front of the tribe leader, the child showed an obedient and pitiful expression, her acting was so brilliant that it seemed she was innately born with it. The old caretaker could not find the least bit of evidence on this little demon!

“Father, don’t blame nanny, it is Yunyun’s fault for carelessly running around.” The little girl said in a soft voice.

Adding in a sentence inwardly: ‘This old woman is too annoying, always following me the whole day. I had to self-harm myself to enter this study room, was it easy for me huh!’

Zhao tribe leader heaved a sigh and stroked the little girl’s soft dark hair with a gratified expression: “Daughter, you are as kind-hearted as your mother.”

The old caretaker however roared inwardly: ‘Tribe leader, you have been deceived, your daughter is absolutely a demon…’

But she could only shout in her mind because she knew, very few people apart from her would be willing to believe this fact. She naturally did not dare to tell it, if she said it, who knew how this girl would tease and abuse her later on.

“Useless thing, if it were not for Yunyun asking for leniency… hmph, leave.” Zhao tribe leader waved his hand towards the old caretaker to order her to leave before looking at his daughter with a gentle expression, “Little darling, why did you come here to play?”

“Father, Yunyun was worried about you, I heard others say those elders were arguing with father these days and that you were upset and locked yourself in the study.” The little girl looked concernedly at Zhao tribe leader with her large gleaming black eyes.

But in truth, she was shouting in her mind: ‘Rubbish, if I did not come, my life would be in danger. Convenient dad you are too indecisive, with the situation as it is now, you are still not immediately escaping? What on earth are you dilly-dallying for?!’

Zhao tribe leader felt a twinge in his nose, his eyes reddened, almost letting out tears: “Good girl, you finally know to care for your father, father’s love for you all this time was not in vain. Don’t worry, father’s health is quite good and my mood is much better now after I saw you.”

‘Convenient dad, it is a matter of life and death now and you are still so optimistic, so intolerable! For my future happy life, I need to show off a bit regardless of consequences!'

The girl roared in her mind and said with a 'couldn't care less' expression while waving her small delicate hands: "Father, Yunyun thinks those people who quarreled with you are idiots. Our Zheng tribe is like a sheep, Dong Fang tribe is a wolf while the tiger from Yu Tian is coming over. Wolf can't beat tiger, so it wants to find the sheep to help, but whichever side the sheep helps, the tiger or the wolf won't let it go in the end."

The little girl's words shocked Zhao tribe leader's mind. The person on the spot is baffled, while the onlooker sees clearly; sometimes the person involved needs to be enlightened by such words from the onlookers.

'That's right, whether we side with Dong Fang tribe or Hei tribe, it will be like taking favors from a tiger. But can our Zhao tribe stay out of this?'

'No, the blizzard disaster every ten years has already decided there is no utopia in northern plains. The struggle for the Imperial Court is very significant, as long as one can enter Imperial Court blessed land, they can receive astonishing benefits. But which side should Zhao tribe take?'

The little girl had been observing the tribe leader's expression all this while and when she felt the time was right, she added: "Father, I heard Ma[1] tribe is very strong and also treats its people well. Sheep and horse are both vegetarians but tiger and wolf are carnivorous, it will be better for us to ally with Ma tribe!"

Zhao tribe leader's body shuddered.

'Right, why not?'

Ma tribe was different from Hei tribe and Dong Fang tribe, the latter two had Gu Immortal ancestors and the support of blessed lands. They had long lasting history and were super tribes with deep foundations.

Ma tribe was also part of the Huang Jin family, but they did not have a Gu Immortal’s support and was advancing towards the level of a super tribe currently. Ma tribe leader and its young tribe leader were outstanding heroes, they would definitely welcome Zhao tribe. Except that to go to Tian Chuan, it would be a long journey…

‘Convenient dad, why on earth are you still hesitating? Decide quickly!’ The little girl who had been observing her father’s expression changing frequently, felt very anxious inwardly.

But Zhao tribe leader was thinking of the long distance they had to travel to Tian Chuan to side with Ma tribe. This distance was filled with danger which caused him to hesitate.

Helplessly, the little girl could only add on: “Father, we should leave right away. This is the best time to leave, tiger and wolf are confronting each other, they don’t have any spare strength to care about us.”

Zhao tribe leader’s heart trembled.

“Right, why am I still hesitating? If I hesitate any longer, even the best chance to escape will be lost! Whether it is Hei tribe or Dong Fang tribe, they are both not kind. If my tribe wants to get some profits in the battle for the Imperial Court, laying a bet on them is not a good thing!”

“Good girl, you are extremely correct. Our Zhao tribe cannot meddle in such a huge battle, also cannot throw ourselves in this whirlpool. Right, we shall leave!” Zhao tribe leader made the decision.

The little girl leaning on his chest was almost sobbing tears of joy at this moment, as she sighed inwardly: ‘Old man, you finally opened your eyes. Ah, it was not in vain that I took so much trouble to run over here to persuade you…’

“But Yunyun, did you think up all these things? Did someone tell you to say so? Who was it, tell father.” Zhao tribe leader finally sensed something amiss and gazed at his daughter.

The little girl’s heart thumped, she promptly blinked her large eyes and showed an innocent expression: “No one taught me. Father, this was all thought by Yunyun. Father works so hard every day, Yunyun does not want father to be so exhausted, so Yunyun wanted to help father.”

She then carefully said with a pitiful expression: “Father, was Yunyun wrong?”

Zhao tribe leader’s eyes flashed with a pleasantly surprised look. He did not think this little angel before him would deceive him.

How old was this child?

And he had watched her grow up!

Since she was so intelligent at such a young age, her cultivation talent might also be extraordinary.

Seeing his daughter afraid of being scolded, an affectionate feeling rose in Zhao tribe leader’s heart.

He stroked the little girl’s hair: “Yunyun, thankfully I have you. Father is really happy to have such a good daughter!”

‘Sigh, it has to be like this, since I’ve transmigrated here already. In life, friends can be chosen, but parents are predestined. Seeing how you have treated me well, I will naturally return the favor…’

The little girl said so inwardly, but on the surface, she hugged Zhao tribe leader’s neck and kissed this convenient dad’s cheek: “Father, daughter likes you the most.”

“Hahaha, good girl, you are really father’s darling.” Zhao tribe leader laughed loudly.

Chapter 503 - Dong Fang Yu Liang

Chapter 503: Dong Fang Yu Liang

Translator: ChibiGeneral

Editor: ChibiGeneral

"Zhao tribe tore down their camp and left?" Hei Lou Lan glanced at the information report before casually throwing it on the table.

Zhao tribe might be a large scale tribe but it did not have elite troops and not even a decent Gu Master expert. Although Zhao tribe leader was at rank five initial stage, he was challenged and defeated by Dong Po Kong with his rank four peak stage cultivation three years ago. Thus, he did not have high prestige and also did not make too big of a contribution in his long years of being in power.

If Zhao tribe had sided with Dong Fang tribe, he might have given them some attention; after all, even a weak rank five Gu Master could not be underestimated.

However, Zhao tribe had fled in a sorry figure which caused Hei Lou Lan to be filled with contempt towards them.

Northern plains men admired the brave and looked down upon such cowardly conducts of escaping before even fighting.

"Congratulations to alliance leader, we have not even truly attacked and yet we managed to scare off a large scale tribe of the other side."

"Dong Fang Yu Liang should be bursting with rage, he had personally invited Zhao tribe but the other directly ran away, hahaha."

"In my opinion, Zhao tribe might be a large scale tribe, but they are nothing outstanding, they were actually such cowards. Hmph..."

The Gu Masters in the main tent commented one after another, not concerned about Zhao tribe's stance.

Fang Yuan who was sitting by the side swept his eyes through the information report on the table.

Zhao Lian Yun.

He remembered this name. A mysterious woman who would become one of Ma Hong Yun's wives, and also a wisdom path Gu Immortal. Now, however, she was only a little girl.

"Looks like the famous persuasion of tiger, wolf and sheep has already utilized..."

Fang Yuan sneered inwardly.

In his past life, after Zhao Lian Yun became wisdom path Gu Immortal, someone made a biography on her.

This cultural tradition could be traced back to <<The Legends of Ren Zu>>. This first classic of Gu was polished by many Gu Masters spending their effort and time. For many outstanding Gu Masters and Gu Immortals, people would write and spread their biography to remember and praise them.

In the contents of the biography of Zhao Lian Yun: Zhao Lian Yun displayed extraordinary intelligence and wisdom since she was young. In the huge battle where 'Black Tyrant Hei Lou Lan' fought for the ownership of the Imperial court, Zhao tribe was sandwiched between Dong Fang tribe and Hei tribe.

When Zhao tribe leader was hesitating, Zhao Lian Yun used the comparison between tiger, wolf and sheep to persuade her father and made him decide to travel far away to side with Ma tribe. In the end, this allowed Zhao tribe to not only be protected, but also received extremely high importance and cordial welcome.

His five hundred years of memories of his past life was all in disorder, but this information was still fresh in Fang Yuan's memories.

Simply because in the battle of five regions, Ma Hong Yun, Sheng Ling Er and Zhao Lian Yun would not only become Gu Immortals but also become the symbols and cornerstones of Northern Plains in resisting the invasion of Heavenly Court.

In the five regions, the biographies of such people would be widely spread and reviewed.

"Hmph, people like Ma Hong Yun and Zhao Lian Yun, I will send them to their deaths before they grow sooner or later. But there's no hurry at the moment…" Fang Yuan restrained the killing intent in his heart while showing a tranquil expression on the surface.

Whether it was Ma Hong Yun or Zhao Lian Yun, these people who rode the tides of the five regions battle, right now they were still a long distance away from becoming Gu Immortals. Fang Yuan had plenty of time to deal with them.

But Ma Hong Yun, Fang Yuan had to keep him around to deal with the Eighty-Eight True Yang Building. As for Zhao Lian Yun, although he wanted to kill her, he was hindered by his identity and the situation.

After all, Fang Yuan was currently playing the role of Chang Shan Yin. The great Chang Shan Yin, how could he attach such importance to a girl that was only a few years old, to the point of wanting to kill her?

"Moreover, the matter of importance right now is to handle Dong Fang tribe!" Fang Yuan collected his thoughts and concentrated on the discussions again.

After having ridiculed Zhao tribe for a while, everyone put their attention on their opponent this time.

Dong Fang tribe was the same as Hei tribe, a super tribe with deep foundations and was preeminently a huge force in Cao Fu region.

Dong Fang Yu Liang was this generation's tribe leader for Dong Fang tribe, young and promising. Relying on his wisdom path cultivation, he not only handled all the tribe affairs cleanly, the tribe was even showing the trend of becoming more prosperous.

Although Hei tribe's military strength was superior, their opponent was a wisdom path Gu Master who was an expert in planning and deductions, such strength could absolutely not be underestimated!

"If we talk of the greatest threat in this battle, it definitely is Dong Fang Yu Liang!"

"Right, this kid is young but has great experience and knowledge, accomplished in the four arts as well as astronomy and geology. He lost his parents at eleven, and he had to not only maintain his livelihood but also care for his then six year old little sister Dong Fang Qing Yu. His parents had left him an enormous inheritance, but this kid knew clearly about the nature of men and that he could not protect the inheritance, so he gave these family assets to an authoritative elder, leaving only a small portion for himself."

"He performed extremely well during his time at the academy. After graduating, he became that elder's trusted aide. Afterwards, he made many contributions which got him the appreciation and recommendation from the elder, unexpectedly obtaining pointers from their Gu Immortal ancestor, finally obtaining his current status and power."

Everyone knew about Dong Fang Yu Liang in detail, each of them said a few words about his origins.

Fang Yuan carefully listened.

He had not heard of these in-depth things in his past life. Now that he was experiencing this, he immediately realized this Dong Fang Yu Liang was not simple and needed to be given importance.

"History is vast and profound, great waves sweep away the sand, who knows how many heroes it will sweep away."

At the same time as everyone was discussing, their focal point — Dong Fang Yu Liang was also planning for this extremely important battle, in the study room.

Dong dong dong.

Three soft knocking sounds were heard.

"You can come in, sister." Dong Fang Yu Liang knew who was it without even raising his head.

The door was pushed open and a gentle, graceful and extremely beautiful girl wearing a light yellow dress came in with a bright appearance.

She had soft and glossy skin with eyes that were clear and transparent, her soft voice was full of concern: "Big brother, the jade apricot blossom we got from central continent should have blossomed. Big brother, accompany me to go look at them."

Dong Fang Yu Liang smiled, he knew he had worried his little sister by sitting in the study for a day and a night, and she was using this excuse to let him loosen up.

"Alright, let's go, Qing Yu."

The brother and sister walked out of the study together and arrived at the courtyard.

Right now, light rain was falling down and dark clouds covered the sky.

Far away, the rainy curtain and the horizon had merged into one forming a gloomy green color. Coming closer, from the courtyard walls, one could see countless banners and the densely packed tents of Dong Fang tribe.

People moved to and fro in the camp, it was a clamorous scene as they were preparing for the coming battle.

In the small courtyard, there were only the Dong Fang siblings.

The outside clamorous sounds were separated by the rainy curtain, making the small courtyard appear serene and quiet.

Especially that jade apricot blossom with its delicate and exquisite petals which appeared moist and glossy from the rain, and its soft yellow color, gave a comforting feeling to the siblings.

"Big brother, I heard Zhao tribe has moved?" After a while of silence, Dong Fang Qing Yu cautiously asked.

"Don't worry, little sister, big brother had already anticipated this." Dong Fang Yu Liang smiled and softly held his little sister's hand.

Dong Fang Qing Yu slightly raised her head and looked at her big brother standing in this light rain with his white clothing, jade-like face, deep eyes along with his strategizing aura, carrying gracefulness and calmness.

Dong Fang Yu Liang continued: "The reason I invited Zhao tribe was to gather all the strength I could. But them leaving is also of no great matter. With my current force, we can still win against Hei tribe army."

Dong Fang Qing Yu's worries disappeared by over half: "Nothing can escape big brother's deductions. But the opponent this time is not a small character. Not only is there Hei Lou Lan, I heard the previous hero of northern plains, Wolf King Chang Shan Yin, has also sided with him. Big brother, you need to be careful."

"Hehehe, little sister, do you still not believe your big brother? But…" Dong Fang Yu Liang softly comforted his little sister, a radiant light flashing in the depths of his pupils, "We first met Hei Lou Lan when we went to adventure, this person harbored unkind thoughts towards you and was taught a good lesson by me. But now, it seems this person has still not given up. This time, big brother will teach him a lesson that he will never forget in all his life. As for Chang Shan Yin, big brother has a plan to deal with him. All these are within my plans, you just need to recuperate at ease. Your body has been weak since young, don't worry too much. If you become ill, it will only distract me."

Dong Fang Qing Yu lightly nodded with her mind completely relieved.

Since young, it was big brother who cared for her, worried for her and looked out for her.

She was like a young, delicate flower that was sheltered by this big tree, her big brother.

All these years, she and her brother had gone through all kinds of difficulties together, this time too would be the same.

'Because since young till now, big brother has always been calm and collected like this. It is only that… if I didn't have this illness, if I had the aptitude to cultivate, it would have been much better.' Dong Fang Qing Yu heaved a deep sigh in her heart.

The siblings quietly stood there, looking at the jade apricot blossom.

"Little sister, standing in the rain for too long is not good for health, you should go back to rest." After a while, Dong Fang Yu Liang spoke.

"Mm, big brother don't work too much." Dong Fang Qing Yu answered with her lovable voice.

Looking at his little sister leaving and disappearing at the corner, Dong Fang Yu Liang could finally not hide his expression, his brows furrowed and revealed a worried expression.

This battle was absolutely not as easy as he made it out to be.

"Hei Lou Lan himself is not an easy opponent, now there is Chang Shan Yin as well. Five hundred thousand wolves, really worthy of being an enslavement path master, just him alone can change the situation, causing this slightly superior Hei tribe to jump far ahead of my tribe."

"For this coming battle, our side must first deal with these five hundred thousand wolves. Otherwise, the hopes for victory will be extremely uncertain."

"I cannot lose! It was not easy for me to make Gu Immortal Old Ancestor agree; if I can complete this secret mission, the old ancestor will personally solve the source of the illness in my little sister. For my little sister, I must become the master of Imperial Court and enter

Eighty-Eight True Yang Building!"

"Before this, anyone who dares to block my path must die! So, Wolf King Chang Shan Yin, why don't you die in this rain before the battle?"

Dong Fang Yu Liang looked at the dense dark clouds in the sky, his handsome face showing a very cold expression.

Chapter 504 - Assassination (Long Chapter)

Chapter 504: Assassination (Long Chapter)

Translator: ChibiGeneral Editor: ChibiGeneral

The weights-like strength of ten jun Gu was quietly hovering above Fang Yuan's head.

Fang Yuan was sitting cross-legged with his eyes closed, his body shrouded by the light from strength of ten jun Gu.

A long time passed.

Fang Yuan opened his eyes, the light slowly dispersed and the strength of ten jun Gu only was half of its original size.

"I can still use it twice." Fang Yuan silently evaluated.

Strength of ten jun Gu was an expendable Gu; after completely using this one, Fang Yuan would possess seventy jun of strength. This strength could only be said to be just passable even among rank four initial stage strength path Gu Masters.

All-out effort Gu was suppressed to rank two and if it was not resolved, there would be no possibility for a qualitative change in Fang Yuan's strength path cultivation. That is to say, his strength path battle strength was not useful in this short period of time.

He checked his first aperture and second aperture again.

The vital Gu of the first aperture was Spring Autumn Cicada which was still in a concealed state and was recuperating.

The ninety percent purple crystal primeval sea was gleaming with light, dying the rank five peak stage crystal walls with purple color.

Above the sea was wolf smoke Gu which looked a lump of dark clouds in the shape of a wolf.

The completely repaired battle bone wheel was afloat on the surface along with the spotless white willow leaf-like snow wash Gu.

Rank five hints and clues Gu was diving like a cuttlefish, playing occasionally with the wolf swallow Gu.

At the bottom was large numbers of wolf enslavement Gu, many strength of ten jun Gu and some wolf soul Gu.

At the same, the most important Gu to Fang Yuan currently – stargate Gu, moving perspective cup Gu, east window Gu, soul burial Gu and instant success Gu – were lurking around.

As for wolf howl Gu, wolf care Gu, eagle rise Gu, wolf sprint Gu and breath concealment Gu, they were residing in different places on his body.

As the time Fang Yuan spent in northern plains increased, his body was also gradually adapting to the northern plains' environment. His first aperture's cultivation had already recovered to rank five middle stage but Fang Yuan had all along been using breath concealment Gu to suppress his aura to rank four peak stage.

It was a different scene in the second aperture.

The crystal membrane of the second aperture shone brightly.

Ninety percent true gold primeval sea rippled and gleamed.

After these days of cultivating, Fang Yuan's second aperture had grown to rank four peak stage from rank three peak stage.

At the center of the aperture was the rank three all-out effort Gu.

Besides this, there were rank three strength qi Gu which could condense beast phantoms into solid form, rank four bitter strength Gu which could increase strength the more one got injured.

Rank four charging crash Gu, rank three tusita flower, primeval elder Gu, rank four expend strength Gu and the healing Gu rank three self-reliance Gu.

As for vajra stare Gu, turn gold Gu, pitch black Gu, blood skull Gu, bone flesh unity Gu, yin yang rotation Gu and others, they could not be used at the moment and were thus left behind in Hu Immortal blessed land.

Because Fang Yuan appeared in northern plains first from Lang Ya blessed land, his second aperture was approved by northern plains and its rank four peak stage cultivation did not receive any suppression.

Second aperture's cultivation could increase so rapidly because of those relic Gu Fang Yuan bought before.

But due to the limited immortal essence stones he had, he was unable to buy purple crystal relic Gu, so now the second aperture's cultivation would depend on Fang Yuan's own effort.

“Rank four to rank five is a process of qualitative change, there is a huge gap between them. I might as well raise my second aperture's cultivation to rank five initial stage tonight!” Seeing there was enough time, Fang Yuan continued to sit cross-legged, deciding to breakthrough to rank five realm.

Second aperture's cultivation was already at rank four peak stage and already had sufficient foundation, its aptitude could not be higher than the first aperture but with Lang Ya land spirit personally refining it, its aptitude also reached ninety percent.

For normal Gu Masters who fulfilled these two conditions, they had enough capital to breakthrough to rank five realm.

Normally, they would gain enough experience after some failures and then successfully advance.

But experience had always been a strong point of Fang Yuan and this obstacle did not exist for him.

More importantly, first aperture and second aperture's primeval essence could be mutually used!

There were no two leaves that were completely the same in this world; similarly primeval essence was unique to each Gu Master. If Gu Masters transferred primeval essence to each other without the use of Gu like bone flesh unity Gu, the foreign primeval essence would mix together and the aperture would explode eventually.

However, whether it was the first or second aperture, they both belonged to Fang Yuan; their essence was the same so the primeval essence could be mutually transferred.

“Rise.”

Fang Yuan silently willed and the purple crystal primeval essence in his first aperture charged towards the second aperture in the center of his chest.

A rank five peak stage primeval essence charging at rank four crystal membrane was bound to cause an intense reaction.

At the crack of dawn, Fang Yuan had successfully broken through to rank five initial stage.

The breakthrough to rank five this time was the easiest one in all the attempts he had ever tried.

“But because I used first aperture’s primeval essence, the second aperture has also received the region’s suppression now.” Fang Yuan could perceive that the second aperture right now had light purple primeval essence but activating it would only give the effect of the previous true gold primeval essence.

“In just over half a month, the suppression on the second aperture will fade while the first aperture will completely blend into northern plains’ environment in three months and will no longer receive suppression! It will also be the time when the struggle for the Imperial Court reaches the climax….”

Fang Yuan let out a breath of turbid air and stood up to stretch his body.

A night of cultivation without rest gave him a slight feeling of tiredness.

He pushed open the secret room's door. The two rank three Gu Masters guarding in front of the door immediately greeted him.

One of the Gu Masters gave good news to Fang Yuan: "Lord Wolf King, our Gu Masters were fortunate enough to capture a shark fin wolf in the wild. We have locked it within a cage, tribe leader has told me to inform lord, when you finish your cultivation, to go to the supply camp to subdue it.

This news was an unexpected surprise to Fang Yuan.

Shark fin wolf was a mutated beast with the battle strength of a rank four Gu Master. Although Fang Yuan had purchased a batch of mutated wolves in treasure yellow heaven, he did not bring them out due to the lack of a clear explanation.

If there was a shark fin wolf by his side guarding him, Fang Yuan would no doubt be much safer while battling.

After a while, Fang Yuan entered the supply camp.

"Tu Bo greets Lord Wolf King." A rank three Gu Master hurried over to welcome Fang Yuan.

He was short and fat, his chubby face shining with a glossy light. He spoke with a flattering voice: "Lord Wolf King, I have already been waiting for a long time to receive you."

At Tu Bo's lead, Fang Yuan and others soon saw that shark fin wolf in a wooden cage.

The shark fin wolf was as huge as an elephant and was lying in the cage at this moment. Its whole body was covered with firm carapace like a crocodile's. On its back, a row of shark fins extended from its head to tail.

The light of dawn shone on its body. This shark fin wolf was closing its eyes, its consciousness lost under the effect of slumber Gu.

“Congratulations to lord. Shark fin wolf is the mutated wolf with the strongest defense. With this wolf’s protection, lord will be like a tiger that has grown wings.”

“What’s rarer is that shark fin wolf can not only fight on land, but has even more battle strength underwater!”

The two rank three Gu Master guards looked at this divine steed shark fin wolf and commented while congratulating Fang Yuan.

Fang Yuan smiled and looked at this shark fin wolf, his eyes slightly narrowed as he absent-mindedly asked: “How many people were sacrificed to capture this mutated wolf?”

Tu Bo knew Fang Yuan was asking him, immediately replying: “We had to sacrifice four rank three Gu Masters and at least over two hundred rank two Gu Masters. If not for Wang tribe leader and Fang tribe leader’s timely reinforcement, this shark fin wolf would have escaped.”

Fang Yuan nodded, his eyes squinting to a slit: “This shark fin wolf is riddled with injuries but it looks like it had old injuries?”

“Yes. If not for its old injuries, the investigative Gu Master might not have been able to escape alive and hurry back to report. I can see that Lord Wolf King has obtained the blessing of Longevity Heaven, sending you an injured shark fin wolf before the great battle.” Tu Bo flattered.

“Fortunate…” Fang Yuan muttered, a feeling of uneasiness becoming ever stronger in his heart.

He was not clear on how this feeling arose, but it gave him an indescribable sense of danger.

He asked several questions but did not find anything wrong.

Shark fin wolf was a mutated beast, having battle strength of a rank four Gu Master. Because it had old injuries, it could be held back and captured alive.

Everything was reasonable.

The only unreasonable thing was the uneasy feeling in Fang Yuan's heart.

But Fang Yuan placed utmost importance on this instinct.

He did not have this feeling when he had just crossed over in his previous life. It was an intuition that was born from the accumulation of his plentiful experience after enduring hundreds of years of trials and countless deadly situations.

People became astute as they aged. No matter how stupid someone was, after experiencing many losses and trials, and seeing many things, they would naturally gain some wisdom.

In truth, not only humans, even ordinary beasts would have a type of intuition and sensitivity towards danger.

Under the surrounding Gu Masters' anticipating looks, Fang Yuan took out a rank four wolf enslavement Gu.

"Here take it, subdue this mutated wolf." What was unexpected was Fang Yuan did not personally make a move, instead gave the wolf enslavement Gu to Tu Bo.

"Lord wants me to use it?" Tu Bo was astonished, "But I am only at rank three…"

"Speak less nonsense and use it quickly." Fang Yuan impatiently shouted, forcibly handing the wolf enslavement Gu to Tu Bo.

Tu Bo was helpless, he did not know what eccentric temperament a lord like Wolf King had, but due to Fang Yuan's prestige, he could only start pouring primeval essence into the wolf enslavement Gu.

He poured his primeval essence for a long time and only when he was starting to sweat profusely from the exhaustion, did the rank four wolf enslavement Gu slowly activate.

Wolf enslavement Gu turned into a mystical light and descended on the shark fin wolf's body while flickering.

"Sigh…" A regretful sigh of a female suddenly resounded in everyone’s ears.

At that instant, the warning sign in Fang Yuan’s heart suddenly soared and he immediately retreated without thinking!

A trembling feeling instantly engulfed the souls of everyone present.

Almost at the same moment, Tu Bo suddenly opened his mouth and let out a miserable cry before dying on the spot!

The two rank three Gu Master guards were overwhelmed with shock, they simply did not know how Tu Bo lost his life. Subconsciously, they followed Fang Yuan and quickly flew back.

But soon, one of them suddenly shuddered, losing all life while still in mid-air.

“Soul explosion…” A light flashed past Fang Yuan’s mind as he blurted out.

“Lord Wolf King sure enough has extraordinary insights.” A woman’s soft sound echoed beside his ear followed by surging shadows.

The shadows were like swords, overlapping over one another and suddenly opened up like a peacock fanning its feathers before binding Fang Yuan’s body incisively.

Rank four — multiple sword shadow Gu!

Cling Clang!

Immediately, concentrated sounds echoed, blending into one.

Multiple sword shadows struck Fang Yuan’s body, producing dazzling sparks like gold colliding with iron.

Fang Yuan’s skin turned dark-green and if one carefully observed it, they would see patterns over his body like that on a turtle shell.

Rank five — turtle jade wolf skin Gu!

“Female scoundrel!” The remaining rank three Gu Master roared when he saw Fang Yuan being attacked, and changed his direction to help out.

The female Gu Master who was mounting a sneak attack on Fang Yuan snorted, ignoring him as she made the multiple sword shadows go more berserk.

At the same time, she spat out a thin snake.

The snake was like a black thread that passed by the sword shadows and directly moved towards Fang Yuan's ear.

Fang Yuan was expressionless, his gaze as cold as an icy mountain. He suddenly moved his right hand and grabbed the rank three Gu Master guard who came to assist him.

"Lord Wolf King!" The rank three Gu Master was startled, he had come to protect Fang Yuan and had never imagined Fang Yuan would actually grab him.

While he was astonished and dazed, Fang Yuan pulled him towards his right side, right in between Fang Yuan and shark fin wolf.

Almost at the same time, the rank three Gu Master gave a short pained groan, his whole body twitched, his eyes rolled and he foamed from his mouth!

The thread-like snake took this chance to slitter into Fang Yuan's ear.

Fang Yuan gave a stuffed snort, he then let go of the rank three Gu Master and started to pound the sword shadows.

The female Gu Master could perceive the enormous strength contained within these punches. She softly chuckled and did not receive the punches forcibly, instead called back the multiple sword shadow Gu, her body then turned into a black shadow as she swiftly retreated twenty steps away.

The black shadow landed on the shadow of a tent and turned back into a woman.

This woman looked exquisite, she wore black clothing and her face was covered with a black gauze, only revealing a pair of narrow red phoenix eyes.

From top to bottom, her body let out a gloomy and solitary aura, adding a demonic charm to her beauty; one look at her and it would be hard to forget.

“Junior Shadowless Sword Bian Si Xuan greets Lord Wolf King.” The woman slightly bowed towards Fang Yuan. She was in the enemy camp with enemies surrounding her, but she looked calm and at ease.

Fang Yuan snorted and questioned: “What Gu did you assault me with?”

Bian Si Xuan smiled: “When junior went on an expedition once, in a certain ruins, I unexpectedly discovered a strange Gu worm. When activated, it would pierce into the ear and enter the brain. As long as the person thinks faster for even a bit, this Gu will rapidly expand till the brain bursts. Thus junior has named it brain explosion Gu.”

Fang Yuan’s expression sank.

Bian Si Xuan bowed once more, her tone full of sincere admiration: “Senior could actually perceive Lord Dong Fang’s meticulously planned fatal trap and even avoid most of the force of soul explosion, junior is truly in admiration. Taking senior’s life will be junior’s greatest honor, farewell.”

Immediately afterwards, she turned into a black shadow and ran through the shadows of the buildings.

“She’s shadow sword expert!”

“Damn it, block her.”

Many Gu Masters who had hurried because of the noise, shouted furiously and attacked at the shadows, but Bian Si Xuan’s black shadow had already disappeared.

She left, or was she still here? For a moment, no one dared to be certain.

“We came late, we ask for Lord Wolf King’s forgiveness!”

“Lord Wolf King, are you alright?”

The worried crowd quickly surrounded Fang Yuan.

Fang Yuan’s body did not suffer heavy injuries but his skin and hair were slashed by the sword shadows, making him look quite miserable.

“What could happen to me? A group of incompetent trash, no one realized that the other party had infiltrated the camp! All of you get lost!” Fang Yuan shouted in anger, but he was secretly joyful.

He had not thought that in this assasination attempt, a clue to one of Thieving Heaven Demon Venerable’s inheritances would become his!

Brain explosion Gu?

Did you really think I could not have blocked it?

Hmph, inexperienced junior…

In Fang Yuan’s past life’s memories, this shadow sword expert Bian Si Xuan was an important character.

She was one of Ma Hong Yun’s wives and would become rank six Gu Immortal in the future. It was because of her ‘brain explosion Gu’, that Ma Hong Yun could obtain one of Thieving Heaven Demon Venerable’s inheritances.

It was only that Ma Hong Yun had always avoided mentioning what this inheritance was or the concrete details of it, so Fang Yuan was also not clear.

He only knew how to properly activate this ‘brain explosion Gu’.

“Ma Hong Yun always avoided talking about it, one could see how big of a harvest he had gained from this inheritance and was afraid of others coveting it if he told the truth.” Fang Yuan looked extremely furious on the surface, but his heart was calmly analyzing the event.

Chapter 505 - Star Thought Gu

Chapter 505: Star Thought Gu

Translator: ChibiGeneral Editor: ChibiGeneral

“We did not succeed after all…” Dong Fang Yu Liang looked at the rain outside the window with his arms behind his back, sighing.

This shark fin wolf was captured from the wild intentionally, he paid a hefty price.

After that, he made some secret markings on the shark fin wolf, and as he was afraid of his enemy finding out, he purposely chose a rank five soul explosion Gu and planted it inside the shark fin wolf.

Finally, he sent an assassin in the demonic path who was famous in northern plains, Shadow Sword Expert, and gave the corresponding Gu needed to activate the soul explosion to her, instructing carefully.

This assassination that he planned meticulously, in order to not waste his efforts, he made several simulations, until all the flaws and loopholes were removed.

Be it the shark fin wolf’s body, the location or time it appeared, even the attitude of the Gu Master who discovered the shark fin wolf was considered by him.

But even so, he did not succeed.

At the crucial moment, Wolf King Chang Shan Yin found something amiss and ordered someone else to strike. Seeing that the chance was slipping away, Shadow Sword Expert had to activate soul explosion Gu.

The power of soul explosion was formless and colorless, it could not be seen with the naked eye, but Chang Shan Yin was able to escape at the first moment and reveal the truth.

As he was restricted by Bian Si Xuan's attacks, he only managed to get to the furthest range of the soul explosion, but in the moment of crisis, he was extremely calm, using the reinforcements as a shield and blocked most of the soul explosion's strength.

"His reputation matches his abilities, as expected of the Wolf King who shook northern plains." Dong Fang Yu Liang heard Bian Si Xuan's report and raised his evaluation of Fang Yuan.

With a mutated beast before him, he managed to control the temptation. With his vigilant nature, he made the correct judgement in the face of danger, and immediately spotted the soul explosion's range, the callousness of using his own alliance mate as a shield, as well as the calmness to not chase after the perpetrator after being assassinated.

"Wolf King…" Dong Fang Yu Liang muttered, his heart becoming heavier.

"Dong Fang alliance leader does not need to worry. Although Chang Shan Yin used a meat shield at the last moment, he was still obstructed by me and was within range of the soul explosion. Furthermore, he was afflicted by my brain explosion Gu, even if this Gu didn't take his life, his battle strength would be greatly affected. We can say that Wolf King is basically crippled now."

At a corner of the study room, Bian Si Xuan wore black clothes as she stood among the shadow, saying in a cold voice.

"Brain explosion Gu?" Dong Fang Yu Liang was stunned, this was the first time he had heard of this Gu.

Bian Si Xuan laughed lightly, explaining to him the origin of this Gu.

"So that's it…" Dong Fang Yu Liang heard this and his eyes shone, he sighed as he thanked Bian Si Xuan: "It was all thanks to Shadow Sword Expert's help this time, but you lost a great trump card in the progress."

Bian Si Xuan did not speak.

Actually, her heart was bleeding too.

Ever since she had tested the effects of brain explosion Gu, she had kept it as one of her trump cards. Many of her assassinations succeeded because of it.

But when she assassinated Chang Shan Yin, the situation was urgent and she could not kill Chang Shan Yin on the spot, thus she could not retrieve it. When the enemy forces came, she had to retreat to protect herself.

“This is the reward that you were promised earlier.” Dong Fang Yu Liang took out a Gu worm from his aperture.

This Gu’s body was black, it had a horn and square shell. It was fist-sized but gave people a heavy feeling.

This was the rank four overlapping shadow Gu.

Bian Si Xuan’s gaze landed on overlapping shadow Gu, showing some desire and anxious emotion. Although she had multiple sword shadow Gu, the attacks were dispersed and she would face a tough battle when fighting against a defensive opponent.

If she could have overlapping shadow Gu, she could overlap the sword shadows together, and form a strong attack. It would be a huge boost to her battle strength.

But quickly, Bian Si Xuan retracted her gaze, not taking the overlapping shadow Gu.

In the shadows, her cold voice could be heard carrying some arrogance: “This overlapping shadow Gu will be kept by alliance leader for now, after the Wolf King dies, I will come and take it.”

Saying so, she fused into the shadows, vanishing.

Dong Fang Yu Liang was slightly stunned, he kept the overlapping shadow Gu back into his aperture.

"This Shadow Sword Expert is truly a person of her word, no wonder she can gain such success among the large tribes despite being a demonic path Gu cultivator. Many righteous path Gu Masters would spend a heavy sum to hire her. It seems that she is very confident in brain explosion Gu… if this can really get rid of Wolf King, then I will have one less threat to worry about, that is the best case."

"But what if she fails? What if brain explosion Gu was successfully resolved by Chang Shan Yin? At the crucial moment, he had chosen to deal with the soul explosion Gu and instead allowed the brain explosion Gu to enter his ear, that shows he had some confidence and countermeasure for this problem…"

Dong Fang Yu Liang's gaze dimmed: "But Wolf King was indeed affected by the soul explosion… there are more variables now, I have to make new deductions."

Thinking of this, he moved beside the book shelf and turned the incense holder, opening up a secret tunnel.

Walking in the secret tunnel, he came to a deep area.

Here, he had planted an earth bacteria king Gu.

This Gu was a type of Gu house, the space was cramped inside but it was enough for a person to cultivate. Most importantly, the earth bacteria king Gu had strong defense, it could ensure Dong Fang Yu Liang's safety.

After he entered the Gu house, Dong Fang Yu Liang closed the exit. The entire earth bacteria king Gu curled into a ball and went further down by a few meters before stopping.

The earth bacteria king Gu's internal walls were soft and thick, like a carpet. Dong Fang Yu Liang sat down and closed his eyes.

His mind entered his aperture, activating his rank five primeval essence and injected it into his star thought Gu.

He started to think —

"If Wolf King manages to deal with brain explosion, how do I deal with him?”

The moment this question emerged in his mind, under the effect of star thought Gu, it formed into a thought.

Ordinary thoughts were formless and without matter, it could exist in the brain.

But this thought gave off a blue starlight, not only could it be seen with the naked eye, it could also leave his brain and head, flying above Dong Fang Yu Liang.

Dong Fang Yu Liang quickly thought: “To deal with an enslavement path Gu Master, there are three ways.”

“The first is the supreme method, pitting enslavement path master against enslavement path master.” The second thought shining with starlight flew out of Dong Fang Yu Liang’s brain, flying together with the first star thought.

“The second is the domination method, using the beheading leader tactic, charging forward and taking his life from within the army of defense.” The third star thought spun around the first star thought as well.

“This third is the peculiar method, assassinating Chang Shan Yin, using bribes or kinship against him.” The fourth star thought flew out as well, coiling together with the previous thoughts and collided at times. But no matter how they clashed, the four thoughts remained as four, there were no changes.

Soon after, Dong Fang Yu Liang recalled: Our side’s military force, the enemy’s military force, both side’s rations, Chang Shan Yin’s personality and motive, all of our expert Gu Masters’ information, all of the enemy’s expert Gu Masters’ information, the recent weather prediction and changes, the terrain of the battlefield, how many mounds, lakes, how many beast groups nearby, whether any forces will intervene…

Poof.

In an instant, thousands of star thoughts formed at once, gushing out of his brain towards Dong Fang Yu Liang's head.

At once, starlight was shining brightly!

Dong Fang Yu Liang's expression paled as his primeval sea level fell drastically.

He manipulated these star thoughts proficiently.

Orbs of star thoughts, big and small, the biggest were toe-sized while the smallest were thumb-sized. Within this crowded space, these star thoughts collided with each other.

Some star thoughts collided and formed into three or four, even five or six new star thoughts.

Some fused instead, while others split themselves into smaller orbs.

Hundreds and thousands of thoughts filled the air, they were densely packed, circulating around Dong Fang Yu Liang.

The primeval sea level continued to fall, Dong Fang Yu Liang's mind was completely focused, manipulating these star thoughts to fuse and collide, or split into new ones.

Due to his hard work, or through the help of his other wisdom path Gu worms, the star thoughts continued to decrease in number.

After four hours, from the hundreds and thousands of star thoughts, only eight were left.

But these eight star thoughts were fist-sized, shining with starlight as they contained a complicated thought.

As these star thoughts entered Dong Fang Yu Liang's brain, his eyes shone with the light of wisdom.

He had successfully deduced several methods to deal with Wolf King. These methods were organized and clear, with proper steps to be taken.

If it was a normal person, they would have to think for a month or two to clear out these thoughts, in fact, it would be difficult to get the solution from among these messy thoughts.

But using his wisdom path method, Dong Fang Yu Liang spent only four hours and got his answer.

But these answers were not the only ones.

Taking out primeval stones to recover his primeval essence, Dong Fang Yu Liang rested for a while before starting to analyze the same question again.

This time, he only spent an hour and obtained seven star thoughts.

The star thoughts entered his brain, and he got some answers after reading them. These answers were very similar to the ones before, but there were minute details that were different.

Dong Fang Yu Liang breathed a sigh of relief, finally stopping.

After a while, he relied on his primeval stones to recover his primeval essence back to its peak condition.

But in the depths of his soul, there was a strong sense of fatigue circulating around him, he could not get rid of it.

The deductions of wisdom path not only expended primeval essence when activating Gu worms, it also expended the soul's energy. The more deductions made, or the grander the scale of the thoughts, the longer the deduction would take, and the greater the burden on the soul.

Feeling a sense of weakness was normal, if the difficulty of the deduction was higher, the soul might get damaged, or he might even die!

Of course, as a rank five wisdom path Gu Master, Dong Fang Yu Liang who had received guidance from a Gu Immortal naturally had a complete set of Gu worms.

Rank four, refine essence spirit Gu!

Dong Fang Yu Liang’s body became thinner immediately, as the vitality in his body was converted by the refine essence spirit Gu into resources for his soul.

The soul was nourished, and his fatigue faded quickly.

But a strong sense of hunger soon assaulted him.

Dong Fang Yu Liang rubbed his tummy, laughing bitterly in his heart: “Refine essence spirit Gu, a secretly passed down Gu in my Dong Fang tribe, it can heal the soul well but it does not treat the core of the issue. Soul path and wisdom path are closely related, if I can get the legendary guts Gu, I would be able to make deductions as I wish. Even if my soul gets damaged, I can easily heal it. What a pity that guts Gu can only be found on Dang Hun mountain…”

Chapter 506 - Three Hearts Combination Soul

Chapter 506: Three Hearts Combination Soul

After a few days of ominous rain, it finally stopped.

The dark clouds dispersed in the sky, as pillars of light shone through the clouds, landing on the wet grassland.

The sky was wide and huge, a truly grand sight.

Hei alliance army formed into a current as they flowed towards Cao Fu.

Looking ahead, there were people all around; looking back, the dark troops looked like a tail, extending beyond where one could see, but this was only the middle troops, other than this, there were the vanguards, support troops, left and right defense troops, this displayed Hei alliance's grand army perfectly.

A huge twin-headed rhino's body was covered in steel armor as it moved like a small astle. With sixteen pairs of pillar-like legs, it moved forward, stepping on the grass causing a dent in it.

This was the rank four strength huge beast twin-headed steel rhino, it was being manipulated by an enslavement path Gu Master as it gave off an imposing aura. Hei tribe's main tent was on its back, as Hei Lou Lan sat at the center of the main tent, the tent was propped up highly and their field of vision was very wide.

He was black and fat, his face was full of hair, he laid down on the tiger skin chair, raising his head to gulp some wine in one mouthful.

"Hahaha, looking at my army's formation, there is no reason to fear that Dong Fang Yu Liang lad." He looked around, the flames of ambition burning in him, as his laughter revealed a brutal and violent aura.

"Lord alliance leader is right!"

"I'm afraid that Dong Fang lad is already peeing his pants in fear already?"

"Haha, with all the heroes present here, our army can definitely take down the opponent swiftly in this battle."

In the main tent, the higher-ups present were mostly rank four experts, there were few rank three peak stage Gu Masters, they were laughing and optimistic, agreeing with Hei Lou Lan's words.

Only one person was seated right beside the main seat, he was expressionlessly resting his eyes, like an outsider, paying no heed to the conversations.

But this did not make anyone unhappy, in fact, this felt natural to them.

Hei Lou Lan filled his wine cup as he toasted this person: "Brother Shan Yin, let's have a drink!"

Fang Yuan opened his eyes, raising his cup as he toasted Hei Lou Lan, drinking the delicious wine together.

"Brother Shan Yin, still thinking about that assassination? Hahahaha, that Shadow Sword Expert is indeed a beauty, I have sent my men to deal with her already. That Dong Fang lad is shameless, he dared to carry out an assassination, but we cannot show any weakness! After we win this battle and capture that woman, she will be yours to deal with!" Hei Lou Lan urged with his rough voice.

Everyone laughed.

"With Lord Wolf King's assistance, any defense line can be broken!" A Gu Master immediately bootlicked.

"Extremely true, I heard that Shadow Sword Expert is beauty as a flower, she would definitely be fun in bed!" A male Gu Master winked, showing an expression that all men can understand.

"What assassination can take our Lord Wolf King's life? Hmph, it is but that Dong Fang lad's wishful thinking, no matter how many assassinations they carry out, we are not afraid." The Gu Master in charge of the camp's defenses laughed.

Fang Yuan snorted, looking at this person coldly: "How many assassinations do you want? Letting someone sneak in here and leave as they wish, aren't you ashamed at all?"

The tent turned quiet.

Hei Lou Lan quickly soothed the atmosphere: "Sigh, don't be angry brother Shan Yin..."

But before he finished, Fang Yuan interrupted him: "Never mind the rest, but Hei tribe leader, where are the materials and Gu worms that I wanted?"

Using the opportunity of the assassination, Fang Yuan flew into a rage and demanded some 'fright recovery fees'.

Hei Lou Lan's eyes flashed with unhappiness for a moment, as he laughed: "I have sent them to your tent, brother."

Fang Yuan nodded in satisfaction, standing up: "In that case, I shall go and cultivate, when the battle begins, call me."

Saying so, he did not wait for Hei Lou Lan's reply before jumping off the twin-headed rhino, leaving everyone's vision.

"Hmph!" Hei Lou Lan snorted with his nose, slamming his wine cup on the table.

After he succeeded in making the alliance, he became the alliance leader, the authority of controlling tens of thousands of people made him feel great satisfaction, he could not tolerate Fang Yuan's arrogant attitude.

The tent was still silent.

But quickly, an ominous voice spoke: "This Lord Wolf King… I understand now why Chang tribe could not tolerate him back then."

Everyone heard this and did not say anything, but agreement could be seen on their expressions.

Chang Shan Yin was arrogant, but any organisation had its chain of commands, any person in power would not allow a subordinate's disregard for the system.

"Oh, it is Cunning Gentleman Sun Shi Han." Hei Lou Lan turned his gaze over and saw the person speaking, he pointed at Fang Yuan's seat: "Come, since Chang Shan Yin left already, you shall sit here."

Sun Shi Han was overjoyed, he made bad remarks about Fang Yuan in order to please Hei Lou Lan after all.

Hei Lou Lan accepted his goodwill, after all, Fang Yuan's seat was the closest to Hei Lou Lan, but this was the reason why not anyone could sit there.

Sun Shi Han was called Cunning Gentleman, he was a cunning and devious person, adept at using schemes and plots, but he always had a good excuse for what he did, using the banner of righteousness to abide by the rules of the game, although he was extremely shameless, no one could do anything to him.

Sun Shi Han had rank four initial stage cultivation, he knew he had no qualifications to sit on Fang Yuan's seat.

But he had a plan, he stood up from his seat and bowed to Hei Lou Lan: "Thank you alliance leader, but there cannot be reward without hard work, for this battle, I have thought about it for seven days and seven nights, I have twenty-three ideas to offer to you."

"Oh?"

Sun Shi Han immediately said his twenty-three ideas, each sentence cut to the point, he was extremely familiar with Dong Fang alliance army, especially all the expert Gu Masters that they had, he evidently put in great efforts for this.

At once, everyone's attention was on him.

After he finished, Hei Lou Lan clapped as he laughed: "As expected of Cunning Gentleman, that is a good plan."

Sun Shi Han laughed as he continued: "Reporting to alliance leader, just earlier, I have thought of a new plan, it is called expression weakness to the enemy. That Dong Fang Yu Liang assassinated Wolf King Chang Shan Yin, the Wolf King was affected by soul explosion Gu but did not die. Dong Fang Yu Liang would definitely plan again and make many moves against Lord Wolf King. Why don't we make do with this, and order the Wolf King to stay put, only after we tear down Dong Fang Yu Liang's methods in battle will we call the Wolf King to strike, to put an end to the enemy. What do you think about this, alliance leader?"

Everyone heard this and raised their brows, some were silent.

Hei Lou Lan's gaze shone for a bit, he thought about it and said solemnly: "Sun Shi Han's plan is not bad, we will see about it."

This answer was very vague, but Sun Shi Han showed a happy expression.

"Sit." Hei Lou Lan pointed at the seat again.

"Thank you lord for the seat, I am honored." Saying so, Sun Shi Han really kneeled on the ground and kowtowed to Hei Lou Lan.

Many of the Gu Masters present showed a look of disdain, while some old tribe leaders had an expression deep in thought.

...

"E Xuan Ming, Jiang Wan Shang, and Wei Xin pays respect to Dong Fang alliance leader."

In the study room, three enslavement path Gu Masters, two males and one female, greeted Dong Fang Yu Liang together.

Although there were no enslavement masters like Fang Yuan in Dong Fang alliance army, there were quite a number of enslavement Gu Masters from the different tribes, and among them, these three were the most outstanding.

Dong Fang Yu Liang sat as he moved his head slightly at the three, immediately getting to the point: "The reason why I called you three here today is to discuss how to deal with Wolf King Chang Shan Yin."

Wolf King Chang Shan Yin!

Hearing this, their expressions changed.

A person's name was like the shadow of a tree.

This was an enslavement path master, having shook northern plains decades ago, now that he had returned, he challenged three mid-sized tribes in one night, not only did his strength increase, he even had the night wolf emperor. With the help of Hei tribe, he controlled half a million wolves, and could affect the entire battle single-handedly!

Such an expert, how could they be his match?

These three enslavement path Gu Masters looked at each other and saw the solemn fear they all had.

But at this point, there was no use being afraid, the three said collectively: "We will listen to Dong Fang alliance leader's instructions."

Dong Fang Yu Liang laughed, but he changed the topic, asking them about the details of enslavement path cultivation.

"Enslavement path requires the most resources, although we have our tribe's support, my crocodile group is only about fifty thousand in numbers. I am ashamed." E Xuan Ming said.

"I'm sure alliance leader knows my circumstances, I was not an enslavement path Gu master from the start, I started halfway when I found Blood Sea Ancestor's small inheritance during an expedition, and obtained quite a number of the bladewing blood bats group. These years, I have been gathering the relevant enslavement path Gu worms, but my progress is slow." Jiang Wan Shan sighed.

Wei Xin sighed too: "In my opinion, the hardest part about enslavement path cultivation is the soul. Using ordinary Gu worms to strengthen and refine the soul has too low efficiency. I worked hard for twenty years, almost cultivating daily, but now I have only reached eight hundred man crabman soul."

Among the three, the oldest and strongest person was Wei Xin.

Soul path, enslavement path, and wisdom path, the three paths had a deep relationship, after Dong Fang Yu Liang heard Wei Xin's words, he thought about his own cultivation, and he showed an understanding expression.

He slowly spoke: "Soul cultivation is very difficult indeed, ample patience is needed to accumulate your growth. Although I used the coptis rhizome Gu, and slow slicing Gu to gain a thousand man soul, it expended ten years of my precious time."

The three heard this and their expression changed when they looked at Dong Fang Yu Liang, turning into a look of admiration.

Coptis rhizome Gu and slow slicing Gu, the former could strengthen the soul, but once a Gu Master uses it, they would experience the most bitter taste in the world, eating anything would be a painful torture to them, if they used this Gu for a long time, they would be unable to eat anything, and the Gu Master would became extremely thin and weak.

Meanwhile, slow slicing Gu could refine the soul, and get rid of the impurities in the soul, but in the process, the Gu Master would feel extreme pain, like their flesh was being sliced away piece by piece.

Dong Fang Yu Liang had outstanding talent, reaching rank five at this young age, but this was also due to his hard work, achieved through an uncountable amount of tears, blood and sweat.

Dong Fang Yu Liang's expression turned serious: "Do you know about our Dong Fang tribe's combination killer move used by three people, called three hearts combination soul?"

Killer move — Three Hearts Combination Soul!

The three's pupils shrunk, Dong Fang tribe's famous triple combination killer move, *who in the world would not know about it?*

Chapter 507 - Surprising Thieving Heaven Inheritance

Chapter 507: Surprising Thieving Heaven Inheritance

Translator: ChibiGeneral Editor: ChibiGeneral

Red, green, and black, three colors intertwined in the air violently.

A flickering light was reflecting in Fang Yuan's eyes, he was extremely focused as he concentrated on the half finished product in front of him, trying to stabilize the situation.

Chiiii!

Suddenly, a shrill buzzing erupted.

The sound waves vibrated in the air, forming a violent wind as it overturned the table and chairs in the room, even the flower vase fell and smashed on the ground, ink on the table fell on the ground as writing paper flew in the air.

The three colors vanished, and the half finished product exploded into a pool of blue blood traces, splattering on the surrounding walls.

"Failed again…" Fang Yuan sighed lightly.

These days, he had been refining Gu, this Gu was called nauseous crying baby Gu, used mainly to deal with three hearts combination soul.

Three hearts combination soul was a famous killer move of Dong Fang tribe, it could allow three Gu Master's soul to fuse into one temporarily, going into a state where all three work as one, regardless of defending, attacking, or retreating.

With Fang Yuan's experience these few days, his unclear memories started to become more vivid as well.

He vaguely remembered that Hei Lou Lan suffered greatly in this battle against Dong Fang Yu Liang, only winning by a margin. Because of three hearts combination soul, Hei Lou Lan's side suffered great losses.

After that, Ma Hong Yun rose up, and when he was dealing with Dong Fang tribe, three hearts combination soul caused great problems for him.

Once, he was set up by some people, and lost terribly against this killer move, getting captured alive by Dong Fang tribe.

Ma Hong Yun thus became a prisoner, and met with Dong Fang Qing Yu by accident, gaining her affection. Not only did Dong Fang Qing Yu let him escape secretly, she even told him all the secrets regarding this killer move.

Ma Hong Yun returned safely, and together with his wife, Sheng Ling Er, who was a refinement path master, created the nauseous crying baby Gu, specifically to deal with three hearts combination soul.

Nauseous crying baby Gu had great effects on the battle, using this, Ma Hong Yun obtained a great victory, while Dong Fang tribe lost consecutively.

After they failed too many times, the killer move three hearts combination soul was slowly phased out of use.

During the battle of the five regions, chaos was everywhere and three hearts combination soul was stolen by central continent Gu Masters, they improved upon it and it became a powerful move again. Ma Hong Yun thus released the recipe of nauseous crying baby and after everyone learnt it, they modified it based on the original Gu recipe, to deal with the improved three hearts combination soul.

Thereafter, three hearts combination soul finally lost its use, and was left behind in history.

Fang Yuan rebirthed, with five hundred years of memories, he naturally knew the recipe of nauseous crying baby Gu.

But nauseous crying baby Gu was rank four, while the refinement materials were not rare, the refinement difficulty was extremely high. Even with Fang Yuan's near refinement master level skills, he attempted it more than ten times but failed them all.

Sighing, Fang Yuan got up and walked to the window.

This window was destroyed by the Gu refinement failure, the air blast broke the glass, as a huge hole was created. The wind from outside carried the smell of the grass as it flowed into the room through the hole.

Fang Yuan pressed his hand on the window as he sent his primeval essence over.

Quickly, the new window panel started growing, forming and blocking all the wind outside.

The walls moved like intestines, the earlier crevices and holes created were all filled, while the broken vase fragments on the ground as well as the blood traces were devoured.

This was the convenience of the large lizard house Gu.

Large lizard house Gu was rank three, advanced from the rank two lizard house Gu.

The lizard house Gu was already large as a bus, it looked like a four-legged lizard on the outside, with a pathway inside the lizard that splits into rooms on both sides.

The large lizard house Gu was like a two-storey building, its body was five times the size of a lizard house Gu.

It was split into two storeys, there were more rooms and a larger space within,. This was given to Fang Yuan by Hei Lou Lan personally after he joined Hei tribe.

His daily cultivation was all done inside this room.

Aside from Fang Yuan, there were six rank three Gu Masters guarding the surroundings.

They took turns as sentries, paired with their investigative Gu that could deal with all hiding and lurking Gu Masters.

If shadow sword expert attacks again, before she even gets close to a hundred steps, she would be discovered by Gu Masters, and her traces would be exposed. This was a measure set up after Fang Yuan's assassination.

At this moment, Fang Yuan looked down from the window, seeing large numbers of mortals and Gu masters anxiously setting up their defenses.

Some of them were digging canals, some were growing trees, erecting arrow towers, or building mud walls… a tight defensive line was starting to form.

This was the third line of defense.

Northern plains' terrain was mostly flat grassland, there were little obstacles and horses could run freely. Thus, since long ago, when two forces in northern plains engage in battle, the moment one side loses, they would not be able to escape, the winner would definitely be able to chase them down.

Once a battle is lost, it would mean that it was the end, a tribe would quickly weaken or even face its demise.

But with a defensive line, the results would be different.

Once a battle is lost, be it retreating and escaping, or avoiding the enemy temporarily, waiting for a chance to counterattack, these defensive lines would have great use.

Battles were a matter of life and death, it decided the fate of the tribes, it was dangerous and hard to predict, one tiny accident or a mistake from either side could result in failure.

At this time, when a tribe retreats and defends according to their defensive line, they would stabilize their footing and would be able to regroup.

This was the world of Gu. An individual had mysterious powers, it was not difficult to construct a long defensive line that was longer than the great wall on Earth.

People soon realized the benefits of these defensive lines.

Because battles in northern plains were not decided quickly, defense battles were much more advantageous than offensive assault.

“According to our intel, Dong Fang tribe is already starting on the growth defensive line, there are still about three thousand li of distance between us. According to their habits, every eight hundred to one thousand li would have a new defensive line.” Fang Yuan recalled from his memories.

These days, he had been cultivating in closed doors, but he had a firm grasp of the outside information. He was a higher-up of Hei alliance army, everyday there would be Gu Masters coming to give him information.

“Looking at the time, tomorrow our vanguards will meet and begin the battle. But there is still some time before I strike.”

Fang Yuan was guarding the central camp now with Hei Lou Lan.

A few days ago, Hei Lou Lan had sent someone to convey the message of the showing weakness tactic. In all, they wanted to make use of the opportunity to lure Dong Fang Yu Liang to make arrangements that he had prepared so that Fang Yuan could deal with him.

Fang Yuan laughed coldly towards this.

He had the night wolf emperor, the night wolf group was easy to replenish. But Hei Lou Lan refused to use these cannon fodder, while he wanted to deal with Dong Fang Yu Liang, he also wanted to suppress Wolf King Chang Shan Yin.

Fang Yuan had displayed Chang Shan Yin’s arrogance perfectly, this made Hei Lou Lan unhappy, as the alliance was newly formed, all the different tribes were contesting against each other secretly, especially when the current situation was Hei tribe's dominance. thus, all the Gu Masters were competing for battle merit, suppressing others to vie for more benefits.

Water Demon Hao Ji Liu stood in front of the main tent for three days without moving in order to compete for the vanguard's general position. He blocked the door for three days and made a din requesting to participate in battle, and after defeating over a dozen competitors, he got his wish.

Cunning Gentleman used his schemes to emerge victorious, gaining Hei Lou Lan's favor by showing his allegiance, now he was the number one strategist in the alliance army.

This was the internal strife.

Any organisation or political system had no lack of internal strifes.

Chang Shan Yin was a loner, and also had five hundred thousand wolves, thus he was ostracised by everyone — since he is so strong, if he strikes, all the battle merits will be his, what would become of our benefits then?

Hei Lou Lan agreed to Cunning Gentleman's plan because he had to stabilize his position as the leader, and also to defend the hierarchy — Wolf King is way too strong now, it gives me great pressure, there has to be balance, he has to be suppressed.

Towards these issues and these people's thoughts, Fang Yuan was clear as day.

His situation was different, the fight for the Imperial Court was just a jumping board, his motive was greater, much more than anyone could imagine, with the blessed land in his possession, he had little need for these battle gains.

"Since they do not want me to strike, I would use this time to cultivate, isn't that more advantageous for me?"

What Fang Yuan lacked now was not these ordinary resources, but precious resources and large amounts of time.

A day later, Water Demon Hao Ji Liu led the vanguard troops and engaged in battle with Dong Fang alliance army.

When the generals were fighting, Hao Ji Liu displayed great strength as he killed the enemy's general as well as three sub-generals.

The enemy troops were without a leader, they lost their morale and were overwhelmed by Hao Ji Liu's army, allowing him to gain a great victory. But in the process of chasing them, he was attacked by shadow sword expert Bian Si Xuan, and got heavily injured.

Hao Ji Liu had to stop the attack and make a base there, nursing his wounds while waiting for the main troops to arrive.

Three days later, Hei Lou Lan led the central army and entered the frontlines.

Five days later, the two armies converged.

The two camps were only several hundred li apart, the tribe flags were erected all around the camp as battle was around the corner, the atmosphere was heavy.

Late at night, the bright moon shines in the sky with few stars.

In the room, Fang Yuan sat on the cushion as his eyes were shut, activating space thought Gu.

Space thought Gu, rank five, was bought in treasure yellow heaven. Using moving perspective cup Gu, Fang Yuan obtained it from Hu Immortal blessed land.

Under the effect of space thought Gu, Fang Yuan had half-transparent thoughts that appeared like bubbles, getting closer to the brain explosion Gu in his skull.

Brain explosion Gu was only rank four, Fang Yuan used Spring Autumn Cicada's aura to forcefully subdue it back then.

But the brain explosion Gu still remained in his head.

These days, the brain explosion Gu had been absorbing his brain matter, while being corroded by space thought Gu, it had finally reached a qualitative change!

In an instant, the brain explosion Gu scattered into a lump of black light, a lump of white smoke, and a fist-sized space thought.

“The reverse refinement succeeded.” Seeing this, Fang Yuan breathed out heavily as his heart was filled with joy.

He moved the black light and white smoke out of his head, as they formed into two rank three Gu.

These Gu were ordinary, Fang Yuan casually placed them at the side.

The important thing was that space thought.

Fang Yuan placed the space thought into his brain and read the details in it.

Soon, his body shuddered as his pupils expanded, his face showing an undeniable joy that could not be concealed.

“This particular Thieving Heaven Demon Venerable’s inheritance leads to Luo Po valley?!”

Chapter 508 - Challenging Wolf King

Chapter 508: Challenging Wolf King

Translator: ChibiGeneral Editor: ChibiGeneral

The pioneer of soul path — the legendary Gu Master at the apex of rank nine peak stage, Spectral Soul Demon Venerable once said:

“In this huge world, the best option for soul strengthening is Dang Hun mountain, and for soul refinement, the best choice is Luo Po valley. One mountain and one valley, with both, one can obtain great success in soul path and sweep every obstacle in this world!”

Thus, Dang Hun mountain and Luo Po valley became known as the soul cultivator’s sacred lands.

Fang Yuan was well aware of how huge a help these two sacred lands could provide since obtaining Dang Hun mountain.

His thousand man soul was cultivated through the guts Gu on Dang Hun mountain.

Guts Gu was the number one Gu in increasing the foundation of the soul; it had no side-effects and its efficiency was extremely high as well.

Normal Gu Masters would usually require about twenty years to cultivate their soul to thousand man soul level. Some geniuses with the help of their clans or the guidance of their seniors could cut down this twenty years by half.

But for Fang Yuan?

He used the guts Gu on Dang Hun mountain to strengthen his soul to thousand man level in less than half a year.

This was coupled with the fact that Dang Hun mountain was slowly dying from the Immortal Gu Gruel Mud's corrosion.

With Dang Hun mountain, the speed at which Fang Yuan was able to raise his soul to thousand man soul level was like charging to the sky with a rocket. But apart from strengthening soul, the cultivation of soul required tempering to purify it.

In this aspect, Fang Yuan's progress was much slower.

Compared to the speed of soul strengthening, his soul tempering speed was as slow as a tortoise climbing.

Fang Yuan was using wolf soul Gu to temper his soul, to transform his soul to wolfman soul.

But none of the wolf soul Gu he was using were rank five, the most he used was rank four. Using a rank four wolf soul Gu to purify thousand man soul was like pouring a bottle of ink in a lake; the efficiency of dying the whole lake was way too low.

Fang Yuan had been searching for rank five wolf soul Gu, but it was in vain.

But even without rank five wolf soul Gu, there was still one method.

That was to use second watch Gu or third watch Gu to increase the timeflow of his body, or enter the blessed land, to increase the speed of his cultivation.

These methods could be used by others, but Fang Yuan could not.

Fang Yuan's first vital Gu Spring Autumn Cicada was slowly recovering with time. Before he becomes a Gu Immortal, this Gu would be like an executioner's blade hovering above his neck.

"My thousand man soul was accomplished using Dang Hun mountain, Luo Po valley is on par with Dang Hun mountain, if I could obtain it..."

For a moment, Fang Yuan had an impulse to change to soul path.

“If I can save Dang Hun mountain and obtain Luo Po Valley, with the huge foundation of two sacred lands of the soul path, cultivating soul path would truly be a wise choice, even having much more prospects than the blood path I cultivated in my past life!”

But soon, Fang Yuan calmed down.

“According to the directions given by space thought, Luo Po Valley is quite far away, the matter of importance right now is saving Dang Hun mountain, now is not the time to go to Luo Po Valley. The battle is approaching, I also cannot casually abandon my current strength path and enslavement path foundation.”

Fang Yuan was relying on enslavement path and strength path to become an influential figure in northern plains.

But his current strength was still far from allowing him to roam unhindered and invincible in the mortal world.

One shadow sword expert was able to obstruct him.

Although he had second aperture, cultivated strength and enslavement path, had rank five peak stage cultivation, Fang Yuan was involved in the fight for the Imperial Court, he still appeared insignificant.

This was a whirlpool of war that involved the whole northern plains; if one was just a bit careless, even a rank five Gu Master had the danger of dying.

“My enslavement path cultivation has achieved some success and can influence the whole situation, but it is clear that my attack is strong but defense is weak. On strength path aspect, it is still not enough for defending myself. It will be trouble once people like Mo Shi Kuang and Bian Si Xuan get near to me. I have to be much more careful in this battle with Dong Fang tribe.”

Thinking of the imminent great battle, Fang Yuan did not have raging battle intent like others.

It could be said that Cunning Gentleman was doing him a small favor, letting him stay behind the scenes and have more time to cultivate and increase his battle strength.

In the following days, Fang Yuan nurtured his second aperture while trying to refine nauseous crying baby Gu. At the same time, he communicated with Little Hu Immortal to handle all kinds of matters in the blessed land.

In Hu Immortal blessed land, Dang Hun mountain's situation continued to worsen, the whole mountain was shrinking day by day. Little Hu Immortal disposed of large amounts of Gruel Mud from Dang Hun mountain every day to prolong Dang Hun mountain's vitality as much as possible.

Starry clouds covered the eastern part of the blessed land, the scale of starlight fireflies had expanded by three times of before, and there were even fifty to sixty more starlight firefly Gu than Little Hu Immortal's initial assessment.

Being able to get this many starlight firefly Gu in this short period of time was all thanks to air bubble fish.

These air bubble fish were gradually showing their effects.

Previously, Fang Yuan had frequently entered and exited Hu Immortal blessed land, using stargate Gu for a long time which caused the amount of starlight firefly Gu to dwindle. Now, starlight firefly Gu expanded in numbers once more, alleviating his pressure.

At the western part of the blessed land, large numbers of pink rabbits were reproducing.

Since Fang Yuan had transferred the wolf groups to northern plains, the pressure on the pink rabbits had decreased, thus their numbers was quickly expanding.

After Little Hu Immortal reported these news, Fang Yuan immediately made her transfer large amounts of water wolves from the eastern lakes to the western parts to fill the gap in the food chain, but even so, the rabbits were still expanding wildly.

To prevent a rabbit calamity, Little Hu Immortal had put up a large group of pink rabbits for sale in treasure yellow heaven, a few days ago.

Fang Yuan was most concerned about the hairy men who were momentarily placed at the southern part of the blessed land.

This was originally the rockmen’s home grounds, now there was a group of hairy men who suddenly appeared out of nowhere. The two sides fought for their territories causing several small scale conflicts.

Under Fang Yuan’s instructions, Little Hu Immortal secretly helped the hairy men win against a stoneman tribe, and sold the stoneman captives to Immortal Crane Sect.

Immortal Crane Sect kept on trying to make transactions for the guts Gu, but were always refused by Little Hu Immortal. Fang Zheng requested to see Fang Yuan several times as a negotiation representative, but was also refused.

As for treasure yellow heaven, another batch of Gruel Mud was sold, gaining another remnant recipe of Immortal Gu Gruel Mud.

The remnant recipes of Immortal Gu Fang Yuan had sold before was once again resold by Little Hu Immortal after a gap of some time, obtaining eleven immortal essence stones.

When the same Gu recipe is sold multiple times in treasure yellow heaven and more Gu Immortals obtain it, its treasure light will decrease. Thus, this method could not be treated as a long term source of income.

This was like a gold mine which was already mostly mined. The profits in the future would continue to decrease and not be worthy of too much expectations.

After another three days of confrontation, Dong Fang Yu Liang personally wrote a war challenge and sent it to Hei Lou Lan.

Hei Lou Lan was shocked and asked his subordinates: “Has the rear army of Dong Fang tribe arrived already?”

Cunning Gentleman Sun Shi Han answered: “Their rear army is still five thousand li away, building the fifth defensive line.”

Hei Lou Lan gave a sinister smile: “Dong Fang tribe’s military strength was originally lower than ours and they still dare to split their forces!”

Sun Shi Han also smiled: “Dong Fang Yu Liang is playing with fire. We might as well wait until our rear army converges, our military strength will greatly surpass theirs and at that time, we can crush through their whole army in one move.”

Baleful light flickered in Hei Lou Lan’s eyes. He had a personal grudge with Dong Fang Yu Liang; when he went adventuring to gain experience in his youth, he saw Dong Fang Qing Yu and drooled over her beauty, but he was taught a lesson by Dong Fang Yu Liang and had suffered quite a bit.

He really wanted to take revenge, but he was not someone who was easily controlled by emotions.

“Even a fool can see through this Dong Fang lad’s intention. He wants to battle but I won’t give him the chance. How long till my rear army arrives?” Hei Lou Lan asked.

“Approximated three days.” Wang tribe leader answered from the side.

“Good. I will write a letter to Dong Fang Yu Liang to change the date to four days later!” Hei Lou Lan laughed loudly.

Dong Fang Yu Liang received the letter and skimmed through it.

Dong Fang alliance’s higher-ups were filled with fury.

Hei Lou Lan had written nonsense, proclaiming he was giving three days of time to Dong Fang Yu Liang in magnanimity, and hoped Dong Fang Yu Liang would live up to this good intent and enjoy the last days of his life.

The crowd shouted for war one after another, but Dong Fang Yu Liang calmly smiled: “Everyone, do not be impatient. This letter was already within my expectations. I have deduced many times over these days and have come up with a plan, please listen to the details…”

Four days were gone in an instant.

In this day of battle, it was a day of fine weather with blue sky spreading to the distant horizon.

Knee-length grass grew lushly, the two sides moved in formation that reached hundred li, raising banners with tightly packed troops.

A twin-headed hill sized rhino carried the main tent on its back. On the main tent was Hei Lou Lan, Fang Yuan, Hao Ji Liu, Wang tribe leader, Fang tribe leader, Ye tribe leader and other experts.

Fang Yuan’s position was naturally at the topmost left side of the main seat.

Cunning Gentleman Sun Shi Han was standing behind Hei Lou Lan with a loyal expression; he had already become Hei Lou Lan’s trusted aide.

The wind whistled, causing the banners to flutter wildly. Fang Yuan looked into the distance from his seat, seeing the tight and disciplined formation of Dong Fang tribe with their main tent resting on a white cloud, floating in mid-air.

One could vaguely see Dong Fang Yu Liang sitting on the central seat in the main tent with officials and fierce experts sitting on his left and right. Just from their disposition, they did not appear any weaker than Hei Lou Lan’s side.

At this moment, Hei Lou Lan’s loud laughter rang in Fang Yuan’s ears: “Hahaha, this battle will signify the first step my Hei tribe takes towards the ownership of the Imperial court and ruling the northern plains. Everyone, who wants to go forward and make the first challenge?”

His words had just landed when a group of Gu Masters rose one after another, shouting or vouching for themselves to request to be sent to battle.

Hei Lou Lan’s gaze travelled through the group and landed on one of them: “Pan Ping, you shall go.”

Pan Ping was tall and buff, his hair was reddish-yellow, on his waist was a scimitar with gold edge and silver handle. He laughed heartily when chosen and just as he was about to agree, a loud shout came from the enemy: “Junior Tang Miao Ming has heard of the awespiring name of the grand Wolf King for a long time, I have specifically come to get a pointer or two.”

“Dong Fang Yu Liang has guts, he actually chose to challenge us first!”

“That is little fox commander Tang Miao Ming, a rank four middle stage Gu Master, she actually directly challenged Lord Wolf King, they must be planning something.”

For a moment, everyone’s gaze landed on Fang Yuan, waiting for the Wolf King’s response.

Chapter 509 - A wave of his hand

Chapter 509: A wave of his hand

Translator: ChibiGeneral Editor: ChibiGeneral

The two armies were poised for battle. Hei tribe had been about to send Pan Ping to challenge, but Dong Fang Yu Liang was the first to send Tang Miao Ming.

Tang Miao Ming was Tang tribe's specially cultivated enslavement path female Gu Master with rank four middle stage cultivation. She liked foxes and had exquisite control over them, but she did not have any notable achievements in history.

However, Dong Fang Yu Liang specially sent her to directly challenge Wolf King, so it was clear he had a specific plan against Fang Yuan and Tang Miao Ming was one part of it.

Wisdom path Gu Masters were like this with plans within plans. The people fighting against wisdom path Gu Masters would not sense it at the start, but by the time they realised it, they would be deep under already.

Tang Miao Ming's public challenge attracted everyone's gazes towards Fang Yuan.

Fang Yuan was at leisure as he drank wine and slowly placed down the wine cup, then looked at Hei Lou Lan: "Alliance leader, then should I take the challenge?"

Hei Lou Lan laughed heartily, pleased at Fang Yuan asking him before the battle: "Let these experts look at brother Shan Yin's might and be awed!"

Fang Yuan slowly stood up and used a Gu worm to transmit his voice outside: “Little girl, your bravery in challenging me deserves praises, but you are not my match. Moreover… it is getting late.”

In front of the formation, Tang Miao Ming clenched her hands which were soaked with sweat. Her lovely body shuddered at Fang Yuan’s words, and her thoughts began to unfold at a rapid speed: ‘Wolf King replied! He is truly arrogant, just like alliance leader Dong Fang expected. Now I should act according to his plan and use words to force him to battle with only a hundred beast group against my similar-sized fox group . But… what is the meaning of his last sentence?’

Dong Fang Yu Liang who was sitting in the main tent had been observing the situation.

Tang Miao Ming was an enslavement path expert he accidentally discovered not long ago. After Dong Fang Yu Liang learned the details, he found that Tang Miao Ming was very good at fighting with small scale fox groups. Her skill at this aspect was quite deep, and adding in her set of supporting Gu worms, she could even match an enslavement path master!

Dong Fang Yu Liang immediately thought of using Tang Miao Ming to openly scheme against Wolf King Chang Shan Yin.

The Wolf King’s prestige was deeply set in people’s hearts. If he was beaten under everyone’s gaze, it would definitely greatly raise their morale.

What was even more matching was that Wolf King Chang Shan Yin was very arrogant; Tang Miao Ming was his junior and a female. As long as she was putting herself in a lower position, even Chang Shan Yin would also find it embarrassing to bully a junior in front of everyone.

‘Chang Shan Yin, you are really as arrogant as the rumors say. Hehehe, as long as you come out to fight, Tang Miao Ming will definitely give you a great surprise.’

Dong Fang Yu Liang was inwardly excited but also had a doubt: “It is getting late? What is he talking about?”

Not only Dong Fang Yu Liang, but others also had doubts.

But Fang Yuan’s next sentence immediately answered their doubts: “It is getting late, quickly start the battle. I still need to eat my lunch after it. Come, those who want to challenge me, all of you come out!”

After he finished speaking, he stood and then waved his hand from the main tent.

Howl—!

Five hundred thousand wolves howled together.

The explosive wolf howls resounded through the skies. Their vigor was so majestic that even the wind stopped for a moment and all the experts shocked.

“Brother Shan Yin, what are you…” Hei Lou Lan’s hand slipped and the fine wine in his cup spilled down on his robe.

“Could it be, the Wolf King is thinking…?!” Dong Fang Yu Liang’s pupils shrunk, his expression paling.

Following, five hundred thousand wolf group rushed forward like a majestic tide towards the opposite army.

“My… my god!”

“Wolf tide, this is a wolf tide…”

“Chang Shan Yin, he is making a direct attack, he has sent all his wolves!”

Dong Fang alliance army was in a chaos, the enormous momentum from the wolf group shook them. Many people screamed in fear, and countless defensive Gu worms were activated.

For a moment, countless light barriers with all kinds of color shone among Dong Fang alliance army. Some just shielded one person while some shielded a large patch of land. Some formed into armors while some caused the earth to bulge and form into earth walls.

Tang Miao Ming's face was as pale as paper!

She was standing between the two armies, and with the wolf group rushing forward, she would be the first they would charge into.

Facing the endless wolf tide, she felt like she was a small wooden boat in a vast sea about to be swallowed by a shocking tide.

“Damn it, the Wolf King is not abiding by the rules! I came forward to challenge him and only brought a thousand beast group!!” Tang Miao Ming was shocked and also furious.

Normally speaking, before a battle began, there would be a battle between experts in between the armies.

This was an old practice in northern plains.

In the battle between Gu Master experts, not only would the winner's side's morale greatly increase, they could also understand the strength of the other side and be more prepared later. At the same time, this expert challenge could also build friendship. Once the battle ended, the losing side's Gu Masters would have a way out when they surrendered.

The challenge between experts?!

The moment Fang Yuan raised his hand, he used all his wolf groups and directly cut apart the round of expert challenging.

Wolf King, do you know the rules!?

For a moment, countless people from both sides roared and questioned in their mind.

The two armies were not too far apart; the wolf group's rush was quick and soon crossed this distance and unfolded an intense battle against Dong Fang army.

“Attack, don't be in a daze, the wolf group has attacked!”

“Kill, slaughter these damned wolves!!”

“Brothers, move together, fight alongside each other!”

A clamor erupted within Dong Fang army. All kinds of colorful lights, rolling stones, golden lights, wooden spikes, water steam, wind blades and so on landed among the wolf group, causing enormous casualties in Fang Yuan’s wolf group instantly.

Hei tribe army was still standing on their spot, looking dumbfoundedly at the frenzied battle situation in the other side.

“Brother Shan Yin!” Hei Lou Lan stared with wide eyes at Fang Yuan.

Fang Yuan smiled at fatty Hei: “Dong Fang Yu Liang is a rank five wisdom path Gu Master. Since he initiated the expert challenge, he must definitely have had gathered a lot of intel to help him in making deductions. And it was the talented alliance leader who directly told me to make my move.”

Hei Lou Lan’s eyes widened even more.

He had commanded Fang Yuan to make a move, but it was not to make such a big move! Clearly, Fang Yuan had intentionally distorted his intention, but he could not bicker with Fang Yuan at this critical juncture.

“Move! All army charge, attack, attack!!” Hei Lou Lan swallowed his resentment and turned around towards the front, fiercely waving his hand and giving his command.

“Orders from alliance leader, all army charge!”

“Orders from alliance leader, all army charge!”

The command was conveyed from top to bottom. The great army began to move slowly; hundreds of thousands of soldiers followed the wolf group in charging towards the other side.

Tang Miao Ming manipulated her fox group, changing the formation again and again to firmly protect herself.

She was worthy of being the person Dong Fang Yu Liang had chosen. Under the charge of the wolf tide, with just a thousand beast group, she continuously changed the formation to keep on resisting the charge.

Her fox group surrounded her, forming a round formation. The formation kept on rotating with a natural flow to it, like a millstone or a reef. The incoming wolf group was like a tide, attacking wave after wave, but it could not break through the round formation of the fox group.

However, Tang Miao Ming did not have the least bit of joy on her face; she was even shouting madly in her mind —

‘This damned Wolf King is simply a lunatic!’

‘Damn it, I might be able to hold on for now, but with this, I cannot move a single step.’

‘Someone save me, save me… eh!’

Suddenly, Tang Miao Ming’s body stiffened; her complexion went completely white, her eyes showing fear and despair.

In front of her, the Hei tribe army was gradually starting to move before her, quickly increasing their speed. Under the cover of the wolf group, they showed an earth-shattering influence and power of violence!

Tang Miao Ming momentarily lost her senses and the round formation of the fox group immediately collapsed.

The two-headed rhinoceros came rushing over with explosive sounds; as Hei Lou Lan looked on from above, his heart received a slight jolt at Tang Miao Ming’s beauty.

“Who will capture this woman for me?” He had just spoken when Pan Ping shot out.

Pan Ping made a few jumps and fiercely charged to Tang Miao Ming’s side, moving rapidly; in a short few moments, he smoothly captured Tang Miao Ming.

Hei Lou Lan nodded with satisfaction at this scene, then turned his gaze towards the front.

“Dong Fang lad…” He gave a malevolent smile, his eyes burning with the flame of revenge.

After a short time, the two armies officially started the battle. A large chaotic battle had begun.

With Fang Yuan’s one move, this great battle that had just started had entered its climax.

“Beast!”

Facing the incoming night wolves, Tang Fang furiously shouted and poured his primeval essence into fire pellet Gu.

Whoosh!

A fist-sized fireball shot forward, bringing a gale with it.

This orange pellet fire struck the night wolf.

The night wolf whimpered and rolled around the ground, but its whole body burned with the fire before shortly dying.

“Kill!” Tang Fang breathed roughly and was about to charge forward when he was blocked by a Tang tribe elder.

“Third young master, don’t rush ahead, the tribe leader has commanded you to return back quickly!”

“But big sister has been captured!” Tang Fang stared wide, he did not want to turn back. His big sister was Tang Miao Ming.

“Third young master, rushing forward like this will only lead to your death!” The elder hastily persuaded.

“Damn it!” Tang Fang gnashed his teeth and clenched his fists, feeling his powerlessness.

He was Tang tribe’s genius, and he was only twenty two but had already reached rank three. Yet this rank three battle strength that could have controlled the situation in the past was now so minute in this great battle.

The rank three battle strength that was normally hard to be seen were all present in this battlefield.

Rank three Gu Masters were reduced to mid level strength; above them were those rank four Gu Master experts and even more higher were the rank five experts.

“Big sister, wait for me, I will definitely rescue you.” Tang Fang calmed down and swore in his mind as he retreated.

“Hmph, leaving whenever you want? Leave behind your life!” Right at this time, a rank three Gu Master of Wang tribe rushed over.

“It is Wang Jiang! Third young master, leave quickly, I will hold him back.” The Tang tribe elder instantly recognized the enemy.

Wang Jiang’s fiance Luo Yu Feng had been snatched by Tang tribe, so he had deep hatred towards them. And now in this large battle, he naturally would not let this chance for revenge go.

Such situations were not few.

In this world, people would have gratitude, grudges and hatred.

Now, those with grudges could let out their grudges and those with hatred could repay their hatred!

Chapter 510 - Great Battle

Chapter 510: Great Battle

Translator: ChibiGeneral Editor: ChibiGeneral

“Tang tribe! The humiliation back then, I will repay it double today!!” Wang Jiang had a malevolent expression on his face as he gave a deep shout, his whole body inflated like a black bear as he violently smashed towards Tang Fang.

Tang Fang was startled and furious at Wang Jiang’s fierce momentum, and had the intention to battle with his life.

Pellet fire Gu!

He pushed his right palm and an orange fire shot towards Wang Jiang.

The fire made an arc in the air, quickly approaching Wang Jiang’s face. Wang Jiang felt the burning heat before the fire even struck him.

But he just laughed nastily and actually opened his mouth, without any intent to dodge.

Gulp!

He swallowed the pellet fire!

“This is rank four swallow fire Gu!” Tang Fang was shocked.

Swallow fire Gu was not an offensive Gu but a storage Gu. But using Gu always relied on a Gu Master’s wits. Who was to say storage Gu could not be used for battle?

Tang tribe always prioritized fire path Gu worms. Wang Jiang spent a huge price to purchase a rank four swallow fire Gu, so he could use it against Tang tribe sometime in the future.

“Wang Jiang, we will help you.” At this time, two Gu Masters rushed over, both with rank three cultivation.

Tang Fang and the Tang tribe elder’s expression turned pale. The swallow fire Gu could already restrict them, now the other side had three people, occupying a huge advantage.

“Third young master, leave quickly, I will hold them back!” The Tang tribe elder saw the critical situation and stood up to fight to give Tang Fang an opportunity to escape.

Tang Fang was not a conceited man, he gnashed his teeth and turned around to leave: “Elder hold on, I will quickly come back with reinforcements!”

“Chase!” Wang Jiang and the two others naturally were not willing to let Tang Fang escape safely, but who could have thought the Tang tribe elder that remained was a defensive Gu Master and moreover had a rank three rare Gu ‘slow steps’.

As this Gu’s name implied, it could slow down Gu Masters’ speed for a period of time.

Wang Jiang and the two others were slowed down and could only give up on Tang Fang, then with a belly filled with anger, attacked the Tang tribe elder.

The Tang tribe elder could not fend off against the numbers although he had slow steps Gu. First, he was struck by Wang Jiang’s punch, then his arm was severed by wind blade. Finally, a snowball turned him into an ice sculpture, killing him.

“Elder!!” Tang Fang watched with tearful red eyes; when he came back with reinforcements, he could only collect the corpse of this elder.

The flames of hatred raged in his heart, but he could not find his enemies.

The battlefield was in chaos. Large numbers of wolves rushed forward and created a havor. Besides them, there were fox groups, war crabs, bats and other beasts. Metal, wood, water, fire, earth, wind, lightning, light, darkness… All kinds of attacks streaked through the sky and landed on the ground; rocks were smashed, flames ablazed, ice spread, lightning dazzled the eyes…

Gu Masters shouted and screamed; some attacked while some retreated; some were rushing to reinforce while some were defending.

A great chaotic battle between hundreds of thousands of people was enough to fill a range of thousands of miles.

Rumble…

Suddenly, an enormous blue wave with the momentum of covering the sky, descended like an evil flood dragon.

Large numbers of wolves and Gu Masters were swept by the enormous wave.

This part of the battlefield was instantly cleared up, several large puddles forming in this cleared grassland. A Gu Master arrogantly stood in this center of the battlefield while laughing wildly.

“It is Water Demon Hao Ji Liu!” Tang Fang’s pupils shrunk as he recognized this man.

“Retreat, this person is a rank four upper stage expert, he is a demon.” Many surviving rank three Gu Masters wisely chose to retreat.

Water Demon’s fierce gaze swept through the battlefield and landed on Tang Fang’s side who had the highest numbers.

These rank three Gu Masters were moving battle merits to Water Demon, representing a bountiful reward after the war.

Water Demon licked his dried lips with his scarlet tongue, a bloodthirsty killing intent filling his face.

“Consider it your bad luck to have ran into me!” Water Demon laughed loudly as he fiercely pushed forward his two palms.

Rank four waterfall Gu!

BOOM!

In an instant, an enormous torrent bubbled and charged towards Tang Fang and his group with an immense momentum.

Facing such a majestic attack, Tang Fang felt he was like a single person facing a tsunami, feeling he was facing a great catastrophe alone.

“Third young master, we will hold it back, retreat quickly!” Several elders who had been accompanying Tang Fang, gnashed their teeth and stood in front of Tang Fang.

They combined their strength and were finally able to hold back this waterfall.

“Leave!!!” The elders’ urging caused Tang Fang to feel stifled.

“Hold on, I will get father to come rescue you!” He gnashed his teeth and finally chose to leave.

Gagaga…

Water Demon laughed wildly and engaged in the battle with the several Tang tribe elders. His offense surged forward, his water abilities charged forward with huge momentum as he used his power to overwhelm the elders, and although the Tang tribe elders had many people, they were falling into a disadvantage and it was becoming difficult for them to hold back Water Demon.

After several moves, an elder lost his life at Water Demon’s hands.

After dozen or so moves, only one elder remained, with the rest dead.

Water Demon laughed sinisterly and was just about to make the final move when suddenly a cold killing intent pounced on him.

His plentiful battle experience had given Hao Ji Liu an intuitive feeling towards danger. He did not even look and immediately retreated backwards, giving up the battle contribution that was within his reach without any hesitation.

Whoosh!

A soft ripping sound echoed and right at the instant of his retreat, a four-leaf wind blade crossed through the air and brushed past him.

The wind blade kept on rotating, making a long arc through the battlefield, everything that it passed through, whether it were humans or beasts, were cut through; blood flew and limbs scattered.

The light green wind blade spiralled a long arc in the air before flying back to its master.

“It is you? Wind Demon Tan Wu Feng!” The sinister smile on Water Demon gradually disappeared and a solemn look appeared in his eyes.

Tan Wu Feng and him were called wind and water demons, both having rank four upper stage cultivation.

Previously, Water Demon rampaged in the eastern areas of Northern Plains while Wind Demon wreaked havoc in the western areas, their fame echoing with each other. But later, Dong Fang Yu Liang devised three escapements scheme to subdue Wind Demon. Tan Wu Feng became Dong Fang Yu Liang’s subordinate and sided with Dong Fang tribe.

“Water Demon, your laughter is too ear-piercing. Lord has ordered me to bring an end to your life.” Wind Demon Tan Wu Feng was clothed in green clothes, hovering in midair, grasping the wind blade that had returned.

The wind blade only had three sides remaining from the consumption in the way, but with Wind Demon pouring in primeval essence again, it gradually began to recover back to the previous four-leaf wind blade.

Normally speaking, wind blades could not be retrieved once they were sent. Wind Demon played with the wind blade like some toy, he clearly had extraordinary wind manipulation skill.

“Hmph, it seems you have been taught pretty well by your master over these years, seeing nothing worthwhile around you.” Water Demon laughed sinisterly, gazing at Wind Demon like a falcon.

Wind Demon’s expression suddenly turned gloomy. He swung his palm and shot out the four-leaf wind blade, and at the same time, he also charged towards Water Demon.

“Come!” Water Demon was at ease, a huge wave rising from below his feet. He stepped on the wave and charged towards Wind Demon.

BOOM!

A huge explosion echoed, wind screamed madly and water wave surged high, unfolding an intense battle of rank four level experts.

Surrounding Gu Masters hurriedly retreated and soon a special battlefield was formed for the battle of wind and water demons.

As time passed by, not only these two, other rank four Gu Master experts also found their opponents.

Dozen or so battle rings emerged one after another in the chaotic battlefield. These battle rings were not set in place, but instead moved with the battle between the experts.

With the battle of higher level forces, the whole battlefield began to become clear.

First of all was the large battle rings for the fight of the rank four experts. Surrounding these large battle rings were small scale battle rings where rank three Gu Masters fought. And beyond that were the fights between groups of rank two and rank one Gu Masters.

Fang Yuan took this chance to assemble his wolf group.

The two armies faced off against each other, creating a deadlock.

Usually, the side which broke through this balance would obtain the initiative which would accumulate into advantage. After their dominance was accumulated enough, it would change into victory momentum.

Both Hei Lou Lan and Dong Fang Yu Liang knew this.

Thus, their gaze landed on their elite troop.

These elite troops that were either made of three-four hundred soldiers, or five-six hundred, had received strict training to deploy their Gu worm together and create a formidable attack in an instant. They were the weapons to rampage the battlefield, the trump cards of their commander.

Not every tribe had the ability to form elite troops.

Hei Lou Lan's side had five divisions of elite troops while Dong Fang Yu Liang had six.

Dong Fang Yu Liang first deployed hundred blossoms elite troop.

This was Hua tribe's elite troop who were quite weak at attacking and defending, but were specialized at healing.

With this division of elite troop moving out, they immediately healed large groups of wounded and stabilized the situation, providing a great assistance to Dong Fang side's base level Gu Masters.

Hei Lou Lan looked at this scene from the main tent and snorted, commanding blue butterfly elite troop to attack hundred blossoms elite troop.

The blue butterfly elite troop that contained five hundred soldiers who detoured the rank four Gu Masters battle rings and easily pierced through the battlefield, charging towards hundred blossoms elite troop.

Just when it looked like they were about to succeed, three elite troops charged in separately from east, south and west, surrounding the blue butterfly elite troop.

Dong Fang Yu Liang had already planned for this and sent hundred blossoms elite troop as the bait while making these three elite troops lie in ambush.

Hei Lou Lan naturally was not willing to see the annihilation of blue butterfly elite troop, immediately sending other elite troop divisions as reinforcements.

Each elite troops of the two sides quickly converged and formed into several lines of encirclement; the situation once again entered a deadlock.

“Lord tribe leader, let me go forward and crush them!” Dong Fang She could not restrain anymore as he requested to be sent to battle.

Dong Fang Yu Liang slowly shook his head and did not permit him.

Dong Fang She was Dong Fang tribe’s feather arrow elite troop’s commander with rank four upper stage cultivation.

But as long as Hei tribe’s black banner elite troop did not move, this flower feather elite troop could not be sent out.

Dong Fang Yu Liang slowly swept his gaze through the battlefield and placated Dong Fang She: “Elder She does not need to be impatient, this is not the time for you to take the stage. The current situation is already within my expectations.”

Saying so, he calmly smiled and turned towards the three enslavement path Gu Masters: “It is time for you to show your strength.”

These three were precisely E Xuan Ming, Wei Xin, and Jiang Wan Shan.

Chapter 511 - Dark Vortex and Cloud Whirlpool

Chapter 511: Dark Vortex and Cloud Whirlpool

Translator: ChibiGeneral Editor: ChibiGeneral

At Dong Fang Yu Liang's words, E Xuan Ming, Jiang Wan Shan and Wan Xin glanced at each other before nodding and activating their Gu.

Rank three, djinn heart Gu, to enhance the spirit.

Rank two, heart sound Gu, to strengthen the voice of one's heart.

Rank two, harmony Gu, the harmonization of one's heart and voice.

Rank three, flying soul Gu, the soul can leave the body.

Rank three, soul chain Gu, souls can be interlinked.

Rank four, soul combination Gu, three souls can be linked and fused as one.

Killer move — Three Hearts Combination Soul!

BOOM…

A soundless explosion burst out, as the three Gu Masters' souls flew out of their bodies and merged together into a complete entity in the air.

For a moment, in the radius of two hundred li, all Gu Masters with at least five hundred man soul could feel a strong pressure spreading and weighing down on their souls.

The Gu Masters with less than five hundred man soul, however, could not sense anything.

“This pressure… it is already at the level of one thousand four hundred man soul, as expected of three hearts combination soul!” Fang Yuan immediately reacted and gazed towards Dong Fang tribe’s main tent.

He had a thousand man soul originally, but there was injuries from the soul explosion though he was able to escape from most of its force. His soul strength had fell to eight hundred man soul and after these days of recuperation, it had recovered to nine hundred man soul level.

Nine hundred man soul naturally was not able to match against the other side’s one thousand four hundred man soul.

“Unfortunately, there are many eyes within the alliance army, I cannot get rid of them, otherwise I would have gone to Dang Hun mountain and used guts Gu to easily heal all the injuries on my soul.”

Fang Yuan inwardly sighed while mobilizing the wolf group.

Large numbers of night wolves, water wolves, wind wolves and turtleback wolves formed into a enormous force that charged towards the enemy army like a raging river.

“Wolf King, let us experience your brilliance today!” Wan Xin, E Xuan Ming and Jiang Wan Shan simultaneous spoke. Because their souls were temporarily merged together, their every movement was done simultaneously and was completely in sync.

Under their command, large numbers steel pincers crabs, crystal drilling crabs and big qi crabs flocked together, forming into a firm defensive line within several breaths of time.

The wolf group fiercely smashed into this defensive line, like a flood striking the dam.

Sharp wolf fangs and claws collided intensely against the firm crab shells.

Fang Yuan snorted and gazed afar while standing on the twin-headed rhino. Under his exquisite control, the whole wolf group formed into waves after waves of offense; the defensive formation formed by the crabs soon was on the verge of collapsing.

“This is… the nine layered wave charge! Quick, reinforce me, my crab group won’t be able to persist longer.” Wan Xin had just thought of this when the other two felt it.

Under the effect of three hearts combination soul, they were just like one person, any thought would be immediately known by the others.

“No need to worry, my crocodile group is coming.” E Xuan Ming’s expression was unshaken as an excited battle intent emerged in his concentrated gaze.

‘The enemy is the famous Wolf King, being able to fight with such an existence, this life was really not in vain!’

Under his control, large numbers of six legs crocodile, lava crocodiles, rock crocodiles and shadow plunder crocodiles soon rushed to the frontline.

After the addition of these new forces, the defensive line that was on the brink of collapsing showed a sign of being indestructible.

“Whether it be crabs or crocodiles, they are both beasts excelling in defense. At the same time, under the three hearts combination soul, they are like three people merged together, increasing their beast commanding skills greatly, directly reaching master level.”

Fang Yuan squinted his eyes, there was no signs of irritation due to not getting any results.

Suddenly, he stopped the fierce attacks and wisely chose to slow down the offense.

He was not wholeheartedly controlling the beast group, instead he divided half of his concentration to observe the battlefield.

His enemies were not these three people, neither Jiang, Wei nor E. As a person of importance who could influence the whole battlefield, he was extremely likely to encounter another assassination attempt from shadow sword expert Bian Si Xuan.

Since the battle started, shadow sword expert was nowhere to be seen and was likely observing Fang Yuan from the darkness, looking for a good opportunity to kill him.

It was only that beside Fang Yuan was the rank five Gu Master Hei Lou Lan. Maybe because of this, shadow sword expert had not revealed herself.

Right at this time, a large group of blood colored bats emerged above the wolf group.

These bats possessed four wings; the wings were sharp and firm like knives. Under the attack of the bat group, large numbers of casualties started appearing among the wolf group.

The crocodile and crab groups took this chance to attack pushing forward their battleline by a hundred steps.

“Sure enough, it is Jiang Wan Shan’s bladewing blood bats group.” Fang Yuan’s gaze flashed, he was not a bit surprised.

With the intel from Hei tribe, he had a rather good understanding of the enemy Gu Master experts. Dong Fang Yu Liang did not have any enslavement path masters under him, so Fang Yuan had guessed Dong Fang Yu Liang would use three hearts combination soul to deal with him.

And the candidates to use this killer move were extremely likely to be the strongest three enslavement path Gu Masters.

Now, under Fang Yuan’s probe, these three were sure enough Jiang Wan Shan, Wan Xin and E Xuan Ming.

Bladewing blood bats’ offense were extremely violent, changing the direction of this part of the battlefield the moment they joined the fray.

The wolf group that had been occupying the upper hand was being defeated bit by bit, while crocodile group and crab group seized the chance to attack. Mud crabs, small qi crabs, big qi crabs, steel pincers crabs, crystal drilling crabs, six legs crocodiles, lava crocodiles, rock crocodiles and shadow plunder crocodiles formed into a large mixed army that stretched out like an opened steel fist, defeating the wolves in its way and charging straight towards Hei tribe's main tent.

According to logic, enslavement path Gu Masters would find it hard-pressed to cooperate with each other. A mixed beast group would usually impede each other, making one plus one less than two.

But Wei, Jiang and E, these three merged their souls with three hearts combination soul and were like one person, forming a qualitative effect of having one plus one greater than two.

"Brother Shan Yin." Facing the mixed beast group's strong charge, Hei Lou Lan could not help feeling some pressure and his expression turned dark.

If they let this group of beasts charge over, he would have to use black banner elite troop earlier than scheduled. But if he did so, they would not be able to contain Dong Fang Yu Liang's feather arrow elite troop.

The scales of victory was slowly inclining towards the other side.

Fang Yuan said to Hei Lou Lan in a low voice: "The other has bladewing blood bats group which has very sharp offensive power, and my wolf group is unable to do aerial attacks. More importantly, the other side has used three hearts combination soul to achieve thousand man soul and are able to lead this mixed beast group as if they were one person. If we can break through this killer move, the mixed group will disperse without even putting up any fight."

Hei Lou Lan frowned deeply, an ominous glint flashing rapidly in his eyes as he made a decision.

"Brother Shan Yin, concentrate on the battle, I will resolve this quickly!"

He suddenly extended his arm that was the size of an ordinary person's thigh, his right palm formed a claw while his palm faced upward. Rank five aura rose fiercely while the primeval essence in his aperture fell rapidly, pouring into four different Gu.

“Dong Fang tribe has three hearts combination soul, while my Hei tribe has dark vortex!” Hei Lou Lan smiled sinisterly, an intense killing intent raging in his heart.

Whoosh…

A pitch black stream rose in the air and rotated once before flowing towards Hei Lou Lan’s palm.

Following, the second stream, third stream, fourth stream…

In a blink of an eye, large numbers of dark streams were created one after another and converged in Hei Lou Lan’s right claw.

Whoosh Whoosh Whoosh….

Countless dark streams rose and merged with each other, creating a wild gale.

These finger sized dark streams pressed at each other and formed a dark speck of light.

As large numbers of dark streams continued to pour into it, the dark speck of light gradually inflated, forming a fist sized dark sphere.

The dark sphere seemed to have immeasurable depth in it as if the night was condensed into it, even absorbing the light around it, causing a terrified feeling to grow in people.

Hei Lou Lan, however, revealed an extremely excitement and a mad killing intent when he looked at this dark sphere.

“Dong Fang lad! Take this!!” Hei Lou Lan suddenly shouted and disappeared from his place.

The next moment, he appeared above the enemy main tent.

“Go and die!” Hei Lou Lan let out a crazed laughter and flipped over his wrist; as if he was holding a thousand jun of weight, he exerted all his strength to slowly push the dark sphere towards Dong Fang Yu Liang.

Following his movement, that small dark sphere madly expanded and in several breaths of time, had expanded to size of a small hill.

The pitch black giant sphere pressed down with a seemingly slow speed but was actually very fast. It covered the light of the sun and casted a giant darkness on the ground.

Before the giant sphere even struck, all the Gu Master experts in the main tent felt terror like they were facing a calamity.

They looked at the pressing giant sphere, and felt heaviness as if lead was poured into their body. They wanted to retreat but were barely able to move!

“Damn it, it is Hei tribe’s killer move dark vortex!”

“Retreat, retreat!!”

Gu Masters exclaimed in shock, not having even a trace of intent to resist. Wei Xin and the other two had a despairing look on their face. They were under three hearts combination soul state, and would require at least two-three minutes to get rid of this killer move.

The corners of Dong Fang Yu Liang’s lips, however, curled up.

He looked towards the sky, the dark sphere growing bigger and bigger in his sight, but his expression was a scene of calmness: “Sure enough like I expected, Hei Lou Lan, I have been waiting so long for your move.”

He slightly raised his right foot and lightly pressed on the white cloud below his feet.

The originally tranquil white cloud crazily surged as clouds and mists burst out in blink of an eye like boiling water, and formed into an enormous whirlpool.

The whirlpool slowly rose up like a giant opened mouth and swallowed the dark sphere.

“This is?!” Hei Lou Lan was shocked and furious. At this moment, he realized he had fallen for Dong Fang Yu Liang’s scheme.

Dong Fang Yu Liang had meticulously arranged this trap, waiting for Hei Lou Lan to come crashing in.

“Let me teach you, this is the killer move I spent three years of my life to plan meticulously, cloud whirlpool, it was specially created to deal with your dark vortex. Hei Lou Lan, you have lost just like many years back.” Dong Fang Yu Liang proclaimed his victory.

“Damn it…” Hei Lou Lan gnashed his teeth, his forehead filled with sweat. He wanted to pull back but the cloud whirlpool was firmly sucking in his dark vortex.

The smile on Dong Fang Yu Liang’s lips became even bigger as he summoned: “Dong Po Kong, Bian Si Xuan.”

His voice was not loud, but under the effect of Gu worm, it could be clearly heard by everyone.

Hearing his command, the shadow sword expert who had been concealing herself for a long time, turned into a dark shadow, and moved while wriggling in the shadows on the ground; in a blink of an eye, she was in front of the twin-headed rhino.

And at the same time, a flash of lightning broke through the air and crossed the battlefield, instantly arriving in front of the twin-headed rhino.

The lightning dispersed and turned into a valiant man, who then pounced towards Fang Yuan.

Flying Lightning Dong Po Kong, Shadow Sword Expert Bian Si Xuan!

In an instant, both Hei Lou Lan and Fang Yuan had fallen into danger!

Chapter 512 - Reliable Alliance Mate

512 Reliable Alliance Mate

Translator:ChibiGeneral | Editor: ChibiGeneral Dong Fang Yu Liang lived up to his name as the wisdom path Gu Master, accurately calculating Hei Lou Lan's reaction.

Three hearts combination soul killer move was only bait to lure Hei Lou Lan into attacking. Then, Dong Fang Yu Liang was able to leisurely unfold his trump card – a killer move that was specially designed to restrict dark vortex and trap Hei Lou Lan.

Hei Lou Lan had been at the main tent but now he was trapped; the defense around Fang Yuan had suddenly decreased by a very large amount.

Taking this chance, Shadow Sword Expert Bian Si Xuan appeared and charged into the main tent to once again assassinate Fang Yuan.

As long as Fang Yuan died, the wolf group would immediately disperse and the scales of victory would greatly incline towards Dong Fang alliance army.

To make sure this beheading the leader tactic succeeded, Dong Fang Yu Liang had not only arranged Shadow Sword Expert, but also an even stronger Gu Master.

He was Dong Po Kuang known as 'Flying Lightning'! One of the few flying masters of northern plains, a lightning path Gu Master with rank four upper stage cultivation. He had not made a move even in the chaotic battle earlier, patiently waiting till now to shock the world with one move!

“Protect Wolf King!”

“Sneaky bastards, don’t think you can have your way!!”

“Wolf King, leave quickly!”

Six rank three Gu Masters around the main tent jumped up one after another, trying to hold off Dong Po Kuang and Bian Si Xuan.

“Scram!!” Dong Po Kuang coldly shouted, lightning suddenly crackling around him.

The three Gu Masters who were blocking him were struck by the lightning; their defensive Gu worms were instantly destroyed, two instantly died while one was heavily injured.

“Hehehe.” Bian Si Xuan chuckled softly, her body turned into a shadow and quickly moved like a poisonous snake through the Gu Masters blocking her, and moved past them.

“What?”

“Such speed…”

“Is this Shadow Sword Expert’s true strength?”

The three Gu Masters were shocked, they gazed back only to see Bian Si Xuan’s seductive back figure.

They wanted to chase, but found they could not move at all. Their hands and feet were tied up by a dark shadow, firmly binding them to the spot.

Facing the above and under pincer attack from Dong Po Kuang and Shadow Sword Expert, Fang Yuan paled, his gaze revealing a frantic look as he retreated in panic and shouted: “Quick, someone come protect me!”

“Wolf King, no need to worry, Hei Xiu Yi will guard you.” One person stood behind Fang Yuan, clothed in black and had unshaken expression. He walked forward few steps and stood in front of Fang Yuan.

“Courting death!” Dong Po Kuang shouted, the lightning over his body crackled violently and turned into a battle spear which he then stabbed towards Hei Xiu Yi.

Bian Si Xuan snorted and flicked her wrist lightly, immediately throwing out a torrent of shadow swords.

Hei Xiu Yi’s expression did not change at this combined attack from two experts. He put together his palms in front of his chest and transferred his primeval essence.

BOOM!

Next instant, his defense was fully activated.

Fifty-six flying bone shields flew together and blocked in front of him.

A green halo flew above his head and illuminated a range of a hundred steps.

Black iron-like metallic light formed a set of thick armor which then covered him from top to bottom.

Nine ghost faces whimpered and wept as they revolved around him.

At the same time, a dark brown oil wind breezed in between the flying bone shields.

Dong Po Kuang’s lightning spear pierced through seven flying shields and made a hole through the dark-brown oil wind, but was blocked by the black armor.

Bian Si Xuan’s shadow swords bombarded upon the shields, shattering eighteen shields but were thwarted by the oil wind; the shadow swords seemed to have fallen into a swamp as their momentum dispersed and were no longer a threat.

Hei Xiu Yi was Hei Lou Lan’s expert and also one of the three commanders of black banner elite troop, an expert in defense.

Facing the defense specialized Hei Xiu Yi, Dong Po Kuang and Bian Si

Xuan were actually delayed for a while, unable to break through.

Hei Xiu Yi had suffered a terrible defeat during the battle with Mo Shi Kuang; it did not mean he was weak but the enemy was too strong, a top expert in the whole of northern plains in this struggle for Imperial Court.

Now, facing the combined strength of Flying Lightning and Shadow Sword Expert, Hei Xiu Yi shielded here and there, firmly protecting Fang Yuan who was behind him for dozen moves.

His Gu set had complementing Gu worms focused on defense and had been carefully chosen.

Dong Po Kuang and Bian Si Xuan tried to break through multiple times, but it was all a failure.

The aftermath of this battle caused severe pain to the twin-headed rhino. The giant rhinoceros screamed in pain and stamped its feet, recklessly charging in the battlefield without considering allies or enemies.

Hei Xiu Yi's expression turned heavier.

His primeval essence was quickly depleting because of this intense battle, already reaching the bottom. While the other side had two people and their primeval essence consumption was half that of Hei Xiu Yi.

Hei Xiu Yi was now confronted with a difficult choice.

The first choice was to continue to defend to death without caring about his primeval essence expenditure and hoping Hei Lou Lan or others would come in time to support him. But now the twin-headed rhino was crazily rampaging and had already travelled far away; how high was the possibility for the reinforcements to cross the battlefield and arrive in time?

Second option was to conserve his primeval essence. But with this, his defense would fall and the chance for the enemies to breakthrough would increase dramatically. In case, they were able to move past him, Fang Yuan who was behind him would be in grave danger.

‘What should I choose?’

A hesitating look flashed in Hei Xiu Yi’s eyes, but was soon replaced by resolve.

He began to slowly cut down on defense and was no longer very active in facing the enemies’ attacks. Dong Po Kuang and Bian Si Xuan immediately sensed the change in Hei Xiu Yi; they attacked several times and took some risks, and were about to succeed.

Even if Wolf King had an important identity that concerned the whole situation, even if Hei Xiu Yi was appointed by Hei Lou Lan to defend Chang Shan Yin, but at this critical juncture when he was at risk, Hei Xiu Yi was not able to give up his own life.

“If it was Lord Hei Lou Lan behind me, I would definitely risk my life to protect him. But Chang Shan Yin is just an outsider, always acting so arrogant and looking down on me, why should I sacrifice my life for such a person? Even if Wolf King dies, we still have the black banner army and are still a match for the enemy. Yes, I need to save myself and continue to render my service to the tribe.”

Hei Xiu Yi’s thoughts surged rapidly to justify himself and gradually began to have a clear conscience.

He was originally guarding Fang Yuan, but now was only looking after himself, thus his primeval essence consumption immediately slowed.

“Now is the time, overlapping shadow Gu!” Suddenly, Bian Si Xuan noticed a gap in the defense, her eyes flashed with a sharp light as she grabbed this chance and activated the Gu worm Dong Fang Yu Liang had lent her.

This overlapping shadow Gu was a rank four rare Gu which was very difficult to find in the market and its price was comparable to many rank five Gu.

Initially, Bian Si Xuan had agreed with Dong Fang Yu Liang for this Gu to be her reward once she assassinated Fang Yuan.

But Bian Si Xuan's assassination failed and the brain explosion Gu she had struck with was also dealt with by Fang Yuan; with her proud nature, she would naturally not accept this overlapping shadow Gu. But before this battle, Dong Fang Yu Liang had lent her this Gu of his own initiative, just to be on the safe side.

Overlapping shadow Gu might only be a rank four Gu to others, but to Bian Si Xuan, it could raise her battle strength explosively and was even more precious than rank five Gu to her.

Under the use of overlapping shadow Gu, Bian Si Xuan's multiple shadow swords overlaid upon each other and in just a second, only one sword remained of the overflowing shadow swords.

This shadow sword was as dark as the abyss and was like a solid object; all the offensive power of the shadow swords had been overlaid together in it.

Bian Si Xuan pierced the sword forward; the sword easily broke through Hei Xiu Yi's defense like a knife cutting through tofu, and pierced towards Wolf King.

The defense that had lasted for a long time was finally broken!

Dong Po Kuang let out a breath of relief at this scene; he continued to hold back Hei Xiu Yi to provide a chance to Bian Si Xuan.

But Hei Xiu Yi could not care about this as he already had an intent to retreat. Now that Shadow Sword Expert was charging towards Chang Shan Yin, this was the chance for him to retreat, why would he not take this chance? Thus, he quickly retreated and directly jumped off from twin-headed rhino's back.

Dong Po Kuang looked at Hei Xiu Yi's fleeing figure in shock, he hesitated for a moment before thinking that it was better to quickly kill Wolf King, so he did not chase Hei Xiu Yi.

But when he gazed back, he saw Bian Si Xuan's shadow sword had already pierced into Chang Shan Yin's chest.

Bian Si Xuan pierced it so deep that only the hilt of the shadow sword remained on the outside; the sword had pierced through Fang

Yuan's chest and large part of it stuck out through his back.

"Wolf King, remember, the one who killed you is Shadow Sword Expert Bian Si Xuan!" Bian Si Xuan's eyes turned red, excitement filling her face.

The famous Wolf King whose name had spread throughout the northern plains died by her hands. This glory, this brilliant battle achievement, caused her whole body to shudder in happiness.

"It's over!" Dong Po Kuang also raised his brows in joy.

"Wolf King has died, my army has now the upper hand and victory is within grasp." Far away, Dong Fang Yu Liang who was observing the battle with a detective Gu, clenched his fists in excitement.

He raised his head and smiled calmly at Hei Lou Lan who was competing with the cloud whirlpool: "Hei Lou Lan, Chang Shan Yin has been beheaded. Now stop and admit your defeat, I will give you the position of a general and also an opportunity to enter the Imperial Court."

But what made him surprised was Hei Lou Lan not only did not fly into a rage but instead revealed a malevolent smile: "Dong Fang Yu Liang, look carefully with your dog eyes!"

Right at this time, Bian Si Xuan and Dong Po Kuang's shocked exclamations rose from the twin-headed rhino's back.

"What?" Dong Fang Yu Liang had a very bad feeling and immediately used his investigative Gu to gaze ahead.

He saw 'Chang Shan Yin' had already turned into a puddle of water. Several Gu worms flew out with only a water image Gu remaining in the water which was almost pierced into two by the shadow sword with only a thin layer of skin holding its body.

This was the water image Gu of Water Demon Hao Ji Liu.

Previously, he had used water image Gu in the heroes assembly to deceive everyone by passing it off as the genuine body, and was able to kill Fire Prodigal Chai Ming.

Before this great battle, Fang Yuan had taken this method into consideration and made a plan with Hei Lou Lan. To prevent news from leaking out, this arrangement was only known to the three of them.

Fang Yuan's true body had never been in the main tent, but was instead hiding in a corner of the battlefield. With wolf care Gu, he had been observing the battlefield and commanding the wolf group to fight. The dialogues with Hei Lou Lan previously was also a facade prepared by using a series of Gu worms.

"Damn it, this is a fake."

"Where is the real Chang Shan Yin?"

Bian Si Xuan and Dong Po Kuang's expressions turned extremely unsightly; they had fought so hard for such a long time but the result was that they were tricked!

Chapter 513 - Seven Star Light

Chapter 513: Seven Star Light

Translator: ChibiGeneral Editor: ChibiGeneral

From the back of the twin-headed rhino, Shadow Sword Expert and Flying Lightning looked around everywhere.

In the chaotic battlefield, dozen or so rank four Gu Masters had formed their own battle rings out of which three matches were finished; Hei tribe won two while Dong Fang tribe won one.

Several divisions of elite troops were still fighting against each other, and because of Dong Fang Yu Liang's scheme, Hei tribe was on the losing end in this aspect.

The battle of wolf group with crocodile, crab and bat group was also in a deadlock.

There was no sign of Fang Yuan, no one knew where he was hiding.

Bian Si Xuan and Dong Po Kong searched in vain, their expression turning several shades darker.

Dong Fang Yu Liang soon accepted the fact of this failure, he smiled brightly: "This is somewhat interesting, but still within my expectations. As long as Wolf King continues to command the wolf group, his soul fluctuations will be revealed and sooner or later, we will find his position. Hei Lou Lan, your loss has only been momentarily delayed."

"Hahaha." Hei Lou Lan threw his head back and laughed loudly, his laughter containing a disdainful intent, "Dong Fang child, you really think I was restrained by you?"

Saying so, the skin on his whole body turned pitch dark like the night. At the same time, endless black smoke oozed out of the pores on his body.

The black smoke surged and soon covered his whole body.

In just moments, Hei Lou Lan turned into a human shaped black smoke with smoke rising in spirals. When looked from outside, one would only see a pair of bloodthirsty eyes.

A very ominent feeling welled up in Dong Fang Yu Liang's heart.

A thought to retreat immediately crossed in his mind.

However, although the cloud whirlpool was restricting the dark vortex and restraining Hei Lou Lan, in another aspect, was it not same as the dark vortex restricting cloud whirlpool?

The next instant, Hei Lou Lan turned into black smoke and actually entered into the dark vortex.

"Not good!" Dong Fang Yu Liang immediately felt his blood run cold.

But it was already too late.

The dark giant sphere that was as big as a small hill, was originally being slowly swallowed bit by bit by the cloud whirlpool. But suddenly, the dark vortex rapidly shrunk.

The cloud vortex was unable to react in time and quickly contracted with the flow of the dark vortex.

But next instant, the dark vortex suddenly expanded violently.

"No, instead of saying expansion, it is better to call it — explosion!" Dong Fang Yu Liang was overwhelmed.

There was no sound, it was a soundless explosion.

The cloud whirlpool could only hold for three breaths before it was burst by the dark vortex. The dark giant sphere continually enlarged and swallowed everything, be it humans or beasts like a prehistoric giant monster.

Only when it covered a radius of ten li, did the semi-circular dark sphere disappear.

There was no sound wave like that of a normal explosion and also no windforce was generated. This strange tyrannical explosion had the nature of corrosion with the ability to melt everything.

After the dark vortex disappeared, ten li of battlefield was completely cleared, with only Hei Lou Lan remaining in the air and Dong Fang Yu Liang who was in a deep crater on the ground.

All the remaining humans or beasts within the radius of the explosion of the dark vortex were eroded into nothingness!

Hei Lou Lan looked down at Dong Fang Yu Liang with extreme exhaustion, he was gasping for breath and his whole body was soaked in dark red blood.

But the corners of his lips had curled up into a crazed, sinister smile.

“Hahaha, Dong Fang Yu Liang, since you can think of this cloud whirlpool killer move to restrict dark vortex, I can also improve on my killer move! How is it, how is the taste of the banquet I prepared for you meticulously? This is a trump card which I have been concealing all along, not even letting my kin know.”

Hei Lou Lan laughed wildly, his laughter echoing throughout the whole battlefield.

For a moment, his aura pressed down on his surroundings, even the Gu Masters in the battle could not help but gaze towards him.

When they saw Hei Lou Lan occupying the upper hand, Hei tribe’s Gu Masters’ morale surged high while Dong Fang tribe’s Gu Masters felt a heavy pressure on their heart.

The generals were the source of courage of the troops, the fight between Hei Lou Lan and Dong Fang Yu Liang was crucial to the soldiers, it was very important and was not only a matter that concerned an individual life or death, but would influence this great

battlefield.

“Cough cough…”

Hei Lou Lan was laughing wildly, when suddenly he spurted out several mouthfuls of dark blood.

Although this move was very powerful, it would also cause self-harm. It was classified as a self-harming move and no matter what the result, once it was activated, most of the Gu worms that formed the dark vortex killer move would die.

Once Gu worms died, the Gu Masters would naturally suffer from backlash.

But this move was already very profitable.

In one move, Hei Lou Lan not only escaped from the trap, he was able to counter-pressure Dong Fang Yu Liang and also kill Wei Xin, Jiang Wan Shan and E Xuan Ming who were in three hearts combination soul state.

With these three people dead, the mixed beast group immediately began to fight against each other with there being no one to guide them. Just like Fang Yuan said before, they crumbled.

With this mixed beast group rushing everywhere and attacking recklessly, the battlefield turned even more chaotic.

Dong Fang Yu Liang rose up slowly with a solemn expression.

Hei Lou Lan had kept this move extremely confidential. Dong Fang Yu Liang did not even have a trace of any relevant clue, so he had not expected for the killer move to be improved with such terrifying destructive power.

As a matter of fact, he had secretly prepared a means of escape for E Xuan Ming, Wei Xin and Jiang Wang Shan, which could directly transfer these three to the rear of the battlefield.

However, when Hei Lou Lan was improving on his killer move, he added a space path Gu as well. Thus, when the dark vortex exploded, the surrounding space was locked and Dong Fang Yu Liang's methods lost their effectiveness.

"Dong Fang Yu Liang, it is still not late for you to accept your defeat. As long as you surrender, I can let bygones be bygones and forget all my past hatred, and appoint you as my first military advisor." Hei Lou Lan tried to make Dong Fang Yu Liang surrender in front of everyone.

Dong Fang Yu Liang coldly smiled.

Hei Lou Lan's lustful nature was widely known and had already been coveting after his sister Dong Fang Qing Yu. Dong Fang Yu Liang might surrender to other forces, but he would never choose to pledge allegiance to Hei Lou Lan.

"Hei Lou Lan, you are really too optimistic. Even if your side is occupying the upper hand, you are still a long way from victory. Come, let us fight. Seven Star Light!"

Dong Fang Yu Liang softly shouted, seven lights swiftly rose up beside him.

These seven lights had different colors, continually rotating around his body, drawing a beautiful light orbit.

This was Dong Fang Yu Liang's signature killer move. These seven lights had different effects and under their empowerment, Dong Fang Yu Liang activated star thought Gu.

Whooshh…

Countless thoughts gushed out as bright as starlight. The radiance of these star thoughts could not be covered even by the sunlight.

A sea of star thoughts rose up to the air and within few breaths of time, Dong Fang Yu Liang had tens of thousands of star thoughts.

In the air, starlights merged into one and formed a large patch of star cloud which surged forward with great momentum.

"Hei Lou Lan, take this!" Dong Fang Yu Liang shouted and shot the star thoughts beside him towards Hei Lou Lan.

Such an enormous scale of star thoughts burst through the wind with astonishing grandeur.

“Hmph!” A trace of fear flashed past the depths of Hei Lou Lan’s pupils.

Wisdom path Gu Masters were not defenseless people. Each Gu Master path had its own attacking methods.

A path without any attacking methods would be eliminated and vanish in the passage of history.

Many years ago, Hei Lou Lan and Dong Fang Yu Liang had crossed swords. At that time, just a scale of several thousand star thoughts was enough to make Hei Lou Lan suffer greatly.

Star thoughts were very fast and would directly attack the enemy’s mind from any direction possible, and were very difficult to guard against.

“So many star thoughts, it seems Dong Fang Yu Liang really intends to bet his life! Creating so many star thoughts without any restriction, it is already no longer as simple as injuring soul or body; no matter what the outcome of this battle is, Dong Fang Yu Liang will lose at least two years of his lifespan. My state is not good now, I had better avoid it first.”

Hei Lou Lan had thoughts of retreating when he looked at such a large scale of star thoughts.

He disappeared from the spot, appearing thousand steps away.

But star thoughts were as fast as lightning as they chased after Hei Lou Lan without giving up.

Hei Lou Lan snorted, healing himself while continually dodging.

The enormous start cloud formed from the star thoughts, continued to chase after Hei Lou Lan, devastating everything in its path.

Some Gu Masters with weak willpower were directly struck into idiocy by the star thoughts.

Most of the Gu Masters whose minds were struck by star thoughts, immediately felt dizzy and could not keep standing stably.

Only few Gu Master experts with firm willpower, moved their thoughts to destroy the external star thoughts. But because of these Gu Masters resisting the star thoughts, the intense battle had slowed down.

Rank four Gu Masters could rampage through the battlefield, but once a rank five Gu Master moved, they could influence the whole situation.

Dong Fang Yu Liang made an all-out attack, pressing down Hei Lou Lan into disadvantage.The star cloud formed from the majestic star thoughts became the first force to dominate the battlefield.

Although star thoughts exhausted rapidly, the star thoughts Dong Fang Yu Liang created were extremely fast.

As time passed, the size of the star cloud did not decrease, but instead slightly increased.

Almost everyone in the battlefield were concentrating on the star cloud. When the star cloud neared, most of the Gu Masters would choose to flee, afraid of being struck into idiocy.

However, Dong Fang Yu Liang did not have the least bit of joy and was instead filled with worry.

Hei Lou Lan's movement Gu was outstanding, even star thoughts could not catch up. Dong Fang Yu Liang knew clearly there were two people who were the most significant in Hei alliance army – Hei Lou Lan and Chang Shan Yin.

Right now, Hei Lou Lan was escaping faster than a rabbit while Chang Shan Yin was hiding somewhere, meticulously suppressing his soul and only using a portion to control the wolf group. The chance of bringing him out in the light in this chaotic battlefield was extremely minute.

“Since it is so, I shall destroy your elite troops. I want to see if you can still keep on enduring!” A cold glint flashed in Dong Fang Yu Liang’s eyes; the star thought cloud suddenly changed direction and charged towards the battle rings of the elite troops.

These elite troops were at least of rank two cultivation with rank three Gu Masters as their leaders.

They had numerical advantage but could never be Dong Fang Yu Liang’s match. Under the special consideration of star thought cloud, Hei tribe’s blue butterfly elite troop immediately collapsed with countless casualties.

“My elite troop!” At this sight, Ye tribe leader shouted in heartache.

“Still not coming out?” Dong Fang Yu Liang slightly raised his brows and mobilized star thought cloud to attack war dog elite troop.

War dog elite troop was immediately disrupted and the surrounding elite troops took this chance to besiege them, killing this elite troop quickly and easily.

“My war dog elite troop!” Wang tribe leader’s body trembled in heartache. Who knew how much resources and energy Wang tribe had used to cultivate this elite troop.

Such precious battle force was destroyed within moments.

“Hm, still not coming out to rescue them?” Dong Fang Yu Liang’s brows furrowed deeper. Killing two elite troops one after another had caused a huge consumption in the star thoughts, if not for him continually creating new star thoughts, the star thought cloud would have already been used up.

Despite the empowerment from seven star lights, Dong Fang Yu Liang still felt an intense weakness at this moment. Strands of white began to appear in his bluish-black hair.

“Kill, kill, i want to see how long you can maintain this killer move.” Fang Yuan who was hiding in some corner enjoying this scene through wolf care Gu while smiling coldly.

To him, the more people that died, the more souls he would be able to collect after the battle.

Anyway, as long as they obtained victory at the end, he still held the qualification to enter Imperial Court.

Dong Fang Yu Liang was trying to force Fang Yuan out by slaughtering the elite troops; but it will only happen in his sweet dreams.

Chapter 514 - Wolf King’s ruthlessness

Chapter 514: Wolf King’s ruthlessness

The battle continued.

Because of Dong Fang Yu Liang using all his strength to attack and slaughtering three elite troops one after another, Dong Fang tribe began to occupy upper hand.

“Kill!”

“Let us kill all these Hei tribe thugs.”

“Kill all the men, and take all the women to our camp!”

Dong Fang alliance army’s morale surged high, their offense becoming fiercer as they beat back Hei tribe allied army without giving them room for breather.

However, the originator of this momentum, Dong Fang Yu Liang, was somewhat worried.

“Although we look to be moving towards victory, my side has already shown our trump cards. My killer move seven star lights won’t last for long, if I still can’t force Hei Lou Lan and Chang Shan Yin out, then…”

Dong Fang Yu Liang’s eyes flashed with a cold light when he thought of this.

His clear and incisive eyes gazed towards the mid army of Hei tribe where black banner elite troop was stationed. This division of elite troop had formidable strength, far surpassing others; till now, this precious force had not made any move and was holding their position.

Next, Dong Fang Yu Liang's gaze moved towards a specific corner of the battlefield.

Ge tribe Gu Masters were gathered there with Ge Guang and the rest being blood-soaked and fighting bravely.

Dong Fang Yu Liang expressionlessly split the star thought cloud into two; one half moved towards black banner elite troop while the other half moved towards Ge tribe.

Seeing the invasion of the star cloud, black banner army's three commanders paled.

"Defend! All forces activate Gu together!"

The commanders sent the command and all the heads of the black banner elite troop put all their efforts in activating Gu.

Battle thought Gu was similar to star thought Gu and empty thought Gu, and was also one of the wisdom path Gu worms. All the different ranking commanders of black banner elite troop coordinated to activate rank three to rank four Gu.

These battle thought Gu were meant to be used on black banner elite troop. During the battle, the battle thought Gu would enter their brain and surge their battle intent, making them fearless.

Star thought cloud pounced towards them. Red thoughts emerged above the black banner elite troop.

There were few of these battle thoughts, but with them guarding beside the black banner elite troop, the elite troop was able to forcibly resist the impact of the star thought cloud.

"Hei tribe is indeed worthy of being a super tribe, the quality of their elite troop is far beyond that of other tribe's elite troops." Fang Yuan inwardly praised at this sight.

These black banner elite troop belonged to Hei tribe completely and would keep on accumulating their strength during peaceful times. The Gu Masters in this troop were carefully selected elites, and with the large amounts of training and enormous resources invested in them, they were able to form into a trump card.

Each of them had firm willpower and possessed the ability to resist the thoughts impact by themselves. Now, with the protection of battle thoughts added, the devastation of star thought cloud was restrained for the first time.

Naturally, there was a crucial reason for this; Dong Fang Yu Liang had not used all his strength in this and had divided the star thought cloud into two, only using half of it to attack black banner elite troop.

Black banner elite troop's breathtaking performance shocked the people, forming a clear contrast with the other devastated elite troops.

While on the Ge tribe's side, miserable screams kept on ringing out; they were being slaughtered under the attack of the majestic star thoughts.

Fang Yuan watched this indifferently. He was able to use wolf care Gu very proficiently, allowing him to see Ge tribe's miserable condition clearly.

Ge tribe was no more than one of his chess pieces to disguise his identity. As the chessmaster, why would he put himself in danger because of a chess piece?

"Still not coming out?..." Dong Fang Yu Liang waited patiently for a while, secretly observing with his detection Gu; as long as Fang Yuan made any move to rescue the Ge tribe, he would be able to pinpoint Fang Yuan's exact location through the soul fluctuations.

But, no matter how long he waited, Fang Yuan did not make any move.

Such cold and heartless action of Wolf King made Dong Fang Yu Liang feel a chill down his spine.

On the contrary, when Hei Lou Lan saw his black banner elite troop showing signs of not being able to hold off anymore, he quickly made his move.

“Dong Fang Yu Liang, die!” He shouted with a grandeur that looked like he had already recovered from the backlash.

Dong Fang Yu Liang snorted, large numbers of new star thoughts emerged above his head and charged towards Hei Lou Lan.

The two collided in the mid-air, exchanging many moves; for a time, the victor or the loser could not be determined.

With Hei Lou Lan’s interference, the star thought cloud that was causing troubles for black banner elite troop had no more support, and completely disappeared after causing mayhem for a while.

The battlefield that had turned chaotic for a while, again entered a deadlock.

A smaller part of the dozen or so rank four battle rings, had already ended with the result ending in death or injuries. Among them, Wind Demon and Water Demon were still fighting. Shadow Sword Expert Bian Si Xuan and Flying Lightning Dong Po Kong, however, were moving back and forth in the battlefield.

These two both had outstanding movement Gu, and even when they were blocked by rank four Gu Masters, they were able to easily get past them.

They were continuously searching for Fang Yuan’s traces, but unfortunately Fang Yuan kept on hiding without making any moves, causing their search to be fruitless.

…………

At the same time, in Ni Yu blessed land, two Gu Immortals, a male and a female, were sipping tea while observing the smoke image on the center of the table.

The smoke image kept on surging, showing the scenes of the battle between Hei tribe and Dong Fang tribe. The scenes were extremely clear, showing minute details of every corner.

The female Gu Immortal Tan Bi Ya looked away and smiled towards the male Gu Immortal Dong Fang Chang Fan: "Looks like this battle will be determined by the battle between Dong Fang Yu Liang and Hei Lou Lan. Whichever side wins will be the side that will occupy the upper hand. Dong Fang Yu Liang, this young man is pretty good, being able to bring the battle into a stalemate while having weaker military forces than Hei tribe, it seems Brother Chang Fan's guidance is quite effective."

Dong Fang Chang Fan had an ancient noble appearance, with eyes that intermittently flashed with all kinds of colors. This sole wisdom path Gu Immortal of Dong Fang tribe indifferently shook his head and said with indifference:

"Actually I only said two to three sentences to Dong Fang Yu Liang. But this young lad is indeed good and quite interesting. After returning, he wantonly proclaimed this and rose up borrowing my prestige. He has some talent and also puts in great efforts. I have already promised him that as long as he can be the Lord of the Imperial Court, I will heal his little sister and nurture him as one of my successors."

"Become the Lord of Imperial Court?" Tan Bi Ya was slightly dazed before smiling, "Please forgive little sister for being blunt; in this round of the Imperial Court contest, I am afraid Dong Fang tribe does not have a high chance. Within the several popular candidates this year, Ye Lui tribe's Ye Lui Sang is thought to have a high chance by everyone. This time, Ye Lui tribe's Supreme Elder Ye Lui Lai has secretly entrusted an Immortal Gu to Ye Lui Sang. This is already an open secret in the circle."

"Ye Lui tribe might be part of the Huang Jin family and one of the super tribes of northern plains, but they haven't gained ownership of Imperial Court for the last eight rounds. Because of this, Ye Lui Lai has been made fun of by Hei Cheng of Hei tribe in these days. He is probably mobilizing Immortal Gu this time to regain face." Dong Fang Chang Fan chuckled after he finished speaking, his chuckle seemed to contain disdain.

Tan Bi Ya sipped tea and said: "Yes, speaking of Hei Cheng, Hei Lou Lan is his twenty-seventh concubine's child. This is his son, so he has been actively supporting from behind because of sentiment and principle. Thus, Hei Lou Lan is also one of the popular candidates. Historically speaking, the struggle for the Imperial Court is no more than a competition between several large Huang Jin family tribes. Those that are able to be the Lord of Imperial Court have immense support from behind. From what I see, Hei Lou Lan's chances are much higher than your tribe's Dong Fang Yu Liang."

Dong Fang Chang Fan, however, slowly shook his head.

Tan Bi Ya's eyes flashed with a trace of interest at this: "What is it? Could it be Brother Chang Fan also privately gave an Immortal Gu to Dong Fang Yu Liang? Or maybe you set up some arrangements to ensure Dong Fang Yu Liang becomes the Lord of Imperial Court?"

Wisdom path Gu Masters had the ability to scheme deeply and make deductions; most Gu Immortals have either experienced this personally or have heard of it. Wisdom path Gu Immortals were few in numbers, Dong Fang Chang Fan was a famous wisdom path Gu Master of northern plains; if he had secretly made arrangements and as long as it did not openly break the game rules for the fight for Imperial Court, Dong Fang Yu Liang would have a great probability of success.

However, Dong Fang Chang Fan negated Tan Bi Ya's conjecture: "No. During this round's competition for Imperial Court, Ma tribe has enormous momentum and could be said to have one foot on the throne of Imperial Court. Why would I Dong Fang Chang Fan do pointless work?"

He, Dong Fang Chang Fan, was already old and did not have much time left.

He had calculated that the time of his death was around the corner and thus for the tribe and also for his legacy to be continued, the matter of importance was to choose and nurture his successor. The fight for the Imperial Court was secondary.

Not all Gu Masters could become wisdom path Gu Masters by having a set of wisdom path Gu worms. Dong Fang Chang Fan was very pleased with Dong Fang Yu Liang's talents and even was slightly fearful. What made him even more pleased was Dong Fang Yu Liang had a weak and sick little sister who was unable to cultivate.

This was Dong Fang Yu Liang's weakness, and as long as he grasped this hold on him, he would not need to worry about Dong Fang Yu Liang's loyalty.

The fight for the imperial court was only a plan he set for Dong Fang Yu Liang.

After Dong Fang Yu Liang was defeated, he would definitely come to beg him to save his little sister. This was akin to him gaining a hold on Dong Fang Yu Liang of the latter's own initiative.

If Dong Fang Yu Liang succeeds by fluke, that would also be an unexpected surprise. Even though he had promised Dong Fang Yu Liang to heal his little sister, who is to say if she would be cured completely?

Tan Bi Ya was surprised: "What is this? Brother Chang Fan, you actually are optimistic about Ma tribe? Ma tribe might be a large scale tribe with quite extraordinary military strength, but they don't have an Gu Immortal supreme elder."

Dong Fang Chang Fan seemed to be waiting for this question as he leisurely replied: "Sister Bi Ya, you are unaware that snowy mountain blessed land has already secretly contacted Ma tribe to give them support."

"Snowy mountain blessed land, that group of demonic path Gu Immortals?" Tan Bi Ya's complexion sank as the news had quite a huge impact on her.

She closely looked at Dong Fang Chang Fan: "Brother Chang Fan, How did you know this?"

Dong Fang Chang Fan proudly smiled: "I personally deduced this, you are the first one to know of it."

Tan Bi Ya immediately believed most of it; Dong Fang Chang Fan was a wisdom path Gu Immortal, this deduction he made personally should be equal to the truth. She also knew his details and knew he did not have any reason to deceive her.

Moreover, snowy mountain blessed land's group of demonic path Gu Immortals had always been coveting after Eighty-Eight True Yang Building. This time, they were secretly supporting Ma tribe to get their hands on Giant Sun Immortal Venerable's inheritance, such things had happened many times in the past as well.

Thinking of this, she could not remain seated anymore.

She was Liu tribe's external supreme elder and was secretly supporting Liu Wen Wu. In case Liu Wen Wu obtained the throne of Imperial Court, it would be an extremely big help to her status in Liu tribe.

Ma tribe's existence had severely affected her arrangement. She naturally could not be tolerant and stood up: "Brother Chang Fan, this matter is of grave importance. Demonic path Gu Immortals are jackals and wolves, the others are still in the dark. Little sister will go inform them, please forgive little sister for taking her leave."

"Go, go." Dong Fang Chang Fan slowly nodded and opened the door of the blessed land.

After Tan Bi Ya left the blessed land, Dong Fang Chang Fan's face that had no change like an ancient well, showed a hint of a smile.

This discussion was a scheme he had made for Tan Bi Ya.

Tan Bi Ya was also an astute Gu Immortal, but since she was involved herself and also had her own expectations from this, she could be easily plotted against.

Dong Fang Chang Fan's gaze moved towards the smoke image where some changes had appeared in the battle.

After a long fight, Dong Fang Yu Liang was slowly unable to hold up and began to retreat. With the main chief commander retreating, the army morale instantly fell and under Dong Fang Yu Liang's command, also began to retreat.

The army was rattled but retreated without rushing, they had clearly received a lot of training.

Dong Fang Yu Liang had already expected this, thus he had spent a lot of care in planning the retreat prior to the battle.

Dong Fang army slowly retreated while counter attacking occasionally; many Gu Masters of Hei tribe were instead the ones to lose their lives due to carelessness.

“Wind Demon, you gutless rat, want to run?” Water Demon Hao Ji Liu shouted, his body was filled with injuries and was soaked in blood.

Wind Demon scoffed but did not reply, instead retreating silently, firmly acting on Dong Fang Yu Liang’s command.

The defensive line the army had constructed before was several hundreds of li farther. As long as they could retreat to the defense line, they would have time to get some rest and recover their strength.

At that time, it would be Hei tribe army’s turn to feel a headache, and this bad start would only be a small detail.

However, right at this time, wolf group suddenly howled and gathered together, once again forming into a wolf tide that unfolded a death charge towards Dong Fang army.

The wolf group was different from Gu Masters; Gu Masters cherished their lives while the wolf group could charge on without fearing death.

“Damn it!” Dong Fang Yu Liang’s heart was tearing as he looked at this. Under the wolf group’s charge, Dong Fang alliance army suffered countless casualties and panic soon spread in the army, continuing to show signs of crumbling.

Fang Yuan used eighty percent of his master level enslavement attainment. The people who looked at it were dazzled as the assault came in waves after waves, unceasingly; Dong Fang army was like mud which under the cleansing of the wolf tide, broke apart piece by piece.

The strong soul fluctuations revealed Fang Yuan's position.

But Fang Yuan was already in the open now; he was standing on the calm twin-headed rhino with many Gu Master experts gathering beside him.

"Wolf King Chang Shan Yin…" Dong Fang Yu Liang gnashed his teeth, his eyes seemingly breathing fire.

In this battle, he had thoroughly experienced the ruthlessness and the ferocity of Fang Yuan.

Don't forget, Fang Yuan had only acted twice in this battle!

The first time he moved, he directly created the all-out war, causing many of Dong Fang Yu Liang's arrangements to have no place to be used.

And now, the second time he moved, was the time when Dong Fang army was its weakest, throwing stones at them when they were having difficulties. Right now, the Gu Masters almost had no primeval essence in their aperture, having risked their lives for so long. Although they still had strength to battle, they were perishing together with the wolves.

Fang Yuan's wolf group also had severe losses. But this was already a great profit, his wolves could be easily replenished, there were many wolves in northern plains! But the sacrifice the other side had to make were precious Gu Masters!

Chapter 515 - Dong Fang Yu Liang’s backup plan

Chapter 515: Dong Fang Yu Liang’s backup plan

Translator: ChibiGeneral Editor: ChibiGeneral

Dong Fang army suffered huge losses within a short period of time, and they abandoned the large numbers of corpses as they retreated.

“Run!”

“Run, it will be too late if we don’t go now!!”

The situation Dong Fang Yu Liang was most worried about finally happened – Dong Fang alliance army collapsed with no intent to battle, only concentrating on escaping. Hei tribe army took this chance to unfold a cruel massacre.

Dong Fang Yu Liang gnashed his teeth and promptly mobilized rank four Gu Master experts to hold back the enemy.

The experts turned around and dealt a heavy blow, restraining the momentum of Hei tribe army. But this did not last long as Hei tribe’s rank four Gu Master experts took the stage and hindered the Dong Fang tribe’s experts.

Dong Fang Yu Liang made a move again, but was pinned down by Hei Lou Lan. Seeing his side troops chasing after the enemy and having the momentum in unfolding cruel massacre, Fang Yuan stopped and summoned the wolf group beside him.

This move immediately won favorable impression from the black banner elite troop’s commander who was beside him.

In his view, this was a great chance for Wolf King to get battle contributions, but the latter instead gave these battle achievements to others. This commander praised Fang Yuan openly.

Fang Yuan knew the other party was trying to express goodwill. Hei Xiu Yi had been appointed as his bodyguard, but Xiu Yi deserted him in the face of danger, and if not for the water image Gu, he would have already been dead.

However, Fang Yuan never counted on someone else's protection; he only relied on himself. Moreover, Hei Xiu Yi was Hei Lou Lan's trusted general and because of this, he would not be able to do anything to Hei Xiu Yi if he raised this topic. Even if he could, Fang Yuan was not willing to be in such pointless internal friction.

He casually replied, secretly hinting the commander that he did not put this matter in heart.

Only then did the commander let out a breath of relief, secretly feeling: though Wolf King was arrogant, he was truly magnanimous and extraordinary.

Finally, Dong Fang army made a mad run to the first defense line, paying a disastrous price for this.

Twenty percent of the whole army had died during the first battle but fifty percent had died during the chase by the wolf group and the enemy. The remaining thirty percent who were injured and disabled managed to run to the defense line.

Among the rank four experts, two died in the process of holding back Hei tribe army.

The Hei tribe army chased without stopping, but they were shot through by the feather arrow elite troops who were standing on the defense walls, and lost hundreds of people before running away in sorry figures.

This was the elite troop that the Dong Fang tribe had cultivated by spending a lot of care and resources; they were not any weaker than the black banner elite troop.

Hei tribe's Gu Masters tried to charge through three times but were shot back into retreat by the feather arrow elite troop. Hei Lou Lan mobilized the rank four Gu Masters to charge forward, but they were trapped by Dong Fang Yu Liang's arrangement and lost three experts.

"Lord alliance leader, the enemy is relying on their location to defend and they occupy the geographical advantage. Our side has fought hard for long, we don't have sufficient primeval essence to keep on fighting, it would be better to retreat for now and make new plans." The group of experts returned to the main tent where cunning gentleman Sun Shi Han suggested this idea.

Fang Yuan's brows furrowed; he had his previous life memories and knew Dong Fang Yu Liang was very good at handling messy situations, winning against stronger opponents as the weaker side. If they delayed for long, the amount of intel he would receive would increase and it would be more unfavorable for Hei tribe.

This time, there was Fang Yuan's interference which led to the Hei tribe occupying a greater dominance than in his previous life, but Dong Fang Yu Liang who was in a good shape was an enormous threat. To deal with Dong Fang Yu Liang, the best way was to continue attacking, without giving him the chance to scheme and calculate.

Hei Lou Lan pondered on cunning gentleman's suggestion in silence. He had crossed hands with Dong Fang Yu Liang before and was well acquainted with Dong Fang Yu Liang's methods. He did not want to let go of this chance in front of him and thus his gaze moved towards Fang Yuan.

Fang Yuan proudly smiled and said to Hei Lou Lan: "Hei tribe leader does not need to worry, I can guarantee you that I will break this defense line in just a quarter of an hour."

The crowd raised their eyebrows in surprise while cunning gentleman sneered, feeling Fang Yuan was boasting.

Hei Lou Lan, however, was joyous: "Then I shall see the Wolf King's ability."

The wolf group once again gathered together and unfolded an endless charge at Dong Fang tribe's first line of defense.

The Dong Fang tribe defended very tightly and in just moments, wolf corpses littered under the walls.

Hei tribe's troops were overwhelmed at this sight; Fang Yuan was simply sending the wolf group to their death, disregarding the sacrifices.

Especially the feather arrow elite troop; they were experts at long distance attacks and were with the direction of the wind from the walls. Rank four experts acted as emergency response group, moving everywhere; as long as an area showed signs of falling, they would move one after another to avert the disaster.

Dong Fang tribe's defense line was truly like a fortress.

Fang Yuan scoffed while continuously activating wolf howl Gu, and creating shocking variations in the assault. Every variation brought an enormous threat to the defense line.

This high intensity of battle caused enormous sacrifices in the wolf group; two hundred and eighty thousand wolves had died in a short period of time!

Fang Yuan was expressionless as he commanded the wolf group from the twin-headed rhinoceros's back. The gazes the crowd in the main tent looked at him quietly changed.

Wolf King's ruthlessness caused fear to emerged in these people.

Such a majestic and fierce wolf tide gave them a feeling of being insignificant.

“Wolf King Chang Shan Yin, such a ruthless heart you have, do you want to spare none!?” Dong Fang Yu Liang's expression was heavy. The large numbers of sacrifices in the wolf group were exchanged with intense consumption of primeval essence of Dong Fang army.

He was extremely regretful. If he had known this, he would rather give up on Hei Lou Lan, to take Chang Shan Yin's life!

Finally, Dong Fang tribe's Gu Masters could not hold up anymore, and the wolf group's offence made them so exhausted that they did not even have time to take a breather, much less recover their primeval essence.

"Retreat!" Helplessly, Dong Fang Yu Liang could only send down the command to retreat.

Just like Fang Yuan proclaimed, after a quarter of an hour, Dong Fang tribe's first line of defense was broken. Dong Fang Yu Liang left behind a group of crippled Gu Masters to cover their retreat, and led the remaining troops to escape towards the second defense line in the fastest speed possible.

"My wolf group is very exhausted and is not fit to chase them anymore." Fang Yuan withdrew his wolf group and made way to give Hei tribe army the chance to move.

This action won him almost everyone's good impressions.

"I have sustained some injuries in this battle, you guys chase them and kill them all. But be careful, that Dong Fang lad definitely has some arrangements." Hei Lou Lan did not move from the main tent, and instead sent Hao Ji Liu, Pan Ping, the Wang tribe leader and others to chase.

The crowd excitedly crossed over the broken defense line and moved in pursuit.

But the troops had just crossed over the defense line when an intense explosion suddenly burst out.

BOOM! Just like the crackling of a thunder, dozens of Gu Masters were instantly fried, leaving behind flesh and broken limbs on the ground.

BOOM BOOM BOOM…

Immediately after that, large numbers of explosions exploded in a chain-reaction, covering the whole defense line.

The troops who went to chase immediately suffered huge losses and fell into chaos.

"It is charred thunder potato Gu! Dong Fang Yu Liang buried large numbers of them under the defense line!" The investigative Gu Masters returned to report in the main tent.

"I can see it!" Hei Lou Lan's expression was extremely dark as he waved his hand for the investigative Gu Masters to take their leave.

He was not stupid and immediately realized he had been schemed by Dong Fang Yu Liang.

Setting up so many charred thunder potato Gu would require a long time. This time was actually given by Hei Lou Lan.

Before the battle, Dong Fang Yu Liang had purposely sent a challenge letter to start the war. In retaliation, Hei Lou Lan listened to cunning gentleman's words and delayed it for several days, only starting the battle after his rear army gathered. This gave Dong Fang Yu Liang the chance to put this plan in action.

The explosions continued without an end, inflicting many casualties among the Hei tribe army. The most crucial point was that their pursuit had stopped; the Hei tribe army could only watch as the Dong Fang tribe's remnant troops safely escaped.

Charred thunder potato Gu might only be a rank two Gu with limited power but there was just too many of it.

Besides this, there were also many rank three muffled thunder potato Gu and a few rank four thunderclap potato Gu mixed among them.

Even if Gu Masters were able to activate defensive Gu and preserve their life, their primeval essence would be greatly consumed. There were only a few Gu Masters who had flying Gu worms. Even if these people could catch up to the enemy, their strength was weak and would instead be giving Dong Fang tribe the opportunity to kill them.

The Gu Masters who had been worked up and excited to establish merits, finally returned to the camp in a sorry figure, full of injuries.

"We have already gained a huge victory today, Dong Fang lad is only delaying his death. I can still have the pleasure of killing him later!" Hei Lou Lan pacified himself and began to handle the postwar affairs.

Cleaning the battlefield, healing the injured, listing the battle merits; these were all complicated affairs that required energy and time.

Fang Yuan naturally was not willing to waste his precious time on this. He casually gave an excuse and left the main tent, returning to his large lizard house Gu to continue cultivating.

He had established huge contributions in this battle, and although he only moved a few times, each time was crucial. In front of his military success and position of strength, even cunning gentleman kept quiet, much less anyone else.

"The Wolf King was not injured by the blast?…." Dong Fang Yu Liang listened to the battle information from the detective Gu Master, and felt quite regretful.

Through this battle, he placed Fang Yuan as the number one enemy with threat even higher than Hei Lou Lan.

Chang Shan Yin was extremely cunning and vicious, not even caring about Ge tribe's life or death. Although he was only at rank four peak stage, he was much more troublesome than Hei Lou Lan.

Dong Fang Yu Liang had originally calculated that the chance for Chang Shan Yin to mobilize his wolf group to chase them was very high.

But his meticulously prepared trap did not even ensnare a single wolf, and instead killed large numbers of Hei tribe's Gu Masters.

A Gu Master's life was much much more precious than wild wolves. But Dong Fang Yu Liang was not happy.

To a wisdom path Gu Master who were experts at deductions and schemes, a strong and powerful enemy was not troublesome. But even though the Wolf King was strong, he was not conceited, and instead was a very calm opponent; such opponents were a thorn in the neck.

It was precisely because of Fang Yuan's few times of making a move that caused Dong Fang army to fall from slightly losing position to utter defeat. From this, a gap appeared in the two sides where the Hei tribe was in a clear superiority and Dong Fang army was in a disadvantage, in a worsening situation.

Looking at this battle coming to an end, in Ni Yu blessed land, Dong Fang Chang Fan retracted his gaze and collected the smoke on the table into his sleeves.

Even without a need to deduce, he could tell that Dong Fang Yu Liang was already in an absolute disadvantage after this battle. Unless Hei Lou Lan made a great mistake, Dong Fang Yu Liang's hopes of advancing to Imperial Court had become very minute.

However, Dong Fang Yu Liang had performed remarkably in the battle, even creating a stalemate with his comparatively weaker military force. He had made full use of all the cards available to him.

"Especially his move in protecting the tribe's strength, which caused there to not be a single loss in feather arrow elite troop. This is his loyalty towards the tribe. Now, it is a test to see how well he deals with this messy situation." Dong Fang Chang Fan slowly closed his eyes, very pleased with this point.

Other tribe's casualties were their matters, it was okay as long as Dong Fang tribe's losses were not large.

The struggle for the Imperial Court by itself was an arrangement set by Giant Sun Immortal Venerable; one of the objectives was to preserve his bloodline while weakening the other tribes!

Chapter 516 - Battle Merit Board

Chapter 516: Battle Merit Board

Translator: ChibiGeneral Editor: ChibiGeneral

The red cloud surged in the air, giving Fang Yuan a burning hot feeling.

Fang Yuan was sitting cross-legged on a mat with his eyes closed, his mind holding the fire cloud together.

“It is time.” He inwardly calculated the time and slowly opened his eyes, after which he took out a wine vat.

The wine vat was filled with dark blue liquid, giving off a shine like the reflection of the moon on the sea.

“Descend.” Fang Yuan softly spoke and the fire cloud in the air slowly fell down, pouring completely into the wine vat.

For a moment, the contact of fire and water along with their merging produced thick black smoke.

The black smoke rapidly pervaded the whole room.

Fang Yuan could not even see his own fingers as if he was in a dark night.

With a shift of his mind, the wine vat suddenly let out an attraction force that completely absorbed all the black smoke within a few breaths of time.

The room was bright once again with a vague sweetness remaining in the air.

Fang Yuan repeatedly flicked his finger, throwing Gu worm after Gu worm into the wine vat. The wine vat kept on shaking for two-three minutes before finally calming down.

Fang Yuan gazed into the wine vat and only saw black mud inside. Those Gu worms he had thrown inside had completely merged together, forming a semi-finished product that was concealed in the center of the black mud.

“Rise.” Fang Yuan cautiously poured his primeval essence.

The surface of the black mud broke open and a thin, delicate sprout grew out of it. The delicate sprout was glossy green and grew rapidly, already growing into a small sapling in an instant.

The sapling grew thicker with a visible speed, slowly growing upwards. Conversely, the black mud in the wine vat rapidly decreased.

When the black mud decreased to eighty percent, the small tree stopped growing. The crown of the tree had formed into a tight shape, like a clenched green fist.

“Open.” Fang Yuan gave a light shout and simultaneously poured in large amounts of primeval essence into the tree.

The green fist slowly opened, revealing a Gu worm in its palm.

This Gu had a long oval body with a dark brown carapace. A majestic horn was on its head, which made it look thick and powerful.

It had four pairs of long strong legs and its whole body emitted a glossy metallic luster. One look at it was enough for anyone to know that it was not an ordinary Gu.

A trace of joy flashed in Fang Yuan’s eyes.

This Gu was precisely the all-out effort Gu which he had failed to advance three times before, finally succeeding in this fourth try.

Fang Yuan carefully observed, examining the differences in before and after the refinement.

Rank three all-out effort Gu only had three pairs of legs and because it was from the Southern Border, it received the region's restriction and was suppressed to rank two.

Rank four all-out effort Gu had four pairs of legs and was larger in size, over two times bigger than its rank three counterpart. And because it was refined in Northern Plains, it became a Northern Plains Gu and did not suffer from suppression, thus letting out a genuine rank four aura.

"With this rank four Gu, my strength path battle strength has immediately recovered for the most part. I will have to make preparations for its rank five recipe. Fortunately, I now possess a blessed land and can connect to treasure yellow heaven, and also have some connection with Lang Ya blessed land. There is hope in getting hold of all-out effort Gu's rank five recipe."

Fang Yuan stored this new all-out effort Gu into his aperture and cleaned the room once before coming out of the large lizard house Gu.

Outside was a bright and beautiful scene.

Large numbers of Gu Masters were moving back and forth between countless tents, hurrying about their respective affairs. Some were going to supply camps to exchange for Gu worms, some were returning after cleaning up the battlefield and some were building up defensive structures.

Eight days had passed since the great battle with Dong Fang alliance army.

In these eight days, Hei tribe's army kept its patience, cleaning up the battlefield everyday, making details of battle merits and healing the injured.

These serious and diverse affairs caused the army higher ups to be extremely busy. A mountain of paperworks had piled up on Hei Lou Lan's table. Cunning gentleman was given heavy responsibilities and was so busy that he had not slept for three days and three nights, and his face had become pale as paper. Each of the tribe leaders were also very busy, rushing about to fight for the benefits of their respective tribes.

As people holding top positions, they naturally had their own duty and responsibility.

In this period of time, Ge Guang also looked for Fang Yuan several times, hoping Fang Yuan would come out for Ge tribe's benefits, but Fang Yuan ignored and refused to see him, only concentrating in cultivating.

In this time, they appeared to be free and unconstrained like those demonic path Gu Masters. For the most part, they did not receive any implications and only looked after themselves; apart from checking whether their battle merits had not been embezzled, they were either healing their injuries or using battle merits to exchange for new Gu worms, actively preparing for war.

The treatment abilities of this world was far above that on earth.

On Earth, amputated limbs would mean becoming a disabled. If fingers were cut off, the fingers would need to be preserved and transplanted within a set period of time. And this transplantation had a chance of failure.

But in this world, even if one's limbs were completely cut off, they could be directly grown under the healing effects of Gu worms.

Basically, as long as the Gu Masters were not inflicted with troublesome injuries, they could be healed.

Thus, although only a short period of eight days had passed, the number of injured in Hei tribe army had already decreased by eighty percent, among which most had recovered the ability to fight.

As one went nearer towards the supply camps, they would discover a bigger stream of people.

Over these days, large numbers of Gu Masters came here to exchange their battle merits for goods.

The supply camps became the most busy place in the whole camp.

They opened fifteen large tents in a row with each tent occupying at least 3.25 acres, and over a thousand Gu Masters were working to serve people. But even so, the supply camp was packed with people and every tent was crowded and clamorous.

“Subordinate greets Lord Wolf King, please come this way lord.” When Fang Yuan arrived at the supply camp, a professional female Gu Master led him to a Gu house with a smile on her face.

As long as there was an organization, there would be hierarchy, upper and lower levels and also difference in treatments.

Fang Yuan belonged to the upper layer in the whole army and the treatment he received would naturally be different from ordinary people.

“Lord Wolf King is mighty, you are the first in the battle merit list in this battle!” The young and beautiful female Gu Master handed a scroll to Fang Yuan with a look of worship.

Fang Yuan gently pulled apart the two ends of the scroll and saw Chang Shan Yin at the very start. After his name was the amount of battle merit, which was a series of numbers written in Northern Plains’ language, denoting over a hundred thousand characters. Fang Yuan only roughly glanced at it.

In this world, battle merits were easy to calculate.

Because there were large numbers of Gu worms that could monitor or capture images. In every large battle, every tribe would use large numbers of Gu worms to record the whole process of the battle. Besides the purpose of calculating the battle merits, it was more importantly for assimilating experience, gathering intel, probing the enemy’s real details and understanding one’s own side’s deficiencies.

Besides this, many Gu Masters would also use their own Gu worms to record their own battle.

With all these details and images of every corner, the battle merits would be calculated again and again to verify the correct statistic.

Fang Yuan opened the scroll further; under his name was Hei Lou

Lan. His battle merit was over eighty thousand.

Hei Lou Lan fought and pinned down Dong Fang Yu Liang who was the strongest expert in the enemy's side. At the same time, he killed Wei Xin, E Xuan Ming and Wan Shan who were under three hearts combination soul, getting rid of the mixed beast group; this was an enormous battle contribution.

Under Hei Lou Lan was Water Demon Hao Ji Liu, Wang tribe leader, Pan Ping and so on with tens of thousands as their battle merits.

As Fang Yuan went further down, the battle merits became less and less. After the top ten, the battle merits fell down to over nine thousand. After the top twenty, the battle merits fell down to around seven to eight thousand.

The scroll recorded one hundred and six people altogether, with most having around three thousand battle merits.

It was clear this scroll was the list of the highest battle merits achiever. The complete battle merit list was erected in the fifteen large tents and was as large as defense walls, with large numbers of swimword Gu used on them. Thus, the characters on the surface of the large list would flicker time to time, showing the change in the battle merits.

The battle merits statistics had started from the moment the battle started, and would keep on being maintained.

Some Gu Masters would exchange their battle merits for Gu worms, thus their battle merits would fall. Some Gu Masters' battle merits would instead continue to rise. Especially healing Gu Masters, they would have considerable gains in the postwar.

Fang Yuan placed the scroll to the side. The female Gu Master had been observing his expression and at this moment, she handed over a Gu worm.

This Gu worm looked like a ladybug with square carapace, protruding edges while the middle part was sunken like a window frame.

This was rank four east window Gu, an information path Gu, used to store information.

Previously at Lang Ya blessed land, when Fang Yuan asked for the information on Eighty-Eight True Yang Building, the Lang Ya land spirit had given him an east window Gu.

Fang Yuan took the east window Gu and held it in his hand, pouring primeval essence into it.

East window Gu gave off a glimmer, and an enormous amount of information poured into Fang Yuan's mind.

There was a large number of goods including Gu worms from every path, beasts, vegetation, primeval stones, variant men, Gu recipes and so on.

These goods were put up by all tribes, and according to rules, as the alliance leader, Hei tribe put forward the maximum number of goods, no less than half of all these goods.

Soon, Fang Yuan discovered many things he wanted to purchase from these goods.

Although Fang Yuan could connect to treasure yellow heaven through Little Hu Immortal, the transactions in treasure yellow heaven was the transactions between great sects and clans, which used immortal essence stones as the currency. It was not suitable for Fang Yuan's current state.

At the same time there was also the mysterious force represented by Old Man Yan Shi who was coveting after Fang Yuan's fixed immortal travel Gu. If Fang Yuan wanted to buy rank five Gu to raise his strength, he would need to buy Northern Plains' Gu worms. If he did that, it would definitely provide an important evidence to this wisdom path Gu Immortal.

Thus, the supply camp was much more suitable to the current Fang Yuan than treasure yellow heaven.

"Among my strength path Gu worms, all-out effort Gu has been raised to rank four and has adapted to Northern Plains. But I still have rank three strength qi Gu, tusita flower, primeval elder Gu, self-reliance Gu as well as rank four bitter strength, expend strength Gu and charging crash Gu. These Gu are all from Southern Border and is under region suppression in the Northern Plains."

"To remove the region's suppression, I would need to advance these Gu to higher rank in Northern Plains. But to do so would mean too much investment."

There was a probability of failure in Gu refinement.

Even though Fang Yuan had close to master level skill in refinement path, he was not exempted from this probability.

The rank four all-out effort Gu he refined had failed several times before succeeding. The refinement of nauseous crying baby Gu failed for over ten times, yet it still did not succeed in the end.

The higher the rank of the Gu, the higher the probability of failing the refinement. This was especially so for rank five Gu as those were very challenging and difficult to refine, with the probability of success usually being less than one in a thousand.

Chapter 517 - Lurking Soul Coat Gu

Chapter 517: Lurking Soul Coat Gu

Translator: ChibiGeneral Editor: ChibiGeneral

Advancing bitter strength Gu, expend strength Gu and charging crash Gu to rank five was a huge project; Fang Yuan would need to use large amounts of materials and Gu worms.

Thus, often only the Gu Immortals who had blessed lands had the capital to gather a complete set of rank five Gu.

It was very hard for mortals to bear such a price.

Thus, in the mortal world, a lot of rank five Gu Masters did not even have one rank five Gu. Only people like Hei Lou Lan and Dong Fang Yu Liang who had the support of a large force behind them had one or two rank five Gu.

In the information provided by east window Gu, there was only a dark path rank five Gu that could be exchanged with battle merits.

“My enslavement path Gu originated from Chang Shan Yin, almost all are rank four and it will be extremely difficult to raise them to rank five in a short period of time. Thus, I need to concentrate on gathering Gu recipes, just in case.”

“As for my strength path Gu, those originate from Southern Border; rather than refining them, it might be better to make direct purchases. After all, these Gu are not my vital Gu, so if the refinement fails, they will perish. And if I want to refine again, I will have to accumulate them again.’

Fang Yuan's plan was the same as the choice many foreign region Gu Masters sensibly made in the troubled times that were to come in the future.

He made his choice.

There was only one rank five Gu among the goods, but there were many rank four Gu including bitter strength Gu, tusita flower and primeval elder Gu.

But there was no charging crash Gu.

Fang Yuan could only opt for the next best choice and choose two pairs of rank three horizontal charge Gu and vertical crash Gu, intending to fuse them himself.

Self-reliance Gu was a perfect match for strength path Gu Masters, and a rare Gu at that. In Hei tribe's enormous list of goods, there was one self-reliance Gu, but unfortunately it was only at rank two, even lower than Fang Yuan's.

Rank three self-reliance Gu could reach a price of forty-five thousand primeval stones which corresponded to forty-five hundred battle merits.

A rank four self-reliance Gu's price could be compared to a rank five Gu, and had a very low possibility of appearing in the exchange list.

Fang Yuan pondered and bought this rank two self-reliance Gu as well. If there was truly no other way, he could only try to refine it.

If the self-reliance Gu was like this, then there was no need to even mention strength qi Gu.

Strength qi Gu was already extinct in the mortal markets, and Fang Yuan's strength qi Gu was obtained by reverse refining rank four atmosphere Gu.

But the atmosphere Gu was rank four, and was not a mainstream Gu, and was also very rare on top of that.

If Fang Yuan wanted to obtain strength qi Gu, he could only use

Northern Plains' atmosphere Gu and reverse refine it to rank three strength qi Gu.

He had rank five cultivation now; rank three strength qi Gu was not suitable for him anymore, rank three Gu's help to him now was extremely small.

"Since there is no expend strength Gu, then so be it. After all, this Gu is used for restricting strength path and has few applications. If I don't have strength qi Gu, it will truly be miserable; I will be lacking long range attack methods and land in the most common predicament of present age strength path Gu Masters."

Strength qi Gu might not be treated as a core Gu, but it was extremely important to strength path Gu Masters.

"So I can only try to gather rank four and rank five recipes of strength qi Gu for now. Qi path has already died out, treasure yellow heaven has them but the prices are definitely high. Perhaps my greatest hope is in Lang Ya blessed land. But Lang Ya land spirit is not easy to deal with, I will have to pay a huge price if I want to obtain the recipe."

Just when Fang Yuan was inwardly vexed about this problem, he suddenly had a realization.

"Eh? Wrong." His mind received a slight jolt.

"Even if my strength path doesn't have long ranged attack methods, my enslavement path can make up for it! My situation is no longer the same now, I have two apertures, I cultivate enslavement and strength path, they can complement each other."

Fang Yuan's view suddenly cleared up.

Although he was someone who had been reborn and was meticulous, it was unavoidable for even him to have times of habitual thinking.

He only had one aperture in his previous life and even though he had touched upon other paths, it was mostly after he became a Gu Immortal. But now, he was already cultivating two paths as a mortal.

“Enslavement path Gu Masters are most afraid of beheading the leader tactics, I can use strength path to defend. On the contrary, strength path’s weakness can be filled by using enslavement path. Strength qi Gu, there is no need for it.”

Because he cultivated two paths, this problem that troubled strength path Gu Masters was easily resolved.

Following after this, Fang Yuan used his battle merits to exchange for many space path Gu and large numbers of Gu refinement materials.

These space path Gu and materials were preparations to enter Luo Po Valley later on.

Thieving Heaven Demon Venerable had sealed Luo Po Valley back then. If one wanted to enter, normal methods wouldn’t work; one must have a rank five open door Gu.

Open door Gu could let the fated ones enter Luo Po valley. But to close the passage would require refining a rank five close door Gu, to prevent the exposure of the passage and others entering in.

‘Lord Wolf King actually exchanged for so many strength path Gu and space path Gu, and there are also huge amounts of Gu refinement materials.’ The goods Fang Yuan wanted to exchange for, caused this female Gu Master to be inwardly surprised.

Exchanging for strength path Gu was still reasonable, after all strength path might be declining but it consumed less primeval essence. In case primeval essence was about to be exhausted, it could act as a Gu Master’s last support.

Thus, in Northern Plains where battles occurred frequently, almost all the Gu Masters cultivated some strength path Gu.

‘But what is Lord Wolf King going to do with these space path Gu?’

‘Maybe he wants to use space path Gu to protect himself? After all, enslavement path Gu Masters are often restrained by beheading leader tactics.’

‘There are also these astonishing amounts of Gu refinement materials, is Lord Wolf King interested towards refinement path? Or maybe he is researching a completely new enslavement path Gu?’

The female Gu Master was full of doubts but did not express them.

She was very aware that rashly inquiring about these secrets was an extremely great offense to the Gu Master.

Thus, she did not reveal any curiosity on her face, concentrating only on handling these exchanges.

Fang Yuan soon saw his battle merits decreased by over half on the battle list, immediately falling down from first position.

“Lord Wolf King, these goods you exchanged for will be sent to you one by one today and will be completely delivered by dawn.” The female Gu Master informed in a soft voice.

Fang Yuan nodded and was just about to leave when this female Gu Master said in a low voice: “Lord Wolf King, please wait a moment. Here is a Gu recipe which is extremely suitable for you, Lord tribe leader specifically told me to hold it for you.”

“Hmm?” Fang Yuan’s eyes flashed with a bright light.

There was no need to even guess, the female Gu Master before him was definitely Hei tribe’s Gu Master.

In such an important place like the supply camp, Hei Lou Lan could only be at ease if he placed his men inside.

Listening to the female Gu Master’s words, Fang Yuan realized this was Hei Lou Lan’s goodwill towards him. It was extremely likely that it was because of Hei Xiu Yi deserting in the face of danger, and that Fang Yuan let the bygones be bygones, so Hei Lou Lan was secretly reciprocating for it.

Fang Yuan immediately felt some interest and after understanding about the details, he found that this Gu recipe was truly very suitable for him.

This was a Gu recipe of lurking soul coat Gu.

Lurking soul coat Gu had only one ability, and that was to cover soul fluctuations.

Previously, Fang Yuan was hiding in a corner of the battlefield and had to mobilize the wolf group without being able to use his full strength to prevent being discovered. But with this Gu, he could completely cover his soul fluctuations and mobilize the wolf group with his whole strength while hiding.

This Gu recipe went all the way from rank one to rank five, thus it had very high price.

Fang Yuan used all his remaining battle merits and barely obtained it.

He skimmed through the Gu recipe once and saw the difficulty in refining this Gu was not high, but there were monumental amount of refinement procedures. Moreover, the cost involved was not low, especially one procedure among them required a large number of fresh beast skins as Gu refinement materials.

“Tribe leader has said himself that if Lord Wolf King feels like the Gu refinement is too complicated, you can ask the refinement path Gu Masters to do it. You only need to pay equivalent battle merits to them. If Lord Wolf King has insufficient battle merits, you can borrow five hundred thousand.” The female Gu Master timely suggested.

Primeval stones were the currency during normal times.

But during battles, because of Gu Masters using a large number of primeval stones to restore their primeval essence, refine new Gu or so on, primeval stones were in scarcity.

At such times, battle merits were often used as currency.

This was not only in Northern Plains, it was also the same in Southern Border and other regions.

Borrowing battle merits naturally was not a treatment given to ordinary people. Fang Yuan, however, was a crucial battle strength as he could directly raise the strength of the whole Hei tribe army by himself, thus Hei Lou Lan was happy to actively promote such actions secretly.

Fang Yuan nodded and borrowed five hundred thousand battle merits on the spot.

With this, his battle merits went into negative, falling down to the last position on the large battle merit list.

The Gu Masters who saw this scene in the fifteen large tents exclaimed in surprise.

In the enormous battle merit list that was as large as defense walls, the negative five hundred thousand which was written in scarlet was exceptionally dazzling.

From first to last, such a huge discrepancy caused people to be greatly taken aback.

Clamorous discussions rose before gradually quieting down.

The Wolf King's strength and status made them involuntarily accept this fact.

Soon after, several assignments that came from the Wolf King caused the quietened discussions to again turn into a clamor.

The assignments were capturing wolves, gathering souls, peeling off wolf skins and processing them, along with large numbers of Gu refinement assignments; once completed, could give them a lot of battle merits.

These assignments quickly stimulated everyone's enthusiasm.

In the next few days, Fang Yuan continued to cultivate, concentrating mainly on strength path.

Because of turtle jade wolf skin Gu, his body could bear even more strength.

Several days later, Fang Yuan's strength path broke through the hundred jun strength barrier, and he had already successively received ten thousand rank one lurking soul coat Gu.

But to push to rank five, this amount was still far from enough.

Hei tribe army rested and reorganized for a week more before pulling up the camp and pushing forward towards Dong Fang tribe’s defense line.

The battle began once more.

Dong Fang Yu Liang relied on tall and firm defense walls to defend tightly, and along with repeated clever plans, he was able to push off the battle to the limit, causing great trouble to Hei tribe.

But it was still very difficult for him to make up for the large gap created by the first battle.

The five defense lines Dong Fang army had built, was broken through by Hei tribe in a row.

In the end, the Dong Fang army had retreated to the final defense line – in the central zone of Cao Fu – and were firmly surrounded by Hei tribe.

“Dong Fang Yu Liang, you are surrounded, your loss is already determined. A wise man submits to fate; as long as you surrender, my army’s main military advisor position will still be yours.”

Hei Lou Lan stood high on his twin-headed rhino, his voice echoing throughout the battlefield.

Chapter 518 - Famous

Chapter 518: Famous

Facing Hei Lou Lan's offer of submission, Dong Fang Yu Liang went silent.

He was standing on the walls, looking at the black enemy troops, the wind blew his hair and his clothes fluttered lightly in the air.

He sighed lightly.

Even though he had many brilliant schemes and always held the initiative with his predictions, the difference between the two sides was just too overwhelming, in the end, they reached this stage.

Wisdom path was not invincible.

Throughout history, there were a great number of Gu Master path and styles, even qi path and strength path which were dominant in a point in time, did not manage to cause other paths to go into extinction, becoming the sole path of the Gu Master world.

Every path had its strengths and weaknesses.

Especially when Gu Master paths were established on the basis of resources. As times changed, and environments changed, when the resources that Gu Masters needed to cultivate dwindled, that particular path's vitality would go down.

Any Gu Master familiar with history would know that throughout the long river of time, countless paths were buried.

Speaking of which, wisdom path had been popular since the immemorial era, until this day. Even though they were always low on numbers, such an established path could be said to be independent

already.

In this world, there were no invincible paths, only invincible Gu Masters.

But to be truly invincible, there were only ten in history.

Dong Fang Yu Liang was only a rank five wisdom path Gu Master, although he was at the peak of the mortal realm, he was far from invincible.

Even though he had his self created killer move, Seven Star Light, the primeval essence expenditure of it was too great, it could not be sustained. Against a huge force like Hei tribe, he was already feeling overpowered and outnumbered.

“If I was an enslavement path Gu Master, there might be a chance of salvaging it. But even enslavement path would need to be worried of beheading the leader tactic. Even Wolf King Chang Shan Yin does not dare to venture out alone, leading his wolves to leave the main troops. Thus, only by ascending to Gu Immortal can one rule above the mortal world.” Dong Fang Yu Liang sighed in his heart.

At this time, Water Demon Hao Ji Liu came forward to battle.

“Wind Demon, come out and die!” He shouted out his enemy’s name.

Wind Demon was furious, growling: “Hao Ji Liu, don’t be arrogant!”

Saying so, he leapt from the defense walls, activating his Gu while in mid air, as two four-leaf wind blades formed, shooting out.

“All you can use are old tricks!” Water Demon laughed, not dodging as he charged head on.

Bam bam bam!

The water and wind demons had battled for dozens of rounds, they were very familiar with each other, thus, the moment they fought, it reached the climax.

Wind blades and water bullets flew on both sides, colliding in mid air as they exploded.

Wind Demon’s attacks were sharp and focused on penetrating and kiting, while Water Demon engaged in frontal assault, overwhelming the enemy.

The two were established characters, now that they were engaging with each other, they were displaying great strength as the battle could not be decided easily.

The Gu Masters from both armies focused their attention on these two people.

The strength of a rank four Gu Master was well known by all, but now, it still gave them a great sense of fear and trepidation.

After a while, Water Demon gradually gained the upper hand.

Wind Demon’s condition was not good, there were times where a Gu Master’s strength fluctuated.

Like now, the conclusion had already been decided, being surrounded by Hei tribe heavily, Dong Fang tribe’s warriors had low morale, Wind Demon was affected too.

Seeing his rival of equal strength suppressed by himself, Water Demon shouted in joy as he attacked even more fiercely.

The general was the courage of the soldiers, seeing this, Hei tribe army’s morale surged, as Dong Fang alliance army sank into silence on the defense wall.

In the main tent, Hei Lou Lan laughed heartily as he sent another rank four expert into battle.

Dong Fang Yu Liang sent a person to deal with him.

But the battle between these two Gu Masters was not as intense as the battle between demons.

Not only was the commotion smaller, they even talked in the middle of battle, talking about their ancestor’s time and their alliance marriage.

Dong Fang Yu Liang's expression became uglier as Hei Lou Lan's smile became deeper.

Dong Fang alliance army had low morale, the troops had lost their sense of belonging. All the forces in the alliance were starting to find a way out of their predicament.

Hei tribe army's morale was high, all the rank four experts requested to battle.

Hei Lou Lan laughed as he approved all their requests.

Quickly, before the two armies, twelve battle rings were created.

"I am Pan Ping, who will battle me?" Pan Ping carried a fierce aura as he became the thirteenth person to enter the battlefield after getting Hei Lou Lan's permission.

Dong Fang Yu Liang was silent.

By now, the rank four experts under him had mostly perished. Many experts were worried for the present and future, they were no longer giving it their all, but instead hiding their strength.

Although when the alliance was made, all the leaders and experts used the poison bow Gu, the content of the vow was not strict, there were many loopholes that could be exploited.

As the alliance leader, although they would want to tie the large tribes closely to them, other forces were not idiots. Thus the content of the poison vow had been passed down for numerous generations, created through many collective agreements.

As Pan Ping requested for battle, Dong Fang Yu Liang found that he had no one to summon already.

He thought about it before sending an order.

"What? Dong Fang alliance leader is order my father to battle?!" In the camp behind the defense walls, Tang Fang saw this messenger and his expression turned ugly, his eyes almost blowing fire.

In the earlier battle, in order to protect his tribesmen, Tang tribe leader was attacked by two Hei tribe Gu masters and suffered grave injuries. After that, he had been bedridden, he had not even recovered now.

“This is the alliance leader’s orders, are you trying to defy it? I know your tribe leader is injured and bedridden. But there are so many bedridden tribe leaders, after getting the alliance leader’s orders, didn’t they participate too?” The messenger’s words were rigid as he looked at Tang Fang with disdain.

“You!” Tang Fang was furious, shouting: “They are pretending to be injured, my father is truly heavily injured!”

“Alright, son, enough. As the Tang tribe leader, I have to participate in this battle.” At this time, the pale Tang tribe leader walked out.

“Hmph, as long as you obey the orders.” Dong Fang tribe’s messenger snorted as he walked away.

“But father, your body…” Tang Fang was extremely worried.

“No matter.” Tang tribe leader patted his son’s shoulders: “I have been recuperating these days, my injures are mostly healed. Today’s battle might be the last. If I do not participate, it would be detrimental to our tribe, and our reputation.”

Tang Fang gritted his teeth: “Then you have to be careful father, sister is still with them, if there is a chance…”

“Mm, I will do my best.” Tang tribe leader frowned as he walked out of the tent.

He came to the defense walls as he met Dong Fang Yu Liang, before going to the battlefield, starting the battle with Pan Ping.

Tang Fang stood at the edge of the wall, staring at his father.

“Young tribe leader, we will be fine. Although lord tribe leader still has some poison in him, today’s battle is different, everyone will not go all out.” A Tang tribe elder consoled.

Tang Fang looked at his father battling on par with Pan Ping, with neither giving it their all, and the worry in his heart dissipated.

But at this moment, Pan Ping burst out and drew the scimitar by his waist.

Everyone saw a bright white light flash past quickly.

The next moment, Tang tribe leader was beheaded!

“Ah, father!” Tang Fang was stunned before crying out painfully.

This had occurred too suddenly, both sides were shocked for a few breaths’ time before starting to discuss fervently.

“Tang tribe leader Tang You has been taken down by me Pan Ping!” Pan Ping’s eyes were shining with a bloodthirsty light as he raised Tang tribe leader’s head and shouted.

Tang Fang’s vision turned dark as he fainted on the spot.

“What was that?”

“I only saw a flash of light, it was too fast! I could not see anything clearly.”

“I wonder what Gu or killer move Pan Ping used?”

Pan Ping killed an expert on the same level as him, he gained great fame as even the resting Fang Yuan opened his eyes slightly to give him a glance.

Northern plains was huge, it was a land of battles. Countless wars and battles created numerous experts. These experts might have some unknown trump cards that they had been hiding forever.

Although Pan Ping was a rank four Gu Master, his reputation was not very high, among the rank four Gu Master, he was not outstanding. But after this battle, he rose to fame by stepping on Tang tribe leader’s corpse.

Pan Ping's expression was shining like flowers as he returned victorious.

Hei Lou Lan laughed loudly, ordering his men to bring his wine cup and gave the delicious wine to Pan Ping as a reward.

"Thank you lord alliance leader for the reward!" Pan Ping stood in the main tent, drinking the wine in one pulp, his gaze was full of anticipation as his expression was lively.

He got this Gu by accident. Once, there was a market set up by a few tribes, he saw this scimitar and thought it was beautiful, thus he bought it out of interest.

But to think that when he was toying with it, he found the secret in this scimitar.

On the blade of this scimitar, there was a cold light. This cold light was actually a mysterious Gu worm.

Pan Ping spent a lot of effort before finally refining this Gu. Although he did not know the name of this Gu, it had executed many strong foes for him, it had an extremely sharp attack.

He had great expectations for this Imperial Court contest.

Originally, during Hei tribe and Dong Fang army's first battle, he had requested to be the first to battle. At that time, he was planning on using this Gu to slay a strong enemy, gaining fame immediately.

But Tang Miao Ming called out the Wolf King Chang Shan Yin and challenged him, it obstructed his plans.

What's worse was, Fang Yuan did not go with the norm, he attacked directly and skipped the challenge, directly causing the war between both sides.

The chance that Pan Ping was looking for was gone like that. Although there were battles later, it was not the environment that Pan Ping was hoping for.

"But today's battle was a huge chance, Tang tribe leader, Tang You, is an established character. After this battle, my status will rise and I would become Hei tribe's number one general. After all, Water Demon Hao Ji Liu had greater reputation, but he had not taken down Wind Demon yet. As for Wolf King Chang Shan Yin, he is an enslavement path Gu Master, there is no point competing with him…"

Pan Ping looked around, feeling that everyone's gaze towards him had changed, the happiness in his heart rose again.

"This is the feeling of a top dog 1 . Hehe, one day, I, Pan Ping, will have my name resound all over Northern Plains!" He shouted in his heart.

Chapter 519 - Just a game

Chapter 519: Just a game

Translator: ChibiGeneral Editor: ChibiGeneral

Ni Yu blessed land.

A long jade-layered walkway led the way along the lake surface towards a pavilion.

Outside the pavilion, there was a light rain and soothing wind.

Different from the outside world, the rain here fell from bottom to top. The name of Ni Yu 1 , came from this.

After the female Gu immortal Tan Bi Ya, there was a new guest in the blessed land.

“Junior Hei Bai pays respect to senior Dong Fang.” The person who came looked like an ordinary middle aged man, but he was a true rank six Gu Immortal.

“It has been seventy years since we last met. Back then, you were still Hei tribe leader, a step away from entering the Imperial Court.”

Hei Bai stood on the stone bench, bowing slightly: “I am ashamed, back then I was greatly supported by my tribe, but I lost by one move and Liu tribe emerged victorious.”

“Hehehe.” Dong Fang Chang Fan laughed: “That’s right, the Liu tribe leader back then, Liu Yi Feng, had unprecedented talent, he was a genius barely seen in a hundred years.”

“Senior has good memory, junior is full of admiration.”

Dong Fang Chang Fan shook his head: “Us wisdom path Gu Masters will always collect every single information we can get in order to make our deductions. Although Liu Yi Feng was glaringly talented, he failed when charging towards Gu Immortal realm. Among the people of that generation, the one who remained standing at the end was you, commonly known as ‘Hei tribe rockman’.”

“Senior is too kind, this junior was lucky.”

“No need to put yourself down, becoming a Gu Immortal is as hard as ascending to heaven, out of ten thousand rank five Gu Masters, not even one might succeed. Sigh, to speak the truth, I have observed many juniors these years, and now my hopes are on this child.” Dong Fang Chang Fan pointed with his right index finger, and a colorful smoke rose from the stone bench, reflecting the real-time battle situation in northern plains, Cao Fu.

Coincidentally, the two Gu Immortals saw Pan Ping flash his scimitar as he beheaded Tang tribe leader.

Hei Bai frowned, lightly gasping: “This is interesting, if I did not see wrongly, this is the sole blade Gu. Sole blade Gu is unique, once activated, it can ignore all defenses of the same level. This was created by the Gu Immortal Blade Demon, it has a strange form, merely a flash of blade light, and has to be kept on a blade. This Gu eats blades as food, and the blade it resides in will gradually shrink and turn into dust.”

Dong Fang Chang Fan nodded: “That’s right, sole blade Gu can reach rank six at most. Back then, Blade Demon used the rank six sole blade Gu to hold his own, no one dared to trifle with him. But eventually, he lost to Butterfly Sword Immortal. Blade Demon died in battle, and his blessed land was consumed by Butterfly Sword Immortal. The recipe of sole blade Gu was not passed down, but now there are still many sole blade Gu in the mortal realm, these were handed out when Blade Demon disguised as a mortal and travelled the world back then. It seems this lucky lad obtained one of the gifts from Blade Demon back then.”

“Senior is wise, I have learnt much today.” Hei Bai said with admiration.

Dong Fang Chang Fan was a famous wisdom path Gu Immortal in northern plains, he had glorious battle results his whole life, numerous Gu Immortal suffered from his schemes.

When he was born, Dong Fang tribe was already declining like the setting sun. When he became a Gu Immortal, he single handedly held them up as he made many schemes against his enemies, he had great methods and eventually caused Dong Fang tribe to rise up again.

He was a rank seven Gu Immortal, a great power in northern plains undoubtedly, and the pillar of support for Dong Fang tribe.

But now, his lifespan was at its end, he was eager to leave his inheritance. In the past, Dong Fang Chang Fan had high expectations, and many did not meet his requirements. Now, Dong Fang Yu Liang might not have met all his expectations, but he was the best candidate out of them all.

Lifespan Gu were hard to find, even for Dong Fang tribe which was a super tribe, one of the largest force in northern plains.

Of course, a part of the reason was that the righteous path Gu Immortal secretly colluded to restrict the selling of lifespan Gu to Dong Fang Chang Fan. Similarly, demonic Gu Immortals who were schemed against by Dong Fang Chang Fan hated him to the bones.

Dong Fang Chang Fan schemed against numerous people, but at the end of his life, he was ganged up on collectively by his enemies.

He was clear about this, he had offended too many Gu Immortals. Even the righteous path did not want to see him live longer.

Hei Bai understood, this meeting with Dong Fang Chang Fan would be the last time he could see this legendary Gu Immortal in northern plains.

The rainbow smoke on the stone bench displayed the battle situation perfectly, showing it to them without any lack of clarity.

Dong Fang army, while already weaker in terms of power, got into an even worse situation after Tang tribe leader was killed by Pan Ping.

Eventually, Dong Fang Yu Liang challenged Hei Lou Lan, entering the battle himself.

He wanted to use his own strength to fight for a bit of chance and hope.

But eventually, he could not emerge victorious as he and Hei Lou Lan ended in a draw.

When night descended, Hei Lou Lan ordered a collective attack.

At night, night wolves surge in battle strength. The wolf tide came waves after waves, under Fang Yuan's manipulation, they broke through Dong Fang army's final line of defense.

Dong Fang army had low morale and the troops were not united, even though Dong Fang Yu Liang made many preparations, the defensive line only lasted for seven minutes before being taken down.

Helpless, Dong Fang Yu Liang could only surrender.

At this point, Hei tribe and Dong Fang tribe's battle ended, as Hei Lou Lan and Dong Fang Yu Liang's personal grudge ended in Hei Lou Lan's victory.

"This young man, Dong Fang Yu Liang, has few flaws, except that he cares too much for his sister. In order to protect her safety, he made a portion of the troops stay at the back to protect his sister. Thus, Dong Fang army became far weaker than Hei tribe, even though they were already disadvantaged to begin with. If not for this, the first battle's victory might not have been like this. Hehehe, this is embarrassing to show you, Hei Bai."

Dong Fang Chang Fan smile lightly at this rainbow smoke.

After Hei tribe army stabilized the battle situation, they entered the camp and starting to take over captives and clean up the battlefield.

"Winning and losing is part of battle, if we failed this time, there is always next time. In my opinion, Dong Fang Yu Liang is already very outstanding. He preserved the strength of his tribe well, he did it even better than I would. His affection and protective nature towards this tribe is very precious.” Hei Bai said.

“That’s right.” Dong Fang Chang Fan’s tone was rueful: “So be it if other tribe members die, but we are all descendants of Ancestor Giant Sun. Back then when ancestor set up the Imperial Court, he had one motive, that was to weaken other tribes and preserve our bloodline. Unfortunately, even a grand existence like Giant Sun Immortal Venerable passed away when his lifespan was expended. In this world, what can truly be immortal and indestructible…”

Hei Bai did not speak, he only listened silently.

Dong Fang Chang Fan soothed his emotions, laughing softly as he stretched out his palm towards Hei Bai: “Alright, let’s get to business.”

“Yes.” Hei Bai took out a list from his storage Gu and handed it over to Dong Fang Chang Fan.

There was a great amount of content on the list, there was a huge amount of resources listed.

Dong Fang tribe lost in this Imperial Court contest, and became Hei tribe’s captive. According to Giang Sun Immortal Venerable’s rules, Dong Fang tribe could pay a certain amount of resources to redeem themselves.

Dong Fang tribe and Hei tribe were super tribes, they had more than one Gu Immortal.

The contest between two giant forces, this ‘Imperial Court contest’ was merely a game. Most importantly, these battles would weaken other tribes and expand one’s own tribe, recruiting and choosing new talents.

This grand scheme engulfing all of northern plains was naturally not created by Dong Fang tribe or Hei tribe’s Gu Immortals. It was created by one of the ten supreme invincible beings, Giant Sun Immortal Venerable.

Dong Fang Chang Fan received the list and started browsing through.

The resources on this list were not only a great amount, there were also many aspects that it touched on, like some specialty Gu worms that only Dong Fang tribe had, or some newly created Gu recipes.

But Dong Fang Chang Fan did not show any indignance, he nodded lightly and agreed: “Winner takes all, since we failed, a small price is but fair, we will go with this.”

Loser pays the price, this was the rule that Giant Sun Immortal Venerable set.

In history, there were some times when tribes were unwilling to pay this price, but they all ended up being wiped out.

But now, not a single tribe dared to violate the rule.

This was the rule of northern plains’ righteous path, if any tribe refused to obey it, they would be ostracized, and become the target of all others.

A giant light ring suddenly appeared in the night sky of the battlefield.

After the light ring stabilized, a giant light door of about 60 meters was formed.

The light shone across a thousand li, as it opened, a jade light path was formed.

From the door, a young female Gu Master walked out. She held a token as she landed before Hei Lou Lan under everyone’s gaze.

“I am the envoy, I am here to bring back Dong Fang tribe.” She said expressionlessly with a cold tone.

The two finished their business on the spot.

After checking the battle reparation, Hei Lou Lan’s brows were uplifted, he had earned a fortune! Using so much resources, he could equip more Gu Masters and especially the tribes that surrendered, after taking them in, his military strength would surge by at least fifty percent of the original!

“We will meet again.” Since the results were decided, Dong Fang Yu Liang had no lingering emotions, he bid farewell to Hei Lou Lan calmly and led his tribesmen on the light road, entering the door.

Because they absorbed a lot of tribes, Dong Fang tribe’s size expanded by thirty percent.

“How great, even if they lost, they can still hide from the blizzard inside the blessed land!”

“There’s no choice, they are a super clan, there are Gu Immortals shielding them.”

“Alright, concentrate, it is a turning point for us after submitting to Hei tribe. As long as we win a few battles, our losses would be recuperated. If we are fortunate enough to enter Imperial Court blessed land and obtain those inheritances, we would have a chance of striking it rich!”

Everyone looked at the light ring on the air as they discussed.

Fang Yuan watched this silently.

This ten year blizzard involves the entire northern plains, causing numerous homes to be destroyed and countless people to rise up from battle. It was a contest of the top predators, a game that they engage in together.

Some people immerse themselves in it and chase after fame. Some cry and grief, feeling extreme pain. As for Fang Yuan, as a person within this giant game, he would watch coldly as he make his own plans.

Hehe.

Such is life.

The law of the jungle, it is truly fantastic!

Chapter 520 - Stealing Shoes (1/2)

Chapter 520: Stealing Shoes (1/2)

Translator: ChibiGeneral Editor: ChibiGeneral

In the camp, there was silence.

On a bright red table, books were stacked highly into a pile.

At times, wind would blow through the window and carry the fragrance of the grass with it, as it flips the top few pages of the documents.

It was a bright and sunny day outside, at times, sounds of battle horses or hump wolves could be heard from far away.

This in fact, intensified the silence in the camp.

As Ma tribe's young tribe leader, Ma Ying Jie was sitting on his cushion as he lowered his head, helping his father settle the administrative matters of the alliance army.

Ever since Ma tribe unleashed a sneak attack and exterminated Fei tribe, their largest obstacle in the heroes assembly had been removed.

Thereafter, at Tian Chuan heroes assembly, Ma tribe suppressed Cheng tribe to become the alliance leader. After taking the poison vow, Ma tribe's military force rose to six hundred thousand, they were at the peak of their strength.

After that, Ma tribe ventured west, going southwest from Tian Chuan. Along the way, they found beast groups or stubborn forces to train their troops, sharpening their battle strength. Because of the continuous battles and the absorption of defeated tribes, they expanded once more and their morale was surging.

Right now, Ma tribe had arrived at mirror lake and found an equal — Song tribe alliance army.

At the moment, Ma tribe was building their first line of defense.

“Report!” At this moment, the investigative Gu Master from outside the tent reported.

Ma Ying Jie’s eyes shone with brilliance, he knew that this would definitely be some important military information, thus, he placed down his documents and called: “Come in.”

The exhausted investigative Gu Master heard the call and was about to enter, but the guard outside stopped him: “Do you know the rules? Change your shoes, don’t dirty the carpet inside.”

The investigative Gu Master apologised profusely, after changing his shoes, he entered the tent. Upon seeing Ma Ying Jie, he kneeled down on one knee: “Subordinate greets young tribe leader. I have brought important information regarding Yu Tian.”

He reported a summary of the events that happened, and after Ma Ying Jie made some inquiries, about fifteen minutes later, he left.

“Hei tribe defeated Dong Fang tribe, that is the first crucial victory they had.” Ma Ying Jie’s heart was slightly heavy.

The Imperial Court contest had occurred for many times, at his level, he was already clear of the rules of this game.

He knew the importance of victory, after Hei tribe defeated Dong Fang tribe, they would receive a huge amount of compensation. These compensation would include Dong Fang tribe’s newest Gu recipes, as well as an ocean of battle resources. As long as they make good use of these gains, and take in the captives, Hei tribe army’s battle strength would rise by five times!

“In all the past Imperial Court contests, the first battle is the most crucial. Once the first fight is won, the foundations would be earned.

Those who lost the first fight would almost certainly be eliminated, very few could reverse the situation. Hei tribe has already won their first battle, while we Ma tribe and Song tribe are still at a stalemate…"

Fei Cai carefully came to the tent entrance, trying not to make any noise.

The two guarding Gu Masters gave him a look before diverting their gaze.

After Fei tribe was wiped out, the blur Fei Cai was chosen by Ma Ying Jie and luckily became his personal servant, avoiding the terrible fates of his tribesmen.

His daily job was to manage the shoes outside the tent.

Ma Ying Jie was a clean freak, every guest that entered his tent would need to change their shoes, so as to not dirty his elegant and beautiful carpet.

After every guest wears the shoes provided, Fei Cai would need to wash it before placing it back in.

But this time, it was different.

Fei Cai held the shoes worn by the investigative Gu Master and hesitated for a moment before stuffing the other pair of shoes in front of his chest.

No one noticed this tiny action of his, Fei Cai managed to leave without any problems, and after ten tents, he came to the water pond.

He squatted beside the pond as he started washing the worn shoes, he was extremely focused and did not even notice that there was one person behind him.

"Hey, big dummy, why are you so serious in washing shoes!" A small hand patted Fei Cai's shoulders roughly.

Fei Cai was shocked, turning around, he saw a girl that resembled jade with pinkish skin, and a pair of crystal clear eyes. It was Zhao Lian Yun.

Zhao Lian Yun used her ‘tiger-wolf-sheep’ analogy and conceived Zhao tribe leader to leave, after some hurdles, they arrived at Ma tribe camp without casualties, and was welcomed by Ma tribe leader.

Zhao tribe managed to join Ma tribe army and was highly regarded by Ma tribe higher-ups and received warm hospitality.

“It is you, Lady Xiao Yun.” Fei Cai saw Zhao Lian Yun and showed an innocent smile. After his father was killed, he sunk into endless grief. By chance, he became Ma Ying Jie’s personal servant, and was ostracized by the old servants, thus he did not have a single friend.

After Zhao Lian Yun made fun of him many times, but he acknowledged her as his only friend. Thus when he saw her, he was overjoyed.

“Lady Xiao Yun, I have something for you.” Fei Cai lowered his volume, moving his head towards Zhao Lian Yun’s ears.

Zhao Lian Yun pushed his head away, muttering unhappily: “Hey blockhead, don’t come so close, do you know that there should be prudency between sexes.”

Fei Cai almost fell into the water after being pushed, but he did not mind it, he secretly pulled his shirt and exposed the shoes that he were hiding, asking as if he was looking for praise: “Look, what is this?”

Zhao Lian Yun gave him a look of disdain: “A pair of stinky shoes, they’ve obviously been worn before. Stupid blockhead, why are you so dumb, you actually gave me something like this. It doesn’t even fit me, and I wouldn’t wear this pair of stinky shoes anyway!”

Fei Cai said: “Lady Xiao Yun, didn’t you say you were lacking primeval stones earlier. This pair of shoes is exquisite and beautiful, we can sell it in the black market and exchange it for primeval stones.”

Zhao Lian Yun’s brows lifted, looking at Fei Cai in another light: “Oh wow, blockhead, you actually thought of abusing your position and smuggling public property? Amazing, I never thought you would think of this. But how much can this pair of shoes sell for? My daily pocket money is ten times of the shoes. I appreciate it, but you should sell it. Change your tattered and dirty clothes."

Fei Cai rubbed his nose, shaking his head: "No need, my clothes are still wearable. Actually, I did not think of this. Those old servants always do this, since there is a large number of shoes constantly worn by different Gu Masters, and lord young tribe leader loves cleanliness so much, he always changes the shoes together at set intervals."

Zhao Lian Yun nodded.

Snakes and rats have their own way of living. Servants might have low statuses, but they also have their own way of living.

Especially someone like Fei Cai, although he is a servant and lost his freedom, he got close to Ma Ying Jie and was most likely the first person to receive information from Ma tribe higher-ups.

Zhao tribe had entered Ma tribe's army, Zhao Lian Yun purposely got close to Fei Cai because she also had the intentions of gathering intel.

At this time, a commotion could be heard.

"Where is Fei Cai? Get out here now!"

"Fei Cai, you're in trouble now, you dared to take young tribe leader's shoes."

"Young tribe leader wanted to walk around the camp, but realized his shoes were gone. Fei Cai, you are too daring, you are unforgivable!"

A bunch of old servants shouted arrogantly, coming out of the entrance as they searched for Fei Cai's whereabouts.

Fei cai's expression paled: "Oh no, I have been discovered. Lady Xiao Yun, quickly leave, this has nothing to do with you. I cannot implicate you, I will go ask for forgiveness from young tribe leader."

"Forgiveness my ass!" Zhao Lian Yun shouted, her expression turning ugly: “You fool, you have been plotted against and you don’t even know it! Quickly follow me and run.”

“Ah?” Fei Cai had no idea what’s going on, but as Zhao Lian Yun pulled him, they entered a narrow alley.

“Damn it, this path has been blocked off.” Zhao Lian Yun relied on her familiarity of the area and brought Fei Cai around, finding four exits, but three were blocked.

“Lady Xiao Yun, quickly go, it will be too late otherwise!” Fei Cai was getting dizzy from moving around, he had lost his sense of direction. He was anxious as he did not want to get his only friend into trouble.

Zhao Lian Yun stomped her feet in anger, howling in her heart: “Was it easy for me to find an insider to provide information?! In this day and age, where can I find such a dummy like Fei Cai? These old servants are all shrewd snakes, they will request for money when I want a bit of information, and they would even give half-truth information. Hmph! They are jealous of this newcomer Fei Cai and wants to get rid of him. As expected, any place with humans will have conflicts, and thus schemes. No way! I cannot take this lying down, you are courting death if you want to harm my informant!”

Zhao Lian Yun’s expression was full of uncertainty as she tried her best to think of a solution, while the old servants’ voices could be heard.

“He’s not here, I’ve searched the water pond, he’s not there either!”

“Did he leave?”

“How can that be, we were following him, I’m sure he came here.”

“We have not searched there yet, go.”

Hearing the old servants’ footsteps, Zhao Lian Yun thought of a solution amidst the anxiety.

“Big dummy, you are truly lucky, I just bought some silk from the market.” Zhao Lian Yun said as she took out some high grade silk from her pockets.

This silk was meant to be made into clothes for her.

“Big dummy, listen to my instructions and do as I say, this might benefit you greatly!” Zhao Lian Yun placed the silk into Fei Cai’s hands.

“Ah?” Fei Cai was dumbstruck.

Zhao Lian Yun quickly told him about her plans.

After a dozen breaths’ time, Fei Cai walked out and was discovered by the servants.

They were overjoyed, encircling him as Fei Cai clenched his fists, beating them to a pulp like he was crazy.

“He’s revolting, revolting, this dog slave dared to attack us seniors!”

“Fei Cai, you are in huge trouble, young tribe leader is looking for you, we came to arrest you but you dared to resist!”

Fei Cai shouted: “Young tribe leader is looking for me, I will go on my own. Don’t touch me with your filthy hands you lowly scum!”

Chapter 521 - Stealing Shoes (2/2)

Chapter 521: Stealing Shoes (2/2)

Translator: ChibiGeneral Editor: ChibiGeneral

The slaves were old while Fei Cai was acting like a crazed man; for the moment, the slaves could only surround Fei Cai without daring to go forward.

Fei Cai stared with wide, furious eyes as he kicked an old slave in front of him: “Filthy bastard, I am going to pay respects to young tribe leader, don’t block my way.”

The old slaves felt ashamed and furious, sinister glint flashed past their eyes but they still did not dare to go forward.

They had already noticed a bulge in Fei Cai’s clothes. Many sneered in disdain in their hearts: ‘ This stupid kid really has the courage to steal! It doesn’t matter if he stole shoes, but he actually stole the young tribe leader’s shoes, hahaha, his luck is truly bad. I originally wanted him to be relocated to cleaning the latrine, but now this kid might even lose his little life. Serves him right! Is it so easy to become young tribe leader’s personal servant?’

Fei Cai walked towards young tribe leader’s tent while being surrounded by the old slaves.

The two Gu Masters guarding the tent saw Fei Cai and looked at him as if he was a dead person.

Ma Ying Jie stood at the entrance of the tent with a solemn expression. He had been tired of handling the various affairs and wanted to take a walk outside, but he found that his shoes had disappeared.

He called for his old personal servant, and the old slave told him the shoes were very possibly stolen by the new young slave to possibly sell them for money. The old slave also informed Ma Ying Jie that this was not the first time Fei Cai had stolen.

Ma Ying Jie was naturally furious. He had never expected that his kindness would bring in a thief.

Fei Cai was extremely anxious with panic already filling his mind, but he firmly remembered Zhao Lian Yun's instructions, and walked towards Ma Ying Jie with his head high like a valiant hero.

Ma Ying Jie was secretly amazed at this sight.

Those old slaves that were following Fei Cai to keep an eye on him, instead looked like they were escorting him. More importantly, Fei Cai did not appear panicked, was it not him who stole the shoes?

Unwittingly, the fury in Ma Ying Jie was replaced by curiosity and doubts.

"Subordinate greets young tribe leader." Fei Cai kneeled on the ground and greeted with a clear voice.

Ma Ying Jie looked at Fei Cai and shouted in an displeased voice: "My shoes, did you steal them?"

"I would never dare to steal lord's shoes even if I had a hundred guts." Fei Cai denied flatly.

"He is lying, his clothes are bulging, he has something there, we will know once we look at it!" The old slaves immediately shouted from behind.

Fei Cai snorted and opened his shirt, revealing a ball of snowy-white, high grade silk.

He carefully took out the silk and opened it, revealing the shoes inside.

Ma Ying Jie looked at this pair of shoes and knew it was the pair which he wore, and he couldn't help but coldly smiled: "Great, great, the proof is here, a thief having such confidence is really hard to come by."

"I implore young tribe leader to investigate clearly." Fei Cai did not refute and placed the shoes on the ground respectfully. He then placed his forehead on the ground like he was willing to take on any punishment.

"Lord young tribe leader, there is clear evidence, please punish this vile bastard fiercely!"

"Yes, he actually dared to steal young tribe leader's shoes. He might steal many more things later on."

"He is such a thief, we should just cut off his hands!"

The old slaves continued to speak extremely sinister words; Fei Cai's heart trembled but remembering Zhao Lian Yun's words, he did not retort.

This scene caused Ma Ying Jie to be somewhat interested.

Killing a slave was nothing, but Ma Ying Jie had always praised himself as 'wise and benevolent' to restrict himself so that when he took over the tribe in the future, he could become a wise ruler of the generation.

Especially now that Ma tribe had become the head of a huge army, their every move was being paid attention to by others. Rashly killing a slave just because of a small matter like stealing shoes, would it not be spread as brutal?

Ma Ying Jie had such misgivings in his heart.

A good reputation was easy to build but difficult to maintain.

Thereupon, he asked: "I have always dealt with things fairly. Fei Cai, I will give you a chance to explain yourself."

Fei Cai immediately let out a breath of relief, he had been waiting for these words just like Zhao Lian Yun instructed him. This gave him a huge confidence and he decided he would reply exactly according to Zhao Lian Yun's instructions.

"My father died because of the internal strife in the tribe, so young tribe leader obliterating Fei tribe can be said to have taken revenge for me. Young tribe leader is so wise and benevolent, how could I do a thing like returning benevolence with enmity?"

When Ma Ying Jie heard the words 'wise and benevolent', his mood immediately took a turn for the better as he asked in a gentle voice: "Hmm, then do you have some ulterior motives?"

Fei Cai, however, shook his head: "No ulterior motives, it is just that I wanted to repay young tribe leader. But what can I do? I am only a mortal, I have no ways to break through the enemy defense lines for young tribe leader. I am very stupid, I cannot bring forward any plans to young tribe leader. I am only your personal servant who can only clean shoes and place them properly. I thought in young tribe leader's place — these shoes have been put outside for so long that young tribe leader's feet might become cold when you wear them, right? So I used all my savings to buy this real silk to cover young tribe leader's shoes and held it in my clothes. With this, young tribe leader won't feel cold when you wear them."

"Eh? So it was like that!" Ma Ying Jie was greatly surprised.

He was obsessed with cleanliness and if Fei Cai had directly held the shoes in his clothes, he would instead be disgusted.

But covering the shoes with silk was different.

Moreover this was a genuine high grade silk. There should not be anyone who used such materials to cover shoes, right?

'This Fei Cai is really a good servant, he is actually so considerate.' Ma Ying Jie's thoughts moved and the gaze he looked at Fei Cai quietly changed.

If what Fei Cai said was true, his devotion was really overwhelming!

At this moment, Fei Cai suddenly kowtowed: "Young tribe leader, I have sinned!”

“Eh? What sin have you committed?” Ma Ying Jie looked at Fei Cai with a clear smile on his face.

Fei Cai replied: “I only thought of keeping the shoes warm for young tribe leader, but forgot it would be extremely inconvenient for you when you go out. I have sinned, please punish me!”

Ma Ying Jie heaved a sigh: “It is not like I only have one pair of shoes, but because I saw that the pair I usually wore had disappeared, I called you over. It is fortunate, I nearly blamed my loyal servant.”

“Lord young tribe leader, don’t listen to his words!”

“Lord young tribe leader, this kid is deceiving you, he is very crafty and is lying to you!!”

The old slaves experienced a reversal of fortune when they saw the normally stupid Fei Cai speak with such a glib tongue, and thus they began to hurriedly shout.

Fei Cai spoke again at this moment: “Young tribe leader, please inspect clearly. There is indeed a matter of stealing shoes, but I have never done it. Instead, it was these old slaves who did it many times. After I was appointed to this post, these old slaves incited me many times, but I never listened, thus they resent me. I am not afraid of being investigated and also not afraid of punishment. I earnestly request young tribe leader to investigate clearly and give me justice!”

Fei Cai was naturally not afraid of investigation as this was the first time he had stolen shoes!

He had heard the old slaves ‘carelessly’ speaking that a pair of the finest shoes could sell for a high price.

Fei Cai was ignorant; he had followed the young tribe leader for so long but had not paid attention to the look of the shoes young tribe leader wore, and thus was easily plotted against by the old slaves.

Fortunately, he met a crucial person during the crucial time. Zhao Lian Yun became his savior, and under her instructions, Fei Cai made a comeback and averted danger.

When the old slaves heard the request for investigation, their face turned as pale as paper.

Gu Masters had plenty of methods and could easily get to the bottom of this trivial affair.

These old slaves were already regretting their actions, never having expected for them to be the ones landing in deep trouble!

Ma Ying Jie noticed the change in the expressions of the old slaves, and became seventy-eighty percent convinced in Fei Cai. But since his resolve was to become a ‘wise ruler’, he naturally could not rashly decide based on his thoughts.

Immediately, he summoned an investigative Gu Master and commanded him to get to the bottom of this affair.

Receiving Ma Ying Jie’s personal order, the investigative Gu Master investigated enthusiastically. In only five minutes of time, the truth of the matter was brought to light.

As the facts were disclosed, the old slaves kneeled on the ground and began weeping and howling with their bodies trembling in fear, asking the young tribe leader to forgive them.

Ma Ying Jie snorted: “Fawning upon your superiors and bullying your subordinates, you slaves actually dared to deceive me! You should all be put to death, but considering the many years you have served me, and that some of you even having served me since I was a child and also served my subordinates, I will forgive your cheap lives and send you to the supply camp to serve my army. Clean the faeces and latrine!”

“Thank you young tribe leader for showing mercy!” The old slaves kowtowed like they were pounding garlic, extremely thankful for this.

“As for you…” Ma Ying Jie looked at Fei Cai and smiled playfully, “You dared to steal my shoes, you truly are extremely daring! From now on, you shall be punished to be the head of the slaves and redeem yourself by serving me properly!”

Fei Cai was stumped for a long time before he came to his senses; Ma Ying Jie’s punishment was actually a promotion!

He immediately kowtowed and expressed his thanks.

Ma Ying Jie laughed heartily and waved his hand: “Alright, now get lost, think properly on the ways to serve me!”

“Yes, my lord.” Fei Cai left with a dazed expression the whole way.

Only after a long while did he become clear, he had profited from the disaster and became the head of the slaves!

“This is all thanks to Lady Xiao Yun… ah, right, Lady Xiao Yun told me to report to her quickly if everything went alright.” Fei Cai shook his head and promptly change direction towards the secret place.

“What, you actually became the head of the slaves?” Zhao Lian Yun’s eyes involuntarily widened when she heard this news, and looked at Fei Cai with surprise.

Her plan might have been ingenious but also carried risks in that it depended completely on Ma Ying Jie’s mood.

If Ma Ying Jie was in a bad mood, he would only need to issue a death command and Fei Cai would be done for. But clearly, this big dummy was quite lucky and not only were there no accidents, he even got appointed as the head of the slaves.

ChibiGeneral ChibiGeneral Yes that was quite lucky.

Chapter 522 - Rank Five Amplify Effect Gu

Chapter 522: Rank Five Amplify Effect Gu

Although servants were servants, the one tasked to take care of Ma tribe's young tribe leader was definitely a crucial person that was closely related to the tribe in many ways. Having such a role, if the low rank Gu Masters want to find out information about the higher-ups, they would need to go through the servant leader.

"What a huge profit, he became the servant leader, I am truly a genius!" Zhao Lian Yun laughed furiously in her heart, she did not waste her efforts after all.

She stared at Fei Cai with shining eyes, saying gently: "Big dummy, after you become the servant leader, you have to work hard."

Fei Cai shuddered at once, replying truthfully: "Lady Xiao Yun, I don't know why, but that tone of yours made me really nervous."

Zhao Lian Yun immediately changed her expression, kicking Fei Cai's leg as she screamed: "You idiot, now that you are the servant leader, your situation is more precarious than before. I wonder how many people will target you, and among them, there might even be vile and evil Gu Masters."

Fei Cai was shocked: "Then what should I do?"

"Hmph, you're lucky to have a friend like me. As long as you listen to what I say, I assure you, you will live blissfully." Zhao Lian Yun stretched out her hand, wanting to pat Fei Cai's shoulders, but found out that she was too short.

She immediately opened her mouth: "Quick, squat down now."

Fei Cai squatted down obediently, and Zhao Lian Yun succeeded in patting his shoulder, she nodded her tiny head in satisfaction, speaking in an old and experienced tone: “Do you know what to do next?”

Fei Cai naturally shook his head.

“Hmph, you idiot.” Zhao Lian Yun snorted: “Since you are the servant leader now, and those old servants have already been sent away, you have to recruit new subordinates first. Otherwise, how can you handle everything alone?”

“Oh? You are extremely right!” Fei Cai realized at once, nodding in agreement.

Zhao Lian Yun snorted again: “But just this is not enough. You need to learn about the young tribe leader’s likes, dislikes, and lifestyle habits. You have to ask those old servants for these information.”

“What? Ask them? Will they tell me?” Fei Cai stared with wide opened eyes.

Zhao Lian Yun snickered: “You are now the servant leader, your status is different already. They are the lowest of slaves, I’m sure they are afraid of you taking revenge now. If you ask them, they are sure to tell you everything. Of course, if they do not know what is good for them, I have my ways of making them spill everything obediently!”

“Oh.”

Zhao Lian Yun looked at Fei Cai’s blank expression and rolled her eyes uncontrollably.

Her thoughts had already drifted far away: ‘I am not a person of this world, hmph, there are simply too many ways to make these stinking men talk. As long as we learn about Ma Ying Jie’s habits and please him accordingly, Fei Cai’s current position would definitely be stable. Hehe…’

Cao Fu, Hei tribe camp.

All sorts of tents and Gu houses covered the wide grassland, as tribe flags fluttered in the wind, large numbers of Gu Masters entered and exited. If one looked from above, they would resemble a nest of ants.

In the supply camp, Fang Yuan held the east window Gu as he checked the resources silently.

The female Gu Master in charge of attending to him stayed focused as she stood at one side, waiting for Fang Yuan to make his decision at any moment.

Ever since they received Dong Fang tribe's reparations, the resources that could be exchanged for using battle merits had increased by more than ten times.

Of course, among these resources, not all of them were the compensation from war, other than Hei tribe's previous accumulation, there were also the resources offered by tribes who surrendered and joined the Hei tribe alliance army.

Just a few days ago, Hei Lou Lan organised another alliance meeting, and ordered the newly joined tribe leaders to make the poison vow.

To prevent the good things from being exchanged by others, once the resources were collated, Fang Yuan entered the supply camp at once.

Even Shadow Sword Expert and others, after they joined Hei tribe army, could not affect Fang Yuan's status of being second to only Hei Lou Lan.

Fang Yuan had such authority, the others definitely had issues with it, but no one dared to reprimand him in public.

"Oh? There's a rank four self-reliance Gu?" Fang Yuan's heart was moved, among these resources, he found the Gu that he had greatly desired.

Self-reliance Gu was rather precious, Fang Yuan had a rank three version of it in Southern Border, but after coming to Northern Plains, it was suppressed to rank two. Fang Yuan did not have the relevant Gu recipe, he could not advance it further.

Earlier, he had found a self-reliance Gu in Hei tribe's resources, but it was rank two. Without a choice, he planned to collect the Gu recipe and use these two Gu as the foundation to refine the higher rank Gu.

But this way, it would take eons for him to get a high rank self-reliance Gu. If his luck was bad and he failed the refinement several times, the duration would be prolonged further.

Now, he found this rank four self-reliance Gu, without doubt, he had to get it!

Other than rank four self-reliance Gu, he also found the rank four charging crash Gu. But he had already bought the rank three vertical charge and horizontal crash Gu earlier, and had succeeded in refining them into a rank four charging crash Gu.

Diverting his attention from charging crash Gu, Fang Yuan found several good things, especially Dong Fang tribe's unique Gu worms.

Even with his five hundred years of experience, Fang Yuan was still very interested upon seeing these things.

What attracted him the most was the refine essence spirit Gu.

If it was categorised, this should be a healing Gu worm.

Refine essence spirit Gu could convert the essence of a Gu Master's physical flesh into a mysterious form of energy that could nurture and heal the soul.

There were many Gu worms that could heal the soul, but this refine essence spirit Gu was far superior to its peers. Dong Fang Yu Liang had such a Gu worm, and it was a huge support to his wisdom path deductions.

As for Fang Yuan, this Gu suited him even more.

Different from Dong Fang Yu Liang, Fang Yuan was a dual enslavement and strength path cultivator, his body was strong and his mind was sharp, his soul often felt weakness and exhaustion from commanding the beast groups. The refine essence spirit Gu could be the perfect bridge between his two paths!

Among the resources, other than refine essence spirit Gu, there was also the recipe for it, Fang Yuan took them all.

According to rumors, this Gu recipe was especially created by Dong Fang tribe's Gu Immortal Dong Fang Chang Fan in order to cultivate wisdom path. This meant that Dong Fang tribe had much greater attainments in wisdom path than others.

After Fang Yuan obtains this recipe, as well as the refine essence spirit Gu, it would be the same as obtaining Dong Fang tribe's experimental results for himself.

Gu worms only need one thought from the Gu Master to self-detonate. If this was during normal times, it would not be so easy for Fang Yuan to obtain refine essence spirit Gu.

The Imperial Court competition every ten years was not only a purification and refinement process to weed out the weak, it also assisted in the interactions between all the large forces.

The way of Gu originated from the Immemorial Antiquity era, and Ren Zu was the first Gu Master who used Gu worms. After that, there was the Remote Antiquity era, Olden Antiquity era, Medieval Antiquity era, followed by the Late Antiquity era.

Until today, the way of Gu prospered, in fact it was blooming all over the world, countless paths were created from all the eras like ripples in the river of time, numerous paths flourished at times while vanishing at others.

But because of the harsh living environment, the concept of trading was not very popular with people, all the large forces liked to do their own research and treasured their findings, keeping it from others.

Back then, one of the invincible venerables, Giant Sun, felt this and set up this huge arena. Because of the battle reparations, the Huang Jin family could pass on their learning throughout the ages, grasping the overlord position of Northern Plains throughout history without declining.

After countless Imperial Court battles, Northern Plains became the publicly acclaimed strongest region out of the five in terms of fighting strength.

“But if we look at total power, Central Continent is the strongest, followed by Northern Plains.” Fang Yuan had his previous life’s memories, he understood clearly the strength of the five regions.

During the battle of the five regions, Northern Plains was the region which resisted Central Continent most fiercely. The other three regions, although having the same terrain advantage as Northern Plains, were suppressed fiercely by Central Continent.

Only Northern Plains managed to organise troops to fight back, invading Central Continent in return.

“Northern Plains has such great strength all thanks to Giant Sun Immortal Venerable’s setup. Because he used battles and war, while restricting it to a certain level, it allowed Northern Plains to hone the greatest fighting strength. Unfortunately, his plans were still too restricted, he only cared about his bloodline’s benefits. In contrast, Central Continent was strong due to their systemic reforms, it was an advantage that stemmed from their core.”

Fang Yuan came from Earth, he had a unique perspective, together with his five hundred years of experience, he had a clear understanding towards the true nature of society.

“Eh, there are over a dozen amplify effect Gu?” Fang Yuan collected his scattered thoughts as he continued looking at the list, finding a new surprise.

Amplify effect Gu was from the rule path, it was used to supplement other Gu worms, to amplify the effects of the chosen Gu worm.

As for the amplification level, it would depend on the rank of the amplify effect Gu. The higher the rank, the greater the effect. Of course, the drawback was that the Gu Master’s primeval essence expenditure would be relatively higher.

Amplify effect Gu was very popular among Gu Masters, because it could be used in any path.

Fire path Gu Masters could use it, water path Gu Masters could use it, and for Fang Yuan, both his enslavement and strength paths could use amplify effect Gu.

Among Hei tribe's resources, there was only one rank five amplify effect Gu! There were also one rank four, three rank three, and the rest of the amplify effect Gu were rank two.

Fang Yuan had to pick the best one, he chose the rank five amplify effect Gu, it would boost the effectiveness of a Gu worm by five times!

But this way, a new problem occurred.

“Lord Wolf King, you want to take so many Gu, your battle merits might not be enough…” The female Gu Master in charge reminded him as she chose her words carefully.

“Ah, I know. After all one of the rank five Gu is amplify effect Gu. That refine essence spirit Gu is also Dong Fang tribe's specialty Gu worm.” Fang Yuan's words were very understanding and accommodating.

But his next sentence was not like this: “Never mind if I do not have enough battle merits, just credit another five hundred thousand.”

“Ah?” The female Gu Master was shocked, she carefully said: “Lord, you still owe around three hundred thousand of the previous five hundred thousand battle merits you borrowed. According to the rules, you have to pay them first before borrowing again.”

Fang Yuan raised his brows, saying nonchalantly: “So what, rules are made by men, since they can be made, they can be altered. I'll borrow another five hundred thousand, no, eight hundred thousand! I will explain to Hei Lou Lan personally, now give me the goods!”

Chapter 523 - Tai Bai Yun Sheng

Chapter 523: Tai Bai Yun Sheng

Translator: ChibiGeneral Editor: ChibiGeneral

The weather was gradually starting to get cold and gales started blowing over the grassland causing the beast groups to become fretful.

The aura of the ten year blizzard was already manifesting.

And in the majestic northern plains, heroes were rising and vying for supremacy causing the flames of war to burn everywhere.

Mirror lake.

Ma tribe and Song tribe had officially started their battle.

Both of them had erected three to four defense lines before starting this confrontation.

In Ma tribe's main tent, Ma tribe leader Ma Shang Feng was in the main seat looking with a heavy gaze at Song tribe's dense battle formation that was surging battle intent; Ma tribe's military force was stronger than theirs, but it would not be easy getting the victory.

"Lord alliance leader, please send me out to challenge enemy general and raise our army's prestige!"

"Alliance leader, Fei Sheng requests to be sent to battle."

"The first battle belongs to me, no one shall compete with me!"

Gu Masters were very impatient and eager as they requested to be sent to battle one after another, Ma Shang Feng looked around him before hesitating at Fei Sheng and Cheng Hu.

The two were both rank four Gu Masters. Fei Sheng cultivated wood path and had been taken in by Ma tribe after they annexed Fei tribe. Cheng Hu cultivation transformation path and came from Cheng tribe. Cheng tribe was subjugated by Ma tribe during heroes assembly and was now the second most influential force in Ma tribe army.

Ma Shang Feng pondered and then smiled towards Cheng Hu: “Cheng Hu, you shall go first and stimulate my army’s morale.”

Cheng Hu was overjoyed as he hurriedly bowed and rushed towards the frontline.

“Hah, I am Cheng Hu, who dares to approach their death?” Cheng Hu challenged loudly.

“Arrogant! Let me Su Yi teach you a lesson!” A rank four expert flew out of Song tribe army.

Cheng Hu did not say anything else but directly pounced towards the other person.

Bam bam bam…

The two were incomparably valiant and attacked with grand momentum. For a moment, the stronger and the weaker side could not be determined; the two continued to exchange moves, sending rocks, grass and mud flying around in their battle ring.

The two armies concentrated on the battle with all their attention.

Lower ranked Gu Masters felt their heart shaking, while the upper ranked Gu Master experts were fired up.

Northern plains was filled with many brave heroes and the blood of warriors permeated the bones of their Gu Master!

“Alliance leader, Fei Sheng requests to be sent to battle!” Fei Sheng shouted with a fierce glint in his eyes. He was a newly subjugated person and was filled with enthusiasm to show his loyalty.

Ma Shang Feng nodded with a smile.

Fei Sheng went to the battlefield and Song tribe army also sent their expert to battle him.

The two had just exchanged three moves when at the other battle ring, Cheng Hu suddenly roared, his whole body giving off dazzling orange light.

After the orange light dispersed, he had unexpectedly transformed into a striped tiger king, the size of an elephant!

Cheng Hu was a transformation path Gu Master and could change parts of his body into a tiger tail, tiger claws, tiger skin and so on. The complete transformation was a killer move!

This was also the superiority of transformation path — every transformation path Gu Master possessed at least one killer move as long as they collected the respective Gu worms!

Su Yi turned pale with fright and started to retreat in panic.

The tiger king pounced on him; Su Yi frantically activated his movement Gu and narrowly dodged this attack.

The tiger king swung his tail without turning around; the tail lashed through the air like a steel whip, producing an explosive sound through the air.

Su Yi quickly activated his defense Gu which created a light barrier over his whole body.

But the tiger whip was very powerful and as it fell on the light barrier, the barrier was broken in an instant.

The defense Gu died and Su Yi spurted out a large mouthful of blood due to the backlash. He hurriedly tried to retreat, but it was too late.

An intense bloody wind pounced on his face and the next moment he only saw a huge tiger mouth shrouding over his head.

Crack!

The tiger king directly bit apart Su Yi's head.

Cheng Hu won, obtaining the first victory for Ma tribe!

Song tribe's higher ups were slightly moved while Ma tribe's troops rejoiced.

'Victory! A great start means half the success! Today, my army will definitely win!' In the main tent, Ma Ying Jie clenched his fists, an extraordinary light flashing past his eyes as his spirits roused to the limit.

And on another battlefield…

In the vast battlefield, one side was shouting in high spirits with their banners fluttering grandly in the air. While the other side's army formation was shaking, their morale low and was already showing signs of defeat.

"Alliance leader Luo, the enemy's momentum is too fierce, we can't hold them back!"

"We need to retreat…"

"A commander needs to be able to judge the situation properly. Right now, Liu tribe's experts are like tigers, our army truly cannot match them."

The several higher ranked Gu Masters shouted hurriedly, all of them panicked.

Luo Bo Jun looked around him and smiled bitterly: "Retreat? Tell me, where can we still retreat to? This is already our last defense line. Sigh… forget it, since the battle with Liu Wen Wu started, which of our defense lines could hold for more than three days? They are way too strong, we might as well surrender!"

In the first battle, Luo Bo Jun was heavily injured by Liu Wen Wu, Mo Shi Kuang and others; he had yet to recover from it.

These days, Luo tribe army kept on being defeated again and again, no matter how much efforts he made, he was unable to reverse the situation. Now, as he completely realized the enormous gap between the two sides, he became disheartened and had already lost any intent to battle.

The higher ranked Gu Masters let out a sigh of relief at this. Because of poison vow, they could not easily say it, but since Luo Bo Jun himself mentioned surrendering, there was no problem.

The command to surrender was quickly spread and the battle also soon calmed down.

“Hahaha, didn’t I say it, as long as we three brothers join hands, we can rule the world!” Mo Shi Kuang laughed heartily, extremely proud of himself.

Liu Wen Wu also laughed, his heart filled with huge joy.

Liu tribe alliance had won their first battle!

Now, they would annex the enemy army, take in the captives and increase their strength before continuing forward!

…

Meng Qiu.

The leopard group hissed and growled as they fought a bloody battle with rat group.

The great army of Gu Masters of the both sides instead became a background.

Nu Er Tu held his hands behind his back with his head high; mutated leopards moved beside him, showing their dignity and prestige.

By contrast, his opponent Jiang Bao Ya – who was publicly proclaimed as one of the enslavement path masters of northern plains – was sweating greatly and was as pale as paper.

“Jiang Bao Ya, you have already lost. Do you know how you lost? Your rat group’s scale is too large, reaching six hundred and fifty thousand in numbers. Troops are valued for their quality not for their numbers, it is the same with beast groups as well. Now, quietly become a stepping stone for my name to spread in northern plains!" Nu Er Tu lightly spoke but his tranquil voice resounded within everyone's ears.

"No, I haven't lost yet, I still have my trump card!" Jiang Bao Ya let out a hysterical shout, "I will let you gain a first hand experience in my enslavement path killer move which I have never displayed before — Rat Epidemic!"

The moment he finished speaking, hundreds of thousands of rats self-destructed at the same time.

The leopard group suffered disastrous casualties in this chain explosion.

The ground slightly shook, turfs were flipped over, soil and stones splattered everywhere, and huge amount of yellow poison gas started appearing.

The surviving leopard group was covered by this poison gas, immediately becoming sickly with their movement slowed down; their battle strength had sharply fallen.

By contrast, Jiang Bao Ya's rat group moved around in this yellow poison gas without being affected.

"Hahaha, the final winner is me, Jiang Bao Ya! Young man, you want to step on my position, keep on training for five hundred years more!" Jiang Bao Ya howled with laughter.

"Hmph! I had intended to keep on hiding it, but since you want to die, don't blame me." Nu Er Tu snorted, a sinister smile appearing on his face.

He suddenly shouted: "Killer move — Leopard Dash!"

Howl!

Leopard group howled and unfolded an unmatchable mad charge.

"This?!" Jiang Bao Ya's eyes opened wide, the leopard group's battle strength had surged by over two times, furthermore their speed increased by an astonishing eight times!

Under everyone's dumbfounded look, the leopard group quickly charged out of the area covered by the yellow poison gas and breathed in fresh air, before charging forward like a terrifying tsunami, swallowing and engulfing everything!

…

Du Jiao.

A large battlefield had already ended.

Fire blazed towards the sky, the whole battlefield covered by raging inferno.

A Gu Master stood loftily in the inferno like a fire deity.

He played with the fire in his hand, changing it into all kinds of shapes as he looked at the surrounding Gu Masters with his narrow eyes and spoke, his voice appearing extremely cruel and cold in the blazing inferno: "It is your honor to be defeated by my supreme fire path. Surrender, otherwise… all of you and this lowly grass shall turn into ashes."

The surrounding Gu Masters looked dejectedly at each other.

After few breaths of time, they kneeled one after another.

"I… we… surrender…"

…

After Hei tribe obtained the first victory against Dong Fang tribe, the curtains to many large battles, that had started over Northern Plains, also fell one after another.

The defeated did not lose everything; some surrendered and some ran away choosing to side with another force. This was only the initial stage of the struggle for Imperial Court, they still had hope and chance.

The winners swallowed the weak, obtaining huge amounts of war reparations and expanding themself.

The countless corpses of beast groups, Gu Masters and ordinary mortals instead became nourishments for the grassland, and in the future would sink down under the snowy land, doomed for eternity.

Winner takes all!

After resting and reorganizing for over ten days at Cao Fu, Hei Lou Lan finished absorbing the captives, expanding his military strength by sixty percent and resumed the expedition.

This time, his target was Guan Xi.

The Gu tribe 1 army stationed there had weak military strength and thus became the optimum target for Hei Lou Lan to expand his force.

Seven days later, Hei tribe army confronted Gu tribe army.

Gu tribe suffered a huge defeat at the first battle. Gu tribe alliance leader Gu Guo Long resolutely gave the order to abandon their three defense lines without using them and retreated to their tribe's main camp.

Hei Lou Lan laughed heartily as he led his army with a crushing momentum.

But at the final battlefield, he was dumbstruck and asked his subordinates: "How is there a mountain here?"

Gu tribe army might be weak but they had their own ways. They built up a mountain by piling stones and garrisoned on the mountain, with countless traps set around the foot of the mountain. They occupied the high ground, having huge geographical advantage. Their intention to defend to the death was abundantly clear.

Hei tribe army attacked several times but were defeated every time, leaving behind large numbers of corpses.

Fang Yuan looked at the battlefield with indifference and did not use his full strength in mobilizing the wolf group, only doing it to show he was putting some effort. Adding in that there were many trees and undergrowth on the mountain, the wolf group could not show their strength properly and were instead separated and killed. Thus, the battle situation might be progressing but it was very slow.

Above all, Gu tribe army was still continuing to add in stones to the mountain, making this mountain become taller and taller.

Hei Lou Lan was furious: “Gu Guo Long is as obstinate as the rumors said. After I win, I will definitely step on him to death!”

However, the situation was still not optimistic.

Just the rocks dropped by mere mortals possessed the strength of a rank one Gu when dropped from such a height.

“If I had known this earlier, I would not have come here to chew on such a hard bone!” Hei Lou Lan had the intent to retreat, but right at this time, a person walked out of the camp.

This person held a letter as he came in front of Hei Lou Lan: “This old man Tai Bai Yun Sheng received benefactor’s letter and came to lend you a hand.”

Hei Lou Lan was joyous as he grabbed this person’s hands: “With old sir helping us, we can definitely succeed!”

Chapter 524 - Number one in prestige and merit

Chapter 524: Number one in prestige and merit

Translator: ChibiGeneral Editor: ChibiGeneral

Tai Bai Yun Sheng was tall with a strangely ancient appearance. The hair near his temples had turned white and his face was filled with deep wrinkles.

He was already over eighty but his eyes were not dim and blurred, instead had a gentle look that seemed to pity the fate of mankind along with a calmness that had seen through the secular world.

Since he was seven, he had been determined to travel the northern plains to help common people.

His life was full of turmoil, as he was frequently toyed by fate. He became an enslaved Gu Master after his tribe was annihilated, then he was betrayed by his wife and became a captive of variant men. Then in a fortuitous encounter, he obtained a time path Gu Immortal's inheritance and was rescued by his brothers when he was at the verge of death…

Now, he had already become a living legend.

Although he was a loner, he was publicly accepted as a great righteous path Gu Master. His benevolence reputation had entered the depths of northern plains' people, the level of his prestige far surpassing people like Chang Shan Yin, Hei Lou Lan and Liu Wen Wu.

Right as Hei Lou Lan was at his wit's end considering the battle situation and had the thought of retreating, Tai Bai Yun Sheng came to the camp by himself, holding a letter in his hand.

Hei Lou Lan read the letter and immediately realized the reason.

Back then, Hei tribe's supreme elder Hei Bai took a fancy to Tai Bai Yun Sheng, guiding and rescuing him many times. Now that Hei tribe army had fallen into a predicament, Hei Bai who had been secretly observing all along sent a letter to Tai Bai Yun Sheng to provide assistance.

Hei Lou Lan knew the ability of Tai Bai Yun Sheng and was thus overjoyed. He arranged a banquet that night to serve Tai Bai Yun Sheng.

On the second day, the sky had just become bright; Hei Lou Lan impatiently arranged his army formation and requested Tai Bai Yun Sheng to make his move.

Under everyone's expectant gaze, Tai Bai Yun Sheng slowly walked to the front and looked at the tall mountain in front of him.

Gu tribe was specialized in earth path and were long famous for it in northern plains. Piling stones to form a mountain, this would be an unimaginable and impossible tactics in Earth. But in this world, this mountain formed in about ten days proved nothing was impossible.

The alliance leader Gu Guo Long looked at the foot of the mountain from the summit.

When a white clothed, white hair old man walked in front of the formation, the Gu Masters around him roared in laughter and made disdainful comments, but Gu Guo Long, however, had a bad feeling in his heart.

He was well aware this mountain that they had formed by piling stones was built on many foundations constructed by his tribe's earth path Gu Masters. Other tribes might find it hard to imitate, but it was not like there were no ways to break through it.

After being defeated repeatedly for several rounds by Hei tribe army, Gu Guo Long's military force had suffered damage and his ambition of vying for supremacy had dimmed down. He pondered over this and had decided to side with Liu tribe.

Liu tribe's Liu Wen Wu was wise and benevolent, treating his people leniently and being strict to himself; his reputation was much better than Hei Lou Lan's. Several days ago, Gu Guo Long had secretly sent a letter to Liu Wen Wu express his intent to side with Liu tribe.

"Lord Liu Wen Wu has already replied and agreed to my tribe's request to seek refuge, and is leading his army to reinforce us. As long as I defend for seven more days, this predicament before us will part like clouds and allow me to see the clear sky."

Just as Gu Guo Long was inwardly encouraging himself, Tai Bai Yun Sheng slowly extended his hands.

His large palms were covered with callus and wrinkles, just like an old tree bark.

He slowly transferred his primeval essence, a weak silver light blossomed forth from his hands. The silver light was weak at first but soon turned brighter and brighter, and in a few seconds, the silver light was so dazzling that people could not look at it directly.

"Mountain as before." Tai Bai Yun Sheng slowly chanted, his voice resonating in the air.

On the summit, Gu Guo Long heard this voice and a shocked expression appeared on his face: "Oh no, he is Tai Bai Yun Sheng!"

At the very same moment, silver light burst out, transforming into a straight light pillar that directly rammed into the mountain peak.

Countless Gu Masters saw the situation turning awry and immediately activated their defense Gu or attacked to intercept the light pillar.

But the silver light disregarded all interception and shone on the mountain peak.

Both humans and beasts were unscathed, but the mountain stones below Gu tribe – regardless of how enormous or thick they were – under the silver light, were like snow under scorching sun, as they turned into nothingness in a visible speed, seemingly like they had never even existed!

As Gu tribe army lost the support under their feet, they started falling down one after another. It was a crushing defeat, countless died as they crashed down to the ground from a height of five hundred to six hundred feet.

Even if Gu tribe masters were stupid, they would become aware of their crisis at this moment.

They exclaimed in shock one after another.

“Such strength, this is Lord Tai Bai Yun Sheng’s mountain as before!”

“Heaven, why is old sir Tai Bai helping Tyrant Hei Lou Lan?”

“Lord Tai Bai Yun Sheng helped us restore our tribe’s spirit spring back then, he is our tribe’s benefactor. Now, we need to fight with him?”

The mountain was the source of Gu tribe’s army’s confidence and now it was loudly crumbling apart. But even more than that was Tai Bai Yun Sheng’s prestige that shook their will to battle.

“Hahaha, Tai Bai Yun Sheng is indeed worthy of his name; once he moves, it will be out of the ordinary.” Hei Lou Lan laughed wildly as he looked at this scene from the main tent.

Even he had not expected there to be such a hidden expert in the tribe.

But each super tribes’ supreme elders would occasionally fancy someone from demonic and righteous path’s mortal Gu Masters, they would then select these seeds to cultivate.

In case these seeds were able to become Gu Immortals, they would often be taken in by the super tribes and become their external supreme elder.

This was one of the tactics the super tribes used to preserve their position and develop themselves.

Clearly, Tai Bai Yun Sheng was a seed the rank six Gu Immortal Hei Bai thought highly of and believed he had hopes of advancing to Gu

Immortal realm.

Seeing the sorry figure of the enemy army, Hei tribe army's morale surged; many started laughing loudly and there were even more who shouted of slaughtering everyone in the enemy faction even the old and the young.

The Gu Master experts in the main tent were also excited with only Fang Yuan having a calm expression. Tai Bai Yun Sheng's appearance was already within his expectation.

In his previous life's five hundred years of memories, Tai Bai Yun Sheng had joined Hei tribe army from this point onwards and provided an enormous assistance to Hei Lou Lan.

Hei Lou Lan being able to become the winner in the end was mostly because of Tai Bai Yun Sheng.

But Tai Bai Yun Sheng had a benevolent character and during the expedition, he became deeply aware of Hei Lou Lan's savage and brutal nature. Thus, when he entered Imperial Court blessed land and advanced to Gu Immortal, he did not agree to Hei Bai's request to become Hei tribe's external supreme elder.

"Kill! Kill these bastards, they actually dared to pile stones into a mountain to make a stand!" Hei Lou Lan excitedly shouted.

Tai Bai Yun Sheng who was at the front of the troops, heard Hei Lou Lan's words and frowned; he heaved a deep sigh and did not continue to attack, instead transmitted his voice to Hei Lou Lan to persuade him: "Alliance leader, heaven care for every living thing, why the need to kill? Throughout history, the struggle for Imperial court has always been accompanied by blood dying the land and disastrous deaths. Since alliance leader wants to enter the Imperial Court, it might be better to take in Gu tribe army, I am willing to persuade them on your behalf!"

Gu tribe piled up stones to form into a mountain and used it to contend against Hei tribe, but against Tai Bai Yun Sheng, this mountain they created instead became a fatal trap to themselves.

The current situation was Hei tribe army tightly surrounding Gu tribe army.

If Tai Bai Yun Sheng just made a casual move, he could reduce Gu tribe by over half. Gu tribe would naturally not sit and wait for their death, but when the mountain was completely collapsed, they would have almost no battle strength left and their final charge would contain no threat.

However, Tai Bai Yun Sheng did not do this.

Hei Lou Lan's eyes flashed with an ominous glint, although his heart raged with killing intent, he needed to think about Tai Bai Yun Sheng's face.

Tai Bai Yun Sheng was not an ordinary Gu Master.

He was one of the extremely rare time path Gu Masters, and had rank five peak stage cultivation. His prestige in northern plains was like the sun in daytime, his influence was spread throughout the entire region.

Hei Lou Lan thought to himself before replying: "Then I shall listen to old sir, but it is too dangerous for old sir to go up the mountain alone. I will send six rank four experts to escort old sir!"

Tai Bai Yun Sheng nodded his head and climbed up the mountain under heavy protection.

He had great prestige and his benevolent reputation had spread into the depths of people; as he climbed up the mountain, the enemy troops spontaneously parted way to reveal a passage in middle.

"I did not think I would meet benefactor at such a time." Gu Guo Long laughed bitterly as he went forward and greeted.

Back then, Gu tribe's spirit spring had dried up and they were pushed aside by several large tribes. It was very dangerous for them to migrate and thus they requested Tai Bai Yun Sheng to help them. Tai Bai Yun Sheng helped them without taking any fees and became a benefactor to everyone in Gu tribe.

Under Tai Bai Yun Sheng's persuasion, although Gu Guo Long admired Liu Wen Wu – circumstances are more powerful than individuals – he had no choice but to lower his head.

Tai Bai Yun Sheng had only been on the mountain for a quarter of an hour before he descended.

When he climbed up, there were six people with him. When he descended, there were over a hundred thousand!

Evidently, Tai Bai Yun Sheng's persuasion was successful; Gu tribe army pledged allegiance to Hei Lou Lan, thus Hei tribe army's military strength increased sharply.

Tai Bai Yun Sheng changed the battle situation by himself. And with his deep prestige, he saved over a hundred thousand lives and also established great merits for Hei tribe.

On the very first day Tai Bai Yun Sheng came to Hei tribe army, he reached the top position in battle merit list. And exactly opposite to him was Fang Yuan.

Wolf King Chang Shan Yin's name was listed at the last on the battle merit list, in scarlet red color and was negative, forming a stark contrast with Tai Bai Yun Sheng's battle merit.

That very night, Hei Lou Lan sent command for a celebratory banquet and also a welcoming reception for Tai Bai Yun Sheng.

The moon was bright and stars were few; as bonfire raged high.

It was a festive scene with cheerful sounds resounding throughout the place and beautiful young girls in northern plains' clothings embroidered with gold, silver and precious jewels, danced around the bonfire.

Hei Lou Lan repeatedly toasted towards Tai Bai Yun Sheng and praised: "With old sir assisting us, all defense lines are useless!"

Tai Bai Yun Sheng had two rank five Gu that were recognized by all northern plains' people.

One was ‘mountain as before’ and another was ‘river as before’, both were time path Gu worms.

The former could restore earth, hills, mountains, mounds and valleys to their original appearance; and the latter could restore rivers, lakes, streams, springs and waterfalls back to their original appearance.

Gu Guo Long created the mountain on a land that was originally a flat grassland. Thus, under the effect of mountain as before Gu, it returned to its original form.

Gu tribe’s spirit spring had been restored to its original state by river as before Gu, being able to create primeval stones again.

In the battles between great armies, defense lines needed to be created and this usually relied on earth path Gu worms to create long and tall defense walls. These defense walls would be restored to flat grassland under the effect of mountain as before Gu. Thus Hei Lou Lan’s words ‘all defense lines are useless’ had deep reasoning behind them!

Chapter 525 - Rapid Changes and Fierce Experts

Chapter 525: Rapid Changes and Fierce Experts

Translator: ChibiGeneral Editor: ChibiGeneral

Northern plains calendar, middle of June.

It should have been summer, but the aura of ten year blizzard had already thickened. The sky would often be gloomy and cold wind blew with increasing condensed frost aura.

And the struggle for Imperial Court that covered northern plains was advancing forward like a wildfire.

At Mirror lake, Ma tribe army and Song tribe had started their battle. Ma tribe's dominance was huge and they broke through two of Song tribe's defense lines in a row.

Song tribe alliance leader Song Qing Yin led the army to counterattack and ambushed Ma tribe, causing them to give up a defense line.

But soon after, Ma tribe's enslavement master Ma Zun moved and mobilized his trump card pegasus group, surrounding and killing Song Qing Yin in the air. Song tribe army became a headless dragon, and after an internal discord caused by Ma tribe secretly, they finally crumbled apart.

Ma tribe annexed most of the tribes while some remnants managed to escape to all directions.

In this battle, one of the few flying masters of northern plains, rank five initial stage Water Fairy Song Qing Yin died and became a stepping stone for enslavement path master Ma Zun’s fame.

The strength Ma Zun displayed shocked the people. Faintly, people were already calling him northern plains’ number one enslavement path master.

——————-

Meng Qiu.

Nu Er Tu’s battle with Jiang Bao Ya.

Nu Er Tu was originally not an enslavement path Gu Master and had switched to it midway. But the leopard group he led was unexpectedly able to overpower and defeat the veteran enslavement path master Jiang Bao Ya.

Just because of this battle achievement, Nu Er Tu rose to the ranks of enslavement path masters of northern plains; and together with Jiang Bao Ya, Yang Po Ying, Ma Zun and Chang Shan Yin, were called five beast kings.

However, although Nu Er Tu managed to become famous, the price he had to pay was very high.

Jiang Bao Ya’s counterattack had inflicted disastrous damaged to Nu Er Tu’s troops. Despite annexing the remnants of the enemy after the battle along with the war reparations, Nu Er Tu’s army’s momentum was hindered.

Rat King Jiang Bao Ya managed to escape with his life and gathered the remnant army. His original rat group of over six hundred thousand, now had less than three hundred thousand left.

But even as a defeated general, many large forces still showed interest towards him and over ten forces had already sent him an invitation letter.

—————

Du Jiao.

Ye Lui Sang was empowered by the Immortal Gu and with his formidable rank five peak stage fire path strength, he suppressed all the heroes and swept through the last obstacle, succeeding in dominating Du Jiao region.

However, just as Ye Lui army was spreading towards all directions like an unstoppable wildfire, they were pincer attacked by alliance of seven armies.

Each of the seven armies had at least over a hundred thousand troops. Although none were super tribes, they had famous Gu Master experts.

The alliance of seven armies created an aggressive momentum. Ye Lui army who had just gotten a head start and were about to continue with great momentum, fell into a perilous situation.

At the same time, Hei tribe army was also confronted by a great enemy and did not have any time to relax.

Liu tribe, Liu Wen Wu personally led his army and was pressing closer to Hei tribe every passing day!

Previously, Gu Guo Long had seeked helped from Liu Wen Wu; Liu Wen Wu was quite excited at reading the letter, knowing this was a rare opportunity. As long as Gu Guo Long's side could hold on, Liu tribe army could pincer attack Hei tribe from behind and gain the upper hand, causing Hei tribe to land in a passive situation.

But the result was that the situation changed way too fast. Liu tribe army was just halfway on their way when they heard the report of Gu tribe's defeat and submitting to Hei tribe. And the crucial character that made this possible was Tai Bai Yun Sheng.

Liu Wen Wu was shocked at this report.

A legendary character like Tai Bai Yun Sheng had actually taken the initiative to come out and help Hei Lou Lan. Obtaining this person was like adding a huge army to Hei Lou Lan's forces.

Liu Wen Wu soon realized this was the behind-the-scenes move of Hei tribe's Gu Immortal.

According to the rule Ancestor Giant Sun set, Gu Immortals could provide some help to mortals in the struggle for Imperial Court. Naturally, this type of help had its restrictions, at least the Gu Immortals absolutely could not move personally.

Whether it was the Immortal Gu on Ye Lui Sang or Tai Bai Yun Sheng who assisted Hei Lou Lan after receiving the letter, they were both Gu Immortals' pawn pieces.

Liu Wen Wu naturally also had the privilege to request help from the Gu Immortal supporting him.

Hei Lou Lan obtained Tai Bai Yun Sheng's assistance who in Liu Wen Wu's opinion was much more terrifying than Wolf King Chang Shan Yin!

Tai Bai Yun Sheng's reputation was extremely high, whether it was righteous path or demonic path, many had received his grace. If just a small portion of these people had the heart to repay gratitude, the force they could gather would be very terrifying.

Besides, once Hei tribe expanded, those scattered demonic Gu Masters who had been watching from the sidelines would see the hopes of entering the Imperial Court in Hei tribe, and would side with them of their own initiative.

And Tai Bai Yun Sheng's existence would cause them to be even more inclined to choose Hei Lou Lan.

With this, Hei tribe would continue to be stronger. And as time passed, they would throw all the other competitors behind.

"Hei Lou Lan defeated Dong Fang Yu Liang and obtained a super tribe's war reparations, this by itself is a great profit. By contrast, we might have defeated several allied armies, but they were all an alliance of large tribes, so the war reparations we received are lower than Hei tribe's. Now, Hei tribe has Tai Bai Yun Sheng, a living signboard with him, if we give him time to expand, it will be very difficult to deal with him later."

Liu Wen Wu contemplated for a while before resolutely sending a command. Liu tribe army continued along their original plan, pushing on towards Hei tribe.

Hei Lou Lan laughed heartily at this news: “Come, come!”.

He then sent the command to set up defense lines around the area.

After constructing the first defense line properly, the large army slowly moved towards Liu tribe army. At every thousand li of distance, they would stop and garrison for several days to construct another defense line.

Twelve days later, Hei tribe army moved on from their fourth defense line and travelled five hundred li before coming face to face with Liu tribe army.

The two army parted a way for the experts challenging stage.

Hei tribe’s expert Hao Ji Liu charged forward, not giving precedence to others.

Liu Wen Wu saw this and sent Pei Yan Fei.

Hao Ji Liu was at rank four upper stage and Pei Yan Fei was also the same. The two exchanged twenty moves, the situation was still neck and neck.

Hao Ji Liu’s offense surged higher and higher, causing people’s hearts to shake. While Pei Yan Fei used sharp and precise attacks, moving back and forth within the attacks, and sweeping everything before him.

As the battle continued on, both of their primeval essence were running low.

Gu Masters were not good at prolonged battled and once their primeval essence was exhausted, their battle strength would sharply fall.

“This cannot go on!” The two had similar thoughts at the same time.

Waterfall Gu!

Hao Ji Liu took the lead and pushed forward his palms; a giant waterfall fell from the air and crashed towards Pei Yan Fei with a rumbling sound.

Pei Yan Fei did not face it head on, instead using his movement Gu to soar to the sky, evading the waterfall.

Rank four golden coat Gu!

Rank four swallow wings Gu!

Rank four rainbow transformation Gu!

Killer move — Golden Rainbow Strike!

Pei Yan Fei staked it all, using his signature killer move.

At that instant, he turned into a golden rainbow and made an arc through the air as fast as lightning, cutting open the waterfall before bursting through Hao Ji Liu!

However, Hao Ji Liu turned into water after being burst; it was not his real body.

Water image Gu!

Hao Ji Liu had fought for a long time and already had the intel on Pei Yan Fei, and knew Pei Yan Fei did not have powerful detective Gu. Thus, when he sent the waterfall, he took the advantage of the giant current blocking Pei Yan Fei's line of sight to quietly use his water image Gu while his real body hid inside the waterfall. His actions were extremely secretive and most of the Gu Masters from both sides had been deceived.

Pei Yan Fei burst through the water image and immediately had warning signals going off in his heart. Without holding back, he transferred all his remaining primeval essence into his swallow wings Gu.

The two pairs of swallow wings on his back rapidly flapped and took him away from the battlefield.

Hao Ji Liu stood on the spot, his whole body soaked in water. Even though he won the battle, he was not happy. The enemy's killer move had astonishing power, this time he used water image Gu to deceive him, but what about the next time?

"Big brother, let me go out!" Pei Yan Fei returned in defeat, causing Mo Shi Kuang to fume with anger and impatiently requested to be sent to battle.

Liu Wen Wu had a smile on his face, but he did not agree.

"Third brother, no need to fret. You came forward in the previous battle, it is my turn now." An extremely tall and thin Gu Master with robust and shiny bald head stood out and patted Mo Shi Kuang's shoulder.

"Second brother!" Mo Shi Kuang helplessly shouted.

This person's name was Ouyang Bi Sang, a demonic Gu Master. In their early years, by chance encounter, he met Liu Wen Wu and Mo Shi Kuang in an inheritance site. The three combined their strength to tackle the obstacles and obtained the inheritance, and because they felt affinity with each other, they became sworn brothers.

"I am Ouyang Bi Sang, who wants to come spar with me?" Ouyang Bi Sang slowly walked towards the front of the troops and shouted in a soft voice.

Soon after, he looked at Hao Ji Liu: "If Water Demon wants to fight with me, you might as well get some rest first to recover your primeval essence."

Water Demon snickered but did not agree to the provocation: "No need to hurry, there will be many chances later on."

After saying that, he returned to the camp.

With the struggle for Imperial Court advancing to this stage, the intel on experts of every forces was widely spread.

Ouyang Bi Sang was Mo Shi Kuang's second brother, just this status alone made him someone who could not be underestimated. His performance was extremely glorious during the several large battles before.

He was a transformation path expert and the Gu Masters of this path possessed at least one killer move. With a cultivation of rank four peak stage, he was same as Mo Shi Kuang, possessing the battle strength comparable to a rank five Gu Master!

During his first battle, he had killed the enemy side's rank five alliance leader. A dazzling battle achievement like crossing realms to fight was something many people would look up to their whole lives.

Facing such an expert, Water Demon Hao Ji Liu might have small chance at victory even if he was at his peak stage. Let alone now, when his energy was already exhausted in the battle with Pei Yan Fei. A Gu Master's state did not just depend on the amount of primeval essence in their aperture.

Seeing Ouyang Bi Sang coming forward, Hei Lou Lan felt a slight headache.

In contrast to Liu Wen Wu, he currently found that he lacked fierce generals beside him.

After taking in Gu tribe army, Hei tribe army now had three rank five Gu Masters – Hei Lou Lan, Tai Bai Yun Sheng and the just recently subdued Gu Guo Long.

Hei Lou Lan could not easily move because of his status as the alliance leader. Tai Bai Yun Sheng was a healing Gu Master and was not good at fighting. Gu Guo Long was a rank five earth path Gu Master but the other was at rank four peak stage; it would not conform to the rule of battle if he was sent out, and they would only be sneered upon.

He then looked at his rank four Gu Masters – Wolf King Chang Shan Yin, Water Demon Hao Ji Liu, Shadow Sword Expert Bian Si Xuan, Little Fox Commander Tang Miao Ming and Sole Blade Pan Ping.

Chang Shan Yin and Tang Miao Ming were enslavement path Gu Masters, so they could be excluded. Water Demon Hao Ji Liu had already went up, so Hei Lou Lan only had two choices left.

His gaze moved between Pan Ping and Bian Si Xuan.

Pan Ping knew he was not Ouyang Bi Sang's match by just relying on his trump card, so he looked uncomfortable. While Bian Si Xuan's face was covered with a black veil, revealing her cold and clear gaze.

Hei Lou Lan turned around towards Bian Si Xuan: "For this challenge, I will have to trouble Shadow Sword Expert to make a move."

"I can only ensure that I won't lose my life, but I can't guarantee a victory." Bian Si Xuan coldly replied.

Hei Lou Lan gave a hollow laugh, although he was alliance leader and Bian Si Xuan had taken the poison vow, Hei Lou Lan could not forcibly make Bian Si Xuan fight to the death.

Chapter 526 - Asura Ouyang, Losses to both sides

Chapter 526: Asura Ouyang, Losses to both sides

Bian Si Xuan moved to the front of the troop and without saying much, quickly started the fight with Ouyang Bi Sang.

The battle between the two attracted the close attention of countless people.

If considering reputation, Shadow Sword Expert could throw Ouyang Bi Sang several streets away. But if considering cultivation and strength, Ouyang Bi Sang was a rank four peak stage Gu Master who was able to cross a great realm and kill a rank five expert, while Shadow Sword Expert was only at rank four upper stage.

Shadow Sword Expert’s Gu worms complemented each other very well and there was no shortcomings. At the same time, she placed high importance on her movement ability.

Her figure turned into shadows and continuously circled around Ouyang Bi Sang, attacking with multiple sword shadows from time to time.

Ouyang Bi Sang stayed stationary on the spot as he defended, his body unmoving like the rocks on the shores of the sea.

The battle went on for a while, when this sworn brother of Liu Wen Wu slowly felt impatient: “If you are only of this standard, then go die!”

He gave a low shout, as great changes appeared over his whole body.

His teeth quickly grew longer and sharper like swords, and his two pairs of canine teeth protruded out of his mouth like fangs.

Green hair started growing out of his bald head. Not only on his head, the green hair grew all over his body.

His body made creaking noises and his blood flow instantly slowed down greatly. The originally tall and skinny body became even more thin, but the aura of danger coming from him grew thicker by ten times!

His eyes were no longer human eyes, but had transformed into a pair of eerie and cold green eyes, giving off a glossy jade light.

Rank five, asura zombie Gu!

This Gu was classified under the most classic zombie series of transformation path.

The series of zombie Gu were spread widely throughout the five regions. From rank two roaming zombie Gu to rank three hairy zombie Gu to rank four hopping zombie Gu till the rank five flying zombie Gu.

There were five great flying zombie Gu in the world – asura zombie, heavenly demon zombie, blood wight, nightmare zombie and plague zombie.

Many Gu Masters who did not have much lifespan left and had no lifespan Gu to increase their life, would often choose to turn into zombies to prolong their life, transforming into a monster that was neither human nor ghost.

Fang Yuan had already seen blood wight Gu before. At Qing Mao mountain, Gu Yue first generation ancestor had turned into blood wight to change his fate in defiance of heaven, but his plan was thwarted by Divine Investigator Tie Xue Leng and others.

This asura zombie Gu that Ouyang Bi Sang was using was a formidable Gu that was equally famous as blood wight Gu!

Clank clank clank…

Bian Si Xuan’s sword shadows cut at Ouyang Bi Sang’s body, but they actually produced sparks on contact, unable to injure his skin by even a fraction, only cutting several green hair.

Overlapping shadow Gu!

Bian Si Xuan’s eyes flashed with a sharp light, multiple sword shadows overlaid on top of one another to transform into an abysmally dark and extremely condensed sword.

“Now this is something!” Green light blossomed in Ouyang Bi Sang’s pupils as he looked at this sword shadow attack; he was not afraid, but instead was happy.

He stretched his right hand in a form of a claw and grabbed at the sword shadow like he was grabbing a rabbit.

“This!” Bian Si Xuan revealed shock, the sword shadow in her hand could not go an inch further.

“Gagaga…” Ouyang Bi Sang laughed in a haggard and unpleasant tone as he clenched his claw-shaped right palm.

Puff.

A soft sound echoed.

He actually forcibly burst apart the sword shadow. Bian Si Xuan quickly retreated, the shattered sword shadow burst into many sharp pieces that ruthlessly struck at Ouyang Bi Sang, inflicting several deep wounds on his body, and slashed apart the four fingers on his right hand and almost cut apart the whole right fist.

Bian Si Xuan had bitterly accumulated battle merits from several small battles before and exchanged them for overlapping shadow Gu from Hei tribe supply camp.

Under its effect, the multiple sword shadows’ offense could merge and could match the offensive prowess of a rank five attack Gu!

Ouyang Bi Sang was slashed at by the sword shadow, but he did not feel any pain. He had transformed into a zombie which caused the feeling of pain to almost disappear. At the same time, large amounts of eerie green blood flowed out of the wounds.

The wounds were so deep that one could see the bone, but they healed within just few seconds of time. New hair grew on top of it and covered it.

His broken fingers also grew again and it looked like it did not take any effort.

Bian Si Xuan's complexion turned pale white at this sight.

Ouyang Bi Sang looked hot-headed when he forcibly grabbed the sword shadow, but it was actually a psychological tactic. After he transformed into asura zombie, his defense and recovery ability were raised by several folds. Bian Si Xuan's strongest attack could not affect him in any way.

This unavoidably weakened Bian Si Xuan's will to battle severely.

Gu Master's battle strength did not only rely on the amount of primeval essence in their aperture, it also depended on their determination and mental state.

"I am an assassin, an expert at movement and infiltrating secretly. These challenges between the two army are done out in the open and facing someone head-on is not my usual style…" Ouyang Bi Sang's performance greatly weakened the battle intent in Bian Si Xuan's heart.

In the next several rounds, she kept on attacking while moving around Ouyang Bi Sang, but it was clear her attacking frequency had decreased by a lot compared to before, and she was dodging most of the time.

After exchanging ten more moves, Bian Si Xuan shouted and quickly pulled open a distance from Ouyang Bi Sang, retreating towards Hei tribe camp.

At this sight, Liu tribe army's morale rose again, while Hei tribe's morale shook and the higher ups did not have good expressions.

"Bian Si Xuan lost…"

"Is Ouyang Bi Sang really so strong? His killer move is asura transformation, having killed a rank five expert with this killer move. Now, he has only used asura zombie Gu, not even using his full strength but was still able to defeat Shadow Sword Expert!"

"Shadow Sword Expert did not have a strong will to fight, but by continuously attacking while moving around, she has exhausted a considerable amount of Ouyang Bi Sang's primeval essence. We can send another person to fight with him!"

The discussions settled and Hei tribe army sent Pan Ping to battle.

But within only a short period of time, Pan Ping seemed unable to stall further and panickedly unsheathed the scimitar on his waist and used sole blade Gu.

A cold light flashed but it was in vain.

Sole blade Gu could ignore defense but it did not work always and had a certain probability. Moreover, once this rank four sole blade Gu was activated, it needed eight hours of rest before it could be used again.

Ouyang Bi Sang got quite a shock. Despite having read relevant intel, sole blade Gu's speed was way faster than what he imagined, making him unable to react in time!

"I can't leave him alive!" Ouyang Bi Sang's killing intent surged as he pounced towards Pan Ping.

Pan Ping already knew the situation was bad the moment he saw his attack did not succeed, so he hurriedly retreated. Ouyang Bi Sang pursued him closely, Hei tribe quickly sent three rank four experts to block Ouyang Bi Sang and rescue Pan Ping.

The three rank four experts surrounded Ouyang Bi Sang and attacked fiercely. Ouyang Bi Sang was about to use his killer move — Asura Transformation, when Mo Shi Kuang who was unable to endure anymore charged out of the main tent and shouted: "Second brother, I will lend you a hand!!"

Ouyang Bi Sang, alone, put Hei tribe army under great pressure, now adding Mo Shi Kuang on top of that and the situation turned way worse.

“Third brother, no need to interfere, what is the use even if there are more people? Look at my asura transformation!” Ouyang Bi Sang furiously roared under the three rank four experts’ violent attacks, and used his killer move.

His aura suddenly increased sharply, his body grew bigger, becoming a giant of over ten feet.

The muscles in his whole body inflated like a balloon and quickly transforming into absurd rock-like bulging muscles. And under his pair of arms, two new pairs of arms grew out.

His body was completely dark-green. HIs feet ripped apart the leather boots and stepped on the grassland, creating a deep crater.

The protruding fangs turned dark brown and a third vertical eye opened from the center of his forehead!

Howl!

Ouyang Bi Sang roared, the berserk sound shaking the whole battlefield.

The three Hei tribe’s Gu Masters felt their momentum slowed down.

Ouyang Bi Sang waved his fist like swatting a fly, sending one flying far away.

The other two attacked violently, golden blades striking rapidly like thunder, but Ouyang Bi Sang took it forcibly; his enormous body not even budging.

“Die!” He attacked with all six hands – punching, swatting, grabbing, holding – with extremely fierce power. And all his hands moved smoothly, not hindering each other in the slightest.

The two rank four could not take it head on, and started retreating.

Ouyang Bi Sang was not satisfied, his every punch produced a sonic boom with power that caused people to pale.

One rank four Gu Master lasted only a short while under this crazed offense and was smashed into blood paste; while another Gu Master was grabbed by Ouyang Bi Sang.

“Don’t kill me, don’t kil—!”

His pleadings came to an end abruptly, blood started flowing rapidly out of his seven facial orifices, his ribs were crushed and his body started deflating – Ouyang Bi Sang had crushed him to death with two hands.

“So violent!” Cunning Gentleman Sun Shi Han involuntarily cried out.

Hei Lou Lan’s expressed turned extremely unsightly, and Tai Bai Yun Sheng also had a solemn expression.

Liu tribe’s army started cheering loudly while Hei tribe’s Gu Masters were in disorder, their morale falling down to the abyss.

Liu Wen Wu laughed at this sight before waving his hand: “Commence the battle! All troops, charge!”

Immediately, Liu tribe army rushed forward like a flood with the gates opened, bringing a momentum that wanted to drown the world! Mo Shi Kuang, Pei Yan Fei and others were leading.

Hei Lou Lan gnashed his teeth and also sent the command for the army to prepare to receive the attack.

The large battle unfolded with all kinds of shouts and cries resounding through the battlefield.

During the intense battle, Liu tribe’s several great experts rampaged everywhere, causing Hei Lou Lan and the higher-ups to fall into disadvantage at the very start.

But at the low level, Hei tribe was actually winning. Under Fang Yuan’s control, the wolf group started wildly slaughtering Liu tribe’s

Gu Masters, while Liu tribe army's Gu Masters had no choice but to waste their precious primeval essence against the encroaching wolves. Thus, even if the wolves died, they died after contributing greatly.

Liu tribe's Gu Masters experts sensed this unfavorably situation and started searching for Fang Yuan.

However, Fang Yuan used the same old trick, hiding in some corner of the battlefield. He now already had three rank four lurking soul coat Gu, and with the concealment from these Gu, as long as he did not use over eighty percent of his strength, his soul fluctuations would be concealed.

This large battle continued from the early morning to evening.

The setting sun shone like blood as it shone down on the grassland that was covered with corpses and blood.

There was no winner in this battle.

Liu tribe suffered disastrous losses in their military forces because of the wolf group. After the Liu tribe's Gu Master experts were not able to find Fang Yuan's location, they all concentrated in attacking Hei tribe's Gu Master experts.

Hei tribe's Gu Master experts thus suffered serious damage. Mo Shi Kuang and Ouyang Bi Sang were difficult to restrain, and almost all the Hei tribe Gu Masters were too terrified to confront them.

Hei tribe's battle intent was dissipating and was barely able to hold on. When the night fell, the night wolves became fierce and Liu Wen Wu, not wanting the lower ranked Gu Master casualties to increase, also had the thought of retreating.

The first battle ended up in a draw with their killing intent gradually calming down as the night progressed. Both sides retreated behind their defense lines to rest and prepare.

Chapter 527 - Wolf King, Striving For Victory

Chapter 527: Wolf King, Striving For Victory

Translator: ChibiGeneral Editor: ChibiGeneral

Hei tribe’s main tent. The atmosphere here was stifling, almost everyone including Hei Lou Lan was injured.

The lofty and grand Gu Master experts looked very miserable at this moment.

“Liu tribe’s offense was too fierce. Liu Wen Wu, Luo Bo Jun and Nie Ya Qing are rank five experts, Mo Shi Kuang and Ouyang Bi Sang are rank four peak stage experts with battle strength of rank five. Furthermore, there are other strong experts like Pei Yan Fei and Chang Biao… Such quality of experts were rarely seen in the past ten struggles for Imperial Court.” Cunning Gentleman Sun Shi Han sighed.

Rank four Gu Masters were already rare; each was the head of small or mid-sized forces or elders of large-sized forces.

And with the high demand of aptitude, rank five was even rarer. Even a super force would only have two-three rank five Gu Masters openly.

Actually, when comparing, Hei tribe was stronger in higher ranked forces.

Hei Lou Lan, Tai Bai Yun Sheng and Gu Guo Long were rank five experts. And there were over twenty rank four experts including Chang Shan Yin, Tang Miao Ming, Hao Ji Liu, Bian Si Xuan and Pan Ping.

However, even between same ranked Gu Masters, there was a difference in their battle strength. Gu Masters were a force that surpassed group battles, their individual strength could surpass the accumulation of a group. For example, just Fang Yuan alone could slaughter small or mid-sized tribes. In today's battle, Ouyang Bi Sang, alone, had slaughtered five rank four Gu Masters and twelve rank three elders.

It was not that Hei tribe was weak but that Liu tribe's higher ranked battle strength was too strong!

Especially in this battle, Liu tribe had slaughtered many of Hei tribe's higher ranked Gu Masters, cutting down rank four Gu Masters to almost half, causing the gap to further increase.

The way to deal with the enormous dominance of Liu tribe was a problem Hei tribe had to quickly come up with a solution for.

"If I had some time, I could annex several large armies, and with old sir's prestige, subdue some experts, maybe we could contend against Liu tribe's higher ranked strength then." Hei Lou Lan sighed, hating Liu Wen Wu for choosing this time to attack, not giving him any space to develop.

Tai Bai Yun Sheng immediately realized the deep intent behind Hei Lou Lan's words: "I once rescued Gao Yang and Zhu Zai, and they had said they would repay the favor. I can write them a letter, and maybe they will come over."

Everyone's spirits rose.

Gao Yang and Zhu Zai were called the twin demons of demonic path in northern plains, they always worked together, having great teamwork with each other. These two were both rank four peak stage experts and had once killed a rank five expert by combining their strength!

The pressure on Hei Lou Lan eased: "If I can get Gao Yang and Zhu Zai's help, it can slightly make up for the gap between the two armies. But the events of the battle concerns everyone's life, and we cannot hope for others' mood in repaying the favor. In today's battle, it was thanks to Wolf King that we were able to exterminate large numbers of low ranked enemy Gu Masters, causing an enormous loss to Liu tribe. If it were not for Liu Wen Wu feeling hesitation, how could he have retreated so easily?"

Everyone's gaze landed on Fang Yuan, wanting to hear his thoughts.

Fang Yuan had a tranquil expression, not having a trace of injury on his body. He had been hiding while commanding the wolf group in the battle, but he was the one who gained the most battle merits.

Most of the ones in the main tent were inwardly infuriated at this, having envious and jealous feelings. But due to the situation, they did not dare to flare up.

After the battle, Fang Yuan had been looking through his memories, trying to excavate the information on how Hei Lou Lan had prevailed over Liu Wen Wu, but even after a long time of racking up his brain, he did not get any results.

There was way too much information in the memories of his five hundred years of past life, and much was forgotten. And from the look of it, this enormous problem that was troubling everyone was no more than just a minor detail in the long river of history in his past life.

Feeling everyone's gaze, Fang Yuan raised his eyelids and lightly said: "Liu tribe has enslavement path Gu Masters but their strongest expert is only Bei Cao Chuan whose grass soldier troops is of no importance. Now, both the enemy and us have our strengths. We are like two giants stabbing each other with spears. Liu tribe is strong in terms of higher ranked Gu Masters, while I can slaughter many of their low ranked Gu Masters with my wolf group. Thus, it resulted in the draw today."

"The way to victory is restraining the enemy's advantage as well as strengthening our advantage. And restraining the enemy's Gu Master experts is not an impossible thing, as long as I can have a group of strong wolves as trump cards, I can restrain them. But with this, I will have to use all my strength and the rank four lurking soul coat Gu on me will no longer be able to conceal my soul fluctuations, and thus I will become the enemy's target."

Fang Yuan's words caused everyone's eyes to brighten.

"Trump card wolf group…" Hei Lou Lan lowered his head and mumbled.

The current five great enslavement masters of northern plains were called the five beast kings. Among them, Horse King Ma Zun has mutated pegasus group. Eagle King Yang Po Ying has mutated thunder eagle group. Rat King Jiang Bao Ya has mutated mountain drilling rat group. And the newly advanced enslavement master Leopard King Nu Er Tu controlled glimpse leopard group. Only Wolf King Chang Shan Yin did not have a mutated beast group.

Every mature mutated beast possessed the battle strength of rank four Gu Masters. Once a group of mutated beasts formed, they would be more terrifying than the same amount of Gu Masters. After all, beast group would charge dauntlessly under the enslavement path Gu Master's control. As Gu Masters had all kinds of self benefits to think about, even if they were under poison vow, they could not be made to fight to the death.

If they had a group of mutated beasts, there was a huge chance of killing rank five experts.

After all, even rank five Gu Masters were mortals in the end, with limited primeval essence and there were times when their strength was exhausted.

However, making a mutated beast group was too time-consuming of a process and would exhaust enormous energy and resources.

To look for a group of mutated wolf group for Fang Yuan in this short period of time, there was only one way – requesting help from Hei tribe's Gu Immortals.

The people in the main tent, even if they did not know the existence of treasure yellow heaven, they were aware of the huge power of Gu Immortals.

In the history of northern plains, there were several examples where

Gu Immortals organized mutated beast group to provide assistance to their respective force.

“Mutated beast group is indeed a way out, I will give it a try first.” Hei Lou Lan pondered for a while before saying vaguely.

But everyone clearly knew the meaning behind Hei Lou Lan’s words was to request help from the Gu Immortal behind him.

This immediately caused a new change in the gaze everyone looked at Fang Yuan.

How could this Wolf King Chang Shan Yin have such good luck? Making a Gu Immortal help him to organize a mutated wolf group. If he had to do this himself, he might not even be able to accomplish it in twenty to thirty years! Why don’t we get such benefits?

Everyone felt envious and jealous.

Ultimately, it was the identity of Chang Shan Yin that Fang Yuan carried; an enslavement master was an existence that could turn tides around. Hei tribe was fighting Liu tribe, it was indeed wise to put heavy importance on Fang Yuan and give more resources to him.

“If I remember right, even if there is a mutated beast group, Lord Wolf King’s battle merits is ranked number one from the bottom, the last place in the battle merits list, right?” Cunning Gentleman was filled with jealousy, ‘kindly’ reminding as if he had suddenly recalled it.

“Of course, I can’t receive a mutated wolf group for nothing!” Fang Yuan righteously nodded, “Our rules cannot be broken, I will use battle merits to exchange for it. Of course, my battle merits are insufficient right now, so I can only borrow a bit more. This is something that cannot be helped!”

Everyone was speechless.

Many people shouted inwardly at the same time:

‘Do you feel no shame speaking such words?’

‘Do you still want your face, you already borrowed one million and three hundred thousand battle merits before and you still want to borrow more?!’

‘In the entire Hei tribe army, only you have borrowed battle merits! Don’t you feel guilt holding that rank five amplify effect Gu?’

In fact, Fang Yuan not only did not feel any guilt, instead he said with a ‘not satisfied’ voice: “Just a mutated beast group won’t do, I still require rank five lurking soul coat Gu. Unfortunately, refining a rank five Gu has a success rate that is too low. I have collected three rank four Gu, but I don’t dare to fuse them to rank five.”

Hei Lou Lan gnashed his teeth, the number of times he could request help from the tribe was limited, the more he asked for help, the less the tribe’s evaluation of him would be. But there was no other way, he could only nod at Fang Yuan in order to defeat Liu Wen Wu: “I will do something about it.”

Just as Hei Lou Lan and his group were strategizing, Liu Wen Wu and his group were also planning on how to battle Hei tribe.

“In Hei tribe army, Wolf King Chang Shan Yin is the biggest problem. It was because of him that my army suffered disastrous losses in today’s battle, with at least thirty thousand Gu Masters dying in the wolves’ mouths. Sigh, this number is truly making my heart bleed, everyone came forward to side with me because they believed in me. But it is because of my incompetence, we had to suffer such heavy casualties!”

In the main tent, Liu Wen Wu shed tears and sighed.

“Big brother, how is it your fault? We can only blame those Gu Masters for being useless!” Mo Shi Kuang almost jumped up as he hurriedly retorted.

“Wolf King Chang Shan Yin might have huge reputation, but he is not a true hero.” Ouyang Bi Sang, however, loftily snorted, his tone contained disdain, “The grand Wolf King was actually sneakily hiding in some corner like a rat, it really makes people look down upon him.”

“But, such a Wolf King is the most troublesome!” Liu Wen Wu sighed inwardly while opening his weeping eyes and asked the group, “Do any of you have a good method to deal with Wolf King?”

Mo Shi Kuang and Ouyang Bi Sang stopped speaking.

They were experts at fighting, things like strategizing were not their strong points.

“I have a plan.” Bei Cao Chuan stood up and said confidently, “Wolf King Chang Shan Yin was originally Chang tribe’s tribesman. Although he spoke of taking revenge, the blood-ties he has with Chang tribe is unmistakable and cannot be severed. The current Chang tribe leader Lord Chang Biao was once Chang Shan Yin’s best friend. After Chang Shan Yin disappeared, Chang Biao married his wife and raised his three year old son who is currently Chang tribe’s young tribe leader Chang Ji You. We might as well try to use this to deal with Wolf King, who knows if it might be effective?”

“Hmm…this idea is not bad!” Liu Wen Wu’s eyes gleamed.

…

After the discussion ended, Fang Yuan returned to his large lizard house Gu.

The problem of refining rank five lurking soul coat Gu had been hurting his head recently. If he could borrow Hei tribe’s Gu Immortal’s power to organize a mutated beast group and also refine rank five lurking soul coat Gu, it would be the best.

Fang Yuan felt there was a huge chance for this to succeed. Although he could not remember all the minor details of this time’s struggle for Imperial Court, but he knew clearly Hei Lou Lan was able to enter Imperial Court and the support of the Gu Immortal behind Hei Lou Lan was inseparable from this.

“The two sides will at least rest and reorganize for three days. In this time, Hei tribe’s Gu Immortals will have received Hei Lou Lan’s letter for assistance. Before this, I need to prepare…”

Thinking of his great plan, the corners of Fang Yuan’s lips involuntarily curled up into a smile.

Chapter 528 - True Martial Secret, Awaiting Assistance

Chapter 528: True Martial Secret, Awaiting Assistance

Xiao Hun blessed land.

This place was always covered in dense dark clouds and female-shaped trees grew on the ground.

These trees were very peculiar; the tree trunk was curved and branches wrapped around each other like a girl’s naked body. The trees were in all kinds of enchanting postures.

Female-shaped trees grew all over the place, becoming a forest.

In the deepest part of the forest was the tallest female-shaped tree with a height of one thousand feet and roots that extended for a range of ten thousand li.

This female-shaped tree king, however, did not look seductive, instead giving off pure and holy aura.

The tree king’s trunk was ramrod straight, giving a highly spirited feeling. Its two enormous branches formed into hands that covered the chest. The side branches from them formed into two well-developed and large palms that lifted a green treehouse.

Red vermillion fruits grew all over the treehouse with reddish-brown rattan twining around them, making the fruits look like hearts.

Two Gu Immortals were sitting inside this treehouse, both in black clothes.

On the left was an ordinary looking man who was called ‘Hei tribe stoneman' during his young age, he was awkward at conversing but was smart and careful inside; he was Hei Bai.

On the right side, however, was a handsome man who was radiating with vigor, having eyes that seemed to shine, and appeared confident and at ease; he was Hei tribe's supreme elder Hei Cheng, Hei Lou Lan's father and a famous handsome man as well as the male lead in Su Xian's night elopement.

“Say, you just returned from Ni Yu blessed land, did you see Dong Fang Chang Fan? How is he?” Hei Cheng asked leisurely while taking a sip of tea.

Hei Bai nodded: “Senior Dong Fang isn't looking for lifespan Gu, there is not much of his lifespan left, he can probably only live for two-three years more. But his vision is broad and has magnanimous conduct, already seeing through the trouble of life and death and only wants to wholeheartedly nurture his successor Dong Fang Yu Liang now.”

“Magnanimous conduct, broad vision?” Hei Cheng scoffed, shaking his head in disdain, “Brother, you saw wrong. Dong Fang Chang Fan is a genuine petty person, he schemed against the northern plains and is extremely insidious and so is hated by all the Gu Immortals. If it was not so, he could have already bought lifespan Gu, why would he have fallen into this state? I have been secretly investigating over these years and have discovered he had a hand in my wife Su Xian Er's death!”

Hei Cheng revealed this secret information, causing Hei Bai to be extremely startled.

“What? There was such a thing?” Hei Bai exclaimed in shock.

Su Xian Er was Hei Cheng's wife. Over two hundred years back, Su Xian Er was no more than a daughter of a concubine in Su tribe; and while she poured wine for Lord Hei Cheng back then in the banquet, Hei Cheng immediately fell in love at first sight.

In that banquet, Hei Cheng was poisoned by Su tribe leader, his strength fell to the bottom and he was hunted down.

After Su Xian Er accidentally learned of it, she resolutely rushed out of the tribe in the dead of night to rescue Hei Cheng whom she had only met once.

At that time, Su Xian Er only had rank one cultivation, and ferocious beasts roamed the night grassland that were beyond her ability to contend.

But under the play of fate, she was able to find the unconscious Hei Cheng.

Hei Cheng was thus saved and managed to live. He had then asked Su Xian Er with suspicion: “I was plotted against by your tribe leader and you are a Su tribesman, why would you save an enemy of your tribe?”

Su Xian Er had answered: “Lord has a noble spirit, this humble girl fell in love at first sight. Su tribe leader is short-sighted and plotted against lord under the persuasion of some petty people, but he never considered the result of offending Hei tribe. If he was allowed to have his way, Su tribe is destined to become a sacrificial pawn between two super tribes. People say lord repays a favor received by a hundred times. This humble girl saved lord today and only hopes lord can give me a place to stay. It is just and proper for lord to take revenge against Su tribe, but I hope lord can be merciful and leave behind a trace of bloodline for Su tribe.”

The moonlight shone on the jade-like beauty with slender and fair hands.

Hei Cheng was overwhelmed at this sight, he tightly held Su Xian Er’s hand and swore: “Your love is as deep as the sea, I, Hei Cheng, am not a cruel person, how could I not repay you? From today onwards, you will be my only wife! I will not care for any other beauties, no matter how beautiful they are. In this life, I will never betray you!”

Su Xian Er saving Hei Cheng was akin to betraying the tribe. Hei Cheng was very grateful and interlinked with her as husband and wife.

From that day onwards, the two helped each other, loving and respecting each other their whole life. Hundred years later, both became Gu Immortals, becoming a story that spread far and wide in northern plains. And Su Xian's night elopement was also spread wide, encouraging countless women to bravely take the initiative to love.

Hei Bai's mood became solemn: "Could it be over twenty years ago sister-in-law did not die because of the blessed land's earthly calamity?"

Hei Cheng scoffed: "There was indeed an earthly calamity, but the earthly calamity was influenced by people. Don't forget brother, old ancestor Giant Sun Immortal Venerable has such methods. Dong Fang tribe has entered Imperial Court many times as a tribe with Huang Jin bloodline, they might have received an inheritance relevant to such methods from Eighty-Eight True Yang Building. Sigh, I only have a little evidence, it is not enough to prove Dong Fang Chang Fan as the main culprit."

Hei Bai remained dazed for quite a while before sighing: "You really can't judge people by appearance."

Hei Cheng patted his shoulder and comforted in a gentle voice: "Brother, you have become a Gu Immortal for less than ten years. Gu Immortals' circle might not be big, but the treacherous conspiracies inside it are much deeper than between mortals."

Hei Bai was just about to speak, when his expression blanked: "Hei Lou Lan has send a letter."

Hei Cheng nodded, and with a shift of his mind, loosened the defense over Xiao Hun blessed land by a little; the space opened up and in flew a butterfly.

Hei Bai stretched his right hand; this butterfly fluttered and gently landed on his palm.

This was rank five butterfly letter Gu.

Hei Bai closed his eyes and concentrated on the butterfly letter Gu from Hei Lou Lan, containing his request.

"What is it, did that disappointing child of mine ask you for help again?” When Hei Bai opened his eyes, Hei Cheng snorted and asked with a displeased tone.

Hei Bai forced a smile: “Brother, Hei Lou Lan is you and sister-in-law Su Xian Er’s son. Although sister-in-law suffered and fell seriously ill when giving birth to Hei Lou Lan, leading to her strength being greatly diminished and thus passing away in the earthly calamity several years later, the child is still innocent, you should not disregard him because of it. You even gave him to the twenty-seventh concubine Fairy Jiang Yu to adopt and did not allow him to light an incense to pay respects to his own mother.”

Hei Cheng snorted with dissatisfaction, but did not argue.

Hei Bai sighed: “This is your family affair and it is truly not my place to meddle. But I have given a lot of thoughts to big brother’s actions; you sent Hei Lou Lan to be adopted by the childless Fairy Jiang Yu in order to preserve Hei Lou Lan’s life though her Immortal Gu Dark Limit. Hei Lou Lan has the ten extreme physique — Great Strength True Martial. To stimulate his spirit, you gave him a condition that as long as he advanced to Gu Immortal, he could light the incense for his mother. Little brother deeply admire your actions, but big brother, your way of doing things will only deepen the misunderstandings between father and son, it is not a good method looking at the long term drawbacks.”

Hei Cheng heaved a sigh, not replying Hei Bai, but instead asked: “What did that child mention in the request?”

Hei Bai clapped his palm and smiled: “Look big brother, you showed indifference but you still care about nephew’s safety in your heart. Nephew hopes we can prepare a mutated wolf group and also a rank five lurking soul coat Gu.”

“Hmph, this kid is truly insolent! Lurking soul coat Gu is okay, but our Hei tribe does not have mutated wolf group.”

“Right now, our Hei tribe is battling Liu tribe, Liu tribe’s current generation tribe leader Liu Wen Wu is not someone who can be underestimated. Back then, the inheritance of Harmony Immortal fell in his hand. He has two sworn brothers, both are fierce warriors and can match ten thousand soldiers. However, nephew Lou Lan also has a great general under him – Wolf King Chang Shan Yin. This time's request is because he has placed his hopes on Chang Shan Yin." Hei Bai explained.

Hei Cheng mumbled: "Rank five lurking soul coat Gu is no issue, I have one with me. But mutated wolf group would have to be purchased from treasure yellow heaven. I will have to request brother for this."

Hei Bai quickly shook his hand: "Brother, you don't have to be so polite. I still need to rely on nephew to enter Imperial Court and find Immortal Gu Wooden Chicken in Eighty-Eight True Yang Building."

Hei Cheng heaved a long sigh and said with an exhausted voice: "Great Strength True Martial physique needs a strength path Immortal Gu to advance to Gu Immortal realm. Unfortunately, Immortal Gu are very difficult to find, our Hei tribe also does not have any strength path Immortal Gu. Success and failure is decided by heaven, we can only try our best. We have already done all we can, now everything will depend on Hei Lou Lan's efforts and luck."

'Parents are truly constantly worrying about their children.' Hei Bai sighed inwardly and said his farewell to Hei Cheng.

After he returned to his Ku Mu blessed land, he immediately connected to treasure yellow heaven and started buying mutated wolves.

Wolf emperors could be considered as a strength of blessed land, it was very hard to find Gu Immortals selling them. But mutated wolves were only equivalent to rank four and were much easier to find.

Hei Bai was not worried, mutated beasts were not rare and precious goods and as long as one had sufficient immortal essence stones, they could buy a large group of them.

Of course, spending a lot to buy the mutated wolf group was a loss to Hei Bai. But he was planning for a Immortal Gu in Eighty-Eight True Yang Building, and it was right for him to invest in the early stages.

Imperial Court blessed land was the work of Giant Sun Immortal Venerable, and unless one reached rank nine, no Gu Immortals could enter inside!

After the news of buying mutated wolf group in high price was spread, Hei Bai soon received a divine sense from someone called ‘Fox Immortal’.

‘Fox Immortal’ had over a hundred mutated wolves and quoted a rather high price for them, they were clearly taking advantage of Hei Bai’s difficulty.

Hei Bai had already anticipated such a situation, it was only that he had not expected this ‘Fox Immortal’ to move so quickly at the chance. He gnashed his teeth and bought this group of mutated wolves.

The one selling this group of mutated wolves was none other than Little Hu Immortal who had received Fang Yuan’s instructions.

Previously, they had resold Immortal Gu recipes and earned dozen or so immortal essence stones; Fang Yuan had then instructed Little Hu Immortal to purchase purple crystal relic Gu and also look for any wolf groups sold cheaply at treasure yellow heaven, and buy them.

Thus, Hu Immortal blessed land had accumulated over a hundred mutated wolves; among them were blood forest wolf, berserk wolf, shark fin wolf, white-eyes wolf and others.

Now, by reselling these mutated wolves at high price to Hei Bai, they had profited quite a bit.

As for Fang Yuan, he was calmly resting in the camp, waiting for Hei tribe’s assistance.

Chapter 529 - Diligence despite transmigration

529 Diligence despite transmigration

Translator:ChibiGeneral | Editor: ChibiGeneral

It was difficult to move through the muddy swamp, but Ma tribe's army was in high spirits.

The happiness of annexing Dou tribe army as well as the excitement of a decisive victory could still be seen on everyone's faces.

Ma Ying Jie was riding a horse and as he looked at the generals and soldiers around him with satisfaction, as an investigative Gu Master brought him the latest battle reports.

He opened up the documents and read:

"Hei tribe and Liu tribe has begun to fight. The first battle resulted in a draw, and currently, both are garrisoned opposite each other. The situation is in a stalemate."

"Ye Lui army was ambushed at night by the seven army alliance. Ye Lui Sang was very powerful and defeated six rank five experts one after another, but he was only one person and was unable to save the situation. Currently, Ye Lui tribe's remnant army is fleeing towards Qing An region."

"Rat King Jiang Bao Ya has accepted Yang tribe's invitation and has officially entered Yang tribe's alliance."

"Nu Er Tu army has not resumed their expedition, instead resting and capturing huge numbers of leopard groups." …

These battle reports caused Ma Ying Jie to smile with joy: ‘Hei Lou Lan and Liu Wen Wu are popular candidates to win this time’s Imperial Court contest. I did not think these two would confront each other this early, it will be good if they both suffer. Since Ye Lui Sang obtained Immortal Gu, he is a one-man army. But for Ye Lui tribe to be suddenly attacked by the seven armies, Snowy Mountain most likely has influence behind it.’

Ma tribe, to advance to a super tribe, had secretly joined hands with demonic path Gu Immortals who were coveting after Eighty-Eight True Yang Building. Ma Ying Jie was Ma tribe’s young tribe leader and thus was aware of the undertable deals of the tribes.

Northern plains was like a huge chessboard while the Gu Immortals were the chess players.

Besides righteous path Gu Masters, demonic path Gu Immortals also had their own pawns whom they supported. And as the tribes with Huang Jin bloodline were willing to join hands with demonic path Gu Immortals in order to have a better survival chance. If they lost in the struggle for Imperial Court, these tribes would often enter the blessed lands of the demonic path Gu Immortals to escape from the blizzard disaster.

Immortal Gu were rare.

Ye Lui tribe’s supreme elder had entrusted an Immortal Gu to Ye Lui Sang; it was equivalent to placing a bet in this game.

According to the rules set by Giant Sun Immortal Venerable, as long as Immortal Gu were snatched by mortals in the struggle for Imperial Court, the Gu Immortals cannot take them back.

Such a huge bet had its corresponding risk.

It was because of the Immortal Gu on Ye Lui Sang that caused him to be the target of Gu Immortals. Thus they incited seven armies to ambush Ye Lui army.

“Rat King has joined Yang tribe which means an alliance of Rat King and Eagle King Yang Po Ying, causing this underdog Yang tribe to become a new contender to win the struggle for Imperial Court. But Yang tribe's foundations are far inferior to our Ma tribe and Rat King was also already crippled, they aren't of much threat to us."

"Although Nu Er Tu is called Leopard King, his leopard group has been inflicted heavy losses. However, he has been capturing wild leopard groups by himself without asking for help from the Gu Immortal behind him, this is a bit strange…"

"But overall, my Ma tribe's situation is still much better. Our next opponents are weaker than us. As long as we keep on winning, continue to devour other tribes and expand, our hopes of entering Imperial Court will become bigger and bigger!"

Ma Ying Jie could not help clenching his fists at this, his eyes letting out a fierce light. The ambitions and goals of a man were pushing him to establish great feats and accomplishments.

And at the same time, within the high spirited army was a little girl, who was weeping in a carriage.

"Lady Xiao Yun, don't keep on grieving, your father's death was a heart rending event, but you need to eat, if not you will faint from hunger." Beside the little girl, the anxious Fei Cai was comforting her in a clumsy way.

This weeping little girl was none other than Zhao Lian Yun.

Her father, Zhao tribe's leader, had sacrificed his life in the previous large battle.

Losing the protection of the father who loved her dearly, Zhao Lian Yun immediately felt her world toppling. On the very night of her father's death, her stepmother remarried the new Zhao tribe leader, and Zhao Lian Yun's position took a sharp dive.

"There will always be deaths in war, this is normal. My father was also killed by others." Fei Cai continued to persuade Zhao Lian Yun when he saw she was still crying.

Zhao Lian Yun suddenly raised her head while sobbing, looking at Fei Cai with an insoluble hatred in her tear-filled eyes, and kicked him:

“You idiot, you don’t even know how to comfort people!”

The sorrow in her heart was not fake. Although she inexplicably arrived in this world and it had not been long since her arrival, her father’s love towards her was filled with sincerity. She was very grateful for this genuine love and her dependence on him had slowly grown into true affection.

But now, her father had died in the battlefield, making her alone and helpless.

“Missy, you were hiding here, you really caused much trouble for me! Quick, follow me, your mother is calling you.” At this time, the curtain of the carriage was lifted open by the old caretaker who then grabbed Zhao Lian Yun’s small arm.

Zhao Lian Yun struggled and shouted: “My mother is dead, she is not my mother! I won’t go!”

“This is not up to you!” The old caretaker scoffed and tried to forcibly drag Zhao Lian Yun out of the carriage.

When she had been serving Zhao Lian Yun, she was teased and pranked by Zhao Lian Yun time and again. Now, as she looked at Zhao Lian Yun’s miserable state, the old caretaker felt the pleasure of taking revenge.

“Let go of Lady Xiao Yun!” Fei Cai shouted and punched the old caretaker.

The old caretaker fell out of the carriage from this heavy punch. She stood up and touched her eye that had become purple from the bruise. She screamed in a shrill voice: “You hit me, a slave dared to hit a civilian? Who gave you such big guts!! I will report you, you are going to die. You will be skinned alive and your corpse will be hung up in the sunlight till it dries up!”

The old caretaker was extremely furious, and with her unkempt hair and sinister gaze, she looked like a hopping old hen.

However, her scream had indeed attracted the surrounding people.

Fei Cai clenched his fists and furiously stared at the old caretaker while firmly protecting Zhao Lian Yun behind him.

Zhao Lian Yun pushed aside Fei Cai's arm and stood on the carriage, her fair face still had tear stains, she looked at the old caretaker and scoffed: "What was it? You want to punish Fei Cai? Alright! Report him, but according to the rules, you need to first inform his master to demand compensation. Since it is so, go look for young tribe leader. Fei Cai is Lord Ma Ying Jie's slave leader!"

"What?!" The old caretaker cried out in shock, her screams abruptly stopped and the anger in her heart dissipated like a tide, only leaving behind an extreme terror.

This rash stupid kid was actually lord Ma Ying Jie personal slave? Moreover, he was lord Ma Ying Jie's slave leader who was in charge of his everyday life?

One needed to look at the owner before beating the dog.

The old caretaker might be a civilian with a status higher than that of a slave, but it was a different matter when Fei Cai was Ma Ying Jie's slave leader.

If she truly reported recklessly, she might instead be sacrificed by Zhao tribe!

After the shock, the old caretaker who had lost her face greatly looked gloomy. She rigidly stared at Zhao Lian Yun: "Little girl, even young tribe leader Ma Ying Jie's slave leader cannot protect you. You are a person of Zhao tribe, even after your death, you will be our Zhao tribe's ghost. Your mother is our Zhao tribe's current tribe lady. Listen to me properly, tribe lady has already arranged your marriage to Wei tribe's eldest young master! Now behave properly!"

"What?!" Zhao Lian Yun involuntarily cried out.

"Marrying to Wei tribe's eldest young master is your blessing." The old caretaker sinisterly smiled.

Zhao Lian Yun's whole body shook and fell down on the wooden board of the carriage.

“Lady Xiao Yun!” Fei Cai quickly supported her.

The old caretaker felt incomparable pleasure at this sight and left with immense satisfaction. She still needed report to Zhao tribe’s tribe lady.

Zhao Lian Yun was expressionlessly, this immense shock left her in a dazed state filled with despair, allowing Fei Cai to hold her in the carriage. For three days, she curled up at a corner of the carriage, without moving or speaking.

Fei Cai’s persuasion was of no use, and could only helplessly feed her.

Zhao Lian Yun was like a wooden puppet, letting Fei Cai control her.

Fei Cai also could not accompany her all the time, and every time Ma Ying Jie summoned him, he would immediately leave.

This sudden change of events and this ice-cold reality shattered the foolish pride Zhao Lian Yun had as a transmigrator.

She suddenly had a profound realization: ‘A transmigrator is nothing special. Why did I think I could whip up a storm in this world after being so ordinary in my previous world?’

Moreover, women were discriminated in northern plains and were treated as goods to be used for political marriage. Northern plains’ women could only adhere to men and could not refuse a man’s forceful marriage. This was a rule set by Giant Sun Immortal Venerable.

Previously, when she heard of Giant Sun Immortal Venerable’s deeds, she felt like she was listening to a story, listening to a legend of a hero. But now, she was personally experiencing the torment caused by Giant Sun Immortal Venerable.

“Women are like clothes while brothers are like our hands and feet.” This was the favorite catchphrase of Giant Sun Immortal Venerable, he pulled apart the status of man and woman to an extremely unfair level. Now he had become the most detestable person in Zhao Lian Yun’s heart!

"No wonder Su Xian's night elopement story pierced so deep into people's hearts, causing northern plains' women to eagerly imitate it. Rather than passively suffering fate's arrangement, it is better to take the initiative to chase after one's happiness. But this carries unknown risks!"

As she thought of this, Zhao Lian Yun's awareness of the vile living environment deepened by another layer.

"Wei tribe's eldest young master is a famous trash. He is fat like a pig with pockmarks all over his face and only at rank one peak stage but is extremely lecherous and very fickle-hearted. It is because of his incompetence, Wei tribe's young tribe leader position went to his younger brother."

"I won't marry that pig even if I die! But what should I do? I am only a mortal, and since I haven't reached thirteen, I cannot awaken my aperture and cannot cultivate. It is also possible that I don't have any cultivation aptitude. And the person who killed my father is Dou E, a rank five Gu Master who has sided with Ma tribe now and is now a higher-up of the alliance!"

"Who can I rely on? What path should I take?"

Bewilderment, hesitation and fear filled Zhao Lian Yun's heart.

In the early morning of the fourth day, Fei Cai lifted up the carriage curtain and entered with food and clean water. The light of the dawn followed the curtain opening and shone on Zhao Lian Yun's face.

Zhao Lian Yun woke up, slowly opening her swollen eyes.

"You brought food?" She grabbed the food from Fei Cai's hand and began to devour it.

"Lady Xiao Yun, are you okay?" Fei Cai was happy at this change.

"Yes, I have thought it through, it is better to rely on myself. Although I have been bound by the wedding betrothment, it can only be implemented when I am sixteen. I still have time!" Zhao Lian Yun's gaze shone like fire.

“Ah, Lady Xiao Yun, you don’t accept the betrothal?” Fei Cai was startled; in his impression, northern plains could only accept their fate when their marriage was decided.

Zhao Lian Yun rolled her eyes and spoke in a righteous tone: “Hmph, I am not an ordinary person, I absolutely won’t compromise! But I cannot go to the tribe now and can only live here for some time, and rely on you Fei Cai.”

“No problem.” Fei Cai patted his chest, laughing foolishly.

Zhao Lian Yun’s heart warmed and her tone turned softer: “Fei Cai, your father also died in battlefield?”

“Yes, he died. I was heartbroken during that time. But death is normal in northern plains. Father died in battle, he died a glorious death.” Fei Cai said with a smile.

‘As expected, winner takes it all! Under the dazzling and splendid throne lies a path of bones.’ Zhao Lian Yun sighed, before cursing, ‘What a scam, I crossed over to this world and have yet to mature but my fate has already been decided by others, I can’t even begin to feel anger!’ …

A letter was placed in front of Fang Yuan.

This special letter was openly sent by the enemy and was now brought over by Cunning Gentleman Sun Shi Han.

Fang Yuan opened it and read; this letter was personally written by Chang Biao, reminiscing the past and how they were on opposite sides now. He was inviting Wolf King to have a discussion before the battle and reminisce about the old times. And at that time, he could let Chang Ji You meet his father.

“Great ploy.” Fang Yuan scoffed and placed down the letter.

At this time, Sun Shi Han smiled: “The mutated wolf group and rank five lurking soul coat gu have both arrived. But the higher-ups of the alliance are hesitating because of this letter. They are hoping Lord Wolf King would battle against your kin in the name of righteousness, to prove your innocence. Otherwise, I’m afraid this mutated wolf group…”

Chapter 530 - Adjusting his appearance for him

Chapter 530: Adjusting his appearance for him

Liu tribe defense line, inside the camp tent.

“Mother, what kind of person was father?” Chang Ji You had a hesitant expression, after a long while, he asked the burning question in his heart.

He had never met Chang Shan Yin, back then when Chang Shan Yin’s mother died from poison, and when Chang Shan Yin fought to the death with Ha Tu Gu, Chang Ji You was only an unborn child in his mother’s womb.

His mother Ni Xue Tong had a frowned expression as she breathed out, using a nostalgic tone: “My child, has your heart wavered? Don’t forget our current circumstances. Don’t worry about your father, he is a legend in northern plains, back then he killed Ha Tu Gu and the bandits single-handedly, he is a hero who exterminated a great threat for the people.”

Chang Ji You interrupted his mother: “Mother, I’m sick of hearing that. Since birth, I’ve been hearing these stories all my life, wherever I go, whatever I do, people will say ‘oh look, as expected of Chang Shan Yin’s son’. Father is like the eagle in the sky, flying high and casting his shadow on the ground. In a few days, I will be meeting him, my heart is in a mess, I just want to hear his…”

Chang Ji You was still speaking, when the tent flap was opened, as a domineering middle-aged man with a powerful aura walked in.

It was Chang tribe’s current tribe leader, Chang Shan Yin’s brother, rank four upper stage wind path expert, Chang Biao.

“Greetings to lord stepfather.” Chang Ji You quickly paid respects.

“My child, go out first, I need to talk with your mother.” Chang Biao said gently.

“Yes.” Chang Ji You had to leave the tent.

Once the flap was closed, with the guards outside, there were only Chang Biao and Ni Xue Tong left in the tent.

“Husband!” Ni Xue Tong jumped into Chang Biao’s embrace, tears flowing out of her weak and feeble eyes.

“Sigh, I know you have been feeling terrible these days!” Chang Biao embraced Ni Xue Tong as he caressed her hair softly. At the same time, he used his Gu worm to isolate the place from the outside.

Ni Xue Tong sobbed: “You Er has been asking me about Chang Shan Yin again, what should I say? Do you know, just now I had the urge and almost told him the truth, that he is not Chang Shan Yin’s flesh and blood, that he is the crystallization of our love!”

Chang Biao’s body shuddered, he was also feeling great conflict and pain in his heart.

He solemnly said: “This is all my fault for being useless! Back then we were childhood friends, it was Chang Shan Yin who came into the picture abruptly and lusted after your beauty. On the day of our marriage, he snatched you away. I was not his match, I could only find you at night secretly and that resulted in our son Chang Ji You. But once he was born, if his bloodline was examined, the truth would be out and we would be doomed. Thus, I and Ha Tu Gu cooperated and plotted against Chang Shan Yin.”

“Next, I used my status as Chang Shan Yin’s brother to marry you and make Chang Ji You my godson. These years, although the tribe isn’t in good shape, this is the happiest years of our lives. Chang Ji You was successfully made young tribe leader by me, but precisely so, you cannot expose this secret.”

Once the secret is exposed, Chang Biao and Ni Xue Tong would get publicly shamed, they would be called an ‘adulterous couple’, and they will never be able to raise their heads again. They even caused harm to an expert of the tribe, for their own selfish motives, they disregarded the tribe's situation, it was truly a heinous crime!

As for Chang Ji You, he would be the shameful 'illegitimate child'. Be it his young tribe leader position, or Chang Biao's tribe leader position, they would be at risk of being taken, as people with ambitions would target them.

Righteous path had its own rules.

All along, Chang Biao had been taking care of his deceased brother's wife, and treated his godson as his own. Such brotherhood was admirable, such gracefulness was praised widely.

And exactly because of this, Chang Biao held a small advantage and became Chang tribe's new tribe leader.

Once this truth was exposed, he would lose everything. The ambitionists in the tribe would not let him go. In order to recruit Chang Shan Yin, Liu Wen Wu would not give up this chance.

By then, his only option would be to escape with Ni Xue Tong and his own flesh and blood Chang Ji You, becoming a demonic Gu Master. He would be despised by his tribe, and chased by his tribe.

"Why? Why! Why is Longevity Heaven doing this to us! We love each other so dearly, yet we end up in such a spot! Chang Shan Yin was the real culprit, he is an evil person, why is he praised. As for us, we can only wear a mask to live, even lying to our own son?" Ni Xue Tong cried profusely, she was very emotional.

These days, she had been under a lot of pressure.

Ever since 'Chang Shan Yin' reappeared, she had not been sleeping well, her former nightmare reappeared, causing her to fall into deep worry.

"Do you think that Liu tribe alliance leader is trying to recruit Chang Shan Yin? If Chang Shan Yin agrees, would we have to go back to that life? Chang Shan Yin is taking revenge everywhere now, will he find out the fact that we plotted against him? If he returns to the tribe, what will we do?” Lying in her lover’s embrace, Ni Xue Tong asked multiple questions as she raised her neck.

“It won’t happen, it won’t. Don’t think of it as such a severe situation.” Chang Biao gently consoled the woman of his life.

“Firstly, Chang Shan Yin has not found out we were the culprit. Otherwise, with his nature, he would’ve declared it long ago and caused our reputation to go down the drain. He is only suspicious of Chang tribe having a traitor, but he does not know who.”

“Liu alliance leader does want to recruit Chang Shan Yin, he is Wolf King after all, an enslavement path master, any alliance would welcome him and get his assistance. But Lord Liu Wen Wu is not a normal person, he knows clearly in his heart that there is little hope of getting the Wolf King to come over, his greatest intention is to sow discord and waver the Wolf King’s fighting spirit.”

“Think about it, Chang Shan Yin does not know about Chang Ji You’s true identity, he thinks this is his son. As a father, what would he be thinking? Blood is thicker than water, when Chang Shan Yin thinks about Chang Ji You being killed by his wolf group, would he go all out in the upcoming battle?”

“Is that so…” Ni Xue Tong heard this and calmed down.

“Alright, stop worrying, I am here.” Chang Biao patted Ni Xue Tong’s back with an affectionate gaze.

The tent was filled with the warmth of love.

But this kind of atmosphere, how long would it last?

Neither Chang Biao nor Ni Xue Tong had any confidence in this.

Whoosh!

A person broke the large lizard house Gu’s window and crashed in.

Cunning Gentleman Sun Shi Han sprawled on the ground, his face was bruised as he shouted loudly with a fearful and vicious expression: “Wolf King attacked, Wolf King attacked me! He is revolting, he is murdering us, help, save me!”

Sun Shi Han was a popular person near Hei Lou Lan, his shouts quickly attracted many Gu Masters.

Fang Yuan snorted, jumping out of the window and giving Sun Shi Han another kick.

Sun Shi Han did not dare to activate his Gu worm, he could only evade.

But Fang Yuan changed his attack just in time, sweeping with his right fist and slamming into Sun Shi Han’s nose.

Sun Shi Han groaned, just as he got up from the ground, he fell again. His entire face was full of blood, his nose bridge was broken and two of his front teeth fell out, he was in a pathetic state.

But the Gu Masters who came did not do anything, they breathed a sigh of relief secretly.

Be it Fang Yuan or Sun Shi Han, they did not use their Gu worms. This was not breaking the rules, it was merely a small scuffle.

When people interacted, there was bound to be conflict. As arguments occur, it was normal to get physical. As long as Gu worms were not used to fight, the poison vow would not be violated.

“Chang Shan Yin, you are too arrogant! Your wife and children are at the enemy’s camp, I am only reminding you out of kindness, you actually got furious and beat me! You are definitely guilty!” Sun Shi Han crawled up, shouting with his shrill voice.

The words caused the surrounding Gu Masters to talk among themselves. Chang tribe and Chang Shan Yin’s relationship was known to all. These days, Hei tribe army had been talking about it.

Seeing Sun Shi Han’s smug and vicious gaze, Fang Yuan laughed in disdain, he did not say a thing, but instead, responded with his fist.

Bam bam bam!

Fang Yuan's attacks were full of strength, although Sun Shi Han had some strength path foundation, how could it compare to Fang Yuan's immense investment in the strength path?

After several moves, he was beaten on the floor again, lying there as he was punched and kicked.

"Wolf King is amazing, although he is an enslavement path master, his strength path foundation is very strong." Everyone was shocked.

"Great fight, I had wanted to thrash this scoundrel Cunning Gentleman long ago." Some of the army's higher-ups smirked.

"Chang Shan Yin, you think I am easy to bully!" Sun Shi Han was thrashed until his body felt pain all over, his head was in a daze as his heart was filled with rage and humiliation.

"You still have the strength to speak." Fang Yuan snorted as he unleashed another round of punches.

Sun Shi Han was beaten to a pulp, he vomited blood as his front teeth all fell off, even the teeth at the back of his mouth were shaking.

"Wolf King is so ruthless…"

"Sun Shi Han is a rank four expert after all, to think he was beaten defenseless, what a weakling."

"Stupid! He made a poison vow and could not use Gu worms, in terms of close combat, Wolf King is an enslavement path master, he would definitely be suppressed by Sun Shi Han."

The discussions became louder, be it Chang Shan Yin or Sun Shi Han, they were people with great authority. Right now they were brawling it out, such a scene was rare, everyone was watching with bright eyes.

Sun Shi Han heard the comments and felt humiliated, he almost gritted his teeth off.

Although he barely had any left.

He wanted to resist, but neither his strength nor moves were Fang Yuan's match, he could not take a thrashing.

"Endure, I must endure! If I use a Gu, I would truly lose. I need to wait for alliance leader to come and uphold justice for me, Chang Shan Yin will get it!!" Sun Shi Han screamed in his heart.

"Alliance leader is here!"

"Greetings to lord alliance leader!!"

The surrounding people went into chaos as they quickly gave way.

Hei Lou Lan, Hao Ji Liu and others came to the area. Seeing this, Hei Lou Lan frowned as he asked Fang Yuan coldly: "What is going on?"

Sun Shi Han's body shuddered, using a mystical source of strength, he struggled as he crawled up and shouted: "Alliance leader, please seek justice for me…"

Plop.

Before he finished, Fang Yuan stepped on his head as he used great force, causing Sun Shi Han's entire face to sink into the soil.

Hei Lou Lan shouted loudly: "Stop it! Wolf King, what are you doing?!"

"H… he iz revulting! He ish revorting…" Sun Shi Han shouted loudly, his mouth was filled with soil as he spoke unclearly.

Fang Yuan sneered, exerting strength and stepping three times, burying Sun Shi Han's voice in the soil. Sun Shi Han's nose and mouth were blocked, his head also suffered a great hit, he felt dizzy and suffocation, his limbs struggled wildly but he could do nothing against Fang Yuan's strength.

Hei Lou Lan's face turned pitch black like charcoal.

Fang Yuan's gaze was like a dagger, staring coldly at him and the Gu Masters behind him: "Can't you all see what I am doing? I am thrashing him."

Hei Lou Lan stared at Fang Yuan angrily, shouting: “Wolf King, give me a clear explanation, why did you beat him up?! Are you really trying to rebel?”

Fang Yuan laughed in disdain, saying slowly: “No need to be angry Hei tribe leader, if I wanted to rebel, why would I need to make such a din?”

Saying so, he let go of Sun Shi Han.

Sun Shi Han lost the pressure and bounced up, desperately gasping for air like he was suffocating.

But Fang Yuan stepped again, this time, on his right cheek.

Sun Shi Han used both his hands to pull Fang Yuan’s feet, but he was already weak and out of energy. Just like this, he was stepped on the face by someone in public, his reputation was ruined.

Fang Yuan said slowly and casually: “Although I have not thought of rebelling, I do not want any schemes or plots to fall on my wife and children. During the battle, I will do my part and fight with my full strength. By then, if they die, that would be their honor to die on the battlefield. Since I, Wolf King, have joined the Hei army, I would not change my stance just because of relationships. However…”

Saying so, he raised his head as he laughed arrogantly: “It is your own business to be suspicious, that has nothing to do with me. All the mutated beast groups that I want are exchanged using my battle merit, this is a fair trade. I have never owed you anything. Hei tribe leader, if you are suspicious of me, you can take away the mutated beast wolf groups and not let me control them. In the future battle, I swear in the name of the Wolf King, I will still go all-out.”

“You…” Hei Lou Lan was furious.

Fang Yuan ignored his threat, and in fact, threatened him instead.

Being suspicious is your problem, you can keep the mutated wolves to yourselves. If we lose the battle, that will be your responsibility.

Can Hei Lou Lan not give them to him?

He had the great strength true martial physique, even if he used dark limit Immortal Gu, he was starting to feel the inability to suppress it. He needed a strength path Immortal Gu to advance to Gu Immortal realm.

However, Wolf King created a din and made everyone know about this. If he did not give him the mutated beast group, what would the army think of him? They would think that Hei Lou Lan refused to utilize Wolf King despite him being here. Like the saying goes, a man being used cannot be suspected while a suspected man cannot be used , if he loses the battle, everyone would begrudge Hei Lou Lan.

“Good, you are amazing Wolf King.” Hei Lou Lan’s gaze was cold, he laughed out of anger: “Of course I know the Wolf King’s loyalty, but why did you beat up Sun Shi Han? He is your alliance mate, the enemy is before us, yet you engage in internal scuffle, what are you trying to do?”

“Hehehe.” Fang Yuan shrugged: “This is my fault, because this Sun Shi Han looks way too ugly, he made my heart feel bad. Thus, I thrashed him and adjusted his appearance for him, as expected, he looks much better now. This was my personal action, I will take responsibility for it. According to the rules, I have to compensate Sun Shi Han ten thousand battle merits, no worries, I will compensate him!”

Sun Shi Han heard this and his anger rushed to his brain, he vomited out a mouthful of blood and fainted.

The words made all the Gu Master experts present unable to hold in their laughter.

It was too satisfying!

There were many who were unhappy with this scoundrel Sun Shi Han.

Fang Yuan’s assault was truly soothing their hearts.

Even Tai Bai Yun Sheng’s gaze towards Fang Yuan turned to admiration. He felt that although this Chang Shan Yin was ruthless, he did not strike at his family, but still maintained his righteousness and standpoint, he had his limits and was a true man.

Hei Lou Lan's expression turned even darker.

Sun Shi Han was his man, Fang Yuan beating him up in public was also slapping Hei Lou Lan's face.

Fang Yuan said it easily, but his battle merits were still in the negative!

But what could Hei Lou Lan do?

To deal with Liu tribe army, he needed to rely on the Wolf King's strength!

Threatening the Wolf King was to make him carry the sin of killing his own tribesmen, so that his reputation would be affected, allowing Hei Lou Lan to control him more easily.

But since threats had no effect, Hei Lou Lan only had one option left, that was to comply.

Chapter 531 - Huge Battle (1/4)

Chapter 531: Huge Battle (1/4)

Translator: ChibiGeneral **Editor:** ChibiGeneral

The mornings of northern plains were getting colder.

White frost covered the grassland, and people blew out vapor when they breathed.

The two armies, with hundreds of thousands of soldiers, were confronting each other.

Banners fluttered in the sky and the troops formation were as dense as forests.

Liu tribe and Hei tribe had rested and reorganized for over a dozen days after the first battle before sending the war letter, and today, they both came out to battle once again.

“Second brother, you went out the previous time, it is my turn now!” Mo Shi Kuang restlessly shouted and impatiently charged towards the front.

Mo Shi Kuang’s white hair fluttered, his black skin and panther-like eyes shone, his momentum was thunderous as he shouted: “Who seeks death?”

“This black barbarian again!” Hei tribe’s higher-ups felt anger and fear at the sight of Mo Shi Kuang. In the battle before, many rank four Gu Masters had lost their lives at Mo Shi Kuang’s hands. Mo Shi Kuang’s brutal fighting style caused people to be fearful.

Hei Lou Lan scoffed, his expression much relaxed than before. He looked at the two new faces in the main tent: “Who among you would like to go first?”

These two were Gao Yang and Zhu Zai, rank four peak stage Gu Masters, their name of demonic path’s twin demons was spread far and wide.

In their early days, demonic path’s twin demons had received Tai Bai Yun Sheng’s grace and swore to repay him. Not long ago, Tai Bai Yun Sheng used a letter Gu to try calling them. And a few days ago, they took the initiative to side with Hei tribe army.

The addition of the two of them immediately filled the gap between Hei tribe and Liu tribe army and allowed Hei tribe’s higher ranked strength to be free from the previous strained circumstances.

Demonic path’s twin demons were inseparable, but the rule of the challenge was that every side could only send one person to battle.

The two glanced at each other, already having discussed according to the intel Hei tribe had given them. Zhu Zai stood up and slightly bowed: “I shall go.”

Hei Lou Lan nodded.

Mo Shi Kuang stared at Zhu Zai’s arrival, revealing a happy expression.

“A rank four peak stage, good, good! But you don’t look that impressive, I hope you won’t go down with just a few punches.”

Zhu Zai snorted and activated a Gu, his body then rapidly charged forward like an artillery shell.

Mo Shi Kuang stood at the spot while licking his dried lips, prepared to receive the attack.

BOOM!

Zhu Zai ruthlessly smashed against Mo Shi Kuang, creating an explosive sound like that of crackling thunder. The berserk collision of strength resulted in Zhu Zai retreating several steps while Mo Shi Kuang was directly sent flying.

“Third brother, be careful. This person is Zhu Zai of the demonic path’s twin demons, he cultivates strength path!” Liu Wen Wu reminded in a loud voice from the main tent.

“Hahaha, strength path Gu Master? Great! I like fighting with such exciting opponents!” Mo Shi Kuang spurted out blood from the injury. He jumped up from the ground, the injury making him more excited instead.

A crazed look appeared on his coal-like inky black skin, a loud sound echoed, his aura started surging and Mo Shi Kuang charged towards Zhu Zai.

“Courting death!” Zhu Zai smiled sinisterly as he pounced forward as well.

BOOM BOOM BOOM.

The two sides engaged in close combat, their attacks were so fierce and heavy that the collision produced a series of explosive sounds. Mo Shi Kuang was a qi path Gu Master and was using his weakness to fight the enemy’s strong point, but he unexpectedly was not in a disadvantage while fighting such an intense battle with the strength path Gu Master Zhu Zai!

“Strange, could it be that this Mo Shi Kuang cultivates both qi and strength path?” Hei tribe camp was in a state of shock.

“It is not like that, Mo Shi Kuang looks like he is fighting close combat, but in truth, his punches are not really landing physically, instead he has a translucent qi armor over his body which he explodes by using qi explosion Gu at the same time, creating an explosive strength comparable to strength path.” Cunning Gentleman Sun Shi Han said in a solemn voice.

He was specialized in investigating and with careful observation, he managed to see through the trick Mo Shi Kuang was playing.

By synergizing with qi explosion Gu, qi armor Gu became a weapon that could both attack and defend. Gu Masters relied on their wits to use Gu. Often, the coordination of different Gu worms could form a complementing effect.

“This Mo Shi Kuang is really fierce, this is the first time I saw someone actually suppressing brother Zhu Zai head on!” Gao Yang’s expression was solemn, he had been observing the battle since the start.

He was extremely familiar with Zhu Zai and understood Zhu Zai was already using almost all his strength, but the enemy, however, was moving so easily and was clearly much relaxed.

Suddenly, the mad growl of a boar exploded in the air.

The beast phantom of a grand emperor boar that was as large as an elephant and had awe-inspiring might, appeared in the air.

Grand emperor boar was a mutated boar, its strength could not be looked down on.

After dozen or so moves, Zhu Zai finally unleashed a beast phantom. Instantly, his offensive power rose sharply and Mo Shi Kuang was caught unprepared as the huge strength struck him and sent him rolling on the ground.

Zhu Zai took the chance to chase him and activated his trump card.

The grand emperor boar phantom gradually disappeared from the air before condensing again. Moreover, another two grand emperor boar phantoms also appeared.

Three grand emperor boar strength!

BOOM!

The enormous strength burst out, causing Zhu Zai’s every punch to create sonic booms.

Mo Shi Kuang felt a sense of crisis and laughed madly: “Interesting! Come, I will show you my true strength!”

He activated his movement Gu and swiftly flew up, easily dodging the attack of Zhu Zai's three boar strength.

Zhu Zai's punch landed on the ground, creating a huge crater with stones and mud flying everywhere.

Mo Shi Kuang's white hair fluttered in the air as he hovered in the air. He then sent punches after punches towards Zhu Zai.

ORAORAORA…

Fist qi smashed down like a meteor rain.

Zhu Zai kept on dodging while also striking back and destroying these fist qi. But soon after, he was falling into a disadvantage.

Facing a qi path opponent, Zhu Zai's strength path's most common weakness started becoming obvious. He was not like Fang Yuan who had strength qi Gu. Zhu Zai lacked long range attacking methods, and Mo Shi Kuang was able to quickly suppress him after changing his battle tactics.

"Not good, brother Zhu Zai won't be able to hold on if he keeps on defending!" Gao Yang knew Zhu Zai's strengths and weaknesses, and was very anxious at this scene as he immediately asked to be sent to battle.

Hei Lou Lan also saw the unfavorable situation and immediately agreed.

"A mere variant human, I will teach you a lesson!" Gao Yang softly shouted, mist started curling around him before condensing into a ribbon that pushed him forward.

"Don't even think of using numbers as an advantage!" Ouyang Bi Sang snorted and moved almost at the same time. His speed was very fast, intercepting Gao Yang midway.

Gao Yang was concerned about Zhu Zai and did not even have any thoughts of fighting Ouyang Bi Sang as he activated cloud rope Gu from a distance.

Milky white mist surged around Ouyang Bi Sang before condensing into a rope which firmly bound him.

Gao Yang was specialized in defense and pinning down enemies, while Zhu Zai was specialized in attacking and investigation; the cooperation between the two complemented each other very well.

Ouyang Bi Sang struggled, the cloud rope shook and broke before condensing again, and actually had the signs of multiplying.

Ouyang Bi Sang was furious as he started transferring his primeval essence into asura zombie Gu in his aperture and transforming into a zombie.

With the transformation into asura zombie, his defense and strength surged rapidly.

Ouyang Bi Sang growled and completely broke the cloud rope with three times the strength. He stamped his foot and flew to the air, blocking Gao Yang again.

Asura zombie was one of the five great flying zombie Gu, it naturally had the ability to fly.

Gao Yang simply did not want to tangle with Ouyang Bi Sang; his brows furrowed deeply as he looked at Ouyang Bi Sang blocking him again, and knew the other wanted to provide time for Mo Shi Kuang to kill Zhu Zai. At this thought, he directly activated his trump card Gu.

Rank five, treacherous cloud wave Gu!

His primeval sea rapidly fell down, almost lowering by half.

A grey cloud that was as big as a carriage surged with dark red light floating inside, and rapidly flew towards Ouyang Bi Sang.

Ouyang Bi Sang moved around and dodged few times, but this cloud followed him like a shadow and finally covered him.

The instant Ouyang Bi Sang was struck by treacherous cloud wave Gu, he felt his sense of direction was lost, his mind seemed to work extremely slowly and his thoughts were slowed down by many times!

He could not differentiate which way was east and which was west and even lost the sense of up and down, left and right. For a moment, as he was covered in the grey cloud, he was like a headless fly that was tossing around in the sky.

“Mo Shi Kuang, don’t be too rampant!” Gao Yang left Ouyang Bi Sang and finally was able to reinforce Zhu Zai in time.

The two combined their strength, and with their deep tacit-understanding, even Mo Shi Kuang who was fierce and fearless was being gradually suppressed.

But the three had exchanged no more than over twenty moves when they heard Ouyang Bi Sang’s shout: “Asura transformation!”

Instantly, six thick arms which looked like they were casted in bronze stretched out through the grey cloud.

From outside, one could vaguely see the figure, inside the grey cloud, inflating like a balloon.

Ouyang Bi Sang used his killer move, his battle strength exploding by several times. His body shook, shaking the dim and lightless grey cloud into dispersing!

“You despicable scoundrels, die!” Ouyang Bi Sang was thoroughly furious as he flew into the air and attacked Gao Yang and Zhu Zai with Mo Shi Kuang.

With such an expert joining the battle, Zhu Zai and Gao Yang were forced to passively defend; the situation had dramatically turned into that of a crisis.

“Alliance leader, Gao Yang and Zhu Zai are experts we must have, we cannot let them die like this!” Tai Bai Yun Sheng saw the situation had turned bad and immediately spoke up.

“Sir’s words are reasonable!” Hei Lou Lan was solemn, and suddenly stood up from his seat.

Although Gao Yang and Zhu Zai had joined them, Hei tribe was still weaker than Liu tribe in terms of higher ranked strength. Hei Lou Lan waved his hand, and just like what he saw Fang Yuan doing, sent the order for an all-out war!

The command was sent and the army began to move.

Liu Wen Wu sneered: “You could not win in experts challenge and now come to gang up. Good, I will accompany you!”

Buggles rang and war drums shook the battlefield; Liu tribe army also moved out.

Two sides, both with hundreds of thousands of soldiers, surged towards the other like a torrent.

The distance between the two army was quickly cut down, and when they were few hundred steps afar, Gu Masters began to attack almost at the same time. For a moment, large numbers of pill fire, icicles, bone spears and wind blades shot towards the enemies. Light armors, bone shields, water barriers and all kinds of defensive abilities were also activated. The originally simple scene had turned into a gorgeous painting of all colors.

BOOM BOOM BOOM……

The attacks from both sides landed on each other almost at the same time.

Like a rainstorm falling down on the lake, ripples started spreading. Only a few Gu Masters with bad luck died or were heavily injured in the intense storm of attack. Most of the Gu Masters continued to attack till the army of the both sides collided. Like the collision of two torrents, blood splattered and chaos descended.

Chapter 532: Huge Battle (2/4)

Translator: ChibiGeneral Editor: ChibiGeneral

At once, even Gao Yang, Zhu Zai, Mo Shi Kuang, and Ouyang Bi Sang's battles were interrupted by the huge influx of people.

The two armies intertwined completely, as fighting sounds erupted and filled the heavens.

Waterfall Gu!

In the chaotic battle, Water Demon Hao Ji Liu pushed with his palms as a great current burst forth, sweeping the Gu Masters in front of him irregardless of alliance.

Great tornado Gu!

A large dark-green tornado over tens of meters tall swept the battlefield. Everywhere it went, humans and beasts flew into the air as they lost their balance.

The tornado dispersed and revealed Chang Biao within.

He was floating in the air with his green robe, he had an overwhelming aura.

He and Hao Ji Liu were not far away, naturally, the two rank four experts made eye contact with each other.

The next moment, there were no trash talks, they fought immediately.

…

A flash of golden lightning pierced the battlefield, all the Hei tribe Gu Masters in its path lost their lives.

The golden light dispersed, and a stoic man with broad shoulders and thin waist appeared, it was Pei Yan Fei!

“Chang Shan Yin, today, I will behead you and take revenge for what happened back then! Eh?” Pei Yan Fei was overflowing with battle intent, fire was burning within him when suddenly, his gaze concentrated and he activated his defensive Gu in time.

Behind him, a lump of shadow exploded.

The shadow was deep and profound, turning into multiple sword shadows as it attacked his back, causing Pei Yan Fei to sway violently.

“It’s you, Shadow Sword Expert!” Pei Yan Fei stabilized his footing as he looked at the Gu Master who attacked him, his gaze becoming serious.

Bian Si Xuan who had a black veil covering her face laughed: “Lord Pei Yan Fei is too courteous.”

She spoke very respectfully, but her actions were not. The black shadow swords appeared again like a windmill, engulfing Pei Yan Fei.

“Then I shall kill you first!” Pei Yan Fei laughed loudly as he charged forward.

…

“Our battle has not ended, where are you two going?” Ouyang Bi Sang, Mo Shi Kuang came before the demonic path twin demons.

Gao Yang and Zhu Zai felt bitter, they could only continue and engage in battle with Ouyang Bi Sang and Mo Shi Kuang.

As the Gu Master experts continued fighting, their battle rings formed into distinct areas, and the chaotic battlefield gradually became clear.

Tens of large battle rings were filled with rank four to five experts. Outside the large rings, there were small battle rings with rank three Gu Masters as the main strength.

Outside the small rings, low rank Gu Masters form into groups as they fought together in teams.

As the main commander, Hei Lou Lan and Liu Wen Wu were sitting in their main tents, observing the battle situation. At times, they gave orders and dispatched their elite troops to areas of the battlefield to stabilize the situation or to pursue their advantage.

The giant battlefield soon gave off the thick scent of blood. Gu Masters continued to fall, some were turned into icicles, while others were charred, some were torn to pieces while others were poisoned to death.

The clean grassland became a weird monster, devouring fresh blood and life every minute and second.

The battle was so intense, after a while, Hei Lou Lan and Liu Wen Wu were both breaking out in cold sweat.

Large numbers of casualties made their hearts turn cold. The intensity of battle made people's hearts go numb.

To maintain the situation, the two quickly dispatched their trump cards, the elite troops. Only the black banner elite troops and grand white elite were left to control the area.

As time flowed, deaths and injuries became less, after all, the explosive strength only appeared at the start, by now, Gu Masters experienced intense primeval essence expenditure and were starting to reduce their usage, this way, the battle intensity started to decrease.

The battle entered a stalemate.

The two armies were like two giants competing at equal strength. Either side could snowball from a tiny advantage, until they emerged victorious, and become the winner of the battlefield.

“Our higher level battle strength are doing well. Wolf King, now that the rank five lurking soul coat Gu is in your hands, together with the mutated beast wolf group, the rest will be up to you.” Hei Lou Lan transmitted with his Gu worm.

At the start of the battle, Fang Yuan was already not in the main tent, but lurking somewhere on the battlefield. His exact location was not known by Hei Lou Lan either.

Fang Yuan received Hei Lou Lan’s words, but he did not reply. He mobilized the wolf group and started to sprint in two directions.

Liu tribe Gu Masters subconsciously chased after them, but this way, the tight formation was loosened.

Howl!

A group of over eight hundred mutated beast wolf group, comprising white-eyes wolves, blood forest wolves, frenzy wolves, shark fin wolves. The wolf group was like a sharp arrow, shooting out and piercing towards Liu tribe’s main camp.

Fang Yuan’s attack was a fatal blow, it was vicious and cruel, striking at the enemy’s vital points.

“A group of mutated beasts reinforcement as expected huh…” Liu Wen Wu looked at the charging wolves that disrupted his formation, large numbers of Gu Masters lost their lives to the wolves as he frowned deeply.

Hei tribe’s Gu Immortal supplying mutated wolves was information easy to obtain, it was no secret.

Liu Wen Wu was unfazed, he had Liu tribe’s Gu Immortals backing him as well, along with the entire Liu tribe. He had his ways of dealing with this mutated beast wolf group.

“Bei Cao Chuan, it is time to strike.” Liu Wen Wu instructed the Gu Master beside him.

Bei Cao Chuan was expressionless, standing up from his seat as he frowned: “I can only last for seven minutes.”

Liu Wen Wu nodded:” No worry, go ahead.”

Bei Cao Chuan walked out of the main tent, his primeval essence rapidly expending as he activated the Gu worm that he had obtained not long ago.

The refreshing aura of grass and wood spread from his body, for a radius of a hundred li.

All the grass within the range of this aura grew wildly, in a few breath’s time, they grew taller than a man’s height. The large blades of grass intertwined, forming rank two grass soldier puppets.

Soon, there were a thousand grass soldier puppets.

Bei Cao Chuan activated his Gu worm, as a jade colored light rained down. The grass puppets were bathed in the green rain water, as a portion of them advanced to rank three rattan shell grass soldiers. At the same time, the rank two grass puppets were still growing.

Bei Cao Chuan activated his Gu worm again, as an orange wind blew on the grassland. As the wind blew, a portion of the rattan shell grass soldiers advanced into the rank four grass sword elite soldiers!

The empty central camp quickly was filled with an army of grass soldiers. At once, it became the most densely packed area in the battlefield.

The charging mutated wolf group was obstructed by these obstacles.

Fang Yuan frowned, he manipulated wholeheartedly. He hid on the back of the blood forest wolf, his body cloaked in the rank five lurking soul coat Gu, it was like a green-grey wolf skin cape.

The lurking soul coat Gu was indeed amazing, it concealed Fang Yuan’s soul and allowed him to strike with his full strength.

But at this time, Fang Yuan felt that he was battling against an enslavement path master.

Bei Cao Chuan manipulated the grass soldier army as tears overflowed his face.

He now had two souls in one body, in order to defeat Wolf King Chang Shan Yin, Bei tribe's elder Bei Cao Sheng sacrificed himself and entrusted his soul to Bei Cao Chuan. Using Liu Wen Wu's Gu worm, Bei Cao Chuan absorbed the power of Bei Cao Sheng's soul, causing him to gain the attainment of an enslavement path master within this short period of time.

Bei Cao Chuan was originally a rank four enslavement path Gu Master, he was also Bei tribe leader, he had the resources of a clan, his soul foundation was not weak. With Bei Cao Sheng's help, he was like a tiger with wings, his enslavement path battle strength surged.

Except that this move had huge repercussions. Because he used another person's soul, Bei Cao Chuan's soul will be impure and he would have memory lapses, he would need to expend huge amounts of spirit and resources, using specialized soul path Gu worms to nourish his soul and heal this problem.

But now, in order to defeat Hei tribe army and take revenge, Bei Cao Chuan could not care less about the aftermath.

Hei tribe had invited Gao Yang and Zhu Zai to mend the gap of their higher level battle strength. And Liu tribe thought of this method to replenish their lower level battle strength, raising Bei Cao Chuan's strength to enslavement path master so that he could restrict Fang Yuan.

At once, Fang Yuan's mutated beast wolf group was barely resisted by the grass soldier army.

“We blocked it? Hahah! Hei Lou Lan, you are bound to lose!” Liu Wen Wu saw this and the worry in his heart vanished, he laughed heartily as his voice resounded the battlefield.

“Damn it…” Hei Lou Lan clenched his fist and gritted his teeth. The situation was terrible, Gao Yang and Zhu Zai were in great danger, and the mutated wolf group that he had placed his hope on was restricted at the enemy's camp, unable to progress!

Without a choice, he had to mobilize the black banner troops.

“Brothers, it is finally time for us black banner to strike!” Black banner commander received this order and shouted excitedly.

Black banner troop was nurtured by Hei tribe for a long time, the trump card made from expending huge amounts of resources. Once they were deployed, they were like a black blade that stabbed into the battlefield, easily slicing it like tofu.

The entire black banner troop was reinforced by battle will Gu, they were brave and peerless, not afraid of death. They could display 120% of their original strength!

“Can’t control it anymore huh?” Liu Wen Wu’s eyes shone brilliantly, staring at the black banner troop’s movements.

When he saw the black banner troop making a curve around the battlefield, towards his central camp, he instantly understood Hei Lou Lan’s intention.

“So you are trying to stake it all on this, gathering your advantage and piercing the grass soldier army. Hmph, Bei Cao Chuan had such difficulty resisting Chang Shan Yin, if the black banner troops appeared, he would definitely fall. By then, Hei tribe would have a mild advantage and this crucial beast group would be free to attack.”

Thinking so, Liu Wen Wu laughed arrogantly: “Your Hei tribe has black banner troops, renowned in northern plains. My Liu tribe also has the grand white troops, of similar magnitude of fame. Black banner and grand white’s competition had been ongoing for hundred of years, let’s see who wins today.”

Under his command, the grand white troops unleashed one of their three killer moves directly.

The grand white troops exploded with a piercing white light.

The white light formed into a giant light pillar that pierced into the heavens.

The light pillar rose up, but after an instant, it descended from the sky, shooting at the area that the black banner troops were advancing towards. The three black banner commanders saw this familiar killer move and ordered their troops to stay on guard.

The light pillar dispersed and the grand white troops appeared with a tight formation.

Grand white troops were foot soldiers, while black banner troops rode battle horses. But in terms of mobility, grand white troops were superior, it was none other than the ability of this killer move!

Chapter 533 - Huge Battle (3/4)

Chapter 533: Huge Battle (3/4)

Translator: ChibiGeneral Editor: ChibiGeneral

Black banner troops and grand white troops started to fight, ever since they were created, they were opposing forces that had contested for hundreds of years, having victories and losses on both sides. At this moment, the two troops engaged in battle and unleashed their killer moves, having no clear advantage on each side.

Seeing his final trump card engaged in a deadlock, Hei Lou Lan's expression turned pitch black.

"Hehehe." Liu Wen Wu laughed heartily, feeling great pleasure, his opponent was at his wit's end, but he was in the same situation.

However, the grass soldier army could still blok the mutated beast wolf group for some time. As for Hei tribe's higher level battle force, they had already shown signs of collapsing, especially Gao Yang and Zhu Zai against Ouyang Bi Sang and Mo Shi Kuang, their battle was very obviously showing signs of a victor emerging.

Ouyang Bi Sang and Mo Shi Kuang, although they were not skilled at cooperating, they had greater individual strength than their opponents.

If Gao Yang and Zhu Zai were fighting two against one, using their great chemistry, they could have a mild advantage. But now, they could only be suppressed, defending desperately as they were in a passive situation.

Anyone could tell that Gao Yang and Zhu Zai were going to fail very soon. Once they lose, Ouyang Bi Sang and Mo Shi Kuang would be like tigers out of a cage, they would start to reinforce other battles.

That way, their mild advantage will snowball and accumulate, allowing the entire battle to sway in his favor.

Once Liu tribe army gains the advantage, Hei tribe without any more backup would have no way of winning, they would only be able to watch their opponent grow stronger as they fall into a worse situation.

Eventually, the other side will turn advantage into victory, and Hei tribe army would crumble!

Hei Lou Lan could see the problem now, he was sweating profusely. He was all alone in the main tent, at this point, he could only rely on his own strength!

His body vanished in the main tent, appeared in the air above the grass soldier army.

He had the intention of killing Bei Cao Chuan, since Bei Cao Chuan did not have lurking soul coat Gu, he was easy to distinguish, once he is killed, the grass soldier army would crumble.

That way, this battle would go back into a double offense situation, at the end, it would be like the first battle, they would have to regroup and retreat.

Killer move — Dark Vortex!

Hei Lou Lan had just activated his killer move, when a white light appeared before him, showing Liu Wen Wu's body.

Hei Lou Lan was a dark path rank five, while Liu Wen Wu was a light path rank five, the two had engaged in combat for many times without a clear victor.

But this time, the gentleman-like Liu Wen Wu showed a mild smile of a victor: "Brother Lou Lan, today's battle depends on a single ray of light. My grass soldier army is going to fall soon, but your higher level battle strength will falter more quickly. What a pity, our armies have very close battle strength, we are nearly evenly matched."

"You are courting death!" Hei Lou Lan shouted furiously, growling and charging at Liu Wen Wu.

The two fought as they moved around, exploding with thunderous sounds or brilliant lights.

“Strange, in my previous life, Hei tribe defeated Liu tribe, but it seems that Liu tribe has the advantage now. Was it because of me that some weird changes occurred?” Fang Yuan hid at a corner as he secretly observed.

He was an enslavement-strength dual cultivator, he had not displayed his full strength yet.

In fact, he had not even displayed his full enslavement path abilities yet.

At this moment, the grass soldier army was barely holding on, he just had to show up and unleash the wolf howl Gu and rank five amplify effect Gu to instantly defeat Bei Cao Chuan.

But Fang Yuan did not move, he chose to observe.

His attention was on Ouyang Bi Sang and Mo Shi Kuang.

Once he showed up, and activated wolf howl Gu and rank five amplify effect Gu, there was a huge possibility that the two of them would come after him.

Truthfully speaking, Fang Yuan was already accomplished in strength path, he was not afraid of fighting Ouyang Bi Sang and Mo Shi Kuang together in close combat.

But…

“My vision cannot be limited to this battle. The fight for the Imperial Court is a competition among super tribes, a game manipulated by Gu Immortals. Once I expose my full strength, even if we win this battle, the other party will definitely target me when they get reinforced by their Gu Immortal. By then, I would have no more hidden trump cards left, my grasp over this situation would fall to rock bottom.”

Fang Yuan's mind was on the Imperial Court, he kept calm at all times and was not disturbed by the dangerous situation ahead of him.

"In my previous life, how did Hei tribe defeat Liu tribe? Although the battle is extremely tense now, both sides had not used their trump cards yet. At least I know that Tai Bai Yun Sheng has a rank five Gu 'man as before'. The less battle strength I expose, the better it is for me. If I strike, it has to be a fatal blow! Now is not the time yet…"

Fang Yuan's heart was calm, despite this intense battlefield that was filled with corpses and rivers of blood.

In his eyes, these casualties were just numbers.

In this battle, many people screamed at the deaths of their friends and family, many people shouted in joy after killing a strong foe, some Gu Masters ran away under the fear of death. Some Gu Masters were filled with ambition, wanting to be a person of higher status.

Human emotions became riled up in such moments of life and death, they were frenzied, crazy, while arrogant and unrestrained.

Observing the ruthless expressions of the people around, hearing their screaming and shouting, Fang Yuan felt a great sense of serenity and peace.

His heart was firm like an ancient abyss, there were no ripples on the surface.

Fight, kill, a person is born to engage in battle.

Win, lose, continue walking on your path, by stepping on other people's corpses.

Let blood boil, let sweat flow, the best moment of life is now…

"Take this, this is my killer move — World Devouring Qi!" In the battlefield, an explosive and thunderous shout burst out.

His voice attracted numerous gazes as everyone subconsciously focused on it.

“Oh no, let’s go!” An intense sense of danger assaulted him as Gao Yang shouted, activating his Gu worm and wanting to escape, but the surrounding air was as dense as walls, he could barely move.

Mo Shi Kuang floated in the air, opening his hands as his ten fingers converged before his chest.

Gao Yang and Zhu Zai felt a despairing sense of pressure, squashing them from all directions. Their shocked expressions froze on their faces, the feeling of imminent death filled their hearts.

“Go!” Before the moment of death, Zhu Zai burst out the strength of three grand emperor boar, piercing a hole on the wall-like air.

“Brother!” Gao Yang felt his world spinning, when he reacted, he had already been tossed far away by Zhu Zai, away from the battlefield.

As for Zhu Zai, he was squeezed into meat paste by Mo Shi Kuang’s killer move, through an intense and concentrated air pressure.

“Brother!!” Gao Yang shouted, his heart felt like it was pierced by daggers as tears flowed out of his eyes like a flood.

Mo Shi Kuang also vomited a mouthful of blood.

“Second brother, your killer move is not completed yet, don’t activate it casually.” Ouyang Bi Sang quickly hurried over and held him in the air.

Mo Shi Kuang vomited blood as he laughed: “What a great battle, I used it without thinking, hahaha…”

Ouyang Bi Sang shook his head: “Alright, let’s continue killing that Gao Yang, after we resolve the problem here, we will reinforce the other battles!”

Liu Wen Wu who saw this laughed, he declared with overwhelming confidence: “This is the start of our Liu tribe army’s consecutive victories! Brother Lou Lan, you have no way of winning already!”

“Is that so?” It was not Hei Lou Lan who replied him, but Tai Bai Yun Sheng who was at another battle ring.

Tai Bai Yun Sheng who had always been evading attacks suddenly burst out with great speed as he pulled some distance from his opponent, opening his palms and shooting out a silver beam.

The silver beam shone on Zhu Zai's flesh and blood that became meat paste.

Rank five — Man As Before!

In an instant, silver light shone brilliantly, making people close their eyes in response.

After the light faded, Zhu Zai reappeared on the battlefield, without any injuries on him, as his primeval sea level was also at its peak.

Under the effect of man as before, Zhu Zai returned to the state right before the battle!

The shocked expression not only appeared on multiple Gu Masters' faces, even Liu Wen Wu, Mo Shi Kuang, and Ouyang Bi Sang had the same expression.

Man as before Gu had an incredible healing effect that made almost everyone feel shocked and speechless!

Man as before Gu, time path healing Gu, could return a target to his condition at a point in time.

"Good, what a great healing Gu!" Hei Lou Lan laughed heartily, he did not expect Tai Bai Yun Sheng to be concealing such a strong trump card. As long as they had this, Hei tribe's higher level battle could drag on for a long time.

"Good, now is the time!" Fang Yuan's eyes shone with brilliance as he activated rank four eagle rise Gu, flying up into the sky.

Rank five amplify effect Gu and rank four wolf howl Gu!

Fang Yuan opened his mouth and howled, as his voice spread far and wide.

Under the effect of the wolf howl Gu, all his mutated beasts' bodies expanded, as their eyes turned bright red, their battle strength grew by five times!

“Go.” Fang Yuan floated in the air, staring at the battlefield as he muttered.

The wolf tide burst out, like a tsunami out of nowhere!

“Damn it, I can’t hold on!” Bei Cao Chuan was at his wit’s end, he resisted desperately, but the grass soldier army was like a thin piece of paper under the wolf tide, it was torn to shreds without even lasting for a few breath’s time.

Bei Cao Chuan did not even manage to escape before a frenzy wolf pounced on him and tore his armor with its sharp teeth, before biting his throat.

Bei Cao Chuan resisted with all his strength, sending this frenzy wolf flying, just as he was about to cover his neck and get up, three white-eyes wolves came and after a struggle, he was a corpse torn into several pieces.

The grass soldier army went down, Fang Yuan thus manipulated the wolf group and attacked grand white troops.

Grand white troops were fighting with black banner troops, they were stuck in a stalemate as they exchanged blows. Now that the mutated beast wolf group attacked them from behind, they suffered heavy injuries.

“Hahaha, Liu Wen Wu, it seems that I have the last laugh!” The battle turned in such a sudden direction, Hei Lou Lan was overjoyed and surprised.

“No, I have not lost yet!” Liu Wen Wu’s face was distorted as he shouted frantically, like a gambler who had gone crazy from losing. He turned into a white light, flying towards Ouyang Bi Sang and Mo Shi Kuang.

“Second brother, third brother!” He shouted.

Chapter 534 - Huge Battle (4/4)

Chapter 534: Huge Battle (4/4)

“We are here, big brother!” Ouyang Bi Sang and Mo Shi Kuang shouted at the same time.

“Let them see the true strength of us three brothers!” Liu Wen Wu shouted, and without slowing down, directly smashed into Mo Shi Kuang and Ouyang Bi Sang.

The two laughed loudly, their body giving off green and grey light.

Green, grey and white, three lights collided. BOOM !. Light dispersed and on the spot appeared a human-shaped monster.

This monster had three heads and six arms. It was twenty feet tall with tight muscles and bronze skin.

The three heads had the appearance of Liu Wen Wu, Ouyang Bi Sang and Mo Shi Kuang.

“This….?!” Countless people looked on with wide eyes at this freakish scene.

“I will let you guys know, this is our three brothers’ killer move — Three Head Six Arms! Are you trembling in fear? Let out all your dread. This will be the last moment of your lives!”

The three heads spoke in unison.

“Hmph, shameless boasting!” Gao Yang snorted, activating his treacherous cloud wave Gu.

A grey cloud shot towards the three head six arms giant, but before it even reached its target, Liu Wen Wu’s eyes shot two light beams that pierced through the cloud.

BOOM!

With a sonic boom, the three head six arms suddenly appeared above Gao Yang.

“So fast!” Gao Yang’s pupils shrunk and from the battle experiences he had cultivated over a long period of time, he quickly activated his defense Gu.

The monster waved its two arms.

One arm pierced through the light barrier while another arm smashed Gao Yang’s head like it smashed a watermelon.

Next moment, Gao Yang’s headless corpse fell down from the sky.

“Brother!!!” Rage attacked Zhu Zai’s heart and made him lose all reasoning, as he ferociously charged towards the monster.

“Muahahaha, the lamentation of ants.” Mo Shi Kuang’s head laughed loudly and lightly flicked his finger towards Zhu Zai.

BOOM!!!

Qi flow exploded and moved straight through the battlefield with formidable impact force, inflicting injuries for several thousands of steps.

Zhu Zai directly exploded from the attack, his blood and crushed bones flying in all directions. The Gu Masters who suffered the after-effects of the attack were all injured heavily.

“This power… it has increased by at least six times and the speed has increased by nine times at least! This three people combination, is it combining asura transformation, the attacking force of qi path and the effects of light path?” Fang Yuan had an intense urge to battle when he looked at this scene.

“I have all-out effort Gu, and by adding in rank five amplify effect Gu, I can burst out with five hundred jun of strength! I wonder who would win if I fight with this monster?”

But in the next moment, Fang Yuan suppressed his battle intent and flew down, again hiding among the mutated beast group.

Man as before Gu!

At this moment, two silver lights shone down; Zhu Zai and Gao Yang resurrected again, restored to their previous state!

“Old geezer!” The monster’s six eyes were filled with icy glint, killing intent and battle intent, simultaneously charging towards Tai Bai Yun Sheng.

Tai Bai Yun Sheng panickedly retreated; although he had man as before Gu, he could only use it on others and could not use it on himself.

“All those that are free, protect Tai Bai Yun Sheng!!” Hei Lou Lan hurried to reinforce while shouting to his army, realizing the crux of the battle.

“Who can stop me?” Ouyang Bi Sang’s head loftily smiled.

Next instant, the monster turned into a ray of green light that shot towards Tai Bai Yun Sheng like lightning.

Tai Bai Yun Sheng was hiding behind others, but no one was able to block the monster as it charged straight, sweeping everything on its path. Anyone that dared to block it, be it Gu Masters or beasts, would become pools of crushed flesh and bones.

“Benefactor, leave quickly!” Gao Yang and Zhu Zai rushed over, guarding Tai Bai Yun Sheng behind them.

“Cumbersome things.” The monster waved its six arms so quick that one could only see their afterimage.

THUMP THUMP , Zhu Zai and Gao Yang were smashed again.

“Take my sole blade Gu!” Pan Ping hurried over and activated single blade Gu.

Sole blade Gu successfully activated this time and the monster’s huge body slightly shook, a shallow wound appearing on its chest.

“A little interesting.” The monster laughed coldly; the wound had completely recovered by the time he finished laughing. Afterwards, the monster let out a breath of turbid air.

The turbid air detonated and exploded Pan Ping into pieces.

“Tai Bai Yun Sheng, where are you going?” The monster howled with laughter, the voices of the three heads gradually becoming one.

Tai Bai Yun Sheng had not moved very far when the monster intercepted in front of him.

Swoosh!

Waterfall flowed in a torrent and Hao Ji Liu came riding it.

The monster pushed forward with all six hands and collapsed the water torrent; Hao Ji Liu screamed miserably and flew backwards in a faster speed than he came.

Seeing this scene, Bian Si Xuan who was charging forward immediately stopped, not daring to go forward.

Dark vortex!

Hei Lou Lan sped down from the sky, and the giant black sphere that was as large as a hill pressed down.

The monster roared, its six hands forming into a claw shape and slashing towards the distant black sphere.

Killer move — World Devouring Qi!

The air became as thick as a wall and solid as a mountain. Hei Lou Lan’s face turned red and purple, but he was not able to continue forward.

Following after, air from all around surged and unexpectedly swallowed his killer move.

The killer move which Mo Shi Kuang could not carry out completely was suddenly perfected in the monster's hand.

Howl!

The mutated wolf group rushed over while Hei Lou Lan delayed the monster. In an instant, the mutated wolf group had surrounded the monster tightly.

A bloody battle broke out.

The mutated wolves which had a strength of rank four Gu Masters, fearlessly initiated a death charge at the monster.

"KILL KILL KILL!" The monster growled repeatedly as it turned into a berserk state and started fighting the mutated wolves.

His every movement carried his full power. Light path, qi path and transformation path Gu worms jointly attacked with deep tacit cooperation, as if the monster was a cultivator cultivating three paths!

The mutated wolves died one after another, but the monster's offensive was still as fierce as before.

"Lord alliance leader, let me lend you a hand!" At this moment, a Liu tribe Gu Master hurried over to assist.

But in the next moment, he was smashed apart alive by the monster which had lost its reason!

"Lord Liu Wen Wu has lost his mind!"

"He has become mad!!"

The battlefield was in an uproar and Liu tribe army's morale fell down sharply.

"My tribe has suffered tremendous losses, we have lost one-third of our Gu Masters, it is time to retreat."

"How can such an alliance leader be worth us giving up our lives?"

"Let's discuss after we retreat, the casualties have already reached a high level. Retreat now, don't care about violating the poison vow."

The battle had reached such a chaotic state that was beyond everyone's expectation. Deserters started to appear from both Hei and Liu tribe.

The black banner troops and grand white troops that had been managing the army were in an intense fight now, how could they have the energy to spare to suppress these deserters?

"What to do?" Hei Lou Lan asked; this monster gave him an extreme headache.

"Don't worry. Killer moves have astonishing might but their consumption of primeval essence is also enormous. Moreover, this killer move clearly has a defect, this monster has already lost its reasoning. A powerful being without intelligence is nothing to worry about." Fang Yuan calmly analyzed, his voice shaking everyone's mind.

"Yes, if nothing unexpected happens, then we have already won this battle!" Tai Bai Yun Sheng added.

But he had just finished speaking when the unexpected event happened.

The three head six arms monster suddenly separated into three people who then charged into three directions.

Liu Wen Wu and Mo Shi Kuang's charge missed, but Ouyang Bi Sang's eyes shone as he shouted: "Chang Shan Yin, I have finally found you! Die!!"

Their three people combination into three head six arms monster allowed their souls to mix and their battle strength would raise rapidly, but this state could not be maintained for long. The longer it was used, the more chaotic their memories would become, finally leading them to lose themself and become a delirious lunatic or become an idiot.

When they killed the Gu Master that had come for reinforcement, their minds shook and barely managed to regain a trace of sanity.

Relying on this sanity, they planned in making a comeback.

Compared to killing Tai Bai Yun Sheng, killing Chang Shan Yin would no doubt be much more important.

The investigative Gu of these three were not common Gu. By carefully observing the battlefield, they calculated the three places where Fang Yuan was most likely to be hiding.

In the end, Ouyang Bi Sang found Fang Yuan's hiding place.

'Damn it! If the Wolf King dies, the wolf group will crumble apart. Liu tribe's army will be able to turn around the situation and it will instead become my army's defeat.' Seeing Ouyang Bi Sang pouncing at Chang Shan Yin with a sinister smile, Hei Lou Lan shouted inwardly as he crazily rushed to assist, but he was still late.

"Die!" Ouyang Bi Sang unexpectedly still had enough primeval essence left to activate asura transformation again!

"Wolf King is finished!" Sun Shi Han was afraid but also happy.

"Bad! Chang Shan Yin is going to die!!" Tai Bai Yun Sheng and others had pale expressions.

"Father!" Chang Ji You shouted in desperation.

However, the person in question, Fang Yuan, had a strange smile on his face as he saw Ouyang Bi Sang's attack.

Rank four eagle raise Gu and rank five amplify effect Gu!

A pair of eagle wings suddenly grew out of Fang Yuan's back and took him towards the sky with five times the speed.

Ouyang Bi Sang was dazed for a second before he hurried chased, shouting: "Don't even think of escaping!"

But his speed was not enough and he could only look on as the gap between them spread apart.

“Let me!” Liu Wen Wu shouted and turned into a white light that rapidly charged over. But Fang Yuan nimbly turned around and dodged.

Mo Shi Kuang also rushed over at this moment, chasing and intercepting Fang Yuan.

Fang Yuan was extremely deft – at times, he was like a butterfly passing through the flowers; at times, he was like a lightning; at times, he was like a light wind; and at times, he was like a ghost, playfully circling the three.

“This… this is master level flying skill!” Everyone looked at this sight with dumbfounded gazes.

Gu Masters raised Gu, used Gu and refined Gu; no matter which aspect, they were all profound and vast. It was clearly the same Gu that they were using, but some Gu Masters could use them brilliantly, elevating it to a level of art.

People often called these individuals — masters!

“I had never thought that Wolf King was not only an enslavement path master but also flying master!” Everyone looked for a while and let go of their worries, exclaiming in surprise.

“Wolf King, don’t run if you dare!” Ouyang Bi Sang shouted.

“Chang Shan Yin, if you have any guts, come exchange three hundred moves with me!” Mo Shi Kuang roared in fury.

“Damn it…” Liu Wen Wu gnashed his teeth, his heart already sinking to the bottom.

Fang Yuan’s flying skills left them in the dust. What made them even more vexed was that Fang Yuan was unexpectedly separating his thoughts in controlling the wolf group to slaughter Liu tribe army, while dodging them!

“Oh for heaven’s sake, if I knew you could fly this skillfully, why would we need to fight to this extent?” Looking at Fang Yuan’s skillful maneuvers, Hei Lou Lan felt some resentment in his heart.

As for the Liu tribe three brothers, they were completely speechless.

Chapter 535 - Meeting of ‘Father and Son’

Chapter 535: Meeting of ‘Father and Son’

Liu Wen Wu lost.

It was an indignant loss, but this was the truth, it would not change because of his feelings.

Liu Wen Wu, Ouyang Bi Sang, Mo Shi Kuang all had flying abilities. But in terms of flying attainment, they could not compare to Fang Yuan.

The sky was different from the ground, people could fly freely in the air, up, down, left, right, they could dodge in all directions and fly everywhere. But on the ground, there was much less space for evasion.

No matter how Liu Wen Wu and gang tried to block him, they could do nothing to Fang Yuan.

Meanwhile, as Fang Yuan dodged, he mobilized the wolf army to slaughter Liu tribe’s army.

Liu Wen Wu and gang had no choice but to give up on chasing Fang Yuan, turning to kill the wolf group and helping the low rank Gu Masters.

But this was what Hei Lou Lan, Fang Yuan and others wanted to see!

Using wolf kings or the mutated wolf group to expended the Liu tribe three brothers’ precious primeval essence was very worth it, it was very advantageous to Fang Yuan as well.

As long as a Gu Master did not advance to immortal realm, their primeval essence would be limited. Once they expend their primeval essence, their battle strength would decrease drastically and hit rock bottom.

The wolf tide came again and again, the more wolves the Liu tribe three brothers killed, the more primeval essence they used up.

The wolf group's scale was huge, it was never-ending, eventually, Liu tribe three brothers killed until their primeval essence was depleted.

By the time they had to preserve their primeval essence they would no longer be able to battle freely. Hei tribe's higher level battle strength finally had something to do as they suppressed the three of them.

"Hei Lou Lan, today, I did not lose to you, but I lost to Tai Bai Yun Sheng and Chang Shan Yin!" Liu Wen Wu's hair was messy as his body was covered in injuries, he no longer had his gentleman-like attitude as he shouted indignantly.

He felt that: With their three brother's killer move 'three heads six arms', they had great battle strength and could suppress the battlefield. If back then, they got to Fang Yuan and used their supreme speed to kill Fang Yuan, the wolf group would've collapsed and Hei tribe would've lost.

But Tai Bai Yun Sheng had the rank five healing Gu 'man as before', the effect was godly, it greatly weakened the effectiveness of their killer move.

When they were left with no choice and chased after Wolf King, they found that the enslavement master Chang Shan Yin was actually a mother****ing flying master!

The three brothers could not catch him, they could only watch the battle crumble. Eventually, Liu tribe lost and was chased down by Hei tribe, they suffered great losses and countless people surrendered.

As the alliance leader, Liu Wen Wu and others were captured after their primeval essence was depleted.

Hei tribe and Liu tribe had always been competing, the two super tribes had a tense relationship, it was well known in northern plains. Now, Hei tribe only captured Liu Wen Wu and others and did not kill them, they wisely sought for a great amount of battle reparation from Liu tribe.

Liu Wen Wu was one of Liu tribe's prospective Gu Immortals, if he was killed, the bottomline of this Imperial Court contest's rules would be infringed.

More importantly, although Hei tribe won, it was a tragic victory and they suffered huge losses as well. Without Liu Wen Wu to bargain for huge amounts of compensation, just ordinary battle gains would not allow Hei tribe to regain their strength. This was very disadvantageous for their future battles for the Imperial Court.

Three days later, Liu tribe's envoy came, and brought all of the Liu tribesmen and the tribes that submitted to them back into the blessed land.

As for the tired and heavily damaged Hei tribe army, they set up camp and managed the people who surrendered, reforming their alliance and collating the battle gains, giving out resources and digesting the spoils of war.

In the large lizard house Gu, Fang Yuan sat on the cushion as he cultivated intently.

A rank four wolf soul Gu appeared out of his body through his will.

The wolf soul Gu was only thumb-size, it was like a tiny grey wolf-shaped doll, it floated in the air as it was covered in an eerie blue light.

The primeval sea level in Fang Yuan's aperture dropped as primeval essence was injected into the wolf soul Gu, causing it to expand rapidly.

Howl!

Wolf soul Gu expanded and turned into a pure grey wolf soul, as large as an elephant.

Next, the wolf soul opened its mouth and howled soundlessly, crashing towards Fang Yuan.

Fang Yuan smiled lightly, how could a thousand man soul be so easily affected? The wolf soul crashed on his thousand man soul, and immediately froze, suppressed by his thousand man soul.

The two souls tangled as they turned into mist. A moment later, the wolf soul fused into the thousand man soul and reappeared.

At this moment, the thousand man soul had a long pair of wolf ears on its head, its body was thinner than Fang Yuan's body, and its nose also became sharper. The only part that had not changed were its long hair, eyes, and tail.

“Ever since the Imperial Court competition, I have been using wolf soul Gu daily to refine my soul. Now, I have achieved small success, my soul is around 30% wolfman soul.”

Once he fully converts to wolfman soul, his control over the wolf group would experience another qualitative change. Not only would the numbers increase greatly, he would be able to command them like an extension of his limbs, controlling them would require a mere thought.

After a intense battle, his soul's tiredness and weariness would also be lower.

“But according to this speed, by the time I completely refine the wolfman soul, the Imperial Court contest would be over already. I only have rank four wolf soul Gu, the efficiency is way too slow.” Fang Yuan sighed.

If he had rank five wolf soul Gu, that would be better compared to Fang Yuan's current situation. But rank four wolf soul Gu was like a grown man using a tiny knife to chop a tree.

In truth, Fang Yuan's soul cultivation was already very fast.

Ordinary Gu Masters needed to spend at least twenty to thirty years to reach his level. Even a genius Gu Master with a clan's support could only be like Dong Fang Yu Liang, reducing the time needed to ten years.

Fang Yuan had Dang Hun mountain, his soul foundation grew at rocket speed, his point of view was obviously different.

"If I can get that Thieving Heaven inheritance, and obtain Luo Po valley…" Fang Yuan's thoughts drifted to this.

But a moment later, he stopped this thought.

In Hu Immortal blessed land, Dang Hun mountain was corroded by the gruel mud continuously, there was only a small mountain left now.

His current objective was to save Dang Hun mountain. As for Luo Po valley, he could only search for it after the Imperial Court contest ends.

While Fang Yuan was cultivating, Chang Biao brought Ni Xue Tong, and Chang Ji You to the door of the large lizard house Gu.

I am Chang Biao, I was summoned by Lord Wolf King." Chang Biao's voice was low and polite, he respectfully informed the guarding Gu Master.

The two rank three Gu Masters had a plain expression as they stood by the door, one answered; "Lord Wolf King is cultivating now, we cannot enter the Gu house to inform him, you will have to wait!"

"Hehe, that is only natural." Chang Biao laughed, trying to conceal the bitterness and dreariness in his heart.

He and Chang Shan Yin had a huge grudge, he would not be willing to submit to Hei tribe. Originally, he wanted to go to Liu tribe, but Liu tribe wanted him to give up his family name and join Liu tribe, this request was impossible for Chang tribesmen and the elders to accept.

Chang tribe was a large size tribe, once they gave up their family name and became Liu tribesmen, Chang tribe would cease to exist.

Furthermore, Hei Lou Lan captured Liu Wen Wu alive and in order to appeal to the most important person Chang Shan Yin, he added in the condition of taking over Chang tribe among the battle reparation.

Thus, Chang tribe became the sacrificial lamb in Liu and Hei tribe's transaction. If Chang tribe did not submit to Hei tribe, they would be assaulted by Hei tribe's army. Forced by both tribes, Chang tribe had no choice but to lower their heads to Hei Lou Lan, becoming Hei tribe's captives.

Chang Shan Yin and Chang tribe's enmity was known to all. After Hei Lou Lan captured Chang tribe, he let Fang Yuan deal with them completely.

After Fang Yuan got the news, he expressed his gratitude to Hei Lou Lan, but in fact, he did not care about it.

He was only using Chang Shan Yin's identity, in order to enter the Imperial Court blessed land. Wolf King's grudges had nothing to do with him.

But if he settled this casually, it would not fit his current status, and people would get suspicious. Thus, Fang Yuan informed Chang tribe's current leader Chang Biao to meet him.

Chang Biao waited from evening to midnight.

At this period of time, northern plains' nights were extremely cold. Chang Biao and the others had their Gu worms confiscated, the primeval essence in their apertures could not resist the cold. Under the blowing night wind, they were shivering from the cold.

Chang Biao kept a calm expression, but Ni Xue Tong was very guilty, she could not conceal the worry in her heart. Chang Ji You was young and at the peak of his health, although his nose was red from the cold, and his body was shivering, his eyes were shining brightly with excitement.

All his life, he had been hearing about the 'Wolf King Chang Shan Yin' and his great deeds.

Everyone called him the ‘hero’s son’, he was gifted this unique status from birth, this gave him great worries, pride, trouble, and even chance encounters.

When he had first heard about Wolf King Chang Shan Yin being alive and had returned, but wanted to exact revenge on Chang tribe, he had very complicated feelings. When he found out that he was going to battle his father, his intense battle intent wavered. During the earlier meeting, Chang Shan Yin did not appear, in fact he went to bash up Sun Shi Han, this made Chang Ji You feel disappointed but also great admiration. After Liu tribe lost, he became a captive but that made him sigh in relief — he no longer needed to fight with his father!

Right now after Liu tribe lost, he was going to meet his real father, Chang Ji You was very excited in his heart.

Even though he was outside shivering and suffering from the weather, it could not freeze the hot-bloodedness in him.

“The person who gave me everything, my father, what kind of person are you?” He was very curious, but he also felt a bit lost and anxious.

After using three wolf soul Gu, Fang Yuan opened his eyes.

The sound of the icy wind blowing outside the window could be heard in the warm room.

Fang Yuan purposely gave Chang Biao a display of authority, after counting the time that had passed, he knew it was time. Thus, he transmitted his message while controlling the large lizard house Gu and opened the doors.

“Lord Wolf King has finished his cultivation, he will meet you now.” The Gu Master guards outside received the transmission and said expressionlessly.

Chang Biao’s breathing paused, he felt great trepidation as he walked in first, with heavy footsteps.

If Wolf King found out the truth, then he would die without a proper corpse, his reputation would be ruined. Even if Wolf King did not find out the truth, as long as he wanted revenge, killing the whole of Chang tribe would only be a sentence worth of work.

Being meat on the chopping block, this was the helplessness of being in this world!

Fang Yuan looked at the three people kneeling before him.

Chang Biao lowered his head, gritting his teeth, while Ni Xue Tong had a pale expression and was shivering. As for Chang Ji You, he was breathing roughly, but he took peeks at Chang Shan Yin at times, showing an excited expression.

Fang Yuan laughed lightly.

The laughter was heard by all three of them, causing them to shudder.

Chang Biao shut his eyes, his heart had sank to rock bottom, he was waiting for judgement.

Ni Xue Tong almost collapsed on the ground weakly, but Chang Ji You was very agitated, this was father's laughter, he felt a strong sense of warmth from this laugh.

Chapter 536 - Major Battles

Chapter 536: Major Battles

Fang Yuan observed Chang Biao and the others' expressions fully.

Fang Yuan knew about Wolf King Chang Shan Yin's matters mostly from his biography, he did not know the true culprit behind Wolf King's situation.

But even if he found out, he would not bother taking revenge for the dead Wolf King.

He was Fang Yuan, the so-called Chang Shan Yin was merely a mask.

“From today onwards, I will be Chang tribe's one and only supreme elder.” Fang Yuan spoke, breaking the silence.

Chang Biao's body shuddered, he opened his eyes and quickly bowed: “Chang Biao pays respect to lord supreme elder.”

“Mm.” Fang Yuan nodded: “We need to investigate the matters from back then thoroughly. But now is not the time, we have to wait till the Imperial Court contest ends. From today onwards, I will be Chang tribe's sole supreme elder. Chang Ji You, you will be the tribe leader. Chang Biao will be the number one elder. Ni Xue Tong, our relationship is over, continue to be Chang Biao's wife.”

Because of Giant Sun Immortal Venerable's tradition, in northern plains, women had lowly status, they were often sold as commodity in transactions. In fact, at times, when an esteemed guest comes to visit, the lord would send his own wife to the esteemed guest to sleep with him.

“Ah?” Chang Ji You was stunned on the spot, he froze completely.

Ni Xue Tong did not speak.

Chang Biao controlled the shock in his heart, he bowed once again: “This subordinate understands!”

“Leave.” Fang Yuan waved his hand, sending them away. He had to make good use of his time to continue cultivating.

The three walked out of the large lizard house Gu in a daze, until the cold night wind blew on them and woke them up.

“I… survived just like this?” Chang Biao felt endless joy and happiness.

“But the matter back then was done flawlessly! Even though there are some traces here and there, after all these years, the evidences are long gone. Back then, I got close to Chang Shan Yin on purpose, and became good buddies with him. Now that Chang Shan Yin had gone through such a great change, plus it has already been so many years, it is normal for our relationship to turn bland.” Chang Biao thought rapidly in his head.

The current situation was way better than what he had expected.

“Although I was demoted from tribe leader to elder, most of my authority is intact. Chang Shan Yin still trusts me seeing that he allowed me to be the number one elder! As for making Chang Ji You the new tribe leader, it shows that he is still caring about his own blood and flesh deeply! As long as he cares about his old relationships and friendships, everything will be easy to resolve…” Chang Biao thought and got more energetic.

He was dreaming within his own world, and did not notice his wife Ni Xue Tong’s complicated expression.

The old Chang Shan Yin was extremely infatuated with her beauty, but earlier, Chang Shan Yin did not give her even an extra glance.

On the way here, she was extremely worried about Chang Shan Yin forcing her to his wife again. That way, she will be separated from her lover Chang Biao, that was too painful!

But now, the situation was way better than she had expected.

Not only did Chang Shan Yin not pursue the matters back then, he even allowed her to remain as Chang Biao's wife!

This was the result that Ni Xue Tong was dreaming of earlier. She should be happy, but for some reason, while she still felt some trepidation from earlier, there was also a sense of loss in her, that she did not want to admit.

As for Chang Ji You, he was in great joy, confusion, and suspicion.

"I've finally met father, he was just a few steps in front of me! He is much more authoritative than I imagined."

"Father did not call me his son, but instead called my name. Is he unaware that I am his flesh and blood?"

"But father, why did he let me become Chang tribe leader? I am so young and only have rank three cultivation, can I do it?"

"I get it! This must be a test from father. He is testing me, this son he had never met, if I can manage the tribe well and achieve outstanding results, will he feel happy and proud, will be recognise me as his son?"

Thinking so, Chang Ji You felt extremely excited, he made up his mind, he would exert all his efforts and perform well in the upcoming fight for the Imperial Court.

Fang Yuan would not expect that his simple arrangements would bring such great emotional changes in Chang Biao and gang.

But even if he knew, he would not care.

In the five hundred years of his past life, Chang Shan Yin helped Ma Hong Yun to ascend to the position of the Lord of the Imperial Court, he also had complete control over Chang tribe.

Different from Earth, when strength can be accumulated within a person, the stronger one is, the greater their authority would be.

At this point, Fang Yuan was no longer the low rank Gu Master on Qing Mao mountain, suppressed and weakened by the system. Right now, he had the authority to manipulate and change the power system of a tribe. One could say, he was at the peak of the mortal realm.

He knew in his heart, all this was because of the great strength that he had!

“Right now, my first aperture had already adapted, I can use rank five peak stage primeval essence. My second aperture has also reached rank five middle stage. My two apertures have ninety percent A grade aptitude, to use my two sets of Gu worms now, I have ample primeval essence.

“But enslavement and strength path Gu worms are not extremely strong. In terms of strength path, after getting the rank five amplify effect Gu, my explosive force is already high enough, except that my body is unable to endure the increment in strength.

Earlier, when fighting against Liu Wen Wu and his brother’s combination killer move ‘three heads six arms’, Fang Yuan could definitely fight against them using his strength path cultivation.

But Fang Yuan knew clearly that the moment he unleashed five hundred jun of strength, regardless of how his opponent will ends up, his own body would definitely crumble first.

“My bones are impermanence bones. My skin is turtle jade wolf skin. To sustain five hundred jun of strength, this is not enough. But if I modify my muscles and tendons to accommodate strength path, they would not suit my enslavement path. If I modify them for enslavement path, they will not aid my strength path. The root of the problem is that enslavement and strength have some conflict between them, it is difficult to cultivate them together. It is unlike soul and enslavement path, or soul and wisdom path.”

This problem had always been troubling Fang Yuan.

If he could not resolve this, Fang Yuan's enslavement and strength path would only go far, but would not reach the apex and attain ultimate strength.

Although Fang Yuan had information regarding Luo Po valley now, the future was uncertain, anything could happen. Fang Yuan was a vigilant guy, before getting Luo Po valley, he would not make up his mind to cultivate soul path, thus, he needed to perfect his enslavement-strength path route now.

Fang Yuan closed his eyes and thought about it, before opening them and taking out east window Gu from his aperture.

This Gu was a storage Gu, used to store information, it came from Lang Ya land spirit.

Inside east window Gu, there was information regarding the killer move 'three heads six arms'. This killer move was extremely powerful, it could allow Liu Wen Wu, Ouyang Bi Sang, and Mo Shi Kuang to become a giant monster, increasing their battle strength to a terrifying level.

After Hei tribe defeated Liu tribe, they make requests regarding this killer move, thus it became a part of the reparation. Thereafter, Fang Yuan exchanged for it using his battle merits.

These days, when Fang Yuan was free, he would research about this killer move.

When Gu Masters use multiple Gu worms at the same time, allowing their effects to merge and cooperate to form greater effects, that would be the so-called Gu Master killer move.

Killer move 'three heads six arms', needed eighteen Gu worms to be used at the same time. Gu worms used ranged from rank three to five, the primeval essence expenditure was huge as well. At the same time, three Gu Masters were needed, one could not activate it alone.

This killer move was unusable by Fang Yuan. But that did not mean it was worthless to him.

Killer move, or recipes, displayed exquisite usage of Gu worms.

Why was it that when these Gu worms were used in a specific way, they achieved such effects? Why can these Gu worms do it, but not others? If this Gu was changed to another Gu, can the same effect be achieved? If an enemy uses this killer move, what ways are there to counter it?

Man is the spirit of all being, Gu is the essence of heaven and earth.

Inside a Gu, there were tiny laws of heaven and earth, the fragments of the great Dao.

By understand Gu, one would comprehend the great Dao, and understand the natural laws of this world. Just like on Earth, using experiments to learn scientific theories.

This Gu recipe gave great insight to Fang Yuan.

"If I had three heads and six arms, what would happen?"

A flash of inspiration appeared in his brain, like opening a new window.

His body was like the cornerstone. Enslavement and strength path were like the buildings on top of the cornerstone. Right now, this cornerstone was still small, thus the two buildings could only be low-rising. If he expanded this cornerstone in the future, would it be able to contain two tall buildings at the same time?

Fang Yuan had never cared about his own appearance.

Handsome, beauty, ugly, these were other people's opinions. What did that have to do with him?

If his battle strength was high, so what if he was called a monster?

Northern Plains, July.

The weather was turning cold, mist turned into frost, it was raining non-stop.

All the armies engaged in many intense battles, there were already less than fifty left.

Although Hei tribe won against Liu tribe, they suffered a great loss as well, they set up camp and made use of all their time to recuperate and recover, like an injured beast.

Middle of July.

At Du Jiao region, Ye Lui army defeated the alliance of seven armies, on the day of the counterattack, Ye Lui Sang killed three rank five Gu Masters.

But in this battle, the biggest achiever was a hidden elder in Qi Lian tribe, Qi Lian tribe leader's godson, Wu Ming.

Wu Ming was a rank five middle stage dark path Gu Master. During the battles, he snuck into the enemy camp and assassinated the enemies, successfully killing two rank five experts, thirteen rank four Gu Masters, causing the seven alliance armies to feel great fear and low morale.

Northern Plains, August.

After Yang tribe recruited enslavement master Jiang Bao Ya, their strength surged and they experienced many victories, after some battles, they were one of the new popular competitors for the Imperial Court.

The new enslavement master "Leopard King' Nu Er Tu led his army against Tao tribe. Tao tribe alliance army had suffered many setbacks during the battles, the alliance leader Tao You knew that he had no hopes of ascending to the Lord of Imperial Court position. Thus, he submitted to Nu Er Tu, and after their armies combined, their military power surged.

Middle of August, Hei Lou Lan gave orders to resume their conquest.

By September, the Imperial Court contest was starting to clear up. Only five armies had the highest hopes.

Hei tribe which had Chang Shan Yin, Tai Bai Yun Sheng, Nu Er tribe with the new Leopard King, Yang tribe which had Rat King and Eagle King, Ma tribe with Horse King, as well as Ye Lui tribe which had Ye Lui Sang who possessed an Immortal Gu.

First half of September, Nu Er tribe army fought Yang tribe army. The leopard group could not contest the combination of eagles and rats, after half a month, Nu Er Tu lost.

Start of October, while Yang tribe was digesting the battle reparations, Ye Lui Sang targeted them.

Yang tribe army had people who wanted to fight, some wanted to defend, while some wanted to retreat. Because of differing opinions, the army could not execute proper orders, and thus, was taken down by Ye Lui Sang.

After Ye Lui Sang win, they could not gloat for long, because Ma tribe had their eyes on them.

Ma tribe rushed for three days and three nights, catching Ye Lui Sang off-guard.

A similar scene unfolded again, before Ye Lui army digested their battle gains, they were defeated by Ma tribe.

Ye Lui Sang escaped with his remaining troops, submitting to Hei tribe army.

Start of November, Hei tribe moved north rapidly, setting up eight defensive lines on the way, and during the middle of the month, engaged in the final battle with Ma tribe.

Only the victor could stay in the Imperial Court. Meanwhile, the loser would have to pay reparations and face the ten year blizzard amidst disappointment and pity.

At once, this battle attracted numerous gazes, both participants and the people behind the scenes.

During the first few battles, Hei tribe had the advantage, after Ma tribe lost two defensive lines, they retreated to the third.

Ye Lui Sang wanted to take revenge, thus he kept challenging them, killing till Ma tribe army could only hide and defend themselves, causing their morale to dampen.

Ma tribe had no choice, but to seek help from Snowy Mountain blessed land who was backing them.

ChibiGeneral ChibiGeneral Summary: Most of the tribes either ran away or joined the winner, the final battle started, Ma tribe vs Hei tribe.

Chapter 537 - Xue Song Zi

Chapter 537: Xue Song Zi

Translator: ChibiGeneral Editor: ChibiGeneral

The lofty Snowy Mountain stood tall and reached through the clouds.

Mountain ranges surrounded it like stars surrounding the moon. The sky had a hue of light blue color. Thin snow fluttered lightly and landed on the ground.

This was a spotlessly white region with even the buildings on the mountain carved out of ice crystals.

Here was Snowy Mountain blessed land.

The nest of northern plains' demonic path Gu Immortals, with tens of Gu Immortals occupying different peaks.

On one of the peaks of Snowy Mountain, green pine trees grew everywhere and a seven storey pavilion made of ice crystal stood there. Three large words were carved on the board in the pavillion — Xue Song Pavilion.

The owner of this peak, Xue Song Zi, was a famous rank six demonic path Gu Immortal of northern plains.

He was tall and thin with snow white hair that reached the ground and was clothed in a light blue gown. Right now, he was on the top floor of Xue Song Pavilion, looking down at this Snowy Mountain branch peak that belonged exclusively to him.

He had deep blue eyes and his deep gaze swept through a thousand li of his territory.

"The snow pines are growing well, the snow willows planted two years ago have already grown to over ten thousand willows. This year, the number of Gu worms produced was close to three hundred rank five Gu; there are still a surplus of ice path and water path Gu worms after leaving some for research. I can sell them and gain at least two-three immortal essence stones.”

“Of course, my most important income source is still the transaction of snowmen slaves.”

Xue Song Zi raised six variant human tribes on his branch peak, they were all snowmen.

Snowman was one of the species of variant humans who lived in ice-cold snowy regions. They had white skin, icy blue eyes and aqua blue hair. When they die, their blood and flesh body would turn into an ice sculpture.

Snowmen normally did not cry or laugh, so their tears were very rare. The absolute majority of the snowmen would never experience crying from joy or pain in their life.

However, if a snowman sheds tears, their tear would instantly condense into ice. Icy tears were precious Gu refinement material that Gu Masters liked deeply.

Xue Song Zi looked around once and nodded, satisfied.

Snowmen looked expressionless, but Xue Song Zi, however, saw them as the variant humans with spirituality that was the closest to humans. Many Gu Immortals raised snowmen, torturing them brutally for their icy tears.

Icy tears could be used in many areas of Gu refinement, and so its transaction in treasure yellow heaven was flourishing.

Many Gu Immortals massacred and killed snowmen to profit from their icy tears.

Xue Song Zi also did such shady business before, but he soon discovered the market for trading snowmen was much more profitable than the icy tears themselves.

From then onwards, he began to raise snowmen and sell them in treasure yellow heaven for other Gu Immortals to torture.

Snowmen could shed tears at most three times in their life and the amount would not surpass sixty drops. Every time they shed tears, the snowman's lifespan and life essence would decrease by a huge amount.

The more the snowman sheds tears, the faster they will age, speeding up their death.

However, raising snowmen did not cost much.

Moreover, Xue Song Zi possessed this Snowy Mountain branch peak which was very beneficial for the growth of snow pines, snow trees and snowmen, thus his profit from selling snowmen was much higher than when he sold tears.

He was good at making money and had accumulated a large amount of immortal essence stones from his thriving business over the years, and was considered wealthy in the Gu Immortal circle.

But he had one great regret — decades had gone by since he became rank six Gu Immortal, but he still did not have even one Immortal Gu.

No matter how many immortal essence stones he had, he was not able to buy Immortal Gu. After all, there was only one of each Immortal Gu, others would not sell them even if they had it. At most, they would use Immortal Gu to exchange for Immortal Gu.

"Now, Ma tribe has already reached the final step, if it can prevail over Hei tribe and enter Imperial Court, maybe I can obtain my first Immortal Gu from Eighty-Eight True Yang Building… hmm?"

Xue Song Zi was thinking of all the matters, when suddenly he had a feeling and casually waved his hand.

Space tore open and a letter Gu flew in.

Xue Song Zi read the letter which was Ma tribe's request for help.

“So they have finally gotten to this stage.” The corner of Xue Song Zi’s lips curled up into a smile.

He had been paying close attention to the struggle for Imperial Court and already knew the difficulties Ma tribe was facing. Previously, he had gotten in contact with Ma tribe, but Ma tribe had not made a decision. Now due to the tense battle situation, Ma tribe sent a request for assistance, it was akin to agreeing to his previous conditions.

“With this, it is time to make my move.” Xue Song Zi gradually restrained his smile and activated divine sense Gu.

Three divine senses separately flew towards three snowman tribes on the snowy peak.

After receiving the divine sense, three snowman Gu Masters immediately hurried towards the mountain peak.

After a while, they were kneeling in front of Xue Song Pavilion and greeted together: “Xue Wa, Xue Mi and Xue Ming greet Lord Immortal!”

Xue Song Zi did not reveal himself, instead sent some Gu worms towards these three snowmen’s hands.

“Take these Gu worms and also battle troop D to the outside world and find Ma tribe, help them win the battle.” Xue Song Zi sent another divine sense.

“As you command.” The three snowman Gu Masters immediately accepted the order.

Xue Song Zi had four battle troops marked A, B, C and D. They were elite troops formed from experts of the six snowman tribes.

The three snowman Gu Masters led battle troop D out of the Snowy Mountain blessed land, but before they even reached Ma tribe, Hei tribe’s Gu Immortals noticed them.

“Elder brother, this Ma tribe has relations to Snowy Mountain’s demonic path Gu Immortals as we expected. The evidence is out in the open now, Liu tribe's external supreme elder Gu Immortal Tan Bi Ya was not wrong." Hei Bai said to Hei Cheng in Xiao Hun blessed land.

These two were Hei tribe's Gu Immortals.

Hei Bai had an ordinary appearance and looked to be middle-aged, he looked clumsy but was intelligent. While Hei Cheng was recognized as Hei tribe's genius since young, he looked elegant and confident, and was also Hei Lou Lan's father.

Hei Cheng glanced at Hei Bai and calmly said: "Brother, do not fret. Demonic path Gu Immortals have always been lone wolves. Snowy Mountain might be strong and have tens of Gu Immortals, but those that are supporting Ma tribe will only be two-three at most."

Hei Bai nodded: "Elder brother is right, but the current Ma tribe is truly strong. They were able to win great battles just by relying on themselves previously. Now if they obtain Gu Immortals' support, they are bound to get much stronger."

Hei Cheng was in agreement as he asked: "Have you investigated who the demonic path Gu Immortals supporting Ma tribe are?"

"I haven't but it should be easy."

"Do it. For the next few days, we will buy five hundred thousand wolves, three hundred mutated wolves, two wolf emperors and a few thousand Gu worms along with other resources to give to Hei Lou Lan."

"Yes, elder brother!"

"Also, instruct Hei Lou Lan to end the battle quickly so as to avoid new problems."

Hei Bai gave an understanding nod, and left Xiao Hun blessed land without speaking any more.

A war did not only pit human lives against each other, it was more about the competition between each other's foundations, a war of attrition.

The struggle for Imperial Court had advanced to the final stage; Hei Cheng and Hei Bai, two immortals who had been supporting Hei Lou Lan, gradually started to feel an extremely heavy burden.

Although Gu Immortals were rich, they could not support the whole army for such a long period of time.

The amount of resources and mortal Gu needed were extremely enormous. A part came from their blessed land, but most of them were purchased from treasure yellow heaven using immortal essence stones.

With such huge amounts of immortal essence stones being expended, both Hei Bai and Hei Cheng felt distressed inwardly.

The struggle for Imperial Court was essentially a game. But it was not a game all Gu Immortals could afford to play.

Many Gu Immortals would put huge stakes in this game to obtain an Immortal Gu. In the end, if the side they chose did not become the owner of Imperial Court, they would lose disastrously, there were even examples of going bankrupt.

But if they won and obtained Immortal Gu from Eighty-Eight True Yang Building, all their investment would be worth it.

After all, no matter how many immortal essence stones they had, they would not be able to buy an Immortal Gu.

After ten days, Hei tribe and Ma tribe began another round of battle. Troops lined up in a seemingly endless battle formation.

In the main tent, Hei Lou Lan sat on the main seat with his eyes gazing at his front and his heroic spirit was overflowing: “We did not cause huge damage to Ma tribe the previous two times, we will teach them a good lesson this time. It is not that easy to become a super tribe, hmph! Who will go first?”

The moment he finished speaking, Water Demon Hao Ji Liu stood up and bowed: “Lord alliance leader, I would like to go first!”

Hei Lou Lan nodded in satisfaction.

Water Demon Hao Ji Liu was an expert who had chosen to submit to him since the heroes assembly.

And he had been assisting and fighting in the struggle for Imperial Court the whole journey, and killed countless enemies and had made huge battle contributions at this stage.

Although Pei Yan Fei also attached to Hei tribe after Liu Wen Wu lost, he could not shake rank four Hao Ji Liu's position as the first general.

Hao Ji Liu was an 'old general' of Hei tribe army and adding in the loyalty which he had revealed many times, if nothing unexpected happened, he would be taken in as an external elder by Hei tribe once they become the owner of Imperial Court.

Hei tribe was a super tribe with Huang Jin bloodline, one of the overlords of northern plains. If Hao Ji Liu joined Hei tribe, it would be like taking a shelter under a large tree, similar to Wind Demon Tan Wu Feng joining Dong Fang tribe.

Hao Ji Liu entered the battlefield and started taunting. Ma Shang Feng snorted and pointed at him: "This Water Demon again, who will go teach him a lesson?"

"Lord alliance leader, let me go take care of him this time." A boorish guy stood up; he was Ma tribe's general, rank four transformation path Gu Master — Cheng Hu.

Ma Shang Feng agreed, Cheng Hu impatiently went to the frontline and started fighting Hao Ji Liu.

Hao Ji Liu attacked cleverly with great offense, torrents surging around him. Because of many precious and rare Gu he had exchanged with his battle merits, Hao Ji Liu's current battle strength far surpassed the time when he had just started out in the struggle for Imperial Court.

The two sides exchanged moves after moves, and after over ten rounds, Hao Ji Liu slowly began to occupy the upper hand.

Cheng Hu felt stifled as kept on being pushed into disadvantage, he gave a furious roar and activated his killer move, transforming into slant-eye tiger.

The tiger was ferocious and powerful, immediately turning around the losing situation.

Hao Ji Liu was widely known for his fierce offense, but he was having trouble fending off the tiger's attacks, and could only keep on retreating, changing his battle tactics into defending and counter-attacking.

Chapter 538 - Challenge

Chapter 538: Challenge

Translator: ChibiGeneral Editor: ChibiGeneral

Swoosh swoosh.

A blue water current shot out. Slant-eye tiger roared in a thunderous volume.

This was the rank four tiger roar Gu!

The tiger roar sound waves caused ripples in the air, as it hit the currents, the water exploded into a huge rain.

After Cheng Hu became the slant-eye tiger, he had great offense, immediately giving off a dominating aura.

Tiger roar Gu, sends out sound waves. Tiger claw Gu, has overwhelming sharpness. Tiger skin Gu, has superb defense!

Tiger tooth Gu, is pointy like spears, has amazing penetration ability. Tiger tail Gu, strong like a whip, moving like one's arms!

Transformation path Gu Masters would collect relevant Gu worms for their killer move. Once the Gu worm set is complete, they would be able to transform and obtain a huge qualitative surge in their battle strength.

Of course, the stronger the transformation, the more valuable the Gu needed for their set, and the harder it is to collect them.

Even if a Gu Master could transform, they needed a lot of training. Humans were born to walk on two legs, having two arms and one head. If they transformed into another form, it would not be easy for them to adapt.

Same as flying, only huge amounts of training and talent would allow one to have great proficiency in using their new form.

Gu Masters nurture, use, and refine Gu, this was the deep profound aspect of using Gu.

The two armies placed their gaze on the battle ahead.

Hao Ji Liu and Cheng Hu's battle had already reached the crucial moment.

Cheng Hu used his killer move, turning into the slant-eye tiger, he had the advantage. Hao Ji Liu could only evade primilarily, compared to his earlier frenzied attacks, he was truly pathetic now.

However, as time continued to pass, the battle was still stuck at a deadlock. Although Cheng Hu had a huge advantage, he could not turn this advantage into victory.

Even though most of Ma tribe's troops were rejoicing, the people sitting inside Ma tribe's main tent were frowning.

"Not good, this Water Demon is very crafty! Cheng Hu is in danger." Ma Ying Jie said.

Many of the experts around nodded in agreement.

Although killer moves were strong, in truth, they were actually multiple Gu used at the same time. This meant that primeval essence expenditure was very high, for normal Gu Masters, this was a double-edged sword.

After Chang Hu used his killer move, with Water Demon Hao Ji Liu's plentiful experience, he immediately changed his hard-hitting tactics. As Cheng Hu was unable to take down Water Demon in time, after his primeval essence was expended, he would return to human form. By then, Water Demon Hao Ji Liu would retaliate.

Ma Shang Feng looked calm, but his heart sank.

If this was the past, Cheng Hu's success or failure would not bother him. But now, Cheng Hu's victory or loss was not his problem alone, it concerned the morale of the entire army.

Ma tribe had lost twice already, Ma Shang feng knew that the tribes that submitted to them had already wavered.

Ma tribe army was led by Ma tribe, the other tribes were needed to make the alliance. Once their hearts wavered, the situation would turn dangerous.

Ma Shang Feng did not wish to see Cheng Hu fail.

But with the current situations, Cheng Hu was very likely to fail, Ma Shang Feng could only sigh in his heart as he called: “Fei Sheng Cheng.”

Fei Sheng Cheng immediately stepped up, placing his right palm at his heart, bowing: “I am here.”

“You will go for the second battle.” Ma Shang Feng said. In order to alleviate the negative influences caused by Cheng Hu’s defeat, he placed his hopes on Fei Sheng Cheng.

Fei Sheng Cheng was a fierce general.

Earlier, he was ostracised by Fei tribe, and could not rise up. Ma tribe thus used him as an insider, and during Fei tribe’s internal political strife, they launched a surprise attack while they were weak and managed to take down Fei tribe.

After Fei Sheng Cheng submitted to Ma tribe, which was a wise ruler, he made many accomplishments and was highly regarded and nurtured.

Right now, he came before the battle area and shouted.

“He is Fei Sheng Cheng, ever since the Imperial Court contest, he had killed eight rank four experts. In an earlier battle, he used numbness Gu and fought three experts of the same realm alone, showing great abilities.” In Hei tribe main tent, Sun Shi Han said.

Ye Lui Sang’s expression was cold.

The ‘earlier battle’ Cunning Gentleman Sun Shi Han mentioned was the battle between Ma tribe and Ye Lui tribe. In the end, Ye Lui Sang lost and was chased by Ma tribe, almost becoming a vagabond. The tribes that submitted to Ye Lui tribe, like Qi Lian tribe, all went to Ma tribe.

Numbness Gu, a rare rank four Gu, had value equivalent to a rank five. Once a Gu Master was struck, they would be paralyzed, unable to move. Although it lasted a short time, during an intense battle, this was a very deadly technique.

Hei Lou Lan responded in agreement, and looked around, asking: “Who can battle?”

Once he said so, one person laughed heartily and stood up: “Fei Sheng Cheng is nothing much, I am willing to battle and sweep the obstacles away in your path to conquest!”

Hei Lou Lan looked at this person, it was none other than Sole Blade Pan Ping.

Earlier, Pan Ping was defeated by Liu tribe’s three brothers combination move, and was revived by Tai Bai Yun Sheng using man as before Gu after the battle. Not just him, Gao Yang and Zhu Zai were revived in the same way.

“Alright, then you shall go.” Hei Lou Lan nodded.

If this was during the start of the battle, he would not think highly of Pan Ping. But after tens of battles, Pan Ping was no longer like before, he had grown quickly to become an expert like Pei Yan Fei.

“Fei tribe lad, you are just a traitor, a shameless scoundrel seeking glory. You being alive is the greatest humiliation, quickly receive your death!” Pan Ping jumped onto the battlefield and shouted, surging with battle intent.

Fei Sheng Cheng was furious, he hated people who called him this: “You are just a demonic path bastard, earlier I let you act arrogantly because you did not anger me yet!”

Immediately, the two fought.

At once, the scene was bursting with attacks as they were evenly matched. When two experts on par with each other battle, it would be an intense battle.

Actually, the two of them had similar circumstances. At the start of the Imperial Court contest, the two of them were people who were not doing well. Pan Ping was a demonic path Gu Master, he lived a tough life. As for Fei Sheng Cheng, he was suppressed by his clan and could not achieve his goals.

But because of this Imperial Court contest, the two gained fame and emerged from the battles while gaining great surge in strength.

Pan Ping only had one good Gu back then, sole blade Gu. But now, he used his battle merits to exchange for an exquisite set of Gu worms, his strength grew by leaps and bounds. It was unlike before when he relied on sole blade Gu alone.

Fei Sheng Cheng was the same.

Earlier, he was ostracised in his clan, even though he had a complete set of Gu worms, he lacked strong effective methods. He had also accumulated battle merits in battle, and exchanged the rank five equivalent numbness Gu, paired with his Gu worms, his battle strength rose sharply.

The two of them engaged with each other endlessly, but they both had their concerns.

Pan Ping was afraid of numbness Gu, while Fei Sheng Cheng was guarding against sole blade Gu.

Speaking of the sole blade Gu, it was Pan Ping’s good luck, it resides in the scimitar instead of the Gu Master’s body or aperture.

After Pan Ping was blown to bits, only the sole blade Gu survived.

After that, when Tai Bai Yun Sheng revived him, he lost all of his Gu worms except sole blade Gu. And thankfully, Pan Ping had a lot of battle merits which he had not used.

But Gao Yang and Zhu Zai were not so lucky.

After they died, they lost all their Gu worms. Most unfortunately, Gao Yang's rank five treacherous cloud wave Gu was destroyed as well.

Rank five man as before Gu, it could only target human bodies and not Gu worms.

But the two felt calm, after all, being able to revive was the biggest benefit!

Thereafter, they borrowed battle merits to replenish their Gu worms. After several battles, not only did they return all the battle merits they owed, they even had some gains left.

The battle of two rank four experts attracted countless gazes.

Ma tribe saw that Fei Sheng Cheng and Pan Ping were at a deadlock, and sent out another six fierce generals.

Hei Lou Lan accepted all the challenges, sending Pei Yan Fei, Gao Yang, Zhu Zai and others.

When the six pair of experts battled, Cheng Hu finally lost. Water Demon Hao Ji Liu had no strength to chase after him, he could only watch Cheng Hu escape safely.

Hei tribe's morale surged, but quickly, in the third battle, Ma tribe won, and tied the scores.

The two sides continued to send experts, as more than thirty battle rings appeared before the two troops.

That is so say, there were around seventy rank four Gu Masters fighting at once!

This was a grand scene, in the entire northern plains, there were billions of people, mostly being mortals, but only several hundred rank four Gu Masters, and less than fifty rank five Gu Masters.

Precisely because of the battle for the Imperial Court, all these people gathered and collided with each other, competing intensely. In the battle for life and death, even stronger Gu Masters emerge while the weak get exterminated.

It was near the end of the fight for the Imperial Court. Be it Hei tribe or Ma tribe, they were both huge forces.

Not counting Gu Immortals, either army had a scale that surpassed super tribes greatly.

All members of both armies were definitely excited and filled with ambitions.

Only Fang Yuan was calm, in his previous life he had seen even larger events, that was the chaotic battle of the five regions, it was truly a time of unrest.

“Lord alliance leader, I would like to battle!” A young rank four Gu Master walked up as he could not contain his battle intent.

This was none other than Ge Guang.

Ge Guang was Ge tribe leader, he was originally rank three, but after so many battles, he survived and gained a huge boost in strength, having advanced to rank four successfully not long ago.

Hei Lou Lan was stunned, turning his gaze towards Fang Yuan.

Fang Yuan was Ge and Chang tribe’s supreme elder, both tribes were under his control.

Fang Yuan sensed Hei Lou Lan’s inquisitive gaze and lightly commanded: “Stand down Ge Guang, you are a tribe leader, how can you put yourself at risk?”

Ge Guang stepped down obediently.

Fang Yuan asked: “Where is Chang Biao?”

“Lord, I am here.” Chang Biao had a sickly expression, he had yet to recover from his injuries from the previous battle.

But Fang Yuan did not care about this, saying: “You will go fight.”

Chang Biao wanted to speak but he could not, filled with an intense rage in his heart. Ever since he joined the Hei alliance army, he would be ordered by Fang Yuan to participate in every huge battle.

Even if he was a famous expert, he could not undergo consecutive battles with such a high intensity.

“Damn it! This Chang Shan Yin, is he ordering me like a beast?! Curse my current weak position, I cannot oppose him. I will wait and endure, there is still a long way to go. If I can harm you more than ten years ago, I will still be able to send you to the underworld after so many years!”

Chang Biao screamed in his heart, but on the surface, he chose to obey Fang Yuan’s orders, dragging his injured body into the battlefield.

ChibiGeneral ChibiGeneral I can see a huge cloud of death floating above his head now.

Chapter 539 - Rank Five Peak Stage!

Chapter 539: Rank Five Peak Stage!

Translator: ChibiGeneral Editor: ChibiGeneral

With Chang Biao taking the stage, Ma tribe sent a female expert.

This person's name was Xi Xue, a rank four peak stage Gu Master, a famous expert of ice path. She possessed a rank five flying snow Gu which once activated could cause heavy snowfall and make a range of thousands of steps into an ice zone.

When Chang Biao saw this expert, he inwardly said: 'This will be difficult."

Even if he was at his peak condition, he would have to be careful when facing this woman, let alone now in his injured state.

The two started fighting, Xi Xue had a sharp offense while Chang Biao kept on dodging to prolong the battle; with this, he was unavoidably pressed in a disadvantageous situation.

The battles continued and as time passed, some rank four Gu Masters lost, some retreated due to injuries and some died at the enemy's hand.

There were casualties in both sides, but with regards to the overall situation, it was a draw.

Slowly, there were fewer and fewer rank four Gu Masters in the main tent of both sides; they did not have enough to mobilize.

"Gu tribe leader, please show your strength now." Hei Lou Lan's gaze landed on a man who was sitting upright.

Gu tribe leader Gu Guo Long was an earth path Gu Master who had once given huge trouble to Hei tribe army by piling stones into a mountain, and made Hei Lou Lan have the thought of retreating. But after Tai Bai Yun Sheng arrived, Hei tribe won and Gu tribe merged with Hei tribe army as the defeated side.

Gu Guo Long's appearance shocked Ma tribe army.

This was the first appearance of a rank five expert, Ma Shang Feng immediately responded by sending Cheng tribe leader Cheng Long.

This person was a rank five expert of transformation path and was big brother of Cheng Hu.

Gu Guo Long bowed slightly upon seeing Cheng Long and politely said: "So it is Cheng tribe leader, please give me pointers."

Cheng Long chuckled: "I won't dare to teach tribe leader Guo Long, let's just compare our moves."

The two started their battle with such a huge momentum that it suppressed everyone and became the focal point of countless gazes.

Gu Guo Long could attack and defend with stable and unflustered movements. While Cheng Long flew freely in the sky, fierce and calm.

When the two had exchanged twenty moves, Hei Lou Lan sent another rank five expert Luo Bo Jun.

Luo Bo Jun had previously sided with Liu Wen Wu, but after Liu tribe lost against Hei tribe, he became one of the higher-ups of Hei tribe army.

Ma tribe also sent out a rank five expert to take on Luo Bo Jun.

With regards to rank five experts, Ma tribe was not inferior in any respect. Previously, Nu Er Tu annexed Tao tribe but was then defeated by Yang tribe who was then attacked by Ye Lui tribe; in the end, Ma tribe defeated Ye Lui tribe, becoming the final winner. From this battle, Ma tribe gained many large tribes – Qi Lian tribe, Cheng tribe, Zhao tribe, Lui tribe, Tao tribe, Yang tribe and other formidable forces.

At the same time, they also gained Jiang Bao Ya and Yang Po Ying, and together with Ma Zun, they had three enslavement path masters!

Rank five Gu Masters mostly occupied positions of power and prestige; their tone of speaking in the fight was much calmer and cordial in comparison to the boiling killing intent between the rank four Gu Masters. When they attacked, they would also hold back some of their strength in consideration of each other's feelings.

Because if they died, their tribe would become a leaderless group and would be swallowed by Hei tribe or Ma tribe.

Although they were hostile to the enemy, their heart was still tied to their tribe's benefits. Even if they were under the constraints of poison vow, there were tacit unwritten rules.

Fang Yuan calmly observed the battle from his seat.

He had only showed rank four peak stage cultivation, but as an enslavement master and a key character that could influence the whole situation, his position was special and was higher than those rank five tribe leaders.

"What a great move by Giant Sun Immortal Venerable, a truly wonderful plan!" As he was personally participating in the struggle for Imperial Court, Fang Yuan truly felt more and more overwhelmed.

Giant Sun Immortal Venerable left built Eighty-Eight True Yang Building as an inheritance for his descendants and at the same time, also set up 'Imperial Court contest' tradition; one could tell he had pondered about it meticulously.

Leaving aside Eighty-Eight True Yang Building, just this struggle for Imperial Court was a field of purging at every stage with Huang Jin tribes swallowed other tribes and strengthening themselves.

At the same time, the gathering of goods developed the abnormally blooming battle merits economy during the battles. And through war reparations, technology and skills were exchanged, which further deepened the foundation of the Huang Jin family.

What was even more important was the survival of the fittest rule which forced Gu Masters to exert their strength at the edge of life and death and become experts. For Huang Jin tribes, this was filtering out the Gu Immortal seeds.

Giant Sun Immortal Venerable was no longer alive, but his influence was still governing the whole northern plains.

“Compared to the Immortal Venerable, I am only an ant like existence at present. But it was also because I took advantage of this struggle for the Imperial Court that my strength could advance by leaps and bounds…”

Fang Yuan then divided a little of his concentration to look into his aperture.

There were many new Gu worms in his aperture. Most were rank four with one rank three along with one rank five asura zombie Gu and one rank five earth overlord Gu.

Ever since Fang Yuan had gained inspiration from ‘three heads six arms’ killer move, he had been combining his foundation and imagination to make some progress in his research.

He then condensed the research findings into a killer move which he called — Four Arm Earth King!

When he activates this killer move, a completely new pair of arms would grow out from his sides. His strength would increase sharply when he used all four of his arms, comparable to the killer move of Liu tribe’s three brothers”three heads six arms’!

“But, compared to three arms six heads, my four arm earth king’s form can only be maintained for a short time. I will only be able to exert full strength when my feet is touching the land. If I fly, my battle strength will fall by half.”

This killer move had been newly created by Fang Yuan and was still not perfected. He would need to examine this killer move through battles, add in some new Gu, replace unnecessary Gu or directly cut down on them, and slowly this killer move would be perfected.

The sun gradually rose higher, but with blizzard disaster approaching closer, the normally intense hot sunlight appeared to have no heat.

The surging battle intent on the battlefield gradually accumulated to the climax.

All sorts of attacks burst out in dozens of battle rings like colorful fireworks, creating an extremely dazzling scene.

There were only a few Gu Masters left in the Hei tribe's main tent. The rest were either fighting, retreating, recovering or had died in the battlefield.

Considering the overall situation, Hei tribe was in a slightly weaker position.

Since the start till now, Hei Lou Lan had obtained Hei Bai and Hei Cheng, two immortals' active support. While Ma tribe had only requested assistance from Xue Song Zi only at this battle.

"Hmph, Ma tribe's bunch of trash can really take a beating!" Hei Lou Lan snorted with a fierce gaze as he started getting impatient.

His gaze landed on Fang Yuan and was just about to speak, when three beast groups rushed out of Ma tribe camp.

From the left side, many horses galloped on the earth, causing the ground to rumble like a muffled lightning!

From right side, countless rats rushed out while squeaking and hissing, so packed that it caused people to feel a chill down their spine.

From the center, eagle group soared up like dark clouds, actually looking like it could cover the sky!

Horse King Ma Zun, Rat King Jiang Bao Ya and Eagle King Yang Po Ying, these three enslavement path masters had moved at the same time.

Beast groups charged, immediately dispersing most of the battle rings.

Ma Shang Feng saw he was slightly winning in the experts challenging and wanted to rely on the dominance of their enslavement path masters to suppress Hei tribe army and change the unfavorable situation.

Facing the combined attack of three beast groups, Hei Lou Lan immediately tensed up and looked at Fang Yuan: “Wolf King, it is your turn now!”

Fang Yuan nodded and leisurely stood up from his seat.

He slowly strolled to the head of the twin-headed rhino and looked down at the three beast groups – all of them were fierce, powerful and were huge in size.

Either one of the three enslavement path masters were at the same level as him and were formidable opponents who would not lose to him in regards to enslavement path.

It was to the extent that the enslavement path Gu worms they had were much more comprehensive and superior to Fang Yuan’s wolf enslavement Gu worms.

Under the condition that he did not reveal his strength path battle strength, Fang Yuan would find it hard to fight against this group by himself. In the previous two rounds of battle, his wolf group had all along been pushed into disadvantage by the three beast groups and had suffered huge losses. Meanwhile, Ma tribe had relied on this advantage to make the beast groups cover their backs and thus they could safely retreat behind defense lines the previous two times.

But at this moment, Fang Yuan coldly laughed, his heart filled with soaring battle intent.

His enslavement path Gu worms were slightly weaker in comparison to these three enslavement path masters, but he had received huge support from Hei tribe’s Gu Immortals before the battle and his wolf group’s size had increased by over ten times.

These wolf groups were hidden within the army and by using some Gu worms, the enemy was unable to sense them.

“Wolf King! I am Yang Po Ying, do you dare to fight me?” In the sky, Yang Po Ying was riding on a huge eagle, his heroic aura shone and his posture was upright as if it was a battle spear that would charge to the sky.

He took the initiative to challenge in order to pin down Fang Yuan’s wolf group.

The eagle group could attack the wolf group from air, thus had a very advantageous position.

“Hahaha, Old Yang, go easy on brother Chang Shan Yin, after all he is an enslavement master like us. You need to give him some face.” From the right, Rat King’s ridiculing laughter could be heard.

And on the left, among the horse group, Ma Zun who was not good at talking just groaned and charged forward. Around him were large number of Gu Master experts on war horses, guarding him.

Enslavement path masters could display extreme strength when they themselves were present in the battle while commanding their beast group.

The three masters braved the risks and led their beast group in the charge. This was akin to three heavy punches, if the Hei tribe army did not block it off properly even by a little, they could very well be knocked out, the whole situation could crumble apart and they would have to retreat powerlessly.

After all, a battlefield was filled with unpredictable variables. There were many examples of the weak winning against the strong. Let alone when Hei tribe was only occupying a slight dominance.

“Brother Shan Yin…” Hei Lou Lan could not help revealing a worried expression. Although the scale of the wolf group had increased sharply, beyond that of the three beast groups, he was worried Fang Yuan would not be able to control all of them properly. After all, Fang Yuan had never controlled such a large number of wolves.

If he was not able to control them properly and instead became confused, or even if he could control them, with Wolf King's rank four peak stage primeval essence, how long could he hold on for?

Fang Yuan stood on the head of the twin-headed rhino, silent as his back faced Hei Lou Lan.

Looking at the three majestic beast groups charging and killing, pincer attacking from both sky and land, and were already approaching close, while Wolf King had yet to make any movement, Hei Lou Lan felt very anxious as he urged: "Brother Shan Yin, make your move quickly!"

Fang Yuan was still silent as if he did not hear it.

The three beast groups rushed over with great momentum and was less than two hundred steps away and looked like it would arrive in an instant; Hei tribe's army was in an uproar and Hei Lou Lan urged even more anxiously: "Brother Chang Shan Yin!!"

Fang Yuan raised his head and laughed: "It is time! The enemy poured all their strength to pressure me with the beast groups, but they do not know that they have brought about their own demise. Alliance leader Lou Lan, I need to congratulate you."

"Congratulate me for what?"

"This battle has already been won, the die is cast, alliance leader becoming the Lord of Imperial Court is a foregone conclusion." Fang Yuan lightly said.

Hei Lou Lan's eyes opened wide, he nearly shouted: 'The f*ck! Where are you getting this ridiculous sense of confidence from! Quick, mobilize your wolf group for me, the enemy is already near and you still have time to talk about such nonsense!?'

However, the very next moment, his eyes almost popped out like someone had struck the back of his eyes.

It was because he felt Fang Yuan's aura having astonishing changes.

From rank four peak stage to rank five initial stage…

From rank five initial stage to rank five middle stage…

From rank five middle stage to rank five upper stage…

And from rank five upper stage to rank five peak stage!

Right now, Fang Yuan was slowly lifting the concealment of breath concealment Gu and did not suppress his true cultivation anymore.

Rank five peak stage, a genuine rank five peak stage!

Wolf King Chang Shan Yin was actually a rank five peak stage enslavement path master!

Hei Lou Lan was dumbstruck and dazed as he stared at Fang Yuan's back view. The Gu Master guards nearby the main tent also looked with shocked and stunned gazes.

Under everyone's gaze, Fang Yuan activated eagle rise Gu; large eagle wings gently raised him to the sky.

In the sky, he gave a long howl.

Rank five amplify effect Gu and wolf howl Gu!

The wolf howl resounded throughout the skies, directly suppressing all the sounds from the three beast groups.

Howl… howl… howl!

The wolves started howling one after another in response to Fang Yuan.

ChibiGeneral ChibiGeneral I need to congratulate you guys. The real battle is starting.

Chapter 540 - One vs Three!

Chapter 540: One vs Three!

Fang Yuan flew into the sky.

“Yang Po Ying, Jiang Bao Ya, Ma Zun, today is the day all of you die.” He said plainly, his voice was loud and clear, reverbing in everyone’s ears.

Ma Zun: “…”

Jiang Bao Ya snorted: “Hmph, shameless words!”

“You are actually rank five peak stage, Chang Shan Yin, you truly hid your abilities well.” Yang Po Ying said with a solemn expression, her eyes burning with fire: “But this ignites my battle intent! This kind of battle is truly interesting!”

But at the next moment, when the wolf group emerged, his battle intent froze.

Many.

So many.

Too many!

A sea of wild wolves surged like the waves of the sea, first was the initial wave, then the second, third… as if connecting heaven and earth, it was unceasing and near infinite!

Ma Zun was finally moved!

The eagle group’s movements halted as Yang Po Ying’s expression was stiff.

"Such a huge wolf group, oh heaven, five hundred thousand? Eight hundred thousand? No, at least a million!" Jiang Bao Ya was shell-shocked, his battle intent vanished without a trace: "Retreat, my rat group was only six hundred thousand at its peak. After so many battles, I have not replenished them yet, thus I have less than two hundred thousand now! This is my foundation, I cannot lose them, retreat, retreat, retreat, we have to run!"

Jiang Bao Ya was a demonic cultivator, he was extremely selfish, he immediately turned around and ran away with his rat group.

Three things influenced an enslavement path Gu Master's strength. One was the size of their beast group, the second was the cooperation of the enslavement path Gu worms, and third was the foundation of the soul.

Fang Yuan's soul foundation was at the same level as the three enslavement masters due to Dang Hun mountain.

His enslavement Gu worms, although weaker than the three of them, was only inferior by a bit.

But his wolf group had reached an incredible number of one million five hundred and sixty thousand!

In contrast, the three of them had suffered huge losses to their beast groups after consecutive battles, especially the last two huge battles. There were two hundred thousand rats, a hundred and eighty thousand eagles, and the most number of horses, at three hundred and sixty. But together, there were no more than seven hundred and forty thousand!

Seven hundred and forty thousand, it was merely half of the one million five hundred and sixty thousand wolves!

Moreover, could beast groups really be counted in such a simple additive manner?

It has been mentioned before — No!

Different beast groups when mixed together, unless there were techniques like three hearts combination soul used, would impede each other and cause more trouble than good.

Large numbers of wolves gushed out. Before, they were hiding in the crevices underground, while some were hidden by Gu worms, and others were inside carriages. Now they all showed up!

Even Ma Zun who rarely spoke shouted in shock: “How can there be so many wolves!?”

They were originally going in a three way pincer attack, to take advantage of Fang Yuan being alone. In the end, there were countless wolves, and Hei tribe’s weakness because their greatest strength instead!

The Gu Master guards beside him shouted loudly: “Lord Ma Zun, quickly retreat, the enemy forces are overwhelming, we cannot fight them head-on!”

Ma Zun was not a hot-blooded teenager, he quickly manipulated the horse group and changed direction to retreat.

But horse group was different from rat group, rats were mostly small and could change directions easily. When the horses run, it was hard to stop.

Especially when Fang Yuan had purposely waited until the horses and rats came close to Hei tribe army, before mobilizing his wolf group, his intentions were truly sinister.

But Ma Zun was an enslavement master, he had great attainments. He had a good grasp of his horse group’s condition, he carefully controlled them and the horse group drew an arc across the ground as they brushed past Hei tribe army, turning to the outside, attempting to break out of this situation.

However, how could Fang Yuan let such a big piece of fat meat fly away?

Ma Zun was an enslavement master, but so was he.

Willing in his mind, the mutated wolf group howled as they chased.

“Mutated wolf group? So many!” Ma Zun’s Gu Master guards turned around and looked, their expressions turning pale.

Ma Zun had a mutated beast group with him, called pegasus group, but their numbers could not compare with the mutated wolf group chasing them.

Most of his troops were ordinary horses like terror claw horse, how could these horses run faster than mutated wolves?

Ma Zun controlled the horse group’s direction in an attempt to shrug off the wolf group.

But the mutated wolf group split into two, engaging in a pincer attack as they finally intercepted the horse group.

Soon after, a grand number of ordinary wolves pounced and surrounded the horses tightly.

“A spectacular intercept, as expected of a master level!” Seeing this, Hei Lou Lan was overjoyed, finally putting his worries about Chang Shan Yin away.

On the other end, Rat King escaped with a group of mutated wolves chasing him with a sea of wolves behind them. As the slower rats were constantly eaten by the wolves behind, they were like a huge beast rampaging, sucking up all the rats ahead of them.

Fang Yuan took a look and stopped caring about Rat King, he turned his gaze up towards the sky.

The wolf group ran on the ground, while the eagle group soared in the sky, it was beyond the wolf group’s ability to deal with the eagle group.

Thus, among the three beast groups, even though the eagle group was weaker than the horse group, they were in a better position.

“Damn it, two beast groups have been targeted, the horse group is deep within encirclement, while Rat King ran away, only my group is left.” Yang Po Ying felt a huge burden on his shoulders.

He knew that if he wanted to win this, the horse and rat groups were extremely precious battle strength, losses to either one would shrink Ma tribe's hopes of victory greatly.

"The only one who can salvage this situation is me. I have to use the eagle group to attack aggressively, to divert most of Chang Shan Yin's attention… eh?!"

Yang Po Ying was still thinking, when Fang Yuan controlled hundreds of thousand of wolves, charging and stomping towards Ma tribe's main tent in a grand manner.

Yang Po Ying was stuck between two hard decisions!

"If we fought one on one, my wolf group would definitely suffer against your eagle group. But we are at war now, if my wolf group slaughters large numbers of Gu Masters, no, even if they just expend most of their primeval essence, it would be a great victory in terms of attrition. Yang Po Ying, what will you do?"

Fang Yuan's eyes were calm as water, as the corners of his lips curled into a cold snicker.

Yang Po Ying thought rapidly in his head, but the more he thought about it, the colder his heart felt. Chang Shan Yin's decision was truly sinister and evil, it was a fatal blow.

But after hesitating for a while, Yang Po Ying gritted his teeth and decided to restrain Wolf King.

This way, the central wolf group did not have to engage the eagle group, and successfully charged into Ma tribe's army.

Ma Shang Feng's expression was cold as steel, he quickly mobilized his remaining enslavement path Gu Masters and formed a temporary defensive line.

But the wolf group was huge, and there were mutated wolves as vanguard, such a defensive line was thin as paper, easily broken through.

"This was a huge mistake due to my decision making! But we have not lost, everyone, the situation is dire, we have to stake it all here! Fight with me, we still have trump cards!!" Ma Shang Feng shouted, as Xue Wa and the other rank five snowmen showed their true form. At the same time, an elite troop comprising purely snowmen was formed.

Seeing such reinforcements, Ma tribe army's morale surged, they calmed down from the initial confusion, and rapidly shouted, fighting alongside Ma Shang Feng.

At once, wolves howled as blood splattered everywhere.

First was the central army, followed by Ma tribe's left and right troops, as the Gu Master starting their advancement.

Hei Lou Lan laughed heartily as he waved his hand, several elite troops of his started to move out. All the respective tribe leaders also led their tribesmen into the battlefield.

The two armies engaged in all-out combat.

Beast groups, humans, entangled together. Fire path, ice path, dark path, light path, all sorts of Gu Masters fought valiantly.

Experts laughed loudly as they slaughtered their enemies. While weaklings helped each other, forming groups as they resisted with their lives, fighting for a chance of survival.

The eagle group shrieked as they attacked Fang Yuan.

But beside Fang Yuan, there were Hei Lou Lan's personal guards, as well as Ye Lui Sang, Hao Ji Liu, Bian Si Xuan, Pan Ping and other experts, forming a tight defense.

The eagle group's attack was ineffective, while Fang Yuan used wolf care Gu to bypass his weakness of vision, allowing him to mobilize the wolf group to attack, slaughtering horses, rats, and people.

"We have urgent matters, Wu Ye, you guys go and restrain the experts near Chang Shan Yin!" On the eagle's back, Yang Po Ying was sweating profusely as he ordered.

Wu Ye was called Green Bat, one of the three flying masters in northern plains.

Among the three original flying masters, Flying Lightning Dong Po Kong was part of Dong Fang tribe, having returned to the blessed land. Water Fairy Song Qing Yin had died in battle already.

Only Green Bat Wu Ye was left, recruited by Ma tribe. He was especially left behind to deal with the new flying master Chang Shan Yin.

Wu Ye heard this and frowned: “If we strike, and the other party attacks, what will happen to your safety?”

Yang Po Ying laughed arrogantly: “I have the protection of the thunder eagles, I am extremely safe. Not even Hei Lou Lan can break my thunder eagles’ defense instantly. Don’t worry and go, don’t forget our assassin Wu Ming!”

Wu Ye heard this and their hearts shook.

These people with flying abilities rushed out, causing Hei Lou Lan and the others’ pressure to intensify when defending.

“Careful, they are trying to disturb us, don’t step out easily. Don’t forget that they have Wu Ming!” Hei Lou Lan snorted as he attacked, instructing his men.

Qi Lian tribe leader’s godson Wu Ming, was a rank five dark path Gu Master. Ye Lui Sang could defeat the seven army alliance because he had assassinated many of their enemy’s leaders, causing them to feel fear and a drop in morale.

After that, Wu Ming’s performance was spectacular, a good number of rank five Gu Masters died in his hands, including even more rank four Gu masters.

He was hailed as the number one assassin in the current world, his reputation had greatly surpassed Shadow Sword Expert Bian Si Xuan.

Right now, he had not shown up yet, who knew which part of the battlefield he was lurking in.

Hei Lou Lan did not dare to be careless.

Once Wu Ming succeeds in assassinating Fang Yuan, the wolf group was collapse and the situation would reverse immediately.

“Charge, charge over and kill Wolf King Chang Shan Yin!” Not just Hei Lou Lan, Yang Po Ying and Ma tribe’s experts also rapidly understood the crux of this battle.

At once, large numbers of Gu Master experts charged towards Hei tribe main camp.

“I will give five million battle merits to whoever kills Chang Shan Yin! He will be given the position of Ma tribe’s supreme elder, and will enjoy Ma tribe’s resources for life!” Ma Shang Feng fought and killed the wolves as he shouted loudly.

Such huge rewards naturally attracted many Gu Master experts, causing their eyes to turn red and their spears to point at Fang Yuan.

Chapter 541 - Four Arm Earth King!

Chapter 541: Four Arm Earth King!

Translator: ChibiGeneral Editor: ChibiGeneral

Very soon, Hei Lou Lan and the rest started to feel a pressure as heavy as a mountain!

“Not good, the enemy has gone crazy, we won’t be able to hold on for long!”

“Black banner troops, come over to reinforce us quick!!”

“Pei Yan Fei, Zhong Fei You, Tang Miao Ming, you guys also come over to protect Wolf King!”

“We cannot continue to defend passively like this, we need to take the initiative to attack. Otherwise, the residual force of the battle will still endanger Wolf King!!”

Ma tribe was absolutely not resigned to losing.

If they lost, they would be completely finished!

They began to stake their lives, the heavy rewards alluring them to brave dangers. The situation quickly escaped out of Hei Lou Lan’s control and the battlefield soon changed into attacking and defending Fang Yuan.

Fang Yuan’s safety and danger directly concerned the result of this battle.

The enemy rank four Gu Masters and rank five Gu Masters all rushed over, creating a huge chaotic scene.

This was a majestic spectacle that was rarely seen in the former Imperial Court contests.

In the battle rings, rank four Gu Masters were already reduced to a supporting role. Even rank five experts could not act freely and were in a risky situation.

Hei Lou Lan, Ye Lui Sang and others had still been paying some attention to Wolf King at first. But soon, they were finding it difficult to protect themselves, surrounding them were flames, ice and snow, sound waves and all sorts of attacks that flew chaotically among the battle rings. The enemy did not remain in a fixed place, fighting anyone they met. There were times they even attacked their own people.

The number one assassin Wu Ming stood at a distant, helplessly looking at the giant chaotic battle ring.

He was an assassin, an expert at getting close while hiding before striking the fatal attack.

But right now, the battleground had become so chaotic with all Gu Masters attacking madly, all kinds of investigative Gu worms scanning around, and Gu Masters killing anybody they came across. The situation was already out of control, the offense too overwhelming, and some rank four Gu Masters had already become hysterical to protect themselves.

Wu Ming was doubtful, if he entered stealthily, he might be discovered within a few breaths of time. It might even be his own people who might attack him in the heat of the moment!

“Even if I don’t make a move, Wolf King will find it hard to keep his life in such a situation!” Wu Ming smiled coldly and kept on watching the show.

Soon, his eyes brightened and saw a rank four Gu Master of his side moving towards Wolf King from the side.

“Cheng Hu!” When he saw the person clearly, Wu Ming almost shouted in excitement.

Someone had struck Cheng Hu from behind and sent him flying towards Fang Yuan.

Previously, Fang Yuan had Bian Si Xuan guarding him from the side.

But just moments ago, Bian Si Xuan had taken the initiative to draw away the encroaching Fei Sheng Cheng. She was not a defensive Gu Master and also did not have any intention to sacrifice her life for Fang Yuan, thus she felt that was the most sensible choice.

“Which scoundrel sneak attacked me!” Cheng Hu fell on the ground and immediately stood up, furiously roaring before turning around and charging towards the direction he came from.

“This?!” Wu Ming did not know what to say at this scene.

However, Cheng Hu had only walked five-six steps when suddenly he seemed to have been struck by a body immobilization spell as he stopped on the spot. He furiously turned around and rigidly stared at Fang Yuan who was within his reach.

After few breaths of being dazed, he finally came back to his senses.

“The guys who sneak attacked me, I really love you!! Hahaha!” Cheng Hu’s pores opened up in excitement and looked at Fang Yuan like he was looking at five million battle merits and endless fame and fortune!

Grrr!

He pounced forward, his limbs instantly transformed into a gorgeous tiger the moment he landed.

Transformation path killer move!

Slant-eye tiger roared, a reeking wind pounced towards Fang Yuan.

“Damn it! Hide quickly!” Bian Si Xuan glanced back and involuntarily screamed.

“Success!!” Wu Ming felt his blood pumping and his body shivering with excitement.

The tiger opened its bloody mouth, leaped to the air and pounced down! The huge shadow shrouded over Fang Yuan's face. The tiger's sharp teeth was almost closing at his head!

"I had not thought such a heaven-shaking contribution will fall to my hands… huh?!" The tiger's eyes suddenly flashed with a shocked look.

A pair of large hands grabbed the tiger's neck, immobilizing it!

"Hmph!" Cheng Hu snorted inwardly, his many years of battle experience and insight allowed him to quickly slash with his two sharp claws.

Thud.

A muffled sound echoed, the next moment, the two tiger claws were separately grabbed by two metallic hands.

'Where did these hands come from?' Cheng Hu gazed with bewilderment and saw Fang Yuan's cold gaze and tranquil-as-ice face, and two bronze arms that had grown from his sides since some unknown time ago!

The two bronze hands firmly grabbed Cheng Hu's tiger claws.

"Hmph!" Cheng Hu snorted and immediately used his tail as well. The tail lashed through the air, forming a fierce whip shadow that was agile and tricky as it smashed towards Fang Yuan's head.

SLAM!

A clear sound echoed. There was not the slightest of injuries on Fang Yuan's head, but instead it was the tiger tail that had turned numb from the pain and lost its control.

Cheng Hu had a killer move, Fang Yuan similarly possessed a killer move.

Killer move — Four Arm Earth King!

There were no less than fourteen Gu worms used for this killer move, including rank five amplify effect Gu!

In such a state, Fang Yuan's defense had increased by over four times. His strength reaching eight hundred jun! Moreover, when he was touching the ground, his strength would keep on increasing without end.

"Have you played enough?" Fang Yuan gave a cold smile, looking calmly at Cheng Hu, his gaze carrying a ridiculing and cold intent.

An intense coldness rose from Cheng Hu's heart before quickly spreading over his whole body.

Fear!

Even if Cheng Hu was usually carefree and took his bravery as an honor, right now as he looked at Fang Yuan's dark and cold eyes, he felt fear!

The intense fear caused him to erupt with strength!

The tiger moved its throat, preparing a sound wave attack.

However, at this moment, Fang Yuan gave a soft sigh.

"Such a boring trick… sigh, it is better for you to die."

His voice was tranquil and light, as if he was talking of an insignificant thing.

PSHHH!

The next moment, the bronze hands exerted strength and pulled.

The gorgeous tiger was ripped into two halves, fresh blood splattered and internal organs fell down to the ground.

Two irregular tiger part fell down to the ground and transformed back to two halves of a human.

And the tiger head turned back to Cheng Hu's head; his eyes were wide open in fear, completely revealing the fear of death!

Fang Yuan grabbed Cheng Hu’s skull and slowly raised his head, his gaze traversing through everyone and landed on Yang Po Ying.

The hair all over Yang Po Ying’s body stood on their end, an intense sense of danger was rising in his heart!

Fang Yuan flapped his eagle wings and flew to the sky!

Yang Po Ying’s pupils shrunk, immediately mobilizing the thunder eagle group to protect him.

Fang Yuan smiled in disdain: Do you think you can block me with just these beasts with rank four battle strength?

Hehe.

Bam Bam Bam….

He directly charged straight ahead, the thunder eagles in his way were forcefully smashed into pieces.

By the time the Gu Masters in the chaotic battlefield reacted, Fang Yuan had already charged through the thunder eagle group like a hot knife cutting through butter and reached Yang Po Ying.

“You!” Yang Po Ying’s face lost all blood as he looked at Fang Yuan with extreme fear.

Fang Yuan lifted him by his head, his whole body not even able to resist the slightest bit.

Fang Yuan lightly clenched his hand.

Crack!

Fang Yuan burst Eagle King Yang Po Ying’s head as easily as bursting a watermelon.

Blood and brain matter splattered, and the eagle group instantly crumbled apart.

The eagle group flew away back to the sunny sky.

The enormous commotion attracted countless people.

“What? Wolf King personally killed Eagle King?!” A lot of people shouted incredulously at this sight.

“Now, it is your turn.” Fang Yuan did not stop, his cold gaze landing on Ma Zun.

They were separated by ten thousand steps of distance and he was protected by the majestic horse group, but Ma Zun still felt a terror as if a calamity was descending upon him.

“Block him!”

“Kill Wolf King!!”

Wu Ye and Xi Xue flew together and pincer attacked Fang Yuan.

“A bunch of trash wants to block me?” Fang Yuan snorted in disdain, he flapped his two wings and easily shook away Xi Xue, directly charging towards Wu Ye.

“This…” Wu Ye had never expected Fang Yuan to be so violent! He overestimated his own defense while also underestimating Fang Yuan’s fierce offensive.

The defensive light barrier only held for half a breath of time before collapsing apart. Wu Ye immediately sensed danger and with his master level flying skill, he was able to make a dodging movement which others simply could not do.

If it were others, they might only be able to let him escape, but Fang Yuan was similarly a flying master!

Bang!

A dull sound echoed, half of Wu Ye’s body was smashed into paste with bones fracturing into pieces and internal organs of half his body bursting apart.

His eyes were wide open as he fell down from the sky.

A generation's flying master, a demonic path expert had perished!

Fang Yuan moved on towards Ma Zun without even glancing at Wu Ye.

ROAR!

A dragon roar echoed like a thunder, and an enormous dragon blocked Fang Yuan's way.

This giant dragon had golden horn, three claws and dragon eyes which were burning like lanterns, revealing the flames of revenge: "Chang Shan Yin! you dared to kill my younger brother, you shall pay the most bitter price for this!"

This person was a rank five expert of transformation path, Cheng Hu's big brother — Cheng Long!

"Noisy earthworm." Fang Yuan snorted and increased his speed, leaving behind an afterimage in the air as he fiercely smashed into the giant dragon.

BOOM!

The explosive sound of the collision was deafening.

The sound wave spread to all directions, resounding through the sky and earth.

Hearts trembled as countless gazes fixed at the distant, looking at Fang Yuan whose body had inflated by two times and was covered in a bronze luster, his four arms thicker than a grown man's thighs.

He stood proudly in the air, grabbing a broken dragon horn.

While the three clawed golden giant dragon fell down to the ground like a puppet with its strings cut. It fiercely smashed into the ground, creating a giant pit with dragon blood and dragon scales splattering all around.

"What?" Ma Shang Feng's pupils rapidly shrunk as he blurted out involuntarily, not daring to believe the reality, "Even Cheng Long could not take one move from him!”

“This killer move…” Hei Lou Lan absentmindedly looked at Fang Yuan, seeing the reflection of Liu tribe’s three brothers”three heads six arms’ killer move.

“Ma Zun, I, Wolf King, will take your life.” Fang Yuan lightly said, his voice travelling across the battlefield, his calm tone was like he was once again speaking of insignificant matter.

But to everyone else, his words had a feeling of being unrivalled!

“Uncle Ma Zun, leave quickly. I will block him!” Ma tribe’s young tribe leader Ma Ying Jie shouted from Ma Zun’s side.

The other Gu Master guards also started persuading: “Wolf King is very fierce, we cannot face him head-on. Lord and young tribe leader, please leave, we will hold him back!”

ChibiGeneral ChibiGeneral This killer move is way better, you don’t have to fuse with other men’s bodies.

Chapter 542 - Dual Cultivating Two Paths!

Chapter 542: Dual Cultivating Two Paths!

People all around Ma Zun kept on persuading strongly; Ma Zun's expression was ashen as he resolutely refused: “No, my Ma tribe only has warriors who will fight to death, not cowards who will run away. I am a symbol of Ma tribe, it will be a heavy impact to our army's morale if I run away! I cannot leave, we have yet to lose, I still have my pegasus group!”

With a shift of his mind, the pegasus flew into the air like clouds.

These grand beasts had snow-white fur, their mane fluttered in the wind as they unfolded their pure white wings.

These pegasus were Ma tribe's pride.

A grand feeling emerged in Ma tribesmen's hearts as they looked at these pegasus, the feelings of fear quickly calmed down.

“Right, we still have pegasus…. ah!?” Ma Ying Jie was speaking, when suddenly he exclaimed in shock and terror!

Fang Yuan was shooting towards them like a meteor, fiercely crashing through the pegasus group without any intent to dodge.

The pegasus which had rank four battle strength were smashed through, their blood spurting high.

The horse group neighed in panic, their pure white feathers helplessly drifted in the air as their corpse fell down to the ground.

Fang Yuan moved straight through pegasus group and reached above

Ma Zun and the group with none able to block him!

Ma Zun was stunned, the Gu Masters beside opened their mouth wide as they looked at Fang Yuan, their heart filled with extreme shock, helplessness and fear.

Fang Yuan's ghostly figure deeply imprinted itself in the depths of their heart, never to be forgotten!

"No, I have not lost yet!" Ma Zun freaked out and was about to use his killer move when he was blocked by Ma Ying Jie.

"Uncle, let me do it. Once you use this killer move, your cultivation will fall. Ma tribe can lose me, but it can never lose you!" Ma Ying Jie shouted, his gaze filled with determination.

"Ying Jie!" Ma Zun's body shook, he looked at this junior whom he appreciated and was most hopeful about, and felt his will to fight to the death.

Ma Zun did not want his nephew to sacrifice for him.

But just like Ma Ying Jie said, Ma tribe could lose Ma Ying Jie, but it needed him, Ma Zun, to command horse group. The eagle group had crumbled apart now and the rat group could not be counted on, if they lose the horse group as well, Ma tribe's defeat will be certain!

"Also, my death is not certain. Uncle, leave quickly!" Ma Ying Jie turned solemn, mobilizing his primeval essence into several Gu worms.

Killer move — Dragon Horse Spirit!

This was a killer move that was specially prepared for them by Snowy Mountain's demonic path Gu Immortal Xue Song Zi.

Neighhh Neighhh…

Many horses beside Ma Ying Jie raised their front legs and gave desperate and crazy neighs.

Large amount of blood seeped out of their body; they fell down one after another as they lost their life.

But at the same time, diverse and gorgeous horse souls resembling rainbows pierced out of the corpses.

“Mutated horse souls…” Fang Yuan’s pupils slightly shrunk.

Normal souls were simply impossible to be detected by ordinary people.

But these horse souls had a pair of coral-like dragon horns on their head and were also of every size, as if they were alive, and they also shone with all kinds of colors; only the blind would not be able to see them.

Dragon horses floated up and charged towards Fang Yuan in a very fast speed.

Fang Yuan flew away, pulling apart some distance while also making probing attacks.

These horse souls were troublesome because they were souls. Ordinary physical attacks had no effect on them. At the same time, their self-destruction had the power equal to the soul explosion of the previous shark fin wolf!

Fang Yuan’s killer move was strong, but it was not a soul path killer move; if three horse souls self-destructed at the same time, he would not be able to endure it.

After all, his soul cultivation was still at thousand man soul.

“But why would I face you head-on?” Fang Yuan scoffed and slowly landed on the ground.

He was not simply a pure strength path Gu Master, he still had enslavement path methods.

Next moment, wolf smoke surged and healed the wolves beside him. Wolf howl resounded raising the wolves’ battle strength by several times.

The wolves then charged towards Ma Ying Jie and Ma Zun like hungry sharks.

“Damn it!” Ma Ying Jie immediately experienced Fang Yuan’s insidiousness and unscrupulousness!

He had sacrificed large numbers of horses beside him to form into mutated horse souls for the killer move ‘dragon horse spirit’.

But Fang Yuan did not face his horse souls, instead sending his wolf group to death.

The wolves used their lives to wear down the horse souls’ strength, and the mutated horse souls started becoming dimmer as they defended against the wolf group’s fierce attacks; some dispersed and some self-destructed.

Large numbers of wolves died in exchange for a sharp reduction of the horse souls.

Fang Yuan was displaying the essence of the enslavement path to the extreme.

Enslavement path Gu Masters used cannon fodder to exhaust the enemy’s precious strength. For example, consuming their primeval essence, and right now, it was to perish along with the horse souls.

Ma Ying Jie could do nothing to Fang Yuan!

Mutated horse souls were strong, but after slaughtering so many wolves in such a short period of time, they were now powerless to be of any threat to Fang Yuan.

“Uncle, leave! You are our Ma tribe’s hope, leave quickly!” Ma Ying Jie shouted, persuading Ma Zun to leave again.

Ma Zun’s cheeks streamed with tears, his heart filled with pain, hatred, anger and hesitation.

He gritted his teeth to the point of almost breaking them, but in the end, under the urging of his rationality, he slowly moved his body and led a group of horses, leaving Ma Ying Jie and retreating towards

Ma tribe camp.

“Hmm?” Fang Yuan immediately sensed Ma Zun’s movement.

Ma Zun was an enslavement path master, hundred times more significant than Ma Ying Jie! Fang Yuan immediately flapped his wings and flew to the sky. He gave up on Ma Ying Jie and began to chase Ma Zun.

“Wolf King, don’t leave!” Ma Ying Jie hurriedly mobilized horse souls to fly into the sky to intercept Fang Yuan.

Fang Yuan coldly smiled in disdain and made an exquisite turn in the air, throwing all the horse souls behind him.

He was a flying master while these mutated horse souls were no more than Ma Ying Jie’s puppets.

Looking at Fang Yuan rushing towards them with killing intent, the Gu Master guards beside Ma Zun immediately became fearful.

With no choice, Ma Zun also used the killer move ‘dragon horse spirit’!

Under his control, mutated horse souls formed into a tight defense line; their might was much more than what Ma Ying Jie showed.

Even if Fang Yuan had flying master achievement, it would be difficult for him to break through.

ROAR!

A dragon roar resonated at this moment.

An enormous shadow shrouded over Fang Yuan.

The three clawed, golden horn giant dragon once again charged at Fang Yuan!

Cheng Long had been defeated in one move by Fang Yuan and had fallen down to the ground miserably. He had barely crawled out of the hole when he was attacked by several enemies, and after spending all his strength to thwart and beat away these obstacles, he chased after Fang Yuan in rage, to take revenge.

“You actually came to send yourself to death.” Fang Yuan coldly smiled, not in the least moved as he looked at the dragon claws that were rapidly approaching him with an invincible might.

The eagle wings on his back flapped and he easily brushed past the dragon claws.

Relying on his exquisite flying skill, he made the giant dragon go circles around him.

“Not good, I am not Wolf King’s match in the air!” Cheng Long soon realized his disadvantage, but it was already late.

Fang Yuan grabbed this gap to fly to the dragon head.

His two bronze arms ruthlessly pounded on the the two eyes of the giant dragon like a battle spear or a sharp sword.

The dragon eyes burst and blood splashed in all directions.

The giant dragon immediately went mad, roaring miserably due to the intense pain.

Fang Yuan was splashed all over with scarlet blood, but he did not stop, he gave a sinister smile and continued piercing deep into the eyes with his two hands, directly attacking the brain membrane. While his other two hands smashed at the dragon head like a heavy hammer.

BANG BANG BANG!

Huge sounds echoed out again and again as Fang Yuan continued to hammer at the dragon head like pounding on a war drum.

The giant dragon started falling down, it struggled with mad fervor and its long tail twisted into a braid.

Stones and mud flew, and the dragon tail lashed out, sending both humans and beasts flying.

Fang Yuan did not stop his attack, he continued to pound for twenty to thirty times and was finally satisfied when the dragon head was thoroughly smashed into pieces.

White brain matter and blood spurted upon his whole body.

He took a deep breath, the intense odor of blood instead making him feel satisfied! Especially when he looked silently at this giant dragon corpse that he had conquered.

“Man, no matter which world they live in, all lives to conquer; conquer the enemy, conquer themselves…” Fang Yuan sighed with emotion.

Although the dragon had already died, the dragon corpse had not transformed back, one could see how profound Cheng Long’s achievement in transformation path was.

“His head was quite tough, but he was no more than an impulsive fool.” Fang Yuan lightly commented before looking towards Ma Zun again.

“He… he even killed Cheng Long!”

“Is this still Wolf King? Wasn’t he an enslavement path master?!”

The scene of Fang Yuan stepping on the corpse shocked many.

Most of them simply did not dare to believe their own eyes.

How could Wolf King change from an enslavement path master into such a fierce warrior that rampaged in the battlefield?

Meanwhile, the wolf group howled and charged waves after waves without any pause, showing Fang Yuan’s exquisite beast controlling skill.

Ma Zun’s face was pale, his primeval essence was gradually exhausted as he kept on maintaining the killer move ‘dragon horse spirit’.

The mutated horse souls had formed a tight defensive battle formation; the wolf group throwing their lives as they charged forward waves after waves.

Fang Yuan remained unmoved at these sacrifices, only sneering inwardly: ‘Now, let me show you the true power of dual cultivation in enslavement and strength path.’

With a shift of his mind, the wolf group immediately changed their offensive pattern, dividing into several groups and breaking forward like sharp cones. The mutated souls’ battle formation was unavoidably pulled apart.

As the defensive line became thinly spread, Fang Yuan took the initiative to launch an assault.

Ma Zun felt a chill in his heart and promptly maneuvered the mutated horse souls to intercept Fang Yuan, but this caused the defensive line to turn chaotic.

Fang Yuan laughed and changed the direction of his assault while making the wolf group charge ahead by three hundred steps.

Ma Zun blocked left and right, soon being unable to hold off the attacks.

If he guarded against Fang Yuan’s assault, the wolf group would be free to charge forward. If he defend against the wolf group, he would not be able to guard against Fang Yuan.

After several rounds, Fang Yuan saw a gap and fiercely charged towards Ma Zun. The first strike broke Ma Zun’s defensive barrier, the second punch seriously injured Ma Zun and the third punch killed this famous enslavement path master!

Ma Zun died!

The horse group crumbled apart and Ma tribe’s army’s morale lowered to the abyss!

“If I had not seen it personally, I would never have believed this!”

“Horse King actually died by enslavement path master Wolf King’s beheading the leader tactic!!”

“Wolf King concealed himself too deeply, he actually cultivated both enslavement and strength path. He simply does not need to fear beheading the leader tactics, how can we deal with such an enslavement path master?”

ChibiGeneral And even if you beat him, he can still time travel for round 2.

Chapter 543: Victory has been decided

The terrifying strength Fang Yuan displayed inflicted heavy pressure on everyone in Ma tribe army.

Despair was quickly spreading in their heart!

“Now, we can only rely on Rat King, only the rat group can contend against the wolf group!” Ma Shang Feng’s face was ashen, Ma Zun’s death made him feel like he had fallen into an ice cave. But he was Ma tribe leader, and under this desperation, he looked towards Jiang Bao Ya’s direction.

However, the next moment, the only hope left in Ma Shang Feng’s eyes was also obliterated.

Rat King had actually fled!

“Heavens, this Wolf King is a monster! Eagle King, Horse King, Cheng Long, Cheng Hu and Wu Ye were all killed by him, will I be able to survive if I don’t run away now?”

Blood flowed out of all seven facial orifices of Jiang Bao Ya as he ran away.

He could not do anything about this, he had sworn the poison vow when he joined Ma tribe army. Now that he was deserting in the battle, he naturally suffered the backlash of the poison vow.

But Jiang Bao Ya wanted to retreat even if he had to risk the backlash!

Fang Yuan's terrifying performance had already completely obliterated all will to battle in his heart.

"Rat King, return right now!!" Ma Shang Feng shouted.

But Jiang Bao Ya ignored him and ran madly.

The blood from his seven facial orifices was dying the path, showing his determination to run!

His fleeing attracted the people around him and soon, a large number of Ma tribe Gu Masters began to retreat with large number of tribes gathering their forces as they retreated from the battlefield.

"One really shouldn't rely on outsiders!" Ma Shang Feng spurted out a large mouthful of blood before he blacked out and fainted.

Ma tribe army was utterly crushed, the situation was set!

Despite having the snowman elite troops, they could not turn around the situation.

Gu Master experts also started to retreat one after another.

'I almost had to break my seal and use my true martial physique to fight. Luckily! Luckily!' In a battle ring, Hei Lou Lan who had been attacked from all around, was gasping, his body full of injuries and his primeval essence heavily depleted, but the ominous glint in his eyes was becoming colder and sharper.

Under his order, Hei tribe army began a ruthless hunt.

The more they killed, the more battle merits they would obtain. Even a fool understood this.

Fame and fortune incited Hei tribe army to be like brutal famished wolves.

At first, the elite troops were covering Ma tribe's retreat, but soon Hei tribe's elite troops rushed to them and pinned them down. Ma tribe army had thoroughly collapsed and countless people were escaping to all directions.

Fang Yuan did not move, instead calling the wolf group to protect him.

"Heavy internal bleeding, soul has been weakened to five hundred man soul…" Fang Yuan inspected his body, swallowing the blood in his mouth as waves after waves of dizziness attacked him.

His two bronze arms quietly disappeared. The repercussions of four arm earth king killer move was much more serious than what he had expected.

"The several experiments before only scratched the surface. Now that I used it to its extreme, even going beyond the theorised time limit, a problem has occured. Sure enough, genuine knowledge comes from practice."

Killer move was an exquisite coordination between Gu worms.

But a killer move was not perfected by just planning it.

Only by putting it into practice and revising it continuously, could the killer move be perfected. And this process to perfect it could last a very long time, lasting generations and even over ten generations of continuous deductions and adjustments.

Four arm earth king was a result of Fang Yuan using his five hundred years of experience along with a moment of inspiration. It was made in a hurry and was still in experimental phase.

Fang Yuan was soon able to understand what caused such heavy repercussions.

"It is the rank five earth overlord Gu. This killer move was originally based on ground fight, the longer one is touching the ground, the lighter the repercussions. But I was flying almost all the time in this battle. Thus, this problem was exposed."

"It seems four arm earth king killer move has a lot of shortcomings. From this battle, I can see flying is much more convenient than charging crash Gu, and possesses much higher threat to enemies. Since I have master level attainment in flying, I should make full use of this superiority."

He was not willing to give up flying, so the four arm earth king killer move had to be greatly altered.

Fang Yuan sat on the aged night wolf emperor, quietly pondering while looking at the wanton slaughtering by Hei tribe army.

"Damn it… still vigilant, not giving me even a little chance!" Assassin Wu Ming was hiding in a distant while observing Fang Yuan.

He had been thinking of taking advantage of Wolf King's negligence after the battles, to sneak attack him.

If he succeeded and killed Wolf King, Ma tribe would still have a chance to regroup and make a comeback.

But Fang Yuan did not give him any opportunity, almost as if he saw through his plan.

Wu Ming waited for a while more, but because of Hei tribe experts moving about more frequently nearby, he could not endure anymore and quietly retreated.

Ma tribe was fleeing in defeat, and while they were fleeing, Ma tribe leader Ma Shang Feng woke up.

He was still not resigned and after they fled to the defense line, he tried to hold on by relying on the defense line.

But Tai Bai Yun Sheng's mountain as before Gu wrecked his plan. Hei tribe army broke through the defense line, Pan Ping used his sole blade Gu and luckily managed to get Ma Shang Feng's head in the chaotic battle.

With Ma tribe leader's death, Ma tribesmen no longer had the will to battle.

Tao tribe, Yang tribe and Qi Lian tribe surrendered one after another. The surrendering process unavoidably attracted most of Hei tribe's attention.

"Move faster, faster, faster!" Zhao Lian Yun was urging from inside the carriage.

Fei Cai was taking the coachman position and used all his strength to lash at the horse, the carriage's two wheels moved at a rapid speed.

Fei Cai was Ma Ying Jie's head servant and being in charge of Ma tribe's young tribe leader's everyday life, he naturally had to accompany Ma Ying Jie to the battle. Zhao Lian Yun was homeless and so could only follow behind him.

Ma tribe was defeated, these two and other mortals also fled for their lives.

However, just relying on the horsepower, the carriage's speed simply could not surpass a Gu Master. While they escaped, they were thrown far behind by Gu Masters.

But because Fei Cai and Zhao Lian Yun were mortals, the army chasing after Ma tribe army let them go.

The battle merits in killing mortals were next to nothing.

Of course, if they encountered Gu Masters in a bad mood or those who liked to kill or wolves who did not care if they were mortals, just one or two casual moves from either of these could send them to their grave.

However, Fei Cai and Zhao Lian Yun's luck were really good, not only did they not encounter such situation, they were actually able to smoothly escape out of the battlefield under countless Gu Masters' eyes.

The two put in all their efforts in escaping.

The old horse pulling the carriage foamed in exhaustion and finally fell on the grassland.

The carriage overturned soon after and broke apart.

Fei Cai and Zhao Lian Yun broke out of the broken carriage in a miserable state. Although they were injured, it was not serious because of the soft grassland.

“Now where should we go?” Fei Cai was indecisive; they were in a vast land without any soldiers or Gu Masters chasing them.

Zhao Lian Yun panted heavily without replying, she was also feeling flustered and helpless.

‘Wolf King Chang Shan Yin… there is actually such a terrifying monster in this world! Damn it, if I had known you were this fierce, why would I persuade father to travel so far to side with Ma tribe?’

As she thought of Fang Yuan’s terrifying figure rampaging in the midst of innumerable troops, Zhao Lian Yun’s body and mind trembled.

Remembering her father who had died in the battlefield, their current homeless situation and the ruthlessness of fate, Zhao Lian Yun began to weep in grief.

“Xiao Yun, don’t cry, don’t cry, don’t worry, I am still here.” Fei Cai immediately comforted her.

Zhao Lian Yun buried her head in her knees and cried even louder.

Fei Cai panicked as he comforted and apologizes repeatedly, cutting out a very clumsy figure.

Zhao Lian Yun cried for a while, then suddenly raised her head: “What’s the use of your apology! I am really miserable, how could I come to such a world! Now our situation is desperate with nothing to eat or even drink. At night, the bloody odor on the battlefield will attract groups after groups of beasts to forage. Sooner or later, we will starve to death, die of thirst or even freeze to death.”

“Eh? Then, then what should we do?” Fei Cai looked at Zhao Lian Yun with an expression that was seeking help.

Zhao Lian Yun rolled her eyes and furiously shouted: “You are really trash! You are older than me, can’t you think of something! You want me to think of everything, do you think I am Dong Fang Yu Liang?!”

Fei Cai lowered his head after being scolded, only daring to look at his feet.

Suddenly, he raised his head with bright eyes: “I, I have thought of a good way.”

“Ah? What way?” Zhao Lian Yun raised her brows in amazement, this fool had actually thought of a way?

“I feel that as long as we have a horse, we can escape far away from the battlefield. With no odor of blood, we will be able to avoid the beasts.”

Zhao Lian Yun fiercely kicked Fei Cai: “Do you think I don’t know?! You fool, you big idiot! What good method is this? I also want a horse, where will you get me one?”

Fei Cai jumped in pain from Zhao Lian Yun’s kick.

Suddenly, he pointed ahead and shouted: “Look, there is a horse.”

Zhao Lian Yun turned around to look and was stupefied, blurting out: “The fuc… there really is a horse!”

But she quickly reacted: “There are no lack of horses in northern plains, but what we lack is the method to capture and tame it. Fei Cai, do you have any method?”

Fei Cai exclaimed, his hand still pointing ahead as he shouted: “Look, there is a person on the horse!”

Zhao Lian Yun concentrated, there really was a person.

As the horse neared the two, Zhao Lian Yun’s eyes suddenly opened wide because of the identity of the injured person on the horse’s back: “Ma Ying Jie!”

…

“Congratulations brother, congratulations. Hei tribe has won this battle, even if Ma tribe gets support from Gu Immortals, they cannot reverse the situation.” Hei Bai who had been observing the battle all along, saw Hei tribe was already beginning to clear up the battlefield through investigative Gu, and impatiently congratulated Hei Cheng who was beside him.

Hei Cheng lightly smiled: “Congratulations to you too. Hei Lou Lan, this kid did not betray our expectations. Ah, right, the demonic path Gu Immortal who supported Ma tribe has been discovered, it is Xue Song Zi of Snowy Mountain’s sixth peak.”

Hei Bai’s expression immediately turned heavy: “Hmph, so it was him. If not for him meddling and fighting with me over wooden chicken Gu, the Immortal Gu would not have escaped the bindings, and I would have already been in possession of wooden chicken Gu.”

Hei Cheng comforted him with a smile: “Brother, no need to worry, it will be the same thing if we can obtain wooden chicken Gu with the help of Eighty-Eight True Yang Building. This is called: the road to happiness is strewn with setbacks. Once you obtain wooden chicken Gu, you will become an expert among Gu Immortals immediately.”

“I don’t deserve such praise!” Hei Bai immediately bowed at Hei Cheng and sincerely said: “If not for elder brother’s generous help, how could I have such financial ability like Xue Song Zi? Elder brother is really wise and far-sighted, investing so much immortal essence stones, it was an amazing decision. As expected, stocking up the wolf groups before sending them out for support all at once truly caught Xue Song Zi unprepared. This time, even if Xue Song Zi wants to continue sending help, there is no one to receive it.”

“Hahaha.” Hei Cheng laughed brightly before sighing, “Without investment, how could there be profits?”

He paused a moment and continued: “Also, we were fortunate that other famous super tribes did not really make their move in this Imperial Court contest. There was also the information from Fairy Tan Bi Ya which allowed us to know of the secret relationship between Ma tribe and Snowy Mountain. Another point, this Wolf King Chang Shan Yin is truly a spectacular junior, his performance was outstanding, the one with the most radiance in this contest such that his brilliance surpasses this generation's Gu Masters in northern plains."

Hei Bai also nodded, having the same feeling: "I have already investigated Chang Shan Yin in detail, he is a person of Chang tribe and was very famous, even us Gu Immortals knew of him. Later, he mysteriously disappeared for over ten years, he clearly had a fortuitous encounter. Now, he cultivates both enslavement and strength path, I saw the killer move he used just before, its repercussions are not small but it is indeed somewhat interesting."

Fang Yuan could conceal his injuries from the surrounding people, but he could not conceal it from Gu Immortals.

Hei Cheng was silent for a while before speaking: "This is a Gu Immortal seed, I plan to take him into Hei tribe. After he enters Imperial Court blessed land, we will properly observe him. If he is willing to join us and offer his loyalty, he might be able to become our Hei tribe's external supreme elder in the future."

Hei Bai smiled: "The difficulty of ascending to Gu Immortal realm is unspeakable, elder brother truly thinks highly of him. In my opinion, Tai Bai Yun Sheng is also quite good, we can also ask him to join Hei tribe."

"Mm… but he is a little old." Hei Cheng nodded.

In these Gu Immortals' eyes, only Chang Shan Yin and Tai Bai Yun Sheng piqued their interest and gained their attention among the entire Hei tribe alliance army!

Chapter 544 - Entrapping a Gu Immortal?

Chapter 544: Entrapping a Gu Immortal?

Translator: ChibiGeneral **Editor:** ChibiGeneral

When Ma Ying Jie finally woke up, his first sight was Fei Cai's joyous smiling face.

Fei Cai shouted: "Young tribe leader, you are finally awake!"

The simple and honest voice warmed Ma Ying Jie's heart. He struggled to sit upright, but the intense pain caused him to grimace and froth started to bubble from his mouth, he was barely able to ask: "Where is this place?"

Fei Cai scratched his head, and said in shame: "I also don't know where this is, but we should have escaped the battlefield."

"Battlefield?" Ma Ying Jie suddenly started and immediately asked, "The battle, what happened?"

"We lost, lord young tribe leader. Many people escaped and even more people surrendered." Fei Cai answered.

Ma Ying Jie's face turned pale white and his body shook, almost fainting down, but luckily Fei Cai was supporting his back.

Zhao Lian Yun stood at the side, looking at this formerly radiant Ma tribe young tribe leader who had now fallen into such a miserable state; it left a bad taste in her mouth.

'Sigh, this Ma Ying Jie is young and promising, it is a pity he ran into Wolf King Chang Shan Yin. It was not that you didn't try hard enough, but that the enemy was too much of a monster…'

Ma Ying Jie closed his eyes, two streams of tears quietly falling down.

After a while, he opened his reddened eyes and looked at Fei Cai and Zhao Lian Yun, asking in a hoarse voice: "Did you guys save me?"

Fei Cai and Zhao Lian Yun nodded.

"Young tribe leader, what do we do now?" Fei Cai asked.

Ma Ying Jie said with a gloomy expression: "We will return! This battle is our Ma tribe's defeat, but we still have some tribesmen remaining behind in warm pond valley."

Back then, before heroes assembly, Ma tribe schemed and brought about internal disorder in Fei tribe, before swallowing Fei tribe and occupying warm pond valley.

Ma tribe's higher-ups, to be prepared for the unexpected, left behind the old, weak, sick and crippled behind at warm pond valley.

If Ma tribe won, they would take these people back. But if Ma tribe lost, these people would be the seeds to continue the tribe's bloodline!

"Return to warm pond valley? But we don't have water and also don't have any rations. To travel such a long distance…" Zhao Lian Yun's brows furrowed into a knot.

"Heh, little girl, as long as I am here, there will be sufficient water and food. You guys don't need to worry." Ma Ying Jie replied.

The three started their journey, coming across many Ma tribesmen who had fled; Ma Ying Jie took all of them in.

"Lord young tribe leader, I had not thought that I, Ma You Liang, would still live to see you!" When Ma You Liang saw Ma Ying Jie, he immediately said this in a sobbing voice.

He was Ma tribe's rank three elder and was lying on a stretcher now; he had lost an arm and his right leg was fractured, his injuries were severe.

When Ma Ying Jie saw Ma You Liang, tears involuntarily welled up in his eyes: "Elder Ma You Liang, it really is good to see you!"

Although he had taken in many tribesmen along the way, most of them were mortals, while Ma You Liang might be heavily injured and also crippled, but he was still a Gu Master.

Ma tribe had been utterly defeated in this battle.

Before the battle, they had been a large tribe whose foundations were deep enough to charge to super tribe level. But after the battle, Ma tribe was completely reduced to a small tribe, falling down from the pinnacle of their power.

To the current Ma tribe, every Gu Master was a very precious strength and hope of the tribe!

"Lord young tribe leader, old tribe leader died in the battlefield." Ma You Liang cried bitterly as he told this grievous news to Ma Ying Jie.

Ma Ying Jie's body shook intensely, and despite having already made mental preparations, his heart was still filled with endless sadness and sorrow after hearing this news.

He gritted his teeth, his whole body seemingly having turned into an iron statue.

After a while of silence, he slowly wiped away his tears and spoke: "From today onwards, I am Ma tribe leader! Elder Ma You Liang, you need to pull yourself together. Our Ma tribe might have lost, but we are not exterminated. Back then, Ancestor Giant Sun set the rule that Huang Jin family's bloodline could not be exterminated. Ma tribe has already paid a disastrous price for the battle, now even Hei tribe cannot eradicate us. We will return to warm pond valley and climb up from this loss. I believe our Ma tribe's radiance won't disperse like this!"

Ma You Liang dazedly looked at the young tribe leader in front of him, and in his blurred vision, he seemed to be looking at Ma Shang Feng and Ma Zun's silhouettes. He stopped sobbing as hope rose up in his heart again.

He then answered with a very deep voice: "Lord tribe leader, I also believe so!"

————-

Winner takes all.

While Ma Ying Jie was miserably fleeing, it was a scene of celebratory feasts in the many tents of Hei tribe's alliance army with plentiful food and people crowding around the warm bonfire.

"We have won, we were victorious!"

"Ma tribe's ambition was too big, they actually wanted to become a super tribe. This ambition was the cause of their destruction."

"Congratulations to Lord Hei Lou Lan for becoming the Lord of Imperial Court!"

"Esteemed Lord Wolf King, please allow me to propose a toast to you."

The main tent was also a scene of festivity. Besides the fine wine and food, there were also beautiful and passionate northern plains' women dancing gracefully to their heart's content.

The ones present in the main tent were the higher-ups of Hei tribe's alliance army and were all experts. The cultivations of these people were at least rank four, one could say they were the most radiant heroes of this generation of northern plains.

Hei Lou Lan was sitting on the main seat, and to the first seat on his left was Fang Yuan.

Before, because of Tai Bai Yun Sheng's arrival as well as successive joining of several rank five tribe elders, Fang Yuan's position had been pushed to the back.

But after the third battle with Ma tribe, Fang Yuan revealed his rank five peak stage cultivation and with his strength alone, battled the enemy's three enslavement masters, and beheaded Cheng Long, Wu Ye and other famous experts.

One could say Fang Yuan was at least seventy percent of the reason Hei tribe could win against Ma tribe decisively.

Everyone in Hei tribe was shocked at Wolf King's terrifying battle strength and that very night, they readjusted the seat rankings in the main tent.

No one opposed this.

Experts proposed toasts to Fang Yuan one after another, Fang Yuan did not refuse anyone, but only took a sip every time. This was completely not a demeanour of a grand northern plains' warrior, but right now, this instead formed an arrogant and aloof aura on Fang Yuan.

The main tent was filled with a joyful atmosphere.

The Gu Master who proposed the toast just before was Sole Blade General Pan Ping. He used his sole blade Gu and luckily managed to take Ma tribe leader Ma Shang Feng's head in the battle. Thus, his position was only inferior to Fang Yuan in the battle merit board now, being ranked at second.

Seeing Fang Yuan taking a sip in response to his toast, Pan Ping gratefully stepped to the side.

Northern plains natives admire warriors, a terrifying performance like Fang Yuan's was extremely rare even when considering all the Imperial Court contests.

Flying master and enslavement path master, two master level halos shone on his body. His enslavement path and strength path dual cultivation would give an extreme headache to all his enemies.

Seeing Pan Ping becoming satisfied and overwhelmed, and retreating in deference, the surrounding gazes showed respect, worship or fear. Fang Yuan calmly placed down the wine cup and sighed inwardly:

“Unknowingly, I have already reached this stage.”

Riding on the great wave known as the Imperial Court contest, Fang Yuan’s individual battle strength rapidly inflated. Now, he was already at the summit of the mortal world.

He had reached the peak of the mortals.

Advancing further would be the realm of immortals!

In the battle before, he slaughtered famed experts, rampaging all around with no one being able to obstruct him; very few rank five peak stage Gu Masters could display such performance. Hei Lou Lan’s light was completely seized by Fang Yuan.

Despite there being great flaws in cultivating both enslavement and strength path, despite four arm earth king killer move being newly created and not yet perfected, they were already enough as a cornerstone to allow Fang Yuan to stand proud in the mortal world.

In three kings blessed land, Fang Yuan used the blessed land’s power to kill rank four and rank five Gu Master experts.

And now, he was able to do it with his own strength. Even if Tie clan’s previous clan leader Tie Mu Bai resurrected, Fang Yuan had the confidence of killing him.

In a short period of time, Fang Yuan’s battle strength had truly increased at a sharply flying speed. This accomplishment that others would find it almost impossible to achieve their whole life, was established on five hundred years of his former life’s experience, Hu Immortal blessed land, painstaking efforts and strategies as a base.

‘But it is still not enough, far from enough! What can being the peak of the mortal world be considered as? As long as one is not a Gu Immortal, they will simply be chess pieces. Not mentioning the goal of eternal life, just looking at my current goal, I have yet to save Dang Hun mountain.’

Fang Yuan’s gaze turned solemn as the flames of ambition burned in his heart.

He glanced at Tai Bai Yun Sheng who was at the side.

To save Dang Hun mountain, he required Tai Bai Yun Sheng's Immortal Gu — Landscape As Before.

This was his most important target for this trip to northern plains. Even Eighty-Eight True Yang Building was secondary.

In his plan, if Dang Hun mountain could not be saved, then Eighty-Eight True Yang Building's inheritance could only barely fill his losses.

However, it was a very troublesome thing to take away other's Gu worms.

A Gu worm's survival could be decided on simply a thought from its master.

For example, Fang Yuan only needed a thought and even his Immortal Gu, Spring Autumn Cicada, would easily self-destruct.

Precisely because of this, when Gu Masters battled to death, they would often get next to nothing in terms of Gu worms from the corpse.

And Tai Bai Yun Sheng's situation was even more troublesome!

Immortal Gu Landscape As Before had yet to be born; it was an Immortal Gu created by Tai Bai Yun Sheng after he became a Gu Immortal, and by using river as before and mountain as before as the main materials.

Hence, there were two courses of actions Fang Yuan could take.

First was to capture Tai Bai Yun Sheng and use soul path Gu worms to soul search and plunder the recipe of Landscape As Before from his mind, then refine it by himself.

This plan was too risky.

First of all, Fang Yuan might not be able to capture Tai Bai Yun Sheng alive. Capturing alive and killing were two completely different concepts. Especially when Tai Bai Yun Sheng was very powerful and was a time path Gu Master; the failure of the plan would have huge consequences.

Secondly, even if Fang Yuan was able to capture Tai Bai Yun Sheng alive, does it mean he could get the river as before and mountain as before Gu? In case Tai Bai Yun Sheng made these two Gu self-destruct, all of Fang Yuan's efforts would go to waste.

Finally, it was still unknown if the current Tai Bai Yun Sheng had the Gu recipe for Landscape As Before in his mind.

The possibility of a mortal being able to come up with an Immortal Gu recipe was extremely small. Especially when Tai Bai Yun Sheng was not a refinement path master.

According to the vague rumors in Fang Yuan's previous life, when Tai Bai Yun Sheng became a Gu Immortal, heaven and earth reacted, Dao marks attracted each other and his inspiration exploded, making the two rank five Gu spontaneously merge together to form rank six Immortal Gu Landscape As Before.

If it really was so, then the Gu recipe for Landscape As Before simply did not exist and its refinement process could not be duplicated.

The first course of action could not be adopted, then what about the second?

In truth, it was not any better than the first!

After Tai Bai Yun Sheng entered Imperial Court blessed land, he would advance to Gu Immortal realm. The second plan was to wait for him to become a Gu Immortal and possess the Immortal Gu, then deal with him!

The meaning of this was that Fang Yuan, as a mortal, would be entrapping a Gu Immortal!

Chapter 545 - Ma Hong Yun

Chapter 545: Ma Hong Yun

Translator: ChibiGeneral | Editor: ChibiGeneral

How big was the possibility of a mortal successfully plotting against a Gu Immortal?

Fang Yuan might be a rank five peak stage Gu Master, but it would be almost impossible for him as well to cross the boundaries of immortal and mortal.

Fang Yuan was a Gu Immortal in his past life, there might be no mortal that had as deep of an understanding of this as him.

Fortunately, Fang Yuan's plan was not just himself as a mortal going against a Gu Immortal. He would borrow the strength of Eighty-Eight True Yang Building, the bright guidance from his previous life's rich experience and also the precious information from Lang Ya land spirit; all these allowed his plan to have a higher chance of success. With this, he had a twenty percent chance of seizing Immortal Gu Landscape As Before.

Twenty percent probability was already the highest among the three ways to save Dang Hun mountain.

Only an Immortal Gu could contend against Immortal Gu Gruel Mud.

Based on his wide vision and experience from his five hundred years of experience, Fang Yuan knew of only three Immortal Gu that could save Dang Hun mountain.

First was the rank six earth path turn rock Gu, this Gu was with Western Desert's rank six Gu Immortal Sun Cu.

Second was similarly an earth path rank six Immortal Gu Rebuilding Mount Dongshan, which was in Eastern Sea's Hai Shi blessed land.

Third was time path rank six Immortal Gu Landscape As Before. This Gu had not yet been created and was not a naturally formed Gu. Its master Tai Bai Yun Sheng was only a rank five Gu Master currently.

To seize turn rock Gu, Fang Yuan would have to deal with Gu Immortal Sun Cu who had been a Gu Immortal for over a dozen years.

And the situation would be even more bad if he wanted to scheme against Rebuilding Mount Dongshan; Fang Yuan would be placing himself under the radar of Gu Immortals, and would he be able to exchange for the Immortal Gu as a mortal? This was nothing more than a kid carrying gold and strolling around the black market.

Thus, the third plan of Immortal Gu Landscape As Before had the lowest risk and the highest probability of success.

Even if Tai Bai Yun Sheng would advance into a Gu Immortal, he would only be a greenhorn and would not be familiar with the qualitative change of strength.

Compared to the veteran Sun Cu and that group of Gu Immortals in the Hai Shi blessed land, this opponent was much more easy to deal with. …

Northern Plains, December.

The blizzard was gradually becoming bigger and appeared more frequently. Even if there was no blizzard, the pure white snow had covered the whole northern plains, and even the blistering hot sunlight became powerless.

The time of the ten year blizzard was already approaching closer.

Tian Chuan, warm pond valley.

“Tribe leader, this is the spirit spring C.” Ma You Liang worriedly pointed at the dried spirit spring and introduced it to Ma Ying Jie.

Ma Ying Jie’s brows furrowed deeply.

This spirit spring C was one of the only three remaining spirit springs of warm pond valley.

Now that it was dried up, only spirit springs A and B were left to support Ma tribe. This was disastrous news to Ma tribe.

The spirit springs in northern plains were different from the spirit springs in other regions.

Northern springs had little spring water and narrow spring opening, so they burst out fiercely and had poor foundation, so they lasted the shortest time.

Eastern springs were plentiful in numbers, southern springs gurgled, northern springs were intense and western springs were pure.

A mid-sized clan could last for over ten years in southern border, using one spirit spring. As long as they did not use up the spirit spring excessively, they could continue to use the thin and continuous flow of the spirit spring.

But it was different in northern plains.

Spirit springs formed quickly in northern plains and quickly finished as well. Add in the intense warfares in northern plains, a mid-sized tribe would require at least three or four spirit springs to sustain themselves.

Ma Ying Jie became Ma tribe’s new tribe leader after he returned to the tribe. Ma tribe had lost at their attempt to charge into super tribe level and was now reduced to a small tribe, causing the large warm pond valley to appear spacious and empty.

Ma tribe had rations and water sources, moreover had made ample preparations.

But a spirit spring was a commodity that was an essential and important resource to a Gu Master's cultivation. Once the blizzard arrives, places like warm pond valley would become the final place of refuge.

Not only beast groups, other Gu Masters would also come to stay.

As the owner of the place, Ma tribe not only had to resist against the blizzard but had to negotiate with these people as well.

The primeval stones from the spirit spring were the backbone in supporting a Gu Master's battles. Now, out of the three backbones of Ma tribe, one was broken. The weak Ma tribe that was left with thirty percent of their foundations suddenly had ten percent less because of the drying spirit spring C.

However, Ma Ying Jie had no countermeasures to deal with such a problem.

If he had a 'river as before' Gu, he could immediately restore spirit spring C to its original condition, resolving this problem, but he did not have it.

"Lord tribe leader, are spirit springs really so important?" Fei Cai asked on the way back.

After he returned to the tribe, as a benefactor who saved Ma Ying Jie, he was immediately liberated from his slave status and was now a free person.

At the same time, he was still Ma Ying Jie's personal attendant.

Ma Ying Jie worriedly nodded: "A spirit spring's drying up has an extremely huge influence towards Gu Masters. And Gu Masters are the pillars of a tribe. Our Ma tribe not only needs Gu Masters as an important strength to resist all kinds of calamities during the blizzard disaster, but also to fight for new resources to develop the tribe after the disaster…"

Fei Cai exclaimed then asked while walking: "Then, can't we find new spirit springs? Our warm pond valley is so large, who is to say that there are only these three spirit springs."

Fei Cai's words were filled with his optimistic spirit.

Ma Ying Jie gave a bitter laugh: "Northern plains' spirit springs can indeed form in a short time, there might be a fourth spirit spring in warm pond valley, but the probability is close to zero. The thing is every ten years as the blizzard approaches, spirit springs in all regions of northern plains will continue to become dry and dead. After the blizzard disperses, new spirit springs will gush out in large numbers. At that time, all the regions of northern plains will have plentiful water vegetation and you might even find one spirit spring every hundred li. That is the best time for every tribe and every beast group to grow."

"It was like that…" Fei Cai only then realized he had lived for this long and was still ignorant, and was not familiar to such situations.

"Ahh!" Suddenly, he screamed as he fell down to the side.

They were walking a path beside the cliff, fortunately it was a gentle slope and not a precipice. Fei Cai had lost his footing and rolled down from the slope, screaming as he fell.

"This guy…" Ma Ying Jie was amused at the series of hilarious screams from Fei Cai, his tightly knitted brows slightly relaxed.

"You idiot, you can't even walk now? Climb up quickly… hmm?!" Ma Ying Jie suddenly stopped, his eyes opened wide as he looked incredulously at a brand new spirit spring gushing out from the slope.

This spirit spring's mouth had been covered by a rock.

But this stone was pushed by the rolling Fei Cai, letting the spirit spring that was covered reveal itself.

This was clearly a recently formed spirit spring, otherwise Ma tribe would not have missed it during their search before the battle.

The volume of the spirit spring was enormous and in a short few moments of time, over a hundred primeval stones gushed with the spring water and fell on the surrounding ground.

"This…This is actually a new spirit spring and one that directly surpasses the volume of spirit spring A!” Ma Ying Jie was so happy that even his eyes started reddening, “Is this the so-called joy after extreme sorrow? This is definitely the blessing of our ancestors in Longevity Heaven!”

“Tribe..tribe leader… I have returned!” At this time, Fei Cai came back while limping a little, and as he saw the new spring, his eyes similarly opened wide, “Strange, how could there suddenly be a spring here?”

Ma Ying Jie laughed heartily: “Fei Cai, you are the lucky star that heaven sent to me. From today onwards, you should change your name. Fei Cai sounds similar to trash, how could I Ma Ying Jie have trash beside me? From now, you shall be called Hong Yun, Fei Hong Yun! It indicates luck shining on our Ma tribe, joy after extreme sorrow!”

However, Ma Ying Jie was not happy for long, as seven days later, Hei tribe army arrived and surrounded warm pond valley.

The very night the Hei tribe army garrisoned nearby, the three spirit springs of warm pond valley simultaneous turned black, completely polluted.

A letter to surrender soon reached Ma Ying Jie’s land.

Ma Ying Jie had not expected Hei Lou Lan to not let him go even after clearly achieving the final victory!

The spirit springs that were contaminated by the use of Gu worms could no longer produce primeval stones and were all useless. Although Ma tribe still had stocks of primeval stones, they had already lost the possibility of continuing to stay in warm pond valley.

“I had not thought Hei Lou Lan would be so hell-bent on attacking! He has requested our Ma tribe to surrender in the letter, which does not violate the rules set by Giant Sun Immortal Venerable back then! Damn it, he is truly hateful!” Ma Ying Jie clenched his fists, his heart filled with anger, hatred, helplessness and powerlessness.

“Hei Lou Lan who is nicknamed Black Tyrant, has always been brutal and violent. It seems the battle before created a fear in him towards Ma tribe. But because of Ancestor Giant Sun's rules, he wants to put Ma tribe under his sight and continue to oppress us." Ma You Liang was sitting stiffly on his chair and analyzed this with a heavy voice.

After pausing for a while, he continued: "Actually, this is also good, we can surrender to Hei Lou Lan which would mean we can enter Imperial Court blessed land as well."

Ma Ying Jie shook his head: "This is where Hei Lou Lan's sinister intent lies in. It is true Ma tribe will be able to stay in Imperial Court, but what about others? Let me ask you, how many tribesmen do we have left with surname Ma?"

Ma You Liang paled as he answered: "Only over one hundred and thirty."

"Precisely so." Ma Ying Jie nodded with a heavy expression, "To grow our tribe, we would need to take in outsiders and also wantonly connect with marriage and have large numbers of offspring. But as long as Hei Lou Lan sent a command to forbid our Ma tribe from taking in outsiders and even only allowing us to have inter-tribe marriage, then how long would it take for our Ma tribe to grow?"

Ma You Liang's face turned even paler.

He realized the seriousness of this problem.

Politics was dirty, and not allowing them to marry outsiders could be easily done. Hei Lou Lan would only need to use the reason of protecting the purity of Huang Jin family's bloodline and he would be able to justly suppress Ma tribe's development.

"Then what should we do?" Ma You Liang lost his composure.

Ma Ying Jie was silent for a while before resolutely saying: "We will bestow surname Ma to the outsiders and take them as our own tribesmen!"

"Lord tribe leader, if we do this, our Ma tribe's Huang Jin bloodline will really be…" Ma You Liang spoke hesitantly.

“We will have preventive measures. Huang Jin bloodline is our Ma tribe’s pride, we can never let it be contaminated. If the situation takes a turn for the better, we can denounce these people and strip away their Ma surname.”

Ma You Liang only then felt at ease and nodded, approving this plan.

Chapter 546 - The way forward for the insignificant people

Chapter 546: The way forward for the insignificant people

Translator: ChibiGeneral Editor: ChibiGeneral

Moving carriages and neighing horses.

The huge group of nearly a million advanced towards the central Imperial Court region of northern plains.

The blizzard outside was blowing intensely, causing the big stomach horse to lower its head helplessly.

The white snow on the ground was knee-deep, as everyone moved with extremely difficult steps..

One by one, the blue farm slug Gu moved forward. Their stomachs were stuffed with all sorts of resources, turning their original size of three elephants into a mound-like hill.

Carriages after carriages followed behind the blue farm slug Gu. In order to shield these mortals from the approaching blizzard, they were covered in frost.

To prevent the slug Gu from freezing to death, three Gu Masters would be in charge of one slug Gu, removing the frost on them while using fire path Gu worms to give them warmth, maintaining their temperature.

The army pressed forward towards the Imperial Court. As the blizzard became larger, the army's speed became slower.

Large number of mortal slaves fell during the journey, and never got up again.

Hei Lou Lan could order Gu Masters to save them, but he did not do so.

Even though the Imperial Court blessed land was huge and could accommodate five million people, in Hei Lou Lan's opinion, the resources within the blessed land were his, why would he distribute them to these lowly slaves?

Every extra person meant he had to lose another bit of benefit.

Using the blizzard to sacrifice large numbers of useless mortals, this was a hidden rule among all past lords of the Imperial Court.

Mortal lives were cheap. They were like grass, once the blizzard was over, they would rapidly grow again, increasing in numbers and using up northern plains' scarce resources like leeches, awaiting the next ten year blizzard.

As the blizzard became stronger, the people move against the force of the wind.

Fang Yuan was inside the large lizard house Gu, he could hear the wind outside the windows.

Within the large lizard house Gu, it was warm as spring. Using it to move in such an environment had about five to six times the primeval essence expenditure as before.

But to Fang Yuan, just his rank five peak stage ninety percent aperture could easily sustain this expenditure with no problem.

Moreover, his second aperture had also advanced to rank five upper stage recently.

Fang Yuan came before the window, looking outside the tightly sealed glass window, towards the left.

Ma tribe's members were there.

After Ma Ying Jie took the role of tribe leader, Ma Hong Yun appeared, even Zhao Lian Yun was beside him.

Fang Yuan had already confirmed this secretly, and even instructed Ge tribe to pay special attention to Ma Hong Yun and Zhao Lian Yun.

In his memory, Ma Hong Yun obtained an inheritance of Giant Sun Immortal Venerable in Eighty-Eight True Yang Building. In Fang Yuan's following plans, he was a very useful pawn piece. As for Zhao Lian Yun, she was still just a child, she posed no threat. At the same time, she was very close to Ma Hong Yun, Fang Yuan wanted to observe them further.

"In my previous life, Ma Hong Yun appeared. Now, despite my influence, Ma Hong Yun still appeared. Then in the future, will he and Zhao Lian Yun still reach that level of achievement just like in the previous life?"

After rebirth, Fang Yuan had been deeply interested towards the topic of changing history, a desire to know growing deep inside his heart.

The flow of history had inertia, as well as changes.

With his personal experience, the butterfly effect theorized on Earth was slightly off.

Five hundred years in his past life, Ma Hong Yun was given a surname and allowed to cultivate as a Gu Master. That was because he obtained a relic Gu and gave it to Ma Ying Jie.

Right now, it was because of Hei Lou Lan's pressure, that caused Ma Ying Jie to have no choice but make this decision. This decision, gave birth to a new Ma Hong Yun.

The process was different, but the result was the same.

The event that unfolded before him made Fang Yuan ponder, as he uncontrollably thought of one word — fate!

Fate, this was a word much more mysterious and ethereal than space or time.

Legend says that there was a luck path among Gu Master paths, but until today, no one could confirm it.

However, there were many important characters that were connected to fate.

In < >, it clearly indicated the existence of destiny Gu.

The second generation Immortal Venerable of the Heavenly Court, the creator of wisdom path, controlled this Gu, thus being able to plot against three future Demon Venerables.

In three kings blessed land, Fang Yuan was informed by the land spirit — Red Lotus Demon Venerable was a great hero, breaking the restriction of destiny, allowing all life in this world to regain control of their own fate.

In fact, Fang Yuan had vaguely heard such a rumor: Giant Sun Immortal Venerable controlled a luck path Gu worm, thus he had extremely good fortune and ease in his cultivation journey, avoiding disasters and gaining great blessings.

“In this world, is there really a thread of fate that connects all living beings together?” Fang Yuan went into deep thought.

In the five hundred years of his previous life, although he became a Gu Immortal, he only managed to unravel a tiny portion of this world’s mystery and secrets.

Be it his previous life, or this life, the more he progressed, the stronger he got, the more he felt his own ignorance and insignificance.

The more insignificant and ignorant he felt, the more interest he had in moving forward, he wanted to progress further!

“Compared to this world, I am merely an ant…” Fang Yuan’s blood was filled with pride and humility, obstinance and understanding.

Collecting all his scattered thoughts, Fang Yuan concentrated his attention on the matter ahead.

"Imperial Court blessed land rejects Gu Immortals, I am already rank five peak stage, this is likely the first and the last time I am entering the Imperial Court, to physically come into contact with Eighty-Eight True Yang Building.

"But this time, Hei Lou Lan purposely went over to warm pond valley to force Ma tribe to surrender, this was a strange move." Fang Yuan's gaze became solemn.

Ma tribe had already lost terribly, and they had the Huang Jin bloodline, why would Hei Lou Lan do this?

This was understandable in his previous life.

Back then, Ma tribe was not completely helpless, they had strong defense and was a turtle shell that was hard to take down. Hei Lou Lan had no choice but to force them to surrender.

Now that Ma tribe was declining, Hei Lou Lan still moved his army and laboriously forced Ma tribe to surrender, he spent so much effort to suppress Ma tribe, did he have deep enmity with Ma tribe personally?

Fang Yuan shook his head.

There were no evidence that could support this thought.

"Nevermind, maybe Hei Lou Lan was just spurred on and wanted to raise his merits. This is only a small detail, my own strength is always the most important thing."

Thinking so, his mind entered his aperture.

The injuries from using the killer move four arm earth king had already recovered.

As for the killer move, he had several adjustments.

He changed earth overlord Gu to wind overlord Gu. As for the other supplementary Gu worms, they were adjusted accordingly.

This way, he would not need to step on the ground, and would fight best in the wind. The stronger the wind, the more battle strength he can display, and the smaller the drawbacks he would face after using the killer move.

But Fang Yuan was not satisfied.

This was only a temporary compromise, the weakness of this killer move had not been reduced.

If he fought in an environment without wind, the consequences of using the killer move would not be any better as before.

For Gu Masters, there were way too many methods to restrict the wind.

Once his weakness was exposed publicly, his killer move would no longer have any threat to his enemies, they would have no fear towards it.

“Actually, no matter how good my modifications were, I would not be satisfied. My true aim is to eliminate the weakness of my strength-enslavement dual cultivation. The killer move four arm earth king is merely a starting point.”

But this result could not escape from the limits of transformation path.

What Fang Yuan wanted was to completely and utterly modify his body, he did not want to achieve such temporary transformation.

Nevertheless, reaching this point had already expended Fang Yuan’s five hundred years of knowledge accumulation.

After all, Fang Yuan was a blood path Gu Immortal back then, his attainment in strength and enslavement paths were merely subsidiaries, he merely touched the tip of the iceberg.

If possible, Fang Yuan wanted to quickly become a blood path Gu Immortal. But it was different now after rebirth. His vital Gu was not a blood path Gu.

A crucial condition for becoming a Gu Immortal was the vital Gu.

Originally, after Fang Yuan got the second aperture Gu, he would have a second chance. But that crucial blood path vital Gu was still buried in the inheritance, it had not appeared yet.

Fang Yuan could not wait in vain, the situation was forcing him, he could only choose to strengthen himself now, to deal with the challenges ahead, and all the enemies lurking around him.

Staying alive, that was the most important thing!

Fang Yuan had also realized that his foundation in strength and enslavement paths were lacking. His involvement in a wide range of paths in his previous life allowed him to easily control Gu worms of many paths, while being skilled in the combination of different Gu worms. Among them, his attainment in enslavement path was the highest.

But to resolve the issue of strength-enslavement dual cultivation, an age old question, he would need to move ahead of history and undergo creative and daring experiments, his foundation was lacking in this aspect.

Even though Fang Yuan had clues to Luo Po valley now, maybe after he obtains Luo Po valley, he would be able to convert to the glorious soul path.

But Fang Yuan never liked placing his hopes on certain possibilities in the future.

Even if he changes to soul path in the future, his hard work in enslavement and strength would be a precious resource and would greatly benefit his future cultivation.

Knowing his own inaptitude, Fang Yuan had been reading intensely these few days.

He used his huge pool of battle merits to exchange for dragon horse spirit, three hearts combination soul, all sorts of killer moves, as well as dozens of small strength path inheritances. He also got the recorded journal of four enslavement masters, among them, rat epidemic, thunder explosion. leopard rush, and horse barrage, these four killer moves were invaluable.

Fang Yuan's foundation had always been thick, these days he had been reading laboriously, his understanding and knowledge in strength and enslavement path surged greatly by several times compared to before.

Different from his previous life where he studied these paths as a side path, he had personally experienced these paths this time, and together with his theories, he gained countless inspirations.

But these inspirations could not resolve his problem now.

"Actually, looking at information about the transformation of the body, the first records were in < >. When Ren Zu fell into a certain-death situation, in order to save her own father, Desolate Ancient Moon came to Cheng Bai mountain and killed the rockman…"

Fang Yuan had a burst of inspiration as he flipped < > beside him.

This was the first classic of the Gu Master world, countless mysteries were hidden within it. Even existences like Gu Immortal kept a copy of it with them at all times, occasionally flipping and learning from it.

Chapter 547 - Search for Success

Chapter 547: Search for Success

Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan flipped <<The Legends of Ren Zu, and this was recorded within —

When Ren Zu was in a certain-death situation, after he fell into Luo Po valley and had no way to get out.

Desolate Ancient Moon, in order to save her father, climbed up Cheng Bai mountain and tried to get to the top, in order to get that one and only success Gu.

As long as she made a wish to success Gu, Desolate Ancient Moon would be able to save Ren Zu.

But when Desolate Ancient Moon got to the foot of the mountain, she was obstructed by the rockman.

It turns out that when Ren Zu's second daughter arrived at Cheng Bai mountain, she ruined love Gu's wonderful dream.

Out of anger, love Gu awakened the rockman in order to obstruct Desolate Ancient Moon.

After Desolate Ancient Moon killed the rockman, and got to the mountain waist.

Love Gu had yet to leave, it appeared before Desolate Ancient Moon and said: "Oh human, you interrupted my sweet dream, yet you still desire to take away success Gu. Now I will topple the entire Cheng Bai mountain, you can have fun finding that one and only success Gu out of billions of rocks. Hahaha."

Saying so, love Gu crashed towards Cheng Bai mountain.

Cheng Bai mountain was not an ordinary mountain, it was a mound entirely made up of stacked rocks.

After love Gu crashed into it, the entire mountain crumbled.

Love Gu left smugly, leaving behind Desolate Ancient Moon who looked at this huge pile of rocks in a daze.

How was she going to find that one and only success Gu among this chaotic pile of rocks?

Desolate Ancient Moon was troubled, without a choice, she had to return to cognition Gu to seek advice.

After cognition Gu heard Desolate Ancient Moon's description, it sighed: "Love Gu had always been demanding and unreasonable, even if it was me, or my child wisdom Gu, we would not want to confront it."

"Right now, Cheng Bai mountain had collapsed, you can only look at these rocks one by one, to find the real success Gu from among them. There are no other ways."

Cognition Gu said again: "But you have to be careful, there are two Gu on Cheng Bai mountain. One is success Gu, at the peak of the mountain. The other is failure Gu, at the bottom of the mountain. Failure is the mother of success, but it also has many other children. Those rocks are success Gu's siblings. When you pick those rocks, many unthinkably bad situations will occur. I will tell you a secret here, as long as you continue to affirm the belief of 'me' in your heart, these disastrous situations will gradually disappear."

Desolate Ancient Moon heard this and her heart sank, she asked again: "Then how do I differentiate the rocks in my hand? What do success Gu and failure Gu look like?"

Cognition Gu sighed: "They look almost the same, but it is easy to differentiate them. Just hold them in your hands, you will learn about their identities."

"In your search for success Gu, that failure Gu will be your biggest threat. You cannot hold on to the failure Gu, otherwise, you will be completely lost and your life would be in danger."

Desolate Ancient Moon heard this and nodded, expressing her gratitude.

Cognition instructed her again before leaving: "Do not say that I taught you that. If love Gu comes to find me, I'd be in trouble. In the face of fanatic and toyful love, wisdom and cognition can only run away."

"Don't worry, I won't expose you." Desolate Ancient Moon agreed, returning to Cheng Bai mountain.

Seeing the huge pile of rocks, her heart was gloomy.

Success was not easily obtainable, to obtain success, she would need to bend down and search while taking great risks.

Desolate Ancient Moon breathed in deeply, picking up the first rock.

This rock was ordinary, but when Desolate Ancient Moon held it in her hand, it shook slightly.

A light wound appeared on Desolate Ancient Moon's hand.

This was not success Gu, but one of success' siblings, one of the children of failure Gu.

Desolate Ancient Moon's heart was shocked, she touched the wound on her hand as she recalled what cognition Gu said —"When you pick those rocks, many unthinkably bad situations will occur. You have to affirm the belief of 'me' in your heart."

"So this is the terrible situation." Desolate Ancient Moon understood.

She chanted in her heart: "Me, me, me, me…"

As she chanted, the wound on her hand miraculously healed! Only a light scar was left.

She tossed the first rock away, and picked up the second rock.

When she held this rock in her hand, Desolate Ancient Moon's heart jumped, as an intense feeling of fear assaulted her.

Desolate Ancient Moon was shivering in fear, she almost ran away to escape, away from this place.

But she held on, and chanted 'me'.

After a long time, she slowly recovered as the fear in her heart was gone by half, finally picking up the third rock.

This rock made her dejected. She could not help but think: "I want to find that one and only success Gu among these billions of rocks, how difficult is that, how long would it take me?"

She could barely move anymore, she felt that the future was shrouded in darkness, it was too difficult to find success Gu.

She almost wanted to give up, but she thought about her father who was trapped in life and death door.

"If I give up, who will save father?" Desolate Ancient Moon shuddered: "Oh no, I forgot to chant 'me'."

Desolate Ancient Moon chanted again, getting rid of the despair in her heart, bending down to pick up another rock.

Once she held the fourth rock in her hand, Desolate Ancient Moon was shocked to find out that her nose had changed, it turned into a pig's nose.

She chanted 'me' once again, allowing her nose to recover.

Spending a lot of time, she exerted all her effort to get rid of the pig nose. But her nose was still slightly deformed compared to before.

Like this, Desolate Ancient Moon continued to pick up rocks, hoping to find that success Gu.

But days passed, and all she found was failure Gu's children.

Among these rocks, some made her injured, some made her dejected, despair, or fear, while some made her grow a pig head, rat's tail, etc.

Despite Desolate Ancient Moon chanting 'me' continuously, some of the scars still remained on her. As they accumulated, these scars turned her into a monster.

She grew six heads, three arms, five tails, and looked like a centaur. She had sixteen legs, and some of her legs had soft fur, some had snake-like scales, some had sharp claws, some had tough hooves.

In the search for success, people often transform and become completely different.

But Desolate Ancient Moon also became much stronger because of this.

After going through so much, she had become several hundred times as strong as before. These rocks could not longer trouble her.

"Success, oh success, where in the world are you?" Her seven mouths opened together. Some were screaming, some were shouting, some were whispering while others were growling.

The more she failed, the more she desired success in her heart.

After her great effort, the number of unpicked rocks became fewer and fewer.

Eventually, when there were only two rocks left, Desolate Ancient Moon was stuck between two difficult choices.

Undeniably, among these two rocks, one was success Gu, while the other was failure Gu.

If she obtains success Gu, that would be the best. But if she picked failure Gu, then Desolate Ancient Moon would become completely lost, she would be in danger of dying.

Even if Desolate Ancient Moon became a monster, becoming so much stronger.

One step to heaven, one step to hell, what should she choose? Desolate Ancient Moon could not help but become hesitant.

“If I do not dare to take the next step for fear of failure, then I will never succeed! I am already so strong, success is a step away from me, even if I take failure Gu, as long as I chant ‘me’, I should be able to endure it right?” Eventually, she mustered her courage and stretched out her palm, picking one of the rocks.

Unfortunately, she picked failure Gu.

An unforseen feeling of lost, self-doubt assaulted her.

“Me, me, me…”

Desolate Ancient Moon continued to chant ‘me, but her voice became softer, as her seven mouths stopped moving eventually, her expression turning into a daze.

She had fallen into endless perplexity, she had completely lost herself.

The biggest tragedy for a human, is to lose your sense of self.

…

“Sigh…” After reading this, Fang Yuan sighed as he closed the book.

At once, his thoughts were drifting as he showed a very complicated expression.

It was still snowing outside the window, snowflakes were floating in the air.

As the ten year disaster approaches, the blizzard did not show signs of weakening, instead it was growing.

Northern Plains, end of December.

When Hei Lou Lan led the army and and arrived at the last minute, at Imperial Court blessed land’s entrance, the alliance had about half its members left.

A large number of mortals died on the way there.

In fact, many Gu Masters died from the attacks of beast groups.

The item to open the Imperial Court blessed land was on Hei Lou Lan.

When he stood up, a mild golden light shone in the air.

Immediately after, the golden light intensified, forming a light ring.

The light ring expanded, turning into a grand city gate.

On the gate, there were exquisite silvery flower patterns. Many fist-sized copper buttons were plastered on the gate.

Boom…

There was like an invisible hand behind the door, pulling the heavy door open.

Immediately, the thick smell of sandalwood spread.

The snow in the air stopped moving. Under the influence of a mysterious power, the snow in the air gathered like bees, in an instant, a solid and magnificent ice ladder was created.

At the top of the ladder, it was connected to the floating Imperial Court gate. It extended all the way to the ground.

“Imperial Court blessed land!” Hei Lou Lan could not conceal his excitement, he took three steps as one step as he ascended the ice ladder, becoming the first person to enter the Imperial Court.

“Eighty-Eight True Yang Building…” Fang Yuan was the second person, his gaze became solemn as he took calm strides in.

After that, Tai Bai Yun Sheng, Hao Ji Liu and other high level experts went in.

About an hour later, the entire Hei tribe army had entered Imperial Court blessed land. The ice ladder broke apart, as the red city gate closed itself.

The light ring shrunk into one dot, and vanished.

“They have all entered.” The Gu Immortals observed in secret retracted their helpless and nostalgic gazes.

Chapter 548

Chapter 548: Inheritance hidden in Eerie Fire Python's den

Translator: ChibiGeneral Editor: ChibiGeneral

When Fang Yuan opened his eyes, the scene before him had completely transformed.

The sky was light gold in color, the land was like spring, with green agricultural terraces, there were gentle streams flowing, and low-lying mounds, one could see far and wide in this boundless plains.

This was a serene and peaceful world, forming a great contrast to the blizzard outside.

This was northern plains' greatest utopia — Imperial Court blessed land, it opens every ten years, as a reward to the lord of northern plains.

Fang Yuan looked around and found that he was alone.

Although everyone entered from the same gate, after they stepped through the gate, they were separated and randomly transported to any area of the blessed land.

This was as per usual, Fang Yuan was not shocked. According to the earlier agreement, next he had to travel towards the center of the blessed land, Giant Sun Immortal Venerable's former place of residence was there — Northern Plains Sacred Palace!

"I am finally in here." Fang Yuan regulated his breathing, the Imperial Court contest was only a prelude, what was truly important was the following events.

He tried activating eagle rise Gu, his crystal purple primeval essence moved according to his will, entering the eagle rise Gu.

Swoosh!

With a light sound, followed by intense pain, two broad and huge pitch-black eagle wings grew on his back.

Within Imperial Court blessed land, the use of mortal Gu was not restricted. As for Immortal Gu, they could not be restrained in any blessed land.

The strong eagle wings flapped lightly and brought Fang Yuan into the air.

Flying in the air, feeling the light wind brushing past his face, he could smell the unique scent of nature that permeated the entire blessed land.

Compared to the outside world, this place was extremely peaceful, it was like heaven.

Fang Yuan was in no hurry, he flew slowly as he enjoyed the scenery around him.

Imperial Court blessed land's landscape was quite similar to northern plains. At one glance, it was a huge plain, there were mounds and slopes with beautiful and elegant lines, it was like a stream of jade green flowing smoothly without obstacles.

But different from northern plains, every eight li, there would be a tower on the ground.

These towers made Fang Yuan think of totem pillars. Each one was about twenty-five meters tall, they were tall and straight, with a gold and silver surface, with lots of precious gems adorning it, beautiful and exquisite.

In the tower, there were countless barriers, like a beehive. Inside, were many Gu worms.

When the worm groups in the blessed land give birth to Gu, these Gu worms would detach themselves from the group and live in these towers.

The towers were built by Giant Sun, no matter what type of Gu worm it was, they would be able to find their food inside the towers.

Every tower had tens of thousands of Gu worms. These Gu consists of many species, there were large numbers of common Gu and few rare Gu.

Undeniably, each of these towers were a huge fortune, even Fang Yuan can feel his attraction to them. He could even see a group of about a thousand starlight firefly Gu in one of the towers.

“Unfortunately, I cannot take these Gu as I wish. When the Imperial Court contest first started, some daring Gu Masters tried to steal or even attack the towers, to take the wild Gu inside. In the end, they were like candles, their entire body melted until their white bone skeleton was left, smashed into a pile.” Fang Yuan’s gaze concentrated.

This was the heavenly power of the blessed land, the power of heaven and earth.

No mortals could resist it.

Even Gu Immortals would be left in a pathetic state when competing against it.

After enough lessons taught, by now, no Gu Master had the intention to attack the towers.

“If we chase the origin, the Gu Immortal who created Imperial Court blessed land was a space path Gu Immortal whose name can no longer be found. Because of this, this blessed land is huge, far larger than other blessed lands. Before Giant Sun Immortal Venerable became an immortal, he inherited this place luckily and became the blessed land’s new owner. After Giant Sun became an Immortal Venerable, and obtained unparalleled power, he displayed great methods and set up the tradition of the Imperial Court contest, allowing this ancient blessed land to continue existing until now.

Fang Yuan flew as he recalled.

The methods of an Immortal Venerable were beyond his understanding. Who knows how Giant Sun Immortal Venerable managed to do it, but the result was, under his manipulation, Imperial Court blessed land no longer suffered from heavenly tribulations or earthly calamities.

Hiss hiss hiss…

After flying for an hour, past numerous towers, Fang Yuan was provoked by a giant python on a small valley.

This bright red giant python was at least a hundred meters long, its body was as thick as a tower.

There was a sharp horn on its head, a pair of blood eyes stared at Fang Yuan fixatedly, hissing with its tongue continuously.

Its tongue was a creepy purple color, and there were eerie blue flames on it.

"Eh? It's a rarely seen eerie fire dragon python." Fang Yuan was slightly shocked.

At this moment, the giant python opened its mouth, and shot out a carriage-sized blue purple flame.

The flame approached quickly, as the temperature in the air rose sharply, from a few hundred steps away, Fang Yuan's hair and eyebrows were showing signs of drying up. It showed the terrifying temperature of the blue purple flame!

Fang Yuan's eyebrows rose as he flapped his eagle wings, going to a higher altitude and avoiding the flame easily.

Killer move — Four Arm Wind King!

He activated more than ten Gu worms at once, his crystal purple was expending rapidly, meanwhile two bronze arms grew out of his body.

Thereafter, he flew down like a comet, straight towards the python.

Bam!

He crashed fiercely into the eerie fire dragon python, engaging in fierce combat with it.

At once, smoke rose as shockwaves were sent out, flames shot out as the valley shook.

Eerie fire dragon python was a mutated beast king, mutated beasts has rank four battle strength, while their king had strength equivalent to a rank five Gu Master. But Fang Yuan was rank five peak stage long ago, and after using his killer move, his battle strength was even higher.

If the eerie fire dragon python laid low and hid itself, Fang Yuan might not have noticed it while being on the move. But since it provoked him on purpose, Fang Yuan felt the urge to hunt and improve his killer move by using it as a training dummy.

After half an hour, the battle was over.

Fang Yuan's body was charred black, he stood in the completely destroyed and ruined valley.

The eerie fire dragon python's huge body was half covered in broken mountain rocks.

Fang Yuan coughed a few times, throwing up some blood.

The improved killer move had much less severe aftermath than before. A part of the reason was that the eerie fire dragon python did not have wisdom like humans, it could not find out Fang Yuan's weakness amidst battle.

If the wind was restricted, Fang Yuan would be in a much worse state.

This battle was not easy.

Imperial Court blessed land was a great environment, there were many Gu worms, thus there was a larger number of fire path wild Gu worms on the eerie fire dragon python. Among them, there were several valuable ones.

Fang Yuan's killer move was strong, but it did not have much defense against fire path.

If he did not need to dodge the flames, the thirty minute battle would be faster by at least a third.

Fang Yuan started collecting his loot.

This mutated beast king's body was full of value. For example, the python blood was a top ingredient in feeding blood path Gu worms. The python skin, tendons etc, would cause a huge commotion if sold in the mortal market.

Especially the eerie fire snake gall, it was extremely valuable, it could even be sold in treasure yellow heaven.

Fang Yuan organised his gains, in order to save time, he only kept the valuable items in his Gu.

"Eerie fire dragon python, they live in caves as a family. If there are any young dragon pythons, I can capture them and place them inside Hu Immortal blessed land to breed. It would be a good investment for the future." Fang Yuan thought about this and searched around.

Very soon, he made a discovery.

"Eh? There's a Gu Master inheritance here." Fang Yuan did not find a baby dragon python, but found a bright red rock, like that of a fire lotus.

With his expertise, he quickly understood that this was a Gu Master's work.

When he got close to the huge rock, this fire lotus-like rock opened up in layers, like a blossoming lotus.

The fire lotus rock opened completely, showing the Gu worms inside as well as a stele.

The stele was one with the huge rock, there were northern plains words on it.

Fang Yuan read it thoroughly and understood its existence.

The fire path Gu Master who left behind his inheritance was called Huo Zheng Jun, he was a righteous rank four fire path Gu Master. He entered this valley by accident, and was attacked by the eerie fire dragon python. Before dying from his injuries, he left behind his Gu worms helplessly and made the inheritance.

In the future, if a fated individual comes here, them this set of Gu worms would be his.

Huo Zheng Jun left behind seven Gu worms. But after these years, four died, and only three remained.

Among the three Gu worms, only one attracted Fang Yuan, it was the rank four fire pupil Gu.

When a Gu Master uses fire pupil Gu, fire would burn at anywhere they looked at, burning their opponents. Such a convenient attacking method often caught people off guard.

But it had its weaknesses.

If it was used for a long time, the Gu Master's eyes would be damaged. They would need to use good healing Gu as well as complementing Gu worms to weaken this side effect.

This fire pupil Gu was Huo Zheng Jun's core Gu worm.

Aside from the Gu worms he left behind, there were Gu recipes that he recorded on the stele.

Fang Yuan looked at it three times, storing the information inside east window Gu.

Although he did not cultivate fire path, these recipes were useful for him when researching about Gu refinement or even in his cultivation, as a form of inspiration. Especially the refinement recipe of the fire pupil Gu, it had high value.

According to this Gu Master, rank four fire pupil Gu was advanced using rank three fire eye Gu, together with sight blow Gu and some associated Gu refinement materials.

Fang Yuan knew about rank three fire eye Gu, it was a one time expenditure Gu used for investigative purposes. It could transform the eyes into fire eyes, having the ability to see through fog, but it did not work every time, once it failed, one would turn blind.

Fang Yuan knew about sight blow Gu too, Hao Ji Liu from the Hei tribe army had one. He had once used it together with rank four location swap Gu.

Fang Yuan kept the fire pupil Gu, he did not intend to go onto the fire path.

Fire pupil Gu did not suit his current style. While the attacking method was convenient, it was very restrictive, it was too reliant on visual contact.

There were too many strange Gu in this world, there were countless methods to prevent eye contact.

There was no strongest Gu worm, only strongest Gu Master.

Gu worms were the hosts of the great Dao, they were fundamentally tools. When Gu master use them together, they could form great effects. Some combinations were even far superior and harder to counter, they were known as killer moves.

“This means, this should be the first Gu Master inheritance I’ve obtained in Imperial Court blessed land.” Fang Yuan thought about it, feeling interested.

In Imperial Court blessed land, there were countless Gu Master inheritances.

It was because of the superb environment, in contrast, many inheritances in the main world were often destroyed by calamities and beasts before the fated person arrives.

Furthermore, all the Gu Masters that entered Imperial Court blessed land were experts that had undergone tough battles, they had to have at least some superior qualities, if they were not heroes or grand conquerors already.

Thus, there were abundant inheritances inside Imperial Court blessed land. Anyone who was fated would have gains.

Fang Yuan kept the three Gu worms inside his aperture, before smashing the stele to bits.

Next, he searched around, finding a cave indeed. He entered the cave and walked to the lowest part of it, at about a hundred meters underground, he found six eerie fire dragon python eggs.

He was troubled now.

If it was a baby eerie fire dragon python, he could bring them away to Hu Immortal blessed land and allow them to hunt freely.

But it was not easy to hatch an eerie fire dragon python's egg. He needed to use eerie fire and python blood to bathe them daily. After the little dragon python hatches, they need to taught by the eerie fire dragon python personally, on how to use their strength to hunt.

Fang Yuan did not have the time or effort to waste just to hatch these eggs.

There was no choice, he quickly kept these eggs before getting out of the hot cave, flying towards the sky and continuing on his journey without any lingering feelings.

ChibiGeneral ChibiGeneral I would make scrambled eggs out of them ?

Chapter 549

Chapter 549: Subduing azure wolves with the help of snow bats

Just like this, Fang Yuan flew for another three days, but could not see even a glimpse of the sacred palace on the plains.

Fang Yuan thought to himself: “It seems that I was transported very far away after entering Imperial Court blessed land. Otherwise with my speed, I would’ve reached the sacred palace within three days.”

On the way, Fang Yuan met many Gu Masters and mortals.

They were Hei tribe alliance members, after entering the blessed land, those with ability would gather at the sacred palace. Those who did not would choose a place and settle down.

Imperial Court blessed land was not safe, there were large numbers of wild Gu worms and vicious beasts.

Hei tribe army came here and destroyed their order, disturbing the beasts and worms which had already sorted out their territory.

Thus, conflict and killing was natural.

But all in all, the environment was infinitely better than the outside world, which was face a fierce blizzard.

Fang Yuan had seen several slaughtering scenes along the way. Some were beast group corpses, some were humans with broken limbs.

Imperial Court blessed land had much greater foundation than Hu Immortal blessed land. There was no weather changes in Hu Immortal blessed land, but Imperial Court blessed land had it.

In fact, Imperial Court blessed land had morning and night!

This might not be spectacular in mortal eyes, because in northern plains, there was also day and night, they were used to it.

Only someone like Fang Yuan would understand the true value of this.

It was very rare for blessed land to have weather changes. If there was day and night, it meant that this particular heaven and earth had sufficiently deep foundations, at least, the time path law here was quite complete.

Normally, blessed land with astronomical phenomenon were first rate blessed lands. Fang Yuan's Hu Immortal blessed land had not reached this level yet.

Day and night was the characteristic of grotto-heavens.

Blessed lands were small worlds. Above blessed lands, there were even more complete and refined small worlds, they were grotto-heavens.

Imperial Court blessed land already had the characteristics of a grotto-heaven, it could be said to be a quasi grotto-heaven. Lang Ya blessed land was originally a grotto-heaven that fell, by now, it had lost its day and night trait.

Night descended.

Fang Yuan looked at the sky, it turned from a glorious gold color to a light and elegant silver.

The daytime in Imperial Court blessed land was a dazzling golden day. At night, it was not completely dark, as silver light shine in the sky.

Flying in the air, Fang Yuan witnessed the changing of the sky.

Silver light rained down, compared to the hot and dazzling golden rays during daytime, it had traces of sharpness to it.

Fang Yuan's flying speed was slowing down, he looked down and after searching for a while, he found a gentle slope.

With his years of experience, he knew that the gentle slope was a great place to set up camp.

But he was in no hurry to descend, he circled around the slope several times, like a bird flying freely.

Eventually, when he confirmed that this area was safe, he landed and kept his wings.

The strong eagle wings were pitch-black like steel. After Fang Yuan stopped using eagle rise Gu, the wings vanished into thin air, as one or two black feathers were left floating in the air, landing on the grass.

Fang Yuan willed and activated big lizard house Gu.

Immediately, a mystical light shot out from his aperture, landing in front of him.

The light expanded and grew, as a big lizard house Gu eventually appeared.

The lizard opened its mouth and shot out its tongue, showing the door in its mouth.

The tongue was like a red carpet ladder, as Fang Yuan stepped on it, the door opened automatically. After he entered the lizard house Gu, the door closed on its own, as the lizard closed its huge mouth without a gap.

Although Fang Yuan was energetic, he was still of mortal body, when fatigue accumulates to a degree, he will need to rest to ensure that he stays at peak condition in terms of mind and body.

Chichichichi…

After Fang Yuan got into the lizard house, he heard some noises outside.

His gaze concentrated as he muttered: “As expected, it is the blissful snow bats…”

Fang Yuan had already understood the rules, when day turns to night, large groups of blissful snow bats would fly out.

The blissful snow bats were pure white like snow, they were furry and did not look ugly like ordinary bats, in fact they were rather cute.

Such a beast group was huge in scale, each group had about several hundreds of thousands of bats. Among them were beast kings, and myriad beast kings were very common, there were even snow bat beast emperors.

Even with Fang Yuan's dual aperture and killer move like four arm wind king, he could not fight against them, he could only avoid them.

The snow bats only hunted in the air, eating the particles in the air or flying worms. The big lizard house Gu was not part of their food chain. But because of Fang Yuan's vigilance, he moved the big lizard house Gu to the back of the slope.

The big lizard curled up into a ball, from the sky, it resembled a huge rock.

Fang Yuan was on the bed as he slept, but before long, the cries of the blissful snow bats became very erratic, as wolf howls could be heard as well.

"What's going on?" Fang Yuan was woken up by this noise, he opened his eyes and got up from bed, going to the window.

Only to see that in the silvery backdrop, two beast groups were fighting.

The snow-white lump had a grand scale, it was the blissful snow bats. As for the dark-green lump, it was a pack of azure wolves, although they were fewer in numbers, they fought fiercely and had great cooperation.

Although they were many snow bats, under the wolves' attacks, they suffered huge losses.

Fang Yuan's brows lifted, feeling slightly shocked.

Azure wolf had a trace of the desolate beast heavenly wolf's bloodline, thus it could float in mid air even as a cub. A mature azure wolf can use this talent to its limits, able to run freely in the air.

Azure wolves were elites, they were different from ordinary wolf groups. Among the azure wolf group, each azure wolf was at least a hundred beast king!

Azure wolf groups were often small, but they had great battle strength. But regardless of how strong a wolf group is, they cannot withstand the trial of time, and the trials of mortality.

Right now, in northern plains' sky, barely any azure wolves could be seen. They were getting rarer, going to be extinct soon.

However, as the largest blessed land in northern plains, Imperial Court blessed land had such a huge scaled azure wolf group, it was not a surprise.

The wolves got more energetic as they fought, as the bat group gradually got into a disadvantage, after leaving behind several tens of thousands of corpses, they escaped.

The azure wolves did not have many deaths, most of the azure wolves landed on the ground and started consuming the bat corpses. Some of them remained in the air, looking around and staying vigilant.

Fang Yuan's heart was moved: "After entering the blessed land, my wolf group had scattered. Imperial Court blessed land is too wide, I cannot gather them here in such a short time. This azure wolf group is really timely, not only can they fly to keep up with my pace, they can even protect me, in the future when we encounter bat groups, we can just charge through."

At the same time, several wolves found Fang Yuan's big lizard house Gu and surrounded it.

Fang Yuan left the Gu house immediately and kept the big lizard house Gu, charging towards the myriad beast king in the sky.

The wolf group went into a commotion as they attacked Fang Yuan from all directions.

But the azure wolves which had just eaten were moving sluggishly, their battle intent had also decreased severely. This was the best time for Fang Yuan to subdue the myriad wolf king.

Fang Yuan snickered, he turned left and right, making circles in the air. With his flying master attainment, these azure wolves could only chase after him fruitlessly.

The myriad wolf king that Fang Yuan was going after was different from the other two myriad wolf kings, in the earlier battle, it had charged ahead and sustained some injuries, as well as losing some wild Gu on it. Fang Yuan had paid close attention to it earlier, and knew all the wild Gu worms currently on it.

Going up to the myriad wolf king, Fang Yuan activated the killer move four arm wind king and thrashed the wolf king.

This unlucky myriad wolf king was beaten into a daze by Fang Yuan.

Fang Yuan used this chance to activate rank five wolf enslavement Gu, subduing it.

Once it joined Fang Yuan, it howled and a third of the azure wolf group changed sides along with it.

Fang Yuan laughed loudly, it was dangerous to subdue a myriad wolf king under the attack of the wolf group, but now that he had succeeded, the situation was different.

With the wolf group, the situation was overturned.

Under Fang Yuan’s manipulation, the wolf group attacked from left and right, cooperating with him and surrounding the second azure myriad wolf king.

The wild wolf group attacked furiously, as Fang Yuan used his wolf group to form a line of defense, protecting himself. He himself, engaged with the myriad wolf king.

After fifteen minutes, Fang Yuan subdued the second myriad wolf king.

Victory was assured!

The final myriad wolf king saw this and immediately ran, bringing its subordinates to escape with it.

Fang Yuan first stopped his bleeding and checked his own injuries. After checking the battlefield, he kept the big lizard house Gu and shifted the campsite.

This area was filled with the intense smell of blood, quickly, waves and waves of beast groups were attracted. If Fang Yuan continued staying there, he would be disturbed endlessly.

About ten li away, he rested for four hours before flapping his wings and continuing his journey.

But different from before, Fang Yuan was now surrounded by two azure myriad wolf kings, thirty-eight thousand beast kings, and two hundred fifty-six hundred beast kings. It was a huge force.

In the blink of an eye, six days of travelling went by.

In this process, Fang Yuan found three inheritances. They were small inheritances however, in Fang Yuan’s eyes, they were as good as nothing.

What was worth mentioning was, the wolf group expanded.

With the foundation of two azure myriad wolf kings, another was subdued. This way, Fang Yuan had three azure myriad wolf kings under his control.

Imperial Court blessed land was a true land of treasures. There were huge beast groups within, and even the rare azure wolf was a common species here.

Other than the azure wolves, Fang Yuan subdued batches of night wolves, wind wolves, turtleback wolves, and vermillion flame wolves along the way.

These wolves were originally his to begin with, except that they were scattered after entering the blessed land. Fang Yuan had only found a small portion of them by now.

ChibiGeneral So now he's basically Santa, except that instead of giving out presents, he takes them.

Chapter 550 - Poet Immortal’s demise on Xing Jiu peak

Chapter 550: Poet Immortal’s demise on Xing Jiu peak

Translator: ChibiGeneral Editor: ChibiGeneral

Two days later. A high mountain peak protruded Fang Yuan’s vision.

The deep blue mountain was like a lone vulture with a bizarre shape.

Fang Yuan was somewhat startled as his gaze became suffused with joy: “This should be Xing Jiu peak. It seems my direction is correct, according to Gu Immortal Lord Tian Ku’s description in the past life, the place where the vulture’s gaze falls in is the sacred palace!”

Immortal Court blessed land had a lofty and holy position in the hearts of northern plains’ people, and was a spiritual symbol. It was also a cradle which had nurtured many northern plains’ Gu Immortals in the Imperial Court contests before.

When central continent invaded northern plains, they had first attacked this significant strategic location.

Due to the lack of preparations, Immortal Court blessed land was breached by the alliance of central continent’s Gu Immortals and the sacred palace was ruthlessly destroyed, turning into a ruin. Eighty-Eight True Yang Building was also destroyed, vanishing in the surging river of history, and causing people to sigh while wringing their wrist.

Lord Tian Ku was one of the Gu Immortals who participated in the surprise attack against Immortal Court blessed land. Fang Yuan made his plan by referencing the surprise attack methods of the central continent’s Gu Immortals.

“Hmm? There are people on Xing Jiu peak.” When Fang Yuan was about to cross the Xing Jiu peak with his wolf group, he suddenly paused as he saw many Gu Masters at the summit of the peak, among were familiar people as well.

His thoughts moved and decided to not hurry on his way, but instead descended to the Xing Jiu peak with his wolf group.

“Pan Ping greets Lord Wolf King.”

“Brother Shan Yin, we meet again.”

Looking at the Wolf King descending, the Gu Masters all felt their hearts shiver. From among them, two Gu Masters walked out; one was Pan Ping who had become rich and famous with this time’s Imperial Court content, while the other was one of the twin demons Tai Bai Yun Sheng invited, Zhu Zai.

Pan Ping was now already at rank four peak stage, and with sole blade Gu, his battle strength could match against some rank five Gu Masters.

Zhu Zai was a strength path rank five Gu Master and was an expert in close combat, thus he was much more fearful of sole blade Gu than other people. He had been separated from Gao Yang when he entered Imperial Court, and on the way to the sacred palace, he got into an argument with Pan Ping.

“We greet Wolf King!” After Pan Ping and Zhu Zai, the rest of the Gu Masters greeted one after another while kneeling on the ground.

In Ma tribe army, Fang Yuan’s prestige was raised to the highest status, and was recognized as the number one person of this generation. His prestige suppressing Hei Lou Lan and even Ye Lui Sang who had a fire path Immortal Gu.

If not for Chang Shan Yin not being of Huang Jin bloodline and Hei Lou Lan being the alliance leader, there might have been people who would have shouted to change the alliance leader.

“Stand up, there is no need to be so restrained.” Fang Yuan was sitting on an azure myriad wolf king as he lightly nodded and then directly asked, “For you guys to gather here, what inheritance did you discover?”

Everyone inwardly grumbled.

The truth was indeed so. At first, someone had discovered an inheritance in Xing Jiu peak, but did not have enough strength to get it. Helplessly, the Gu Master called for other Gu Masters to explore together. But the result was, they lost several people instead.

The Gu Masters were no resigned to failure and searched all around for help, inviting Pan Ping and Zhu Zai one after another.

The two, for their respective benefits, competed with each other, creating the situation to turn into a stalemate before finally Fang Yuan crashed in.

Now, since Fang Yuan directly asked it, Pan Ping and Zhu Zai did not dare to hide it and could only explain this matter.

“Lord Wolf King, it is fortunate you are here. This inheritance opens every seven days, and during the opening, it lets out a soaring high starlight and reveals a starlight door. This duration is not only extremely short, there are also insect groups that rush out of the starlight door, preventing us from entering.” Pan Ping introduced with a slight smile.

“There is only a short time before the inheritance opens now. Lord Chang Shan Yin, since you graced us with your presence, I represent all the Gu Masters here to request you to uphold justice.” Zhu Zai said with sincerity on his face.

The corners of Pan Ping’s lips twitched as he glanced at Zhu Zai with extreme disdain.

‘Zhu Zai’s reputation of being a famous expert in the demonic path is laughable, he actually is going so far in his flattery!’ Pan Ping was filled with disdain towards Zhu Zai.

‘Wolf King might be strong, but I, Pan Ping, will have a day when I can reach his level!’ Pan Ping was young, his heart still had arrogance, but he did not show it, instead lowering his head to show his respect towards Wolf King.

He was a demonic path Gu Master and naturally was extremely clear of his current situation and understood the logic of being able to bow and submit.

Fang Yuan straightforwardly agreed, immediately becoming the main person in charge here.

As time gradually passed, everyone was indeed able to see starlight gradually filling the summit.

When the time arrived, the starlight majestically soared up, piercing through the sky. A small door then slowly opened in the dazzling starlight.

Bzzz Bzzz Bzzz….

Large numbers of insect groups rushed out like a tide.

These insect groups were of all kinds of colors with many wild Gu mixed among them; their stance was fierce but they only hovered near the starlight door and did not pounce upon the people.

Clearly, this was a test.

Fang Yuan carefully observed before snickering – this insect group test was not difficult. Even without him, with the combined strength of the rest of the Gu Masters, they would be able to overcome this.

However, Pan Ping and Zhu Zai’s internal dispute caused the overall strength to be divided with other Gu Masters supporting different sides; no one conceded which allowed Fang Yuan to take this opportunity.

Fang Yuan glanced at Pan Ping and Zhu Zai; these two both had somewhat unsightly expressions right now.

Fang Yuan did not care, instead he sent an order: “These insect groups are often more difficult to deal with than beast groups. All of you, listen to my arrangement, and we will be able to reduce the losses and deal with this easily.”

Everyone promptly agreed. Under Fang Yuan's command, they attacked in segments, drawing away the insect group and exterminating them.

After a dozen or so breaths of time, most of the insect groups had been drawn away and the originally tight defense line now had a huge gap.

Pan Ping said in joy: "Lord Wolf King is truly amazing! All of our eyes were obscured, exterminating the insect groups is not important, the main thing was to open a passageway. With this, we will have plenty of time."

Zhu Zai also sighed: "Having Lord Wolf King to lead us is our fortune."

But Fang Yuan's next words shocked them: "You guys stay here to hold back the insect groups, don't make a mistake. I will make a trip inside."

With that, he suddenly rushed to the starlight door with the wolf group.

"Thi… This… Lord Wolf King…" Zhu Zai's expression paled, he had not expected Fang Yuan to act so selfishly in the open.

Pan Ping's eyes also opened wide as his heart filled with anger at the injustice.

Under everyone's gazes, Fang Yuan first sent an azure wolf to investigate the inside and seeing there were no dangers, he rode an azure wolf king and entered the door.

Of course, he left behind a large number of azure wolves to form a defensive line around the entrance to protect his escape route.

"Didn't they say Wolf King was proud and aloof, how could he be so shameless?"

"He is truly too overbearing, this inheritance was clearly discovered by us first, but now it was snatched by Chang Shan Yin!"

"Chang Shan Yin has let down the name of the grand Wolf King, he actually left us out here…"

The people present were all furious but they did not dare to express their anger.

"Lord Pan Ping, should we also charge in?" A rank three Gu Master rolled his eyes, then turned towards Pan Ping and urged him.

Pan Ping snorted and sent this Gu Master flying with a kick, shouting fiercely: "If you want to go in, feel free. What, you want me to test the water?"

"Lord, you misunderstood, how could I dare!" The rank three Gu Master immediately retorted.

"Get lost!"

Pan Ping angrily rebuked while clenching his fists tightly.

He rigidly looked at the starlight door with sharp light flashing past his eyes.

The gap that had been cleared was now jammed with azure wolves. There were two myriad wolf kings, dozens of thousand wolf kings, over 300 hundred wolf kings, and even over two hundred guarding the air.

Pan Ping could not charge through this scale of wolves.

His thoughts turned around and he then looked at Zhu Zai, speaking in a faint ridiculing tone: "This is the result of you wanting Wolf King to uphold justice?"

Zhu Zai coldly glanced at Pan Ping, immediately seeing through Pan Ping's thoughts.

He snorted inwardly with disdain: 'This Pan Ping is still young and has been infected by hastiness gained from the recent fame. He actually wants to entice me to ally with him to break the wolf group's defense line, too naive! Is Wolf King so easy to deal with? Even if Wolf King only left behind one ordinary night wolf, I would not dare to make a move. This brat simply overestimates his own abilities!'

Pan Ping furiously snorted as he saw Zhu Zai not answering him, and could only swallow the words that he had been about to speak.

———-

Fang Yuan arrived before a courtyard after entering the starlight door.

The style of the courtyard was peculiar, it was completely constructed out of blue metal and its shape was strange and abstract, not belonging to any style of the five regions.

Fang Yuan pushed upon the gate and entered. The courtyard was covered in a layer of thin light cotton, and appeared mysterious, quiet and magnificent.

At first, Fang Yuan moved cautiously, but after searching around once, he did not find any mechanisms for tests or traps.

The courtyard had six rooms, and Fang Yuan explored all of them.

"So over a hundred years ago, this was the residence of northern plains' great poet Du Min Jun." Fang Yuan received the entire inheritance left behind by the courtyard master and learned this person's identity.

Du Min Jun was a rank five Gu Master, he travelled alone and had never married in his whole life. He was called Vagrant Lone Star by people. He was the famous Poet Immortal in northern plains and his verses mostly portrayed the starry sky, his longing towards his hometown and his powerless struggle against fate.

He was proud and noble, and separated himself from mortal affairs. He had been pursued by many northern plains' women throughout his life and there were even men who pursued him, but they were all heartlessly rejected by him.

Future generations evaluated and praised him: He was immersed in his own world, although he was in northern plains, his mind was in the starry sky. He was not a northern plains' man, he was a poet, he was a Poet Immortal who was denounced to the mortal world from the starry sky!

“So Du Min Jun eventually chose to suicide at this place.” Fang Yuan sighed.

Du Min Jun was not able to endure the melancholy in his heart in the end; he built his final residence in Xing Jiu peak and ended his life of his own accord. What he had left behind were countless poems to be read and admired by the later generations.

Du Min Jun had outstanding talents and his inheritance was also extremely valuable.

First of all was a emotion poetry Gu. Emotion poetry Gu was especially used to store emotions and along with painting idea Gu, was a wisdom path Gu. It was extremely rare and very expensive.

Then, there were large numbers of star path Gu worms of all types. It basically had all the star path Gu of northern plains.

Fang Yuan was amazed at this.

“It seems Du Min Jun had a fortuitous encounter, otherwise how could he have so many and such complete star path Gu worms? Hmm? He actually innovated an entire set of star Gu recipes?”

Fang Yuan flipped through the recipes and realized how shockingly talented Du Min Jun was.

He founded a set of new Gu, from rank one ‘a bit of star Gu’ to rank two ‘brilliance of two stars Gu’, rank three ‘three stars in the sky Gu’, rank four ‘four stars cube Gu’ to rank five ‘five stars aligned Gu’.

This set of Gu worms was especially targeted star path Gu and could raise star path Gu’s effects by a huge degree; it was equivalent to a non-mainstream amplify effect Gu. But this set of Gu worms had much higher success rate than amplify effect Gu, moreover their refinement materials were extremely common. This meant, if this set of Gu recipes was spread, it would definitely lead to a huge rise in popularity of star path Gu and would have some amount of influence towards all Gu Master paths!

“Although I am not a star path Gu Master, if I refine this set of star Gu, it would be a huge help in opening the stargate and linking to Hu Immortal blessed land.”

Fang Yuan could not help but feel a bit of joy in his heart.

He had invested heavily earlier to nurture a batch of starlight firefly Gu in his Hu Immortal blessed land. He also got many air bubble fish to increase the starlight firefly Gu’s growth.

But even so, the starlight firefly Gu’s expenditure was greater than its production.

Every time the stargate was opened, large numbers of starlight firefly Gu would be used. But to nurture starlight firefly Gu, a lot of time was needed.

It was easier for Fang Yuan back in northern plains, when he could use the starlight in the sky for one of the two sides of the gate. But in Imperial Court blessed land, there was no starlight in the sky. Thus, to open the stargate, he would needed to expend even more starlight firefly Gu.

But if he could refine this set of Gu that could amplify the power of star path, one starlight firefly would be able to achieve the effects of a few, that way, he would have several times less expenditure than currently.

“Furthermore, this Gu recipe is interesting, the thought process and viewpoint is different from the norm, it is like a deduction done using

Earth’s science and math. To think that Poet Immortal was so knowledgeable, having such incredible ideas.”

Fang Yuan could see a portion of Poet Immortal’s wisdom from this Gu recipe.

Taking all that was valuable in these few rooms, Fang Yuan returned back to where he came from.

Du Min Jun was a righteous path Gu Master, his inheritance was naturally a righteous path inheritance, there was only one trial and was not difficult.

When Fang Yuan returned to the mountain peak, the worm group that was troubling everyone had dispersed.

“Lord Chang Shan Yin, you are finally back! I wonder what gains lord had made inside?” Pan Ping’s expression was ominous as he walked up to Fang Yuan. His intention was obvious: You Wolf King took the meat, you have to at least leave us the soup right!

“Hahaha, congrats Lord Wolf King, with this inheritance, you are like a tiger who gained wings.” Zhu Zai cupped his fists and spoke, not mentioning anything related to splitting the gains.

Fang Yuan nodded lightly: “This inheritance was set by Poet Immortal Du Min Jun, there are still a lot of beautiful treasures left inside. You can go take it.”

Saying so, he sat on the azure myriad wolf king and flew into the sky.

Pan Ping saw him leaving and immediately shouted: Sir Chang Shan Yin! We restrained the worm group for you painstakingly, yet you took all the best things inside the inheritance, according to the rules, you have to give us some compensation.”

“Compensation?” Fang Yuan stopped his wolf, floating in the air as he looked at this Sole Blade General with a half-smiling expression.

“What compensation do you want?” Fang Yuan asked.

Pan Ping expressionlessly requested: “We can’t determine what compensation to get yet. Why don't lord show us the inheritance you obtained, so that we can evaluate it?"

"Hehehe." Fang Yuan laughed, looking at Pan Ping amicably: "Look at this compensation, are you happy with it?"

Saying so, he willed and the azure wolf group surrounded Pan Ping from the ground and the sky tightly.

Pan Ping's expression changed, he held onto his scimitar as he shouted: "Lord Wolf King, what are you doing?"

Fang Yuan sat on the wolf back, looking down at Sole Blade General, snickering.

Howl!

The azure wolf group moved and charged at Pan Ping.

Pan Ping's expression turned into shock as he blocked left and right, unleashing all his moves.

He was a rank four peak stage cultivation, after getting much gains in the battles, he had high quality Gu worms that were a complete set, his battle strength far surpassed his previous state.

But the azure wolves were not ordinary wolves. Each one was at least a hundred beast king, this meant that they each had large numbers of wild Gu in them.

After Pan Ping killed several azure wolves, he could not hold on anymore, bleeding profusely as he got into a desperate situation.

"Lord Wolf King, you are too overbearing. We are of the same army, are you trying to kill me?!" He shouted loudly, trying to suppress Fang Yuan using righteousness.

The other Gu Masters had no idea what to do.

Fang Yuan's overbearing attitude made them uncomfortable. But because of his strength, they did not dare to say anything.

"Lord Wolf King, please calm down. Pan Ping did not know what was good for him, he verbally insulted lord, but lord is such a grand hero, why is there a need to put yourself at his level?" Zhu Zai urged quickly.

Pan Ping was Hei Lou Lan's beloved general, it is said that he was already part of Hei tribe. If he died here, when Hei Lou Lan pursues the matter, he might not do anything to Chang Shan Yin, but he Zhu Zai would be doomed.

Since Zhu Zai joined Hei tribe alliance army, he naturally wanted to join Hei tribe!

"Zhu Zai, you're overthinking this, I am not angry." Fang Yuan smiled at Zhu Zai lightly, but the azure wolves were attacking even more fiercely under his manipulation.

Zhu Zai's heart was anxious, but he was secretly shocked by Fang Yuan's ruthlessness.

Over there, Pan Ping was in a critical state, he activated sole blade Gu but could only defend himself, he could not break out of the wolves' encirclement.

"Lord Wolf King, please have mercy. Pan Ping is going to die!" Zhu Zai showed an expression of fear as he urged once again.

Fang Yuan finally stopped his attack, sighing at Zhu Zai: "Sigh, I am not violent, but this junior does not know how to respect his seniors. If I do not teach him a lesson today, is he going to dance on my head in the future?"

"Yes, yes, yes, lord is absolutely right!" Zhu Zai quickly answered.

Fang Yuan waved his hand and the azure wolves stopped attacking, they moved back but the encirclement was still present.

Without the pressure of the wolves, Pan Ping collapsed on the ground.

He was bathed in blood and covered in injuries, he breathed roughly as he stared at Fang Yuan with eyes filled with hatred.

Fang Yuan saw his expression and laughed: “It seems you have not had enough? Maybe my lesson wasn’t severe enough, Zhu Zai, what do you think?”

Zhu Zai shuddered, he could see the overwhelming killing intent hidden in Fang Yuan’s calm gaze. He quickly waved his hand: “Enough, it is enough. Pan Ping had received a sufficient lesson. Pan Ping! Quickly apologise to Lord Wolf King!”

Pan Ping clenched his fist, he gritted his teeth as he took a few deep breaths, closing his eyes and saying with much pain: “Lord Wolf King, I… I am sorry!”

He howled in his heart however: ‘ Today’s humiliation, I will return it to you a hundred fold! Wolf King, remember this! I am not someone you can humiliate as you please!’

Pan Ping was a vigilant and low-profile person, but after the Imperial Court contest, the pride in the deep parts of his heart burst out. Especially in the battle against Liu tribe, he was first killed by three heads six arms, but was revived by Tai Bai Yun Sheng later using man as before Gu.

Such a revival process made his nature change slightly, making him feel like he was a ‘person blessed by the heavens’.

‘According to the rules, I should be allowed to check the gains from the inheritance. Wolf King, you are too overbearing, you will definitely regret all that you did today! Although you are strong now, it is only because you started cultivating several earlier than me. One day, I will catch up to you, surpass you, and return all this humiliation right back at you!’ Pan Ping screamed internally.

Fang Yuan naturally had no idea what he was thinking, but he was not interested either.

“If I kill him here, Hei Lou Lan would not pursue the matter with me. But this is a demonic act, it clashes with my identity. Furthermore, it does not benefit my future plans at all. I might as well leave this Pan Ping for the future…”

Pan Ping only had one sole blade Gu which Fang Yuan had some interest in.

If he was killed now, Fang Yuan would probably not receive the Gu.

Thus, Fang Yuan said: “Since you admitted your mistake, that is very good, it means you have noticed my hard work. A junior should behave like a junior, do you understand now?”

“Un… understood…” Pan Ping shut his eyes, he was furious but he squeezed out the words.

Fang Yuan snickered, he understood his feelings but he did not expose him, only continuing to say: “Very good. Since that is the case, compensate me. In order to educate you, I made quite a loss, look at my wolves, fifteen corpses are lying here.”

“What?!” Pan Ping opened his eyes out of pure rage.

“What, are you unwilling?” Fang Yuan smiled lightly, looking at Pan Ping with an obvious expression of mockery, like a cat toying with a mouse.

“I, I am willing to!” Pan Ping breathed in deeply, nodding his head as he accepted his fate.

“Mm, this is the attitude of a junior indeed.” Fang Yuan chuckled, smiling gently and kindly. But in everyone’s view, he looked extremely scary.

“It was all thanks to lord.” Zhu Zai was smiling at the side.

“Mm, of course.” Fang Yuan nodded in agreement, smiling as he accepted this hypocritical flattery. He then looked around: “What about you guys? Do you need some lessons too?”

Everyone quickly rejected him with pale expression, they were shuddering, obviously scared out of their wits.

Fang Yuan laughed loudly, extorting all of Pan Ping’s Gu recipes and several of his Gu worms.

Pan Ping was extremely furious, the few Gu that Fang Yuan chose were critical to his Gu set, without them, his strength would fall by at least two levels.

After toying around with Pan Ping, Fang Yuan felt the fun turning into boredom as he patted the wolf head, rising into the sky: “That will be all, there are still rather good things inside, they are unique. Go ahead and take them.”

Everyone heard this and were revitalized. Many people thought: Lord Wolf King is truly righteous, it was natural for him to take the bulk of the meat, Lord Pan Ping was simply too small-hearted.

Only until Fang Yuan and the azure wolf group vanished into the sky did everyone start moving towards the starlight door.

According to seniority, Zhu Zai and Pan Ping were the first two to charge in.

The two first entered a small courtyard, but only found Du Min Jun’s original poems. As for Gu worms, Gu recipes, they were all swept away by Fang Yuan, not a trace of them were left.

“Lord Wolf King was right, these are really unique treasures.” Zhu Zai held the poems in his hand as he laughed bitterly.

Pan Ping who was hopeful and wanted to get some benefits to recoup his losses had a dark expression.

Puu!

Suddenly, he threw up a mouthful of blood as he fainted from anger.

Several days later.

“With my current speed, the sacred palace should be closeby.” Fang Yuan rode on the azure myriad wolf king’s back, pondering to himself.

Soon after, his gaze became fixed at an area on the ground below him.

“Eh? This terrain is so familiar, don’t tell me…”

Chapter 552 - Giant Sun Immortal Venerable

Chapter 552: Giant Sun Immortal Venerable

Fang Yuan looked at the ground.

He saw that there was a mound protruding high up above the ground.

There were no forceful contours on the mound, there was an opening on it that showed a huge hole, like a tunnel underground.

As for the surroundings of this mound, it was a huge swampy area.

There were sparse trees in the swamp.

On the southwest side, there was a river. The river water was not clear, but it was a very long river, both the start and end of the river were beyond Fang Yuan's field of vision.

*"Light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow."*Looking at this scene, Fang Yuan could not help but think of this phrase in his mind.

"Is this Di Qiu inheritance ground?" Fang Yuan had a flash of inspiration as he felt dazed.

Back then, he had obtained information about Di Qiu inheritance from a fake grey-white stone slab. The painting idea Gu on the grey-white stone slab etched this map into his brain.

Thus, Fang Yuan had a clear memory of it, he could not forget it even if he tried.

He flapped his wings and flew around it in the sky, confirming that this terrain was exactly as he remembered.

"So this is it. I was wondering before, an inheritance using terrain as a clue was not reliable. If this was outside in northern plains, the terrain could be easily changed or destroyed. But in Imperial Court blessed land, that would be a different case." Fang Yuan thought.

This Imperial Court blessed land opened once every ten years. The victors of the Imperial Court contest would enter and might change the terrain due to battles.

However, when Imperial Court blessed land closes, the terrain slowly recovers.

Until ten years later, it would reopen after being restored to its original state.

"Di Qiu inheritance… since it was set up inside Imperial Court blessed land, and even had an innovative idea of using a fake grey-white stone slab to do it, the owner definitely put in huge effort and time for this. The inheritance should not be bad."

With such thoughts, Fang Yuan slowly flew to the mound, after observing the mound's entrance for a while, he summoned several azure wolves, and entered the dark hole.

Fifteen minutes later, the azure wolf returned to Fang Yuan unscathed.

This deep hole looked pitch black from the outside, but once someone entered, they would realize that it was full of glowing moss, it was not dark at all.

There was nothing inside the hole, the air was moist and there were only rocks and moss.

Fang Yuan personally entered to check it out, but still found nothing.

He frowned slightly, leaving the place. He was prepared for this result long ago: "This inheritance is not simple, if it can easily obtained, others would have gotten it long ago. Of course, I cannot rule out the possibility that someone else got it before me."

But Fang Yuan analyzed and realized that the possibility of that was very low.

"To come here, there are two conditions, one is to obtain the clue to the inheritance, and decipher the grey-white stone slab, a Gu Master skilled at appraisal is needed to do it. Secondly, they need to enter Imperial Court blessed land, that means they need to survive the Imperial Court contest, thus they need to have a keen eye, in order to be part of the victors."

"This inheritance is not simple at all. It seems that to get it, I will need to interpret the cipher." Fang Yuan concluded.

Light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow.

What was this cipher trying to say?

Fang Yuan thought about it but he got no answers. Even though he had many thoughts, none of them lead to any conclusive ideas.

"Nevermind, I'll leave it at that. There is still some time left inside Imperial Court blessed land."

Fang Yuan flapped his wings and flew, bringing the wolf group with him towards the blessed land's central sacred palace. That was the most important part of his plan, he spent so much time disguising himself, it was all in order to enter Imperial Court blessed land.

Obtaining landscape as before Gu was his top priority, but other than that, it was the inheritance of Giant Sun Immortal Venerable inside Eighty-Eight True Yang Building.

Not just him, most of the strong Gu Masters would choose to go to the sacred palace.

The sacred palace was the central area of Imperial Court blessed land, it was the essence of the blessed land.

The sacred palace was one of the four resting chambers of Giant Sun Immortal Venerable, it was also his most important resting chamber. His other chambers were in eastern sea, western desert and southern border.

In central continent, Giant Sun Immortal Venerable had an even larger and grander resting chamber in the sky, it was situated within Longevity Heaven.

In history, there were ten rank nine Gu Masters, known as 'Immortal Venerable' and 'Demon Venerable'.

These ten existed across the long river of time, from the immemorial antiquity era to the remote antiquity era, to the olden antiquity era, to the medieval antiquity era, and finally, the late antiquity era. Each one of them was the absolute expert of their time, they were unparalleled and invincible in the world. At the same time, they each had their specialities and unique abilities, they were all very different.

The bloodthirsty Spectral Soul Demon Venerable, the mysterious Red Lotus Demon Venerable, the knowledgeable Star Constellation Immortal Venerable, the peaceful Paradise Earth Immortal Venerable…

Similarly, Giant Sun Immortal Venerable was also a person full of legends and incredible stories.

He was a demonic path Gu Master born of northern plains. He was always lucky and fortunate in his life, having lots of good events. Not only could he avoid dangers, he could even turn them into blessings.

After he became a demonic path Gu Immortal, he was a casonova and toyed with women everywhere, no one could restrain him. Even the number one fairy of Spirit Affinity House in central continent back then, one of the top ten sects, became his wife.

Because of that, he became an external supreme elder of Spirit Affinity House, and converted over to the righteous path.

Giant Sun Immortal Venerable had a dissolute nature, after becoming an Immortal Venerable, and ascending to the Immortal Court, he became the fourth generation Immortal King. He next built five great resting chambers, and had over several tens of millions of concubines.

He was extremely energetic, when he was a thousand years old, he was still taking in young girls from all over the world to expand his harem.

Thus, among all of the venerables, he had the most offsprings.

He had too many children, he could not even remember most of their names.

These children were spread all over the five regions. Right now, they were mostly concentrated in northern plains, and those Gu Masters who had Giant Sun Immortal Venerable's bloodline, were collectively known as the Huang Jin family.

"Women are like clothes while brothers are like our hands and feet.""Hereditary monarchy!""Beauty is the natural dowry of a woman.""I wish I could marry every single woman in the world!" All these were his catchphrases.

Even though time flowed mercilessly, and eras changed, he still left behind a dazzling proof of his glorious existence in history.

Especially in northern plains, Huang Jin family controlled nearly the entire region, Giant Sun Immortal Venerable was still influencing every generation thus far.

Sacred palace, the central control hall.

Night.

The silvery brilliant light shone on Hei Lou Lan's face.

He raised his head as he looked at a plaque on the central control hall. His giant bear-like body stood upright under the silver light.

As the alliance leader, with the Huang Jin bloodline flowing in him, once he entered Imperial Court blessed land, he would automatically arrive in the sacred palace.

This plaque in the central control hall was huge. It was sixty meters long, twenty-five meters wide, and there were two huge words on it — Hereditary Monarchy!

The golden light shining off it was clear and dazzling.

The central control hall was huge and grand, like the house of a giant. Under this plaque, even Hei Lou Lan's fat body seemed tiny.

"Hereditary monarchy huh…" He looked with a complicated expression, there was pain and hatred, admiration, anger, and aloofness.

"Lord." Cunning Gentleman Sun Shi Han came over, calling out softly.

"What is the matter?" Hei Lou Lan turned around, his expression had been completely sealed away, he returned to his usual arrogant, boorish, and irritable attitude.

Cunning Gentleman did not feel anything amiss as he took out a letter from his pocket, reporting: "This is Sole Blade General Pan Ping's letter. He said in the letter that Wolf King Chang Shan Yin devoured an inheritance alone, extorting him in public and made very vile actions. He hopes lord can seek justice for him."

"Oh?" Hei Lou Lan stretched out his fat right arm.

Cunning Gentleman quickly passed the letter to him with both hands.

"Lord, I am not trying to be nosy, but this Chang Shan Yin is getting more overbearing. He actually bullied and humiliated his own alliance mate. Sigh, Lord Pan Ping was too kind hearted, he thought about old relationships and wanted to share an inheritance with Chang Shan Yin. But the result was that he was treated like this. Wolf King Chang Shan Yin has great merits indeed, but this does not mean he can act as he wish. Otherwise, if everyone was like him, wouldn't we be in complete chaos?"

Cunning Gentleman carefully chose his words while Hei Lou Lan was reading the letter.

Hei Lou Lan snorted, stretching out his hand: "Hand it over."

"Ah, lord you mean…" Cunning Gentleman was shocked.

"This is only Pan Ping's side of the story, Zhu Zai should've sent a letter too." Hei Lou Lan had a sharp gaze.

Cunning Gentleman quickly laughed: "Lord is truly wise and mighty, I am in complete awe."

Hei Lou Lan took the second letter and swept through the content, he was expressionless and Sun Shi Han could not read his intentions at all.

This letter was merely Zhu Zai seeking credit for his actions, combined with the first letter, Hei Lou Lan understood what had happened.

He squeezed with his hand and the two letters were corroded into nothingness by a dark light.

"After Pan Ping and the others arrive, go to the supply camp and give them some compensation." Hei Lou Lan instructed.

"Yes, lord." Cunning Gentleman bowed, but after a while, he raised his head in confusion as Hei Lou Lan did not speak further: "Are we not punishing that Wolf King Chang Shan Yin?"

"Punish? What a joke!" Hei Lou Lan laughed: "Why do I need to punish him? If it was me, I would've done the same. Except I would not do it in such an ugly way."

Sun Shi Han was indignant, urging: "Lord, I am of different opinions. This Wolf King Chang Shan Yin regards himself highly and is untamable, we cannot tolerate his actions. Although he has great achievements, without lord's tribe funding him, would he have such a huge wolf group? He is a northern plains hero, he has great reputation. If lord does not punish him, he is just going to become more overbearing. In fact, he might even overthrow you and in the end, everyone would know the name of Chang Shan Yin, but not lord's name."

"Hahaha."

"Lord, why are you laughing?"

"Shi Han, you're overthinking it. After this happened, what reputation would Chang Shan Yin still have? Bullying the weak because he is strong, greedily taking an inheritance for himself, it would ruin his reputation. Furthermore, he does not have the Huang Jin bloodline, without a guest token, he cannot enter the True Yang Building."

After pausing for a while, Hei Lou Lan continued: "From this matter, we can see that Chang Shan Yin is only a mortal. He has desires, and greed, that makes things easy. Moreover, I have Chang tribe and Ge tribe in my hands now. He is already rank five peak stage, such a genius like him would definitely want to progress further. But I will only reveal to him the method to reach Gu Immortal realm after he joins Hei tribe."

"I know you hate Chang Shan Yin, but later, I still need him when challenging True Yang Building. Do not bother me in the future with such tiny matters. Do you understand?"

"Yes lord." Cunning Gentleman lowered his head, his voice slightly trembling.

"Mm, you may leave."

"This subordinate takes his leave." Sun Shi Han brought his disappointment with him as he left the central control hall.

Chapter 553 - Imperial Court Sacred Palace

Chapter 553: Imperial Court Sacred Palace

The wind was blowing past the ears.

In the golden sky, brilliant rays were shining down.

The azure wolf group moved in the sky, as Fang Yuan rode the azure wolf king, allowing the wind to blow his hair backwards.

His gaze was solemn, he was pondering internally. These days, he had been trying to decipher the quote from Di Qiu inheritance, but he was making no progress.

A glorious palace gradually appeared in his vision, emerging from the plain horizon.

Sensing this, Fang Yuan looked over as he swept the scattered thoughts in his mind away.

A trace of relief flashed past his face.

Sacred palace, he was finally there!

As Fang Yuan got closer, the large palace slowly showed its full features.

It had eight levels, each was about two kilometers tall. The first level, which was the bottom level, had the greatest surface area. The second level was above the first level, and so on.

Each level had walls around it, forming a hollow tube.

The snow-white walls were nine meters thick, the walls were joined together with no gaps. On the walls, there were rainbow colors towers at set intervals. Each tower had different colors, red, orange, yellow, green, azure, blue, purple, respectively.

After many levels were stacked together, the entire sacred palace looked like a tall mountain.

As Fang Yuan got closer, it was as if the sacred palace was rising from the ground, shooting up and piercing the heavens!

Grand and spectacular, the sacred palace!

Even with Fang Yuan's depth of knowledge, he was gasping in admiration when he saw this.

"What's that thing flying in the sky 1 ?"

"Wolf King has arrived!"

"Just like what the information said, that should be the azure wolf group."

Fang Yuan's arrival attracted the attention of the Gu Masters inside the sacred palace.

At this point, there were almost ten thousand people in the sacred palace. These people were lucky, after entering the blessed land, they landed close to the sacred palace. Thus, they were earlier than Fang Yuan.

Hei Lou Lan had given instructed already, thus the Gu Master tasked to welcome him quickly reacted.

When Fang Yuan landed, there were already people standing at the huge gate of the first level.

The moment Fang Yuan's myriad wolf king touched the ground, the escort Gu Master came to greet him: "Lord Wolf King, you have arrived. It is my honor to bring you into the city. Your place is residence is on the eighth level, we have already prepared the room for you."

“Mm, no rush, bring me around the place first.” Fang Yuan said lightly, getting off the azure wolf. As a form of respect to Giant Sun Immortal Venerable, Gu Masters were not allowed to ride their steed inside the sacred palace, they could only walk.

“As you wish lord, this is my honor.”

Fang Yuan followed the escort Gu into the sacred palace.

Inside the sacred palace, there were large numbers of pavilions and terraces, palaces and courtyards. Looking from outside, the edges of the roof were curved outside, they were silver and golden in color, looking magnificent and grand.

All sorts of buildings were interconnected. At some places, there was lots of free space and buildings were huge. At some places, the pathways were intercrossed and halls were everywhere, making it easy to get lost.

As for the interior of the pavilion hall, be it the pillars or the main support, they were carved with lots of beautiful images and decorations, it radiated an aura of prosperity.

“Lord, this is entertainment palace, the noble ancestor Giant Sun would hold a grand music festival here in this palace daily when he lived here. According to history, during each festival, there would be large numbers of concubines fighting to present their dance, in order to get ancestor Giant Sun’s attention.”

“Lord, this is spring soup hall, it has the largest hot spring in northern plains. Ancestor Giant Sun would come here weekly with a thousand concubines, to soak in the water and have fun.”

“This is floating scent yard, ancestor Giant Sun had once moved the legendary ‘wine pool’ and ‘meat forest’ here. Every morning, the meat forest would produce all sorts of delicious meat fruits. At night, the wine pool would produce lots of fragrant wine.”

The escort Gu Master introduced each area they went to, he was very eloquent.

Fang Yuan walked casually, looking around, he found it very interesting.

At the sacred palace’s fourth level, the escort Gu Master brought Fang Yuan into the main palace.

“Lord, this is one of the eight main palaces of sacred palace, drawing palace. Ancestor Giant Sun was very talented, he was very skilled at drawing beauties. All of the drawings inside this palace were done by him alone. Please come this way.”

The escort Gu Master opened the side door of the palace, inviting Fang Yuan in.

The eight main palaces of sacred palace had main doors, but only Giant Sun Immortal Venerable could use them. Although he was dead already, this rule was passed down, and his descendants followed this rule as a form of respect and reverence towards Giant Sun Immortal Venerable.

Once they entered the palace, a large wall of drawings filled Fang Yuan’s vision.

There were nothing in this drawing palace, but huge walls. On these walls, there were all sorts of beauties, alluring ones, innocent ones, smiling ones, or those deep in thought. They were in all sorts of postures and positions, there were eighty thousand drawings!

“Those that were drawn here were well-liked by ancestor Giant Sun for a period of time. Of course, it is a woman’s greatest honor to be hand-drawn by a venerable. Ancestor Giant Sun had lots of concubines, but those recorded here were the cream of the crop, they could be preserved eternally here.”

The escort Gu master said with a look of admiration.

Fang Yuan did not speak, he only looked and thought to himself: “I wouldn’t call this eternally. At least in my previous five hundred years, Imperial Court blessed land was destroyed by central continent Gu Immortals, and the sacred palace became history. Sigh, true immortality is something that not even someone as strong as an Immortal Venerable could achieve…”

When people came here, they would be stunned by the sacred palace's grand and imposing aura, even if they were not overwhelmed, they would feel great admiration.

But Fang Yuan could sense a trace of decay and rot in this brilliance.

Without eternal life, so what if you were as strong as a venerable?

Even the casanova Giant Sun had turned into ashes now. His traces were still here, proving his existence, but in Fang Yuan's opinion, such a proof was filled with the mockery of failure, it was truly pitiful.

His interest had waned.

"Let's go, bring me to the eighth level's accommodation." Fang Yuan sighed, instruction.

The escort Gu Master got out of his daze and said hesitantly: "But lord, sacred palace has a lot of famous sites, we just started! Other than these, there are also beauty palace, young girl palace, alluring palace, innocent palace, and unique scent palace. Back then, female variant humans lived there, there were even hairy men. There is also jade statue palace, meant to sculpt beauties, and offer them to the ancestor."

The escort Gu Master was anxious, all these places that he mentioned were not accessible with his status.

He wanted to use this chance to satisfy his curiosity.

But Fang Yuan did not fulfill his wish.

During Giant Sun Immortal Venerable's final years, he rarely went to the mortal realm to stay in sacred palace. He lived in Longevity Heaven, in a reclusive manner.

As for northern plains, large numbers of girls would be chosen for him to fill the sacred palace.

The last time Giant Sun Immortal Venerable came to the sacred palace, he did not meet these girls, instead he built the Eighty-Eight

True Yang Building and established the rules for the Imperial Court contest, before vanishing from this world completely.

The sacred palace thus faded out of history and those beautiful yet pitiful women became sparrows trapped in cages.

Although Imperial Court blessed land was huge, it had no freedom, it was a prison even though the place was large.

Eventually, they stayed there obediently and exhausted their lifespan. They could not escape, and no one had the guts to save them either.

Under Giant Sun Immortal Venerable's glorious and noble light, countless women were buried in pain, grudge, and sadness.

In Fang Yuan's eyes, the sacred palace did not have high value.

It was merely Giant Sun Immortal Venerable's inheritance, no Gu Masters dared to set up their inheritance here. As for the precious resources he left behind, they had been taken by previous generations of Gu Masters already. Even the central continent Gu Immortals who came later could not find anything valuable.

The only thing valuable in the sacred palace, was also the entire Imperial Court blessed land, no, more accurately, the most valuable thing in northern plains.

That was at the peak of the eighth level — Eighty-Eight True Yang Building!

As Giant Sun Immortal Venerable had suggested, the Gu house made by Long Hair Ancestor personally.

Rank eight Immortal Gu!

But now was not the time.

At the peak of the eighth level, it was complete emptiness. Only when the ten year blizzard strike would the Eighty-Eight True Yang Building show up.

In the following days, Fang Yuan lived in seclusion, cultivating as he waited for True Yang Building to open.

The azure wolf group was taken care of by others, he did not need to bother with it.

During this period, Hei Lou Lan sent people to invite him, and revealed the intention to recruit him.

To join Hei tribe, and become an external elder?

Towards this suggestion, Fang Yuan said he needed to consider it. Although he showed a moved expression, he would definitely refuse this in this heart.

Human skin Gu could disguise him as Wolf King, but it was a mortal Gu, the investigation of an Immortal Gu could expose him.

The recruitment of external elders was a common trick used by northern plains' super forces. This way, demonic path Gu Immortals could become become righteous, and it would help the Huang Jin tribes greatly in managing northern plains.

As for the incident on Xing Jiu peak, Hei Lou Lan did not mention a word about it. There was a rumor growing however, that Wolf King was extremely overbearing, describing his actions on Xing Jiu peak as vile and evil, using his strength to suppress the weak, the description was extremely biased but it sounded very convincing.

Fang Yuan laughed in his heart, someone was obviously trying to ruin his reputation behind the scenes.

"It is likely to be Pan Ping or Sun Shi Han who has motives to do this, or even Hei Lou Lan. But so what if my reputation turns sour?"

Back then, Giant Sun Immortal Venerable had a terrible reputation, he was a demonic Gu Master who toyed with women all over the region. But now? He was a revered Immortal Venerable!

When he expanded his harem, how many women's lives and happiness were ruined by him?

But now, no one publicly accused him of anything.

In this world, strength was everything.

On Earth, one had to be mindful of rumors, it was easy to ruin a person’s life with some malicious lies. But that was because they were all mortals, the laws of the world was different, individuals could not surpass the power of society.

But here, it was different.

That was one of the reasons why Fang Yuan loved this world.

Half a month later, there was a water-like ripple in the golden sky.

The entire land started shaking.

Out of nowhere, there was wind as a piercing light shone at the peak of the sacred palace.

The light lasted for forty-five minutes, as it gradually dispersed. A tower appeared at a previously barren area.

Eighty-Eight True Yang Building!

Chapter 554: Plotting is difficult, Living is tough

Translator: ChibiGeneral Editor: ChibiGeneral

It was a tower.

Like a spring bamboo shoot, it was tall and slender and was upright.

The tower's shape was vague with all kinds of gorgeous colors, like a body of colorful ink in the shape of a tower as it continually shook.

"This is the initial appearance of Eighty-Eight True Yang Building, and only when the storm and snow covers the northern plains, and all the small towers of Imperial Court blessed land sink to the ground, will each layer of Eighty-Eight True Yang Building stabilize. Only then can one enter inside and explore." Fang Yuan stood at the entrance of his residence and looked to the direction of the dome.

At this moment, there were shouts of jubilation and surprise in sacred palace. Gu Masters were cheering in high spirits while many mortals kneeled on the ground, praising the might of Giant Sun Immortal Venerable.

"But even when Eighty-Eight True Yang Building takes form completely, I won't be able to enter because I am not a descendant of Giant Sun Immortal Venerable and don't have his bloodline. If I want to enter inside, I would need Hei Lou Lan to get me a guest token. Well, there is no hurry, is True Yang Building so easy to rush into? Hei Lou Lan will need external help like me sooner or later."

After a while, Fang Yuan retracted his gaze and walked back to his room.

As the door of the room closed, the sound of cheers from the outside immediately softened.

Fang Yuan entered a secret room specially meant for cultivation and sat upright on a cushion.

“Both of my apertures have now already reached rank five peak stage. In regards to enslavement path, I have azure wolf group, while with regards to strength path, I have killer move four arm wind king. Combined with my battle experience, I am already at the peak among the mortals. But to deal with a Gu Immortal…”

Fang Yuan’s brows slowly started to furrow.

He was well aware of the enormous gap between immortal and mortal; a mortal going against an immortal was as hard as ascending to heaven.

To him, the best situation right now would be Tai Bai Yun Sheng already having the recipe for Immortal Gu Landscape As Before in his mind.

It would not have been good for Fang Yuan to make a move outside in northern plains, but it would be very convenient for him to do so in Eighty-Eight True Yang Building.

Using Gu to plunder river as before and mountain as before Gu from Tai Bai Yun Sheng, and then plunder the Immortal Gu recipe from his mind.

With such ample conditions, Fang Yuan could jump out of the chessboard and directly kill Tai Bai Yun Sheng who had yet to become an immortal, and then use the third refinement opportunity to request Lang Ya land spirit to refine landscape as before Gu.

However, the possibility of Tai Bai Yun Sheng, a mortal, possessing the Immortal Gu recipe of Landscape As Before was next to nothing.

Moreover, according to the vague rumors in his previous life, when Tai Bai Yun Sheng became a Gu Immortal, heaven and earth reacted and Dao marks attracted each other, making the two rank five Gu spontaneously merge together to form rank six Immortal Gu

Landscape As Before.

Fang Yuan had a prudent nature, and would never place all his hopes on an indistinct future.

“If the situation is messed up, then I will have to deal with the Gu Immortal Tai Bai Yun Sheng. At that time, I can only rely on myself. Azure wolf group and four arm wind king clearly won’t be enough.”

Fang Yuan’s strength was already at the peak among mortals. Despite cultivation of both enslavement and strength path having the greatest unresolved issue, he was still among the first class of rank five experts.

If compared to southern border, he was in the same level as Shang clan’s genius clan leader Shang Yan Fei and Wu clan leader Empress Wu Ji.

Using the experiences of his past lives, the advantage of rebirth and taking a series of risks, struggling at death’s door several times, Fang Yuan achieved such rapid growth that it would shock the world.

But even so, in front of a Gu Immortal, even if it was a newly advanced Gu Immortal, this strength was not enough.

“To resolve this huge issue, there are only about three ways.”

“First is to search Eighty-Eight True Yang Building for the strongest Gu worms or unique methods.”

“Second is to secretly make arrangements against Tai Bai Yun Sheng as much as possible so that there will be ample preparation when I have to truly make a move.”

“Third is to resolve the problem of enslavement and strength dual cultivation and raise my battle strength further.”

Fang Yuan silently pondered.

He was fully aware that he had exhausted almost all his previous life’s foundation in creating four arm wind king. After all, he had specialized in blood path in his previous life and had only dabbled in enslavement and strength paths.

The so-called plots and traps against Gu Immortals were too inferior to be even mentioned and were not reliable. Fang Yuan had advanced to Gu Immortal in his previous life, thus he knew when a mortal transformed to a Gu Immortal, from their head to toe, inside to outside, they would go through baptism, and even their appearance would change.

The only thing that he could truly place high hopes on was Eighty-Eight True Yang Building!

Days passed by, the golden light and silver light in the sky continued to switch between one another.

Eighty-Eight True Yang Building was still gradually forming, its sunset hues gradually rose and covered most of the sacred palace in its light.

Cool wind breezed through Imperial Court blessed land with birds singing and the fragrance of flowers filling the air. But at the outside world in northern plains, snow had continued to fall for over a month already.

Blizzard was spreading over the northern plains in full force with its bone-chilling cold wind and snow.

Both the sky and ground were a scene of white, and mist covered one's vision.

Trees had already started dying and were frozen into pillars of ice. Mounds and hills were covered with thick layers of snow and large piles had formed in valleys as well.

Beast groups died in large numbers and even weeds with vigorous life force were also frozen into ice.

Even when one spat, the saliva would instantly turn into ice.

But heaven never blocked all paths, somehow, there would always be a trace of hope left.

In each region of northern plains, there were remnants of tribes. Some were small and some big, and relying on geographically advantageous places like warm pond valley, they were able to resist the wind and snow and survive in the blizzard.

Man tribe who occupied Hong Yan valley was one of them.

Hall of affairs.

The elders divided into two rows with Man tribe leader sitting high at the main seat.

Rank three external elder Shi Wu kneeled on the ground: “Lord tribe leader, I come forward to beg for forgiveness.”

“Oh, what is your fault?” Man Tu asked with a slight smile.

“Reporting to lord tribe leader, I was in charge of looking after spirit spring D, but it suddenly froze and dried up yesterday, it is now ruined.” Shi Wu respectfully replied.

“Hehehe, not a problem.” Man Tu lightly waved his hand; as a matter of fact, he had already known this news.

“Elder Shi Wu, stand up, it is the ten year disaster now, there is a chance of every spirit spring suddenly freezing and drying up. This is not your fault.”

‘Lord tribe leader’s kindness knows no bounds, I am ashamed!’ Shi Wu was moved to tears and sighed inwardly.

His surname was Shi and was half an outsider to Man tribe. Although he had married into Man tribe, but he had still been pushed aside.

A problem occurred in the spirit spring he had been put in charge of, this matter could have been big or small. Fortunately, this generation’s Man tribe leader was open-minded and did not look into it.

“However, anything concerning spirit springs are major affairs of the tribe. Man Duo, how many spirit springs do we have left now?” Man Tu’s brows slightly furrowed as he asked.

Man Duo was Man Tu’s third son; thin and small in physique but was shrewd and crafty, and had been assisting Man Tu in handling internal affairs of the tribe till now.

He immediately replied: “Lord father, Hong Yan valley now still has seven spirit springs marked A, B, C, E, F, G and H. Among them, G and H spirit springs are already close to drying up and will only last less than a month.”

“Alright.” Man Tu nodded, “That is to say, a month later, we will only have five spirit springs. Elders, what do you think?”

“Lord tribe leader, this thing is very difficult to deal with. This is a natural disaster, it is almost impossible for humans to reverse the situation, we might as well cut down on the primeval stones given to Gu Masters.”

“Hong Yan valley’s eight spirit springs were accumulated bitterly over these ten years by our tribe. The situation of our tribe this year is much better than the previous times. It is all thanks to Lord tribe leader’s wise guidance that we don’t need to worry, other tribes are in a much more worse situation.”

“Even if all the spirit springs dry up, it won’t be much problem. Wait till this ten year snow disaster passes, and at that time, new spirit springs will emerge one after another; when fortune arises after extreme suffering.”

Elders expressed their thoughts one after another.

Man Tu calmly listened to them and nodded: “Spirit springs are very important for a Gu Master’s cultivation and cannot be neglected. It is difficult for a Gu Master’s cultivation to progress without primeval stones. The blizzard has just started, snow monsters will start roaming about soon. The main defense of the Hong Yan valley will still rely on Gu Masters.”

He paused before mumbling: “Let’s do it like this, take out one spring egg Gu from the tribe warehouse and plant it. This new spirit spring shall be titled D.”

“Lord tribe leader, spring egg Gu is a rank five Gu.” An elder objected in heartache.

Man Tu raised his brows: “So what if it is a rank five Gu? You all know that only with a spirit spring’s supply of primeval stones can our tribe’s Gu Masters advance forward continually. They can then preserve their strength and prepare themselves when resisting snow monsters. As long as there is not a huge loss of our Gu Masters, our tribe can preserve its strength. And when the blizzard passes and spring blossoms, it will be time for our tribe to realize our ambitions!”

Realize our ambitions…

The elders’ eyes brightened at these words.

Man Tu had been putting all his efforts in developing the tribe and under his leadership, Man tribe had continually expanded and swallowed many small tribes over these years. Now, Man tribe was occupying Hong Yan valley, it could already be said to be a ruler of a region.

But from his words, everyone could hear this Man tribe leader still wanted to progress further. The current Man tribe was still not able to satisfy his ambitions!

The elder who had objected quickly apologized: “Lord tribe leader is wise and resolute, I am willing to lay down my life at tribe leader’s command.”

“We are willing to give our lives for tribe leader!” Soon after, the other elders spoke together.

“Having everyone with me, we can seek supremacy.” Man Tu laughed loudly, then his expression concentrated and he ordered, “Elder Shi Wu will be in charge of the new spirit spring D.”

Everyone present gazed at Shi Wu with envy.

Looking after a spirit spring was a lucrative job.

Shi Wu was truly moved this time, his eyes reddened as he said: “I am fortunate to have tribe leader’s trust, I will definitely do my best to repay the tribe!”

The discussions continued for a while longer before everyone dispersed.

Shi Wu did not leave, instead following Man Duo to the tribe warehouse and took a spring egg Gu.

“This is spring egg Gu?” Shi Wu held the Gu in his hand and gazed at it strangely, his tone trembling.

His expression quickly concentrated and he then bowed towards Man Duo: “Third young master, please enlighten me on how to activate this Gu.”

Man Duo smiled as he saw Shi Wu adapting to circumstances: “I do not dare to give you advice. This spring egg Gu is a rank five Gu and has extremely high demand on primeval essence, even a rank five middle stage Gu Master cannot activate it at one try. Elder Shi Wu, you have a rank three cultivation, and as such you would need to use lasting Gu and continuing Gu to activate it. But this way, the quickest it will take for you to plant the spirit spring is close to a month. Elder, you don’t need to worry, I will help you by the side during this time.”

“I am very grateful to third young master.” Shi Wu promptly expressed his thanks.

Chapter 555

Chapter 555: Dancing snow claws, Appearance of the building

The location to create the spirit spring had already been decided.

Shi Wu brought the spring egg Gu and went with Man Duo, after making the preparations, he starting using his primeval essence and sent it into the lasting Gu and continuing Gu, before injecting it into the spring egg Gu.

The spring egg Gu floated in the air, absorbing primeval essence as it moved up and down slowly.

For the next eighteen days, Shi Wu slept three hours a day, rushing to eat his meals and settle his excretion. Although it was tough, the effects were showing.

As he continued to inject primeval essence, the spring egg Gu was shining with a brilliant light.

These days, Man Duo had come to inspect again, and upon seeing this, he was overjoyed: “We are almost there. There are mild cracks on the spring egg Gu already, once it breaks, we will succeed. It has been tough on elder Shi Wu.”

“Not at all, not at all.” Shi Wu refined the Gu while humbly replying.

He was mentally fatigued, his body had gotten thinner. With his cultivation, forcefully activating a rank five Gu was very tiring. But if he succeeded, it would be a huge service to the tribe.

Man Duo continued: “During this elder meeting, lord father had specially mentioned it. Lord Shi Wu’s hard work is evident in everyone’s eyes, if you have any requests, we will try to satisfy it.”

Shi Wu was extremely grateful: “I am ashamed, with lord tribe leader’s care, how can I go overboard and request for more. But I have a question.”

“Oh? Please speak.”

“Young master Man Duo, I feel that Hong Yan valley had been getting colder these days. The surrounding vegetation and beasts have been freezing to death.”

Man Duo’s expression turned ugly. Hong Yan valley was indeed facing a problem. It had been mentioned during the last few tribe meetings. The result was, the underground magma supporting Hong Yan valley had been reduced due to unknown reasons.

This was different from historical records.

In the earlier meeting, tribe leader Man Tu flew into a rage, wanting everyone to think of a solution. At the same time, they had to conceal this matter to prevent their morale from sinking.

“Elder Shi Wu is at a crucial moment of refining the spirit spring, I should not tell him this bad news, or his mind will waver and ruin this important matter.”

Thinking so, Man Duo lied and reassured Shi Wu.

Shi Wu did not sense anything wrong, he was about to speak but suddenly, his expression changed, shouting: “Oh no, it’s the flying hand snow!”

Man Duo turned around and was shocked: “How can there be flying hand snow in Hong Yan valley?!”

Only to see that in the sky, fierce winds were blowing as palm-sized snowflakes carrying the aura of rank five Gu descended slowly.

“Oh no, come quickly and protect the spring egg Gu!” Man Duo shouted, calling the nearby Gu Masters over.

But the blizzard was powerful, the wind cut like razors and the might of heaven and earth descended, after resisting it for a while, everyone starting to fall into a disadvantage.

“Snow monster!”

“Snow monsters have appeared!”

Trouble comes in pairs, the blizzard gathered and formed into a six meter tall snow monster.

The defense of the Gu Masters was easily broken. In the sky, large numbers of flying hand snow gathered into a huge palm. Under everyone’s furious and indignant, while completely helpless stares, the giant snow hand grabbed the spring egg Gu in the air and squeezed.

Crack!

With a light sound, the snow hand disintegrated.

The snowflakes landed on the ground, the rank five spring egg Gu inside had vanished already.

…

The silver light shone like a miasma gently raining down on Imperial Court blessed land.

Howl howl…

Azure wolf group sprinted on the ground, some ran in the air, while others were dashing with their claws.

Even though there were Gu masters feeding them in the sacred palace, these wolves still desired freedom. They wanted to be ferocious beasts roaming the sky, and not canaries trapped in cages.

As their master, Fang Yuan let them do as they wished. He himself was spreading his eagle wings as he flew in the sky, looking at the ground below him.

It was Di Qiu inheritance.

"Light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow… what does this sentence mean?" Fang Yuan pondered.

He had been coming over to explore the inheritance grounds every few days.

Instinct told him that this Di Qiu inheritance was not simple.

Thus, every time he went out, he used the excuse of walking his wolves, to train them and practise his manipulation skills.

But even so, he could not stay for long.

Fang Yuan was now a person with high status, second to only Hei Lou Lan. His every movement was scrutinized by everyone. He was no longer as invisible as before.

This time, he had no findings, and to prevent suspicion, he could only leave for now.

Even though he could completely occupy this entire area using his status now, Fang Yuan did not do that.

If this inheritance had high value, even if he had great strength, others would compete with him.

He did not have Huang Jin bloodline, to enter Eighty-Eight True Yang Building, he needed Hei Lou Lan's guest token.

However, he had been sending people to scout the area.

The reason was naturally the azure wolf group.

Everytime he went out to hunt with the azure wolf group, there would be a route. Before moving out, he would send Gu Masters to scout out the path for him, and go to the path that had the most prey.

There were five to six routes to choose from each time, but each one of them would be close to Di Qiu inheritance.

One must act flawlessly, Fang Yuan followed the route that he planned and continued hunting with the azure wolf group.

There were a lot of beasts and resources inside Imperial Court blessed land. Especially near the small towers, there were swarms of worms and countless wild Gu.

Eighty-Eight True Yang Building was something only a small number of Gu Masters had the chance to enter. Most Gu Masters would roam in the huge blessed land, subdue wild Gu, or find inheritances.

Fang Yuan followed the trail and found many Gu Masters.

As for the area near Di Qiu inheritance, there were naturally many Gu Masters passing by.

Fang Yuan was not afraid that Di Qiu mountain would get taken by someone. In fact, he was hoping that someone would find it and trigger it. He would get news of it by then and would be able to strike easily.

After all, he had already used his strength to snatch an inheritance back on Xing Jiu peak.

Rumble rumble…

There were some loud sounds coming from the ground.

Fang Yuan rode the azure myriad wolf king, and looked down, seeing a small tower shining with a bright light, sinking into the ground slowly.

Fang Yuan was not surprised.

In the progress of Eighty-Eight True Yang Building's gradually appearance, the small towers in Imperial Court blessed land would slowly sink into the ground.

These small towers were like nests that were filled with all the wild Gu that had grown in the last ten years.

Many people guessed: The wild Gu in these small towers were the energy source to form Eighty-Eight True Yang Building. In a way, these small towers were a portion of the Eighty-Eight True Yang Building.

This guessed had never gotten confirmation.

Gu Immortals who could confirm this were unable to enter Imperial Court blessed land. And those mortals who could enter were way too weak compared to Giant Sun Immortal Venerable, they could not decipher it.

But Fang Yuan was an exception.

“Eighty-Eight True Yang Building has an intriguing design, it is truly a work of heaven. These small towers are indeed a portion of True Yang Building.” Fang Yuan was far more knowledgeable than other Gu Immortals in this aspect, because he controlled the most complete information regarding Eighty-Eight True Yang Building.

This source of information was Lang Ya land spirit. The land spirit in his life was the rank eight Gu Immortal Long Hair Ancestor who created the Eighty-Eight True Yang Building.

“Eh? Wait!” Fang Yuan’s body shook, a flash of inspiration appeared in his heart, sweeping away the confusion in his heart.

This moment, he finally found the strange thing about Di Qiu — there was no small tower near Di Qiu!

“Indeed, that is the case.” Fang Yuan’s eyes shone with brilliance, in the last few times he brought the azure wolves to hunt, he would either be in the sky near Di Qiu, or the ground near it.

Now that he recalled it, he realized the peculiarity of Di Qiu.

“By logic, every eight li should have a small tower. And every small tower corresponds to the regions in northern plains. But near Di Qiu, there is nothing!”

Thinking so, Fang Yuan got excited.

This was a huge breakthrough!

Following this lead, he could potentially unravel the mystery of Di Qiu inheritance.

But Fang Yuan did not turn back.

Rushing over in an excited manner like this was asking to be suspected.

He controlled his excited emotions, and continued on the route he had prepared. The azure wolves moved out from the sacred palace, and after one round, returned.

The sacred palace was like a mountain peak, the Eighty-Eight True Yang Building at its peak was still nurturing. The aurora it emitted was covering the entire sacred palace. The grand and beautiful sacred palace was shrouded in a mysterious and powerful aura.

Fang Yuan went out to hunt every six or seven days with the azure wolf group.

But plans cannot keep up with circumstances, three days later, the aurora gathered into one point and starting taking form.

The first layer of Eighty-Eight True Yang Building had formed!

This was a joyful news, causing the sacred palace to go into a commotion. At once, everyone’s hot topic was about this building.

Of course, most of the Gu Masters could only watch.

Hei Lou Lan went in excitedly, several hours later, he returned in a pathetic state, wounds covering his body.

His injuries were not light, but they could not conceal the shock in his eyes.

During the second expedition, he brought many Hei tribe Gu Masters.

Hei tribesmen had the bloodline of Giant Sun Immortal Venerable, they could freely enter and exit True Yang Building without restriction.

During such times, tribesmen were the most reliable. Why was there a need to share with outsiders what one could devour alone?

When Hei Lou Lan returned, he looked extremely tired. As for the Gu Masters who went in, only sixty percent returned.

Thereafter, all sorts of rumors and information spread, they were all regarding True Yang Building.

Some said that the True Yang Building was a work of heaven, it was spectacular; some said that it was difficult to explore, every step was precarious; some said that the rewards for passing it was very enticing…

By now, everyone was moved.

Chapter 556 - It's actually a Gu Immortal Inheritance!

Chapter 556: It’s actually a Gu Immortal Inheritance!

Translator: ChibiGeneral **Editor:** ChibiGeneral

Bam!

Hei Lou Lan raised his leg, kicking his tribesman Hei Qi Sheng to the ground.

“Useless thing!” The black fatty cursed, the muscles on his face twitched as he revealed a ruthless and savage gaze.

The hall was silent, all of the Hei tribe Gu Masters did not dare to speak a word.

Hei Lou Lan was called ‘Black Tyrant’, it was due to his famous ruthless and cruel personality. Especially when he was obstructed six times by the 54th round, his anger was ignited like a barrel of gunpowder.

“Lord tribe leader, it was my inability, I deserve death!” Hei Qi Sheng sprawled on the ground, begging for forgiveness while prostrating.

“Idiot! Why is there such a useless idiot in our Hei tribe?!” Hei Lou Lan gritted his teeth, kicking Hei Qi Sheng several times. Seeing that he was coughing blood due to the kicks, Hei Lou Lan’s anger subsided slightly.

The surrounding elders were silent, not daring to say a word.

Last time, the elders who pleaded for Hei Qi Sheng were beaten until they received heavy injuries by Hei Lou Lan, they were still bedridden now.

Hei Lou Lan temper had been curbed slightly during the Imperial Court contest. But now that they were in the blessed land, his poor temper and cruel nature were back at full force.

“You are also all idiots, useless trash! Why are you all standing here? Speak, tell me a good method to break through the 54th round. Otherwise, I will dock your salary. The tribe does not feed useless people! I gave you primeval stones, I gave you a luxurious life, raising your status, what was it all for? Now is the time to perform your duties!!” Hei Lou Lan screamed, the windows were shaking from the force of his voice.

The elders were sighing bitterly internally. They were like drooping eggplants, lowering their head and communicating with their expressions, but no one dared to speak first.

Hei Lou Lan stared and looked around, fixing his gaze on elder Hei Pei.

As the most senior and experienced first elder Hei Pei, he gritted his teeth and walked out, bowing in respect: “Lord, the way I see it, this 54th round is a test of enslavement path, it is very difficult and it cannot be passed without master level enslavement attainment. Although elder Hei Qi Sheng is an enslavement path Gu Master that we nurtured, he is not a master. To pass this round, we need Lord Wolf King’s strength.”

“Hmph, you are asking me to seek outside help? You want to let the whole world see us Hei tribe as a joke, as a weakling that needs outside reinforcements?” Hei Lou Lan’s gaze was filled with ruthlessness as he screamed fiercely.

Hei Pei’s heart was shivering, but he bowed deeply and responded: “Lord tribe leader is strong and intelligent, you are an amazing leader, the Lord of the Imperial Court. With your presence, whoever dares to think that Hei tribe is useless would be the number one fool in this world. This is not outside reinforcement to be exact. This Wolf King Chang Shan Yin is part of the alliance army, he is your subordinate. Using him for this is but natural. I am sure Chang Shan Yin would be very grateful to lord, after all, he is an outsider but he given the chance to enter True Yang Building, it is his greatest honor."

Hei Lou Lan heard this and his anger expression softened.

The elders watched this as they praised Hei Pei's eloquence internally, he was indeed skilled to be the first elder.

Hei Lou Lan walked slowly, he was very indignant.

Currently, he had two guest tokens, they were obtained from the 12th and 46th round respectively as a reward from True Yang Building.

It was not that he did not want to waste the tokens, but once he invited Wolf King, the reward for clearing the 54th round would go to Chang Shan Yin.

If it was his tribesmen, Hei Lou Lan could use the authority of the tribe leader to make all of the rewards his. But according to the rules, these rewards should be given to the reinforcement.

The rewards in Eighty-Eight True Yang Building was extraordinary, even Hei Lou Lan was deeply moved.

Be it Gu recipes, Gu worms, or others, each item could allow a Gu Master to rise up despite an ordinary background.

Hei Lou Lan walked for several steps, sighing lightly.

He knew that there was no point in forcing Hei Qi Sheng. Hei tribe had nurtured three enslavement path Gu Masters, one died in the Imperial Court contest, while Hei Qi Sheng was the stronger one out of the two left.

But he was not an enslavement master, any master needed sufficient talent, it was not something that could be nurtured through abundant

resources.

Hei Lou Lan stopped walking: “Where is Hei Shu?”

“Subordinate is here.” Hei Shu was standing outside the hall, he was Hei Lou Lan’s personal Gu Master attendant, hearing Hei Lou Lan’s summon, he came in to greet him.

“Go invite Wolf King here.” Hei Lou Lan instructed.

Hearing this, the elders in the hall sighed in relief. Hei Qi Sheng who was lying on the ground relaxed his body — this nightmare was over!

“Yes lord tribe leader.” Hei Shu left after receiving his orders.

Bam!

Hei Lou Lan kicked Hei Qi Sheng again: “You trash, why are you still lying here? You want Chang Shan Yin to see how pathetic our Hei tribe is after he comes here?”

“Lord, lord I was wrong!” Hei Qi Sheng quickly apologised profusely.

“Get lost and nurse your injuries!!” Hei Lou Lan screamed.

“Yes, yes, yes lord!” Hei Qi Sheng struggled to get up, leaving in a wobbling state.

Not long after, Hei Shu reported back with an apologetic look: “Lord tribe leader, Lord Wolf King is not in the sacred palace, he is out feeding his wolves.”

“What?” Hei Lou Lan’s volume became louder, his brows were raised as his calm expression showed anger again.

The elders were terrified, the first elder Hei Pei accused Hei Shu: “You junior, you do not know how to do your job. Even if Wolf King was not around, how could you return empty-handed? Could you not send a letter over, and state your intention, that Wolf King will come crawling back immediately!”

“Lord, it was not my fault!” Hei Shu cried out innocently: “I already sent a letter over, but Wolf King replied already. He said that he was leading his wolves to hunt, it was a habit and he did not want to cut it in the middle. He wants us to wait, if we cannot wait, we can call Tang Miao Ming and the others instead."

At once, everyone was shocked.

First elder Hei Pei stared with his eyes wide opened, he did not believe it: "How can anyone be so indifferent? Did he really say that?!"

"I have concrete evidence! Lord tribe leader, this is the letter Gu that Wolf King Chang Shan Yin sent back!" Hei Shu said, handing a star letter Gu to Hei Lou Lan.

This was a star path Gu, it was rank four and gave the fastest replies. But it shone in the air as it flew, it created huge commotion and was easy to intercept.

Of course, in Imperial Court blessed land, there was no such worries.

Hei Lou Lan's mind entered the star letter Gu, as he snickered continuously: "This Wolf King has good temperament, he is able to control his desires so well."

"Lord, Wolf King is an arrogant loner, everyone knows that. The way I see it, he is already laughing secretly, but is trying to put up a front." First elder Hei Pei analyzed, as the others elders nodded in agreement.

"Hmph, of course he is being haughty. He is an enslavement master, and also a flying master. If you guys were masters, would we need to ask an outsider for help?" Hei Lou Lan screamed, causing the elders to shut up as some of the elders lowered their head even more.

Honestly speaking, Fang Yuan was really not placing his attention on True Yang Building.

He looked at Di Qiu below him, his heart palpitating: "There really isn't a small tower here. According to the terrain, this area should have a small tower, directly above Di Qiu, but now, this is just a pitch black hole… impressive, the Gu Master who made this inheritance is very impressive!”

The Imperial Court blessed land had a small tower at every eight li interval. Actually, all of them were a part of the Eighty-Eight True Yang Building.

Eighty-Eight True Yang Building was an Immortal Gu house that Long Hair Ancestor had refined back in the day, it was as high as rank eight.

Next, after Giant Sun Immortal Venerable’s preparations, it was a mirror of northern plains. The small towers were all over Imperial Court blessed land, they could be seen everywhere. Each of the towers had thousands of wild Gu, no one dared to target them or they would die.

But now it seems that, the Gu Master who set up Di Qiu inheritance not only moved the small tower, he even set up this inheritance on that spot. Such methods and courage, such abilities, it made Fang Yuan confirm that this mysterious Gu Master was not a simple person.

“No, rather than Gu Master, I might as well call him Gu Immortal! Even with the long time that had passed, and Giant Sun Immortal Venerable’s setup might have weakened, but it is not something mortals can alter. Only Gu Immortals can make minor changes to these arrangements, and create such a place.” Fang Yuan’s eyes were shining with uncertainty.

He had accidentally gotten Di Qiu inheritance, but it was a Gu Immortal inheritance!

Light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow. What did this really mean?

What sorts of treasures would be inside a Gu Immortal’s inheritance.

“Will there be an Immortal Gu?” Fang Yuan guessed daringly.

If there was an Immortal Gu, it could match against the first floor of True Yang Building. Because even in the Eighty-Eight True Yang

Building, the final round of every floor might not have an Immortal Gu reward.

"Even without an Immortal Gu, Di Qiu inheritance was created with so much effort, there had to be an Immortal Gu recipe at least."

Without Immortal Gu, an Immortal Gu recipe was also a huge reward. A complete Immortal Gu recipe was something not sold inside treasure yellow heaven.

Gu Immortals would sell remnant recipes mostly. Even if they had complete Immortal Gu recipes, they would break it up and add in some mistakes before selling it.

Complete Immortal Gu recipes could only be exchanged. And there were few instances of this happening throughout history.

Fang Yuan curbed his imagination, and began to think calmly.

With a crucial clue, his current train of thought had improved rapidly.

He pieced together all sorts of clues, deciphering the time of Di Qiu inheritance's creation. It should be very long ago, at least, it should've existed since Paradise Earth Immortal Venerable's time.

But the more he thought, the more questions he had.

Let's call this person Gu Immortal Di Qiu for now, who were they? Why did they set up an inheritance here? As a Gu Immortal, how did they get in? Most importantly, how did they know about the setup here, and the true principle behind the Eighty-Eight True Yang Building?

If they were like Tai Bai Yun Sheng, and advanced to Gu Immortal realm inside Imperial Court blessed land, then there would be new explanations for what happened…

Fang Yuan felt a headache as he stopped thinking.

One star letter Gu tore through the sky and flew towards him.

Fang Yuan received it, and saw that it was Hei Lou Lan urging him to return.

“Nevermind, I shall go to True Yang Building first, and come back later. Gu Immortal Di Qiu most likely made use of Giant Sun Immortal Venerable’s setup flaws, once I enter True Yang Building, I might be able to find some clues and understand the mystery behind this!”

Thinking so, Fang Yuan replied with the letter.

Since Hei Lou Lan wrote a letter personally to rush him, Fang Yuan stopped acting arrogantly anymore, he immediately returned.

“I will need to rely on Wolf King’s strength this time.” Hei Lou Lan saw Fang Yuan and laughed.

He was very anxious in his heart.

There was not much time inside Imperial Court blessed land. Once the ten year blizzard outside subsides, Imperial Court blessed land would close, and they would need to leave.

Before that happens, Hei Lou Lan not only needs to complete the mission given by his tribe’s Gu Immortals, he also needed to find a strength path Immortal Gu for himself.

After Wolf King returned, Hei Lou Lan quickly organised the group again.

The gang got to the building, as Hei Lou Lan handed Fang Yuan an ancient token: “This is the guest token. Wolf King does not have Huang Jin bloodline, you are an outside in the building’s perspective. To enter it, you will need a guest token each time.”

Fang Yuan received the token and laughed lightly without any concern, saying: “I can’t wait to witness the splendor of True Yang Building!”

At this point, Hei Lou Lan did not push the door open, instead, he ‘crashed’ into the door.

Fang Yuan followed suit, as the guest token shone in his hand, he imitated Hei Lou Lan and entered True Yang Building as well.

Chapter 557

Chapter 557: Three grades of evaluation, clearing with high grade?

Fang Yuan felt his body stiffen as a strong sense of pressure assaulted him as he entered the building.

But soon after, the pressure lifted.

He had entered True Yang Building completely, there was a lake in front of him.

The sky was blue, there was ripples on the surface of the lake, and the surroundings were shrouded in vague foggy mountain shadows.

The guest token in his hand turned into a puddle of cold molten iron, flowing down the gaps between his fingers.

Each guest token could only be used once.

Fang Yuan shook off the liquid from his hand, until they were all gone.

He looked around, finding himself on an island at the center of the lake. There was someone beside him, it was Hei Lou Lan.

“This is the 54th round.” Hei Lou Lan did not look at Fang Yuan, instead facing forward: “Look, that is the problem brother Shan Yin has to deal with.”

Fang Yuan looked at the same direction, and saw that not far away, there was another island.

On the island, there was a group of water snake lions.

These water snake lions had a body of bright blue fur, they were extremely smooth. Its limbs were not claws, but were webbed feet like that of frogs. Their tails were poisonous snakes, coiling around the water lion's back or standing straight up, hissing with their tongues.

Without Hei Lou Lan's introduction, a barrage of information from a mystical source entered Fang Yuan's brain at the same time —

"Use the hedgehog fish on the island and break past the water snake lions' defense, occupy the island over there."

Fang Yuan retracted his gaze, turning to look at the island around him.

In the jade-blue water around the island, he saw the shadows of hedgehog fish swimming.

At this time, Hei tribe elders came in one by one, standing beside Hei Lou Lan.

"Be it water snake lions or hedgehog fish, they are wild beasts from the medieval era. Right now, they can only be found in the deep areas of eastern sea." An elder sighed.

"In my opinion, this round is extremely unfair. The water snake lions are very strong, one of them can compete against five or six hedgehog fish. But the number of hedgehog fish we have here is only about twice of the water snake lions." A Hei tribe elder looked at the island ahead as he explained the situation to Fang Yuan.

"No need to worry brother Shan Yin, we are here today for practice." Hei Lou Lan patted Fang Yuan's shoulders.

After all, Fang Yuan enslaved wolf groups. But now, it was a fish group, and it was even an extremely rare, nearly extinct hedgehog fish in northern plains.

Hei Lou Lan had failed about eight to nine times already, his best result was only killing thirty percent of the water snake lions. This made Hei tribe Gu Masters understand the difficulty of this round.

Although Chang Shan Yin was an enslavement master, this was the True Yang Building set up by Giant Sun Immortal Venerable.

Fang Yuan looked for a while and frowned.

He estimated, with his abilities, controlling these hedgehog fish to kill the water snake lions was not hard. In fact, it was almost a guaranteed success.

But although this round seemed simple, it was very elaborate.

Back when Giant Sun Immortal Venerable set up the Eighty-Eight True Yang Building, the purpose was to leave an inheritance for descendants, and reward the outstanding ones. Thus, every round in True Yang Building would be split into low, middle, and high grade.

Getting through with low grade would reward the least rewards, they would directly go to the next round.

Getting through with middle grade would have twice the reward of low grade, during the next round, they would receive information about it.

As for getting through with high grade, not only would they get twice the reward of middle grade, they would even be transported into a deep part of True Yang Building, a place called treasure room.

This treasure room was filled with countless treasures, there were even several true immortal inheritances by Giant Sun Immortal Venerable.

But the things inside the treasure room cannot be taken away easily, the person who cleared the round would need to exchange for them.

Be it Gu worms, Gu recipes, or even their own cultivation experience, all these could be used for exchanging the items within.

When the person finishes the exchange, they would go to the next round.

Hei Lou Lan only needed a low grade pass to get to the 55th round, that would satisfy him. But Fang Yuan's goal was different.

He needed high grade pass to enter the treasure room. Only within the treasure room can he be alone, to use the methods he had prepared to obtain the greatest benefits!

“Low grade pass is easy as breathing. But middle and high grade, I do not know what are the conditions for those. I can only try now!”

Thinking so, Fang Yuan breathed in deeply, and nodded at Hei Lou Lan, indicating for him to start.

Hei Lou Lan took out a token and waved it at the sky.

This token was different from the guest token, it was the the owner token. When Hei Lou Lan first entered Imperial Court blessed land, this token appeared before him, signifying his prestigious status.

The owner token vibrated, as ripples formed in the air, dozens of fish enslavement Gu appeared, of rank one, two, and three.

When Fang Yuan received these Gu worms, he easily refined them, the other people were immobilized by an invisible gentle force, no one could assist him.

Only Hei Lou Lan could still speak, he advised: “Brother Shan Yin, mind the time. You have only fifteen minutes.”

Fang Yuan nodded, and waved his hand, as the fish enslavement Gu in his hand flew out with dozens of mystical lights.

Everyone saw Fang Yuan’s casual action and was shocked in their hearts.

If it was Hei Qi Sheng, he would need to enslave them one by one, being extremely careful. When using enslavement Gu, the Gu Master would definitely face the resistance of the fish group. If they were careless, the enslavement would fail. If it was severe, the Gu Master would suffer some backlash on his soul.

“Was Wolf King too overconfident?”

“I’ve never seen such an enslavement method before!”

“He’s in troub…”

Everyone's heart was pounding.

But immediately after, they stared with huge eyes as the fish group swam away towards the island immediately after the enslavement. It was as if they belonged to Fang Yuan from the start, not a single enslavement failed.

The water snake lions were alerted by this, they stopped their lazy actions and sat up, the lion head roared as the snake head hissed.

Many of the water snake lions jumped into the water, setting up their defense lines.

Meanwhile, Fang Yuan was standing upright, his arms behind his back as he did not waver at all. The enslavement attainment as well as foundation of the soul he displayed made almost everyone praise him in secret.

"Oh heaven, he did it!"

"Just this alone was an eye opener."

"Wolf King is an enslavement master indeed, he is different from ordinary people."

"A master is a master, maybe he can succeed this time, who knows."

Everyone's eyes began to show a look of anticipation. Even Hei Lou Lan was looking with a hopeful expression.

But the wish group did not attack the water snake lion group like they wished, instead they were swimming around the area, surveilling the place.

"This… what is Wolf King thinking?"

"Wolf King is being careful, it seems he is trying to get familiar with the fish's habits!"

But as time passed, the fish continued to swim. Everyone did not get to see the fight between fish and lion as they wished.

By now, even Hei Lou Lan was a bit anxious, he urged: “Brother Shan Yin, there isn’t much time left.”

“No rush.” Fang Yuan was calm as he replied casually.

The water snake lions saw that the fish group did not attack, some of the water snake fish crawled out of the water, onto the island. The strong defense around the island weakened.

After a moment, Hei Lou Lan urged again:” Brother Shan Yin, half the time has already passed!”

“No rush.” Fang Yuan waved his hand, his eyelids drooping, as if he was very sleepy.

Even more water snake lions went onshore. The old lion king even sprawled on the ground, shutting its eyes in slumber.

Everyone was greatly disappointed, they were cursing in their minds.

“This Wolf King is merely strong on the outside, to think I thought so highly of him earlier!”

“So what if he is a master level, this is True Yang Building…”

“It seems that this time, Chang Shan Yin’s goal is to get familiar with the fish group, to accumulate experience for the next assault!”

Seeing that the time was going to be used up, everyone’s remaining bit of hope was expended.

“What a waste of a token, expended like this.”

“What shall I eat for dinner tonight?” 1

“After failing this time, I wonder how lord tribe leader will deal with Chang Shan Yin?”

Just as everyone were thinking about random things, Fang Yuan suddenly laughed, manipulating the fish group to charge, attacking the water snake lion group from all directions.

“As expected!” Hei Lou Lan’s eyes shone with brilliance.

He had guessed in his heart already: “Chang Shan Yin wants to save his efforts for the next attempt, then this time, he would definitely familiarise himself with the fish group and their attacking pattern. He would also need to probe the strength of the lion group!”

The fish group’s sudden attack caught the water snake lion group off guard.

The hedgehog fish group was like a hungry shark, devouring the small number of water snake lions in the water in an instant.

“So that’s it! Chang Shan Yin was training the fish group earlier while making the lion group let their guard down.”

“This attack has already taken down thirty percent of the lion group, as expected of master level!”

“What breathtaking beast enslavement attainment, Hei Qi Sheng is like a baby compared to Chang Shan Yin.”

Everyone stared intently, shocked by Fang Yuan’s amazing talent.

Howl!

Seeing that its subjects were being slaughtered, the old lion king roared, leading the lion group into the water to take revenge on the hedgehog fish.

But what was peculiar was that Fang Yuan stopped his powerful assault, and under his manipulation, the fish group retreated.

The lion group chased after him, but at when they got to one area, the group fell into chaos.

“What happened?” Everyone was perplexed.

“So there was a hidden whirlpool here!” Hei Lou Lan mumbled.

Immediately after, the elders’ eyes shone: “I get it! Wolf King was making the fish scout the area, it was not just to train them, he also wanted to investigate the terrain!"

"That's right! When beast groups fight, it is like war between two armies. Not only would they need to consider both of the armies, they also need to care about the terrain." Many Gu Masters saw this and almost wanted to pat their legs and scream.

The water snake lion group was trapped by the whirlpool, as the fish group turned around and attacked.

The lions had huge bodies, they were more affected by the water currents. As for the fish group, they were barely affected by it due to their small size.

An exceptional battle strategy unfolded before the crowd.

The strong water snake lion group was as fragile as a piece of water. Under Fang Yuan's manipulation, the fish group was like an elite troop, they cooperated well and attacked and retreated at will, taking down their opponents one by one.

The fish group gathered and spread at will, attacking fiercely. At times they scattered, causing the lions' attacks to miss.

"He has them dancing in the palm of his hands!"

"Amazing, incredible!! In just a dozen breaths' time, Wolf King became victorious!"

"We got through, we got through!"

Hei tribesmen were shocked and exhilarated, their gaze towards Fang Yuan revealed admiration, amazement, and fear etc.

"Good, what a great Wolf King!" Hei Lou Lan laughed as he clapped.

Fang Yuan also laughed heartily, because when he finished killing the lion group, an information went into his head — high grade evaluation!

The next moment, Fang Yuan vanished on the spot.

“What happened?” Hei tribesmen were shocked at this, their eyeballs also fell out.

“He got a high grade evaluation!!” Only Hei Lou Lan was shouting in his heart.

ChibiGeneral I sense another round of beating for the elders.

Chapter 558

Chapter 558: Giant Sun’s great scheme, treasure within the crystal

Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan was in a long crystal hallway.

Light was flashing in all directions, the four walls were made of shiny crystals, one could see their own reflection in them.

Fang Yuan gazed around, behind him, and to his left and right were walls, he could only move forward.

“I am finally inside the treasure room.” Fang Yuan’s lips curled into a smile, as he walked forward with huge strides.

The crystal hallway was long and clear, in about five steps, Fang Yuan saw that Gu worms or Gu recipes started appearing on the crystal walls to his left and right. They were like insects sealed in amber, motionlessly fixed in the crystal walls.

These were all the precious treasures in the treasure room, to obtain them, he needed to exchange them with an equivalent item.

“Oh? There’s a Heavenly Essence Treasure King Lotus here.” Fang Yuan halted his steps, he found a familiar looking Gu sealed in the crystal wall before him.

This Gu was like a blue and white lotus, as large as a face. It had an amazing origin, it was created by Genesis Lotus Immortal Venerable.

They were a series, the rank three Heavenly Essence Treasure Lotus, the rank four Heavenly Essence Treasure Monarch Lotus, rank five Heavenly Essence Treasure King Lotus, and rank six Heavenly Essence Treasure Imperial Lotus.

Among them, Heavenly Essence Treasure Imperial Lotus was ranked sixth among the top ten Immortal Gu, its value was equivalent to Spring Autumn Cicada, and was held in the hands of Lang Ya land spirit now.

Fang Yuan had once used a Heavenly Essence Treasure Lotus, it made up for his lack of aptitude during that period, and was a huge help to him. But to advance the Gu, Fang Yuan lacked the relevant recipes, and the refinement cost was too huge, a natural spirit spring had to be used, and it had to be full of primeval energy as well. Old spirit springs that were running dry could not be used. Once he succeeds, the spirit spring would be destroyed.

Rank four Heavenly Lotus needed seven spirit springs. Rank five needed nine. To reach rank six, it needed eleven.

This sum was counted using southern border's level of spirit springs. If northern plains' spirit springs were used, he would need 60% more of them.

Back then, it was too difficult for Fang Yuan to advance the Heavenly Lotus, and after his aptitude improved greatly, he gave up on the heavenly essence treasure lotus Gu.

But now, he was moved by this rank five Heavenly Essence Treasure King Lotus.

"The series of Heavenly Essence Treasure Lotus are known as mobile spirit springs. Once refined, they can produce primeval essence naturally. There's no point in using the rank three Heavenly Essence Treasure Lotus anymore, but the rank five Heavenly Essence Treasure King Lotus is suitable for my current condition."

But to get his Heavenly Essence Treasure King Lotus, Fang Yuan would need to exchange for it using an equivalent treasure according to the rules.

"Let's exchange then." Fang Yuan was rather rich now, having a blessed land was like having the foundation of a Gu Immortal.

To exchange for the Heavenly Essence Treasure King Lotus, others might have to use all of their assets to get it, but for Fang Yuan, it was a question of what to give up.

“What should I use for the exchange?”

Fang Yuan’s mind entered his two apertures.

The strength and enslavement path Gu worms inside his apertures were not exchangeable. His first aperture’s vital Gu Spring Autumn Cicada was the same.

Other than them, there were still quite a lot of Gu worms in his possession.

The individual value of these Gu worms were obviously lower than Heavenly Essence Treasure King Lotus, but if one was insufficient, he could put two, or even three in.

“Oh? Why are there eighteen spring egg Gu?”

Fang Yuan was shocked to find a batch of precious rank five Gu inside his first aperture.

But he quickly understood the reason: “I almost forgot, this is the reward for getting past the round with a high grade evaluation. It was directly sent into my aperture by True Yang Building.”

Normally, a Gu Master’s aperture was the basis of their cultivation, it was their biggest secret. But True Yang Building was truly made by Old Hair Ancestor, with Giant Sun Immortal Venerable’s setup, it had great power and could directly send Gu worms into a Gu Master’s aperture.

Spring egg Gu was obviously inferior to Heavenly Essence Treasure King Lotus, but it was still a rank five Gu.

The spring egg Gu looked like a white goose egg, it could be obtained by killing a strong eggman emperor. Placing the spring egg Gu deep underground would give birth to a new spirit spring.

Spirit springs were the foundation for Gu Masters’ cultivation. Many large tribes or clans would collect spring egg Gu to strengthen their foundation, in case of need. Even Gu Immortals would often buy them and plant them inside the blessed land, forming a spirit spring and nourishing their inhabitants.

Fang Yuan took out one spring egg Gu and looked at it.

This Gu was not in good shape, the surface was full of cracks, and there were primeval essence traces inside the Gu, someone had used it before.

Fang Yuan's eyes shone with brilliance, he sneered: "It seems that this Gu was snatched by the flying hand snow while it was activated. The rewards in Eighty-Eight True Yang Building are all of such sources."

In order to fulfill his dream of 'hereditary monarchy', Giant Sun Immortal Venerable set up a huge scheme painstakingly while making sure his descendants had the upper hand.

First was the Imperial Court contest, to weaken other tribes. Next, he used the ten year blizzard to send all sorts of treasures and materials from northern plains into Eighty-Eight True Yang Building.

After all, a Gu Master's cultivation was heavily reliant on resources.

Giant Sun Immortal Venerable set up the Eighty-Eight True Yang Building, it was a fatal blow. After the resources were taken, he would give them to his bloodline descendants, destroying the hopes of success for other tribes.

In Fang Yuan's previous five hundred years, central continent Gu Immortals attacked and destroyed Imperial Court Blessed Land using this specialty of the True Yang Building.

They sent pawn pieces into Imperial Court Blessed Land. They then purposely scattered Gu worms and allowed the flying hand snow to take them. Eventually, True Yang Building faced destruction from the inside, causing a fatal loophole to appear.

After central continent Gu Immortals destroyed Imperial Court Blessed Land, they exposed all of Giant Sun Immortal Venerable's evil deeds, telling the whole world about his schemes, causing a huge commotion in northern plains as all the mortals went into a frenzy.

But commotion aside, northern plains was still the second strongest region in terms of battle strength, only inferior to central continent. All sorts of super forces, Huang Jin family tribes worked together and caused northern plains to remain stable.

After all, Huang Jin family had controlled northern plains for so many years, they had deep foundations and roots, it could not be easily shaken by public opinion.

However much they reacted, without strength backing them, there was no point.

Fang Yuan placed the spring egg Gu in his hand closer to the crystal wall, towards the wall that sealed the Heavenly Essence Treasure King Lotus.

As it got closer to the crystal wall, there was a light red light, turning into orange, before finally glowing in yellow.

After the three lights shone, there were no more changes.

Fang Yuan took out another two spring egg Gu, placing them near the wall.

This time, there was a green light shining. But the green light was not strong, it was suppressed by the other three lights.

Fang Yuan sneered as he took out a fourth spring egg Gu, placing it at the crystal wall.

This time, the green light burst out, being balanced with the other three colors.

The crystal wall turned hollow as it vibrated. The Heavenly Essence Treasure King Lotus inside flew out slowly, while the four spring egg Gu in Fang Yuan's hands left his control and flew into the crystal wall, replacing the Heavenly Essence Treasure King lotus' position.

The Heavenly Essence Treasure King Lotus landed in Fang Yuan's hands, and Fang Yuan instantly refined it using his primeval essence.

Eighty-Eight True Yang Building was truly amazing, it allowed Gu Masters to instantly refine Gu inside the building.

“Red, orange, yellow, green, azure, blue, purple, black… it seems that inside this treasure room, there are eight categories. The more lights there are, the more valuable the treasure. Rank five Heavenly Essence Treasure King Lotus was only a green light item. This was only mid-tier among the range of treasures in this place.”

Fang Yuan evaluated in his heart as his assessment of the treasure room’s value rose and his knowledge of it deepened.

He stretched out his hand, touching the crystal wall.

He could feel an icy feeling on his palm, inside, there were four spring egg Gu, the ones he had used for exchange.

Fang Yuan tried to control them, but there was no effect.

He sighed in amazement in his heart.

To speak the truth, in this current world, Fang Yuan was easily among the top three people in terms of his understanding of the Eighty-Eight True Yang Building.

That was because he had the detailed information given to him by Lang Ya land spirit.

The more Fang Yuan’s understanding of Eighty-Eight True Yang Building increased, the more he felt the genius mechanics of this building, it was really amazing.

Forget the others, just look at this crystal wall ahead of him, it had a huge origin.

This crystal wall was made back then by Long Hair Ancestor using tens of thousands of Gu Masters. Using a secret technique, he extracted their apertures. Using their aperture walls as the material, he used profound ice Gu, ice wall Gu, grand jade Gu, slow down Gu, vitality Gu, and others to refine it.

This crystal wall was the best spot to seal Gu worms, the Gu inside would go into deep slumber, they could be stored for hundreds or thousands of years without the slightest harm.

According to his information, a newly refined crystal wall would shine with ripples like that of a water surface, one would walk into it feeling like it was an illusory dream.

But now, the crystal wall no longer had that glamor, but it was still crystal clear.

With enough time, water could pierce through rock.

The power of time was one of the most noble heavenly powers.

Even a rank nine venerable could not defeat the power of time. Although True Yang Building was an Immortal Gu house, it opened every ten years, there was still some expenditure incurred.

If not, during Fang Yuan's previous life, Eighty-Eight True Yang Building would not have been taken down and destroyed.

Right now, the luster of the crystal wall was no more, in fact, there was a thick layer of powder at the corner of the walls.

Fang Yuan continued moving forward.

In the crystal wall, there were all sorts of Gu worms, Gu recipes and special refinement materials sealed, but even more were the cultivation experiences of past generations of Gu Masters.

These experiences were extremely precious. Those who could enter the treasure room were geniuses who passed with high grade evaluation, the things they left behind were definitely top quality.

After walking for a little longer, Fang Yuan stopped his footsteps.

The hallway ahead of him looked endless. But a stele was blocking Fang Yuan's path.

The stele was squarish and smooth, it was about the height of Fang Yuan's knee. There were two words written in northern plains' script — guest halt!

Eighty-Eight True Yang Building was set up by Giant Sun Immortal Venerable, in consideration of his descendants. But those who entered the treasure room might not necessarily be Gu Masters who had the bloodline of Giant Sun.

Giant Sun Immortal Venerable considered this point, and thus he placed the most precious resources behind the stele, outsiders like Chang Shan Yin could only watch helplessly.

But Fang Yuan was not Chang Shan Yin.

“Guest halt? Hmph.” Fang Yuan laughed coldly in disdain.

He tried walking past the stele, but was blocked by an invisible wall.

“After so many years, although Eighty-Eight True Yang Building had some expenditure, the guest halt stele is still working properly, I cannot force my way through.” After testing it for a while, Fang Yuan sat down facing the stele.

He had planned this for so long, he was naturally well prepared.

Immediately, he took out a Gu worm, and it shot into the stele.

The first step to refining Eighty-Eight True Yang Building has started!

Chapter 559 - Immortal Venerable's Will

Chapter 559: Immortal Venerable's Will

Refining Eighty-Eight True Yang Building might sound like an absurd idea, but it was not wishful thinking.

In truth, Fang Yuan was not the 'first person' to refine Eighty-Eight True Yang Building.

In his former five hundred years, when central continent Gu Immortals attacked Imperial Court Blessed Land, they first sent some Gu Masters to infiltrate Eighty-Eight True Yang Building's treasure room.

After they succeeded, they released the entire procedure after recording it with Gu worms, announcing it to the world.

Imperial Court Blessed Land was the spiritual symbol for northern plains Gu Masters, it had great importance. The recording of Imperial Court Blessed Land being taken down was spread over the five regions, it not only displayed central continent's strength, it was also a poisonous needle intended to destroy northern plains Gu Masters' mental support!

Most importantly, this recording also proved that Giant Sun Immortal Venerable had snatched Gu worms all over northern plains, in order to benefit his descendants.

Once the recording was released, northern plains was in huge turmoil, as the masses went into an uproar.

Although the Huang Jin tribes suppressed the situation, and the internal chaos did not reach the level that central continent Gu

Immortals hoped, it did create a northern plains where the people's hearts wavered and undercurrents were flowing.

Central continent Gu Immortal Song Qie Xing, after seeing this video, gave an accurate prediction: "Once this video is spread all over the region, the spirit of freedom in northern plains would be released from Giant Sun Immortal Venerable's prison!"

Fang Yuan naturally had a vivid memory of this video.

After his rebirth, he immediately realized the huge value of this video.

For this trip to northern plains, saving Dang Hun mountain was merely one of his objectives.

Fang Yuan was a careful person, he often considered failure before success.

"How can there be something as good as 'success as one wishes' in this world? If I fail to save Dang Hun mountain, I can at least seek other forms of compensation inside Eighty-Eight True Yang Building."

The video of central continent Gu Immortals taking down Imperial Court Blessed Land had great reference value for Fang Yuan.

But just this clip was not enough.

Fang Yuan could only see what happened on the surface from this clip. But luckily, Fang Yuan had obtained first hand information from Lang Ya land spirit.

Because of this, by fusing theory with practice, Fang Yuan had much greater confidence in refining Eighty-Eight True Yang Building.

"With my current cultivation level, it is impossible to fully refine Eighty-Eight True Yang Building. But I can refine a portion of it."

Fang Yuan was very clear of the reality.

He was only a mortal Gu Master, one had to be at least a rank eight Gu Immortal to refine the Immortal Gu house.

In Fang Yuan's plans, he only wanted to refine a portion of Eighty-Eight True Yang Building.

Eighty-Eight True Yang Building had existed for a very long time, it was worn down and had loopholes secretly. It was too grand, too majestic, like a giant wooden cage.

Fang Yuan was like a termite compared to it.

The strength of a termite could not destroy the entire wooden cage. But it could devour the edges, the difficulty of the two was as great as heaven and earth.

The guest halt stele in front of him, after a specialized Gu worm entered it, gave off a faint yellow light.

Fang Yuan stretched out his palms in the meantime, injecting his aperture's primeval essence into it.

At the same time, his will entered the guest halt stele, following the primeval essence.

Gu Masters refine Gu, it was to occupy the Gu worm's body with their will. And during this process, primeval essence was the perfect carrier.

Fang Yuan's brows were tightly knotted as his mind entered the stele.

The guest halt stele was only a portion of Eighty-Eight True Yang Building.

Eighty-Eight True Yang Building was a rank eight Immortal Gu house, it was way too big.

Once Fang Yuan's will entered, he felt that he was in a sea of darkness.

In this endless darkness, there was a sun-like existence. It gave off a weak light, which moved in waves like that of breathing.

"This is Giant Sun Immortal Venerable's will?" Fang Yuan's mind went into high alert.

Eighty-Eight True Yang Building was Giant Sun Immortal Venerable's property, since he refined it, his will was naturally inside the Immortal Gu.

Although Giant Sun Immortal Venerable's body had perished long ago, this will that he injected had survived while slumbering within this shell.

"Such a will is really grand, I feel like I am facing a real sun! Immortal Venerables have unthinkable strength, this is merely a small portion of Giant Sun Immortal Venerable's will, left behind and weakened after such a long time."

"Thankfully, this will is currently unconscious, if I move carefully, it should not be alerted. I must not wake it up, otherwise, what happened to those two central continent Gu Immortals whose souls were dispersed in the video will happen to me."

The vast dark space represents the Eighty-Eight True Yang Building.

Giant Sun Immortal Venerable's remnant will was like the sun, in the center emitting a weak light as it slept.

Meanwhile, Fang Yuan's will was like a sesame compared to it. He also gave off a weak light, but he was lurking at the furthest corner of the entire area.

Fang Yuan continued to inject primeval essence, slowly and carefully.

As the primeval essence entered the guest halt stele, the amount of his will that was inside Eighty-Eight True Yang Building increased.

In the dark corner, the light that represented Fang Yuan was expanding, gradually repelling a portion of the darkness, gaining some territory for itself.

Time passed second by second.

Fang Yuan was very careful, his forehead was soon full of sweat.

"To think that refining this stele would be so difficult. With my two rank five peak stage apertures at ninety percent capacity, it was still not enough. If not for the Heavenly Essence Treasure King Lotus, I might have faced even more trouble."

Four hours passed, Fang Yuan finally breathed out a sigh as he pulled back his palms from the stele.

He was extremely tired, mostly from the mental stress, it was more precarious than walking on a tightrope.

"I finally succeeded."

Fang Yuan looked at the guest halt stele before him, a sense of closeness emitted from the stele into the deep parts of his heart.

But the joy of success quickly faded, as Fang Yuan frowned even more deeply.

"There were indeed many deleted scenes in the video that was shown in my previous life. I spent so much primeval essence, but the Gu Master in the clip was only rank five middle stage, yet he did not take any breaks in the middle, only spending an hour to refine it."

Maybe the Gu Master had some assistance Gu worms in his aperture, but Fang Yuan was more inclined to believe that there was more than meets the eye.

The reason why central continent Gu Immortals released this video was to deal a crushing blow to the Huang Jin tribes, to release the spirit of freedom in other northern plains tribes.

Deep into the Eighty-Eight True Yang Building, there were definitely gains or methods that could not be publicly shown.

At the same time, to make the video more concise and interesting, so that people would watch it, the boring and mundane parts were definitely deleted, that had certainly happened.

But this was bad news to Fang Yuan.

Refining the Eighty-Eight True Yang Building was a very dangerous act, if he was misled by the video, one mistake would end his life!

“Eighty-Eight True Yang Building is truly phenomenal, I spent so much time, but I have not even refined half a percent of it.”

Fang Yuan sighed as he patted the guest halt stele, standing up.

If he looked at Eighty-Eight True Yang Building as a hundred percent, Giant Sun Immortal Venerable’s remnant will would occupy thirty percent of it.

Out of a hundred percent, after refining the guest halt stele, Fang Yuan’s refinement of the building was still less than half a percent.

“But even so…” Fang Yuan’s lips curled into a smile.

He turned around, talking a few steps back and casually came to a crystal wall that had sealed some treasures.

His gaze concentrated as he stretched out his arm towards the wall.

If it was before, the crystal wall would be like an ice wall, blocking his hand. But now, the guest halt stele shone slightly, and the crystal wall turned hollow.

Fang Yuan’s arm successfully entered the wall like it had gone into a water wall, taking the treasure out from inside.

Once he refined the guest halt stele, any treasure inside this section of the crystal wall could be taken out at will, Fang Yuan did not have to pay any price!

“Oh? This must be the rush thunder stone…”

Looking at the treasure in his hand, Fang Yuan had to appraise it carefully before confirming his guess.

Rush thunder stone was quite a rare Gu refinement material. It was nearly extinct now, it was very rare even inside treasure yellow heaven, only sold once in a while.

This stone was created from the essence of lightning and thunder when the thunder in the nine heavens exploded together.

But ever since the immemorial era, seven of the nine heavens fell, only white and black heaven were left. The chances of these two heavens' thunder and lightning clashing were very low. Thus, after the immemorial era, the production of rush thunder stones fell drastically.

When thunder path was flourishing, large numbers of rush thunder stones were used to refine Gu.

Thus, the remaining stock of rush thunder stones now was low.

“Heaven and earth is ever-changing, as time passed, thunder path also changed and no longer needed rush thunder stones. Only those Gu Masters or Gu Immortals who wanted to research immemorial thunder path Gu worms would be interested in rush thunder stones.”

The value of the treasure room was extremely high, just a casual treasure that Fang Yuan took was a rush thunder stone.

But soon after, Fang Yuan returned the rush thunder stone back to the crystal wall.

Small greed ruins big plans.

Because exchange was needed to obtain treasures, the total treasure amount in the crystal walls was always the same.

Every item here was recorded by all the super forces, or even large-sized Huang Jin tribes.

If someone obtained high grade evaluation and came here later, they would find that treasures were missing, that would lead to great suspicion and shock!

Fang Yuan felt no pity, after testing for a while, he walked towards the deeper parts of the crystal path.

Arriving at the guest halt stele once again, his footsteps became slower.

A few hours ago, the invisible wall that blocked him had vanished. But this did not mean that he could enter safely.

Eighty-Eight True Yang Building was created by Long Hair Ancestor, it obviously had other defensive measures.

But Fang Yuan was prepared for them.

He willed and at once, five to six mystical Gu worms flew out of his aperture, turning into lumps of colorful smoke as they surrounded him.

Fang Yuan checked again, and after ensuring that he was fully covered, he walked past the guest halt stele.

Smoke of all colors rumbled as they formed into a flash of blood light, spreading out.

Fang Yuan looked around, finding that the treasures in the crystal walls were better than the previous segment by a tier.

“Oh? This is…”

Fang Yuan’s gaze froze for a second as he saw a rank five strength path Gu worm inside the crystal wall.

He was overjoyed.

ChibiGeneral Rank five ‘strength to climb a cliff Gu’.

Chapter 560 - Crucial problem

Chapter 560: Crucial problem

Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan had just taken a step past the guest halt stele and a pleasant surprise welcomed him.

A borrow strength Gu appeared in front of him.

This was a rank five strength path Gu, it was almost completely extinct and was even more rare than all-out effort Gu. It could not be used by itself, but instead had to be used together with other Gu worms.

When matched with sky strength Gu, it could allow the Gu Master to borrow the strength of the sky. When matched with earth strength Gu, the Gu Master could borrow the strength of the earth. With fire strength Gu, it allowed the Gu Master to borrow strength from fire. With water strength Gu, the Gu Master could take gain strength from water flow.

“My killer move four arm wind king uses wind overlord Gu and tyrant strength Gu. The combination of these two Gu was a substitute for borrow strength Gu, but their effects are not even fifty percent of borrow strength Gu. With this borrow strength Gu, I can raise my killer move to a whole new level!” Fang Yuan was truly happy.

Of course, borrow strength Gu still needed to be matched with other Gu worms.

By now, sky strength Gu was already extinct. But earth strength Gu, fire strength Gu, water strength Gu, wind strength Gu and so on were still widely circulated.

However, the usage of these Gu worms had already side-tracked from their original use.

Earth strength Gu was now frequently used to raise the fertility of the soil to help the Gu Masters in agriculture, or was used together with wood path Gu. Fire strength Gu was used by some fire path Gu Masters as a support Gu that could slightly increase the strength of fire path Gu worms. Water strength, wind strength, lightning strength and so on were also used similar.

Fang Yuan approached the crystal wall and took out close to ten spring egg Gu to exchange for the borrow strength Gu.

Past the guest halt stele, he could only exchange for the treasures he wanted.

Fang Yuan continued to walk forward.

The treasures in the crystal wall here were clearly a level or two higher than before.

Meteor rain Gu, star lightning speed Gu, wind fog hair Gu, stellar fire prairie Gu, water curtain skyflower Gu…

Rank five Gu which were extremely rare in the outside world could be seen everywhere here. Instead, it was rank four Gu that were very rare in here. But any rank four Gu that appeared here were bound to be very rare and precious among the rank four Gu, their value and strength comparable to common rank five Gu.

Fang Yuan's gaze swept through the treasures, the blood flame light covering him was wearing down non-stop.

This blood flame light was a barrier protecting him. Once it completely disappeared, he would be detected by Eighty-Eight True Yang Building and be eradicated instantly.

"Before this protection disappears, I need to find that owner token!"

As time passed, Fang Yuan gradually started to feel anxious.

These Gu he used to disguise his identity and deceive Eighty-Eight

True Yang Building were not easy to refine, moreover the costs in refining them were considerable. One of the main material was a thousand jin of Huang Jin family blood which required ninety-eight long steps of purification.

Now, Imperial Court contest had already ended; it was even more difficult for Fang Yuan to get these blood in large amounts.

What was even worse was a fork actually appeared in this long crystal corridor!

Fang Yuan could not help stopping to think about it carefully.

Which path was the one he needed to take?

At this moment, the image of the central continent Gu Immortals attacking Imperial Court blessed land in the previous life became a great help to Fang Yuan.

He chose the left path and moved rapidly through it.

Here, the treasures that appeared in the crystal wall were of a level higher in their worth. There were only rank five Gu with no more rank four Gu to be found, and at the same time, there were rare rank five Gu as well.

Fang Yuan quickly walked forward while sweeping his gaze over the treasures, suddenly his gaze stopped: “Found it!”

An owner token was sealed in the crystal wall, just at the knee height of Fang Yuan.

This owner token was the doing of central continent Gu Immortals.

A tall tree attracts the wind; Imperial Court blessed land had existed tall till now which had already attracted the attention of Gu Immortals of all regions. Central continent Gu Immortals had begun their plan hundreds of years ago.

The owner token was generally held by the alliance leader and would self-destruct once it left Imperial Court blessed land.

Close to a millennium ago, central continent Gu Immortals spent a lot of effort to scheme from the dark, not only did they bribe that time's alliance leader, it is rumored that they also used an Immortal Gu.

Using the power of the Immortal Gu, they tampered with the owner token which then hid inside Eighty-Eight True Yang Building, becoming a key for the future, waiting for the opportunity to use it.

In Fang Yuan's past life, central continent Gu Immortals first started the five regions battle and were able to create the opportunity not long after, finally breaching Imperial Court blessed land.

Imperial Court blessed land was an arrangement set by Giant Sun Immortal Venerable, breaching this place was much more difficult than breaching other blessed lands.

But Giant Sun Immortal Venerable had already passed away while central continent Gu Immortals had painstakingly brewed their scheme for close to a millennium, achieving some success in the end.

However, in this life, this owner token landed in Fang Yuan's hand.

The process of exchanging for this owner token was extremely smooth. But it would not be easy to make the token usable for him.

This was the final, crucial step.

Fang Yuan's expression turned solemn as he sat cross-legged on the ground and concentrated.

Gu worms after Gu worms moved at his will and struck the owner token non-stop.

Ding ding ding…

A pleasant music sounded from the collision, and the owner token gradually floated into the air. Every strike would create a layer of halo over the owner token.

When it was covered with thirty-eight halo, the dull color on its surface suddenly dispersed and revealed the words – 'owner token'.

The halo then started to burst like air bubbles.

The owner token lost its buoyancy and fell down, and was immediately caught by Fang Yuan.

He quickly bit his finger and let the blood drip onto the owner token.

The moment his blood seeped into the owner token, the metallic token suddenly became a translucent glass. Fang Yuan had seen Hei Lou Lan's owner token and was able to immediately be aware that there was a great difference between his token and the original owner token.

"The methods I used just now was in reference to my past life's video, awakening the true appearance of this owner token. It seems this is very possibly the strength of an Immortal Gu and also, only Immortal Gu can tamper with owner token while avoiding the detection of Eighty-Eight True Yang Building." Fang Yuan looked at the glass owner token and sank into contemplation.

After a dozen or so breaths, the blood flame light covering him thoroughly dispersed.

The world seemed to have gone mute at this moment as Fang Yuan could clearly hear his heartbeats.

"Safe and sound." The sound of his heartbeats gradually disappeared, Fang Yuan slowly stood up and let out a breath of turbid air.

"Success." He mumbled while clenching his left fist in excitement, but he found his voice was somewhat hoarse. At the same time, his whole body was soaked with sweat and he felt some dizziness.

Truly activating this owner token and making it recognize him was not easy at all. It was even more difficult than refining a rank five Gu.

If there was even a slight mistake, it might have very well been impossible to reprieve.

Fang Yuan endured the enormous mental pressure and finally succeeded.

“Now, as long as I hold the glass owner token, I can freely enter the treasure room. There is no need for any high grade evaluation!”

Holding the owner token was equivalent to being in control of a small part of Eighty-Eight True Yang Building.

Fang Yuan tested the owner token and almost instantly, Hei Lou Lan’s group’s figures appeared in his mind.

After crossing the fifty-fourth round, they had already charged to sixty-first round. Right now, they were having a fierce fight with a golden-white tiger phantom.

A true golden-white tiger was a desolate beast level existence.

The golden-white tiger phantom possessed the aura of a desolate beast and was pressing down Hei Lou Lan’s group.

Hei Lou Lan had numbers on his side, but their defeat was imminent.

Fang Yuan looked closely for a while and inwardly commented: ‘If there is no accident, Hei Lou Lan and his group will only be able to last for less than forty-five minutes, before they have to retreat. I don’t have a lot of time!”

Although Fang Yuan entered the treasure room, as long as the possessor of the owner token walked out of Eighty-Eight True Yang Building, he would also have to leave.

Fang Yuan might have the glass owner token now, and could stay or leave according to his will. But it was not good to expose it at present.

“Just the glass owner token is still far from enough. I still need to find that loophole and completely blow it up; this will create a great hole in Eighty-Eight True Yang Building and I will then be able to freely take away the treasures in the crystal wall.”

The glass owner token shook slightly, and the next moment, Fang Yuan disappeared on the spot.

“This should be the central control room!”

When Fang Yuan opened his eyes, he had arrived at a secret room.

The secret room was round with its walls flickering with starlight, and a white jade round table on the center. There was an exquisite model of the whole Imperial Court blessed land on the round table, just like a military sand table.

Not only did it depict mountains and rivers and the sacred palace at the center, even the small towers in the blessed land were clearly visible.

Fang Yuan sent out a Gu worm which flew to air and turned into black smoke that fell down to the sand table.

The sand table was contaminated by the black smoke and rapidly turned into black color.

The black color gradually condensed, forming into a large patch of sticky liquid that slowly flowed on the sand table.

Fang Yuan looked at a spot where the black liquid had formed a funnel shape and as if there was a hole below, the surrounding black liquid was slowly entering it.

“Found it, this is that hole! Now, I just need to enlarge this hole and refine the glass owner token into a one-edge owner token. With a one-edge owner token, I can even control a floor of Eighty-Eight True Yang Building at will! Eh?”

Right at this time, Fang Yuan’s movements paused as his eyes rigidly stared at the hole on the sand table.

The whole sand table was covered by the thick black oil like sticky liquid, thus Fang Yuan had not been able to see immediately. But now that he had looked for a while, he suddenly discovered this hole was none other than Di Qiu inheritance site!

“What is going on here? Could it be Di Qiu inheritance is also a concealed move set up by central continent Gu Immortals before like the glass owner token?!”

Fang Yuan was shocked.

But he quickly calmed down and became aware of the shortcomings to this assumption.

“No, wrong. If this was a concealed move prepared to breach the blessed land, then how do I explain that cipher and the clues from the grey-white stone slab? These clues are clearly the clues to the inheritance.”

Fang Yuan’s eyes flashed with bright light.

Right now, the scene in his previous life could not give him any help.

“Could it be that central continent Gu Immortals also discovered this inheritance, but they could not decipher the secret phrase and so are using the inheritance this way? No, this is wrong too. Thinking from their side, if they discovered this inheritance which very likely contained an Immortal Gu, they would definitely be moved. If that is so, then that means that they did not obtain any clues to the inheritance but only discovered this hole?”

“Of course, there is also another possibility that they were not able to decipher the secret of the inheritance, but as breaching the blessed land was an important matter, they chose to break this hole in the end. But if so, Di Qiu inheritance would also be destroyed!”

Fang Yuan thought of this and that, feeling the existence of these two probabilities. But he did not have conclusive evidence now so he could not confirm them.

He hesitated.

In case he used the methods in his previous life’s scene and burst open this hole, then Di Qiu inheritance would definitely be destroyed.

But if he did not do so and chose to preserve Di Qiu inheritance, his plans for Eighty-Eight True Yang Building would stop here.

“Eighty-Eight True Yang Building’s worth is much higher than Di Qiu inheritance. This is hopeless, I can only abandon Di Qiu inheritance. But the person who made this arrangement is really amazing, to actually be able to tamper with Giant Sun Immortal Venerable’s arrangement… hmm? Wait a second!”

Fang Yuan’s mind suddenly shook as he thought of an extremely crucial problem!

Chapter 561 - Deciphering the code

Chapter 561: Deciphering the code

Translator: ChibiGeneral Editor: ChibiGeneral

This was a very obvious problem, but normal people would easily overlook it.

Why did this mysterious Gu Immortal go through such great trouble, brave enormous risk, tamper with and use Giant Sun Immortal Venerable’s arrangement to set up their inheritance?

“Thinking from their perspective, if I was this Gu Immortal, why would I insist on digging out Eighty-Eight True Yang Building’s loophole to set up my inheritance? I could set up one by myself perfectly by just spending a little effort!”

“Eighty-Eight True Yang Building is a rank eight Immortal Gu house and was personally arranged by Giant Sun Immortal Venerable. There was truly an enormous risk in using its loophole. If I wanted to wholeheartedly leave behind an inheritance, there would be absolutely no need to go so far and intentionally take risks. Unless…”

Fang Yuan’s eyelids drooped as a cold light flashed quickly past his dark pupils.

“Unless — the inheritance required such an arrangement!”

The moment he thought of this, the fog in Fang Yuan’s mind seemed to be pushed aside by two large hands.

Humans always have objectives in doing things.

Only an enormous objective could make a Gu Immortal take such huge risks!

Maybe this Gu Immortal did not like Giant Sun Immortal Venerable or had hatred against him. But Giant Sun Immortal Venerable had already passed away for countless years, so this possibility was close to zero.

Removing the factor of emotions, then there was only the factor of benefits.

“For this benefit, the mysterious Gu Immortal was willing to brave the fatal danger of messing with Giant Sun Immortal Venerable’s arrangement. What in the world did they intend to use Eighty-Eight True Yang Building for?”

Fang Yuan involuntarily thought of the information Lang Ya land spirit gave him.

He had already studied this information hundreds and thousands of times. Even on the day before the large battle of the Imperial Court contest, he had been studying non-stop.

Even after reading so many times, every time he read it again or recalled it, he could not help having a feeling of admiration.

Eighty-Eight True Yang Building was indeed of exquisite workmanship, its design was spectacular.

This was a fantasy turned into reality, it was a miracle!

Eighty-Eight True Yang Building was essentially an Immortal Gu house.

Back then, Giant Sun Immortal Venerable made plans for his descendants and took the initiative to find Long Hair Ancestor, requesting him to refine an everlasting inheritance treasure.

Giant Sun Immortal Venerable’s demand was too great, and as such Long Hair Ancestor had to rack his brains and think painstakingly for a hundred or so days to meet the standard.

One day, he suddenly had an inspiration and took an alternate way, coming up with a unique method.

The Immortal Gu house was truly overly enormous. Long Hair Ancestor could only settle for the second best option, and divide it into countless sub-bodies which were the small towers.

The quantity of these small towers reached untold numbers and attracted wild Gu worms for ten years.

As the ten year period neared its end, they would sink one after another, sacrificing the wild Gu inside and simultaneously resonate with the blizzard outside to form a heavenly power.

The heavenly power condensed bit by bit to generate a qualitative change, condensing into a floor of Eighty-Eight True Yang Building.

As layers and layers formed, they would finally become the complete Eighty-Eight True Yang Building!

From a different perspective: every time Eighty-Eight True Yang Building formed, it was the process of a new refinement.

Long Hair Ancestor was indeed worthy of being known as the number one refinement path immortal of all times, his Gu refinement attainment had already crossed the realm of mortal into a realm of divinity. It was already not easy for ordinary Gu Masters to refine a Gu successfully. It was the same for Gu Immortals as well when they refine Immortal Gu.

But Long Hair Ancestor had already surpassed the limits of the normal Gu refinement to a level of perfection.

So did Eighty-Eight True Yang Building's refinement succeed?

In truth, the refinement was not a complete success.

If a general standard was applied, the truly complete Eighty-Eight True Yang Building would be a tower that would exist for eternity in the blessed land, towering over the sacred palace.

However, this standard was too difficult to fulfill.

Back when Giant Sun Immortal Venerable had mentioned it, Long Hair Ancestor's brows had furrowed deeply and had immediately said: If the refinement truly succeeds, then this Immortal Gu house would be at rank nine realm!

What was the meaning of a rank nine Immortal Gu?

The Gu in legends like strength Gu, wisdom Gu, fate Gu and so on were all rank nine Immortal Gu. These Immortal Gu were priceless even among the priceless and had already vanished, their radiance only being revered in < >.

Just like rank nine Gu Immortals who were given the title of 'venerable'; throughout the boundless history, only ten of them appeared.

There had never been a rank nine realm Immortal Gu house, but Giant Sun Immortal Venerable did not give up on his request.

Long Hair Ancestor could only agree to the request, fearing the might of an Immortal Venerable.

Finally, he thought of a solution that was not a solution, to create a 'rank nine Immortal Gu house that could only exist for a short period of time' — thus, Eighty-Eight True Yang Building ended up being at rank eight realm.

Giant Sun Immortal Venerable had not been pleased with it, but his attitude changed after inspecting it, and was full of praise as he said: Eighty-Eight True Yang Building itself holds the secret of a mortal becoming a Gu Immortal!

Why did he say that?

The reason was that a mortal had to cross over the hurdle of the three elements to become a Gu Immortal.

Element of heaven. Heaven above, with immeasurable might, mysterious and mighty.

Element of earth. Earth below, virtuous, stable and profound.

Element of man. Man in the center, the spirit of all beings, exerting oneself to soar above.

Mortal were like tiny insects, and only by connecting with heaven and earth, could they be free of their mortal state and make themselves go through a fundamental evolution.

And Eighty-Eight True Yang Building's formation made use of these three elements.

The Imperial Court contest was to spread the element of man. The ten year blizzard was a cruel and vicious element of heaven. The small towers sinking into the ground were borrowing the blessed land's element of earth.

The three elements combine into one, and a mortal becomes an immortal.

The three elements combined to form Eighty-Eight True Yang Building that plundered northern plains' resources to give rise to Huang Jin family's super tribes, and allowed Giant Sun Immortal Venerable's influence to be inextinguishable for countless years.

"Wait a moment, don't tell me?!"

Fang Yuan's body shook slightly as a bright light blossomed in his eyes.

"The small towers are a part of Eighty-Eight True Yang Building, the mysterious Gu Immortal who set up Di Qiu inheritance broke this small tower and created a hole."

"When the hole formed, according to the principle of the refinement of Eighty-Eight True Yang Building, there should be a backflow of heavenly power to condense into a new small tower."

Eighty-Eight True Yang Building was a rank eight Immortal Gu house and was very difficult to destroy. But the small towers could be easily destroyed, this was like the difference between a Gu Immortal and mortals. Thus, when Giant Sun Immortal Venerable arranged these small towers in the blessed land, he used the strength of Imperial Court blessed land to protect them tightly and isolate them from most sources of damage.

Long Hair Ancestor was the number one immortal in refinement path, so he naturally had considered the situation of the small towers being destroyed. Thus, every ten years, during the time of the formation of Eighty-Eight True Yang Building's main body, the condensed heavenly power would first flow back to repair the gaps in the small towers before condensing into the main body.

However!

“Di Qiu inheritance had already been set up for many years, but the small tower over it has still not been repaired. Moreover, this mysterious Gu Immortal used some method to seal up this gap and deceive Eighty-Eight True Yang Building. I understand now, the reason they did this should be none other than to make use of the heavenly power that condenses into Eighty-Eight True Yang Building!”

“Light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow… it seems this secret phrase is the method of Gu refinement!”

In fact, Fang Yuan had guessed this before.

However, he did not have conclusive evidence back then.

Now, although it was still a guess, but after testing and probing it, Fang Yuan was much more confident.

Time always seemed to move faster when one was pondering deeply.

Hei Lou Lan and his group were defeated by the golden-white tiger phantom, and were sent out of the tower. To not attract any suspicion, Fang Yuan could only use the glass owner token to get out of the tower.

A group of people suddenly appeared at the entrance of the first floor of the tower.

“They have appeared, the lords have returned!”

“Subordinate greets lord tribe leader and all the lords.”

The guards sitting there, who were of Hei tribe’s direct line of descent, immediately came forward to greet.

Hei Lou Lan and the group all looked battered and exhausted or were covered in blood.

Although they had failed, they had made much progress and gains as they were even able to push forward for over ten rounds.

However, the situation this time was special, Hei Lou Lan and others’ gazes landed on Fang Yuan, revealing the intent of probing, curiosity, doubts and investigating.

“Hahaha, everyone worked hard and contributed highly for this expedition, especially Wolf King who can be said to be the number one in contribution this time. After returning, organize a banquet immediately, we will celebrate for three days!” Hei Lou Lan laughed loudly and lightly patted Fang Yuan’s shoulder, showing off their close relationship.

High grade evaluation made Fang Yuan’s worth rise by another level in his heart.

“I gained some insight from this trip, I need to undergo closed cultivation to consolidate them. I hope Lord Hei Lou Lan would not blame me.” Fang Yuan lightly smiled and directly turned down Hei Lou Lan.

Hei Lou Lan’s smile froze before immediately recovering the next moment and said it was not a problem, showing the disposition of a magnanimous leader.

As for how furious he was inwardly, or how much the others were envious, Fang Yuan did not care. He wanted to return now to study the secrets of Di Qiu inheritance meticulously.

Six days later.

Fang Yuan pushed open the window and looked down at the sacred palace, his eyes flashing with a light of joy.

He had fully solved the secret of Di Qiu inheritance.

One only required a correct direction for such riddles and it would only be a matter of time.

Just as Fang Yuan guessed before, the cipher was a recipe for refining Immortal Gu.

The mysterious Gu Immortal who arranged the inheritance used the loophole of the Eighty-Eight True Yang Building, borrowing the power which would condense into Eighty-Eight True Yang Building to refine an Immortal Gu.

As long as one followed the words of the secret phrase and refined the Gu step by step, even a mortal Gu Master could refine it successfully.

It was because the Immortal Gu refinement was not relying on the mortal Gu Master's power, but was borrowing from the strength of Eighty-Eight True Yang Building.

But as for what this Immortal Gu was, Fang Yuan did not know and could only make conjectures from the secret phrase.

"This Gu Immortal should very likely be from central continent. The Gu refinement method is filled with central continent's style. And adding on my previous life's video, this inheritance should be in the form of a chain and what I obtained was likely only a part of it." Fang Yuan estimated in his heart.

In Fang Yuan's past life, central continent Gu Immortals planned to use this loophole to breach Eighty-Eight True Yang Building. They should have discovered some preceding clue to this inheritance.

This was not strange.

Many Gu Masters, when setting inheritances, would arrange them step by step, and leave behind clues after clues. If the fated ones had enough ability, they could inherit the whole inheritance. If their ability was not up to par, they could only receive a part of the benefits.

Central continent Gu Immortals should have obtained the preceding clues to this inheritance and should not have known the latter part of the secret phrase.

Otherwise, they definitely would not waste the chance of obtaining an Immortal Gu.

And what Fang Yuan accidentally obtained was only the latter part. Without the preceding clues, it became extremely incomprehensible. If not for Fang Yuan having the intel of Eighty-Eight True Yang Building and his previous life's memories, he would not have been able to comprehend it even if he was given ample time.

Chapter 562

Chapter 562: Reason for being cowardly and afraid of death?

Translator: ChibiGeneral Editor: ChibiGeneral

“Speaking of it, this central continent Gu Immortal is truly amazing, seeing through Eighty-Eight True Yang Building’s hole and also using such an idea. Clearly, they were also a refinement path master… no, to reach this step, they have to be at least a grandmaster in refinement path!”

“They actually left behind an Immortal Gu as an inheritance. This is truly an immortal treasure! They put the clue in fake grey-white stone slabs, such creativity and innovation was really amazing. I wonder what kind of successor they want to choose…”

The most crucial problem of the secret phrase was resolved, but even more questions popped out.

Fang Yuan shook his head and cleared up his disorganized thoughts.

“No matter what, this inheritance is related to an Immortal Gu, I need to give it a try with all my effort. Now, it should take over half a month at least to prepare the relevant Gu worms…”

Light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow — these four phrases might be simple, but Fang Yuan would not have been able to decipher them without his refinement path master attainment.

Based on Fang Yuan’s current comprehension, he needed over two hundred Gu worms to borrow the force of Eighty-Eight True Yang Building and refine the mysterious Immortal Gu; among them were twenty-eight rank four and rank five Gu worms.

And this number was only enough for one use.

Fang Yuan, in preparing the Gu refinement, would have to make at least three times the preparatory materials to prevent any errors during the Gu refinement process which could lead to failure. And in case he failed, he would require spare Gu worms.

Sixteen days later.

In the hall, Hei Lou Lan showed the demeanor of the ‘Black Tyrant’ to the fullest, shouting fiercely and wantonly venting out the anger in his heart.

The elders who were scolded and even beaten by Hei Lou Lan could not raise their heads and were quiet out of fear.

Ever since Hei Lou Lan entered Imperial Court blessed land, his temper had been getting increasingly violent. After Eighty-Eight True Yang Building opened, this change intensified and his temper became like a barrel of gunpowder, berating and beating his subordinates at the slightest pretext. As of today, there were already three Hei tribe elders who were heavily beaten by him and were still bedridden.

“Lord tribe leader, it is not us slacking in our duty, but this seventy-eighth round is truly too difficult. The golden-white tiger phantom guardian is too strong and has thirty percent of the desolate beast’s powers. With our mortal bodies, no matter how much we try, we can only harass it and have no way to harm it heavily. Moreover, if the golden-white tiger goes on the offense, our Gu Masters would not be able to resist it.”

Hei Pei, the head of the elders, waited for Hei Lou Lan to finish venting his anger, before cautiously speaking.

Hei Lou Lan glanced at him and cursed: “Your words are bullshit! Golden-white tiger phantom might have strong attacking prowess, but as long as we all unite and disregard the sacrifices, we can definitely defeat it before the time limit! You guys are all afraid of difficulties, tarnishing my Hei tribe’s reputation of bravery!”

The elders shrunk their heads after being scolded, not daring to say anything.

Hei Lou Lan's words were actually not without reason.

It was already not the first time in dealing with the golden-white tiger phantom.

If they truly disregarded sacrifices, and people were willing to be cannon fodder and fought to give others an opportunity, even at the cost of their own lives under the claws of the golden-white tiger phantom, then Hei tribe's offense, although powerless, would accumulate with time, and could be like groups of ants biting an elephant, eventually defeating the golden-white tiger phantom.

But the truth of the matter was when the golden-white tiger phantom attacked, everyone feared for their life and was afraid of going forward, causing Hei Lou Lan's advancement in Eighty-Eight True Yang Building to stop at this round, unable to progress any further.

Hei Lou Lan's shouts kept on resounding in the hall.

Right now, no one dared to antagonize this furious Black Tyrant who did not spare even his tribesmen.

After Hei Lou Lan vented his anger once more, he sat down on the main seat with a gloomy expression.

His heart was filled with pent-up fury, especially when he looked at these silent elders, he felt sick to his stomach.

Besides anger, he felt helplessness.

During the Imperial Court contest, these Hei tribe elders had fought bravely and had no fear. But in this place, they were worried for their safety, where did their courage go?

Actually, Hei Lou Lan understood.

During the Imperial Court contest, rewards and punishments were openly issued; people fought to be the first, competing for fame and fortune, to be stronger and to survive.

However, in Eighty-Eight True Yang Building, the rewards for passing the stages would go to the tribe leader which caused everyone to have very little incentive to charge through the rounds.

The most important reason was that they had already won the Imperial Court contest and there were no more threats to their survival, and there were also many inheritances outside the sacred palace. As long as they survived this period of time, they were bound to have an even more radiant future when they exited Imperial Court blessed land.

Only fools would do things like abandoning their lives and acting as cannon fodder to help someone else!

Hei tribe's elders were all extremely crafty.

Preserving their lives was most important, and besides that, so what if they were scolded and beaten by Hei Lou Lan? Even if Hei Lou Lan heavily injured them and they had to lie on the bed, it was nothing compared to dying.

Hei Lou Lan was aware of the elders' thoughts.

'Even if I am a rank five expert, I cannot control their will. Once there is no unity, it will not be easy to lead even if the tribe is stronger. Never mind…'

Hei Lou Lan sighed inwardly and spoke: "Since it is so, then I can only open up Eighty-Eight True Yang Building and gather everyone's strength to charge through the rounds."

Requesting outside help required guest tokens.

But right now, besides Hei tribe, there were also other Huang Jin tribes like Ye Lui tribe, Ma tribe and so on in Imperial Court blessed land.

One could imagine that once Hei Lou Lan opens up Eighty-Eight True Yang Building to them, these people would definitely charge forward madly. With this, they could be the cannon fodder.

After hearing Hei Lou Lan's words, the elders exchanged veiled communication with each other through their gazes. This method allowed them to stay away from the vanguard position, but they were somewhat unwilling.

The first elder Hei Pei stepped forward: “Lord tribe leader, this is a clever method but we need to keep up our guard. These people might have the old ancestor’s bloodline running through them, but they are not of our Hei tribe. When they pass the rounds and get the benefits, I am afraid they won’t hand over anything.”

“That’s right, lord.” Elder Hei Qi Sheng also added, “Our Hei tribe racked our brains and suffered great difficulties before we were able to emerge as the winner in this time’s Imperial Court contest. This Eighty-Eight True Yang Building is ours, why should we share it with outsiders?”

“There are precedents of such actions, but when looking at history, those were all weak tribes who won by fluke and did not have the ability to get through the stages, so they had no choice but to mobilize other Huang Jin tribes. Our Hei tribe is strong and has many competent experts, how can we seek other’s help?”

“Hmph!” Hei Lou Lan raised his brows, “Since our troops are strong, why are we not able to challenge even one golden-white tiger phantom? You group of dogshit trash, only cherishing your lives dearly, but when I want to bring in outsiders to stake their lives for us, you are afraid of them taking the benefits? Do you think there is such a good thing in this world?”

Different from these elders, Hei Lou Lan was already feeling very anxious.

He was the possessor of Great Strength True Martial physique and must obtain a strength path Immortal Gu to advance to Gu Immortal.

Only by becoming an immortal, could he alleviate this threat to his life.

However, whether Eighty-Eight True Yang Building had any strength path Immortal Gu or which floor the strength path Immortal Gu was on, both were unknown.

As such, he wholeheartedly wanted to break the conventions and bring in the situation where the Huang Jin tribes cooperate to get through the rounds. Each round he passed would allow the owner token with him to advance and make it more convenient to proceed onwards.

Although they were defeated repeatedly at this round, Hei Lou Lan thought of it as a good opportunity.

He took the chance to create difficulty and shouted once again.

His furious shouts resounded in the hall, causing everyone's ears to hear buzzing.

Due to Hei Lou Lan's might and terrifying reputation, the elders could only choose to compromise.

The first elder Hei Pei said with worry: "Opening Eighty-Eight True Yang Building to others is like letting in a torrent, once its momentum increases, it will definitely cause disastrous losses. I suggest we place some limits. Wolf King Chang Shan Yin was a lesson that is right before us."

These words immediately caused an intense commotion among the elders.

Someone said with a bitter tone: "Right, Wolf King is really a hoodlum, he is hogging the benefits all to himself. Right now, he is in closed-door cultivation, maybe inwardly laughing to himself!"

Someone scoffed with disdain: "Eighty-Eight True Yang Building belongs to Hei tribe, we let him participate to tackle the round because we thought highly of him. But he repays us like this, hmph, what dogshit northern plains hero, he is just an ungrateful thief!"

Someone said with a cold and gloomy gaze: "In my opinion, when we open up Eighty-Eight True Yang Building this time, we should not bring Chang Shan Yin in. This will teach him a lesson!"

Hei Lou Lan coldly snorted, he was naturally greatly dissatisfied with Fang Yuan's behavior. If it was someone else, he would have already taken action.

But Chang Shan Yin was not a measly character, his bearing in the decisive battle of the Imperial Court contest was still deeply engraved in Hei Lou Lan's mind.

If he said he was not afraid, he would be lying.

However, openly excluding Chang Shan Yin was not appropriate as well. Not only would that be a display of narrow-mindedness, in case Wolf King was offended, even if Chang Shan Yin did not make a move, he still had the azure wolf group.

“First elder Hei Pei, since you mentioned this, then let's hear it.” Hei Lou Lan spoke.

Hei Pei slightly smiled and said with confidence: “There is no problem in opening Eighty-Eight True Yang Building to the outside from tomorrow. But before entering the building, no matter who it is, they would need to pay a fee. There will only be a quota of eight hundred entrants every day and the fee for entrance will increase according to the order of the entrants. At the same time, they must use poison vow Gu and agree to give fifty percent of all their gains to Hei tribe.”

He paused before continuing: “As for outsiders that want to enter the tower, they need to pay a high price to purchase our guest tokens!”

Every elder present at the scene immediately had bright gazes as they praised this suggestion.

Hei Lou Lan swept over the scene once before leaning back on his chair, slowly closing his eyes: “Alright, this matter shall be done as Hei Pei says.”

Hei Pei was exulted: “Lord tribe leader is wise and powerful, thank you lord tribe leader for your appreciation.”

The news of Eighty-Eight True Yang Building opening to the outside spread and immediately caused a huge sensation in the sacred palace.

Countless people rushed to the place of registration; one side cursed Hei tribesmen for their ruthlessness in asking such a greatly high fee, while another side paid generously and even fought others for a quota to enter.

Fang Yuan observed indifferently, but he was inwardly happy.

Right now, inheriting Di Qiu inheritance was of the utmost priority to him.

Even if Hei Lou Lan took the initiative to invite him, he would not have been very willing. While the others had their attentions on Eighty-Eight True Yang Building now, it was the perfect time for him to make his move on the inheritance!

Chapter 563 - Nature of the Three Inheritances

Chapter 563: Nature of the Three Inheritances

Translator: ChibiGeneral Editor: ChibiGeneral

The night sky of Imperial Court blessed land was covered in silvery light, like silk or fog, it shone down on the land like a vast veil.

A group of azure wolves were running freely in the sky, chasing birds in the air or hunting animals on the ground. They were not hunting for food, it was merely leisure.

Fang Yuan stood above Di Qiu, slowly opening his eyes.

These days, not only did he prepare for the Gu refinement, he even expanded his wolf groups.

Not just the azure wolf group, the land based ordinary wolves, including turtleback wolf, water wolf, night wolf etc, had reached two hundred thousand in numbers.

“The wolf group has previously been spread around a radius of a hundred li, it can be a good method of deterrence. Moreover, the azure wolf group in the sky has already become the symbol of Wolf King, most Gu Masters would understand that Chang Shan Yin is hunting here when they see the wolves, thus they will choose to take a detour.”

If they did not detour, it meant that they had ill intentions.

Once these Gu Masters were discovered by the wolves, they would be attacked by them.

Of course, there were innocent people who entered by accident, but Fang Yuan could not care less about them, it is their bad luck if they get killed by wolves.

Fang Yuan turned his gaze towards the sacred palace, although he was far away, he could see the dazzling aurora in the sky.

The sacred palace was shining in bright light once again, it was a beautiful sight — and also the sign that Eighty-Eight True Yang Building was going to materialize the second floor.

This had another meaning in Fang Yuan's case.

The towers sink and countless wild Gu are sacrificed in order to become the mystical power that forms the Immortal Gu house.

This aurora was the accumulation of such power, and it had already reached the point of reaching a qualitative change.

In order to open Di Qiu inheritance, Fang Yuan needed to borrow the strength of this mystical power, and cause it to flow backwards.

"In order to get through the stages, Hei Lou Lan intentionally opened the Eighty-Eight True Yang Building to the public, causing everyone to get excited and all Gu Masters to feel moved. Once the news spread, all the Gu Masters outside the sacred palace came and gathered here. Everyone's attention is on the Eighty-Eight True Yang Building now, this is the perfect time for me to open the inheritance!"

Fang Yuan's gaze shone as he smiled, without hesitation, he struck.

"Go." He patted his belly, and thirty-six Gu worms flew out of his aperture.

These Gu were of peculiar shapes. Their bodies were tiny and were half the size of a fingernail, they were like five-pointed stars, giving off a milky white light.

These were rank one little light Gu, a very famous light path assistance type Gu.

As Fang Yuan willed, these little light Gu flew into Di Qiu's cave. At once, the darkness in the cave was lifted.

Fang Yuan summoned another thirteen light fences Gu.

This Gu was rank three, also from the light path. Once activated, they can turn into fences and restrain the target.

The light fences Gu flew into the cave and mixed with the little light Gu, but there were no changes.

Fang Yuan smiled lightly, he waved his hand and three rank five light path Gu came out.

These three Gu were lightning flash Gu that increased speed, unlimited spring light Gu that healed, as well as the attack type heaven blazing spark Gu.

Lightning flash Gu gave off a blue light, it shone like lightning as it flew into the cave.

The motionless Di Qiu finally had some changes.

As if a mechanism was unlocked, the ground and soil around Di Qiu started to expand and connect.

The blue lightning destroyed the little light Gu from before, and became a light-blue glow, having an extremely powerful aura.

But at the same time, the light fences Gu connected with each other and formed light fences that kept the blue lightning in.

The blue light was about to break out, but at this time unlimited spring light flew in and gave off an unlimited jade-green aurora, it was gentle as water, suppressing the blue light and forming a stalemate.

Eventually, the blazing heaven spark Gu flew in and turned into a bright red light, it pierced the green aura and the blue light, going deeper into the cave.

With some loud sounds, the cave entrance slowly closed. In the deep parts of the land, three lights were mixing together, engaging in a mysterious transformation that Fang Yuan could not describe.

Fang Yuan saw this and his heart settled, he knew that he was right. This was the “light in the soil” part of the quote.

Although he was eighty percent sure, he was worried about mistakes. After all, he only had the latter half of the inheritance’s clue, the first half was held in the hands of central continent Gu Immortals’ hands.

But this latter half described the method to open this inheritance.

Fang Yuan used his foundation as a refinement master, and together with Eighty-Eight True Yang Building’s information, he forcefully interpreted this code and gained the chance to snatch the inheritance midway.

About an hour later, the sounds from under the ground became softer.

But the ground became hotter, even though Fang Yuan was wearing northern plains’ deer leather shoes, it could not isolate this heat.

The hole in the ground slowly opened, as the light was gone, leaving pure darkness inside.

Fang Yuan saw this and he became elated.

After ‘light in the soil’, it was ‘shine up to a hundred thousand feet high’. If interpreted literally, it would be a huge mistake.

This quote was a test, to test the refinement ability of the Gu Master.

The quote was regarding refinement path, ‘shine up to a hundred thousand feet high’ was not just a description of the scenery, it also described the steps for the refinement process!

Fang Yuan was not flustered or worried, he threw two defensive rank five shine back spike Gu, three investigative type high observation Gu, one attack type ten thousand heart piercing arrow Gu, and nine assistance type nine feet flame Gu.

Only to see that inside the cave, grey-yellow smoke was rumbling but did not ooze out. The sounds of chirping birds or flying arrows, shrieking sounds that pierced the air came from within the smoke.

This scene lasted for seven minutes, until darkness returned again.

The ground closed again, as the cave vanished.

This time, Di Qiu no longer gave off heat, but instead cold air was seeping, causing Fang Yuan's legs to turn stiff from the cold.

Fang Yuan breathed out a sigh, turning his gaze towards the sacred palace.

"If my guess is correct, the sacred palace is going to become chaotic now…"

At this moment, in the sacred palace.

At a side hall, the secret door concealed by trees opened.

An elderly man with snow-white hair walked out with a middle aged Gu Master.

"Old sir, please take care." First elder Hei Pei brought Tai Bai Yun Sheng out from the secret door and patted his chest: "Don't worry, with me here, you are sure to have a guest token!"

Tai Bai Yun Sheng laughed: "Since elder Hei Pei is making a promise, I am sure it will succeed. Of course I am assured, you do not have to send me off, goodbye."

"Goodbye." First elder Hei Pei placed his fist by his chest as he bowed, seeing Tai Bai Yun Sheng turn around the corner and vanishing from his vision under the concealment of the trees.

"The allure of an Immortal Venerable inheritance is really huge, to think that even Tai Bai Yun Sheng came to bribe me." Hei Pei sighed.

Ever since Hei Lou Lan opened up the Eighty-Eight True Yang Building, elder Hei Pei who was in charge of this matter became extremely popular. Every day, all sorts of people came to visit him in secret, some used their relationships while others talked about and tried to obtain friendship, there were people who bribed him and people who tried to attract him sexually.

But Tai Bai Yun Sheng's visit was a shock to Hei Pei.

Tai Bai Yun Sheng had a huge reputation, he was the number one healer in northern plains, he saved countless people and was an extremely righteous man with great character, his influence was great.

Hei Pei had not expected Tai Bai Yun Sheng to bribe him of all people.

"In the end, Old Sir Tai Bai is still a mortal. There are only so many guest tokens, if it was me, I would not be able to resist it either." Hei Pei laughed, raising his head subconsciously towards the top of the sacred palace.

There, an aurora of dazzling lights had condensed into a thick fog.

Within the thick fog, the second layer of the Eighty-Eight True Yang Building was already visible.

"In no time, the second layer will materialize." Not far away, Tai Bai Yun Sheng raised his head and looked.

The colorful aurora shone on his white hair and his wrinkled face.

Tai Bai Yun Sheng was in a daze, an event deep within his memories resurfaced.

That day, the sunset was bright like a fire, burning in the sky.

This was the fourteen year old Tai Bai Yun Sheng, who had just met the old beggar who changed his life forever.

"Young lad, you gave me a bowl of water, you saved this old beggar's life. What do you want, say it, I will try my best to fulfill your wishes!" The old beggar had messy purple-red hair, he was slightly insane at times, while unconscious sometimes. But when he was awake, his gaze was deep as the ocean, he gave off a disposition that could be etched into a person's memories.

“I want to be a Gu Master!” The young Tai Bai Yun Sheng said.

“What kind of Gu Master do you want to be? Hehehe, I have three complete inheritances! The first can allow you to bathe in flames and step on fire, surpassing mortals. The second can allow you to control wind and the air, roaming the world freely. The third can surpass life and death, allowing you to help the people in the world.” The old beggar laughed and his rotten yellow teeth were exposed.

The young Tai Bai Yun Sheng frowned and thought about it, before choosing the third inheritance…

As he snapped out of his daze, returning from the trip to his memory lane, Tai Bai Yun Sheng laughed bitterly, muttering: “In the end, I am a person that is afraid of dying.”

When he was young, he did not have such feelings, in fact, he became indifferent after witnessing many situations of death.

When Tai Bai Yun Sheng got old, his healthy body slowly became weak and feeble, he started reminiscing about the times in his youth.

Often, people’s thoughts changed with their circumstances.

On Earth, one could not surpass the limits of life and death, they had no choice but to accept it. But here, as long as there was a trace of hope, they would struggle and fight!

Only when he was faced with such a situation, when Tai Bai Yun Sheng became closer and closer to death did he become aware of this great terror!

Because of this, he secretly observed and waited for several rounds, before clearly understanding the situation, deciding to participate in this Imperial Court contest and enter Imperial Court blessed land.

“If I can obtain lifespan Gu from Eighty-Eight True Yang Building, I would be able to increase my lifespan. Although lifespan Gu is hard to find, and even harder to buy or sell, I’m sure there are some inside Eighty-Eight True Yang Building. If in the end, I cannot obtain a lifespan Gu, I can only attempt to ascend to Gu Immortal realm.” Tai Bai Yun Sheng evaluated in his heart.

The inheritance the old beggar gave him was outstanding, it was an entire inheritance that allowed one to cultivate all the way to rank six Gu Immortal realm!

The inheritance stated very clearly the method for a mortal to ascend to Gu Immortal realm.

Thus, Tai Bai Yun Sheng was very clear of the risks he had to take to reach Gu Immortal realm.

To advance to Gu Immortal realm, one needed to gather and fuse the elements of heaven, earth, and man. If either of the three aspects were insufficient, they would die and their soul would dissipate.

If he was not desperate, Tai Bai Yun Sheng did not want to ascend to Gu Immortal realm. That was because even if he ascended to Gu Immortal realm, it could not raise his lifespan.

But in Tai Bai Yun Sheng's inheritance, there was hope left for him.

But this hope was very difficult to obtain, he needed to succeed in advancing to Gu Immortal realm for there to be a possibility.

These years, Tai Bai Yun Sheng had been searching for lifespan Gu, but lifespan Gu were created from heaven and earth, they could not be located easily and were hard to catch, Tai Bai Yun Sheng made no progress.

"There should be lifespan Gu inside Eighty-Eight True Yang Building, I can definitely find lifespan Gu there!" Tai Bai Yun Sheng looked at Eighty-Eight True Yang Building's figure as he cheered for himself secretly.

But the next moment, his pupils expanded as he saw an unbelievable scene!

Chapter 564

Chapter 564: Heavenly Power backflow shocks the Sacred Palace

Translator: ChibiGeneral **Editor:** ChibiGeneral

The whole sacred palace fell into shock and fear.

After a while, a large commotion suddenly rose up.

“This… what the hell is going on?!”

“What happened, why is the aurora shrinking?”

A scene that had never occurred before was happening in everyone’s sights.

The second floor that had been gradually condensing into form was slowly becoming fainter. Great amounts of the thick aurora were reducing and becoming lighter at a visible speed.

“What happened?!” Hei Lou Lan’s brows furrowed into a knot as he grabbed elder Hei Pei’s collar with his thick arm and pulled towards him.

His expression was twisted and his eyes opened with fury as he shouted: “Investigate it! I must know what the hell happened!”

Hei Lou Lan possessed one of the ten extreme physiques – great strength true martial physique. Only by becoming an immortal, could he avoid the pressure of death.

However, for ten extreme physiques to become immortal, they required the help of relevant Immortal Gu.

Hei Lou Lan placed his hopes on Eighty-Eight True Yang Building to find the key to become immortal — a strength path Immortal Gu, so how could he let an accident happen to Eighty-Eight True Yang Building?

Elder Hei Pei's body shivered in fright, Hei Lou Lan asked him to investigate the details, but he was only a mortal, how could he investigate it? What could he investigate? In a sobbing tone, he answered: "This… this subordinate does not know, there were no instances of this happening in historical records…"

"It is getting lighter, it is becoming even more light!" Someone shouted while pointing at Eighty-Eight True Yang Building.

The aurora became smaller, and the thick light, dimmer.

Many Gu Masters looked up in a daze, panic quickly spreading everywhere.

"Is Eighty-Eight True Yang Building damaged?"

"This is something our Immortal Venerable old ancestor personally arranged."

"Could it be that Eighty-Eight True Yang Building also cannot compete against the flow of the river of time?"

Some had pale expressions while even more covered their heads, their gaze filled with fear.

"They are in chaos." From far away, Fang Yuan looked with an eerie gaze and a cold smile on his face.

Even if he was far away, the panicked shouts in the sacred palace still reached his ears.

The culprit behind this terror glanced at the sacred palace before looking down at Di Qiu cave below.

His gaze shone with a strange light as he praised: “Amazing, truly amazing!”

Fang Yuan had originally estimated that only ten percent at most would be absorbed, but he had never thought when he activated the mechanism, the backflow of the heavenly power would surpass his estimation!

Based on just this, Fang Yuan could tell this Gu Immortal’s understanding of Eighty-Eight True Yang Building was absolutely not beneath his.

“Who is this mysterious Gu Immortal? What identity do they have? I had a fortuitous encounter, the advantage of rebirth and also the first hand information from Lang Ya land spirit. But how was he or she able to have such a deep understanding of Eighty-Eight True Yang Building?”

Right now, the cave was filled to the brim with light, almost to the point of overflowing, but it was firmly restrained by the layer of black light at the entrance.

The aurora surged freely; the intense light that was brewing inside was becoming more and more vigorous.

Crack…

Cracks started appearing on the first floor of Eighty-Eight True Yang Building.

Hei Pei and the other elders went pale as they looked at this scene in a daze.

As for the other Gu Masters at the lower floors of the sacred palace, many were already kneeling on the ground, kowtowing non-stop.

Some shouted, some wept and some begged —

“Don’t collapse, don’t collapse!”

“Old ancestor, what mistake did we commit, why are you punishing us like this?”

"We beg old ancestor to show mercy, please give another chance to us unfilial descendants!"

All these voices entered Hei Lou Lan's ears as he stared at the first floor of Eighty-Eight True Yang Building rigidly.

The cracks were continuously spreading on the first floor.

Even if Hei Lou Lan was a rank five Gu Master with an extreme physique, an existence at the peak of mortals, right now he was feeling bewilderment, helplessness, hesitation and weakness!

"No, this can't go on! I cannot allow this to happen!!" Hei Lou Lan shouted in fury, his expression malevolent and his gaze filled with hot fury.

'I have yet to avenge mother! My vengeance! My strength path Immortal Gu!' He screamed in his heart.

Rumble.

A soft sound was heard, but the earth shook!

Eighty-Eight True Yang Building's first floor, which was completely condensed, collapsed completely and turned back into the free aurora light.

The light was like a flood that had broken the dam as it gushed out and spread rapidly; in just a few breaths of time, it enshrouded the whole sacred palace and dyed the horizons.

Puff!

Hei Lou Lan's gaze lost its focus as suffocation filled his stomach, he involuntarily spurted out stagnated blood that had flowed in reverse towards his throat.

"No! I won't allow this! Form back right now! Come back!" He opened up his palms and tried to grab the aurora.

And as if it was responding to his effort, the aurora that were gushing out gradually reduced and the surrounding lights also started falling

back.

Hei Lou Lan's gaze flashed, a spark of hope had just ignited in him, but was completely gone the next moment.

The aurora light might have gathered back together, but it did not condense back to the image of the first floor. The light continue to reduce as if a giant incorporeal beast was swallowing it.

"No, don't..." Far away, Tai Bai Yun Sheng mumbled, his expression becoming spiritless.

"Do the heavens want my Hei tribe dead?" First elder Hei Pei clutched his hair.

A problem occurred in Eighty-Eight True Yang Building in Hei tribe's hands, this meant Hei tribe was completely finished. Other super forces and Huang Jin tribes would not let them go.

"Heavens, what happened? Eighty-Eight True Yang Building is actually..." Ye Lui Sang grabbed his chest in fear. Near his heart resided the fire path Immortal Gu which was lent by Ye Lui tribe's Supreme Elder Ye Lui Lai before the Imperial Court contest. Right now, this fire path Immortal Gu was trembling non-stop.

Almost at the same time, Fang Yuan's expression also had a slight change.

In his aperture, Spring Autumn Cicada revealed its true body, trembling continuously and was emitting its Immortal Gu aura, causing his rank five aperture to creak from the pressure.

"This is the resonance of the Great Dao in heaven and earth." Fang Yuan was well aware of this.

Man was the spirit of all living beings, Gu was the essence of heaven and earth, a vessel of the Great Dao. If a mortal Gu was said to hold only a tiny fragment of the law of heaven and earth, then an Immortal Gu would hold a corner of the Great Dao, an intact piece of the rules of heaven and earth.

Because of this, there could only be one Immortal Gu of its kind.

Every time an Immortal Gu was born, other Immortal Gu in the surroundings would tremble and respond.

The more closely related or conflicting the law inside Gu worms' bodies are, the stronger the resonance between them, and the greater the extent they would tremble.

"From the extent of Spring Autumn Cicada's trembling, this Immortal Gu that is about to be born is not of the time path." Fang Yuan estimated, but his gaze was tightly looking at the cave without the least bit of negligence.

Inside the cave, the aurora from Eighty-Eight True Yang Building was continuously being absorbed before fading away as it nurtured the intense light within.

This intense light was becoming more and more flourishing; the black membrane at the entrance was starting to show signs of not being able to restrain it.

"That'll do. If I don't make a move now, the black membrane will burst and the aurora will shoot to the sky and expose me. It is still a small matter if Hei Lou Lan and the rest are the ones that discover me, but in case it awakens Eighty-Eight True Yang Building's hibernating will, then it will just take one thought from the Immortal Venerable's will to turn me into ashes."

Fang Yuan had endured the impulse to make a move several times before, and now the timing was fully ripe, he made his move, throwing in large numbers of Gu worms.

Gu worms from rank one to rank five from all paths sprinkled down like rain.

This situation looked disorderly and complex, but it actually had a special profoundness to it. The Gu worms were not only divided into separate groups, they even had particularly specific distances from each other, to the extent that some Gu worms fell slightly slower while some fell faster.

This was a high grade technique of Gu refinement called the sprinkler. Gu Masters with natural talent and aptitude could master enslavement path and flying skills. But even the Gu Masters with higher natural talent required thousands of tries before they could display a decent use of the sprinkler technique.

Fang Yuan's attainment in this technique was beyond the level of just a decent performance, and was enough to make other refinement path masters exclaim in surprise.

After the Gu worms sprinkled down, the aurora slowly changed color into that of blue water or the sky, before becoming still.

In the blue light, countless white lights flew like birds and swam like fish. Specks of white light would occasionally gather into a heap and from time to time scatter like stars. Just glancing at this for a moment caused Fang Yuan to feel dizzy.

He quickly moved his gaze towards the sacred palace.

The clamors in the sacred palace had already decreased. After the aurora light enshrouding the sacred palace decreased by around half, the speed of its reduction slowed.

Seeing that no one was paying attention here and the scattered wolf groups were also not sending any battle signals, Fang Yuan inwardly breathed a sigh of relief.

"Everything is going smoothly, it should be the final step now." He was extremely cautious and did not even have the slightest intent of being conceited, instead he was even more vigilant.

Whether it was the history of this world or on Earth, how many cases were there of people failing at the last hurdle?

Moreover, this final step would create a huge commotion and was the step where a problem was most likely to appear.

Fang Yuan slightly flicked his wrist and and a smelly fart Gu that he had been holding lightly flew into the cave.

Immediately a *peculiar fragrance* spread out of the cave.

The *peculiar fragrance* flew even without wind, soon spreading out.

“Stopped, it has stopped!” After a while of shock and fear, the Gu Masters in the sacred palace became wild with joy.

“Lord, the aurora has stopped reducing and has begun to slowly increase again!” A Hei tribe elder shouted excitedly, and was kicked by Hei Lou Lan.

“I can see that!” Hei Lou Lan kicked the elder to the ground, his gaze was ruthless but the deep voice could not conceal his joy.

However, his heart was extremely nervous.

The reduction of Eighty-Eight True Yang Building’s aurora and even the collapse of the floor had never happened before.

What had happened?

Hei Lou Lan’s mind was filled with doubts.

He did not know why there was a problem, it caused him to worry greatly. What made Hei Lou Lan even more helpless and indignant was that Eighty-Eight True Yang Building was the work of an Immortal Venerable —”even if I knew where the problem was, I probably would not be able to solve it with just my ability…”

If he was to know that it was all caused by Fang Yuan single-handedly, then he would probably risk his life and tear off the seal placed on him by Immortal Gu Dark Limit, to pit his life against Fang Yuan.

Chapter 565 - Everyone with their own intentions

Chapter 565: Everyone with their own intentions

Translator: ChibiGeneral Editor: ChibiGeneral

Eighty-Eight True Yang Building's shocking change was a traumatic experience for everyone in the sacred palace, countless people were worried, scared and helpless.

Fortunately, the situation stabilized not long after Eighty-Eight True Yang Building's first floor collapsed.

The aurora no longer reduced and was instead beginning to increase again.

Maybe because it was provoked, the speed of this aurora's increase was somewhat faster than before.

Several days later, the thick as water aurora condensed back to the first floor of Eighty-Eight True Yang Building.

After it had completely formed, Hei Lou Lan and the others immediately entered it anxiously. Their entry to Eighty-Eight True Yang Building proceeded smoothly.

This made Hei Lou Lan greatly relieved and he gradually calmed down.

Eighty-Eight True Yang Building was extremely significant to him, he needed to become a Gu Immortal to avenge his mother. As the possessor of one of the ten extreme physiques, Great Strength True Martial physique, his only hope of becoming an immortal was to obtain a strength path Immortal Gu from Eighty-Eight True Yang

Building.

This was depicted in < >.

For humans to live, it was okay if they did not have strength or even wisdom, but they could not lose hope.

Hei Lou Lan regained the hope of saving his life, his mood gradually turned better as he started to plan his next breakthrough of the hundred rounds.

The first floor of Eighty-Eight True Yang Building had formed anew, so the checkpoints had reset, making Hei Lou Lan's previous efforts turn into smoke; he needed to overcome everything again.

To Hei Pei and the other elders, this was a very good thing.

"This is joy after extreme sorrow, going through the rounds again will allow us to get even more rewards!"

"Maybe that was a small joke by old ancestor Immortal Venerable…"

"Every floor in Eighty-Eight True Yang Building has a hundred rounds with the difficulty increasing sharply at the later rounds. Looking at history, there were very few Imperial Court winners who were able to cross through every round, we should not be optimistic in being able to overcome the final round. As long as we can put all our efforts in passing the earlier rounds, our tribe's strength will rise greatly!"

The elders were filled with joy, but this was bad news to Hei Lou Lan.

There were only two ways for him to obtain a strength path Immortal Gu from Eighty-Eight True Yang Building.

First was to get a high grade evaluation and enter the treasure room, then use his bloodline identity to exchange for the Immortal Gu inside.

Second was to pass the final round of every floor which could give him the chance to obtain an Immortal Gu.

To Hei Lou Lan, the first method required him to bring out an equivalently valuable treasure to exchange, and thus was not practical. The only probability of success was in the second method.

Passing through the last few rounds would be extremely difficult. The rounds were reset now; they would have to overcome these rounds again, which no doubt would waste his precious time.

Time waits for no man, once their time was up, they would be sent out of Imperial Court blessed land. If he could not get a strength path Immortal Gu before this happens, Hei Lou Lan would not only be unable to take revenge, but would also have to welcome his death.

For this reason, Hei Lou Lan stubbornly maintained his stance in spite of others' wishes and started recruiting other tribes' Gu Masters, completely opening up Eighty-Eight True Yang Building.

Everyone could casually enter or exit Eighty-Eight True Yang Building free of charge. Other than Hei tribe elders, everyone in the sacred palace was celebrating in joy.

"Hei Lou Lan has a grand demeanour, doing something that no other Lords of Imperial Court have done before. I, Ye Lui Sang, am in deep admiration!" Ye Lui Sang was the first to enter Eighty-Eight True Yang Building, his face covered in a joyful glow.

He was the current tribe leader of Ye Lui tribe and had been a popular candidate to win the prior Imperial Court contest; the tribe's Gu Immortals supported him greatly, not even stinting on lending a fire path Immortal Gu to him.

But he lost in the end and to preserve the fire path Immortal Gu, he had no choice but to side with Hei Lou Lan.

They finally won and succeeded in entering Imperial Court blessed land, but as one of the super forces, he felt that it was a disgrace to be a subordinate of Hei tribe. He was sure to be treated coldly, abandoned and even punished when he returned to the tribe.

"If I can have good gains in Eighty-Eight True Yang Building, then I can make up for the earlier mistakes and return grandly to the tribe!"

Ye Lui Sang's emotions surged.

"Chang Shan Yin, don't be proud of yourself. As long as you don't become an immortal, I will have a chance. Eighty-Eight True Yang Building is my cornerstone to rise up!" Chang Biao had a cold look in his eyes. He was also among the first batch of experts to enter the tower.

He was not moving alone and had a companion beside him.

It was Sole Blade General Pan Ping.

Previously at Xing Jiu mountain peak, Pan Ping's opportunity had been openly seized by Fang Yuan, which created a lot of indignance in his heart.

Chang Biao learned of this situation and intentionally approached Pan Ping; the two hit it off, becoming partners.

"Go, go, become the vanguards to open my path, use your lives to broaden my way." Hei Lou Lan sneered inwardly, using his owner token while calmly looking at the grand flow of people entering the tower.

After the flow of people had gradually become sparse, Tai Bai Yun Sheng ,with his simple and aged appearance, tall and sturdy physique, clothed in a white robe, he appeared at the top floor of the sacred palace.

"Old Sir Tai Bai." Hei Lou Lan greeted him.

"Lord tribe leader has astonishing mettle, this old man is overwhelmed." Tai Bai Yun Sheng exclaimed in admiration.

He had an elegant demeanour and leisurely attitude. Since everyone could casually enter and exit now, they were not restricted by the quota. He also did not anxiously enter the tower immediately since the rounds which might give lifespan Gu as the reward would definitely be the later rounds.

The two exchanged a few words before Tai Bai Yun Sheng entered the tower.

“There is strength in numbers.” Hei Lou Lan was feeling overwhelmed in his mind.

From the information sent by the owner token; in just a short period of time, because of the enormous quantity of Gu Masters, they had successively gotten through the first thirty rounds.

However, at the fortieth round and above, just numbers would not work, they required specific Gu Master experts to cross those rounds.

Pan Ping, Chang Biao, Ye Lui Sang and Tai Bai Yun Sheng made their moves one after another, and were able to push to the fifty-third round. But here, their momentum came to a stop, they encountered a problem; they needed an enslavement path master to pass this round.

“Looks like we must have Wolf King to pass this round.” Tai Bai Yun Sheng muttered while stroking his snow-white beard.

In this Imperial Court contest, Fang Yuan’s performance left behind an extremely deep impression on everyone. The glorious title of the number one enslavement path Gu Master of this generation in northern plains was already given to him.

Thus, as they encountered this problem, everyone’s first thought was Fang Yuan.

“Strange, why don’t I see Chang Shan Yin?” Ye Lui Sang looked around him, but could not find Chang Shan Yin.

“Wolf King has been taking his wolves out for hunting these few days.” Soon, someone replied.

“Chang Shan Yin is indeed an extraordinary person, we can casually enter and exit Eighty-Eight True Yang Building, but his heart is actually not moved!” Sighs and admiration could be heard among the group.

Pan Ping snorted, speaking in a gloomy tone: “Everyone, please don’t forget that our Lord Wolf King has already entered the tower before. According to a reliable source, he passed with high grade evaluation. After he exited the tower, he immediately went to closed-door cultivation and even refused many invitations from tribe leader Hei

Lou Lan."

The crowd here knew of the conflict between him and Fang Yuan, and as no one wished to offend this uprising Sole Blade General, the praises and admiration towards Fang Yuan immediately stopped.

Everyone sank into a momentary silence.

Many Gu Master experts also had a slight change in expressions as they showed a somewhat unexpected look on their face.

Pan Ping had a sinister motive in mentioning Fang Yuan had obtained a huge benefit before, leaving it to everyone's ample imagination as to what reward it was, and with this, succeeded in inciting jealousy in their hearts.

If it was before when these people did not have any experience of the enormous benefits provided by Eighty-Eight True Yang Building, it would have been slightly better. But now that they had experienced it as they passed the rounds, the fire of envy was lit up in the depths of their hearts!

At this moment, a young Gu Master's voice broke the silence: "Since Eighty-Eight True Yang Building is opened for everyone, everyone can obtain benefits. Lord father being able to obtain the benefits was due to his own ability!"

The crowd's gazes quickly moved towards the source and discovered it was none other than Chang Shan Yin's own son — Chang Ji You.

Immediately, Pan Ping's expression turned sharp as he viciously gazed at Chang Ji You.

Although Chang Ji You was somewhat weaker than Pan Ping, his heart was filled with reverence towards his father, so he did not back down and instead returned Pan Ping's gaze with his own furious gaze.

Killing intent surged in Pan Ping's mind, but he did not dare to make a move. He was unexpected put on the spot by Chang Ji You, a junior!

The person with the most complicated feelings right now was Chang Biao.

He was Chang Ji You's own blood father, but right now, he had to look on at his own son defending his greatest enemy.

Grievance and hatred were surging up non-stop in his heart!

"Cough cough." Tai Bai Yun Sheng stood up to alleviate the tension, "Everyone, let's concentrate on this round."

"At this point, we can only request Lord Wolf King's assistance."

"Among us, Old Sir Tai Bai has the highest reputation; as long as you personally send a letter, Wolf King will definitely accept the request."

The Gu Masters spoke one after another, but Chang Biao and Pan Ping glanced at each other, their hearts filled with worry.

If Wolf King comes, he was sure to pass this round.

But with this, not speaking of the rewards he would get from passing the round, his prestige would increase even more. This was a situation these two were not willing to see.

Pan Ping wanted to speak up but hesitated.

He had the mind to prevent this, but it was not easy getting a chance to interrupt Tai Bai Yun Sheng and make him back down. If Chang Ji You again interrupted here, his face might be lost completely!

Chang Biao was secretly observing Pan Ping's expression and saw Pan Ping opening his mouth several times but did not manage to speak in the end. He inwardly cursed Pan Ping for being a coward, then looked around and signalled a planted agent among the crowd.

This planted agent immediately comprehended the signal and shouted out: "In my opinion, Lord Wolf King is occupied with important matters, it probably won't be easy to invite him. Why don't we request Lord Tang Miao Ming instead? Her enslavement path attainment is already very close to master realm."

Tai Bai Yun Sheng’s thoughts could not help being shaken.

He did not have much interaction with Fang Yuan, but he knew deeply of the latter’s ‘arrogance’. Instead of taking the risk of facing embarrassment from being refused, it might truly be better to let Tang Miao Ming try first.

Flap flap flap....

Groups after groups of blissful snow bats flew from all around like rivers converging into the sea, as they flew towards Di Qiu cave.

The peculiar fragrance had spread for a hundred li.

It was this rich fragrance that had attracted the blissful snow bat groups.

At this stage, the Gu refinement was already approaching the end.

“This is using the lives of beasts as sacrifices, it is a wonderful method that is similar to the workings of Eighty-Eight True Yang Building. It is just that in case of Eighty-Eight True Yang Building, the small towers sacrifice the wild Gu to combine their strength.”

As he personally put it into practice, Fang Yuan gained an even more profound understanding of this Gu refinement.

The peculiar fragrance gradually dissipated, and without its temptation, the small number of remaining blissful snow bats flew away in disorder.

“It is about to finish!” Fang Yuan’s breathing turned rough and his gaze staring at the cave fixatedly, unable to conceal his excited expression.

Chapter 566 - Water Pavilion, Resolving the Mystery

Chapter 566: Water Pavilion, Resolving the Mystery

Translator: ChibiGeneral Editor: ChibiGeneral

By this point, Fang Yuan was overwhelmed with awe.

This mysterious Gu Immortal who created Di Qiu inheritance was definitely a grandmaster in terms of refinement attainment. The entire process was using Eighty-Eight True Yang Building's heavenly power, it was innovative and daring.

Although Fang Yuan was the executor, his role was really that of an assistant.

Refining Gu was hard, refining an Immortal Gu was even harder, it was harder than ascending to heaven!

For a comparable example, a rock has been pushed onto the peak of a cliff by a mysterious Gu Immortal. Fang Yuan is only giving it a final push, easily sending this rock flying towards the ground and crashing, that would be success.

Swish swish swish…

The cave had already formed into a black water spiral. The spiral continued to spin, letting out a weird noise.

Soon after, the tower's tip appeared, followed by its body and base. From within the spiral, a brand new small tower appeared with seemingly countless Gu worms inside.

"Incredible! With the appearance of this tower, the final loophole is gone. Even if someone comes here due to the commotion, they would not find anything.” Fang Yuan praised as he sighed.

But…

Although the tower was formed, why has the Immortal Gu not appeared yet?

Fang Yuan’s gaze focused, he found that in the small tower, there was a strong light that flickered. There was a weak feeling of connection with it in his heart.

He instantly understood that this was the early stage of the Immortal Gu.

He was about to use this connection to lure the Immortal Gu out.

When suddenly, this strong light escaped like an intangible shadow, towards the southeast direction.

“What happened?” Fang Yuan was shocked in his heart. By now, the four steps of “light in the soil, shine up to a hundred thousand feet high, swimming in the sky for a hundred li, praising plum fragrant snow” had been completed, Fang Yuan did not know what was going on with this sudden change.

“Hei Lou Lan opened up the Eighty-Eight True Yang Building after it formed once more, it was truly a huge move. According to logic, I should be heading to the building to challenge it, that is what a normal person would do…”

The early stage Immortal Gu had flown to a far away place, as Fang Yuan looked at the sacred palace hesitantly.

Although he was outside, he had already made preparations. Be it Chang tribe or Ge tribe, they were sending him real-time information.

The longer Fang Yuan was away from the sacred palace, the more suspicion he would attract. If they were stuck at a stage and needed the Wolf King’s power, some people might come to find him and…

It took time for information to be transmitted.

Fang Yuan had no idea that his enemy Chang Biao helped him indirectly.

At this moment, Tang Miao Ming took great risks and was able to successfully pass the round, causing a huge wave of cheering inside the building.

The Immortal Gu was still the most important matter, Fang Yuan only hesitated for a moment before making up his mind, spreading his wings and chasing after the strong light.

This strong light was like a cocoon, it travelled along the ground at an absurd speed. Because of the trees and bushes shielding it from sight, no one took notice of it.

Fang Yuan chased it in the air, trying to hide his traces as he abandoned the wolves behind, travelling stealthily.

As time passed, this strong light became dimmer, but its speed rose.

Although he was rank five peak stage, his speed was not at the peak of the mortal realm, it was very tough chasing the Gu, but he did not lose sight of it.

In the end, it was because this early stage Immortal Gu was not created solely by Fang Yuan.

Different from when he refined divine travel Gu, Fang Yuan was only an assistant this time, it was all due to the backflow of Eighty-Eight True Yang Building's heavenly power. He was a mortal, it was already a huge achievement from much effort to be able to gain a connection to the Immortal Gu.

The strong light entered a valley and flew into a waterfall, vanishing.

But using the connection, Fang Yuan could sense that the early stage Immortal Gu was still.

Fang Yuan penetrated the waterfall but collided on the smooth and wet mountain rock. At once, rocks crumbled as water splashed all over the place.

“Weird!”

Fang Yuan was confused, the connection in his heart told him that the strong light was inside this water, but he diverted the water flow and even destroyed this waterfall, and yet he could not find a trace of this Immortal Gu.

“Was my effort in vain? No, there is a huge trick here!”

He flew up and observed the terrain.

This small waterfall had already become a pool, it was extremely ordinary. The valley was nameless, it was not a unique location.

Fang Yuan placed his sights on this pool.

The connection in his heart told him that the early stage Immortal Gu was inside, but even if he went through the waterfall, or controlled the water flow, he could not find it.

At this time, the Gu master’s investigative Gu worms would be tested.

Fang Yuan was obviously unresigned, he tried many investigative methods. Although he did not excel in investigation, he controlled Hu Immortal blessed land and had access to treasure yellow heaven, he did not lack rank five mortal Gu.

Only when he tried the fifty-seventh method, after a considerable expense in immortal essence stones did he have a discovery.

Only to see that in the pool, there was the silhouette of a pavilion, it looked like the reflection of the moon in the water.

He entered the water, but did not enter the pavilion.

After trying for several times without success, Fang Yuan gasped, he finally recognised this pavilion after a flash of inspiration struck him.

“Is this the long lost Immortal Gu house — Water Pavilion?”

Immortal Gu were unique, so were Immortal Gu houses.

This Water Pavilion was inferior to Eighty-Eight True Yang Building, it was only rank seven. But it had a great reputation, it was the signature method of the Gu Immortal Shui Ni.

Shui Ni was a rank eight Gu Immortal, the legend that created the water path. She was also the creator of one of the top ten sects in central continent, Spirit Affinity House.

In contrast to the grandness of Eighty-Eight True Yang Building, Water Pavilion could hide itself in the water, becoming like an illusion, it was very mystical. It could move with currents or hide inside mist and fog, flying in the sky. It could even hide in a corner of an iceberg, becoming undetectable.

Without the token to enter the pavilion, Water Pavilion could even repel rank eight Gu Immortals.

But right now, this pavilion was ownerless, its doors were open. Fang Yuan was kept in the dark earlier, but now that he found out the truth, he had the method to enter.

“To enter Water Pavilion, I have to become water. There is a killer move called water spirit transformation, together with a few Gu, I can turn into a water spirit, my battle strength would surge and I would have terrain advantage.”

Fang Yuan searched through his memories and found a method.

But in the end, Hu Immortal land spirit bought a rank five current charge Gu for him in treasure yellow heaven.

This Gu could allow a Gu Master to turn into a water current temporarily and charge for a distance. But it was already outdated in the Gu world, that was because when the Gu Master transforms into a current, he might suffer heavy injuries or even die when hit by a fire path Gu worm.

But Fang Yuan was not using this Gu to battle, it was to enter Water Pavilion, it was more convenient than using the killer move to transform into a water spirit.

With a ‘swoosh’, Fang Yuan turned into a current and rushed towards

Water Pavilion.

The pavilion was neither big nor small, it had three layers. It had a rustic flare to it, as the materials used were very ancient, having furniture and drawings.

Once Fang Yuan entered, he kept the current charge Gu and went to the third floor, pushing open a door to find the early stage Immortal Gu.

Only to see that this early stage Immortal Gu was like a thumb-sized cocoon. It was inside a large red bowl at the moment.

This bowl was larger than a water tank, the edges were uneven, looking like a shark’s teeth.

Inside, there was some blue liquid that was oozing with coldness.

“So that’s it.”

Fang Yuan realized at once.

Although the four steps allowed the refinement of the early stage of the Immortal Gu, the Gu was still not complete.

It needed to further nurture and grow.

The mysterious Gu Immortal placed the Water Pavilion here in order to give the early stage Immortal Gu a good place to nurture itself.

There were some words on the large red bowl.

Fang Yuan looked at them and even with his knowledge, he could only decipher a portion of them.

“These are inkman characters, legend says that the splashes of literature water on Book Mountain in Qian Kun Crystal Wall created the first written characters in this world!”

These characters had been lost long ago. Even inkmen barely knew them after being chased out of Book Mountain.

"The Gu Immortals in treasure yellow heaven must have some research materials regarding the inkman language. After all, many Gu Immortals are interested in Book Mountain, they have been searching for the grey-white stone slab in order to recreate Qian Kun Crystal Wall."

Fang Yuan had a thought and immediately contacted little Hu Immortal.

The value of Hu Immortal blessed land was displayed again, it allowed a mortal like Fang Yuan to use the precious resource of mobilizing Gu Immortals.

The price was hefty, but after exchanging for some information regarding inkman language, Fang Yuan deciphered the words on this bowl on the spot.

The result made Fang Yuan become shocked and excited: "So this inheritance was created by Mo Yao!"

This Mo Yao was a brilliant person, the thirty-sixth generation fairy of Spirit Affinity House. She had a special identity, she was an inkman.

But eventually, she broke the limits of her race, and became a rank seven Gu Immortal.

She made tremendous contributions to the righteous path, and used her love to reform a huge demonic character ten thousand years ago, Sword Demon Bo Qing.

Bo Qing was a lone cultivator, he had a lowly start but his talent was superb, he created sword path Gu worms singlehandedly, and roamed the five regions without any obstruction or anyone that could match him.

He was among the most brilliant rank eight peak stage experts in history. He had great battle strength that shook the heavens, his sword path Gu worms were innovative and special, they had great strength. He was known as 'the pseudo-Immortal Venerable who split the five regions with his sword, it was fortunate for the people in the world that love changed him’.

It meant that: This person had great battle strength, only inferior to the Immortal and Demon Venerables of each era. Thankfully, because of love, he changed from demonic to righteous, it was truly a fortunate thing for all life in this world!

Back then, Bo Qing was even a hot favorite for the person to advance to rank nine.

But eventually, he failed when trying to get to rank nine and turned into ashes. As his wife, Mo Yao resisted with her life, and eventually died with him.

“In history, Mo Yao was a true refinement grandmaster. No wonder… back then when Giant Sun Immortal Venerable recruited concubines, the ten central continent sects provided beautiful female Gu Masters. Among them, Spirit Affinity House sent numerous female Gu Immortals into the palaces, as an offering to the Immortal Venerable. Between the concubines that gained Giant Sun Immortal Venerable’s favor, a few were from Spirit Affinity House.

As an insider, it was no wonder that her understanding of the sacred palace and Eighty-Eight True Yang Building greatly surpassed ordinary people.

Mo Yao was the thirty-sixth generation fairy of Spirit Affinity House, she was naturally nurtured fully by Spirit Affinity House, it was easy for her to investigate the hidden secrets about Eighty-Eight True Yang Building.

The origin of the Water Pavilion here could be explained as such.

In the inkman words, this Immortal Gu’s information was written —

Calamity beckoning Gu!

Chapter 567

Chapter 567: The comprehension of life since long ago (Double Chapter)

Translator: ChibiGeneral **Editor:** ChibiGeneral

The corners of Fang Yuan's lips curled up into a smile as he read the ink text on the sides of the bowl.

This calamity beckoning Gu was a rank seven Immortal Gu, a rank higher than Fang Yuan's Spring Autumn Cicada. Its ability was extremely strange, actually involving the matter of earthly calamities and heavenly tribulations.

The middle section of the ink text explained its ability in detail. When a Gu Immortal goes through calamity and invokes disaster, calamity beckoning Gu could detach the earthly calamity and heavenly tribulation from the original target, and draw them to oneself.

Fang Yuan's expression could not help but become strange.

Such an Immortal Gu, who would dare to use it?

What terrifying and destructive strength did earthly calamities and heavenly tribulations have, how terrifying was its heavenly power? Instead of spending one's days to their heart's content, using calamity beckoning Gu to attract these earthly calamities and heavenly tribulations, wasn't this seeking one's own doom?

Gu Immortal Mo Yao was the thirty-sixth generation fairy of the grand Spirit Affinity House, why would she refine an Immortal Gu like this?

The last section of the ink text provided the reason.

It turned out she was really courting death!

Back then when she and Bo Qing were deeply in love, they were a famous couple of the righteous path and a romantic tale of their story spread throughout the five regions.

Sword Immortal Bo Qing had outstanding talent with no opponents that matched him in the whole world; he was well known as ‘the pseudo-Immortal Venerable who split the five regions with his sword, it was fortunate for the people in the world that love changed him’.

Even in the whole wide world, looking at his entire life, the only thing in front of him was the one supreme goal of breaking through to rank nine.

However, challenging the rank nine barrier was extremely dangerous, even the grand Sword Immortal had a feeling that he was walking on thin ice and only had a fifteen percent chance of success at most.

Bo Qing’s ambition was lofty, vowing to reach the apex that was rank nine. Mo Yao persuaded him in vain, and as such, she could only tearfully make preparations to assist him.

Bo Qing set up his inheritances and arranged for future events. His first attempt of breaking through failed; he was left in a state of heavy injuries for seventy years, bedridden the whole time without being able to even budge, his everyday life was all taken care of by Mo Yao.

After his injuries got better, Bo Qing once again desired to break through to rank nine.

Mo Yao knew the difficulty level of this, especially during the final trial of breaking through to rank nine when limitless earthly calamities and heavenly tribulations would descend. Bo Qing might have terrifying battle strength but he lacked the sustainability to endure through the trial.

To help her husband, she secretly betrayed her sect and started to make plans towards Eighty-Eight True Yang Building.

Eighty-Eight True Yang Building was the famous setup created by an Immortal Venerable and the skillful Long Hair Ancestor, the number one Immortal Gu house in the world. Mo Yao had already started her research on it a long time ago and had gained much insight from it which helped her to deepen her grandmaster refinement path attainment.

She might be a variant human and did not have Giant Sun's bloodline, but Spirit Affinity House had provided many outstanding girls to Giant Sun to become his concubines during his time. Among them, several female Gu Immortals had gained Giant Sun Immortal Venerable's favor.

Thus, Spirit Affinity House was able to obtain many secrets of Giant Sun Immortal Venerable which included detailed information on Eighty-Eight True Yang Building.

Mo Yao was able to learn of Eighty-Eight True Yang Building's secret from these resources.

Imperial Court blessed land was situated at the exact center of northern plains, the space inside was as vast as a world and the time was separated into day and night as well, the good fortune in Eighty-Eight True Yang Building was extremely deep. Thus, at every set interval of time, it would attract extremely powerful earthly calamities and heavenly tribulations.

Giant Sun Immortal Venerable considered this point and placed a 'divert disaster Gu' when setting up Eighty-Eight True Yang Building which was an important cornerstone of Eighty-Eight True Yang Building.

This Gu was a rank seven Immortal Gu and was one of the essence of Giant Sun Immortal Venerable's luck path; it could divert the earthly calamities and heavenly tribulations in Imperial Court blessed land to the outside world. Because of this, the earthly calamities and heavenly tribulations formed into the ten year blizzard disaster that spread over the entire northern plains.

Conversely, Giant Sun Immortal Venerable used this ten year blizzard disaster to set up a rule which formed into the tradition of the Imperial Court contest.

Mo Yao discovered a loophole that was not strictly a loophole in this point.

Originally, Imperial Court blessed land co-existed with Eighty-Eight True Yang Building in symbiosis, and as such, every ten years, there would be vast and powerful earthly calamities and heavenly tribulations. At this time, Imperial Court blessed land would open up a small crack in accordance to divert disaster Gu, to send out the earthly calamities and heavenly tribulations.

Imperial Court blessed land was set by Giant Sun Immortal Venerable to only allow mortals to enter or exit and did not allow the entry of Gu Immortals. But at the time when it had to divert disaster, there would be a hidden crack in Imperial Court blessed land from which the calamities and tribulations would rush out like a flood, and at this time the setup that prevents Gu Immortals from entering would be ineffective.

Mo Yao used this small crack and risked her very life in going against the calamities and tribulations to enter Imperial Court blessed land.

She spent close to ten years investigating inside the blessed land and after suffering countless hardships, she was able to find the crucial node through her grandmaster refinement path attainment -—it was the small tower at Di Qiu area.

Next, she risked the danger of awakening Giant Sun's will and destroyed this small tower, using the backward flow of the heavenly power to sense divert disaster Gu and create a cave that would foster 'calamity beckoning Gu'.

After she succeeded in refining the early stage of the Immortal Gu, she set up the Immortal Gu house Water Pavilion in this nameless valley.

Inside the pavilion, Mo Yao completely nurtured the early stage Immortal Gu to its completed form and brought the calamity beckoning Gu outside secretly using the chance when the blessed land was diverting disaster.

She did not destroy all these arrangements just in case of any accidents. If Bo Qing failed in his breakthrough again and calamity beckoning Gu was also destroyed in earthly calamities and heavenly tribulations, then she would have to enter the blessed land again to refine calamity beckoning Gu.

However, she never returned after this.

Sword Immortal Bo Qing's second attempt at breaking through to rank nine failed completely and he was turned into ashes by the vast heavenly tribulations. As for Mo Yao, she perished alongside him.

"So it was like that. Breaking through to rank nine involves numerous difficulties and dangers. Mo Yao set up this inheritance secretly beforehand but did not explain the true content of the inheritance; it was because this action was betraying the sect. But she still left the preceding clues for the sect in the end. In my previous life, central continent's Gu Immortals schemed against Imperial Court blessed land and destroyed Eighty-Eight True Yang Building by using the clues she had left behind." As Fang Yuan recalled now, he immediately had a feeling of the fog dispersing in his mind and everything had gotten an explanation.

There was a poem left at the ending of the ink text —

The long immortal path is filled with obstacles; encounters occur at faraway places.

Too long has passed, emotions and hatred have already lasted for a long time.

My lord thinks about the apex of immortality, while I think of his safety.

Life and death are separated, I will support my lord's dreams.

This was clearly Mo Yao's work.

The path of a Gu Immortal is long and filled with difficulties, however I was fortunate enough to meet with my lord.

Unknowingly, emotions and hatred tangled, and I was unable to free myself.

Lord’s sight was focused on the limit of the immortal path, while my gaze was on my lord himself.

The attempt of breaking through to rank nine was a near death situation. I was not willing to be separated with him by life and death, so all I could do was to help my lord realize his dream in my own way!

To protect her love, to help Bo Qing walk to the peak of a Gu Immortal, Mo Yao was willing to sacrifice herself, using calamity beckoning Gu to draw the earthly calamities and heavenly tribulations to herself.

“A strange woman…” Fang Yuan sighed.

Although he would absolute not make such a sacrifice because of love, it did not hinder Fang Yuan from understanding such a person.

It was to the extent where his understanding of this was deeper than others.

Humans that live in this world had desires, they had their goals and meanings in life.

Mo Yao’s goal was her lover. Fang Yuan’s goal was to chase eternal life.

The different desires, different goals and different meanings forged all kinds of lives in this huge world to create heroes that had their own independent character.

Fang Yuan’s gaze fell towards the center of the giant vermillion bowl.

The cocoon had already burst open and calamity beckoning Gu had already completely formed. Its shape was like a silkworm cocoon with a grey body and the size of a little finger. It was currently moving up and down in the water.

Calamity beckoning Gu was a genuine self sacrifice Gu and was used to abandon oneself for others.

This Gu seemed to have no use to Fang Yuan, but in fact still had an enormous value.

First of all, it was an Immortal Gu. Even if he did not use it, he could exchange it for an enormous amount of immortal essence stones in treasure yellow heaven.

Secondly, it was a luck path Gu that was able to attract earthly calamities and heavenly tribulations. Calamities and tribulations were powerful, but as long as one was strong and tough enough, then they could use it in a unique way to harm others.

Finally, it was formed by borrowing the strength of one of the cornerstones of Eighty-Eight True Yang Building — Divert Disaster Gu. It and divert disaster Gu could be said to be two sides of the same coin; one attracted calamities while the other diverted disaster. This connection would provide huge assistance to Fang Yuan's plans in Eighty-Eight True Yang Building.

However, even though there was a connection to it in his heart, there was a condition before Fang Yuan could completely subdue this Gu.

Mo Yao had mentioned it in detail in the ink text on the side of the bowl.

There was a necessary condition to subdue calamity beckoning Gu. It did not matter whether it was a mortal or immortal, but they had to have the heart of self sacrifice.

If they did not have the heart to sacrifice themselves and forcibly tried to subdue calamity beckoning Gu, in the best case, it would lead to a backlash from the Immortal Gu; and in the most serious case, the Immortal Gu would self-destruct and cause harm to the Gu Master's life.

In the Water Pavilion, Fang Yuan stood in front of the giant bowl, with no expression on his face.

Heart of self sacrifice, did he have it? …

“Cough cough cough.” Tang Miao Ming covered her lips with a handkerchief, her beautiful brows furrowing deeply in pain.

“Big sister!” Tang tribe’s third young master Tang Fang called out from the side with a lamenting expression.

Tang Miao Ming was lying back in bed; she waved her hand to indicate Tang Fang to not worry.

Tang Fang heaved a deep sigh as he looked at the blood on the handkerchief: “Big sister, why did you risk your life? What good is there in passing this round? Father and the others have already passed away, you are my only relative left, what would I do if anything happened to you?”

Tang Miao Ming lightly caressed Tang Fang’s hair: “Third brother, you are our Tang tribe’s tribe leader, you should not be lacking in ambition. Our Tang tribe had suffered heavily in this Imperial Court contest and was almost swallowed by other tribes. Now is a very rare opportunity, we need to use Eighty-Eight True Yang Building to make our tribe prosper again.”

Tang Fang pouted in a nonchalant manner: “But big sister, you suffered heavy injuries by trying to force your way through the round, the gains do not make up for the losses. I have been very distressed because of this and had no mood to manage the tribe’s affairs these days.”

“What?” Tang Miao Ming’s expression turned solemn and she stared at Tang Fang sharply.

Without any hesitation, she reprimanded him: “Tribe leader Tang Fang, you have a heavy responsibility upon you, how could you still have the sentiments of a child? Reviving the tribe is your duty, it is the meaning of being the leader of a tribe. From now on, I do not want to hear you complain like this ever again, do you understand?”

“Big… big sister, I was wrong.” Tang Fang immediately stood up from the edge of the bed and lowered his head to admit his mistake with an ashamed expression. His big sister was the one who loved him the most since young.

Tang Miao Ming's gaze gradually softened, sighing faintly: "Third brother, I know your nature, you like travelling and want to be free from this duty, to live a life without any restraints. But you are the last man in our family, you should be brave enough to assume this responsibility. From now on, the meaning of your life will be to revitalize the tribe, do you understand?"

"Big sister is right, I understand. Don't get angry big sister, you are still injured."

Tang Miao Ming said in a solemn tone: "After returning, copy the first section of chapter three of < > ten times."

Tang Fang's heart was immediately filled with warmth.

Since young, his big sister's punishment to him was to make him copy books.

"Big sister, take a good rest, I will go copy it now."

< >, chapter three, first section —

Ren Zu's second daughter Desolate Ancient Moon climbed Cheng Bai mountain and searched for success Gu to rescue her father from the door of life and death.

But at the final juncture, she failed and lost her sense of self, becoming an ugly and powerful monster.

Without his daughter to rescue him, and his eldest son Verdant Great Sun still addicted and dejected, Ren Zu was trapped in Luo Po valley, unable to return to life.

Luo Po valley was like a giant maze, its paths twisted and turned. Occasionally, boundless bewilderment fog would spread and cause the soul to slacken; and occasionally, Luo Po wind that was as sharp as a knife would blow and cut down souls.

Ren Zu had a spiritual body now and was unable to find the way out of the bewilderment fog. His soul was cut down by Luo Po wind, becoming weaker and weaker, and the situation turned even more dangerous.

The soul fragments cut down by Luo Po wind started to converge gradually and turned into a youth.

Like this, Ren Zu's third son was born.

He was Northern Dark Ice Soul.

"My son, thank you for your company. I do not have much time left, having you to accompany me in my final days, father did not have to feel lonely." Ren Zu sighed with deep emotions.

Northern Dark Ice Soul had a cold appearance but was warm-hearted, and although he did not speak much, he was very filial to Ren Zu. And as he looked at Ren Zu growing weaker and weaker every day, his mood also became heavier.

He decided to rescue Ren Zu.

Ren Zu sensed his determination, and felt both happiness and heartache: "Don't be worried my son, I know of your filial heart, I now understand that life and death cannot be forced. Humans will die in the end, this is our fate."

Northern Dark Ice Soul said in a sobbing tone: "Father, I know your words are right. I also know my efforts might be in vain. But looking at you growing weaker like this, if I do not make an effort, my heart will feel even more pain. Let me do something for you."

Ren Zu sighed and could only let him go.

Northern Dark Ice Soul wandered in the vast Luo Po valley; he was born here, as such, Luo Po wind could not cut down his soul and the bewilderment fog could not obstruct his vision.

He searched bitterly but could not find the exit.

Right as he was becoming more desperate, he came across a Gu worm.

"Well, well, to think I would be discovered by you." This Gu was like a ladybug with a chubby spherical body, but it was extremely agile and was flashing around Northern Dark Ice Soul's body.

Northern Dark Ice Soul's eyes brightened as he asked in curiosity: "What Gu are you?"

"I am known as unexpected." This Gu worm replied.

Northern Dark Ice Soul's gaze dimmed down: "So you are unexpected Gu, it is a pity you are not success Gu."

Unexpected Gu sneered: "Young man, do not look down on me. I have a love-hate relation with success Gu. The strength of unexpectedness is very powerful. Do you know what your encounter with me here represents?"

"What?"

Unexpected Gu shook its chubby body and said proudly: "What kind of place is this? This is Luo Po valley, a death realm. You being here means you are already dead. But by encountering me, you have come across an unexpected event in 'death' – that is 'life'. Grab me, I will take you out to the human world and you can be resurrected again."

"Really?" Northern Dark Ice Soul was exulted, "Can I bring my father along?"

Unexpected Gu shook its head: "It is you who encountered me, not your father, so I can only take you."

Northern Dark Ice Soul was extremely disappointed, refusing: "Since I cannot take my father with me, then I will not go. I will accompany my father till his final moment."

Unexpected Gu laughed loudly and spoke in a domineering tone: "Unexpectedness in life is beyond your control. Young man, you must come with me!"

The moment it finished speaking, unexpected Gu forcibly took Northern Dark Ice Soul and instantly left life and death door, arriving in the human world.

Northern Dark Ice Soul obtained flesh body and was feeling extremely bewildered facing this vast world alone.

Unexpected Gu disappeared. He suddenly remembered Ren Zu once saying he had an elder sister who was called Desolate Ancient Moon.

At this moment, cognition Gu took the initiative to find him: “Young man, do not be suspicious, cognition has always been the friend of humans, I am here to help you.”

Cognition Gu told Northern Dark Ice Soul about Cheng Bai mountain and also the events detailing Desolate Ancient Moon.

Northern Dark Ice Soul decided to first see his elder sister.

When he saw Desolate Ancient Moon, his tears fell in sadness.

Northern Dark Ice Soul tried to converse with Desolate Ancient Moon, but Desolate Ancient Moon who had turned into a monster kept on repeating questions.

“Where is this?”

Northern Dark Ice Soul thought for a while and answered: “This is the human world, living beings can move about here. Above us is the heavens and below our feet is earth.”

“Who am I?” Desolate Ancient Moon asked again.

“You are a human, Ren Zu’s second child, your name is Desolate Ancient Moon. You are my elder sister.” Northern Dark Ice Soul replied.

“Elder sister, wake up quickly. Our father is trapped in Luo Po valley, dying, we need to resurrect him soon.”

“Ren Zu? Desolate Ancient Moon? Resurrect?” The monster shook its head, extremely puzzled, “Why should I resurrect him? Could it be that humans should not die? What disadvantage is there in death? Why do humans live? Why do I live?”

This time, Northern Dark Ice Soul was not able to answer.

Why do people live?

As Northern Dark Ice Soul pondered over this question, bewilderment Gu quietly approached him, making him lose his sense of the surroundings.

Subsequently, love Gu and disguise Gu also approached him.

Cognition Gu felt a big headache when it saw them. These several Gu were famous for their mischief and would often move together, even cognition Gu did not want to provoke them.

“Love, have you not harmed enough people? Why are you not letting them go?” Cognition Gu sighed.

“Don’t try to speak reason with me, I am completely unreasonable.” Love Gu said in a unruly tone, “Get lost, cognition, I do not like you.”

Cognition Gu could only leave helplessly.

“Another human came again? Haha!” Love Gu was extremely happy when it saw Northern Dark Ice Soul, because it had another target to play with.

It and disguise Gu were sworn brothers, and on the spot, it used disguise Gu’s power to disguise as cognition Gu.

“Young man, your elder sister has lost herself. If you want to save her, you need to find meaning Gu.”

Northern Dark Ice Soul regained his senses and asked love Gu without doubting: “I have seen unexpected Gu, please tell me where this meaning Gu is? How should I look for it?”

Love Gu deceived him in a serious tone: “Oh human, you should know, there is a meaning to why you are all living in this world. As long as you find meaning Gu, your elder sister can awaken. Follow the direction I point towards and keep moving forward, you will eventually find meaning Gu.”

Northern Dark Ice Soul expressed his gratitude before immediately setting off.

Love, bewilderment and disguise Gu guffawed as they looked at his receding figure.

In this world, how could there be a meaning Gu?

There was simply no such Gu, Northern Dark Ice Soul would, as such, not find it no matter how much he searched for it.

“Fool, who told you all to anger me? I will let you guys know how terrifying the punishment of love can be! From now on, let’s follow him and toy with him in turns.”

Love Gu’s proposal was approved by the other two Gu.

Thereupon, the three Gu played tricks on Northern Dark Ice Soul in turns, he suffered so much that words could not describe it. But to find this non-existent meaning Gu, he kept on persevering.

Such spirit moved cognition Gu. And when love Gu was not present, cognition Gu approached Northern Dark Ice Soul to help him.

“Cognition, what are you doing? We are having a great time.” Bewilderment Gu and disguise Gu were extremely displeased with cognition.

Cognition Gu laughed: “I am afraid of love, but I am not afraid of you two. Young man, use my strength to come to your senses.”

Northern Dark Ice Soul used cognition Gu’s power to realize the truth; he was no longer bewildered and he had seen through the disguise.

Bewilderment Gu and disguise Gu could only leave in defeat.

Northern Dark Ice Soul expressed gratitude to cognition Gu: “Thank you cognition Gu. Because of you, I have thought of a way to save elder sister.”

“Eh? What way is that?”

“In this world, there is indeed no meaning Gu. But why can’t I create a meaning Gu?” Northern Dark Ice Soul replied confidently.

Human life might have no meaning, but they could give a meaning to it.

Northern Dark Ice Soul came back to Desolate Ancient Moon's side and personally created a meaning Gu and pressed it into Desolate Ancient Moon's head.

"The meaning in my life is to search for success Gu and resurrect father! I understand now, I get it!" Desolate Ancient Moon's eyes brightened. …

"Meaning in life huh…" Tang Fang put down his brush.

It was late at night, warm silver light covered the land in Imperial Court blessed land.

He was deeply moved after repeatedly copying the book.

"People will feel bewildered as they live in this world. But as long as they can find their meaning in life, they will find their direction and be able to move forward bravely. At the same time, they will also understand what they want to do and what they do not want to do, and they will not be afraid of sacrifice. Big sister's intent in making me copy the book should be this."

He lightly pushed open the window and looked at the beautiful and dazzling sacred palace, thinking of the variety of people in it, some were strong, some were weak.

His mood gradually uplifted: "Every person's life has all sort of meaning. And the meaning of my life is to lead the tribe towards prosperity!" …

At the same time, in Water Pavilion.

"A heart of self sacrifice?" The corners of Fang Yuan's lips curled up into a lofty smile.

Without any hesitation, he moved his hand towards the giant bowl and directly picked up the calamity beckoning Gu.

As it absorbed his aura, calamity beckoning Gu's body flashed with radiance and soon became Fang Yuan’s possession. The whole process was extremely smooth with not the least bit of tremor and backlash.

With the identity of a transmigrator and the experience gained in the five hundred years in his past life, Fang Yuan had already seen through life and death; familial feelings, friendship and love were not any his interests.

Only eternal life, this majestic and unattainable target, could make the journey of his life become more interesting.

This was the meaning he gave to this life!

Pursuing eternal life did not mean he was afraid of death or afraid of failure.

He calmly accepted death and failure.

Whether eternal life existed or not, there was no evidence to prove it.

But even if it did not exist, so what?

Fang Yuan enjoyed the process. In the process of pursuing eternal life, he found his meaning and felt that this life was quite interesting.

The lowly lust and desires of his body, satisfaction of love and hatred, he was already tired of them.

Only eternal life was worthy of being his target to pursue.

“As a result, the necessary resolve to sacrifice, I already have it.” Fang Yuan’s gaze shone eerily as he played around with the rank seven Immortal Gu in his hand.

Chapter 568 - Mo Yao’s Will

Chapter 568: Mo Yao’s Will

Translator: ChibiGeneral **Editor:** ChibiGeneral

Fang Yuan carefully observed calamity beckoning Gu.

This Gu was a rank seven Immortal Gu and after going through the nurturing process in the giant vermillion bowl, it had already completely formed.

It was the size of a little finger, was completely grey and looked very delicate like a silkworm cocoon.

As Fang Yuan played with it and calamity beckoning Gu continued to absorb his aura, he could sense that the connection in the depths of his mind with calamity beckoning Gu was deepening further.

Ripples appeared in Fang Yuan’s heart.

It would be a lie to say that he was not moved.

In his previous life, he had suffered untold difficulties and slaughtered many lives to refine a rank six Spring Autumn Cicada. And now with the advantage of his rebirth, he had yet to become a hundred years old but had already obtained calamity beckoning Gu which was a rank higher than Spring Autumn Cicada.

Although the use of calamity beckoning Gu was extremely peculiar, offering oneself as a sacrifice by attracting earthly calamities and heavenly tribulations, Fang Yuan believed firmly that the use of a Gu depended on the wits of the Gu Master.

Like Chainsaw Golden Centipede which would be used in a different manner in the future by a rank four mortal Gu Master ‘Chainsaw Mad Demon’. So, why would Fang Yuan not be able to create new uses for calamity beckoning Gu?

“Not speaking of other things, just the existence of calamity beckoning Gu proves that the legendary luck path truly exists.”

Giant Sun Immortal Venerable was extremely lucky his whole life and it was rumored that this was because he had created unique luck path Gu worms.

However, there had never been conclusive evidence regarding this rumor.

Now, Fang Yuan was holding calamity beckoning Gu, a luck path Gu; an Immortal Gu refined by refinement path grandmaster Mo Yao by interaction with the divert disaster Gu of Eighty-Eight True Yang Building.

Divert disaster Gu and calamity beckoning Gu were luck path Gu worms.

The ink text in the bowl was a very strong piece of evidence.

Mo Yao even directly wrote in the ink text that Giant Sun Immortal Venerable’s luck path Gu worms could steal other people’s good luck and transfer it to himself, and could also transfer his bad luck over, bringing trouble to others.

As a complete path, luck path also had a methodical structure, including aspects of offense, defense, movement, healing and others. It was only that what it targeted was the incorporeal and formless luck which everyone possessed.

After Giant Sun Immortal Venerable innovated the luck path, he kept it hidden and made great profits without making any commotion.

“Giant Sun Immortal Venerable stole luck wantonly and with his death, the luck thief had finally perished.” Mo Yao poured her feelings in the text, this strange woman had quite a temperament, daring to criticize an Immortal Venerable like this.

She even speculated Giant Sun Immortal Venerable's luck path inheritance was very likely to be in the treasure room of Eighty-Eight True Yang Building!

“If I can obtain this inheritance, could I duplicate Giant Sun Immortal Venerable's success?” Fang Yuan's heart thumped in excitement.

He pondered for a while before placing calamity beckoning Gu in the giant vermilion bowl again.

Although calamity beckoning Gu had completely taken form, Fang Yuan could not refine it.

The connection between them had thickened to the extreme, but there was still a gap before he could truly become the master of calamity beckoning Gu.

Fang Yuan was still a mortal currently and did not have immortal essence to refine it.

This situation was different from when he refined fixed immortal travel Gu.

At three kings blessed land, he was able to refine fixed immortal travel Gu with the assistance of the land spirit, he was the leading refiner. Thus when fixed immortal travel Gu was born, it became his Gu. But he could not use it, and if not for the land spirit's help, Fang Yuan would not have been able to travel to Hu Immortal blessed land.

The whole process of refining calamity beckoning Gu, however, was done through the backflow of the heavenly power of Eighty-Eight True Yang Building, Fang Yuan was an assistant at best; this was already extremely great considering he did not have the help of a land spirit.

“I can only truly refine it when I become a Gu Immortal. Before that, I can only leave it here.”

Without advancing to Gu Immortal, there would be no immortal aperture to store calamity beckoning Gu. If it was brought out openly, the Immortal Gu aura would spread which was sure to attract countless coveting people.

Fang Yuan was not worried about Hei Lou Lan, Tai Bai Yun Sheng and the others; he had many wolf groups now and his strength path cultivation was also sufficient.

What he was worried about was Giant Sun Immortal Venerable's will in Eighty-Eight True Yang Building.

Previously, the Immortal Gu was in its early form and had a weak aura, but now it had already taken shape, so if it was brought out, it might stir up Giant Sun Immortal Venerable's will and awaken it.

Fang Yuan was not willing to take that risk, more so when his main plan had yet to be completed; he needed to keep on hiding and waiting.

"Who would think that this nameless valley holds a rank seven Immortal Gu? But for now, I should first refine a part of this Water Pavilion before leaving." Fang Yuan pondered.

Water Pavilion was a famous Immortal Gu house. It looked like Fang Yuan was overestimating himself by trying to refine it as a mortal, but this attempt was greatly feasible.

Even the formidable Eighty-Eight True Yang Building had a crack, allowing Fang Yuan to study it in-depth. While Water Pavilion was now a ownerless object, it could naturally be easily exploited.

But to talk about this, we need to know about the inherent nature of Gu houses.

What is a Gu house?

Not mentioning Fang Yuan's past life, after the rebirth alone, he had encountered many Gu houses.

The most common among them included the Gu house three star cave. It would turn into a seed when it was collected. After planting the seed, it would grow into an enormous hollow tree with three floors.

There was lizard house Gu with the appearance of a lizard, sporting different colors. Its eyes were windows and its mouth was the door; it could move by its own will.

There was also the mushroom forest Gu house which was formed by planting a large number of mush room Gu. Many mushroom houses would form into a courtyard.

These were mortal Gu, there were also Immortal Gu houses like Eighty-Eight True Yang Building and Water Pavilion.

There were too many complicated Gu houses to talk about in their development till this day. But if one were to investigate their origin, the publicly recognized founders were the seven Lui Gui siblings.

These seven were demonic Gu Masters of the olden antiquity era, they were born as septuplets, and from birth to death, they moved together.

They were experts in defence and each of them was a rank five peak stage Gu Master. They also had a defensive killer move formed by combining their strength called 'turtle house'. Relying on this move, they were able to defend against three attacks from a Gu Immortal, establishing a tale called 'three moves pact' in history.

And this turtle house was the first Gu house in Gu Master history!

Thus, basically speaking, Gu houses were killer moves formed by the combination and solidification of ten or more various kinds of Gu worms.

Mushroom forest Gu house was a model example. It was a courtyard formed by the gathering of large numbers of mush room Gu.

Eighty-Eight True Yang Building was the apex of examples, possessing the ability to defend, gather, store and other effects. It was formed by countless small towers, divert disaster Gu being one of the main cornerstones. Sacrificing the gathered wild Gu, it created a power that would form the main body.

There was also White Bone Chariot.

Back then, Proud Bone Demon Lord Shen Jie Ao had outstanding and shocking talent. When he became a rank six Gu Immortal, he lacked a rank six Gu. So he came up with a killer move known as White Bone Chariot.

The White Bone Chariot was formed from many rank five Gu, such as the White Bone Wheel, and had power comparable to a rank six Gu!

This White Bone Chariot was actually a Gu house!

As for three star cave, lizard house and large lizard house, they were all branches developed from simplified forms of Gu houses.

Normal Gu houses were formed from the combination of several Gu worms. As three star cave and the others were formed from just one Gu, thus their might was greatly reduced and became commonly used Gu houses.

Water Pavilion was a rank seven Immortal Gu house, this signified there was at least one rank seven Immortal Gu among the Gu worms used to create it!

“With my current level, I cannot refine Immortal Gu. But refining the mortal Gu is still possible.”

This was where Fang Yuan’s confidence in refining Water Pavilion lay in.

There were not many difficulties during the refining process.

Water Pavilion was one of the symbols of Spirit Affinity House, wielded by Fairy Mo Yao back then.

Mo Yao betrayed the sect for her love and refined calamity beckoning Gu, sacrificing herself. This Immortal Gu house thus became ownerless.

As such, to Fang Yuan, Water Pavilion was like a little beauty that had its arms wide open and he was free to play with it.

“Amazing, there were actually no less than three thousand Gu worms used in the assembly of Water Pavilion. And every Gu worm was closely interrelated and had a faint resonance between them. The core was rank seven Water Harmony Gu which allows the Gu Master to completely merge and hide in water; as long as the water was not extinguished, they won't die. Besides this, there were also two assisting Immortal Gu – rank six movement Immortal Gu Worldly Wave Trace and wisdom path Immortal Gu Delight in Water and Mountain."

The process of refining was in fact, the process of deepening his understanding of Water Pavilion.

Refining an Immortal Gu was far beyond Fang Yuan's ability, so there was no need to attempt it in vain. What he could make a move on were the rank one and rank two mortal Gu.

Fang Yuan spent six hours in refinement till he was dizzy, completely refining five hundred rank one and rank two mortal Gu.

"I now have ten percent control over Water Pavilion. Even if someone discovers it, this ten percent of authority will be able to block them for a while. This time will be enough for me to be alerted and rush here in time."

He refined for another two hours and increased his control authority to thirteen percent.

The difficulty of the refinement continued to increase at the later stages.

"Unfortunately, I have Spring Autumn Cicada which is like a ticking time bomb. I cannot use time path's instant success Gu and other Gu to help me in the refining process, otherwise my progress would not be just this."

Fang Yuan felt his head spinning and knew he had already reached the limit. The primeval essence in his two rank five peak stage apertures was also almost exhausted.

But just when he thought of pulling away, a figure suddenly appeared in his mind.

"After such a long time, I finally meet the fated one today."

Following the indistinct sigh, the graceful figure of a woman with a slim body, shining dark eyes, and a veil covering her face, appeared in Fang Yuan's mind.

"This is Fairy Mo Yao's will, when did it enter my mind?!" Fang Yuan was inwardly shocked.

So much time had passed, Mo Yao was not a venerable but she was still able to leave behind her will, one could tell how strong a cultivation she had back then.

Fang Yuan actually already had taken precautions, but Fairy Mo Yao clearly had some special methods that allowed her will to silently enter Fang Yuan's mind.

Such an ability was not trivial.

Mo Yao's will had entered Fang Yuan's mind, if she wanted to unceremoniously create difficulties for him, then Fang Yuan would absolutely have to suffer the consequences.

Fang Yuan was not a wisdom path expert, only wisdom path Gu Masters had the power to subdue this kind of will.

The most crucial thing was that when people pondered, their thoughts would first emerge. These thoughts would clash with each other in the brain and then transform, creating a new thought. This was the process of thinking.

Now, Mo Yao's will had entered Fang Yuan's mind which meant she could hear all his thoughts clearly!

What would happen once Mo Yao's will learned of Spring Autumn Cicada?

"No need to be afraid, fated one, I have no intention of harming you. I only want to ask you a question." Mo Yao's will faintly asked.

Fang Yuan did not even need to guess to know what she was going to ask. He told her about the fact of Bo Qing's defeat on the spot.

When she heard this grievous news, Mo Yao's will shook to the point of collapsing!

Fang Yuan was rejoicing covertly, but he had to be disappointed because Mo Yao's will was able to maintain her form in the end.

Her dark as night eyes were filled with tears. Fairy Mo Yao's expression was extremely complex; there was sadness, but there was relief as well.

Like she said in her poem *'too long has passed, emotions and hatred have already lasted for a long time'* , her love and hatred with Bo Qing was a long tale that was touching and deeply intertwined.

"Fated one, since you can refine calamity beckoning Gu and also found this place and have begun refining Water Pavilion, you should already have a general understanding. Since he is already dead, then let everything go. Sigh… maybe this is the fortune of the living."

Mo Yao's will paused before continuing: "I have already let down Spirit Affinity House, my only wish now is to return this Water Pavilion. As compensation, I will impart my life's refinement path attainment insights to you. Besides this, I will also tell you the secret information of Eighty-Eight True Yang Building!"

Chapter 569 - Six Arm Heavenly Zombie King

Chapter 569: Six Arm Heavenly Zombie King

The entire sacred palace was shrouded in an aurora.

The light was dazzling and shone for the radius of a hundred li.

Looking at the top of the sacred palace, two layers of the Eighty-Eight True Yang Building had already formed, huge numbers of people were entering and exiting daily.

Retracting his gaze, Fang Yuan softly closed the windows.

Half a month had passed since he refined calamity beckoning Gu and returned from the Water Pavilion.

During this period, Hei Lou Lan opened up Eighty-Eight True Yang Building and did not charge any fees, allowing people to enter as they wished.

Eighty-Eight True Yang Building — Giant Sun Immortal Venerable's inheritance ground, it had incredible attraction to all Gu Masters.

Countless Gu Masters with Giant Sun's bloodline entered like torrents of water, even if they could not get through, they wanted to observe the glory of the event.

Especially after Eighty-Eight True Yang Building underwent a transformation and formed two layers, it triggered the people's desires to explore.

As for outsiders, they could only enter using the guest token.

The guest token was a one time expenditure item, it could only be obtained on occasion when getting through a round.

Until now, there had only been seven guest tokens obtained. Each fetched an astronomical price, but it did not deter any of the expert Gu Masters who did not have Giant Sun's bloodline.

Fang Yuan had the glass owner token now, he could freely enter and exit Eighty-Eight True Yang Building, and even enter the treasure room. But in order to conceal himself, not long ago, he still paid a hefty price to buy a guest token.

"Young man, I would advise you to prepare the ink transformation killer move that I taught you. That way, once you enter the central control hall, you would have less trouble."

A female voice resounded in Fang Yuan's mind.

It was none other than Fairy Mo Yao's will who had stealthily sneaked in.

Fang Yuan heard this and frowned, in his heart he snorted and replied: "This killer move is too outdated. Some of the Gu worms have already disappeared, if I want to collect them now, it will take quite some effort, how can it be rushed?"

Mo Yao's will laughed: "Young man, you are quite fortunate to have Hu Immortal blessed land. You should make good use of treasure yellow heaven, it is not hard to purchase these Gu worms."

Fang Yuan frowned even more tightly.

He deciphered the code and obtained Di Qiu inheritance, even successfully refining calamity beckoning Gu, but he also gained a huge problem known as Mo Yao's will.

Mo Yao's will was now lurking inside his mind, it was a huge threat.

When Fang Yuan thinks, thoughts would be generated.

Mo Yao's will could read these thoughts and understand Fang Yuan's secrets.

In half a month's time, she learnt about many of his secrets, including Hu Immortal blessed land.

Right now, Fang Yuan could only use space thought Gu to think.

Using space thought Gu as the main component, and other Gu worms to assist it, the thoughts formed had the power of space imbued in them, Mo Yao's will could not read them even if she caught them.

But such a situation was only temporary.

Will ruled above thoughts, Mo Yao's will was inside Fang Yuan's mind, after interacting with these space thoughts for a long time, she would become familiar with them, and this line of defense would not be able to stop her.

"Young man, you are young but you have many secrets. Hehehe, really interesting." Mo Yao's will floated in the air, moving up and down.

She laughed as she covered her mouth, her eyes were watery and her posture was alluring, she was truly a past generation fairy of Spirit Affinity House.

After staying with Fang Yuan for a while, she became more active, and even more curious, her nature of wanting to probe people's secrets showed itself.

Every generation of Spirit Affinity House's fairies was the cream of the crop, one out of ten thousand, she would be talented and beautiful, pure and elegant like a sacred lotus. But Mo Yao was different, her dark pupils contained some craftiness, if she was in the demonic path, she would definitely be a demoness.

She created an illusory robe, covering her body while showing the contours, she looked at the bubble-like thoughts as she grabbed one of them.

Next, she exerted strength and with a 'pop', this thought exploded with some force.

But she did not gain anything, because this thought's content was two words, ‘eating dinner’.

She gasped lightly, her beautiful lips curving into an arousing angle: “Young man, you are not cute at all. Every time you think about something, you will make up all sorts of random thoughts to conceal the important points. Do you know that this will, in fact, make this big sister even more curious?”

“Hmph, with your age, you have the face to call yourself big sister?” Fang Yuan snorted, threatening, “You are dead, you should rest in peace. Don’t think that I cannot do anything to you now that you are in my mind. Who knows, I might make your will perish the next moment.”

“Hehehe, so scary…” Mo Yao patted her plump chest, laughing without any concern: “But during this half a month of time, you attacked me twenty-eight times using nineteen methods. Don’t tell me, you are not only a strength-enslavement dual cultivator, but you also cultivate in wisdom path?”

“Hmph!” Fang Yuan’s heart was surging with killing intent.

” Aiyaya 1 , young man, don’t be like this.” Feeling Fang Yuan’s sharp killing intent, Mo Yao waved her fingers: “I am your benefactor, isn’t calamity beckoning Gu your Immortal Gu now? You are still a mortal, it is an amazing accomplishment to have an Immortal Gu. Don’t worry, don’t worry, once you return this Water Pavilion to Spirit Affinity House, my wish would be fulfilled, and this will would no longer have any reason to exist.”

Return the rank seven Immortal Gu house Water Pavilion?

The juicy meat had already entered Fang Yuan’s mouth, why would he spit it out?

Fang Yuan did not want to do so, obviously, but he had no other choices.

Not mentioning the piece of Mo Yao’s will in his mind, there was also a portion of Mo Yao’s remnant will inside the Water Pavilion.

That meant, this Mo Yao was quite impressive.

History said that she was a refinement grandmaster. But in terms of wisdom path and soul path, it seems she was even more skilled in them. Fang Yuan's multitude of mental attacks were all easily dispelled by her.

Fang Yuan had a huge headache now.

Even though he obtained Di Qiu inheritance, he did not earn much.

He took a huge risk and made great investments to carry out Gu refinement. In the end, he obtained calamity beckoning Gu but it was unusable. Mo Yao's will even entered his mind, causing him to refrain from shooting at the rat for fear of breaking the vase, this was his greatest burden at the moment.

"Had I known this, I would not have gone after this dogshit Di Qiu inheritance."

This thought was not concealed at all, Mo Yao easily read about it.

"Young man, that is not true. The refinement path killer move ink transformation that I taught you over these days is priceless. Didn't you want to make use of Eighty-Eight True Yang Building's loophole, hehe, you are so daring, almost at the same level as me. Don't worry, I will help you, as long as you return Water Pavilion to Spirit Affinity House." Mo Yao urged.

"Hmph, calamity beckoning Gu is mine, but I also want Water Pavilion, even Eighty-Eight True Yang Building might become my possession! You are a mere will, how can you stop me, a living person?" Since they had fought for dozens of times already, Fang Yuan rejected her outright.

But this time, Mo Yao did not make fun of him, her gaze shone as she recalled something.

Her expression was lonely as she sighed deeply: "Sigh, are all men like this? Even if they did something wrong, they would act in such a confident manner, unrelenting in their convictions being right."

"In this world, what counts as wrong? Who is right, who is wrong? Everyone's way of life is just different."

Mo Yao's expression changed, she laughed cheekily: "Young man, this is an interesting answer. But I've heard another answer, it was much more domineering than yours. He said —'In this world, anything I think or do is right. Those that differ from me are wrong.' Hehehe, is that domineering enough?"

Fang Yuan's gaze shone: "Sword Immortal Bo Qing said that? Unfortunately, he did not succeed in that final step."

These words made Mo Yao sink into silence, her face was full of sadness as she shut her eyes, memories were pouring in her mind as her long eyelashes were slightly trembling.

She hid her figure, vanishing from Fang Yuan's mind.

"Damn it, she did this again!" Fang Yuan gritted his teeth, every time Mo Yao's will hid herself, it would be like she did not exist, no matter how Fang Yuan tried to find her, he would not even see a trace of her.

Mo Yao's attainment in soul path and wisdom path greatly exceeded Fang Yuan's. This resulted in her having free reign in his mind.

But this time, he was not going to leave empty handed.

In his mind, he found one of Mo Yao's will's thoughts.

The content made Fang Yuan's heart shudder.

This was a killer move, named — Six Arm Heavenly Zombie King!

Fang Yuan had been trying to find a way to combine strength and enslavement paths, he thought hard and obtained an initial result, it was his strength path killer move — Four Arm Earth King.

Using this move, he went on a killing spree in the final battle of the Imperial Court contest, defeating Ma tribe army and pushing Hei Lou Lan into Imperial Court Blessed Land.

But four arm earth king was only a casually created killer move, it was full of flaws and after Fang Yuan improved on it, it became the killer move four arm wind king.

After that, he found a crucial borrow strength Gu inside the treasure room of Eighty-Eight True Yang Building, allowing the killer move four arm wind king to gain a huge improvement.

After Mo Yao’s will entered his mind, he purposely exposed a portion of his secrets, among them was this killer move, as well as his thoughts about improving this killer move.

“Fantastic!” Fang Yuan praised.

With his foundation, and Fairy Mo Yao’s attainment, six arm heavenly zombie king was a killer move nearing perfection.

It used borrow strength Gu as the core, six types of flying zombie Gu as the supplement, and another thirty-six Gu worms in order to design this killer move with an amazing and specialized structure, Fang Yuan was in great awe.

“However, I know about the five great flying zombie Gu, but this killer move needs a sixth flying zombie Gu? What Gu is that?”

The killer move in the thought was not complete, it still lacked the final crucial step.

Chapter 570 - Compromise

Chapter 570: Compromise

Translator: ChibiGeneral Editor: ChibiGeneral

In the dark secret room, there was a soothing sandalwood smell.

Fang Yuan sat on the cushion, holding an east window Gu in his hand.

This Gu was of the information path, rank four and shaped like a ladybug, the armor on its back was square, like window panels, specially used to store important information.

This Gu was purposely bought in treasure yellow heaven by Fang Yuan.

The content was all about wills.

Ever since Mo Yao's will had lurked in his mind, Fang Yuan had been buying and collecting information in this regard, he spent many immortal essence stones.

This east window Gu was not the first.

Long after, Fang Yuan slowly opened his eyes, his gaze clear as water.

After reading so much precious information, he had a deeper understanding towards wills.

Thought, will, emotion, the three were of the same branch, the former two belonged to the wisdom path and had much connection to many paths.

Wisdom path, when first created, was a path for Gu Masters that seeked wisdom solely.

When people think, thoughts would appear in their mind, when these thoughts collide, fuse, or cancel each other out, new thoughts would be formed, this would be the thinking process.

These thoughts were classified into different categories, they were all different and had their own specialities.

Among them, the most famous one was the obsession.

When a Gu Immortal dies, their lingering obsession would combine with the heavenly power and form the land spirit within the blessed land.

Gu Masters used these thoughts to create countless related Gu worms, like Dong Fang Yu Liang's star thought Gu, and Fang Yuan's space thought Gu, as well as Gu Immortals' commonly used divine sense Gu.

A few thoughts gather, forming 'will'.

The saying goes: Will can be understood, but not described.

Will cannot be expressed in words, the essence of will has surpassed the limits of written expression, only by using one's heart, using a human's spirituality, can it be felt.

Initially, wisdom path Gu Masters created heaven's will Gu. This Gu was used to comprehend the mechanics of the great Dao of heaven and earth, allowing one to further gain knowledge about heaven and earth, in order to improve on their own attainment.

After that, as the path continued to develop, more Gu were created, killing intent Gu, casual Gu, one's wishes Gu, proud Gu, evil intent Gu, painting idea Gu and others.

Among them, the most famous one was recorded in the legends of Ren Zu, the legendary unexpected Gu.

As wisdom path continued to develop, generations of Gu Masters continued to research, and they found out that when a few 'wills' merged together, they become ’emotion’.

Estrus Gu, gentle feelings Gu, and emotion poetry Gu were all from this path. Enchantment path was derived from this.

The most famous Gu in this path similarly came from < > — Love Gu.

“Thought, will, emotion…” Fang Yuan sighed.

The more he learnt, the more he understood — with his current foundation in wisdom path, he could not get rid of Mo Yao’s will!

The difference between them was too great.

For example, in terms of their attainment in will, Fang Yuan was like a mound, while Mo Yao’s will was like a tall mountain. As for how tall this mountain was, or how grand it was, Fang Yuan could not tell as it was shrouded in a thick layer of mist.

Mo Yao’s attainment had greatly exceeded Fang Yuan’s understanding. During these days of interaction and probing, it left a deep impression on Fang Yuan, he felt that she was truly on another level, her attainment was as deep as an abyss.

Facing such great trouble, if he could not get rid of it, what would he do?

Sitting on the cushion, after pondering for a while, Fang Yuan’s gaze turned cold as he made a decision.

His consciousness entered his mind, and with just a thought, Mo Yao’s will felt it and her alluring figure appeared from within the pitch-black area in the mind.

“I accept your suggestion, I will return Water Pavilion to Spirit Affinity House.” Fang Yuan transmitted his second thought.

Mo Yao’s eyes flashed with a peculiar light.

She did not expect that Fang Yuan would compromise so quickly.

According to their interaction these days, she understood clearly that Fang Yuan was that type of person with immense willpower, he was very assertive and his personality was tough and bold.

Character decides one’s fate, this kind of person would either become a conqueror or a hero, they were destined to be a man above man, an elite among the elite.

She left behind the six arm heavenly zombie king killer move, but she had some reservations and did not give him the entire thing. Instead of a bait, this was more like an indication of her attitude.

She knew that with Fang Yuan’s intelligence, he would understand what she was trying to say.

She had estimated that Fang Yuan would choose to negotiate with her in about seven or eight days. But in truth, he came to look for her after a day’s time.

“Sigh, a wise man submits to circumstances, a great man is one who is resilient… Unfortunately most people in this world think too highly of their own abilities and refuse to lower their head due to pride. Throughout history, countless experts knew the logic of taking a step back and compromising, but it was easier said than done, when it was their turn, how many people could take that step?” Mo Yao’s will sighed as she said with deep emotion.

“Although Water Pavilion is good, it is not useful to me. You know my situation, right now because of Hu Immortal blessed land, Immortal Crane Sect has declared that I am a member of their sect. Spirit Affinity House and Immortal Crane Sect are both part of the top ten sects in central continent, it will not be easy for me to return Water Pavilion to them.” Fang Yuan said.

“Hehehe.” Mo Yao’s will chuckled: “Young man, I know what you mean. Don’t worry, you are my inheritor, the calamity beckoning Gu is yours, I have no intention to harm you. Returning the Immortal Gu house is a huge matter, I understand the risks clearly. To accomplish this mission, you need to be a Gu Immortal at least. I will do my best to help you become a Gu Immortal, and I will also assist you in obtaining Eighty-Eight True Yang Building. As for my refinement attainment, it will depend on how much you can learn.”

Mo Yao said so as she waved her hand, and a thought floated in Fang Yuan’s heart.

The content was the final crucial part of the killer move six arm heavenly zombie king.

Fang Yuan immediately asked unhappily: “Earth chief zombie? Are you serious, this is the so-called sixth flying zombie Gu?”

Earth chief zombie Gu, he knew about it.

This was obtained by killing an earth chief beast, using its skin and tendons as the materials, combined with tens of Gu worms, and using the yin soil that was nine hundred li deep in the ground, as well as mountain absorbing grass that were hundreds of years old, dark tide flowers and other materials to refine.

Although it was quite strong, a rank five Gu just like asura zombie, heavenly demon zombie, blood wight, nightmare zombie and plague zombie, it could not fly.

Without flying abilities, how could it be a ‘flying zombie’ Gu?

Facing Fang Yuan’s suspicion, Mo Yao laughed arrogantly: “Ordinary earth chief zombie Gu would not do. But who is this big sister? Hehe, I modified the recipe long ago, and refined a new earth chief zombie Gu. When a Gu Master uses it and becomes an earth chief zombie, even without wings, they can make use of the natural magnetic field to soar into the air, and fly as they wish.”

Saying so, she transmitted another thought, it was the recipe of the modified earth chief zombie Gu.

Fang Yuan looked at it and his eyes shone.

Mo Yao had daringly added several new materials into this Gu recipe, among them was original magnetic essence as the main ingredient. That was the most important element in this modification of the Gu.

Fang Yuan thought about it and with his five hundred years of experience, he knew that this Gu recipe was usable, he could not help but praise in amazement.

Mo Yao's will was in his mind, she laughed smugly: "Young man, you really know your stuff. Not bad, you have some talent in refinement. But you have to be careful, this killer move was only created based on what you provided me, I would advise you to test it out on a few people before trying it yourself."

Fang Yuan nodded.

The killer move six arm heavenly zombie king had great power, it was about ten times as strong as four arm earth king and four arm wind king.

Because it was so powerful, once it fails, the backlash would also be equally powerful.

Fang Yuan could test the four arm earth king himself earlier because the risks were not great, he could endure them. But this six arm heavenly zombie king was another story.

…

"The third layer, the third layer has formed!" In the sacred palace, cheers resounded throughout the area.

The rainbow colored aurora was still thick as ever.

As time passed, Eighty-Eight True Yang Building was forming faster and faster, especially the newly formed third layer, it made everyone's urge to explore it go wild.

Eighty-Eight True Yang Building's floors each have a hundred rounds, the earlier rounds were easy. But as they progressed, they got harder and the rewards were greater.

Most Gu Masters do not have the strength to tackle the later rounds, but the earlier rounds had rewards that they would fight for.

A group of Gu Masters, about a dozen, were leaving the palace in a hurry.

When they were about to get past the sacred palace's eastern entrance, Eighty-Eight True Yang Building's third layer formed and these Gu Masters stopped in their tracks.

Jiang Dong looked at Eighty-Eight True Yang Building which was at the peak of the sacred palace, snorting and saying to Ma Hong Yun who was in the group: "You Huang Jin tribe Gu Masters are so lucky, any reward inside Eighty-Eight True Yang Building can allow you to soar to success and gain great riches!"

Ma Hong Yun laughed sheepishly: "Leader is right, hehehe. Sadly, my bloodline is not thick enough, I cannot enter Eighty-Eight True Yang Building. Otherwise, I would go in to expand my vision."

Even though Huang Jin tribesmen were Giant Sun Immortal Venerable's descendants, they were not guaranteed entry into Eighty-Eight True Yang Building.

If their ancestors had diluted the bloodline too much by marrying outsiders, they would not reach the requirement and would not be able to enter.

Jiang Dong heard this and the bitterness and jealousy in his heart lessened. The other Gu Masters in the group also looked at Ma Hong Yun more gently, someone even patted Ma Hong Yun's shoulder and consoled: "You are really unlucky, but never mind, you can earn a fortune this time by coming with us to kill the earth chief beast as well!"

"Yes, yes, yes." Ma Hong Yun nodded as he bowed, laughing apologetically.

He had saved Ma Ying Jie coincidentally. After Hei tribe forcefully took over Ma tribe, due to a series of events, he changed his surname and became Ma Hong Yun, finally allowed to cultivate.

Right now, he was a rank one Gu Master, his aptitude was neither good nor bad.

Of course he could enter Eighty-Eight True Yang Building, but with his strength, there was no point in that at all. During his stay in the sacred palace, he could mix around with hunting groups daily and go out to hunt, it allowed him to earn enough to cover his daily expenses and accumulate primeval stones to cultivate.

As for what he told Jiang Dong, that was Zhao Lian Yun’s instruction before he set off.

Chapter 571 - Deserves death without pity

Chapter 571: Deserves death without pity

Boom boom boom…

The earth rumbled, wolves charged out like tides, they were endless like the flood water, charging forward relentlessly.

Tens of thousands of wolves sprinted, the wolf group was in chaos. There were wind wolves running like they were flying, water wolves with their snow-white bodies, night wolves who were slim and stealthy, turtleback wolves who were stable and sturdy, vermillion flame wolves who were burning fiercely.

Hundred wolf king, thousand wolf king, and myriad wolf king led the army along with the mutated wolves, they were travelling in packs and were very conspicuous.

Like the blood forest wolf, with a bone forest on its back, tall as a mountain. The shark fin wolf with with skin like that of an elephant, while being amphibious. The frenzy wolf with three silver-grey eyes, being a battle maniac.

Inside Imperial Court blessed land, in the light golden sky, there were azure wolves running in the air, howling as they gave off a strong aura.

Fang Yuan sat on an azure myriad wolf king’s back as the strong winds could not affect his determined and resolved expression.

His eyes were dark like the abyss, he was looking down with his thoughts unpredictable.

Although the wolves were scattered when he first entered Imperial Court blessed land, Fang Yuan had been handing out missions to others and had been recalling the old wolves as well as recruiting new wolves since. By now, he had about five hundred thousand wolves running below him like the tides of the sea.

At this point, he was truly at the peak of the mortal realm.

During the Imperial Court contest, he was one of the five beast kings together with Jiang Bao Ya, Ma Zun and others. After the Imperial Court contest, just looking at northern plains alone, he was the current generation's number one enslavement master.

Other than his enslavement attainment, he also displayed great technique in his strength path cultivation, and was also a flying master, it was truly a shocking achievement.

Who did not respect and revere the great Wolf King Chang Shan Yin?

In the entire northern plains, how many could actually put up a challenge before him?

But at this moment, in Fang Yuan's mind, there was a voice 'discouraging' him.

"Hehehe, young man, you want to combine strength and enslavement, that is really a tall order. I would advise you to give up on that as soon as possible."

Mo Yao's will continued: "Strength and enslavement are very distinct from each other. The combination of strength and enslavement has been an age old problem. It was not easy for you to even dual cultivate them, why don't you change them now while it is early, there is no need to do something so meaningless and troublesome, I had gone through this back in my days. You need to know, there are countless paths and ways to be a Gu Master, our strength is not reliant on the number of paths we are on, but the depth of our attainment."

Mo Yao explained to him patiently, but Fang Yuan scoffed, arrogantly refusing: "Problems are meant to be solved, what is there to be afraid of? Enslavement-strength dual cultivation is an age old problem, that is because I had not been born back in those days. I will eventually have the world in my palms, my name will go down in history, just like Star Constellation, Red Lotus, Paradise Earth and others.”

Star Constellation, Red Lotus, Paradise Earth were all rank nine venerables. In the long history of mankind, the river of time flowed endlessly, but there were only ten of them throughout the ages.

Fang Yuan was a mortal, but he was aiming to be such a person, it was like an ant trying to become an elephant.

Such lofty ambitions and tone, even Mo Yao’s will was tongue-tied when she heard it.

…

“Howl!”

“Kill, kill all of these earth chief beasts!”

“Where is the healing Gu Master? Someone is injured, quickly come and help!”

The beasts were growling, the Gu Masters were shouting, a small-scale fight was reaching its climax.

On the relatively small battlefield, there were holes on the ground, broken limbs and blood everywhere. Five to six Gu Masters were surrounding the earth chief beast king, engaging in fierce combat. There were large numbers of earth chief beast corpses surrounding them.

These earth chief beasts had a humanoid body and a snake tail, their face resembled bats, and their nose were pointed up. They had large ears and a black body covered in flesh armor. All around their chests, there were five to six flesh whips, ranging from tens of centimeters to meters long.

The whips were like hands, agile like snakes as they flung with huge force, both offensively and defensively.

The earth chief beasts lived underground, but they only lived near the surface and not deep underneath.

They had great value, be it their eyes, fur, or tail, they were rare and valuable Gu refinement material. What was most rare was their flesh whips, the longer they were the better, whips that were six meters or longer were often priceless, almost none were sold in the market.

Right now in northern plains, earth chief beasts were almost going extinct. But in Imperial Court blessed land, they lived in huge numbers, for example at this area, for the surrounding ten thousand li, there were earth chief beast groups living underground.

Money moved people's hearts, because this was close to the sacred palace, many Gu Masters often gathered in groups and hunted at this place.

This battling group was one of them.

The Gu Masters in the group had hunted down the earth chief beasts for several times already, they were quite experienced.

But this time, they encountered trouble. Although they attracted an earth chief beast group, there were only a hundred of them which was manageable for them. However, the beast king was not an ordinary hundred beast king, but an old thousand beast king. Although this old beast king could not battle and was old and sickly, it had many wild Gu in it, and had truly the battle strength of a rank three.

Among mortal Gu Masters, rank one were students, they had just started and were weak, being the most commonly seen ones. Rank two were the foundation of tribes, the main source of manpower, they were quite common.

Rank three were elders, they were the pillars of support for the clan, and were much more rare than rank two Gu Masters. Rank four were the leaders, capable to leading ten thousand men. Rank five was the peak of the mortal realm, they were the rarest of the mortal Gu Masters.

Earth chief thousand beast king was not a problem by itself, but the rank three that it had were too much for this group to handle.

During the start of the battle, the leader Jiang Dong was decisive and had great experience, ordering his group and bringing some people to break into the beast group, stalling the earth chief beast king, while the others slaughtered the earth chief beasts. Otherwise, the group would have crumbled already.

“Everyone, put in more effort! This old beast is going down, we will win if we can endure!” Jiang Dong shouted to raise the group’s morale.

Everyone replied quickly, raising their concentration and mental focus.

From the start of the battle until now, an hour had passed. The Gu Masters were almost out of primeval essence, but because of northern plains’ culture, these Gu Masters all cultivated strength path as well.

The Gu Masters fought bravely, using close combat primarily, only using their primeval essence when they had no choice to save themselves or others.

Howl!

Right at this time, the old beast king swung its snake tail, causing the air to crackle. The snake tail hit one of the Gu Masters and sent him flying. When he landed, this Gu Master’s chest was smashed and his bones were all broken, he was beyond dead.

Humans had intelligence, beasts had their craftiness too.

The old beast king was really weak, but that did not mean it was powerless. When it burst out its remaining strength, it killed one person immediately.

The Gu Masters were stunned, their morale fell rock bottom.

“Oh no, we were already at a stalemate earlier, that that we are one man down, and my primeval essence is less than twenty percent left, what will we do?” Jiang Dong’s eyes rolled as he thought of escaping.

This hunting group was only established at a whim, although running away would ruin his reputation, what was reputation compared to death?

Northern plainsmen were battle lovers, it was true that they were ferocious and brave, but they were not stupid.

“In the past, life was tough and I could only fight desperately to survive. Now that I am inside Imperial Court blessed land, with ample resources lying around, I should be accumulating my foundation and soaring into the sky. How can I sacrifice my precious life here?”

“I have parents and children back at home, although these hunting gains were good, the primeval stones are only enough to sustain my own cultivation. That rascal at home will be starting his cultivation journey in half a year… thus, sorry everyone!”

Jiang Dong’s gaze shone for a while, as he retreated suddenly, using all his remaining primeval essence on his movement Gu.

He tore through the air, with a ‘swoosh’ sound, he vanished like the wind.

The remaining Gu Masters were stunned again, the leader ran away in battle, what can they do now?

Immediately, everyone scattered as morale became non-existent.

The earth chief beast king growled, chasing after them.

“The f*ck!” Jiang Dong looked back and cursed, his soul almost flew into the nine heavens.

This old earth chief beast king chose to chase after him out of all the people, most likely his ruthless attacks and fierce offense enraged the old beast.

“Oh no, my life will be over at this rate!”

The two ran and chased, as time passed, his primeval was expended and Jiang Dong fell into despair.

“Lord Jiang Dong, please run!”

At this time, a voice could be heard from afar.

Jiang Dong turned around and saw a young man at the left, it was Ma Hong Yun who had joined the group not too long ago. He had rank one cultivation and was a support Gu Master with little battle strength. From the start of the battle, he had been dispatched and was used to investigate the area.

“What a foolish lad!” Jiang Dong was overjoyed, he changed directions and ran towards Ma Hong Yun.

Ma Hong Yun’s eyes were wide open, he saw the old earth chief beast king chasing Jiang Dong and had the urge to remind him. To think that Jiang Dong actually lured the old beast king towards him.

Ma Hong Yun ran immediately, but Jiang Dong was even faster, in a few breaths’ time, he got close to him.

Jiang Dong laughed loudly: “Lad, you saved my life today, your death is not in vain.”

Saying so, he used his Gu worm and knocked Ma Hong Yun unconsciously, stretching out his hand and tossing him behind.

But the old earth chief beast king ignored that free meal and still chased after Jiang Dong non-stop.

Jiang Dong’s laughter came to an end, his mood went from heaven to hell.

Just as old earth chief beast king got close to him, he could hear rumbling in his ears as the ground started to shake.

Next, from far away in the sky, a line was getting bigger and clearer.

Wolves!

Why are there so many wolves?!

The wolf tide rained down from the sky, the grand aura it gave off was like flood water that was engulfing the world.

The old thousand beast king froze, after being in a short daze, it shuddered and turned around to run away.

“Vermillion flame wolves, turtleback wolves… such a wolf group, that’s right, there was an announcement, Wolf King was going to hunt at this area! Ahahaha, my life is not meant to be over, I am saved!”

Jiang Dong cheered loudly after his initial shock. He sat on the ground, his body shivering in excitement, the hope after despair was making him feel great relief as tears flowed out of his eyes.

But the next moment, the wolf tide came without slowly down, charging like a waves as it tore him into pieces in a few seconds.

In the golden sky, atop the azure wolf, Mo Yao’s will spoke in Fang Yuan’s mind with a sorrowful sigh: “Fang Yuan, you allow these wolves to kill every living thing in their path, be it enemy or ally. Your killing intent is too strong, are you not afraid of going against the natural order, are you not afraid of other Gu Masters’ opinion?”

“Hmph, I announced my hunt long ago. These people are overwhelmed by greed, they are like ants, there is no pity for them when they are blocking my path.” Fang Yuan replied plainly.

ChibiGeneral He’s absolutely right, they were informed with adequate response time. No pity at all.

Chapter 572

Chapter 572: Successfully refining the Earth Chief Zombie Gu

Translator: ChibiGeneral Editor: ChibiGeneral

The wolf groups were like a tsunami leaving trail of blood wherever it went in the blessed land.

Fang Yuan was sitting indifferently on the back of an azure wolf king, turning a blind eye to the massacre happening in front of him.

In his mind, Mo Yao's will frowned slightly.

She was a fairy nurtured by Spirit Affinity House, a person of the righteous path; she was naturally not happy at Fang Yuan's casual massacre.

"This young man could disguise his identity and sneak into Imperial Court blessed land under the eyes of northern plains' Gu Immortals; he is a dauntless and crafty person. He also deciphered the clues of my inheritance and refined the Immortal Gu, he was not only fated but also had extraordinary methods. Even more importantly, he knows to bow and submit, when he knows that things cannot always go his way, he immediately compromises, this person is extremely shrewd as well! What is his origin?"

Mo Yao's will could not help but wonder about that question.

She had just recently come out of Water Pavilion and resided in Fang Yuan's mind; she had analyzed many of Fang Yuan's thoughts and immediately learned many of his secrets.

However, Fang Yuan's response was quick and immediately took preventive measures, making her progress slow down greatly.

Thus, Mo Yao's will learnt of Fang Yuan's secrets but what she knew was limited.

Among them included the secrets Fang Yuan revealed to her of his own accord.

She still did not know that Fang Yuan possessed Spring Autumn Cicada, thus she had no way of knowing Fang Yuan's biggest secret of being a transmigrator.

This was the world of Gu.

Mo Yao had already perished and what was left was only a portion of her will. Unable to use Gu worms, Mo Yao's will could only take advantage of Fang Yuan's low attainment in wisdom path.

"I had just recently awakened, I do not know what his background is. This young man has absurdly firm willpower and is extremely opinionated. I should just bide my time and guide him to return Water Pavilion to the sect first. It will not be too late to persuade him to do good once we arrive at Spirit Affinity House…"

Mo Yao's will had inherited some intelligence of the main body and immediately kept quiet when she realized any persuasion would be in vain.

There was no resistance at all; Fang Yuan's dark and eerie gaze slowly retracted, closing his eyes to rest on the wolf's back.

He was not someone who slaughtered willfully.

There was a reason for letting the wolves massacre at full force today.

One was to attract the earth chief beast groups underground. earth chief beast was a wild beast, the thick smell of blood would attract and stimulate their savage nature, making them risk emerging from the ground.

Second was that the massacre would produce large numbers of souls. Since the start of the Imperial Court contest, Fang Yuan had been using soul burial toad to collect the souls. He had Dang Hun mountain, and as long as Dang Hun mountain did not die completely, the more souls he had, the better it was for him.

Third reason was aimed at Mo Yao's will in his mind, he was trying to probe her.

As for the nasty repercussions from wantonly killing Gu Masters, Fang Yuan was happy instead of afraid.

Not mentioning that he had already made a public announcement, making the consequences clear to everyone, even if the public stirs and the resentment and hatred towards him rises, so what?

He was at the peak of mortals, the famous Wolf King Chang Shan Yin! He was no longer the minor character several years ago who had to act cautiously.

In this Imperial Court blessed land where Gu Immortals could not enter, his one shout could cause countless Gu Masters to tremble. His stomp could shake the sacred palace. With one thought, the wolf groups would instantly create a bloodbath.

There was a famous saying on Earth — Political power comes from military strength.

A strong fist is power and power is the truth!

But on Earth, power was concentrated in the masses. Besides violence and fists, one needed to use righteousness to conceal the truth and compromise according to the public sentiment.

But here, individual strength was far above the group. Public sentiment and righteousness were much weaker. Not mentioning anyone else, just take the current Fang Yuan as an example — who cares about your dogshit hatred and grudges, whoever comes will face decimation! Whoever is not pleasing to the eyes, they can be slaughtered with no care at all!

Looking disdainfully at all lives, trampling on the public sentiment, without restraints and free like the wind!

But in Fang Yuan's pursuit of the Great Dao, he had no interest towards casually slaughtering ants. Today's large scale massacre was no more than a small step towards his majestic target.

As he thought of this trip’s goal, Fang Yuan slowly opened his eyes.

Howl!

A beast roar echoed to the skies.

A mound bulged up from a distance before bursting open; mud and stones splattered around as a fifty feet tall earth chief myriad beast king jumped out.

Fang Yuan’s eyes flashed with a chilly light as he sneered: “You shall be the one.”

At once, he commanded the wolf group to attack, endless thoughts flew about in his mind like an endless drizzle.

If one looked from a high altitude, one would see an extremely spectacular scene of innumerable wolves rushing forward like an endless tide.

As they neared the earth chief myriad beast king, the wolves suddenly split into several groups like ants trying to climb up an elephant. At the same time, azure wolves howled and flew down, spiralling around earth chief myriad beast king like birds.

Earth chief myriad beast king jumped towards the wolf group and started rampaging, soon, wolf blood splattered and wolf corpses covered the ground. Its giant legs would leave behind terrifying blood pits in its trail.

Fang Yuan had a smile as he observed the battle from the skies.

Under his control, the wolf groups advanced and retreated, sometimes slowly and sometimes fast, as they charged forward waves after waves, forming a situation of ants devouring an elephant.

Earth chief myriad beast king roared again and again while valiantly charging all around, causing large numbers of casualties in the wolf groups.

In Fang Yuan's mind, Mo Yao gave a soft exclamation of surprise, slightly shocked at Fang Yuan's enslavement path attainment.

"Wow, I had not expected this kid to have so much talent at this young age, commanding these wolves as naturally as breathing, and with such ease like he is moving his arms, he has mastered the art of attrition battle of enslavement path, fighting the strong with a weak force, this is a master level attainment…"

But it was nothing more than a slight shock.

Mo Yao had seen and experienced a lot in her life and was not an ordinary Gu Immortal, but a certain generation's fairy of Spirit Affinity House; her horizons were broad and masters as young as Fang Yuan were not few in her memory.

The battle lasted for a while, earth chief myriad beast king was roaring again and again, its energy was consumed by the wolf groups and could no longer display its fierce might…

Large numbers of earth chief beasts jumped out of the underground and joined the battle.

Fang Yuan chuckled indifferently, commanding the wolves with ease as he had already expected this.

The outcome of this large battle was foreordained from the start. How could a myriad beast scale earth chief beast group be his match?

Such a large battle covered a range of a thousand li, but this was ingeniously divided into dozens of sections of battle circles by Fang Yuan; using the weak wolf groups to surround and then using the strong and vigorous mutated beasts to form an arrow head that charged forward.

The first section of the battle circles was taken down by the wolf group, as they joined with the next group to destroy the second section, the third section; the dominance accumulated and the scales of victory was inclining more and more towards Fang Yuan. Finally, the wolf group's annexing speed increased faster and faster till they butchered earth chief myriad beast king.

“This kid’s enslavement path cultivation is indeed not ordinary. Although his commanding ability is exquisite and bold, using sharp and mild tactics together, he is still far away from grandmaster level attainment.” Mo Yao thought inwardly.

Gu Master raised, used, and refined; no matter which aspect, they were all very profound and deep.

Gu Masters might be using the same Gu worms, but some Gu Masters’ performance would be extremely outstanding to the point that it could be called an art. These people were known as masters!

Master could be discovered but not sought, and could not be cultivated just by investing resources. Not only did it require innate talent, the Gu Master also needed to have capability.

But above master was grandmaster.

Comparing master and grandmaster was like comparing grass and tree. Besides talent, aptitude and resources, grandmaster attainment also required fortuitous opportunities and comprehension.

As long as one reached grandmaster level, they could gain comprehension about any path using their own as a foundation, they could understand about yin-yang and heaven and earth, they could learn about the profoundness of the universe, surpassing the mortal realm and become immortals among immortals, sages among sages.

Mo Yao was a refinement path grandmaster, although she had perished, her broad vision still existed.

She had seen countless masters in her life; the main reason why she felt Fang Yuan’s attainment was impressive was because of his young age.

Not long later, earth chief myriad beast king fell down loudly, having died due to the heavy injuries.

Blood flowed out rapidly and soon formed into a pool of blood beside it.

Fang Yuan descended and personally skinned it, immediately started refining Gu next to the blood pool with wolf groups surrounding him.

Mo Yao's modified earth chief zombie Gu required the freshest flesh, with the flesh of earth chief myriad beast king being the best, thousand beast king being the second best and hundred beast king being the last option.

Thus, Fang Yuan moved out in a large scale and personally killed the earth chief myriad beast king.

The Gu refinement continued for three days and three nights before succeeding perfectly.

Fang Yuan reached his goal, thereafter he dismissed majority of the wolf groups to hunt in the wild, only taking the elite mutated beasts with him as he returned back to sacred palace without stopping.

The battlefield fell into deathly stillness; suddenly, a bloody person made his way out of a hill-sized blood forest wolf corpse.

The bloody person swayed unstably as he moved and had only walked a few steps before falling down to the ground.

He gasped roughly, an incredulous look in his eyes as he muttered: "I am still alive?"

He vigorously rubbed his face, revealing his face.

It was none other than Ma Hong Yun.

After he had been knocked unconscious by Jiang Dong, he had remained down on the ground.

That old earth chief beast king ignored him and chased after Jiang Dong.

But soon after, wolf group engulfed the area and slaughtered all living beings, and Ma Hong Yun ended up in a wolf's mouth.

If it had been an ordinary wolf like turtleback wolf, water wolf or wind wolf, Ma Hong Yun would already have been torn into pieces and would be lying in the wolf's stomach.

Fortunately, it was the hill-sized blood forest wolf that had eaten him.

This wolf opened up its large mouth and with one lap of its tongue, directly licked the ground within a hundred steps. Ma Hong Yun along with the old earth chief beast king's corpse went down into the blood forest wolf's stomach.

If it had continued normally, Ma Hong Yun would already have been digested by the blood forest wolf sooner or later and turn into a pile of wolf faeces.

But following the battle with the earth chief beast group, this blood forest wolf was attacked from all around and died on the battlefield; its chest and belly was torn open which allowed air to flow in.

Ma Hong Yun dizzily woke up and hurriedly drilled his way out. At this time, the battle had already ended and the battlefield was covered with beast corpses. Occasionally, some wild beasts that were at their final moments would gasp for air, emphasizing the deathly stillness in the surrounding.

After Ma Hong Yun breathed enough, his strength started to gradually recover and the thick bloody odor assailed his nose.

He realized the situation was anything but reassuring: "I need to leave this place quickly, wild beasts will be attracted by the odor of the blood not long later."

Ma Hong Yun had been born and raised in Northern Plains, this survival common sense was already deeply ingrained in his bones.

He immediately stood up and made sure of the direction towards sacred palace and immediately set off.

But he had just taken few steps when he stopped.

His sight was attracted by a Gu worm.

This was a wild Gu on the corpse of an earth chief beast.

The earth chief beast had died, the wild Gu on it should have perished or flown away, but this wild Gu was unexpectedly held back by a fractured bone and could not fly away.

“This should be a rank two… something something Gu.” Ma Hong Yun could not remember it clearly, but it did not hinder him from knowing the value of this Gu.

“Good Gu worm, this is a good Gu worm, after getting it, even if I can’t use it for myself, I can sell it for a lot of primeval stones.”

Ma Hong Yun felt a rush of excitement and immediately walked over, easily grabbing the Gu worm.

Chapter 573 - Human Experimentation

Chapter 573: Human Experimentation

Translator: ChibiGeneral Editor: ChibiGeneral

The silver light shone on the garden where the plants were swaying gently.

In a pavilion, Fang Yuan was fiddling with earth chief zombie Gu.

This Gu's shape appeared like an earthworm, bright yellow in color and was the size of an infant's forearm. Right now, it was twining around Fang Yuan's fingers like a wriggling snake.

Through Mo Yao's improved recipe and the flesh of earth chief myriad beast king's corpse, its refinement was successful.

But Fang Yuan had not used it.

He was cautious in nature, this earth chief zombie Gu was refined from a modified recipe, what would he do if there was a problem?

Although he had reached a compromise with Mo Yao's will, Mo Yao was a fairy of the righteous path's Spirit Affinity House as well as a refinement path grandmaster; he could not put his guard down.

‘But grandmasters are truly worthy of their name, my refinement path attainment has already reached the master realm, but when compared to Mo Yao, I am young like a child.’

Recalling the process of refining earth chief zombie Gu, Fang Yuan was still feeling moved.

During the whole Gu refinement process, Mo Yao only spoke three sentences, but they were the crucial guides, the vital finishing touches. Fang Yuan was able to gain a lot of insight from them.

He, however, did not know Mo Yao was also inwardly moved at this moment.

‘Double master attainment… I had not expected this kid to not only be an enslavement path master but also refinement path master. Double master attainment at such a young age, such aptitude and talent are rare even in my memory. No wonder he has such grand ambitions of wanting to rise to the realm of venerable, equal to Thieving Heaven, Paradise Earth, Giant Sun….’

‘It is also natural to be arrogant and conceited after getting success at this young age.’ Mo Yao still scoffed at Fang Yuan’s ‘goal’ of being equal to venerables, but she understood.

‘Becoming a master can’t be done with just talent and aptitude, it also requires sufficient resources and even guidance from great teachers. It seems this kid’s background is quite deep.’

Previously, Mo Yao already knew the secret of Fang Yuan possessing Hu Immortal blessed land. Now, with the intel of ‘double master attainment’, she sensed the deep origin of Fang Yuan.

“Lord Wolf King, Ge tribe’s and Chang tribe’s leaders have come forward to have an audience.” Right at this time, a servant reported from outside the door.

Fang Yuan collected his thoughts, these two had been called by him. He indifferently said: “Let them in.”

“Yes.” The servant respectfully retreated.

Not long later, two people came forward and kneeled, kowtowing three times to pay their respects, an extremely respectful and fearful expression could be seen on their faces.

Going through the baptism of Imperial Court contest and being at a high position with no lack of resources, under the shade of a large tree like Wolf King, Ge Guang and Chang Ji You were already rank four Gu Masters.

Fang Yuan glanced and asked without allowing them to rise: “Have you completed the things I told you a few days ago?”

After Fang Yuan succeeded in his expedition and returned to the sacred palace, he gave an order to the two tribe leaders to gather all their tribe’s Gu Masters to clean up the battlefield.

“As per Lord Wolf King’s words, the battlefield has been cleaned up, altogether…” Ge Guang was about to report the gains, but was interrupted by Fang Yuan.

He did not care about these battle spoils, asking: “How many Gu Masters did you arrest?”

Ge Guang did not reply this time, instead signalled Chang Ji You who was at the side, with his eyes.

Everyone knew Chang Ji You was Chang Shan Yin’s own son, and after Fang Yuan took control of Chang tribe, he appointed Chang Ji You as the tribe leader.

Ge Guang was letting Chang Ji You reply to Fang Yuan’s question, in light of this relation and to express his goodwill to Chang Ji You.

Chang Ji You spoke with a respectful expression, his gaze revealing a crazed fanatical worship: “People’s hearts are unfathomable with insatiable greed. Despite lord father’s public announcement, there were still many Gu Masters who sneaked into the battlefield to steal beast corpses or wild Gu. Over these few days, I and tribe leader Ge Guang combined our strength and were able to arrest over one hundred and eighty Gu Masters who are locked up in the prison now. But there were still many crafty and treacherous scoundrels who took advantage of when we were not on guard to sneak in and make some free gains. I have interrogated the prisoners and have much intel on them already. As long as father commands, I will definitely spare no efforts to lock up all these escapees!”

Although Chang Ji You was kneeling on the ground, his upper body was upright as he spoke in an unafraid tone; his aquiline nose, dark brows, broad back and thin waist gave him a heroic aura.

Fang Yuan smiled, he had no interest in capturing these escapees: “The battlefield is vast and is not restricted with doors or obstacles, you have already done great by capturing so many Gu Masters. As for the others, it is their skill that they were able to escape, there is no need to chase after them. You can leave now, and bring those detained captives here.”

“Yes, this subordinate (this child) heeds your command!”

Not long later, the two escorted close to two hundred captives to Fang Yuan.

With Fang Yuan’s command, a large hall had been created to lock up these Gu Masters.

“You guys go out and close the door, guard the entrance and don’t let any outsiders enter within a hundred steps. If some experts arrive, inform me in advance.” Fang Yuan dismissed everyone, the hall now only had him and the captives.

The door was locked and as no lanterns had been lit, the hall sank into darkness.

This no doubt increased the unease and anxiety in the captives’ hearts.

“Lord Wolf King, what are you intending to do by capturing us? I am a Hei tribesman and talking of relation… Hei Lou Lan is my older cousin!” Among the captives a young Gu Master shouted.

Fang Yuan sneered and with a snap of his fingers, activated a Gu.

Tch. A soft sound was heard and the young Gu Master’s head burst out like a watermelon, spurting out white brain matter.

A huge clamor instantly occurred as the captives were terrified and fell into panic.

Soon, someone took the lead and the others also followed suit, kneeling down one after another.

“Lord Wolf King, I deserve death!”

“I shouldn’t have gone to steal lord’s battle spoils, my conscience was blinded!”

“Lord, please forgive us, lord have mercy…”

Fang Yuan had a terrifying reputation, and now he casually killed without even saying a word.

None of these Gu Masters were experts, most having only rank one or rank two cultivation. Their background was not good and they were unable to enter Eighty-Eight True Yang Building, facing a rank five peak stage expert like Fang Yuan and trying to resist would only be looking for death, so they could only ask for forgiveness.

“Noisy”. Fang Yuan shouted in a soft voice, but his voice echoing in the hall.

He casually waved his hand, killing the person that was begging in the most mournful voice, even though they were quite far apart.

“I will kill anyone who dares to make more noise.” Fang Yuan indifferently said, his voice was not loud but it lingered in the captives’ ears.

The whole hall instantly fell into deathly silence out of fear; even the sound of a pin dropping could be heard.

Fang Yuan only then felt satisfied and asked Mo Yao’s will in his mind: “Now how should I experiment?”

Mo Yao chuckled: “This is easy, little brother just needs to arrange Gu worms according to my instructions.”

She directly addressed Fang Yuan as ‘little brother, giving a feeling of intimacy. Fang Yuan snorted inwardly, but did not retort and followed Mo Yao’s instructions.

Every time Mo Yao notified, Fang Yuan would respond by sending out a Gu worm.

These Gu worms were the Gu worms to form six arm heavenly zombie king killer move; earth chief zombie Gu, asura zombie Gu, heavenly demon zombie Gu and so on. Some were thrown towards the roof and some were placed in the corners.

As the Gu worms made an arc through the air, trails of colorful light appeared in the captives’ eyes.

These people were very anxious, but they did not dare to ask anything. They stood on their spots without even daring to move a little just like little whelps.

The headless corpses of the two captives Fang Yuan had killed were still around them, the odor of blood gradually pervaded the hall as the blood flowed out of the severed necks.

After arranging these Gu worms to their spots, Fang Yuan successively started to pour primeval essence into them according to Mo Yao’s instructions.

This process of pouring the primeval essence was quite specific; one moment, he had to choose a Gu worm in the southeast and the very next moment, it would be northwest, and suddenly, it would be the Gu worms to the sides. The main Gu at times, and the supporting Gu worms at times.

Even Fang Yuan felt baffled and had inwardly put up his guard.

When all the Gu worms were activated, the light from them gradually linked together and soon formed a pale yellow light house that covered the hall, including all the captives within.

“This is?!” Fang Yuan’s thoughts shook and his pupils widened.

Mo Yao’s will softly smiled as she explained: “This is a Gu house.”

Fang Yuan involuntarily blurted out: “Is the essence of this six arm heavenly zombie king a Gu house?”

Mo Yao chuckled: “Foolish kid, could it be that you don’t know the true nature of a Gu house is a killer move? … Six arm heavenly zombie king is a killer move, a Gu house is also a killer move, their essence is the same, so they naturally can be mutually switched.”

Fang Yuan’s eyes flashed brightly as he sensed the unspoken implication of Mo Yao’s words, immediately asking: “From your words, couldn’t all killer moves turn into Gu houses?”

“Of course.” Mo Yao unhesitatingly replied, “Man is the spirit of all living beings while Gu is the essence of the world, carrier of the Great Dao. A Gu worm has one ability. What is a killer move? It is an assembly of different Gu worms stacking their abilities; it can raise the strength of one ability to a very high level or produce multiple abilities which can handle different aspects.”

Mo Yao did not explain further, whether Fang Yuan could have some comprehension from this was his own matter.

Fang Yuan stared blankly, inspirations started flashing incessantly in his mind!

Mo Yao’s words seemed to pierce through a paper window, allowing his insight to rise to a whole new height.

“Right! A Gu house’s essence is a killer move which has solidified. For example, Eighty-Eight True Yang Building can be compared with Water Pavilion. The former covers the Imperial Court, influences northern plains, plunders resources and holds inheritances. The latter can be concealed, and has the ability of defense and storage. These functions were not provided by just a single Gu worm, but were the result of Gu Masters assembling these Gu worms.”

“From another perspective, a Gu house is just one form of manifestation of a killer move. Since six arm heavenly zombie king can only take effect on me, one person, why can it not form into a Gu house and simultaneously take effect on many people?”

At this thought, Fang Yuan looked ahead.

In the Gu house, those Gu Master captives' bodies were already beginning to show changes.

“Wha… what is happening to me?!” Everyone was shouting in fright as they saw golden scales growing out rapidly on their skin.

“Ahhh, it is painful, it is painful!””It itches, it is too itchy, I can't endure this, just kill me!” Soon, they fell down to the ground one after another; some madly grabbed their skin and tore off their clothes, while others bent their body like shrimps, covering their chest tightly as blood flowed out of their mouth and nose.

“This, what is this thing? Why is there a monstrous arm growing out of my back!” Not long later, the alarmed screams reached the peak, the soundwaves even shaking the roof.

All sorts of arms started growing one after another; some were dark green, some dark purple, some yellow, and their thicknesses were also different, the deformities looking very unsightly.

But Fang Yuan had never bothered with these minor details to external appearance, his eyes slightly squinted when he felt the dangerous aura the Gu Masters started releasing; he felt very happy as well as apprehensive —

“Mo Yao's understanding of killer moves is extremely profound. But why do others have no such comprehension? Is it because most Gu Masters and even Gu Immortals don't have the skill to casually transform killer moves into Gu houses? Refinement path grandmaster… this is truly a terrifying realm!”

Chapter 574 - Mo Yao's weakness

Chapter 574: Mo Yao's weakness

Translator: ChibiGeneral Editor: ChibiGeneral

In the deeply secluded hall, only Fang Yuan was standing.

There was a deathly silence.

The faint yellow light merged into one, forming the shape of a Gu house, inside the house of light was a floor of corpses.

Almost two hundred Gu Masters died a terrible death.

Among these corpses, some had scales on their bodies, some were hard as steel, some grew weird limbs and had a grimacing expression, some self-detonated and caused their broken limbs to fly all over the place.

Fang Yuan's expression was grim, he questioned Mo Yao in his mind: "This is the killer move that you thought of?"

Mo Yao replied with unphased confidence: "These Gu Masters were certainly going to die. Six arm heavenly zombie king is a strength path killer move, it has high requirements towards the body. Now it seems, even with your strength path foundation, it is unable to endure such an intense move."

Fang Yuan scoffed, expressing his unhappiness: "This is your explanation? You think I could not tell? This killer move has so many flaws, initially fifty to sixty people died, midway about a hundred had died, and towards the end we were only left with six to seven Gu Masters. There are at least seventeen flaws! Do not forget that we have an agreement.”

“Hehehe.” Mo Yao chuckled, she felt nothing from being threatened, as she replied: “Little brother, don’t be so rash, six arm heavenly zombie king has only been created roughly, it is normal to have flaws. As we continue to improve on it, it will eventually meet our expectations.”

She replied to Fang Yuan as she thought: “This lad is not simple, he could detect seventeen flaws… with his refinement master attainment, he should only be able to find eleven at most, it seems that his strength path attainment has also reached the edge of master level.”

Mo Yao did not know that Fang Yuan was playing mind games here.

“I could only see seven flaws, I purposely added ten in order to probe her, it seems that this killer move’s flaws are more than just seventeen.” Fang Yuan assessed in his mind.

Mo Yao was testing out his level of attainment, but Fang Yuan was also probing her foundation as well.

Six arm heavenly zombie king was full of flaws, all of the Gu Masters used for the experiment were dead, but Fang Yuan was happy instead of being worried.

“Logically speaking, Mo Yao has refinement grandmaster attainment, even if it is a roughly made killer move, there cannot be so many flaws! But while Mo Yao is indeed a refinement grandmaster, this is only a part of her will that she left behind…”

Fang Yuan’s compromise was real, but he had never given up on his goal to get rid of Mo Yao’s will.

Through his current probing, he found out one weakness of Mo Yao’s will.

“Although I am not familiar with wisdom path, I had spent a great fortune and bought much costly information from treasure yellow heaven, they are valuable knowledge.”

“Wisdom path seeks the path of knowledge, it is split into ‘thought, ‘will’, and ’emotion’. Thought is the foundation, when a person thinks, thoughts are created. When many thoughts are gathered, will is formed. With many wills intertwined, emotions would form. Thoughts are like weeds, they can be easily created or destroyed, will can be everchanging, firm as steel, empty like vacuum, or fierce like fire… As for emotions, they are like water, a small stream when thin, but cannot be cut easily or steered by reason. When deep, they will be like the sea, having great control and power over oneself.”

“Out of these three, emotion is the hardest to get rid of, while thoughts are most easily destroyed and created. I should be glad that what is inside my mind now is Mo Yao’s will and not Mo Yao’s emotions.”

“When a person thinks, thoughts are created. When thoughts collide, they either get destroyed or fuse. The eventual thought would be the result obtained from thinking. Then what about a portion of a person’s will? Hehehe.”

Fang Yuan thought of the brilliant part and he snickered in his heart continuously.

Wills do not form by just gathering randomly scattered thoughts together. But will is truly the linking together of countless thoughts.

When a will thinks about a question, it will use its own thoughts to fuse and create new thoughts, getting the results of their thinking.

“Mo Yao is a refinement grandmaster, her will also inherited her grandmaster attainment, but the flaws created in thinking about six arm heavenly zombie king were not due to her limited abilities, but because she did not dare to think too deeply as she had to worry about her own safety.”

By now, Fang Yuan had discovered Mo Yao’s weakness!

A living person would feel weakness in their body if they thought about things non-stop, not to mention a simple will?

The more a will thinks, the more damaged they would get, and the weaker they would be.

If Mo Yao was alive, the expenditure that her will incurs would be replenished by her main body. But now — Mo Yao was already dead!

Why did her will sleep inside Water Pavilion, only awakening when Fang Yuan entered?

That was because her will could not stay awake all the time, one thinks extensively when they are awake, the more she thought the weaker her will would be, and the faster it would perish.

Look at Eighty-Eight True Yang Building, this majestic rank eight Immortal Gu house, containing Giant Sun Immortal Venerable's will.

Even for someone as strong as Giant Sun Immortal Venerable, the will that he left behind was also slumbering!

Be it Giant Sun's will or Mo Yao's will, they were without a power source, they could not be replenished and could only weaken as time passed.

"While my wisdom path attainment is low, I have the greatest advantage in that I am alive! At this point, I cannot contest with Mo Yao's will, but as long as I have enough time to stall it out, I will definitely win."

After pondering to this point, Fang Yuan stopped this train of thought.

After all, Mo Yao's will was inside his mind. Reflecting for overly long would create more thoughts, although he could use space thought Gu to hide them, there was no guarantee that Mo Yao would not find a way around it.

"Sigh…"

In the grand hall, Fang Yuan's sigh could be heard.

Mo Yao was a huge burden, Fang Yuan had to be wary all the time when he thinks.

Originally, getting into Imperial Court blessed land and taking Immortal Gu Landscape As Before was already taxing on him, having to make so many considerations. Coupled with such a huge enemy now lurking inside his brain, Fang Yuan had to be very careful of the danger while attempting to solve it, every time he thought about a problem, he would have to mix in some random thoughts to conceal his intentions.

This kind of thinking would be easily achieved in the past if his heart was calm. But now, Fang Yuan felt that it was very taxing, he felt a strong mental fatigue.

Mo Yao's will heard this sigh and misunderstood Fang Yuan, consoling: "Hehehe, little brother, you are so young, but already so hardworking, why are you sighing? I have revised the killer move, you need to change six Gu worms and add in three more."

"Oh?" Fang Yuan's brows rose, he said expressionlessly: "I am listening."

Mo Yao told him the details.

Fang Yuan had Hu Immortal blessed land in his possession, it was not a problem to connect to treasure yellow heaven and exchange for a few mortal Gu.

At the same time, Fang Yuan instructed Ge Guang and Chang Ji You to secretly bring captured Gu Masters into the hall.

Three days later, another round of human experimentation begun.

The experiment's result was better than earlier, but there were still flaws.

Mo Yao summed up the results and gave another revised suggestion.

Fang Yuan acted accordingly, he showed no impatience even after many rounds. He knew clearly: Mo Yao's will had refinement grandmaster attainment, but the more she thought, the weaker she would be, the rounds of experiments were so that they could replace the strain on her thoughts by using test subjects.

But even so, Mo Yao's will had to think of the revision herself. When she thinks about this, thoughts would generate!

The more she does this, the weaker her will would be.

Fang Yuan did not intend to alarm her, he was prepared for a drawn out battle.

After half a month, during the fifteenth experiment.

In the hall, corpses were scattered everywhere.

Fang Yuan kept the dozens of Gu worms used for six arm heavenly zombie king, looking around and giving a satisfied nod.

The test subjects had low cultivation level, they could not endure such a strong killer move like six arm heavenly zombie king, they were sure to die.

But how they died, and what happened to them after they died was the important thing.

Right now, among these corpses, some has turned into zombies, some had yellow scales, some had six arms on their backs, some had sharp spiky scales, some had thick arms with bulging muscles, some had pitch-black claws on their hands, created by their sharp nails.

"Six arm heavenly zombie king uses borrow strength Gu as the core, and the six flying zombie Gu as the foundation, with eighteen Gu as the complements. Strictly speaking, this is a transformation path killer move, gathering the zombie energy to turn a person into a flying zombie. That way, the Gu Master's body becomes more than ten times as strong, and can hold even greater strength." Fang Yuan spoke slowly, concluding his gains from these previous days.

"But precisely because of this, the zombie energy is extremely dense and the backlash of this killer move is very severe. Even if we had three life force type Gu among the complementing Gu worms, we can only sustain the killer move for seven minutes. That's about it, right?" Fang Yuan asked Mo Yao's will in his mind.

Mo Yao laughed: "Little brother makes much sense, that is true indeed. Using borrow strength Gu to borrow the strength of the natural phenomena in heaven and earth, but even a rank five strength path expert cannot use it casually. Thus, I thought of using a zombie body as the strength of a zombie body surpasses living flesh, it has great regenerative abilities and complements borrow strength Gu really well."

"But Gu Masters are alive, while zombie energy is the power of the dead, the longer you maintain the six arm heavenly zombie king transformation, the more zombie energy would be in your body, and when it devours your lifeforce, you will turn into a zombie completely, unable to change back. That is the backlash of this killer move."

"Sigh, life force and death energy, they are entirely distinct from each other and like archenemies. The fusion of life and death is also an age old question, it is out of my capabilities. It was my limit to place three life force boosting Gu worms in the killer move. If we put more of these Gu, it will disrupt the zombie energy and the killer move's power will fall, or even completely collapse. If we use too few of them, the time you can use this transformation will shrink, and it will turn into an impractical move."

Fang Yuan heard this and nodded on the surface, expressing his agreement, but he was chuckling in his heart.

These words from Mo Yao were a suspicious change in topic.

The fusion of life and death was indeed an age old question, there had never been a case of a person being simultaneously dead and alive, the two could not co-exist.

But Mo Yao was a refinement grandmaster, could she not think of any other killer moves?

Why must she use six arm heavenly zombie king? That was because this could greatly reduce the thinking she had to do, since Fang Yuan provided the base of the killer move 'four arm wind king', she just had to improve on it.

Fang Yuan was almost certain, with her grandmaster attainment, Mo

Yao could easily start all over again and think of a brand new killer move.

“Mo Yao is a variant human, she is an inkman. As someone of a different race, she definitely has a different standpoint. These days, we used up to a thousand Gu Masters to experiment, she is a righteous path person, the fairy of Spirit Affinity House, but she watched coldly by the side. Her lover is the great Sword Immortal Bo Qing, it seems that within her affection, there was also the element of being attracted to the strong?”

Bo Qing was the ‘pseudo-Immortal Venerable who split the five regions with his sword’, compared to him, Fang Yuan was only a mortal, in Mo Yao’s heart, was he about the same as those test subjects who died?

“Thus, in this world, one has to depend on themselves. Only you yourself are the most reliable person.” Fang Yuan sneered in his heart, but he did not point it out, he asked Mo Yao instead: “So, has the killer move six arm heavenly zombie king been completed?”

Mo Yao shook her head: “Not yet, we only experimented on low rank Gu Masters, we still need high rank Gu Masters, preferably rank five, if they are a strength path rank five, that would be the best.”

“Rank five strength path?” Fang Yuan frowned, other than himself, there was nobody he knew who met the criteria.

Fang Yuan shook his head, he decided to put this matter aside: “No rush, I have already obtained the materials for ink transformation. It is time to explore Eighty-Eight True Yang Building again!”

Chapter 575 - Entering True Yang Building again

Chapter 575: Entering True Yang Building again

Fang Yuan entered the central control room once again.

As the name implied, the central control room was the important control center of Eighty-Eight True Yang Building.

The secret room was round and its walls were flickering with starlight, with a white jade round table at the center. There was an exquisite model of the whole Imperial Court blessed land on the round table, just like a military sand table.

Not only did it depict mountains and rivers and the sacred palace at the center, even the small towers in the blessed land were clearly visible.

“I have returned once again.” In Fang Yuan’s mind, Mo Yao’s will sighed with deep emotions.

Fang Yuan ignored her and looked towards the white jade round table.

He had first used the guest token to enter Eighty-Eight True Yang Building, then passed with high grade evaluation which allowed him to enter the treasure room. He then refined the guest halt stele and found the glass owner token, using it, he then entered the central control room.

But because of Di Qiu inheritance, he chose to momentarily halt his plans for Eighty-Eight True Yang Building, eventually refining calamity beckoning Gu.

All in all, Di Qiu inheritance provided both benefits and harm to Fang Yuan. Fang Yuan was able to obtain an Immortal Gu, but its ability was quite unique in that it harmed oneself to benefit others.

And then there was Mo Yao's will which had sneaked into his mind; Fang Yuan could not get rid of it and as such the internal pressure on him was huge. But undeniably, the pointers given by Mo Yao's will reaped him much gains, not mentioning the insights regarding refinement path, just the six arm heavenly zombie king and ink transformation killer moves along with the improved earth chief zombie Gu recipe were extremely valuable!

Besides these, there was also an enormous benefit; Mo Yao's will would be of huge help to Fang Yuan's plans in Eighty-Eight True Yang Building.

After all, Mo Yao was a refinement path grandmaster who had researched Eighty-Eight True Yang Building in-depth. She was a legendary character who, back then, had infiltrated into Imperial Court blessed land and created a loophole where she set up Di Qiu inheritance!

Fang Yuan had his previous life's memories along with the video of the central continent Gu Immortals attacking Eighty-Eight True Yang Building, he also had first hand information from Lang Ya land spirit and now, a great assistant was with him in the form of Mo Yao's will.

As such, he was fully confident in this trip.

But shortly after, his gaze paused as he let out a surprised gasp.

He clearly remembered that the sand table on the round table had been covered with a layer of sticky black liquid and the black liquid had formed into a whirlpool which then slowly entered towards a hole in the sand table.

This hole was none other than the location of Di Qiu inheritance.

But now, there was no trace of the black liquid on the sand table and the location of the Di Qiu inheritance was also completely restored in the sand table, with no trace of any hole.

This sight was like a heavy punch to Fang Yuan's confidence.

His mind was jolted and as he was about to make guesses, Mo Yao's will chuckled, already knowing his intent: "If there are gains, there will be losses as well. Little brother, you have already taken Di Qiu inheritance, and with Eighty-Eight True Yang Building's might, it was bound to have fixed that flaw; the cave in Di Qiu inheritance exists no longer and a small tower should have been reinstated there."

"Without the loophole, how can I refine the glass owner token into one-edge owner token?" Fang Yuan asked for advice.

"If there is no loophole, then just create a new one." Mo Yao proudly smiled, "Why did I impart you the refinement path killer move ink transformation? You should have already guessed it, the black liquid covering the sand table you saw back then was caused by ink transformation killer move."

"If there is no loophole, make a new one?" Mo Yao's words revealed the bearings of a refinement path grandmaster, causing Fang Yuan to raise his brows.

Although it sounded easy from her words, how should he create the loophole?

At least, Fang Yuan who was a refinement path master did not have such ability.

Mo Yao continued: "The loophole cannot be casually created. Carelessly doing it will only awaken the slumbering Giant Sun's will. If his will awakens, then we will face a tragic end. Fortunately, Eighty-Eight True Yang Building has gone through many changes, it is already no longer as perfect as before, time has created all kinds of blemishes in it; back then, I chose the Di Qiu location because the blemish in it was the largest."

"So it was like that." Fang Yuan nodded, inwardly happy.

Mo Yao's will was like a water without a source, if they wanted to look for the blemishes and the loopholes, it would require large amounts of thinking, and this would cause her will to be greatly exhausted.

But Mo Yao did not satisfy Fang Yuan's intention and instead said: "Little brother, use your mind to explore the sand table according to my instructions, I will tell you the secrets of the workings of Eighty-Eight True Yang Building and help you find the blemishes."

"Okay." Fang Yuan's gaze flashed.

This action of Mo Yao was not out of his expectation.

She cherished her existence, but it was okay that she was not thinking. Fang Yuan could use this chance to learn from her and increase his understanding of Eighty-Eight True Yang Building.

The marvels of Eighty-Eight True Yang Building were extraordinary; as Fang Yuan entered the sand table with his mind, he felt like he was a small boat on an ocean, only sensing its limitless and unfathomable vastness. Every corner and side of it was a lesson to be learned and pondered upon.

He instantly felt that he was a minute existence and gasped in amazement.

According to Mo Yao's directions, Fang Yuan found a total of fifty-four blemishes, and thirteen blemishes among them were relatively larger, forming into flaws that were comparable to the Di Qiu location before.

This result made Mo Yao sigh: "So many years have gone by and even Eighty-Eight True Yang Building cannot escape the damage from the river of time. Thinking of back then, I could only find thirty-eight blemishes with only six that had formed into flaws."

Pausing for a moment, she then continued to give directions to Fang Yuan: "Little brother, now you can use the killer move ink transformation to refine these several flaws."

Fang Yuan followed her words and with frequent shifting of his mind, over eight hundred Gu flew out of his aperture.

There were Gu worms from rank one to rank five of metal, wood, water, earth, rule, soul, blood and other paths, among these dark path was of primary importance.

Although they were all mortal Gu, but for ten or so Gu worms among them, some were already extinct during Medieval Antiquity Era and some even went as far back as Remote Antiquity Era. Thus, they were extremely rare and were completely extinct from the five regions, with only some Gu Immortals having them in their collections.

Fang Yuan had to spend a considerable amount for these Gu worms, spending at least one and a half immortal essence stones.

Immortal essence stones were extremely valuable and could directly replenish a Gu Immortal's immortal essence and help them cultivate. At the same time, they were also a currency used by Gu Immortals.

Even during Fang Yuan's peak period in his previous life, he had only been able to collect just over sixty immortal essence stones.

In this life, he gained profits from risk, and since obtaining Hu Immortal blessed land, his highest amount of savings was twelve immortal essence stones.

Now, he only had two immortal essence stones left.

There was nothing he could do about it, too many fields required the use of immortal essence stones.

Purchasing wolf groups, gathering the intel on wisdom path, purchasing Gu worms and so on, all required immortal essence stones.

Close to a thousand Gu worms fluttered about in the air, like a light drizzle.

Fang Yuan put all his concentration in commanding and arranging these Gu worms and when the time was ripe, he shouted softly: “Ink transformation!”

The Gu worms turned into a dark cloud and rain started falling down from the cloud and made pitter-patter sounds as they hit the sand table, turning into drops of inky liquid.

The ink drops started to add up slowly and covered the whole sand table.

Fang Yuan's concentration was gathered towards a specific flaw, urging the inky liquid to flow towards the flaw.

The primeval essence of a rank five peak stage aperture rapidly decreased, and the inky liquid was also exhausted by over half before it was able to break through a layer of indistinct obstruction and formed into a whirlpool, slowly pouring into the hole in the sand table.

At this scene, Mo Yao spoke: "Throw in your glass owner token."

Fang Yuan did as told and threw in the glass owner token.

The glass owner token sank into the inky whirlpool with no trace to be seen, the inky liquid also started being consumed even more rapidly. After about an hour, the dark cloud was the first to dissipate. After four hours, the inky liquid disappeared completely, and a completely new owner token slowly flew out of the hole.

Fang Yuan grabbed this owner token that had already changed its appearance. On the edge of the previous surface, a sharp protrusion appeared like a horn.

"One-edge owner token, sure enough fits its name." Fang Yuan mumbled.

"In Eighty-Eight True Yang Building, after a descendant of Giant Sun Immortal Venerable passes a floor, the owner token will advance into one-edge owner token and be able to grasp control of a floor. At the same time, the descendant can enter the treasure room and take a treasure within, without the need to exchange. If the descendant can pass through ten floors, the owner token will become a ten-edges owner token which allows the descendant to retrieve a Giant Sun inheritance from the treasure room." Mo Yao introduced.

"Giant Sun inheritance?" Fang Yuan's heart thumped in excitement.

Mo Yao continued: "Right, Giant Sun Immortal Venerable made arrangements for his descendants, arranged the rules of the Imperial

Court contest, set up Eighty-Eight True Yang Building and left behind eighty-eight inheritances in it. An Immortal Venerable's inheritance is naturally not a small thing. But in history, the Imperial Court winners who were able to pass ten floors were extremely few. When I was alive, there were still fifty-three inheritances left out of eighty eight, I am not sure how many remain now."

"Hehehe, speaking of this, even I am envious of your luck. There are altogether thirteen flaws we found. Every flaw after the ink transformation can advance the owner token by one edge. If you can use them all, you will obtain a thirteen-edges owner token and can totally take a Giant Sun inheritance! Sigh, it is not like back then, when there only were six flaws."

When Fang Yuan heard this, his fiery heart felt like it was doused with a basin of cold water, he bitterly laughly: "Using all the flaws? I won't conceal it from you, I only have two immortal essence stones now, I can only support one more ink transformation killer move."

"Oh, it was like that?" Mo Yao's gaze flashed.

While Fang Yuan was probing her, she was also probing Fang Yuan.

Immortal essence stones were one of the important standards of evaluating Gu Immortals. Fang Yuan might still be a mortal but with Hu Immortal blessed land, he was already treated as half an immortal in Mo Yao's heart.

"So this kid only has two Immortal essence stones? Are his words true or a lie?…It should be the truth. The temptations of Giant Sun's inheritance is not something normal people can resist. He is a refinement path master, he naturally knows the more flaws he refines and the higher grade his owner token is, the more convenient it will be for his plans towards Eighty-Eight True Yang Building. The most crucial point is I am hiding in his mind, it will be impossible for him to hide from me and secretly refine them."

"Now, he would ask for help from the forces behind him. Hmph, this brat conceals too deeply, he will have to reveal his background at that time, and I will be able to know a thing or two."

While thinking this, Mo Yao had a pleasant and benign expression as she gave an idea to Fang Yuan: “There is no need to hurry. Owner tokens can mutually annex each other. As long as you annex the current alliance leader Hei Lou Lan’s owner token, who is to say you might not be able to gather ten edges?”

She indeed lived up to the name Mo Yao, knowing so many behind-the-scenes details.

Fang Yuan’s gaze turned sharp and he intentionally said in a higher voice: “You want to make me go against Hei Lou Lan? Are you thinking of pushing me to my death? Although Hei Lou Lan is easy to deal with, the Hei tribe behind him is a super level force with many Gu Immortals looking after him!”

“Hey, you are an audacious lad, you can disguise your identity to infiltrate Imperial Court and yet you are afraid of mere Hei Lou Lan? Moreover, I did not say you have to kill him, you only need to take the owner token from his hands, that’s all.”

Fang Yuan’s gaze changed: “Hei Lou Lan cannot be killed, killing him is like poking a hornet’s nest, Hei tribe is not something I currently can provoke. But that owner token, he definitely treasures it as dearly as his life. Tell me, what should I do?”

‘Can’t provoke currently, isn’t he saying it might be a different case in the future? This kid’s ambition is truly big…’ Mo Yao acutely sensed the key word in Fang Yuan’s speech.

As for the problem Fang Yuan mentioned, she did not want to think too much, so she spread out her hands in Fang Yuan’s mind: “How you take the owner token from him is your problem.”

Chapter 576 - Killer Move Reward

Chapter 576: Killer Move Reward

Translator: ChibiGeneral Editor: ChibiGeneral

“Kill!”

“Damn it, another myriad beast king!”

In the huge desert, the heat in the air was distorting one’s vision, as sandworms crawled out from underneath the golden sand terrain.

The Gu Masters were occupying the small area of a sand dune, desperately defending themselves.

This was Eighty-Eight True Yang Building’s seventh floor, the eighty-ninth round.

Every round was a new area entirely, filled with all sorts of tests.

A sandworm myriad beast king entered the battle, causing ripples to form in the Gu Masters’ defenses.

“Hold on, just forty-five minutes more and we will get through this round!” Sole Blade General Pan Ping shouted as he tried to boost morale.

He was a demonic Gu Master who had joined Hei tribe to become their external elder.

He had great battle strength, but this round was focused on defense.

It required the challengers to stay on the specified dune for twelve hours, facing the attacks of the sandworms in waves. Unlike Gu

Immortals, mortals had limited strength alone, thus it was the best if more people challenged the round.

But Pan Ping's words had little effect.

By now, there were great losses to the Gu Masters, they were all tired and reaching their limits.

"The f*ck, another myriad beast king, how are we going to survive?" Big Beard wiped the blood and sweat off his face as he shouted.

Nobody knew his real name, because his beard was really thick, he was simply called 'Big Beard'.

In the earlier rounds, he had gotten through the sixth floor's eighteenth round, thus becoming a little famous from his previously unknown background.

He was originally a rank two Gu Master, as common as a pebble in the sacred palace, a true fodder, but because of the reward for clearing the round, he rose to rank three realm.

It was different when a Gu Master becomes rank three.

Rank two were common, rank three were rare, they were mostly elders.

When Big Beard became rank three, his situation improved, and his high quality primeval essence caused his battle strength to surge, allowing him to obtain more battle rewards. Not only this, many middle-sized tribes gave him an offer to join — small tribes could not afford to have an external elder while large tribes had no use for him.

"This is the eighty-ninth round, if we get through this, the reward will be shocking! People like us will not obtain it, but the reward for the mission would allow me to obtain two rank three Gu."

Big Beard thought about this and his heart was burning with desire, as he battled, he looked at the higher-ups on the peak of the dune.

It was them who sent out this mission, gathering a thousand Gu Masters to get through this difficult round.

The sandworm myriad beast king rushed into the defensive line, engaging in fierce combat. Golden light, rain of arrows, flames, all sorts of attacks were unleashed on the myriad beast king, but the beast king's body shone with a yellow luster, as its defense rose and blocked these attacks easily.

It growled continuously, as it whipped up a storm while barging into the people's territory.

Chang Biao stood on the mound, frowning.

"The situation is a little out of hand." He spoke: "This myriad beast king has a rank five golden armor Gu, if we allow it to continue rampaging, our defenses would crumble."

By now, this was the ninth myriad beast king.

According to the Gu worms on the myriad beast kings, their battle strengths differed. This myriad beast king was comparatively problematic because of the good quality defensive Gu in it, but it did not have a strong area of effect attack.

In such a situation, usually Gu Master experts would choose to strike it themselves as that is the only way to hurt it.

After all, soldiers fight soldiers and generals fight generals.

Chang Biao had this intention as well.

Ma Ying Jie who was standing beside him stood up and spoke: "Then I shall do it."

No one objected.

During the appearance of the myriad beast king, everyone took turns to strike, this was what they agreed on, and according to the order, it was Ma Ying Jie's turn.

He was the worthily famous Ma Ying Jie indeed, when he personally struck, he led the pegasus group and easily blocked the sandworm myriad beast king, stabilizing the situation.

"Young Ma Zun is really impressive." On the sand dune, everyone praised.

"Brother Chang, what do you think of Ma Ying Jie?" Pan Ping secretly asked by transmitting his voice.

Ma Ying Jie was once Ma tribe's young tribe leader, his teacher was Ma Zun and after Ma tribe failed, Hei Lou Lan forced them to submit causing the current Ma tribe to be weak, only being a mid-sized tribe.

Chang Biao knew what Pan Ping was saying, he wanted to recruit Ma Ying Jie into becoming a member of the Wolf Killing Alliance.

The Wolf Killing Alliance was a secret organisation to deal with Fang Yuan.

After Pan Ping's inheritance was snatched by Fang Yuan on Xing Jiu peak, he felt extreme hatred on the inside and wanted to take revenge.

Chang Biao had the grudge of Chang Shan Yin taking his wife, it was absolutely irreconcilable.

Fang Yuan had incredible power, he could contest with Hei Lou Lan. Even though Pan Ping and Chang Biao had great gains in Eighty-Eight True Yang Building and obtained much rewards, both being rank four peak stage now, they had a low chance of success in dealing with Fang Yuan, thus they needed more help.

Seeing Chang Biao keeping silent, Pan Ping continued: "Ma tribe lost terribly because of Chang Shan Yin! Ma Ying Jie's teacher Ma Zun was killed by him as well, he and Chang Shan Yin have a huge grudge too."

But Chang Biao shook his head, transmitting: "No, Ma Ying Jie is a very determined person, but he is also a great leader. In my opinion, he has placed all his efforts on his tribe now, trying to revitalize the dying Ma tribe, he would not oppose the Wolf King if his intention is this. In fact, he might try to mend their relationship. Wolf King has a huge force, our biggest advantage is that we are a secret organisation, we cannot recruit people recklessly, if not, we will expose ourselves."

Pan Ping was not willing to give up, he continued urging: “Brother Chang, how can we as high achievers worry so much?! Chang Shan Yin is a scoundrel, he has his myriad wolves to defend him, in the future when we fight, our strength might be drained by the wolf group. Don’t forget about this person’s high attainment in strength path! Ma Ying Jie controls a horse group, he is called Little Ma Zun now, he has the talent to become an enslavement master, we need such experts to deal with the wolf group.”

Chang Biao gave Pan Ping a look, feeling unhappy.

Pan Ping was a demonic Gu Master, he was called Sole Blade General, he acted without restraints and was daring and cruel. This was foolishness and rashness in Chang Biao’s opinion, he could not achieve anything in life.

Actually, Pan Ping was unhappy too, he felt that Chang Biao was too restricted, he worried too much and was not a true hero.

This was the difference in their personality.

Chang Biao was good at enduring, back then when plotting against Chang Shan Yin, he used another person to achieve his aims. He also loved his reputation, after so many years, he did not dare to acknowledge his son Chang Ji You.

As for Pan Ping, from the Imperial Court contest when he challenged the armies and rushed forward in battle, one could see his personality.

But despite their differences, be it Pan Ping or Chang Biao, they could tolerate each other because they understood clearly that Wolf King was not someone they could deal with alone.

“Pan Ping is from the demonic path, how can he understand the thoughts of us righteous path characters! He wants to take in Ma Ying Jie? Hmph, wishful thinking! The moment we tell him about the Wolf Killing Alliance, we might get betrayed by him the next second, in order to appeal to the Wolf King. Sigh, how can I convince him?” Chang Biao sighed in his heart.

But he was very witty, he immediately had a plan.

He transmitted: “Brother Pan, Chang Shan Yin killed Ma Zun, but don’t forget, who was the one who killed Ma Ying Jie’s father?”

“Urgh…” Pan Ping was stunned, he went into a daze.

Ma Shang Feng was killed by Pan Ping during the chaotic battle in the end, because of that, he made a great merit and was given many rewards.

The battle merit back then became his biggest obstacle in taking revenge now, this was something Pan Ping did not expect.

But Pan Ping was an obstinate man, he said: “It is true that I killed his father, but that was due to the fight between two armies, we were fighting for our respective masters. Since Brother Chang thinks that Ma Ying Jie cares most about his tribe, I will believe this judgement. In that case, if we use this as the premise and assume that Wolf King is the biggest obstacle to Ma Ying Jie when he wants to restore his tribe, wouldn’t that be the best?”

Once he said that, Chang Biao was stunned this time.

He gave Pan Ping a look, thinking: “Wise people might have a moment of folly, while foolish people might have a moment of brilliance, to think that this Pan Ping would have a smart rebuttal for once.”

Immediately, his mind worked quickly as he assessed: “Indeed, there is a possibility of that. Ma Ying Jie’s weakness is Ma tribe! But how can we plan this so that Ma Ying Jie would willingly join the Wolf Killing Alliance?”

Chang Biao thought of this and had an idea, remembering a small detail that he had heard of earlier.

His gaze turned to the left defensive line.

There was a young rank two Gu Master there.

“He is Ma Hong Yun, he was originally Ma Ying Jie’s servant earlier, but now he is one of Ma Ying Jie's most trusted aides. Not long ago, Wolf King hunted the earth chief beast group and Ma Hong Yun managed to escape with his life, he obtained not a small amount of battle gains and contributed it to Ma tribe, causing Ma Ying Jie to reward him with three green copper relic Gu, for his loyalty. He even returned all the Gu worms that were contributed, allowing Ma Hong Yun to keep them.

"This lad's luck is not bad! He managed to leave before Chang tribe and Ge tribe Gu Masters entered the battlefield, the green copper relic Gu is of considerable value too, after Ma tribe became weak, their morale was low and Ma Ying Jie used the green copper relic Gu that he could not use to demonstrate how his men could be rewarded by the act of a good role model."

"Ma Hong Yun obtained the green copper relic Gu that he needed most, getting to rank two realm in one night, that speed is something not even I could compete with."

Chang Biao thought of this and sighed at the mysteries of fate.

Compared to Ma Hong Yun, Chang Biao had a much higher starting point, he had huge amounts of resources provided to him, but even so, Chang Biao took about ten times as long to advance to rank two.

After all, green copper relic Gu were natural Gu, they were rare and produced at random places, it was thanks to Eighty-Eight True Yang Building that Ma Ying Jie obtained them as a reward.

"This lad Ma Hong Yun had prospered due to Chang Shan Yin, earlier, Chang Shan Yin had ordered Chang tribe and Ge tribe to capture some of the Gu Masters who tried to take advantage of the situation, what will happen if I release this information?"

Chang Biao pondered.

"No… just Ma Hong Yun, who is a rank two Gu Master, would be an ant in Chang Shan Yin's eyes. He is still too weak, there is no point in reporting him. Furthermore, Ma Ying Jie will not deal with Chang Shan Yin just because of this tiny Ma Hong Yun. We should continuing planning and waiting for this…"

Forty-five minutes later, the sand dune erupted into cheers.

“Victory, victory!”

“It was not easy, we finally got through.”

“I wonder what the reward for this round is?”

Many curious gazes landed on Chang Biao, Pan Ping, Ma Ying Jie and others.

After passing this round, Chang Biao and the others’ apertures suddenly had many new Gu worms.

Among them was an east window Gu, storing information.

“Six arm heavenly zombie king?” Chang Biao, Pan Ping, and Ma Ying Jie checked this information and looked at each other.

They had differing expressions.

To think that the reward would be a strength path killer move, according to the description, this killer move’s power was phenomenal!

Chapter 577 - Young Master, save me…

Chapter 577: Young Master, save me…

Bam!

A silhouette flew out like lightning, six arms were like heavy cannons crushing a huge helmet crab to death.

At once, fresh blood spewed in this secret room as limbs flew everywhere.

“Hahaha.” Pan Ping combed his messy hair, laughing loudly as he ignored the blood and carcasses on the ground.

“Awesome, amazing! This six arm heavenly zombie king killer move is really amazing! Using the zombie body to avoid requiring my insufficient background in strength path, thus even with my mild cultivation in strength path, I can still use it.”

Pan Ping’s eyes shone brilliantly as he talked to himself, pondering about the killer move.

He was born from the demonic path, he lacked resources and did not have enough creativity, thus he had never owned a killer move. But one did not need to know how to cook in order to eat, after roaming in northern plains for so many years, Pan Ping’s vision had expanded and he knew that this killer move ‘six arm heavenly zombie king’ really had what was in the description — unparalleled strength!

“As long as I have this, my chances of dealing with Wolf King will be higher by ten percent! Wolf King has a strength path killer move, but so do I! Wolf King, don’t be arrogant, one day, I will return all the humiliation that you inflicted onto me by tenfold!” Pan Ping gritted his teeth, his eyes shining with hatred.

At the same time, Chang Biao was also testing this killer move.

“As expected of a reward from Eighty-Eight True Yang Building, this killer move is too strong!”

The power of the killer move was very shocking to Chang Biao as well.

“If I have to mention a flaw, it would be that the appearance is too ugly and evil…” Chang Biao looked at the mirror with a dark gaze.

The Chang Biao in the mirror had green-grey skin, fangs were growing out of his mouth and his eyes were yellow. He has green-red messy hair, looking very horrifying. Especially the six monstrous arms on his back, they were of different shapes and sizes, each were ruthless looking and made people feel a chill when they saw them.

Pan Ping originated from the demonic path, he often lacked resources and lived in terrible conditions, with survival as his main goal, he did not care about appearance or image.

But Chang Biao was different.

He was born in Chang tribe, he was like a noble, a reputable figure in the righteous path, he loved his appearance and placed emphasis on his reputation, if he were to show this appearance to people, he would feel very uncomfortable in his heart.

“However, although this form is ugly, I can only resort to this when dealing with Chang Shan Yin!” Thinking of Fang Yuan, Chang Biao made up his mind.

“To speak the truth, this move is quite similar to his strength path killer move. His killer move creates four arms on his back, together with his actual arms, he would have six in total. Meanwhile, my killer move creates six arms, I would have eight in total. This is a difference in appearance, but also shows that my killer move is stronger than his by a level.”

Chang Biao was assessing in his heart, his impression of Fang Yuan’s killer move was still the one in the Imperial Court contest.

Suddenly, Chang Biao had an inspiration, he had a guess: “This is quite the coincidence, the two killer moves are so alike… maybe, my version is the original, and what Chang Shan Yin got by chance was only a remnant version that was passed on outside.”

The more he thought about it, the more he confirmed his guess.

“Chang Shan Yin is already an enslavement master, with his talent in enslavement path, how can he also have such talent in strength path? Hehehe, in the future when I get rid of him, I wonder what expression he will make when he sees my killer move? I am looking forward to it.”

Thinking so, Chang Biao’s lips curled into a smile.

Right at this moment, a servant came and told him Pan Ping had arrived.

Chang Biao’s mind clicked and he knew what Pan Ping’s intention was, he instructed: “Bring him to my study room, attend to him with good tea, I will be there shortly.”

Because he was testing the killer move, Chang Biao’s clothes were tattered.

After changing his clothes, he came to the study and saw that Pan Ping was gulping the tea that was served to him.

“What a waste of my good tea.” Chang Biao sneered in his heart, before cupping his fists and calling out: “Brother Pan, you look especially happy today, there has been progress in the testing of the killer move?”

“Hahaha, Brother Chang is right, that is exactly so. This killer move is simply outstanding.” Pan Ping laughed loudly before changing the topic: “However, there are some problems with this killer move, I tested it for three times, and every time after I end the transformation, I would feel a great pain in my stomach area. In fact, the pain gets worse the more I use it. Is this the backlash of the killer move?”

"Oh?" Chang Biao heard this and his gaze concentrated: "My symptoms are different from you, you have a stomach ache while I feel dizziness, even temporary deafness and blindness. I was going to find you to discuss this problem."

The two talked about the issue, but they did not gain any insights.

They were neither expert strength path cultivators nor refinement masters, their so-called discussion was only based on their own experiments, they could not get to the root of the issue.

Pan Ping suggested: "There are three other people who cleared the round along with us. Why don't we invite them over as well to discuss this matter. Relationships are built by interaction, once our relationship improves, we can invite them to join the Wolf Killing Alliance!"

Pan Ping was adamant on recruiting more members into their alliance, Chang Biao laughed as he said vaguely: "I have plans for this already, it will take effect in the next few days."

…

Imperial Court blessed land. A thousand li away from the sacred palace.

In the lush and green forest, a group of Gu Masters were carefully moving ahead.

Crack.

With a light, crisp sound, Ma Hong Yun accidentally stepped on a twig.

Everyone's movements stopped, they sent their angry and frightened gazes towards him.

"You idiot! How many times have we told you to notice what you step on, look down!" The group leader suppressed his volume as he chided with his eyes wide open.

"Sorry, sorry, I did not mean to do that!" Ma Hong Yun quickly apologised.

“Shut up, shut up!”

“Shush, quiet, you idiot!”

The Gu Masters nearby were anxious, the people near Ma Hong Yun even covered his mouth quickly in fear.

The leader’s expression was solemn, he was anxious and some killing intent leaked: “All of you shut up. If you alert the iron beak bird group, we will be finished. We are only here to steal the eggs this time, we are retreating once we do that, I will personally kill whoever ruins this!”

The leader was the only rank three Gu Master here, he had the greatest strength and naturally, authority.

Hearing his words, everyone nodded quickly, including Ma Hong Yun.

The leader looked around, his gaze paused at Ma Hong Yun for a second as he gave him a fierce stare, deciding in his heart: “Once we go back, I am kicking this idiot from the group. So what if he has rank two strength? I must be blind, looking at how complementary his Gu worms were, I agreed to let him into the group. If a Gu Master is stupid to this degree, so what if he has good Gu worms?”

Swoosh!

Right at this moment, there was a sound that resembled waves in the forest.

Largest numbers of iron beak birds flapped their wings as they soared into the sky from the tree branches.

The Gu Masters who saw this felt that they had sunk into an icy abyss.

“What’s going on?”

“Oh no, the birds were alerted! Quickly run!”

“Ma Hong Yun, it is all your fault, if I survive this, I will definitely settle the score with you!!”

Everyone were frightened and anxious, some were furious.

“No, the birds are flying south, it was not us who alerted them, it seems that there were others who accepted Chang tribe’s mission!” The leader saw the situation and was overjoyed, screaming uncontrollably.

Everyone heard this and looked over, seeing this was the case, their moods changed.

“Save, save us!” A group of Gu Masters were flying quickly, towards them.

Looking at the densely packed bird group that were attracted over, the Gu Master’s eyes were almost popping out.

“Don’t, don’t come over!” The leader shouted: “I will kill you first if you come closer!”

“Leader, looking at their clothes, they are Chang tribesmen.” Ma Hong Yun said hesitantly.

The leader’s eyes were wide open as he wanted to bash this guy up, shouting: “You idiot, do you still want your life? Go save them if you want to die!”

Ma Hong Yun thought of the time when they faced the earth chief beast group.

He only wanted to remind Jiang Dong, but he was nearly killed as a result.

“If not for my good luck…” Ma Hong Yun thought of this and shuddered, asking the leader: “What should we do?”

The leader gritted his teeth, seeing that the Chang tribe Gu Masters were not listening, rushing over intentionally, he stomped his foot: “What can we do? Split up and run!”

Everyone split up at once, as Ma Hong Yun was in a daze, quickly choosing a direction and running for his life when he realized what was going on.

“Lord, that is Ma Hong Yun, Ma Ying Jie’s confidant.” The Chang tribe Gu Masters who were running away might look pathetic, but they were all cool headed and had no fear.

Chang tribe group’s leader was Chang Biao’s confidant, he looked at Ma Hong Yun’s figure as he was shocked: “Is this guy a fool? He is not using his movement Gu?”

Chang tribe was scheming, they naturally got all the details of Ma Hong Yun, they knew that he had a complete set of high quality rank two Gu worms.

“I, I am going to be caught, damn it, why are they so fast? They used a movement Gu, ah! Right, right, I have a movement Gu too!” As he ran, Ma Hong Yun patted his forehead as he quickly used his movement Gu, his speed rising drastically.

“He finally remembered, eh? Why is he still running towards the left?” The leader was shocked.

He did not know that Ma Hong Yun had a terrible sense of direction, back when Fei tribe was in turmoil, his father sacrificed himself to give him time to run, but he ran in a circle and turned back to the same spot.

Because of Ma Hong Yun’s actions, the situation became more serious.

The leader quickly instructed: “You, you, you, quickly catch up with Ma Hong Yun and protect him. In addition, ask Lady Chang Li to go ahead and prepare!”

“Yes, lord.”

Even though the Chang tribe Gu Masters were elites, Ma Hong Yun’s random movement often got himself into dangerous situations, the Gu Masters had to attract the bird group while protecting him, they also had to avoid getting detected by him, it was a difficult position.

Their plan which was guaranteed to succeed ended up with them sacrificing several elites!

“Sa… save me…” Chang Li was lying on the ground, she was weak and feeble, looking very vulnerable. Her clothes were torn, revealing her alluring shoulder. Her hair was messy and she looked very pitiful, like a fearful rabbit.

Ma Hong Yun ran over quickly, he was looking ahead as he desperately ran, he did not discover Chang Li at all!

Chang Li was stunned, at the last moment, she reacted and stretched out her leg when Ma Hong Yun was about to pass her.

Plop!

Ma Hong Yun fell face flat, he turned around and was shocked.

“What a beautiful lady…”

He was a dummy normally, but he was also at the age of being attracted to girls.

“Young master, please save me.” Chang Li’s beautiful voice made Ma Hong Yun’s heart flutter.

“Oh, oh.” Ma Hong Yun quickly replied, after some fumbling, he carried Chang Li and ran.

Chapter 578 - Connection by Marriage

Chapter 578: Connection by Marriage

Translator: ChibiGeneral Editor: ChibiGeneral

A day later.

During an evening banquet.

“A tribesman of your esteemed tribe saved my daughter, I, Chang Biao, am extremely grateful. This first cup is a toast to Ma tribe leader!” Chang Biao raised a wine cup.

Ma Ying Jie quickly lifted his cup and modestly replied: “That was only a chance encounter. I had not expected her to be Lord Chang Biao’s beloved daughter, this is Hong Yun’s honor.”

“Hahaha.” Chang Biao laughed heartily and drank the wine.

Ma Ying Jie also followed suit and downed the wine.

Ma Hong Yun who was sitting beside him had become the main character of the whole banquet at this moment and dozens of gazes gathered on him.

Feeling these probing, curious and doubtful gazes, Ma Hong Yun felt a little uncomfortable.

Chang Biao lightly placed down his wine cup and hinted Pan Ping who was beside him, with his eyes.

As they had already discussed properly, Pan Ping understood the signal, and looked at Ma Hong Yun: “Virtuous junior, if I speak so, aren’t you like a hero saving the beauty?”

“I.. I…” Ma Hong Yun hesitated, speechless.

In truth, he also did not know how he had saved Chang Li. He had only been concerned about escaping from the endless iron beak birds chasing after him; the situation was so urgent, even if he had saved Chang Li, he did not think much.

Pan Ping stared with his eyes wide open at Ma Hong Yun who looked like he would not start speaking even till the cows came home.

Fortunately, Chang Biao had already calculated Ma Hong Yun’s nature in his plan and at this moment, his gaze moved towards a certain person in the banquet.

This person immediately stood up and came to the center, cupping his fist towards Chang Biao: “Elder Chang Biao and all lords, I was one of the people involved in this matter and I was able to fortunately see the whole situation. Lord Ma Hong Yun is generous and modest, not claiming the credit and becoming arrogant, but I cannot endure a heroic deed being buried like this, so I summoned my courage by drinking to narrate the event to all lords.”

Hearing these words, everyone knew this person was someone who was good at speaking.

Chang Biao nodded: “You can speak.”

This person spoke with confidence, adding plentiful emotions and speaking in a way that echoed and added to their effects; he narrated in such a vivid way that it portrayed Ma Hong Yun as an aloof hero with an unwavering mind, with brains and brawn, not afraid of dangers.

As they listened to the narration, the crowd cheered and praised from time to time.

Their gazes towards Ma Hong Yun also started to change, becoming respectful, warm or appreciative.

Ma Hong Yun’s eyes were wide open as he listened to this seemingly heavenly tale. He was feeling incredulous: “Is this person talking about me? When did I become so amazing? Did he mistake me for somebody else?"

There was one other person who did not dare to believe this – Ma Ying Jie.

Ma Ying Jie was Ma tribe leader, an outstanding hero of this generation. He was familiar with Ma Hong Yun's nature and character, how could he be deceived by these flowery words?

He had a faint smile on his face, and also nodded at the appropriate timings, looking at Ma Hong Yun approvingly; his mind, however, was in a state of deep thought: 'If say, Ma Hong Yun saved Chang Li by luck, there is nothing strange about it. But why would elder Chang Biao send a phony to explain things for Ma Hong Yun? What is he planning? In this banquet, although there are tens of distinguished guests, but the true main characters are only two in number, Chang Biao and Pan Ping.'

Ma Ying Jie was inwardly on guard.

Ma tribe had lost in the Imperial Court contest, falling down from their peak. Ma Ying Jie's master and father died in the battlefield, all these difficulties and setbacks caused Ma Ying Jie to quickly mature into an outstanding person.

He was secretly guessing Chang Biao's plan, but on the surface, he did not even bat an eyelid.

The current Ma tribe was declining, while Chang tribe was like the sun in the noon sky because of Fang Yuan! Pan Ping left demonic path and turned to Hei tribe, and was now an external elder of Hei tribe.

No matter which, they were both not people the current Ma tribe, the current Ma Ying Jie, could offend.

"Good, good, good." After that person finished narrating Ma Hong Yun's heroic deeds, Chang Biao repeatedly praised him.

"Heroes indeed arise from young people." Chang Biao looked at Ma Hong Yun, not stinting on his praise.

He paused, then continued: “Since ancient times, heroes love beauties and beauties are matched with heroes. I won’t conceal it from everyone, ever since my daughter was saved, she has been silent, taciturn and her mind seems to be drifting off. I inquired her of the reason and only then learned her heart was somewhere else, worrying about the young hero who had saved her during the time of danger. I held this banquet to express my gratitude and also because of this.”

The hall was in an uproar.

Countless gazes, mixed with admiration, envy, shock or unconvinced feelings, turned towards Ma Hong Yun.

“What bullshit luck does this kid have? He actually received Chang tribe’s young miss’ favor?”

“Chang Li is beautiful and pleasant, who could have thought she would prefer such a foolish kid. Sigh, if I had known this earlier, I would have also gone to the forest of iron beak birds.”

“Chang Li might not be Chang Biao’s own daughter, but he had taken her in and cared for her since she was young, she has always received Chang Biao’s love and is a beloved daughter of elder Chang Biao. If this kid, Ma Hong Yun, marries Chang Li, his father-in-law would be Chang Biao!”

Instantly, everyone’s mood surged.

Ma Ying Jie quickly reacted from his shocked state and rapidly thought with some suspicions: ‘Is this the reason for Chang Biao entertaining us with such great fanfare? Although there is the tale of the Night Elopement of Su Xian, but isn’t this going too well?”

There were even better things to come.

In front of everyone, Chang Biao took out two red steel relic Gu: “The new constantly replaces the old, Virtuous junior is a young hero of our northern plains, we cannot have him be unrewarded. These two red steel relic Gu are a little expression of my thanks to the benefactor, please accept them.”

The commotion in the hall increased even more.

“Huh?” Ma Hong Yun quickly looked at Ma Ying Jie.

Ma Ying Jie nodded and pointed out with a smile: “We cannot dare to reject senior’s gifts, Hong Yun, why are you not kowtowing and expressing your thanks?”

Ma Hong Yun immediately walked forward and kowtowed: “Many thanks for Lord Chang Biao’s gift.”

Chang Biao laughed heartily and also walked forward, personally putting the two red steel relic Gu in Ma Hong Yun’s hand.

Under everyone’s gazes, he amiably patted Ma Hong Yun’s hand and asked: “I wonder how virtuous junior feels about my daughter?”

“Eh?” Ma Hong Yun raised his head with a flushed face, not knowing how to reply for a moment. After a while, he finally squeezed out a few words, “MIss Chang Li is beautiful, very beautiful.”

“Hahaha.” Chang Biao threw his head back and laughed, “This is good, this is good. Virtuous junior, please return to your seat.”

They returned to their seats, and continued to enjoy the banquet.

The banquet continued from evening to late at night; only then the hosts and the guests had enjoyed to their fill and started taking their leave.

As the crowd dispersed, the matter of Chang tribe marrying off its daughter to the lucky kid Ma Hong Yun, also spread everywhere.

On the second day, Chang Biao again invited Ma Ying Jie and Ma Hong Yun to a banquet. The scale of the banquet would be smaller this time and only a few people were invited.

Ma Ying Jie gazed at the invitation card in his hand with a grave look.

After returning back, he had not slept the whole night and was pondering over this matter.

The small invitation card felt exceptionally heavy to him.

He placed the invitation card on the table and called his servant: “Go, call Ma Hong Yun to see me.”

The servant immediately accepted the order and when he was arriving at Ma Hong Yun’s residence, Zhao Lian Yun was in the process of instructing Ma Hong Yun: “You fool, what kind of bullshit luck do you have? But this matter is so good that it instead makes it feel hollow. I think tribe leader Ma Ying Jie will definitely call you to ask about this. At that time, explain everything clearly in full detail, don’t hide even the smallest details!”

“Okay.” Ma Hong Yun immediately agreed.

“Also.” Zhao Lian Yun’s large eyes turned, “Didn’t Chang Biao reward you with two red steel relic Gu? When you meet the tribe leader, offer these two Gu to him.”

“What?” Ma Hong Yun’s eyes opened wide as he shouted, “This is something I risked my life for and obtained with great difficulty! And they were gifted to me by Lord Chang Biao, I will immediately advance to rank two upper stage after I use them. These are such good things.”

“You fool!” Zhao Lian Yun kicked Ma Hong Yun’s leg in anger.

Ma Hong Yun immediately held his leg in pain: “Why did you kick me?”

Zhao Lian Yun rolled her eyes and unhappily rebuked: “What do you understand? Even if you become rank two upper stage, what use would it be with your skill? What is the basis for us being able to stand up? It is not your rank two cultivation, but the friendship with tribe leader Ma Ying Jie. How did you advance to rank two? It is because tribe leader Ma Ying Jie gifted you with three green copper relic Gu. Offering the red steel relic Gu is an expression of loyalty, do you think the tribe leader will embezzle your red steel relic Gu? Hmph, he can’t use it for himself, so he will definitely accept them then return them to you again.”

“Eh, since he will accept them, why would he return them to me again?” Ma Hong Yun asked with doubt.

“Idiot!” Zhao Lian Yun again rolled her eyes, “Ma tribe has declined, there are very few tribesmen while there are many things to do. The whole tribe only has one rank three elder, Ma You Liang, and he is handicapped now. Ma Ying Jie has recently taken the tribe leader position and doesn’t have any usable subordinates. He wants to revitalize the tribe and will be looking for talents to nurture into trusted aides. Although you were once surnamed Fei, now you are surnamed Ma, and you were once Ma Ying Jie’s head servant. Ma Ying Jie knows everything about you and will be at ease in using you compared to other people. You will be showing your loyalty by offering the Gu worms, he will definitely be happy and accept your Gu worms; this is because he recognizes your loyalty.”

“But Ma Ying Jie is not a petty and miserly master, accepting your Gu worms will only be as a gesture and he will definitely return them to you. Why? Because he wants to establish an example, from which the tribesmen can study and be encouraged to imitate your loyalty. I am certain, he will not only return your red steel relic Gu, he will even add in more rewards. Although you are insufficient in ability, you have loyalty. This is called buying horse bones with a thousand gold 1 . ”

Ma Hong Yun was confused: “What is buying horse bones with a thousand gold ?”

“Sigh, you won’t understand it even if I explain. Just do what I say and it will definitely be to your benefit.”

“Ah.” Ma Hong Yun agreed while scratching his head.

The two had just reached an agreement when Ma Ying Jie’s servant came running over to summon Ma Hong Yun.

Ma Hong Yun followed Zhao Lian Yun’s words and offered the two red steel relic Gu. But different from Zhao Lian Yun’s estimation, Ma Ying Jie accepted them but did not return them back to Ma Hong Yun.

After Ma Hong Yun returned, he started complaining endlessly to Zhao Lian Yun.

“Could it be my estimation was wrong?” Zhao Lian Yun also felt some doubts.

Chapter 579 - Deputy Elder

Chapter 579: Deputy Elder

Translator: ChibiGeneral Editor: ChibiGeneral

In the evening, Ma Ying Jie took Ma Hong Yun to Chang tribe's banquet.

When the banquet ended, Chang Biao urged Ma Ying Jie to stay and have a talk in the study while letting Chang Li entertain Ma Hong Yun.

"I wonder what insights might Ma tribe leader have in six arm heavenly zombie king?" After some discussion, Chang Biao changed the subject to the killer move.

Ma Ying Jie, however, had not tested the killer move, speaking frankly: "I am an enslavement path master and have no affiliation to strength path. I was quite disappointed for the reward in passing the eighty-ninth round to be this killer move. I plan to sell this killer move, thus haven't tested it. What happened?"

Chang Biao was stupefied, glancing at Pan Ping next to him.

The two had not expected this situation, but it was actually reasonable.

Ma Ying Jie was different from them, he had a concrete and comprehensive enslavement path inheritance. His master Ma Zun relied on this inheritance to make a name and be a ruler of a region.

This inheritance contained a killer move as well. And besides it, Ma Ying Jie still had the powerful killer move from Snowy Mountain's Gu Immortal — Dragon Horse Spirit.

He had yet to master these killer moves, why would he go cultivate a killer move of another path?

He had been cultivating enslavement path since his youth, and as long as he cultivated it properly, he could become a ruler of a region and revitalize his tribe. Cultivating side paths would instead divide his energy.

Since ancient times, Gu Masters prioritized one path, and very few cultivated two paths. Dividing energy and continually moving back and forth will only result in achieving nothing on both ends.

Fang Yuan could dually cultivate paths because of the accumulation of his previous life's experiences.

Ma Ying Jie also had to manage the tribe's affairs and had no extra energy to cultivate some strength path killer move.

"I won't conceal it from you, I and brother Pan Ping have been testing this killer move. Its might is astonishing and overwhelming. We might as well speak the truth to Ma tribe leader." As he said this, Chang Biao paused, considering his words while somewhat hesitating.

He looked at Ma Ying Jie with a sincere gaze and shockingly said: "I would like to request Ma tribe leader to keep this killer move a secret and not spread it to others. Spreading it outside means the reward for clearing the round will be received by others."

Chang Biao intentionally spoke evasively, Ma Ying Jie was smart as he suddenly understood everything.

"So it was like this! Chang Biao was once Chang tribe's leader, now he is only a great elder and the tribe leader is his adopted son Chang Ji You, and the true decision maker is Wolf King Chang Shan Yin. Chang Biao obtained this killer move and wants to keep it a secret. This is a normal practice of Gu Masters. But there is a problem, if Chang Shan Yin learns of this and asks him for it, he will definitely have to hand it over."

Ma Ying Jie observed Pan and Chang's expressions and intonations, and knew six arm heavenly zombie king was absolutely an extraordinary killer move.

Humans were selfish, who would be willing to hand such a valuable treasure for no purpose? Ma Ying Jie understood this point.

Seeing Ma Ying Jie's gaze flicker, Chang Biao continued: "I have already talked with the others, Ma tribe leader can rest at ease. We still need Ma tribe leader's strength for the coming round. Hehehe."

Ma Ying Jie's expression turned solemn: "Lord Chang Biao exaggerates, my ability is limited, it is my fortune to be able to cooperate with all the experts, making it a win-win situation. I am okay with this matter being done like Lord Chang Biao says."

Hearing Ma Ying Jie's answer, Chang Biao and Pan Ping both smiled.

"Sigh, what lord, Ma tribe leader can just call me by my name." Pan Ping saw the chance, and immediately tried to pull their relation closer.

Pan and Chang wanted to pull Ma Ying Jie to their faction while Ma Ying Jie also wanted to rely on Chang tribe and Hei tribe's help to grow his tribe. The three went out of their way to curry favor with each other, addressing each other as brothers.

The three discussed in the study till late at night, getting along with each other.

It was near midnight, the three separated after setting Ma Hong Yun and Chang Li's engagement.

"Brother Chang's plan is excellent. With this connection by marriage, Ma Ying Jie will be tied with brother Chang, and when we deal with the Wolf King later on, he would have to help out." After closing the door, Pan Ping laughed heartily.

Chang Biao, however, slightly shook his head: "Ma Ying Jie is not someone easy to fool, he knows when to bow and submit, and at the the time of danger, he will definitely make a quick decision. It is still not the time to recruit him now, but as long as we continue to be on good terms with him and let people know of our close relation, and put in some resources to support that Ma Hong Yun, we will be able to increase our control over Ma tribe. And when we declare war against Chang Shan Yin in the future, as long as Chang Shan Yin recognizes Ma tribe as an enemy, Ma Ying Jie will have no choice but to get on our boat to protect his tribe!”

At night in Imperial Court blessed land, the bright and warm silver light shone on the ground.

In a carriage, Ma Ying Jie and Ma Hong Yun were sitting opposite each other.

“Hong Yun, you truly are a lucky guy, actually getting the interest of miss Chang Li. Hehehe, I have already come to a decision with lord Chang Biao; the first day of the next month will be a day of celebration for you and Chang Li.” Ma Ying Jie said with a smile on his face.

“Ah?” Ma Hong Yun had not expected this news at all, and was not able to react for a while.

“I have seen your loyalty, good, this is your reward.” Ma Ying Jie patted Ma Hong Yun’s shoulder while sighing with emotion as he took out three red steel relic Gu from his aperture.

“This…” Ma Hong Yun was astonished, and dazedly received the three red steel relic Gu.

“You will be getting married with lady Chang Li, if you don’t have power and status, wouldn’t it weaken my Ma tribe’s name? You can advance to rank two peak stage with these three red steel relic Gu; it should not be a problem for you to advance to rank three with your aptitude. I will now appoint you as a deputy elder and your duty will be to handle the miscellaneous affairs of the tribe.” Ma Ying Jie proclaimed.

“Ah?” Ma Hong Yun’s eyes opened wide, looking at Ma tribe leader with a stupefied expression.

To him, this surprise was really too heavy and too sudden.

Ma Ying Jie intentionally looked solemn: “You are still not kneeling and thanking me?”

Ma Hong Yun’s mind was in a mess, but his body subconsciously kneeled down on the ground: “Thank you lord for promoting me!”

“Yes, work well.” Ma Ying Jie encouraged with a few sentences, his thoughts, however were on a different matter, “Six arm heavenly zombie king, this killer move seems to be really powerful. Since it is regarded with such importance by Pan and Chang, and also does not need too much attainment in strength path cultivation, how about I give it a try as well?”

Eighty-Eight True Yang Building, central control room.

“Ink transformation!” Fang Yuan’s gaze flashed with a sharp light as he softly shouted and pressed down his hands.

Immediately, all kinds of Gu worms sprinkled down like rain from air, rapidly mixing with each other as they fell down.

When they landed on the sand table, they had already turned into drops of inky liquid.

The inky liquid quickly accumulated and covered the surface of the whole sand table once again before soon finding a flaw; the liquid then turned into a whirlpool and converged together.

Mo Yao’s will in Fang Yuan’s mind satisfiedly commented at this sight: “Good, you have now become skilled at the refinement technique I taught you – shower. With this method, you can quicken Gu refinement process by at least thirty percent and raise the quality by twenty percent. There is nothing more I can teach you about this method now. You only need to remember the essence of shower lies in speed. But you cannot just go fast, you need to pour all your concentration during the whole process. Thus, this method cannot be used too often. If you use it over the limit, you will feel dazed and dizzy in the minor case, causing the Gu refinement to fail, and in the serious case, your soul can be injured, you can suffer memory loss and you might become demented.”

Gu refinement had dangers and was not any safer than an intense battle.

Fang Yuan already knew this; he listened to Mo Yao's guidance while methodically throwing the owner token into the ink whirlpool.

In a flash, the ink liquid was depleted completely and the owner token slowly flew up before landing on Fang Yuan's palm.

Fang Yuan observed the owner token which now already possessed five edges.

This meant ink transformation had already been carried out five times.

Strange, Fang Yuan was scarce on immortal essence stones and should have only been able to use ink transformation once more, how could he use it for three extra times beyond that?

After Fang Yuan got the one-edge owner token, his authority was raised and he could learn the contents of rewards for every round of a single floor of Eighty-Eight True Yang Building through the one-edge owner token.

Fang Yuan did not hesitate and choose one floor on the spot.

This floor was the seventh floor.

One-edge owner token could allow the Gu Master to control one floor of Eighty-Eight True Yang Building.

The seventh floor had already been broken through to the eighty-ninth round by the collective efforts of Gu Masters. So why did Fang Yuan choose this floor instead of others?

It was because the reward for this eighty-ninth round was five immortal essence stones!

Fang Yuan secretly used the owner token to take control of this floor. Chang Biao, Pan Ping, Ma Ying Jie and others passed the round, and Fang Yuan was able to secretly take the five immortal essence stones, sending a downgraded version of six arm heavenly zombie king into everyone's aperture as the reward.

The genuine six arm heavenly zombie king used borrow strength Gu as its core, the six great flying zombie Gu as the backbone and many other Gu worms as support. Through modification by Fang Yuan and Mo Yao's will, the downgraded killer move used overlord Gu as its core, which greatly reduced its strength.

Although the other flying zombie Gu were not changed, the old earth chief zombie Gu was used instead of Mo Yao's modified Gu.

More importantly, the support Gu worms were also modified and some Gu worms like intention Gu were added to secretly gather the information on the use of six arm heavenly zombie king by Chang Biao, Pan Ping and others.

With this, it not only gave others no reason to doubt the reward being tampered with, it also made them test the killer move in place of Fang Yuan to find any insufficient areas.

"Half a month has gone by since the reward of the killer move was distributed. It is time to catch the fish in a net. What do you think?" Fang Yuan used a consulting tone to ask Mo Yao's will.

Mo Yao mumbled: "It has neither been too long nor too short, we can first take away two sets and see the results."

Fang Yuan grasped the five-edges owner token, and with a shift of his mind, he found two familiar figures in the ninetieth round of the seventh floor.

They were none other than Chang Biao and Pan Ping.

The two were currently running quickly.

Pan Ping shouted to Chang Biao while running: "It has already been seven days since we came here. Even if the time flow here is faster than Imperial Court blessed land, according to our speed, we should have already travelled an immeasurable distance but we have not been able to see anything other than walls."

The running Chang Biao nodded, his clothes fluttering in the wind: "In this place, we cannot fly to the sky nor can we escape under the ground, we can only move in these passageways along the walls. The passageways here spread in all directions, we have travelled so long but haven't encountered a single monster. Clearly, this round tests the Gu Master's scouting and movement ability. This round should be an extremely large maze."

The two guessed correctly, this ninetieth round was precisely a maze.

And just as Chang Biao guessed, it tested the Gu Master's scouting and movement ability.

But Fang Yuan had taken control of this seventh floor now and after he discovered these two, everything was going to be different.

Chapter 580 - Perfecting the Killer Move

Chapter 580: Perfecting the Killer Move

Translator: ChibiGeneral Editor: ChibiGeneral

Howl—!

Wolf howls suddenly echoed out, a large group of turtleback wolves appeared ahead.

“Wolves, how could there be a wolf group here?” Pan Ping’s movement slowed down, shouting in surprise.

Chang Biao’s expression sank. Because of the connection with Fang Yuan, the animal he hated the most now was the wolf.

But he had never even thought that Fang Yuan would be controlling this round, and said in a gloomy voice: “Our priority this time was to probe, now that there has been a new change, we should see what happens after killing these wolves.”

“Okay!” Pan Ping nodded in agreement.

The two cooperated and started killing the wolves.

At first, the two were occupying the upper hand even to the extent that it could be called a slaughter; how could ordinary turtleback wolves be their match?

But soon, other species of wolf started appearing continuously in front of them – vermillion wolves, water wolves, wind wolves and so on. Even mutated wolf groups like frenzy wolves and white-eyes wolves started appearing.

The two were gradually becoming unable to endure this.

“How could there be so many wolf groups?”

“Could it be this round also tests the Gu Master’s ability to fight?”

Large numbers of thousand wolf kings entered the battle along with myriad wolf kings; Pan Ping and Chang Biao’s expressions gradually turned unsightly.

“This round is so difficult!” Pan Ping sighed woefully.

“In Eighty-Eight True Yang Building, the difficulty keeps on increasing as one passes the rounds, with the ninetieth to hundredth rounds being the most difficult.” Chang Biao responded.

After a while more, the two could not continue fighting much longer.

“We have already probed the situation, the ninetieth round not only has a maze, but also wolf groups!” Chang Biao summarized in a heavy voice.

“We have walls on both sides, the terrain is narrow, we already are restricting the large crowds attacking us, what else can we do? Pan Ping frowned.

“Let’s talk after retreating.” Chang Biao sighed.

He and Pan Ping did not have Giant Sun bloodline, and had used guest tokens to enter Eighty-Eight True Yang Building.

Guest tokens were precious, thus they had to spend a lot of resources every time they entered.

“Alright!” Pan Ping already had the thought of retreating, he glanced at the wolf groups with hate, “These damned wolf beasts, there will be a day when I will step on your Wolf King and humiliate him! Hahaha….”

He cursed and vowed, the ‘Wolf King’ he was speaking of naturally referred to Fang Yuan.

“Eh!” The next moment, Pan Ping’s laughter suddenly came to a stop, shock and fear replacing it.

“What’s going on? We can’t go out?” Chang Biao who was at the side also discovered this serious problem.

The two had used guest tokens to enter the tower and could leave with just a thought. They had already entered and exited many times, and were very familiar with this.

But now, this floor was under Fang Yuan’s control, the five-edge owner token was many times more powerful than a guest token. These two were like birds within a cage, trapped in a predicament.

“Damn it, what should we do? I only have thirty percent primeval essence remaining!” Pan Ping shouted in panic.

Chang Biao’s expression was grim as he shouted: “Calm down!”

His condition was a little better than Pan Ping with fifty percent primeval essence remaining in his aperture. But even if their primeval essence was full, it would be exhausted sooner or later in front of these endless wolf groups.

“This situation is very rare, how could we not get out of this tower? This round is strange, what it might be testing is the Gu Master’s courage! We cannot act cowardly!” Chang Biao thought for a while and shouted.

Pan Ping heard his words, and slightly calmed down his panicked mind. He remembered that there were indeed strange rounds recorded in the past history, testing none other than the Gu Master’s mind. Often in these rounds, the more cowardly the Gu master becomes, the stronger the monster they would have to face.

Pan and Chang forcibly calmed down, and then tried to break through the wolf groups’ encirclement.

But Fang Yuan was in control of this round and was clear of every corner of the maze.

He mobilized the wolf groups with extreme smoothness; no matter how Pan and Chang tried to break through, there would always be wolf groups encircling and cutting off their path.

“No, I cannot die here! Damned wolf beasts, take my killer move!” With no alternative, Pan Ping used up almost all his primeval essence to activate the killer move ‘six arm heavenly zombie king’.

He turned into an eight armed zombie; his battle strength rose explosively, creating surging waves wherever he moved. The wolves suffered severe losses with none being able to resist his attacks.

Chang Biao took the valuable chance to preserve his primeval essence by following behind Pan Ping, and was able to save quite a bit of strength.

The good situation did not last long and soon, Pan Ping’s primeval essence was thoroughly exhausted.

Chang Biao quickly moved to save him: “In this time of danger, we need to work as one to have the hope of escaping alive. Take a rest and use primeval stones to recover your primeval essence, I will protect you!”

Chang Biao also used six arm heavenly zombie king and firmly protected Pan Ping.

With this kind of assistance between the two, they were able to stabilize the situation.

Seven-eight days went by like this, Chang Biao and Pan Ping’s primeval essence were completely exhausted, no longer able to carry on.

“Am I going to die here?” Pan Ping roared at the sky.

“Damn it, there is definitely a way out, definitely!” Chang Biao had lost his earlier demeanour as he started shouting and roaring.

Just at this time of despair, the two suddenly saw a large pile of primeval stones in the corner ahead.

“Primeval stones!”

"Such a mountain of primeval stones, I am not hallucinating, right?"

Finding a way out of death's door, the two were elated and summoned all their bravery to kill their way through. The situation was stabilized once again as they used the primeval stones to recover their primeval essence.

"I understand, I understand now, this round tests the Gu Master's endurance!" Chang Biao shouted with wild joy.

"So it was like that." Pan Ping also came to a realization.

The two were so happy they did not realize the strange changes on their bodies.

As they started using 'six arm heavenly zombie king' more often, their bodies were now growing some irrecoverable zombie speckles.

"This hill of primeval stones is sufficient to last us two-three months." Pan Ping pounced on the primeval stone hill, crying tears of joy.

"Quickly use this time to recover primeval essence. We can't just keep sitting idly, there should be other primeval stone hills. When thirsty, we can drink wolf blood, and when hungry, we can eat wolf meat, maybe we can pass this round if we persevere like this." Chang Biao's eyes shone brightly.

"Brother Chang, you are right!" Pan Ping stood up quickly, his face flushed red as he imagined the scene Chang Biao portrayed, "This round is so difficult, it is almost an absolute death ground. There should definitely be a great reward for passing it!"

Chang Biao resisted the wolf groups' offense, sighing: "I finally know why we can enter but not exit this round. If we could easily leave, how could this round test the Gu Master?"

It was truly a pity these two still did not know this primeval stone hill was intentionally arranged here by their great enemy Fang Yuan. His goal was to make them use the killer move more, and continue the experiment.

The situation was fully within Fang Yuan's control. Even if these two had not been willing to use the killer move and only used their own moves, Fang Yuan would have controlled the wolf groups to continue attacking them, creating a dangerous set of circumstances where these two would have no choice but to use the killer move.

Fang Yuan's worry was unnecessary in this aspect.

As these two used the killer move, they started gradually becoming dependent on it, using it more and more. And in the following battles, they rarely used their own methods.

When their zombie speckles became denser and seriously affected them, they came to their senses.

But it was already too late.

"I don't accept this, I don't accept this, dying right here! Wolf King, I won't let you go even as a ghost!"

Pan Ping was the first to die.

Before he died, he cursed Fang Yuan.

Several days later, Chang Biao also died with exhaustion in the battle.

He died with grievance, mumbling to himself as he neared death: "Exit, where the hell is the exit?"

He had a lot of worries, too many things he could not let go.

Wolf Killing Alliance was only just being set up, the scheme of forcing Ma Ying Jie to join it had only just started, but even more than these, what made him the most unreconciled was his own son – Chang Ji You.

Truthfully speaking, Chang Biao was a pitiful person.

For his reputation, he dared not admit his own biological son and was only able to hear Chang Ji You call him 'godfather', 'godfather'…

Even so, he did not feel secure and to cover it further up, he adopted several orphans as his adopted sons and daughters. Among them was Chang Li.

He had made such painstaking efforts, laid low his whole life, planned so much, but now as he faced death, nothing had come to fruition.

He was unreconciled, full of regrets and annoyance, but what could he do?

“I really… really wanted to hear him call me father…” At this moment of death, his intense thoughts burst out as a sorrowful and regretful voice, passing away with the light of his life.

“The killer move was activated two thousand three hundred and eleven times, although he was exhausted in death, the main reason for fatality is the accumulation of zombie energy in his body.” Fang Yuan appeared beside Chang Biao’s corpse out of thin air.

He slightly smiled, the experiment had attained the expected purpose, but he found a problem —

Even if the killer move was used every time, it could not surpass a certain time limit, but instead the more it was used, the zombie energy in the body would accumulate till it led to the Gu Master’s death.

Whether it was Pan Ping or Chang Biao, they both died because of this.

Fang Yuan took out the Gu worms from the two’s corpses and stored them in his storage pouch.

This round was under his control, making it impossible for Pan and Chang to detonate their Gu worms even if they wanted to.

Chang Biao possessed a set of wind path Gu worms, all of them of excellent quality. Pan Ping’s Gu worms were also not ordinary, but with Fang Yuan’s current scope and capital, they were only considered better than nothing.

Only that sole blade Gu had some collection value, making Fang

Yuan look at it for a moment.

Several days later.

In a study, Fang Yuan was thinking with his eyes closed while grasping an east window Gu.

“Hostile intent Gu can condense hostile intent. The hostile intent is strong and fiercely encroaching as fire, but it somewhat lacks flexibility and does not have the power to persist for long.”

“Sharp intent Gu can condense sharp intent. The sharp intent is very sharp like swords and spears, however it can be subdued through soft tactics and is very difficult to restore.”

“Reckless intent can condense reckless intent. Nothing is a taboo for the reckless intent and it can easily spread unchecked, but it is difficult to control and can easily injure the Gu Master.”

This east window Gu, which Fang Yuan had purchased from treasure yellow heaven, recorded a fairly intact wisdom path inheritance. He paid all his small savings of immortal essence stones for it.

But it was worth it, Fang Yuan made some gains after reading it.

Fang Yuan pondered: “This inheritance records fourteen wisdom path Gu worms with six that touch upon the aspect of intent – hostile intent Gu, sharp intent Gu, reckless intent Gu, changing intent Gu, cold intent Gu and chaotic intent Gu. The first three are used to condense will, with each having their own pros and cons.”

Wisdom path was the most mysterious among Gu Master paths, extremely broad and profound. It originated from Star Constellation Immortal Venerable and had existed from Remote Antiquity Era. The Gu Masters who cultivated it were extremely few in numbers, but it still remained and passed down till today, never declining.

“Then what is Mo Yao’s will classified as – hostile intent, sharp intent or reckless intent?”

Fang Yuan was researching these wills to guard against and deal with the enormous hidden danger in his mind.

“Hostile intent is fierce like fire, sharp intent is sharp like a spear, reckless intent is flamboyant and difficult to control, but Mo Yao’s will is mysterious like the sea, hidden and indistinct. From the confrontations I had with her, it felt like I was not able to display my strength, like punching cotton.”

Fang Yuan carefully analyzed and perceived Mo Yao’s will was not any one among this list.

This inheritance he had gathered was only a corner of wisdom path; there were definitely many other wisdom path Gu worms.

“It seems I still need to continue gathering information on wisdom path…” Fang Yuan inwardly sighed.

Fang Yuan was not able to easily use his methods against Mo Yao’s will because he was not familiar with wisdom path, and did not know her trump cards.

“As the proverb goes, know yourself and know your enemy, and you will go unscathed through a hundred battles. I need to bear with this for the moment, make her think continuously and wear herself down, while also using her to help in exploring True Yang Building.”

Right as he was thinking, Mo Yao’s will appeared with her indistinct figure in Fang Yuan’s mind.

“It is done, the six arm heavenly zombie king this time is truly perfected, there are no more unsuitable factors.” Mo Yao said with a weak tone and exhausted expression.

‘Looks like she had been worn down a lot from all the thinking over these days.” Fang Yuan was inwardly happy, and as he looked at the modified killer move, this hidden happiness gradually turned into exultation!

Chapter 581

Chapter 581: Advance to six-edge, difficulty finding a Gu tester

Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan was a vigilant person, he had always felt that everyone else in this world was unreliable, the only dependable person was himself. Thus, he researched the six arm heavenly zombie king killer move the moment he obtained it.

This killer move was originally created based on the foundation he provided, furthermore during these few days, with Mo Yao's guidance, his refinement path attainment was deepening, and his perspective had widened greatly.

Right now, he had a great understanding of the concept of six arm heavenly zombie king, it was clear as water to him.

At this moment, he looked at the completed killer move, without any experiments, he knew that this killer move was close to perfection.

Mo Yao had reduced many supplementary Gu worms from the original base, while keeping the core and the six zombie Gu unchanged, only adding several supplementary Gu worms in.

Sensing the ingenuity of this, Fang Yuan praised endlessly.

In his mind, Mo Yao's will explained: "This is all thanks to the intention Gu on Pan and Chang. With their experience and insight, I could refine this move to such an extent, we have reached an extreme level of perfection. As long as the time does not exceed thirty minutes, no matter how many times you activate the killer move, it will not accumulate zombie energy in your body and cause zombie speckles to grow."

Fang Yuan nodded, knowing that Mo Yao's words were true.

This killer move was truly refined to its limits, according to this line of thinking, it had already reached its strongest potential. Unless he added Immortal Gu in the future, or changed the core Gu.

But if he added Immortal Gu in, this would destroy the original coordination of the Gu, he would need to reassemble it and the move would become completely different, it would truly be a situation of 'pull one hair and the whole body moves'.

If he changed the core Gu, that would be going into another line of thought. The new killer move would be completely different, rather than calling it 'six arm heavenly zombie king', he might as well give it another name.

In all, the killer move six arm heavenly zombie king, be it the core Gu, the zombie Gu or the supplementary Gu, they were being used to their fullest potential, there was no way to refine this further.

Even though there were still backlashes from using it, if one exceeded thirty minutes, the zombie energy would cause great damage to the Gu Master's body, if the time was too long, the Gu Master might even turn into a zombie.

But this was a problem caused by inappropriate usage by the Gu Master, it could be avoided. The reason was that even if this move was used many times, it would not accumulate the zombie speckles. If the Gu Master activated the move multiple times in a period of time, they could potentially sustain the killer move for a long duration.

Except, Fang Yuan was still not satisfied with this huge result.

"If you have any other ideas to refine this killer move, this grandmaster here is willing to listen." Mo Yao laughed eerily.

"At this point, six arm heavenly zombie king is at its limit, there is nothing to improve. But there is still one part that I am not satisfied with, that is the backlash of the killer move." Fang Yuan said.

"After the improvement, the current six arm heavenly zombie king's power has doubled, and the duration has reached thirty minutes, it is sufficient for you to handle anything in this mortal realm. What are you dissatisfied with? You must know, any killer move represents the combination usage of Gu worms, since it is the use of Gu worms, there has to be weaknesses. A killer move's backlash cannot be avoided, they are only different in terms of severity. This strength path killer move's power is at the top five of killer moves in my memory. Don't be too greedy." Mo Yao lectured.

Fang Yuan snorted.

His potential enemies were Gu Immortals, beings who surpassed mortals!

With six arm heavenly zombie king, even if Fang Yuan abandoned his enslavement path, he could still dominate the mortal realm, but it was far from sufficient to deal with Gu Immortals.

Battling an immortal as a mortal, this aim was too arrogant, it was too much for people to believe. Fang Yuan had no intentions of informing Mo Yao about this.

Immediately after, he said: "Preparedness ensures success, and unpreparedness spells failure. If one day, because of a peculiar situation, I overuse the killer move and become a zombie, what happens? I am also clear that the killer move six arm heavenly zombie king cannot be improved further, but now, my goal is to resolve this weakness."

Mo Yao finally understood Fang Yuan's intention, she sunk into silence.

Fang Yuan was young and arrogant, Mo Yao did not expect that he had such a cautious side. To speak the truth, Mo Yao was looking at him in a different light now —

“This lad, he has talent, resources, and opportunities. He has great perseverance and is able to lower his head when needed. On one hand, he advances bravely, while on the other hand, he is cautious and vigilant, always considering all sides of the matter. This lad, one day, he will definitely shake the world.”

She was silent for a short time, soon, Mo Yao said: “It is very troublesome to resolve this backlash. Six arm heavenly zombie king is not an ordinary zombie, the zombie energy is extremely thick, once the Gu Master transforms, they cannot even use Yin-Yang rotation Gu!”

“As a refinement grandmaster, is there nothing you can do?” Fang Yuan did not believe her.

Mo Yao did not fall for his taunting, she spoke in a calm manner: “I need a rank five Gu Master to fully transform into the six arm heavenly zombie king, after which I will experiment on their body. I need this test subject to cooperate with me fully, and I need to have full control over their condition, in terms of body, mind, and personal experience… These are all important information that I need to consider.”

Mo Yao did not want to ponder about this deeply as it would expend too many of her thoughts, she used the same method again, planning to use people as experimental fodder. They would replace her thinking and undergo the most crucial steps for her.

Fang Yuan frowned: “Rank five Gu Master? And a fully cooperative one?”

“That’s right, it would be best if they are willingly doing it. Because if slavery Gu is used to control them, their emotions would be affected, their experience and feelings when turning into a zombie would be ruined.”

This was troublesome!

If Fang Yuan wanted to resolve the problem of six arm heavenly zombie king, he would need to find a rank five Gu Master, and they would need to be cooperative and listen to Fang Yuan, risking their lives to undergo this experiment.

Where was Fang Yuan going to find such a person?!

Three days later.

Central control room.

From the ink whirlpool, the owner token rose up and flew into Fang Yuan's hands.

Activating the refinement path killer move ink transformation once again, five-edge owner token had transformed into six-edge.

Fang Yuan was both happy and worried.

Happy because he had the six-edge owner token, once Hei Lou Lan's owner token becomes four-edge, he would be able to snatch it and form the ten-edge owner token.

With a ten-edge owner token, he could obtain one of Giant Sun Immortal Venerable's true inheritances!

An Immortal Venerable inheritance had a huge attraction to almost anybody.

Worry was because Fang Yuan had expended almost all his resources to undergo this sixth ink transformation. In order to accumulate funds, he had sold the Immortal Gu remnant recipes again and caused these remnant recipes to have no value left.

At the same time, he sold large numbers of rockmen, fox groups, wolf groups, Gu worms, and even the precious hairy men and some air bubble fish.

Like the rank four emotion poetry Gu, golden dragon Gu, golden breeze Gu, as well as rank five Gu including multiple spring egg Gu, vajra stare Gu, turn gold Gu, soft bones Gu, pitch black Gu, and hints and clues Gu.

"Right now, I only have the enslavement and strength path Gu worms left in my aperture. In Hu Immortal blessed land, I have Blood Sea Ancestor's true inheritance, rank four blood skull Gu, as well as rank three bone flesh unity Gu and the yang Gu left after using yin Gu of the yin-yang rotation Gu. Other than that, I still have some stargate Gu, hole earth Gu, connecting heaven Gu, divine sense Gu, burial soul toad, and some supplementary Gu."

These Gu were all of utmost importance, they could not be sold. Some were absolutely necessary, he needed them in the future.

"Hu Immortal blessed land was almost squeezed dry by me, it needs to recover. But now that I have the six-edge owner token, I can control six floors in Eighty-Eight True Yang Building as I wish. All of the rewards in these six floors can be taken by me. These rewards are extremely valuable, if I take them all, my wealth would grow by at least sixty times that of my current foundation!"

Fang Yuan had his plans.

But currently, he could not touch these rewards.

Hei Lou Lan had gathered some experts, and was at the final round of the fifth floor.

Soon, he was going to obtain a one-edge owner token.

With this token, he could check any floor's round rewards in Eighty-Eight True Yang Building.

If Fang Yuan took the rewards, wouldn't he reveal himself?

"At the final moment, when Imperial Court blessed land is about to close and everyone gets sent out, I will take the rewards then, by that point, nobody would know a thing."

…

Bam!

The bear paw smacked and the earth quaked, rocks were sent flying like shrapnel.

As the smoke dispersed, a huge bear paw the size of five to six horse carriages was lifted, showing a huge crater.

The rank four Gu Master who was unfortunately hit by the bear paw had turned into a pile of mushy flesh, mixed with some bone shards and brain matter.

“Too fast! We cannot react to it.”

“The final round is truly harder than ascending to heaven…”

“This is only the phantom image of a flying bear, it only has half the strength of the true body. If this was really the desolate beast flying bear, we would not even be able to escape!”

The Gu Masters on the battlefield were all injured, they were in a pathetic state and felt great lingering fear.

It was the phantom image of the desolate beast flying bear that was guarding the fifth floor’s hundredth round.

It had a huge body, like that of a mountain, it had white, snowy fur, and a full set of Gu worms in it, each were elite Gu worms. It attacked fiercely, but moved just as agilely, it could dart around like lightning, which was ironic due to its huge bulky figure. After fighting for only thirty minutes, the Gu Masters had already suffered huge losses.

“Lord tribe leader, we should retreat. Our motive this time is to probe it, now that we have understood most of the Gu worms on the flying bear, we have actually achieved our goal already.” Sun Shi Han stood beside Hei Lou Lan, advising.

Hei Lou Lan frowned, looking around the battlefield.

He was an expert in leading men to wars and battles, he knew that his troops had low morale now.

“Since I started challenging the Eighty-Eight True Yang Building, this flying bear phantom is the strongest opponent I’ve met. To defeat it, our strength is not enough, we need even more helpers.”

Hei Lou Lan assessed in his heart before snorting and saying one word: “Retreat.”

Sun Shi Han felt relieved in his heart, and not just him, the other Gu Masters already had the intention to retreat, but because of the Black Tyrant’s fierce reputation, no one dared to suggest it.

Chapter 582

Chapter 582: Fighting flying bear, Wolf King gets fifty percent

Translator: ChibiGeneral Editor: ChibiGeneral

Everyone retreated from Eighty-Eight True Yang Building, as Hei Lou Lan gave an order to recruit experts that night.

He was the alliance leader that won this contest, according to the rules, the entire army was his to mobilize. Everyone knew about the Black Tyrant’s fierce reputation, together with him opening Eighty-Eight True Yang Building to everyone without any cost, they were deeply grateful to him.

With both authority and gratitude, Hei Lou Lan’s influence reached its peak.

With this order, it created a huge commotion as everyone who was called showed up without fail.

Wolf King Chang Shan Yin, Water Demon Hao Ji Liu, Twin Demons Gao Yang and Zhu Zai, Little Ma Zun Ma Ying Jie, Fox Commander Tang Miao Ming, White Fairy Xi Xue, Shadow Sword Expert Bian Si Xuan, Tai Bai Yun Sheng, Lu Shuang, Tao You, Gu Guo Long, Dou E, Nie Ya Qing, Ye Lui Sang…

On the day of the alliance meeting, the hall was filled with shining stars as heroes and conquerors whipped up a huge storm.

“Old sir, with you here, it is like having a giant pillar of support, we do not have to fear about low morale, hahaha!” Hei Lou Lan sat grandly at the main seat, looking around and laughing with great ambitions.

Among those who were present, Tai Bai Yun Sheng had the greatest reputation, he healed people all over the land, countless people were indebted to him, even Hei Lou Lan or Chang Shan Yin could not compare to him.

But the person who sat next to Hei Lou Lan was not Tai Bai Yun Sheng, but Wolf King Chang Shan Yin.

Reputation was something, but battle strength was another aspect.

After the Imperial Court contest, everyone agreed that Fang Yuan's battle strength was the greatest. Dual path cultivator, flying master, enslavement master, all these auras gathered into one person, it was dazzling and overwhelming, thus no one had any disagreements regarding Fang Yuan's position.

Thus, after Hei Lou Lan talked to Tai Bai Yun Sheng, he turned around to Fang Yuan: "Brother Shan Yin, we will need to count on you for this battle! If we get through, you will earn half of the rewards."

He understood Fang Yuan's nature, he would not act without benefits, thus he gave such a tempting offer.

The final round's rewards were nothing ordinary. Once Hei Lou Lan spoke, he gave half the benefits to Fang Yuan, this meant that he, along with the others, would have to share the remaining half of the rewards.

As their interests were concerned, some discussions could be heard in the hall.

Many people were indignant regarding this allocation, but no one had the guts to openly oppose Black Tyrant's arrangements and offend the grand Wolf King in this hall.

"Very well, we will go with that." Fang Yuan nodded, his arrogant gaze swept the hall, as the voices came to a stop.

"Why has elder Pan Ping not arrived yet?" Hei Lou Lan asked around.

Pan Ping was born in the demonic path, nowadays he had entered Hei tribe and become an external elder. As the current Hei tribe leader, Hei Lou Lan's orders did not summon Pan Ping, Hei Lou Lan was extremely displeased by this.

Actually, not just Pan Ping, Chang tribe's first elder Chang Biao was not present either.

But Chang Biao was a Chang tribesman, Hei Lou Lan had to ignore it because of Fang Yuan.

Fang Yuan did not react.

The information regarding the deaths of Pan and Chang had not been spread yet.

Challenging Eighty-Eight True Yang Building normally took several days or even half a month, the tougher the rounds, the longer it would take. Especially someone like Pan Ping, as a person without Giant Sun bloodline, he would incur huge expenses when he entered Eighty-Eight True Yang Building using the guest token. Precisely because of this, these outsiders treasured their opportunity in entering the building, if possible, they would not leave it unless they had no other choice.

Hei Lou Lan's words had just been spoken, when his attendant Hei Shu stood up and reported: "Reporting to lord tribe leader, elder Pan Ping and Lord Chang Biao had gone into the seventh floor not long ago, I have sent people to inform them, but the seventh floor's layout is very confusing, it is like a huge maze. The maze prohibits the use of letter Gu, and there are even wild wolf groups deep inside. The servants have tried to find them for many days, but they only found some battle traces, they could not find the two lords."

Hei Lou Lan snorted as he waved his hand: "Then forget it, we will not wait for them, the guest tokens are ready, we will depart tomorrow morning!"

By the second day, everyone grandly charged into the fifth floor.

This was the largest force that had gathered to enter Eighty-Eight True Yang Building since it was formed, it attracted countless gazes in the sacred palace.

The final round of the fifth floor was a barren and desolate mountain.

Brown soil, hard as steel rocks, with no grass or plants.

The moment everyone entered, the flying bear phantom was alerted and growled, tearing through the air, and causing a thunderous noise.

Swoosh!

They saw in the dark yellow sky, a white whirlwind come crashing down.

The experts retreated at once.

The flying bear phantom crashed on the ground, with a loud bang, the earth shook as intense winds blew, causing many to lose their balance.

“Ferocious indeed!” Pei Yan Fei’s expression was solemn, if he had been hit directly, he would be heavily injured if not dead.

“It was thanks to tribe leader Hei Lou Lan’s reminder, if not, the moment we came in we would’ve been attacked by this bear.” Gu Guo Long looked at the howling flying bear inside the crater and said with lingering fear.

“This is called learning from past experiences, the last time we came here, we were sneak attacked by the flying bear, five experts died on the spot!” Hei Xiu Yi gritted his teeth, saying with deep hatred.

“Brother Shan Yin, the rest is up to you guys.” Hei Lou Lan urged.

According to their battle plan earlier, the first wave of attack should be unleashed by the enslavement path Gu Masters, in order to wear down the flying bear phantom’s battle strength.

Without any words from him, large numbers of wolves came from all directions, from the sky and land, charging and attacking the flying bear phantom.

In the sky, there was the azure wolf group, on the ground, there were the white-eyes wolves, frenzy wolves, blood forest wolves and others.

Ordinary wolves numbered to over four hundred thousand.

At once, the wolves engulfed the area, charging like the huge waves of the great sea, submerging the island-like flying bear phantom.

Roar!

The flying boar roared, shaking heaven and earth.

Howl!!!!

The wolf groups were not to be outdone, howling in a similar fashion.

The battle ensued, whipping up a bloody storm.

The flying bear phantom's four paws slammed, killing at least dozens of wild wolves with one strike. The ordinary wolves could only be a disturbance to it, only the mutated beast groups could pose a threat and cause injuries to the flying bear phantom.

But the essence of enslavement path had always been to overwhelm quality with quantity, expending the enemy's energy to their greatest limit.

Fang Yuan manipulated the wolf group, attacking as freely as the wind, or as crushing as the snow, the flying bear phantom seemed to have sunk into a deep swamp, even with its frenzied attacks, it could not break through the encirclement.

"Now this is a master level attainment."

"Wild beasts are beasts, without a human's intelligence, they are being toyed around by Chang Shan Yin."

"The beast groups are like a work of art under Wolf King's control!"

Everyone was in a daze, the enslavement Gu Masters Tang Miao Ming and Hei Qi Sheng could see the brilliance of his actions, feeling a strong sense of admiration and adoration towards Fang Yuan.

But the good situation did not last, the flying bear phantom suddenly stopped its actions, opening its mouth and exhaling.

With this, the world changed colors, as starlight shone brilliantly to form into a river.

Rank five — star river Gu!

The star river poured down, like a dragon or python, it engulfed the places it went, be it frenzy wolf or blood forest wolf, they were swept away by the star river, some were holding their ground desperately with their defensive Gu, but those that did not have defensive Gu were turned into stardust.

At once, the wolf group suffered huge losses.

Fang Yuan's gaze was unmoved, it was as if the losses did not affect him, and he did not stop for now.

Only until half the wolves were left, did he order them to retreat.

Tang Miao Ming and Hei Qi Sheng quickly ordered their beast groups to replace the wolves.

These two, one was called Little Fox Commander with quasi-master attainment, in terms of enslavement attainment, she was second to Fang Yuan alone in the sacred palace.

The latter was an enslavement path Gu Master nurtured by the super force Hei tribe, although he had not attained master level skill, he had deep foundations and great strength.

Tang Miao Ming controlled the fox groups, while Hei Qi Sheng controlled the eagle groups, one dominated the sky while the other was on the ground.

But the flying bear phantom was getting more ferocious, after the star river had fully looped around in a ring, it clapped its paws together, roaring again as an intense wind blew, and clouds formed from nothing.

In an instant, the intense wind turned into tiger-shaped wind tigers, while the clouds turned into dragon-shaped cloud dragons.

Rank five — wind tiger cloud dragon Gu!

Thousands of wind tigers and cloud dragons charged forward, facing the foxes and eagles head on.

At once, the battlefield was in chaos as blood rained and the pungent smell spread.

“Oh no, at this rate…” Tang Miao Ming’s forehead was full of sweat, her head was hurting as she was gritting her teeth desperately.

The battle was too intense, she wanted to preserve her fox group, thus she manipulated them very meticulously, it caused her soul to be greatly worn out, and she was reaching her limit.

As for Hei Qi Sheng, his situation was even worse than hers.

The fox group could still resist the enemy, but a large proportion of Hei Qi Sheng’s eagle group had already been killed by the wind tigers and cloud dragons, they were in disorder and he could not attend to one aspect without neglecting another.

The other Gu Masters retreated time and time again, but they did not show any surprise.

Star river Gu and wind tiger cloud dragon Gu were exposed in their previous probing, everyone was prepared for them.

“Have you finished the investigation?” Hei Lou Lan asked an investigative Gu Master beside him.

The investigative Gu Master was very nervous, he sat on the ground as he activated his Gu worm wholeheartedly. His forehead was folded into a frown as he replied with a trembling voice: “Star river Gu’s location has been found, it is in the flying bear’s mouth, on the largest tooth on the left side. As for the other Gu worms, we have to continue searching.”

It was different to deal with beasts compared to Gu Masters.

All the Gu worms on the wild beast are wild, they can be captured. Gu worms on Gu Masters were usually refined already.

Hei Lou Lan ordered his men to search for the location of the wild Gu because of this.

As long as they can capture the wild Gu on the flying bear's body, it would be much easier for them to destroy the flying bear phantom.

Even if they could not capture it, it would suffice if they destroyed the Gu.

Gu worms were very fragile on their own, even for Spring Autumn Cicada which was rank six, Fang Yuan just needed to squeeze lightly to squish it.

Wild beasts did not have apertures, the wild Gu resided in their bodies, this was a huge weakness.

Hei Lou Lan snorted, shouting: "Continue searching!"

He was not pleased with this result, the star river Gu was inside the flying bear's mouth, the difficulty to capture it was too high.

During their conversation, the battlefield's situation was getting worse.

"Tang Miao Ming and Hei Qi Sheng are slowly becoming unable to resist!" Pei Yan Fei said with a heavy expression.

"The flying bear's attacks are too ferocious, luckily the wild beasts are attracting its attention. But even if the foxes and eagles die, we can replenish them, our motive of weakening the enemy has been achieved." Sun Shi Han stroked his beard as he evaluated.

Chapter 583

Chapter 583: Killing flying bear, Accident at the final moment

Translator: ChibiGeneral Editor: ChibiGeneral

Although wild Gu absorbed energy from the air directly, being able to use their abilities freely without any limits on primeval essence.

But during an intense battle, towards the end, the wild Gu would become more and more passive, if they sensed that the battle was going south, they would leave their host and escape on the spot using their instinct of sensing danger.

Thus, when attacking a wild beast, especially beast kings or desolate beasts, during the first half of the battle, it would usually contain the most firepower, after a while, the attacks would slowly become weaker and less oppressive.

“Even so, we cannot allow the fox group and eagle group to suffer such losses, we should invite Lord Chang Shan Yin to step in.” At the side, Hei Xiu Yi said.

“Step in… to what end?” Fang Yuan folded his arms, scoffing arrogantly as he heard this: “According to our battle arrangement, I will strike first while the two of them take over after me, with such intervals, we have to each hold on for fifteen minutes. Right now, they have not even been there for half the allocated time, it is not time for me to step in yet.”

If they entered the battlefield now, the wolf group would only face the cruel slaughter of the flying bear phantom, although it would weaken the flying bear phantom as intended, if he could reduce his losses, Fang Yuan was very willing to watch on the fence.

As for the others’ losses, was that Fang Yuan’s problem?

Hei Xiu Yi was furious upon hearing this, but because of Fang Yuan's status, he could only hold in his anger: "Lord Wolf King, everyone is putting in their full effort for this battle, right now Tang Miao Ming and Hei Qi Sheng are fighting with their life, but lord is watching by the side, isn't this too much?"

"Hmm? You dare to lecture me?" Fang Yuan frowned as his killing intent surged.

Although he was folding his arms, a monstrous arm grew out from his back.

The monstrous arm was extremely powerful and strong, but it also moved extremely fast, directly assaulting Hei Xiu Yi.

Never in Hei Xiu Yi's dreams did he think that Fang Yuan would dare to publicly, and especially during such an important battle, try to kill him?!

Before the fist hit, he felt the intense winds blowing towards him, causing his face to feel pain already.

An incomparable feeling of fear and danger instantly filled his heart.

At the crucial moment, his battle senses from many years of fighting saved his life successfully.

He reacted before even thinking, activating his defense Gu and putting up three lines of defense.

He was a defensive Gu Master originally, and because his specialty was defense, Hei Lou Lan had once sent him to Fang Yuan as a form of protection.

But during the battle, Hei Xiu Yi cherished his own safety and forgot about his mission, abandoning Fang Yuan on the battlefield.

The monstrous arm was unstoppable, it smashed the three defenses quickly and hit his chest.

Crack.

A crisp sound could be heard.

Hei Xiu Yi’s rib bones were all crushed, the monstrous strength sent him flying like a cannonball.

He vomited blood while flying in the air.

Then with a rumble, he crashed on a small mound several hundred steps away.

When the sound of the impact was heard and the dust settled, he was half embedded into the mound, falling unconscious and losing his battle strength.

“Lord Wolf King?!”

“What happened? What happened! Why did they fight?”

“Hei Xiu Yi urged Lord Wolf King to battle, the two could not get along and Wolf King suddenly burst into anger, sending Hei Xiu Yi flying!”

Seeing such a shocking event, everyone was gasping.

Internal conflicts were always so sudden, so severe.

Hei Xiu Yi’s identity was not simple, he was one of the three commanders of the black banner army, an important person within the Hei tribe higher-ups. Fang Yuan attacking him with such intensity was no different than openly taunting Hei Lou Lan.

Once Hei Lou Lan and Chang Shan Yin stood on opposing sides, this battle would not only end up in failure, the entire sacred palace would also fall into political turmoil!

“Wolf King, what happened? I would like to hear your explanation.” Hei Lou Lan’s expression was like still water as he came over to question Fang Yuan.

He usually called Fang Yuan “Brother Shan Yin” to show their close relationship, but now that he called him “Wolf King”, it showed his anger.

But no matter how angry he was, would Fang Yuan be afraid?

Immediately, Fang Yuan stared back at him with no fear, his killing intent dispersed as he snickered: “Tribe leader Hei Lou Lan, you came at a good time, your subordinate was truly stepping out of line, he dared to lecture me? Such a lack of respect with a complete disregard for seniority, I punished him for you, no need to thank me, don’t forget about our friendship after all.”

Using “disrespect” and “seniority”, he sent two reasons over just like that.

His final sentence mentioning “our friendship” had even deeper meaning.

It was like he was trying to say that they had a great friendship, but it could also mean that they had no friendship at all!

Hei Lou Lan stared furiously!

“This Chang Shan Yin is too arrogant! He dared to hit my man! Looking at his lawless manner, does he really think I cannot do anything to him just because of his great battle strength?” Black Tyrant roared in his heart.

He was cultivating dark path on the surface, but in truth, because of the Great Strength True Martial physique, his real cultivation was in the strength path.

His battle strength was superb, but he could not use his strength path methods because that would accelerate the disaster of one of the ten extreme physiques.

“I’ll endure it! Right now, we are at the crucial moment of attacking the flying bear phantom, if we get into an argument now, it would all go to waste! What is most important now is to find my strength path Immortal Gu and ascend to become a Gu Immortal!”

As long as they killed the flying bear phantom this time, Hei Lou Lan would be able to get through this floor and his owner token would immediately become a one-edge owner token.

With the one-edge owner token, he would be able to inspect the reward of any round of any floor, the one with a strength path Immortal Gu would be his focus and target.

Precisely so, it was extremely important to kill the flying bear phantom, even with Hei Lou Lan's temper and cruelty, he had to endure it.

“I'll let you be arrogant for once! One day, I will make you kneel down at my feet and lick my toes, if I tell you to shut up, you will keep quiet. If I ask you to bark, you will wag your tail!”

Hei Lou Lan was extremely furious, veins were popping on his forehead, but his eyes were fixed on Fang Yuan intensely.

Just as everyone was feeling a heavy atmosphere from this silence, and were feeling uneasy, Hei Lou Lan suddenly raised his head and laughed loudly: “Good, brother Shan Yin did a good job, such a disrespectful person should be taught a lesson indeed.”

This was akin to Hei Lou Lan taking a step back, those who knew his poor temper were all shocked.

“His tribesman was beaten till he was unconscious in public, Hei Lou Lan actually agreed with him?”

“Wolf King is too strong, he did not care about the super force Hei tribe, now even Hei Lou Lan need to take a step back.”

“Bullshit, this is tribe leader Hei Lou Lan caring about the big picture! He did not want to stoop to the level of Chang Shan Yin! Chang Shan Yin beat us Hei tribesmen, one day, he will pay the price.”

Everyone had their comments as they conversed in secret.

Roar!

The flying boar's roaring attracted everyone's attention again.

The eagle and fox groups were facing great losses.

“I have let down all the lords.” Hei Qi Sheng’s nose was bleeding, his face was full of shame.

Tang Miao Ming’s expression was pale, as her slim body was swaying with weakness.

“Protect the two of them.” Tai Bai Yun Sheng shouted.

“Both of you have had a huge contribution to this, I can see your sincerity. After this battle, you will be greatly rewarded.” Hei Lou Lan had an amicable expression as he came forward to console them.

The flying bear lost its obstacles and charged forward towards everyone.

By right, the wolf group should be charging up to continue weakening the bear.

But Hei Lou Lan looked at Fang Yuan who was folding his arms arrogantly, not saying a word, in fact his wolves were retreating faster than anyone on the battlefield.

“I’ll endure! One day, I will make you pay a huge price!” Hei Lou Lan gritted his teeth, knowing that he could not make Fang Yuan do anything, if he forced Fang Yuan and got rejected in public, he would take a huge hit to his reputation and be deeply humiliated.

Thus, Hei Lou Lan shouted loudly: “Strike, initiate the second step of the plan!”

“Go!”

Immediately, two people flew out like lightning.

One was a slim and elegant person wearing a fluttering blue dress, it was White Fairy Xi Xue.

The other was muscular and stable, wearing a yellow robe, it was Gu tribe leader Gu Guo Long.

White Fairy Xi Xue flew into the air, her sleeves were waving as she shouted in an alluring manner, causing snow to descend immediately.

It was her signature rank five Gu worm — flying snow Gu.

Gu Guo Long ran on the ground, his legs were moving like turbines, everywhere he went, smoke rose as rocks were sent flying.

It was also a rank five Gu, called flying sand moving rock.

At once, white snow was floating in the air, while sand and rocks were rolling on the ground.

The giant mountain-like flying bear phantom was stuck between the snow and sand, its speed reduced drastically as its vision was also obscured.

It roared loudly, waving its paws in the snow and sand, but the air currents generated from its attacks made the sand and snow even more intense, blurring its sight.

Seeing this, Hei Lou Lan laughed cruelly, ordering: “Third step!”

This time, almost ten people charged into the battlefield.

Every one of them was an expert, there was Bian Si Xuan, Hao Ji Liu, Pei Yan Fei, Gao Yang, Shu Zai, Dou E, Nie Ya Qing, Tao You, Lu Shuang…

These Gu Masters were either rank four peak stage or rank five experts.

Adding in Gu Guo Long and Xi Xue, they were truly a powerful formation.

They drilled into the snow and sand, attacking furiously towards the flying bear phantom.

The flying bear phantom roared continuously, it was very agitated and attacked randomly, but had little effect.

On the other hand, the Gu Masters had used their investigative Gu worms from the start, their vision was clear as they constantly avoided the bear while unleashing strong attacks.

Pei Yan Fei grew wings as his swallow wings were like scissors tearing through the sky.

Swallow wings Gu.

Golden coat Gu.

Rainbow transformation Gu.

Killer move — Golden Rainbow Strike!

He turned into a golden flash of lightning as he charged down with fierce crackling.

The flying bear roared in pain, blood was spewing as a huge injury appeared on its chest, from the left shoulder to its right waist.

Nie Ya Qing followed closely after.

He was a rank five Gu Master, using the iron hook silver slash Gu.

His palm formed into an eagle claw shape as he aimed at the flying bear phantom, slashing with his fingers.

Immediately, several flashes appeared in the air, some were as dark as steel while some were shining like silver.

His claws continued to tear at the sky, as countless flashes attacked the flying bear phantom's eyes, nose, and mouth.

Nie Ya Qing attacked its weak points, causing the flying bear to take the hit passively.

"Overlapping shadow." Bian Si Xuan shouted lightly, as the shadow sword in her hand waved.

A dark sword shadow flew several hundred steps and attacked the flying bear's right leg noiselessly, leaving a ten meter long wound.

"Protect me." Ye Lui Sang shouted, raising both his palms as a fireball appeared above him, growing and expanding at a rapid speed.

The fireball became larger and larger, as the battlefield was dyed red, the light from the fireball could not be concealed by the snow and sand.

The flying bear felt the danger too and struggled, charging towards Ye Lui Sang who was in the air.

But the next moment, it was attacked by Dou E, Gu Guo Long, and Tao You.

Dou E was a transformation path Gu master, turning into a giant crocodile as he battled and retreated.

He opened his mouth, shooting out his teeth one by one.

The teeth hit the flying bear's body and were embedded into it, in a few breath's time, they exploded, causing the flying bear's body to be covered in flesh and blood.

Gu Guo Long waved his sleeve and dozens of Gu worms flew out.

These Gu worms landed on the ground, causing the earth to grow into a mound.

The mound broke and rockmen-like giant statues appeared, standing up and attacking the flying bear phantom.

Tao You was an earth path Gu Master.

But he and Gu Guo Long had different methods, he continued to absorb the earth energy as he gathered it into himself.

Next, he punched consecutively, with each punch shooting out earth energy. Flying in the air, they transformed into meteors and crashed onto the flying bear's body.

Bam bam bam…

As the intense meteors collided, the flying bear's attacks towards Ye Lui Sang slowed.

Finally, Ye Lui Sang was finished with his charging and he pressed his palms down, as a giant fireball was sent down like a descending mountain, hitting the huge flying bear phantom without regard for its welfare.

Bam——!

With an intense explosion, ears were deafened.

The intense wind stirred, spreading everywhere, blowing the snow and sand away to the edge of the battlefield.

The Gu Masters who were there were blown by the intense winds, getting shocked as their clothes and hair were pulled along by the wind.

When the dust settled, a huge crater formed on the battlefield.

All around the deep crater, a sand-like surface could be seen due to the strong heat from the fire.

The flying bear phantom was curled up into a ball, making no sounds. Its body was covered in five lights that were interchanging, black, white, red, yellow, and azure.

Rank five — five element bear skin Gu.

This Gu could greatly reduce the damage from metal, wood, water, fire, and earth path Gu worms, but under the attacks of so many experts, the flying bear's body was covered in injuries as blood spewed everywhere, and some injuries were so deep bones could be seen.

Gu Masters were standing at the edge of the crater, watching the flying bear.

Although the flying bear was strong, after two rounds of battle, such results had been obtained.

"Be careful, do not forget that it still has the grand chaotic dance Gu." Sun Shi Han reminded.

The Gu Masters had a serious expression as some nodded lightly.

Grand chaotic dance Gu was a rank five Gu, it could cause the flying bear to go into a frenzied state, increasing its strength and speed greatly, at the same time its four limbs could be twisted at will.

Once this wild Gu was activated, the flying bear's danger level would surge, if one was not careful and got caught, they might be turned into meat paste in no more than a few breath's time.

"What's there to be afraid of, don't forget we have Old Sir Tai Bai here, whoever charges first will be heavily rewarded by me!" Hei Lou Lan shouted, his promise of rewards made the Gu Master's eyes shine brightly.

When great rewards are offered, brave people emerge.

"I'll do it!" Hao Ji Liu shouted, whipping up a wave as he charged towards the flying bear.

Under everyone's gazes, he advanced towards the flying bear quickly.

A thousand steps, five hundred steps, three hundred steps!

The flying bear suddenly raised its head, its eyes were blood red as it growled loudly, shooting out an invisible air bubble.

The bubble expanded at lightning speed, covering both Hao Ji Liu and the flying bear, as it contracted quickly and vanished completely.

In an instant, the flying bear and Hao Ji Liu both vanished!

Chapter 584

Chapter 584: Demise of Water Demon, Fang Yuan’s enlightening words

Translator: ChibiGeneral Editor: ChibiGeneral

With such a sudden event, everyone’s expressions changed.

“What happened? Where did they go?”

“He vanished!”

“Don’t tell me this round has some secret behind it?”

Everyone was guessing as they discussed among themselves.

Hei Lou Lan was frowning, feeling very perplexed.

Sun Shi Han’s expression was grim and uncertain, he seemed to have thought of something as he spoke in a hesitant manner: “Is it the battle space Gu?”

“Battle space Gu?” At once, everyone’s attention was focused on Sun Shi Han.

Hei Lou Lan’s eyes shone with brilliance as he said deeply: “This is indeed a space path Gu worm, but if it is the battle space Gu, then elder Hao Ji Liu is in trouble.”

“Battle space Gu vanished for so many years, to think it would reappear here today.” Tai Bai Yun Sheng sighed, it seemed he had confirmed it.

He had obtained an Immortal inheritance from the old beggar, he naturally had great knowledge.

“What is the battle space Gu?” Everyone asked.

Ye Lui Sang’s gaze was grave, he was the current tribe leader of Ye Lui tribe, a super tribe, but because they lost, he had to join Hei tribe.

He owned a mysterious fire path Immortal Gu, he was well-learnt and had a wealth of knowledge, at this point, he started explaining: “The battle space Gu is a rank five space path Gu worm. Once activated, it can send both the enemy and the user into a unique space. In there, they will fight to the death, so only when the winner is decided, or when the time runs out, would they be released from that space.”

“Sigh, to think that the flying bear had such a Gu worm hidden!” Hei Lou Lan sighed as he looked at the sky, speaking with a hateful tone.

Everyone’s expression was grim as ever, expressing their worry towards Hao Ji Liu’s safety.

The flying bear phantom was so strong, even with everyone’s combined strength, they could not kill it, how could Hao Ji Liu face it all on his own?

The result of this match could be easily predicted by anyone — the flying bear wins and Hao Ji Liu loses.

Although Hao Ji Liu had first rate escaping methods like water image Gu, Ye Lui Sang had already said that the space created by battle space Gu would only close when one side has a clear victory, decided by life and death.

Even if Hao Ji Liu used all his escaping methods, he would be captured and killed by the flying bear phantom eventually.

Unless he had an opposing space path Gu.

But Hao Ji Liu was a water path Gu Master, everyone knew that.

Even among all the experts present, none of them were in the space path, thus there was nothing they could do to the battle space Gu.

“Maybe there is still some hope, tribe leader Ye Lui Sang said earlier that ‘only when the winner is decided, or when the time runs out’, this ‘time runs out’ means?” Tang Miao Ming asked.

Ye Lui Sang sighed deeply: “Sigh, this time restriction is for Gu Masters. To maintain the battle space Gu, primeval essence will be expended constantly. If a Gu Master uses it, the battle space would vanish when their primeval essence is completely used up.”

At this point, everyone lost their hope.

The flying bear phantom’s battle space Gu was a wild Gu.

Wild Gu absorbed the primeval energy in the air, and as the primeval energy in the air was continuously supplied, there was no way for the ‘time limit’ to end.

“If we can absorb all the primeval energy in the air, would that work?” Bian Si Xuan gave a very good suggestion, everyone’s eyes were shining.

But it was no use.

After discussing for a while, everyone found that to deal with the invisible and formless primeval energy, qi path methods were required.

But qi path was an ancient path, it had once flourished but had been replaced later by the rising strength path.

By now, strength path had declined, not to mention qi path.

Qi path had been near extinction for a long time.

It was extremely rare to see a qi path Gu Master.

Even though Tai Bai Yun Sheng had roamed northern plains for so many years, he had only see three qi path cultivators. The most recent one, who was also the strongest, was Liu Wen Wu’s sworn brother — the variant human Mo Shi Kuang.

But this person had followed Liu Wen Wu since long ago, he was part of Liu tribe, why would he serve under Hei Lou Lan?

Even if he could help, he was an attack type Gu Master, he might not have the ability to deal with the primeval energy. In any case, no one could enter Imperial Court blessed land anymore at this point.

“Qi path is not the most important. The most crucial thing is to break the connection between the primeval energy and battle space Gu, we do not need to get rid of the primeval energy in this area.” Tai Bai Yun Sheng said as he stroked his beard.

But this was something no one could do.

Breaking the connection between the primeval energy and wild Gu was the signature ability of restriction path.

Restriction path was also a rare path, there were very few restriction path Gu Masters.

Among everyone present, no one was a restriction path Gu Master.

“Sigh, earlier when I obtained a high grade evaluation and entered Eighty-Eight True Yang Building’s treasure room, I found the restriction path primeval break Gu, it could be used in this scenario. But who could I have predicted this, I ended up exchanging something else.” Lui Shuang patted his thigh, expressing his regret.

Fang Yuan was folding his arms, expression and not speaking as he stood at one side.

“Think harder, there has to be a way.” Hei Lou Lan had just spoken, when the space shook, the huge body of the flying bear phantom appearing before them.

It opened its mouth and roared, showing its frenzy nature.

Everyone’s heart sank, quickly looking for Hao Ji Liu’s traces.

If he is alive they must see him, if he is dead they must at least see the corpse, but they could not find it anywhere.

“Quick, look at the flying bear’s mouth!” Sun Shi Han was an investigative Gu Master, he was the first to find the trace.

Everyone looked over and saw that the flying bear's mouth had traces of blood, and there were some cloth stuck in between its teeth.

This cloth was very familiar to them, everyone pondered about it and quickly realized, wasn't this Hao Ji Liu's clothing?

They understood at once.

Hao Ji Liu was eaten by the flying bear!

What a pity for Hao Ji Liu, the great demonic path expert, known as the "Water Demon", displaying great brilliance in the Imperial Court contest, yet he died at this very place.

Fate was full of uncertainty, the cruelty of reality made everyone feel a strong sense of pity and dread.

Tai Bai Yun Sheng could do nothing either.

Although he had man as before Gu, but it needed a target to use it on, right now Hao Ji Liu's corpse was chewed up by the flying bear, and swallowed into its stomach.

How could he be saved?

The Gu Masters' morale fell.

"The flying bear phantom is too ferocious, how can we fight it?"

"It is so cramped inside the battle space, the flying bear has the five element bear skin Gu, wind tiger cloud dragon Gu, star river Gu, and grand chaotic dance Gu, if we fought it alone, who could be its match?"

"We could never have expected this final round to be difficult to this degree!"

Eighty-Eight True Yang Building's rounds got harder towards the later stages, and the final, hundredth round was the hardest.

Right now Eighty-Eight True Yang Building had already created more than ten floors, the Gu Masters were working hard to clear all the rounds for rewards, but most of them were stuck at the ninetieth or so round.

This final round was the first one everyone had arrived at.

“Damn it, morale is so low, it is hard to fight anymore, do we return empty handed this time?” Hei Lou Lan’s expression was grim.

This time, they created a huge party for this challenge, yet they lost an expert without gaining anything. This was a huge blow to his reputation and prestige.

Disregarding that, what Hei Lou Lan wanted was a strength path Immortal Gu, meaning he needed a one-edge owner token.

If he could not clear this floor, he would only have an ordinary edgeless owner token.

If he gave up on this floor and chose other floors to challenge, he would need to expend a lot of time.

Time waits for no man, and this too went for him, Hei Lou Lan!

Just as the troop’s morale was sinking, Fang Yuan slowly said with a calm expression: “What difficulty is there in killing the flying bear?”

Once he said so, dozens of gazes turned around to look at him.

But soon, they lowered their gazes.

Wolf King was no longer the Wolf King in the rumors.

In the past, Wolf King Chang Shan Yin was a great heroic character in northern plains, a legend who exterminated Ha Tu Gu and his band of bandits.

The current Wolf King was a flying and enslavement master, the number one fierce general publicly recognised in this current Imperial Court contest. During the final battle, he took down the enemy’s commander easily from amidst the army, showing his great strength!

He had become even more arrogant and aloof, even becoming cruel and ruthless, striking as a means of persuasion. Hei Xiu Yi who was nearly killed by him was a prime example.

Looking back in time, there was another example, Sun Shi Han.

He had once been attacked by Chang Shan Yin in public, his entire face was trampled on the ground under everyone's watchful eye, he had lost all his pride and face.

Only Hei Lou Lan's gaze approached him, only the 'Black Tyrant' had no fear towards the unrestrained and arrogant Chang Shan Yin.

"Brother Shan Yin, I would like to hear your brilliant plan!" Hei Lou Lan cupped his fists.

Fang Yuan laughed lightly: "It is not a brilliant plan, there is no harm in saying it."

He paused before saying: "This battle space Gu is quite special, but it is only rank five, there has to be restrictions on it, particularly in range. In my opinion, as long as we fight it from afar and avoid the range of battle space Gu's effect, we will be fine."

Hei Lou Lan was shocked, these words truly made him feel as though he was waking up from a dream!

Everyone's eyes were shining, some patted their head as they said excitedly: "I was too frightened by battle space Gu's reputation."

Indeed, any Gu worm had its range of effect.

The battle space Gu's range should not be wide, otherwise, it would not have waited for Hao Ji Liu to get close before activating it.

Of course, battle space Gu was a wild Gu, so the range had to be assessed more carefully.

"Next, I will manipulate the wolf group and encircle the flying bear, you guys will attack from afar using long range methods." Fang Yuan commanded.

Hei Lou Lan was overjoyed, he could not command Fang Yuan to move, now that Fang Yuan was voluntarily entering battle, he quickly said: “We will do as Wolf King says!”

Battle ensued again.

The wolf group was inside trapping the flying bear. The Gu Masters were outside unleashing a rain of attacks from afar.

Like this, the scene of a group of ants eating an elephant was formed.

Flying bear roared continuously, using star river Gu, wind tiger cloud dragon Gu, grand chaotic dance Gu and others, causing great casualties to the wolf group.

In contrast, the Gu Masters were all safe and sound, no more deaths occurred.

Hei Lou Lan was initially afraid of Fang Yuan withdrawing due to huge casualties in the wolf group.

But Fang Yuan showed a strong attitude, he did not retreat even though he was having losses, he even disregarded the wolf corpses.

Hei Lou Lan was perplexed, but after thinking about it, he attributed Fang Yuan’s reason for not retreating no matter what to his earlier promise — once they cleared this, Wolf King would get fifty percent of the reward!

What he did not know was, Fang Yuan’s true motive was his owner token.

Hei Lou Lan wanted to elevate his owner token, that suited Fang Yuan’s interests, after his owner token becomes four-edge, Fang Yuan would snatch it away and form the ten-edge owner token, obtaining a Giant Sun true inheritance.

Because of Fang Yuan’s intervention, the scales of victory tilted towards the Gu Masters.

Flying bear’s injuries became heavier, as blood flowed down the mound like a waterfall.

Roar!

Suddenly, the flying bear roared again, shooting out another invisible bubble.

The rank five battle space Gu was activated once again.

The Gu Masters were prepared for this, retreating quickly, but the bubble was targeted at a blood forest wolf.

Swoosh.

With a light sound, the flying bear and the blood forest wolf vanished.

“Using the same move again, what’s the use?” Someone saw this and laughed.

“As long as we do not get closer, why would we be afraid of the battle space Gu? Hahaha!”

“All of you shut up!” Hei Lou Lan screamed furiously, showing a very annoyed and irritated expression.

Not just him, Fang Yuan, Tai Bai Yun Sheng and the others also had a grim expression.

Chapter 585

Chapter 585: Finally getting through, Fang Yuan requests for an Immortal Gu

Translator: ChibiGeneral Editor: ChibiGeneral

This time, the battle space lasted much longer than before, lasting half a day before it dispersed. The hill-sized giant flying bear phantom appeared once again before everyone.

“Damn it, just like we thought!” Sun Shi Han cried out involuntarily.

“Hmph!” Hei Lou Lan was also not looking well.

There were no injuries on the flying bear phantom’s body, a dazzling halo flowing through its snow-white fur. Its eyes were bright and its battle intent soared high; it had seemingly made a complete recovery

Flying bear had a rank five healing Gu which had already been investigated clearly.

As for its opponent – the blood forest wolf – which had been pulled into the battle space, only a pile of white bones remained.

“Can we still fight it?” Even Pei Yan Fei with his raging battle intent, felt indecisive at this moment.

Tai Bai Yun Sheng stroked his beard and muttered: “No matter how serious the flying bear phantom's injuries are, as long as it uses battle space Gu to enter the battle space, it can recover back to its prime state in half a day. And during this time, we can do nothing but to just look on."

"Right, battle space Gu might only be a wild Gu and not under the flying bear's control, but a wild Gu's sense of danger is very sharp, and when it senses danger, it will casually choose a target to pull into the battle space to protect its host."

"Doesn't this mean the wolf groups also cannot be used? Wolf groups have to engage in close combat, surrounding the flying bear, aren't they just the best targets to pull into the battle space?"

"Looks like only us Gu Masters should attack now!"

When someone said this, the scene suddenly quietened.

Throwing out the wolf groups and making Gu Masters assault the flying bear phantom was also not feasible!

The flying bear could quickly pull a Gu Master into the battle space. The Gu Master was sure to struggle bitterly to their last breath, using every method they had to keep on living.

There was a very simple way to break the battle space and not give the flying bear enough time to heal: the Gu Master that was pulled in to the battle space needed to immediately suicide.

But no one would want to kill themselves, survival instinct was human nature.

Even Tai Bai Yun Sheng would not be able to save them; Water Demon Hao Ji Liu's bloody tragedy was a clear example of it.

"The final round is really too difficult. We have gathered so many people with many heroes, but we are actually helpless against this flying bear phantom with our combined strength!"

Flying bear quietly lied down on the ground, vigilantly looking at the crowd. It did not attack and only let out low roars.

“It should not be like this, the crucial thing is we have no way to restrain battle space Gu. We don’t have methods of restriction path and qi path.”

“Hei tribe leader, I suggest we change the strategy.” Ye Lui Sang was also a tribe leader of a super force, others might not dare to speak up, but he could talk bluntly.

Hei Lou Lan gave a snort but did not reply.

His thoughts moved like lightning: ‘Looking at this situation, it is almost impossible to resolve the problem of battle space Gu. It seems like there is only one way, that is for me to go into battle and make the flying bear pull me into the battle space. In the battle space, I can use my strength path killer move and kill the flying bear!”

His strength path killer move was extremely powerful, it was a secret technique of Hei tribe.

Hei Lou Lan could not take care of the flying bear with just the dark path cultivation which he showed on the surface. But if he used his strength path abilities, with the amplification from his Great Strength True Martial Physique, it would not be difficult for him to kill the flying bear.

But if he did so, he would be breaking the sealing effect of Immortal Gu Dark Limit, which would quicken the appearance of the disaster of one of the ten extreme physiques.

“The time I have is already not enough, now if I use my strength path killer move to kill the flying bear, this time will shorten even more. And in this short period of time, I still need to attack another floor, clear a hundred rounds and obtain a strength path Immortal Gu, this difficulty is too large!”

“But if I don’t cross this round, I won’t have a one-edge owner token, so how could I know about the position of the strength path Immortal Gu? Whether I change the strategy or ask for support from the tribe, they both require time!”

“The worst situation will be if I use the strength path killer move, kill this flying bear, obtain a one-edge owner token, but there is no strength path Immortal Gu in Eighty-Eight True Yang Building…"

Hei Lou Lan was hesitating.

This matter concerned his life and death while the path ahead was filled with darkness, even he could not avoid being indecisive and helpless.

"It is not difficult to break the battle space."

One astonishing sentence resounded in the place.

Everyone followed the voice towards its source; it was none other than Wolf King once again.

"Brother Shan Yin, you have another method?" Hei Lou Lan immediately asked.

Fang Yuan smiled: "I should also be making an all-out effort for the fifty-percent reward, right? My plan is divided into three steps. First, we will use long-range methods to exhaust the flying bear's energy as much as possible. Second, we will send a death warrior to engage in close combat; he will have to immediately suicide if he is pulled into the battle space. Third, the flying bear will have no time to take a breather, and we continue with long-range battle; we will definitely be able to kill this beast once we maintain this plan!"

"Good plan!"

"How could I have not thought of it?"

Some people cheered; some people slapped their thighs loudly in pleasant surprise; while some people inwardly muttered of this plan's cruelty.

But no matter what they commented, everyone knew this method could solve the problem.

In northern plains where battles occurred frequently, every single tribe possessed death warriors; it was only a matter of whether they had many or few, whether they were elites or ordinary.

Hei tribe was a super force, the death warriors they cultivated were not only many in number, but were also elites.

“This way…” Tai Bai Yun Sheng slightly frowned, disturbed by this plan.

Sun Shi Han’s eyes flashed with brilliance as he looked at Hei Lou Lan without speaking.

Dying in battle and taking the initiative to throw away one’s life were two completely different concepts.

The former was the honor of the brave, while the latter was those in power bringing disaster to other’s lives for their benefits.

If this plan was really to be carried out, Hei Lou Lan, this Hei tribe leader’s reputation would be completely destroyed.

This was against the values of the righteous path.

Being in the righteous path, their biggest concern was reputation.

Those with bad reputation would have a limited achievement in the righteous path. Demonic path was different, no matter what the reputation was, its main value was strength! Thus, within the demonic path, there was the plague-like Hao Ji Liu, as opposed to the life-savior Tai Bai Yun Sheng.

Because of this, Sun Shi Han did not attempt to advise this matter.

He was a smart man and knew no matter how he said it or persuaded, it would not be appropriate.

He had even thought of this method earlier, but did not suggest it.

He did not dare.

The current Sun Shi Han was already an external elder of Hei tribe. Once he suggested this, it would be asking to soil his reputation, would he still be able to stay with Hei tribe then?

“Probably only this sinister and cruel Wolf King can say it without any misgivings.” Sun Shi Han secretly glanced at Fang Yuan with hatred and fear, his cheeks seemingly twitching in pain.

But what Sun Shi Han did not know was — to Hei Lou Lan, what use would reputation be when his own life was about to be over?!

When Hei Lou Lan heard Fang Yuan’s plan, he immediately decided to use it.

But he still frowned and thought for a long while, hesitating, pitifully sighing and showing a profound ‘merciful’ expression. Finally, he heaved a long sigh and spoke a pile of erudite words.

The main idea was: They were forced to use this plan. The tribesmen who die will be given grand burial by him as a brother, and he will personally take care of their family, give compensation, and so on.

Everyone knew it, but they could not point it out, this was the game rule of the righteous path.

After going through this process, Hei Lou Lan immediately summoned Hei tribe’s death warriors to enter the battle.

These death warriors from Hei tribe were all of rank two cultivation and had been brought up by Hei tribe since youth, imbued day and night with the ideology of loyalty to the tribe.

As for rank three death warriors, it was not that there were none of them. But once they reach rank three, they would become a precious resource and almost every one of them would be free from the status of a death warrior.

Only super forces would have a number of death warriors of rank three and even rank four cultivation, but they would not use them so lightly.

Hei Lou Lan was this generation’s Hei tribe leader and if he sent these death warriors to their deaths, they could not refuse him.

If the emperor wants his subjects dead, the subjects need to die no matter what, regardless of their will!

This was the system.

The following battle went without any accidents.

The battle persisted till more than ten death warriors were sacrificed, and the flying bear phantom finally collapsed on the ground, breathing its last.

But when everyone wanted to deliver the final strike, they suddenly discovered they could not even budge.

“What is happening?!”

“It is Eighty-Eight True Yang Building’s power making us not able to move!”

“This, isn’t this too shameless. Only a move more and we could kill this flying bear!”

Everyone shouted and raged at this stupefying situation.

Only Fang Yuan’s expression was tranquil, he had a six-edge owner token and knew that this round was over.

Hei Lou Lan also felt this and immediately took out his owner token, fixing his gaze at it and saw an edge gradually emerging from the originally round owner token.

At the same time, a strong sense of fortune entered the depths of his heart, letting him know that he was in full control of this floor.

‘So we had no need to kill the flying bear in this final round and only needed to beat it to near death!’ Hei Lou Lan was exulted inwardly, but showed a mournful expression on his face, sighing, “Everyone, do not fret, the battle has ended, we were successful, this round is crossed. Sigh… what happened to my Hei tribe’s children was truly a pity. If not for the battle space isolating the connection between the inside and outside, I would have definitely used puppets or wild Gu to replace them.”

“Passed… we passed?” Everyone was shocked and excited.

"Tribe leader Hei Lou Lan, I wonder what the rewards for this round are? Is it possible to let this old man broaden his horizons." Tai Bai Yun Sheng inquired. The motive for him entering Eighty-Eight True Yang Building was lifespan Gu. However, lifespan Gu was rare and precious and could only appear as the rewards for ninetieth or above rounds.

Hei Lou Lan revealed a peculiar expression at the inquiry and pointed at the dying flying bear phantom: "That is this round's reward."

"What?"

"This flying bear phantom?"

"How could it be?"

Everyone was shocked once again, only Fang Yuan knew clearly.

He possessed a six-edge owner token, and knew the rewards for any round of Eighty-Eight True Yang Building's current floors like the back of his palm. Before even tackling this round, he knew of this round's reward – it was a rank six phantom path Immortal Gu with a simple to understand name – flying bear phantom Gu.

Sure enough, at the next moment, under everyone's astonished gazes, the dying giant flying bear gradually turned into an enormous ball of white light.

The white light shrunk rapidly, finally turning into a speck of light that flew towards Hei Lou Lan.

Hei Lou Lan quickly received it and carefully observed it.

He was the master of the owner token, the reward for passing this round was his. He had just come into contact with this flying bear phantom Gu, but easily refined it because of Eighty-Eight True Yang Building's power.

Fang Yuan's six-edge owner token was different. It was created from exploitation and could only receive the floor's rewards after taking control of the floor. Naturally, it was not like it could not contest against Hei Lou Lan's owner token, but once they contested, Giant

Sun’s will would awaken which would cause a great loss to him, or even face a tragic end.

This risk was better not taken if possible.

Flying bear phantom Gu was looking very dim, its aura was weak like it was near death, its condition was extremely poor.

But Hei Lou Lan was unable to take his eyes off it. What was this?

‘This is an Immortal Gu!’

He had just sighed with emotions inwardly when a voice sounded in his ears: “This Immortal Gu, give it to me.”

The tone of the voice was flat, but it could not suppress the determination within.

Hei Lou Lan immediately frowned, he did not need to look around to know who the speaker was.

Who else had guts to mention such a request besides Wolf King Chang Shan Yin?

Chapter 586: Using flying bear, Mo Yao speaks of phantom path

Translator: ChibiGeneral Editor: ChibiGeneral

When Fang Yuan publicly requested the flying bear phantom Gu, Hei Lou Lan's immediate reaction was to object immediately.

This was an Immortal Gu!

Even an ordinary Gu Immortal would not obtain one easily. No matter how amazing Wolf King was, he was only a mortal, he dared to make such an absurd request?!

Moreover, this flying bear phantom Gu was extremely easy to use.

With just a single thought, and a toss of the Gu, one could make the Gu worm transform into the flying bear phantom and engage in combat.

Although the flying bear phantom's battle strength was not as terrifying as the desolate beast flying bear, it definitely had half-immortal battle strength, with this Gu, one could easily dominate the mortal realm.

If during the Immortal Court contest, Hei Lou Lan had such an Immortal Gu…

There would be no place for Fang Yuan to display his abilities!

Fang Yuan opened asked for it, it was very rude. However, even though Hei Lou Lan was furious, he felt that this was only natural.

After all, only a person like Chang Shan Yin would have the guts to make such a request in public.

Looking at the flying bear phantom Gu in his hand, Hei Lou Lan slowly calmed down.

“Not good, the flying bear phantom was half beaten to death by us, this Immortal Gu’s condition is extremely poor, it cannot be used now, it has to recover for some time.”

“An injured Immortal Gu needs an Immortal Gu to heal it. Other than that, it can only self recover, but during that period it would need to consume lots of food, unceasingly.”

“If I did not remember wrongly, this flying bear phantom Gu’s food is the desolate beast flying bear’s flesh and blood. This is problematic! How can I have such a thing? I have to seek help from the tribe’s immortals.”

The more Hei Lou Lan thought about it, the more his anger subsided.

He was of the ten extreme physique’s Great Strength True Martial Physique, he needed a strength path Immortal Gu to ascend to Gu Immortal realm and escape the threat of death.

The flying bear phantom Gu was not something he needed, what he desperately wanted now was a strength path Immortal Gu.

“My most important priority at the moment is to find a strength path Immortal Gu. Immortal Gu are often only given at the final round of a floor, during the process of completing this, I will need everyone’s strength.”

Although Hei Lou Lan was not afraid of Chang Shan Yin, if he forcefully kept the flying bear phantom Gu, then the Wolf King would definitely become enemies with him. With that gap between them, there was no way he could utilize the Wolf King’s strength again.

He might as well give this Immortal Gu to him, to exchange for his strength, and truly help and benefit Hei Lou Lan himself.

This way, Hei Lou Lan’s reputation could be preserved as well, no one would say that he went back on his words.

Hei Lou Lan made many considerations, but this was only a moment in real time.

“Hmph hmph,” Sun Shi Han snickered, ” Lord Wolf King, this is an Immortal Gu, you want to take it just like that? My tribe leader promised you half the rewards earlier, but that does not mean we need to give you the Immortal Gu.”

“It seems the lesson I gave you earlier was not enough.” Fang Yuan heard this and frowned lightly, his gaze turned ice cold as his killing intent was released fully, towards Sun Shi Han.

Sun Shi Han’s expression changed instantly, and he could not help but move closer to Hei Lou Lan.

No one questioned if Fang Yuan would have the guts to directly execute the killing blow.

The ferocity of Wolf King was ingrained in everyone’s hearts.

“Hahaha.” Hei Lou Lan laughed loudly, walking towards Fang Yuan as he patted his chest: “A true gentleman never goes back on his words! Earlier, I promised the Wolf King half the rewards, then it shall be fifty percent. It was all due to brother Shan Yin’s brilliant plan that allowed us to get through this round, I will add another ten percent of reward, but the Immortal Gu is unique, its value is immeasurable, even with your sixty percent reward, in what way are you going to compensate the remaining forty percent to us?”

“That’s right, we put in much effort too!”

“I have heavy injuries now, I did not retreat amidst the fierce combat, everyone can be my witness. Even Lord Water Demon Hao Ji Liu died because of this!”

“I believe Lord Wolf King will give us a good solution.”

Everyone said in agreement, it was all targeted at Fang Yuan.

Even though Fang Yuan had great strength, but wealth moved people’s hearts, everyone was filled with envy, jealousy and hatred upon seeing that an Immortal Gu was going to fall into his hands. Thus, they pushed all of their unhappiness towards Fang Yuan.

Under everyone's gaze, Fang Yuan frowned deeper and deeper.

Hei Lou Lan laughed secretly: "Wolf King, oh Wolf King, even with your ferocious reputation and outstanding strength, you will still eventually be captured by me."

Seven days later.

Eighty-Eight True Yang Building's seventh layer, the ninetieth round.

In the maze, the flying bear phantom was roaring at the sky.

Its body was covered in wounds, blood was oozing at its mouth, and several of its sharp teeth had broken. Its right eye was blinded, hanging outside its socket like a grape, it was in bad shape.

But it only had one enemy.

He was floating in the air, with six arms on his back, compared to the hill-like flying bear phantom which had a massive body, he was very small.

But the flying bear phantom was serious and vigilant like it was facing a strong enemy. After they had battled for fifteen minutes, it could deeply feel how powerful this 'tiny' enemy was.

"Flying bear phantom Gu, it is deservedly an Immortal Gu! Even after turning into the flying bear phantom, it retains much wisdom, and is quite shrewd, in the future when I face strong foes, I can use it to restrain them and that can help me save a lot of energy."

Fang Yuan looked at the flying bear phantom below him as he evaluated in his heart.

Seven days ago, Hei Lou Lan gathered the band of experts and broke through the final round of the fifth floor, obtaining the flying bear phantom Immortal Gu.

Fang Yuan was blunt and unrestrained, as he immediately asked for it.

Even though the other Gu Masters were jealous and envious, trying to come up with endless excuses against this, Fang Yuan announced that he was willing to compensate the remaining half of the Gu's worth, while giving an unrelenting attitude. Eventually, Hei Lou Lan gave this Gu to Fang Yuan.

With this Gu, Fang Yuan went to Hei Lou Lan that night and borrowed resources, establishing a contract with him in secret.

After returning, he used Hu Immortal blessed land to connect to treasure yellow heaven, exchanging for the relevant Gu worms and food, and during the sixth day, the flying bear phantom Gu was restored to its healthy state.

By the seventh day, Fang Yuan secretly entered the seventh floor of Eighty-Eight True Yang Building, personally testing the flying bear phantom Gu and the finalized killer move six arm heavenly zombie king.

Fang Yuan ordered the flying bear phantom Gu to attack him without holding back, while he himself used the six arm heavenly zombie king to fight back.

Flying bear phantom Gu was an Immortal Gu, it had half the battle strength of the flying bear, but it was not Fang Yuan's match when he was in six arm heavenly zombie king mode.

Fang Yuan was very satisfied with this result.

He thought about it in his mind: "The killer move six arm heavenly zombie king is indeed formidable! It uses borrow strength Gu as the core to borrow the natural strength of heaven, earth, fire, water and others, sustaining itself by allowing a steady and endless torrent of strength to be supplied."

"Most amazingly, it can transform my body into a zombie's body temporarily, this way, my body will be in a half-dead state, my recovery speed will increase greatly and my sense of pain will reduce, I would be in the state of near unlimited energy and strength, I can do anything!"

If it was an ordinary living body, constantly using strength would tire it out. But by becoming a heavenly zombie, Fang Yuan could avoid such a weakness.

This kind of strength and feeling was intoxicating for Fang Yuan, but it also made him more alert.

“I can only maintain this form for a short period of time, during intense battle, I will have to commit to the battle fully and I would not recognise the flow of time. Although this killer move is great and gives me a good feeling, it is easy to get addicted and lost when using it. I must never forget the time limit of this killer move, otherwise the consequences would be severe!”

The killer move six arm heavenly zombie king was powerful, but had a time limit. Once the time limit was exceeded, the Gu Master might turn into a real zombie from over usage.

The severity of this surpassed even the ten extreme physique’s disaster, even if he used the yin-yang rotation Gu, he could not recover.

Fang Yuan wanted to get rid of this weakness, but Mo Yao’s requirements were too strict, Fang Yuan could not find a suitable person to test the Gu.

“Actually, you have not fully unleashed the true power of this flying bear phantom Gu.” At this time, Mo Yao’s will in Fang Yuan’s mind spoke.

“Oh, what do you mean?”

Mo Yao had some understanding regarding phantom path: “Phantom path, it focuses on the forms of phantom and solid, during the initial stage from rank one to five, phantom is the foundation, using phantom form to avoid attacks. Thus, phantom path Gu masters often lack attacking power, but have ample defensive measures. But at rank six and above, phantom path Gu Immortals have both offense and defense, by turning into phantom and solid form at will, they can go into the defensive phantom mode, nullifying all forms of attacks, and also turn phantom into solid, attacking people when they least expect it.”

“The flying bear phantom Gu is a phantom path Immortal Gu, it was created by killing the desolate beast flying bear and using all of its skin, bones, flesh, blood, and soul to refine it. Just the flying bear phantom Gu alone has half the strength of the real flying bear. But if it was given accompanying Gu worms, like the battle space Gu, grand chaotic dance Gu, five element bear skin Gu and others, its battle strength would surge greatly.”

Mo Yao’s words made Fang Yuan nod repeatedly.

He recalled the fight when they were at the final round, precisely because of the flying bear phantom’s Gu worms could it have a huge boost in battle strength, even causing the band of experts to be helpless.

But after the battle, battle space Gu was taken by Hei Lou Lan, and the remaining Gu worms were also taken by other people.

Fang Yuan was fighting the flying bear phantom alone in secret, the flying bear phantom had no Gu worms left, thus, Fang Yuan could have the upper hand when fighting.

He had some degree of comprehension in this: “Looking at it from another angle, complementing the flying bear phantom Gu with other Gu worms is exactly like using multiple Gu worms at once. Isn’t this a killer move?”

Killer moves are a Gu Master’s unique creation, using many Gu worms at the same time together to create an effect greater than when used individually, unleashing great strength.

Mo Yao nodded in agreement: “Your comprehension is completely right, that is so. However, what truly complements the flying bear phantom Gu are only phantom path Gu worms. Forget the rest, just a single turn phantom Gu would allow the flying bear phantom Gu to turn from solid to phantom form, evading all sorts of attacks.”

“Turn phantom Gu?” Fang Yuan’s heart shook uncontrollably.

He could completely imagine that when the turn phantom Gu is used with the flying bear phantom Gu, it would become an extremely troublesome enemy.

This could transform the usage of flying bear phantom Gu completely, achieving a true qualitative change to a degree.

Mo Yao laughed lightly, saying: “Lad, as long as you return Water Pavilion to Spirit Affinity House properly, I will tell you the details of three phantom path inheritances, among them, one is likely to be a phantom path Gu Immortal inheritance.”

“We’ll talk about that later.” Fang Yuan calmed down, replying in a plain tone.

He had never removed his alertness towards Mo Yao.

Although Mo Yao did not displayed any hostile intentions, Fang Yuan had always felt a sense of danger in his heart.

Chapter 587

Chapter 587: The vast difference between immortal and mortal

Time passed by rapidly and a month had passed.

Northern plains.

The wind raged and snow fluttered around.

The world was a scene of white as the white snow covered the large grassland. Bone chilling wind blew everywhere; occasionally, it would form into a tornado and occasionally, it would lift the deep snow on the ground.

Every ten years, the blizzard disaster devastated the whole of northern plains. Living beings lamented and all things turned destitute. At a few limited places, the surviving humans and animals were struggling for their lives.

They not only had to overcome the frigid climate, but also needed to engage in fierce combat against snow monsters and other battles.

However, in such a cruel environment, snowmen were like fish in water, moving very frequently and becoming extremely lively.

The ice cold blizzard was merely a warm spring wind to snowmen.

They hunted in this blizzard, and large numbers of wild snow path, ice path and water path Gu worms started to live one after another on their body.

The snowmen tribes who were hunted by the Gu Masters, beaten down and sold during normal times, were now experiencing enormous growth. Their forces expanded rapidly.

In the raging blizzard, two dark figures appeared.

The dark figures stood on a cliff, overflowing with immortal aura; they were Hei tribe's two Gu Immortals — Hei Bai and Hei Cheng.

They looked down towards the valley under them.

The blizzard was still wild, but it was not even able to sway the two's clothes. The snow fluttered madly, but was not able to obstruct the two's probing gazes.

In the valley, many ice houses were built, packed together with the numbers reaching several tens of thousands.

A group of heroic snowmen warriors had just returned from their hunt. They had returned with great harvests once again.

Rank six wood path Gu Immortal Hei Bai frowned: "Hmph, this group of snowmen is taking advantage of this time period to grow so rapidly! In these three days, this is already the seventh tribe we have seen of such a scale."

Those who are not my race have different motives, although snowmen had men in their name, they were still variant humans.

When the blizzard ends, northern plains' tribes would actively start developing which was bound to result in many large battles with these snowmen.

To human tribes, such a large number of snowmen meant their enemy was more in number and stronger.

Hei Cheng patted Hei Bai's shoulder, smiling: "Virtuous brother should be happy. Looking at it from another angle, these snowmen are our wealth! We can take these snowmen as captives and not only exchange them for immortal essence stones with other Gu Immortals, we can also give Xue Song Zi something to cry about."

The corners of Hei Bai's lips raised to an arc: "Elder brother thinks in a comprehensive way. If not for Xue Song Zi, the wooden chicken Gu would have already been in my hands. And he even meddled in the last Imperial Court contest. These days, we have been hunting snowmen everywhere and selling them in treasure yellow heaven. Hehehe, I really want to see how Xue Song Zi's expression is like now.”

But the moment he finished saying this, his smile disappeared and his gaze revealed a trace of anxiety: “Elder brother, Hei Lou Lan has already been in Imperial Court for so long, and according to the time, Eighty-Eight True Yang Building should have already formed over twenty floors. Why is there still no trace of wooden chicken Gu?”

Hei Cheng laughed: “Do not fret, do not fret. Eighty-Eight True Yang Building has altogether eighty-eight floors, this is not much. Hei Lou Lan, this kid might have a irascible temper, but he is meticulous when it comes to the big picture. He hasn’t broken off the contact with us since he entered Imperial Court, isn’t that right? Moreover, he now already has one-edge owner token, as long as wooden chicken Gu is involved in the creation of a new floor, Hei Lou Lan can sense it, and we will receive the news.”

Hei tribe was a super force, although they did not have ability in exploiting the flaws that could match the level of Fairy Mo Yao, they had their own ways to use Gu worms to transfer messages inside and out.

Hei Bai sighed: “Imperial Court blessed land and northern plains’ outside world have differing time flow. A day here in the outside world is equal to over twenty days in Imperial Court blessed land. I am somewhat worried Hei Lou Lan’s notice will be late, and if so, the help we can provide will be small.”

Hei Cheng comforted with a smile: “Virtuous brother, the more you worry, the more frantic you will get. Relax, according to Hei Lou Lan’s strength, getting through three or four floors would not be a problem. Before this, we’d better take care of this group of snowmen.”

“Okay.” Hei Bai’s worry was slightly relieved, as he nodded.

The two shot down like lightning, directly charging into the snowman tribe within the valley.

Hei Cheng chuckled.

Instantly, an unrestrained laughter shook the world, stopping even the moving clouds! The whole valley buzzed from the tremor and the majestic snowfall also slowed.

Crash crash crash….

The soundwave swept through the valley, crushing countless ice buildings into fine powder.

The snowman tribe instantly suffered serious losses!

"Enemy attack! Enemy attack!"

"A strong enemy has appeared. Warriors, it is time to protect our homeland!!"

"Protect our homeland. Remember, we cannot fall down, behind us are our wives, children and parents!"

Snowmen were in an uproar, and after a short moment of panic, they prepared to resist.

"Hmph, overestimating your strength." Hei Bai looked at the snowmen flocking together while floating in midair, his gaze apathetic like he was looking at a group of ants.

He lightly waves his sleeve – buzzz buzzz buzzz…..

A black mass of Gu groups flew out. First the number was in hundreds, then thousands, then it reached tens of thousands.

Finally, the several hundreds of thousands of Gu hovered over the valley like dark clouds pressing down on a city.

The snowmen looked at the sky, their expression filled with terror and lifelessness. The fighting spirit and heroic feelings they raised up just a moment ago, froze completely in front of a Gu Immortal's might.

At this moment, they were truly able to feel the bone-piercing chill of the blizzard.

Gu Immortals possessed immortal essence, a bead of immortal essence could be regarded as unlimited primeval essence. This meant every single Gu Immortal could control large numbers of mortal Gu, and would never be lacking in primeval essence.

The snowman tribes might be flourishing, but in front of a Gu Immortal's battle strength, they were like lambs waiting for slaughter and could only let themselves be trampled upon.

Next moment, Hei Bai lightly pointed and the Gu groups pounced down loudly.

Mournful sounds started resounding and echoing endlessly in the valley.

A dozen or so days later…

Imperial Court blessed land.

Hei Lou Lan slowly put down the letter Gu in his hand, sneering.

The letter Gu came from Hei tribe' Gu Immortal, its content was the same as before, still urging Hei Lou Lan to speed up the search for wooden chicken Gu.

There was originally no way to send messages from or to Imperial Court blessed land, but after so many years had gone by, even if it was an arrangement by Giant Sun Immortal Venerable, it could not stand the erosion of the river of time, and a few flaws appeared.

Although they did not have capability in exploiting this on Fairy Mo Yao's level, the super forces like Hei tribe and Liu tribe had polished the methods to send the message.

"Once a Gu Master advances to an immortal, their physique would thoroughly raise to a higher level and would possess immortal essence. Mortals simply cannot be an immortal's opponent, to deal with Gu Immortal requires a Gu Immortal!"

"Strength path Immortal Gu…"

Hei Lou Lan softly muttered then slowly stood up from his seat and walked towards the window.

He looked up at the gorgeous aurora moving at the summit of the sacred palace. Eighty-Eight True Yang Building's newest floor had condensed at this moment.

"Thirty-eighth floor." Hei Lou Lan sighed. Having seen this scene so many times, he no longer had the excitement like before when he saw it for the first time. But his esteem towards Old Ancestor Giant Sun, had now reached the level of prostrating himself in admiration before the old ancestor's heavenly methods every time he saw the scene of True Yang Building condensing a floor.

"Only with Eighty-Eight True Yang Building and Old Ancestor Giant Sun's power, I can take my revenge!" Hei Lou Lan took out his owner token.

So much time had passed by but his owner token was still one-edge owner token.

Hei Lou Lan knew of history and also knew his own strength.

The current forces, compared to the past winners of the Imperial Court contest, were not bad but also could not be considered too good. Taking everything into account, it was only enough to cross three-four floors.

Hei Lou Lan wanted to acquire his strength path Immortal Gu, but also had the tribe responsibility of getting wooden chicken Immortal Gu. This meant the quota for two clearances was already filled.

Hence, these days, he restrained himself from taking action, making recuperation his priority, and at the same time, he still opened up Eighty-Eight True Yang Building, letting Gu Masters increase their strength as much as possible.

Naturally, he did this to make the Gu Masters, outside of Hei tribe, thankful and admire him. And naturally, many among Hei tribe were dissatisfied and puzzled by it, but mindful of Black Tyrant's fierce reputation, none dared to speak up.

"Messenger." Hei Lou Lan softly called.

His trusted aide Hei Shu immediately appeared before him and quietly kneeled down, speaking with a lowered head: “Lord tribe leader, please instruct.”

“How is the recent situation?” Hei Lou Lan rubbed the owner token, his gaze still at Eighty-Eight True Yang Building.

“The situation looks to be steady recently, but undercurrents are starting to surge. Chang tribe’s Gu Masters have repeatedly been killed, many Gu Masters have mysteriously disappeared when going out. Chang tribe leader Chang Ji You has personally moved out, searching everywhere to capture the killers, but no gains have been made. Instead, the attacks on Chang tribe’s Gu Masters have become even more serious.” Hei Shu reported.

“Eh, who has such guts?”

Hei Shu revealed an ashamed expression: “Subordinate is still investigating.”

Hei Lou Lan slightly nodded, his tone revealing some slight joy in another’s calamity: “No need to hurry, hehe, we shouldn’t hurry in this matter. Chang Shan Yin’s actions are too sinister and cruel, losing favour with people, and now he is tasting the bitter consequences. A few months ago, he wiped out the earth chief beast group and assigned Chang tribe’s Gu Masters to capture many Gu Masters, and he actually killed all of them! Hmph, this had already aroused public anger, but fearing Wolf King’s reputation, no one dared to take actions though they had the heart for revenge.”

Hei Lou Lan remembered this clearly.

Because, among these unlucky Gu Masters Fang Yuan captured to do experiments on, were some people who had some relations to Hei Lou Lan.

Wolf King actually did not give him face and killed these people; Hei Lou Lan had secretly been bearing this grudge all this time.

“Tribe leader is wise, subordinate and others also think this is the case.” Hei Shu flattered and said in agreement, “Chang tribe leader might be Chang Ji You, but he is Wolf King's son and was appointed as the tribe leader with one sentence from Wolf King. He is too young and cannot appease the tribesmen. The whole of Chang tribe's affairs actually lie with Chang Ji You's adopted father Chang Biao."

"But not long ago, the death of the two lords Chang Biao and Pan Ping while roaming seventh floor's ninetieth round, had spread. There was an indistinct commotion within Chang tribe and Chang Ji You has been finding it hard to maintain Chang tribe's situation. The avenger saw this great opportunity, and maybe because they had received a great increase in strength from Eighty-Eight True Yang Building's rewards, they have been killing Chang tribe's Gu Masters everywhere."

"Hmm." Hei Lou Lan nodded, Hei Shu's analysis was similar to his own thoughts.

"Quickly investigate this person. Taking revenge wholeheartedly in spite of Wolf King's fierceness, this is bravery. Killing Chang tribe's Gu Masters and not being found even after so many days, this is scheming. This person is brave and can scheme, they should be taken into my Hei tribe. And also, only my Hei tribe can protect their life." Hei Lou Lan instructed.

"Yes, lord."

"Are there any movements from Chang Shan Yin?"

"Ever since Chang Biao's corpse was found and delivered to Chang tribe, maybe Wolf King found some clues from the corpse, he entered Eighty-Eight True Yang Building that very day and has yet to come out now. Subordinate had sent people to inquire, Wolf King should have gone to seventh floor's ninetieth maze round. Ever since he entered, people have often reported hearing the howls of wolf groups." Hei Shu reported.

Hei Lou Lan frowned.

Chang Biao, Pan Ping and Water Demon Hao Ji Liu's deaths were something he had not wanted to see.

But since they were already dead, Hei Lou Lan could only accept this fact.

He could complete forecast once Wolf King exited the tower and knew of Chang tribe’s misfortunes, he would fly up in rage, searching for the killer. At that time, the whole sacred palace might be turned upside down.

Hei Lou Lan was looking forward to Wolf King attracting every more public anger, but he worried Wolf King would even implicate the innocents and start massacring everywhere which would greatly weaken the forces to mobilize in passing the rounds.

Hei Lou Lan must prevent this from happening. But how to prevent it?

Hei Lou Lan fell into silence as he started thinking.

Hei Shu was calmly kneeling down, patiently waiting for Hei Lou Lan’s next command.

Hei Lou Lan did not think for long before an amazed expression appeared on his face.

His gaze instantly turned sharp as he once again looked at Eighty-Eight True Yang Building on the summit of the sacred palace.

There, the thirty-ninth floor was slowly condensing into shape.

Although it had yet to form, Hei Lou Lan was able to know the Gu worms in this floor through his one-edge owner token.

‘Wooden chicken Gu! Wooden chicken Gu has finally appeared!’

Hei Lou Lan’s mind was shaken, but soon he calmed down and his gaze quickly moved towards Hei Shu.

“Go, summon Ma Ying Jie to see me. Immediately!”

Chapter 588 - Each with their schemes

Chapter 588: Each with their schemes

Translator: ChibiGeneral Editor: ChibiGeneral

Ma Ying Jie heard the summons and quickly hurried to pay a visit.

As Hei tribe's greatest opponent — Ma tribe had suffered disastrous losses in the decisive battle. Ma tribe's experts were almost completely annihilated, but the young tribe leader Ma Ying Jie was luckily rescued and bravely rose to take the great responsibility of a tribe leader.

His original plan had been to hole up in warm pond valley and recover as much as possible. But Hei Lou Lan brought his army to the valley and forcibly annexed Ma tribe.

Thus, Ma tribe had not alternative but to follow Hei tribe to Imperial Court blessed land.

Ma Ying Jie had thought Hei Lou Lan wanted to get rid of Ma tribe's name and completely swallow Ma tribe. For this reason, he expended great effort and even accepted outsiders, giving them the surname 'Ma'.

But the situation he had anticipated never happened. Not only this, Ma tribe did not receive any severe duties from Hei Lou Lan's side even after arriving at Imperial Court blessed land, instead they were treated without discrimination. Hei Lou Lan selflessly opened up Eighty-Eight True Yang Building to the public from where Ma tribe had obtained many gains. Right now, the whole of Ma tribe was able to recover favorably and the tribe's forces were prospering day by day.

However, there was no free lunch in the world, Ma Ying Jie had been on tenterhooks because of this.

With Hei Lou Lan's sudden summons, the unease in his heart immediately increased several times, reaching the extreme limit.

Hei Lou Lan smiled when he looked at Ma Ying Jie: "Ma tribe leader, has Ma tribe been well these days?"

Ma Ying Jie was on guard inwardly and immediately replied: "It is good. We must thank you, lord tribe leader, for disregarding previous enmity and being magnanimous. Ma tribe was on its last breath, but now has recovered some vitality."

"If I am not wrong, Ma tribe received help from Snowy Mountain blessed land's demonic path immortal Xue Song Zi in this contest, right?" Hei Lou Lan asked amiably.

Ma Ying Jie was tongue-tied, cold sweat started flowing down from his body, and he was not able to speak a word.

Ma tribe, who possessed Huang Jin bloodline, privately joined hands with a demonic path Gu Immortal, this undoubtedly broke the rules Ancestor Giant Sun had set.

'Is Hei Lou Lan looking to settle the score at this time? Damn it, right now, he holds the knife while I am the fish, he only needs to casually say a sentence and Ma tribe would be finished!" Ma Ying Jie was very nervous, revitalizing Ma tribe was his wish, Ma tribe was what he cherished most in his life.

"Hahaha." Hei Lou Lan laughed heartily, his laughter resounding in the study, "Ma tribe leader, no need to worry, as long as you cooperate obediently, glory and riches will come gushing forth."

"Tribe leader, please explain." Ma Ying Jie gnashed his teeth.

A wise man submits to circumstances; with such a pressing situation, he had no choice but to lower his head.

"What?"

However, Hei Lou Lan's next words shocked Ma Ying Jie, his dumbstruck expression frozen like a statue.

…

Snowy Mountain blessed land.

The lofty Snowy Mountain peaked through the clouds. The clear blue sky shone with dazzling brilliance.

On the fifth branch peak of the mountain range.

Within the Ice Lake Palace, a negotiation was reaching its end.

Xue Song Zi's expression was worried as he looked at Demon Lord Long Dan, saying impatiently: "Demon Lord, don't forget who it was that lent you immortal essence stones and settled your debt during your emergency. It was me! Now I have some small troubles and am asking you for help, but you are using all sorts of excuses, isn't this too disappointing? Is the grand Demon Lord Long Dan such a petty person?"

Demon Lord Long Dan sipped his tea with a smile, his tone calm: "Lord Song Zi, please speak cautiously. The friendship from before, I still remember and have not forgotten even a little. But this time, Lord Song Zi, your troubles are not small. If I helped you, it would be offending Hei tribe's Gu Immortals. My business at treasure yellow heaven has just recently taken somewhat of a turn for the better, it cannot endure such an attack."

Xue Song Zi made a living out of selling snowmen and had made a lot of wealth. But in these recent months, his business at treasure yellow heaven was intensely impacted by Hei tribe.

Hei tribe's Gu Immortals wantonly hunted snowmen and sold them at low prices, destroying the established standards and benefits of selling snowmen slaves.

This was an unconventional confrontation and would implicate extensively on him. Xue Song Zi could only take up the challenge to protect his source of revenue, and was barely able to draw a stalemate against Hei tribe's Gu Immortals.

Although he had riches, but he was after all only a lone force.

To a super force like Hei tribe which had been engaging in business over thousands of years, he paled by comparison.

Thus, he was gradually unable to bear it and began to request help from the surrounding Gu Immortals.

Demon Lord Long Dan’s calm appearance made Xue Song Zi angry and anxious: “Demon Lord, don’t beat around the bush, speak up, how can I make you take action?”

Demon Lord Long Dan laughed heartily, his bright eyes stared at Xue Song Zi: “Lord Song Zi, I know you have a hundred year lifespan Gu in your possession. As long as you give it to me, I will definitely use all my strength to help you!”

Xue Song Zi immediately stood up from the seat and pointed at Demon Lord Long Dan: “Do you feel no shame in making such a request?”

Demon Lord Long Dan raised his brows and said with a gloomy voice: “Why would I feel shame? Who would make a move without good cause? Xue Song Zi, I persuade you to not be impulsive, if you point your finger at me again, I will start to get angry.”

“Hmph.” Xue Song Zi knew he was not Demon Lord Long Dan’s match and lowered his finger with a snort, then he flicked his sleeve and left.

Demon Lord Long Dan also did not make him stay, looking darkly at his receding figure before letting out a snort. He had already disliked Xue Song Zi for his ordinarily arrogant attitude whilst holding plenty of spare wealth.

Back then, when he asked for immortal essence stones from Xue Song Zi, Xue Song Zi actually dared to lend at an exorbitant rate of interest.

Demon Lord Long Dan had suffered a big loss and had always been keeping it in his mind.

Xue Song Zi returned to his seventh branch peak with an ashen expression.

He sat on a mat, and with no others present, his tight expression finally relaxed as he heaved a deep sigh.

“If I had known this before, I would not have meddled in the Imperial Court contest.” He regretted it deeply.

Winner takes all.

Previously, he had invested a lot in the Imperial Court contest, but received no gains. Now, Hei tribe’s Gu Immortals were making it difficult for him, and he was not even able to guard his own financial source which was the basis of his status.

“In the end, it is still the righteous path who are united while demonic path has separated minds. Snowy Mountain blessed land has so many demonic path Gu Immortals, but I cannot obtain the help from even one. In contrast, Hei tribe’s Gu Immortals involve the assistance of many forces and are suppressing me together.”

“Sigh, in this battle, my many years of accumulation have all been used up, resulting in serious losses to me. The water in the Imperial Court contest runs too deep, it is not something I can tread upon. So many demonic path Gu Immortals had involved themselves in Imperial Court contest before, but how many obtained a good ending? Sigh, I got greedy because of wooden chicken Gu and thought that since I had already offended Hei tribe’s Gu Immortals, I might as well directly go further and meddle. But I did not know how many demonic path Gu Immortals were mocking me behind my back. Sigh, it is time to reflect upon myself!”

Xue Song Zi kept on sighing and just when he was going to finish pondering his painful experience in attempting to learn from it, a letter Gu travelled through space and appeared in front of him.

“Eh, isn’t this the letter Gu I gave to Ma tribe to contact me?”

Xue Song Zi was baffled. He held the letter Gu and searched it with his mind before immediately revealing an astonished expression: “What, what does this mean? Hei Lou Lan actually wants to cooperate with me?”

Xue Song Zi scoffed in disdain: “Using wooden chicken Gu as the bait, do you think I will be fooled? Maybe this is another scheme of Hei tribe! Huh, wait a moment, this actually….does Hei Lou Lan really want to work with me? Interesting, hahahaha, interesting!!”

After over half a month….

“Mother! Mother!!” Hei Lou Lan suddenly woke up on the bed.

He was panting and his body was soaked with cold sweat.

A good while later, his eyes gradually recovered their focus.

The nightmare once again.

Since long ago, this nightmare had been tormenting him.

This nightmare was like a pile of firewood that ignited the fire of revenge in his heart, every time it occured.

Recovering his breath, Hei Lou Lan got up from the bed.

His body was obese like a black bear. His triangular eyes began flickering with terrifying sharp light. Only his face had the expression of heavy exhaustion.

But by the time he pushed open the window, this exhaustion was already concealed by him, replaced by a savage and tyrannical aura.

He gazed up at Eighty-Eight True Yang Building while pondering over the cooperation with Xue Song Zi.

In the letter, he had taken great risk, speaking his greatest secret, and delivering crucial Gu worms as a pledge, before he was able to obtain Xue Song Zi’s trust.

Now, the thirty-ninth floor had already been formed for quite some time. The cooperation between him and Xue Song Zi was progressing very well. Benefitting from this demonic path Gu Immortal’s help, Hei Lou Lan was able to smoothly break through the rounds in the thirty-ninth floor.

His action was betraying Hei tribe.

Hei tribe's Gu Immortals would absolutely not let him go.

Hei Lou Lan did not even have the confidence of being able to conceal this matter for long.

But he knew clearly, he was safe as long as he was within Imperial Court blessed land. Imperial Court blessed land prohibited the entry of Gu Immortals.

At this stage, he was no longer able to turn back and could only move forward until his death. But the most crucial thing in Hei Lou Lan's plan, the strength path Immortal Gu which could change the whole situation, was yet to appear.

He could only continue to wait.

…

Eighty-Eight True Yang Building, seventh floor.

Ninetieth round.

"Chang Ji You pays respects to Lord Supreme Elder." Chang Ji You kneeled down with an ashamed expression.

"Do you know why I called you?" Fang Yuan stood in front of him, and said in an indifferent tone.

"I am ashamed, I failed to live up to Lord Supreme Elder's trust. I am extremely incompetent, letting the killer get away with it to this day, muffled thuds sounded out as his forehead smashed on the ground.

Soon, blood could be seen on his forehead.

Fang Yuan snorted: "You know yourself and know your incompetence. Don't kowtow anymore, stand up and answer."

"Subordinate, subordinate does not dare."

"Get up." Fang Yuan emphasized once again, his tone was calm but it was filled with a will that could not be disobeyed.

Chang Ji You stood up with his head lowered, blood slowly flowed down his cheeks, making him look very miserable.

“Sigh.” Fang Yuan sighed softly before touching the wound on Chang Ji You’s forehead.

White light appeared, and under the power of a healing gu, Chang Ji You’s wound rapidly healed without even leaving a scar.

Chang Ji You’s body trembled, his eyes couldn’t help but release two flowing lines of warm tears.

Ever since the “father and son” had met, this was the first time Chang Shan Yin had done such an intimate action to his son Chang Ji You.

Chapter 589

Chapter 589: The bond between father and son, real and fake affection

Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan wiped Chang Ji You's tears and said with a mild tone like a spring wind: "What are you crying for, I am Wolf King and you are my son, you can only shed blood and not tears."

Chang Ji You's mind shook fiercely like he had been struck by lightning, when he heard the word 'son'.

An enormous joy engulfed Chang Ji You's mind like a tsunami: 'Father finally recognizes me as his son, he called me son with his own mouth!!!"

The grievances that had accumulated in his heart, the pressure he felt, the anger and shame he had put aside, the sorrow at his adoptive father's death, everything was dispelled at this moment.

He involuntarily was about to cry tears of joy but Fang Yuan's words lingered in his ears and he endured painfully, his expression twisted and he even bit his lips, but the tears still flowed out with no end.

He opened his mouth, wanting to call out 'father', but did not dare, and could only keep on apologizing as he sobbed: "Sorry, I am sorry…"

Fang Yuan lightly patted his shoulder and warmly said: "Do you know what your greatest deficiency is?"

Chang Ji You was slightly shocked.

Fang Yuan continued with a decisive tone: "Your greatest deficiency is that you are not strong enough.”

“Not strong enough?” Chang Ji You stopped sobbing, his eyes that were hazy with tears looked at the imposing figure in front.

“This is a yellow gold relic Gu, enough for you to advance to rank four peak stage. Also a purple crystal relic Gu which will help you advance rapidly in rank five.” Fang Yuan took out two relic Gu and handed them to Chang Ji You.

Chang Ji You dazedly accepted it, soon a surging grateful feeling filled his wild heart.

“This, isn’t this paternal love!? So many poets praised paternal love to be as heavy as a mountain and as deep as the sea.....I can finally enjoy it today!”

“Father…” Chang Ji You was choked with emotions, he gazed at Fang Yuan before kneeling down again.

“An eagle chick cannot grow firm, iron-like wings without going through the tempering of wind and frost. A horse foal cannot run like the wind without experiencing falling down. I have already heard of Chang tribe’s misfortunes, but I will not concern myself with it. Become strong, go through such temperings, take control of the tribe, use this pretext to establish your might, this is something you need to do. I will be watching you from behind.”

“Lord father, son, son is ashamed…” Being given such earnest attention by his ‘blood related father’, this made Chang Ji You excited and also brought a fearful feeling in him.

Fang Yuan waved his hand: “I know your misgivings. You are worried your aptitude is not enough and you cannot break through to rank five, right? No problem, I will now raise your aptitude and also impart you a strength path killer move set which will increase your strength to an unimaginable level! This is father’s special skill and even at the decisive battle of Imperial Court, I only used thirty percent of its power.”

“Ah?” Chang Ji You involuntarily opened up his mouth, shocked and happy.

Father actually had ways to raise aptitude, moreover was also imparting a strength path killer move!

Even during the decisive battle with Ma tribe, father only used thirty percent of this killer move's power!

'My father is after all my father. Godfather Chang Biao might have treated me very well, but that is nothing compared to my father. This is the deepest bond between blood. Lord father is nurturing me with all his efforts!' After the shock, Chang Ji You felt a surge of happiness.

"Now I am going to raise your aptitude. Relax your mind, pacify your heart. Sleep, sleep, take a good sleep first." Fang Yuan spoke gently while secretly using hypnosis Gu.

Chang Ji You's mood was not stable and he had already been exhausted, and with his extreme trust in Fang Yuan, he soon fell asleep under the effect of Gu worm.

Fang Yuan lightly smiled as he took out blood skull Gu.

This Gu had a crystal like texture, the size of an infant's skull and could be held by a palm.

But right now, it was full from drinking blood and shone with a demonic blood light.

This blood was absorbed from the Chang tribesmen Fang Yuan had secretly killed over these days.

The sound asleep Chang Ji You had a slight smile on his face, a happy smile. He had never even expected the killer who had assassinated Chang tribesmen in these days was his most loved and respected 'blood related father'.

Even Hei Lou Lan and other outsiders were also in the dark, not having the least bit of doubt towards Fang Yuan.

"Go." Fang Yuan willed and the blood skull Gu slowly flew out of his palm and circled around Chang Ji You.

The blood skull Gu then stopped over Chang Ji You's head; it opened its mouth and puffed out blood with a thick stench.

The blood directly sunk in through Chang Ji You's head, skin and hairs, followed his veins and finally converged in his aperture.

Chang Ji You's aperture began to slowly but steadily advance.

By the time Chang Ji You woke up, Fang Yuan had already gone away.

The previous encounter was like a dream, making Chang Ji You feel doubts.

But the Gu worms on the ground and plentiful food left behind, were the best proof that everything was true..

“Heavens, my aptitude really advanced, now it is at ninety-six percent!!” Chang Ji You shouted out with joy after he checked his aperture.

“Stay here for few days and cultivate properly. Use all the relic Gu father left behind, your cultivation will reach rank five upper stage with these. I am temporarily lending the other Gu worms on the ground to you. Among them is an east window Gu which records the contents of the killer move, read it and practice it.”

A message echoed into Chang Ji You's ears.

Chang Ji You was extremely excited: “Ahh, this is father's voice. Lord father, son will not disappoint you. Son will definitely become a rank five Gu Master and master this killer move!”

Chang Ji You felt extremely bold and was filled with fighting spirit. He sat down cross-legged on the spot and took a yellow gold relic Gu into his aperture.

Fang Yuan was secretly observing this.

“This is the Gu tester you chose? He is truly a good choice.” In his mind, Mo Yao's will let out a cold sneer, "It is only that you clearly indicated the flaws of six arm heavenly zombie king in the east window Gu. And you have also not tampered with the Gu worms you lent him, are you not afraid he will worry about the flaws and be careful, not completely transforming into a heavenly zombie?"

"Hehe, Mo Yao, you don't need to worry. I still have the ability to grasp people's hearts. You haven't used six arm heavenly zombie king, so you don't know how intoxicating the feeling of endless strength you get when transforming to the heavenly zombie state can be. Even I was intoxicated. Chang Ji You is young and does not have enough control over his heart. When he practices the killer move, he will naturally search for wolf groups to battle with. This here is my territory, I will just lead more wolves towards him when the time comes, no need to be afraid he won't change into a heavenly zombie!" Fang Yuan spoke with confidence.

"Hmph, you humans are so sinister and crafty. This blood skull Gu you used, we inkmen would absolutely never refine such an evil Gu worm which is used to harm our own people." Mo Yao sneered.

Fang Yuan was not angry, instead smiling: "Eh, aren't you Spirit Affinity House's fairy, a representative of the righteous path? Why didn't you stop me?"

"That is possible only if I had the ability to stop it. Moreover, why would I stop the internal conflicts between you humans? Hmph, I would rather the whole of your human race died. Then, us variant humans can have space to survive." Mo Yao rolled her eyes.

Her identity was special, she was a past generation's fairy of Spirit Affinity House with an extraordinary relationship with Bo Qing. However, she was also an inkman and was not a purebred human.

The feeling with which she looked at humans fighting each other was the same feeling humans had when they watched internal strife between snowmen or beast groups.

'Just that, you truly don't have the ability to stop me?…' Fang Yuan suppressed this doubt within his heart.

Three days later, Chang Ji You finished using all the relic Gu and succeeded in advancing to rank five upper stage.

Immediately afterwards, he began to practice the killer move six arm heavenly zombie king.

Just like Fang Yuan expected, he was addicted to the vast power of the killer move and gradually began to forget its flaws.

Under Fang Yuan's intentional manipulation, he fought an intense and prolonged battle.

Chang Ji You rampaged around to his heart's content in the battle, forgetting the time.

Only when the battle ended, did he make a frightening discovery; he had already completely transformed into a heavenly zombie.

Two days later, Fang Yuan appeared before him again.

"Father, save me!" The monstrous Chang Ji You kneeled on the ground and begged with terrified expression.

"Son, how did you become like this?!" Fang Yuan asked in great shock and rage, "I clearly warned you to never use this killer move over the limit. You, you, how could you forget such a crucial thing!"

"Father, son is ashamed, I was muddled for a while and forgot time. By the time I discovered it, it was too late for regret!" Chang Ji You was extremely ashamed as he looked at Fang Yuan with tear filled eyes while kneeling.

Right now, he had transformed into this monstrosity, his only hope rested in Fang Yuan.

"Sigh… this is difficult. Your appearance, even if we use yin-yang rotation Gu, it won't be able to treat it. This killer move has extreme power, but also because of this, the after-effects are very severe. Even father does not have a way." Fang Yuan held out his hands, showing an expression filled with sadness and anger.

"Ah?! Even father does not have a solution?" Chang Ji You walked towards Fang Yuan on his knees with despair and fear on his face.

Fang Yuan lamented again and again: “This killer move’s origin is not simple. Father took extreme risk and charged through a Gu Immortal’s inheritance alone, risking a fatal danger before I was able to luckily obtain this immortal killer move.”

“This is an immortal killer move? No wonder, no wonder it is so powerful!” Chang Ji You was stupefied, Fang Yuan might have a lofty figure in his heart, but there was no doubt he paled in comparison to a Gu Immortal.

Chang Ji You had been Chang tribe’s young tribe leader, he had not been familiar with Gu Immortals, but was also not completely unfamiliar.

“I was wrong, I made a big mistake, how could I seek instant gains!” Chang Ji You wailed, his wail was sharp and unpleasant like a night owl’s.

Suddenly, he started kowtowing to Fang Yuan and sobbed: “Father, son failed to live up to your hope. Son made a mistake, son has disappointed you!”

“No, it is this, I needed you to transform into this.’ Fang Yuan was laughing inwardly while on the surface, he supported Chang Ji You.

“My son, I told you so many times, don’t cry! You cannot cry! Although you made a mistake, the fault lies within me as well. I have only been exploring this maze round over these days and did not look after you. Father believes there is always a way out, we will research together and find a way to turn you back into a human! There is definitely a way, believe in father and believe in yourself!” Fang Yuan said with emotions, with tears in his eyes.

“Father!!!” Chang Ji You wailed again.

He was thoroughly and completely moved.

He had become a monster and he, himself, did not not dare to see his face. But his father, Chang Shan Yin, did not loath him. It was clearly the son’s fault, but he took the blame upon himself.

Now that his son had changed to such an appearance, he still did not give up on him.

“This is the most profound bond between father and son!”

“This is my father, my dad!”

Chang Ji You was extremely moved, a spark ignited in his despair filled heart, giving him the confidence to continue living.

“Son, stay here and let father think properly on how to change you back. As for Chang tribe, father will personally manage it. You don’t need to worry, just recuperate here, with us father and son working hand in hand, what is there to fear about a measly killer move’s zombie transformation?”

Fang Yuan’s words made Chang Ji You feel a source of assurance in his heart.

“Yes, son will listen to father!”

Chapter 590 - Endurance, Shatter, Death

Chapter 590: Endurance, Shatter, Death

Translator: ChibiGeneral Editor: ChibiGeneral

Ah——!

The pitiful scream was so shrill that it could pierce eardrums.

Chang Ji You was in so much pain that he was shivering from head to toe, his muscles were exploding, as the six arms behind his back were dancing around chaotically, making loud sounds like that of stirring wind and rolling thunder.

But Fang Yuan only needed one hand to hold him tightly in the air.

At this moment, his eyes were like lightning as he manipulated his Gu worms, shouting loudly: “My son, endure it! Now is the time!”

Chang Ji You was about to lose his sense of reasoning due to the pain, this was an inhuman pain.

Even though he transformed into a heavenly zombie and almost lost his sense of pain, he could still feel every single piece of his skin and every muscle tearing and breaking ruthlessly.

But Fang Yuan’s words were like cold spring water that were sprinkling on Chang Ji You’s heart.

Chang Ji You was forcing himself to his limit, just as he was about to faint, the intense pain dissipated like a subsiding tide.

“Su… success?!” Chang Ji You breathed roughly, his head was hurting intensely and he barely managed to open his eyes, seeing that the skin on his arm had already turned back into living flesh and blood.

In fact, the six arms on his back were also slowly shrinking.

There was nothing more attractive to Chang Ji You than turning back into a human.

This moment, he was almost going to cry of joy.

“Oh no!” Suddenly, Fang Yuan spoke, his tone extremely solemn.

Chang Ji You’s newly recovered arm turned back into the heavenly zombie state in an instant, like that of a rotting log.

The six arms on his back grew back as well, becoming tougher and stronger.

“No, no! Why did I change back?! Father…” Chang Ji You was screaming in fear, subconsciously turning towards Fang Yuan for help.

But when he saw the intense fatigue that Fang Yuan was pretending to show on his face, Chang Ji You could not say a word.

“Father is tired! That’s right, these days, he had been helping me, thinking of hundreds of methods to solve this without any rest or sleep. He expended countless Gu worms in the process. I saw at least seventy to eighty rank five Gu! What reason do I have to blame father? This is all because I was too careless, and committed a grave mistake! Father, this son has not lived up to your expectations and nurturing…”

Chang Ji You was heartbroken and ashamed, he had a sensation of bliss from being taken care of by Wolf King as his child, like a small strand of grass being shielded by a tall tree.

“Damn it, this heavenly zombie form is really stubborn. Even this method is not working!” Fang Yuan gritted his teeth secretly, he asked in his mind: “Mo Yao, what other ideas do you have, tell me!”

The dozen ideas that Fang Yuan came up with were all proven to be useless one by one.

The current experimental method was all Mo Yao’s idea.

This was also one of Fang Yuan’s schemes.

On one hand, he was experimenting on Chang Ji You continuously and attempting to find a way to restore him back to human. On the other hand, he was trying to get Mo Yao’s will to think and expend her limited energy.

Mo Yao was silent for a while before saying: “There is still a way, but it is quite dangerous, the person testing the Gu will endure three times the pain as before! Most likely, he would die from the pain alone!”

“He is a heavenly zombie, he is technically dead. How can he feel pain?” Fang Yuan was confused.

“He is only half dead. The body is dead, but his soul still remains in his body. Unless his soul was absorbed into the door of life and death, then he would truly be considered dead.” Mo Yao explained.

The door of life and death was a secluded domain of heaven and earth, it was very famous and was recorded in < >.

But the current era was different from the immemorial era.

The life and death door had vanished, and after going through numerous owners, its control over souls of the demised had weakened greatly. This was the reason for the existence of monsters like zombies.

Mo Yao’s idea carried huge risks, it could shatter the person’s soul due to pain, breaking into irrecoverable pieces.

Once Chang Ji You’s soul shatters, he would be truly dead.

Mo Yao urged: “Lad, when there is gain, there is also loss. The killer move has unrivalled attack power, thus the flaws will be extremely hard to get rid of. These few days, you have experimented so many times, and spent a huge fortune, even borrowing extensively from Hei tribe, I'm sure you understand the difficulty of this now."

"This is my final method, I cannot guarantee that it will work. Moreover, this method is extremely dangerous, there is barely a chance of success! You can decide whether or not to do it. Your 'son' has already turned into a heavenly zombie completely, he has good battle strength. He listens to your words obediently, it is too wasteful to sacrifice him like this. I would suggest that you keep him by your side as a helper."

Fang Yuan was silent and did not reply.

"Father, please rest more, I am not anxious…" At one end, Chang Ji You muttered.

Fang Yuan concentrated and looked over, although Chang Ji You had turned into a heavenly zombie, and looked very ugly, his eyes were crystal clear, showing great admiration and love for Fang Yuan.

Fang Yuan smiled lightly: "Son, I have thought of a good method. But this method is extremely dangerous, your life will be in danger. The success rate is very high though, thus father cannot decide…"

"Sigh…" In his mind, Mo Yao sighed deeply.

Although Fang Yuan said this, Chang Ji You who hated his current self and wanted to recover would only make one decision.

As expected, once Chang Ji You heard this, he hesitated for a moment before his eyes shone brightly: "Lord father! Please use this method, living in my current form is simply worse than death!"

Fang Yuan stared at Chang Ji You's eyes intensely: "But, you are my only child…"

"Father!" Chang Ji You cried, he kneeled on the floor as he hugged Fang Yuan's leg: "I cannot bear to part with you either, father. But son really cannot live with such an appearance, even if there is some bit of hope, I will work hard and fight for it!"

Fang Yuan was silent for a while, before sighing a long, deep breath: "Alright. Humans should live according to their own wishes. Father is unwilling to see you live in such agony as well! Go rest for a few days, father will go prepare. A few days later, we will go with the final try!"

A few days later.

"Ahhhhh…"

Chang Ji You's screaming voice had already turned hoarse.

"Endure it for a bit more." Fang Yuan's gaze was warm, but his heart was cold as ice, as he encouraged.

But the next moment, Chang Ji You's screams and cries came to a stop.

This was the three hundred and seventh time he had fainted from pain.

"Hmph, completely useless!" Fang Yuan's expression was dim as water, he snorted unhappily as he stopped using the Gu worms.

This experiment had to be undergone when Chang Ji You was conscious and awake, otherwise it would not work.

Chang Ji You fainting meant that his soul was already forming cracks and chips, he was at the brink of collapsing.

Fang Yuan had to stop and use soul path Gu worms to nourish and heal his soul.

"I said before, this method has little hope, it is better to preserve his life." In his mind, Mo Yao spoke in a sad tone.

Fang Yuan snorted coldly, squinting as a cold light flashed across his eyes: "One more try, we will try it one last time!"

Chang Ji You slowly woke up, his vision turning from blurry to clear. He looked at Fang Yuan beside him, in his eyes, his 'father' was extremely worn out and exhausted.

This made his heart tighten as tears flowed down his eyes again in shame, he choked as he said: “Father…”

“Let’s try again, don’t lose hope.” Fang Yuan laughed as he encouraged.

“Father, if I still faint this time, then stop trying it. Father, this was all my fault, you really need to take a rest.” Chang Ji You said.

“Yes, after trying this, it is really time to rest.” Fang Yuan sighed, the precise deeper meanings in his tone were not able to be perceived by Chang Ji You.

First, three rank five Gu worms were activated together.

Next, more Gu worms were added, these Gu worms were all floating around the face of Chang Ji You, some drilled into his skin while others mixed into his blood, flowing towards his heart.

“Ah…” The intense pain assaulted him again, Chang Ji You gritted his teeth in pain but he soon opened his mouth and growled, his expression twisting from the pain.

Fang Yuan’s movements were smooth and methodical as he continued adding in Gu worms.

The more Gu worms that were added in, the more intense the pain Chang Ji You felt. He struggled desperately, his eyes rolling as he felt pain to the point of losing reason, almost as if he was becoming deranged.

“Stop, his soul cannot take this.” In his mind, Mo Yao urged.

But Fang Yuan acted like he did not hear it, continuing to add Gu worms regardless of what was going on.

“Enough, this amount has exceeded all our previous attempts, he is really going to collapse.” Mo Yao could not bear to see this.

Fang Yuan snorted coldly, not saying a word.

“This is too much, if you continue messing around like this, he will really die!” In his mind, Mo Yao’s will protested.

“What can we achieve if we do not take risks?” Fang Yuan laughed coldly, adding more Gu worms until it was the limit.

His eyes were shining with an excited light: “Just three more Gu worms and we will see the effect. This is the first.”

“Alright, this is the second!”

“Fantastic, this is the final one, success or failure will depend on this…. eh!”

Fang Yuan’s expression froze, the surrounding Gu worms were breaking apart like the scattering of fireworks.

Chang Ji You no longer struggled, he was floating in the air motionlessly.

He was dead.

His soul had shattered and dissipated from the pain.

His expression however, was very calm.

The surroundings became dead silent.

“You’ve killed him.” In Fang Yuan’s mind, Mo Yao’s will spoke coldly.

“Yes, I’ve killed him.” Fang Yuan’s brows lifted, laughing lightly: “He did not die in vain after all, at least I got to find out how stubborn this killer move’s flaw truly was.”

Mo Yao did not speak, she did not want to respond to Fang Yuan’s cold and unscrupulous nature. She hid her form and vanished from Fang Yuan’s mind.

Fang Yuan’s smile gradually vanished.

He was progressively discovering how big of a threat this will of Mo Yao in his mind was.

Did she know about the way to resolve the flaw of the six arm heavenly zombie king killer move or not?

Did she know the method, but was unwilling to say it, or was she not thinking so as to preserve herself?

Especially when this killer move's flaw is so severe, if Mo Yao's will attacks Fang Yuan's mind during the crucial moment and cause his thoughts to become chaotic, he would not be able to stop the killer move even if he wanted to.

"What was the Gu used to create this will of Mo Yao's? These days, I have been collecting information on wisdom path, and purchased many wisdom path Gu worms that could create wills. But I have not found any Gu worm which can allow her to hide and completely conceal herself like this, this is such an unfathomable will!"

"Sigh, I don't have much time left. Right now Eighty-Eight True Yang Building has formed about sixty floors already. Hei Lou Lan is attacking the thirty-ninth floor right now at full force. It seems his target is the wooden chicken Gu."

"I have to work faster, I cannot wait anymore!"

Chapter 591 - Sacrifice

Chapter 591: Sacrifice (Double Chapter)

Translator: ChibiGeneral Editor: ChibiGeneral

It had been so long since Fang Yuan had come to Imperial Court blessed land, and he had entered Eighty-Eight True Yang Building so many times, but he had never forgotten his original intention in coming to northern plains.

That was to save Dang Hun mountain.

He needed landscape as before Gu to save Dang Hun mountain.

There were many difficulties and challenges to obtain this Gu, the main thing was it was with a person. This person was Tai Bai Yun Sheng.

Ever since Tai Bai Yun Sheng joined Hei tribe army, Fang Yuan had been placing his attention on him.

Several months ago, Fang Yuan uncovered some information:

When Hei Lou Lan obtained the one-edge owner token, he was able to explore the rewards of every round; Tai Bai Yun Sheng had gone to visit him and inquired about the existence of lifespan Gu.

But at that time, Eighty-Eight True Yang Building did not yet have lifespan Gu.

When the fifty-fifth floor had condensed, Hei Lou Lan informed Tai Bai Yun Sheng he had discovered a fifteen year lifespan Gu.

After the fifty-fifth floor completely formed into shape, Hei Lou Lan investigated the location of the lifespan Gu and could precisely tell it was the reward for clearing the eighty-fifth round.

From then on, Tai Bai Yun Sheng had put all his energy in the fifty-fifth floor. He called up many Gu Masters, forming an enormous group and forcibly crashed through the rounds. Relying on his might, prestige and enormous rewards, along with repeatedly requesting Hei Lou Lan and other experts, he was actually making fast progress.

Hard work paid off, Tai Bai Yun Sheng spent all his wealth and finally was able to reach the eighty-fifth round.

Fang Yuan naturally did not wish to see Tai Bai Yun Sheng obtaining what he desired.

Tai Bai Yun Sheng was old, and did not have much lifespan left; it was natural behavior for him to increase his lifespan with lifespan Gu.

But if he really obtained this lifespan Gu, he was definitely not going to risk advancing into an immortal. If he did not risk advancing to an immortal, there would not be the inspiration from heaven and earth that would form the Immortal Gu Landscape As Before.

If there was no landscape as before Gu, how would Fang Yuan save Dang Hun mountain which was about to completely wither away?

Especially the past few days, he had learned more information: Tai Bai Yun Sheng had attempted many times to pass the round and he had already found hope. He did not stint on borrowing from Hei Lou Lan and even agreed to Hei Lou Lan's condition of becoming an external elder of Hei tribe.

Tai Bai Yun Sheng was then able to use Hei tribe's resources to recruit large numbers of experts and form a powerful lineup, charging into the fifty-fifth floor to make the final attack.

Despite Tai Bai Yun Sheng taking the risk to advance to an immortal in the memories of his previous life, Fang Yuan was cautious and did not dare to take the risk, deciding to personally intervene.

Time waits for no man.

Fang Yuan had intended to get rid of Mo Yao's will first, dealing with the internal problem before attacking the external problems. But this matter had not made any progress, so now, he used his owner token to secretly infiltrate into the fifty-fifth floor.

The situation of the fifty-fifth floor had already been probed out by Tai Bai Yun Sheng.

There was a majestic and grand blood river flowing here, and in the depths of the river, there was a legendary and mythical blood palace erected.

The blood palace had three great halls and sixty-nine auxiliary halls.

Every hall contained large numbers of blood path Gu worms as well as blood beast guards.

The large groups of blood path Gu worms were of huge strength, but as long as they were killed one by one over a period of time, there would be a point when they are all slaughtered.

The problem was the blood beasts.

Even after these blood beasts were killed, they would absorb blood and resurrect within a short moment. One could say that they could be killed but not killed, there was no way of reducing their numbers.

Tai Bai Yun Sheng's several attempts at passing the round had all been thwarted by these blood beasts.

But at the last attempt, he had unintentionally discovered a pleasant surprise: as long as they keep on charging forward to the depths of the great hall and take out the command token hanging on the main beam, they could make the blood beasts dissipate.

This discovery birthed a strong confidence in Tai Bai Yun Sheng. He was thoroughly poor now, and did not hesitate to sell himself to Hei tribe, borrowing funds and forming a Gu Master group to charge through this round.

When Fang Yuan secretly entered this floor, Tai Bai Yun Sheng's group had already charged through thirty-three side halls and were presently in a fierce battle to reach a towering main hall.

Fang Yuan took out the six-edge owner token, and with a thought, immediately had complete control over this floor.

The six-edge owner token could let Fang Yuan control up to six floors of Eighty-Eight True Yang Building.

Fang Yuan had already used it once to control the seventh floor. Now, he was using it a second time to control this fifty-fifth floor.

Hei Lou Lan had a one-edge owner token and the floor he controlled was the fifth floor.

With a shift of thought, Fang Yuan's figure disappeared on the spot and appeared on the main beam of the great hall.

He leisurely sat on the main beam, and not far from him was that crucial command token.

With a bit of concentration, the battle scene of Tai Bai Yun Sheng and his group appeared in Fang Yuan's mind.

The deeper they went towards the great hall, the more blood beast guards there were, and the battles that occurred were extremely intense. This group of Tai Bai Yun Sheng did not even have fifty people now.

They had been charging forward the whole way, suffering disastrous casualties which left behind a trail of corpses along the way.

Two great rank five Gu Master experts Zhu Zai and Gao Yang took turns as the front vanguard of the group.

Meanwhile Tai Bai Yun Sheng, as the number one healing Gu Master of northern plains of this generation, was protected in the center of the formation. He continually used man as before Gu; rays of light shooting forward and shining upon the corpses, resurrecting the Gu Masters, or shone upon live Gu Masters, healing their injuries and recovering their primeval essence in an instant.

But even Tai Bai Yun Sheng, a rank five peak stage Gu Master, was in a very sorry state.

Gu Masters were falling down time and again, and although he used all his strength, he truly could not save everyone.

The countless blood beasts surged out of every corridor near the great hall and every room, blocking the group’s way with very dense numbers.

The closer they got to the main command token, the stronger the blood beasts became.

And blood beasts could absorb blood to quickly recover and resurrect.

By the time Tai Bai Yun Sheng and the group charged to this place, the blood beasts they had killed on their way had once again resurrected and chased them, blocking their way back. The situation was getting very dangerous.

“No wonder Tai Bai Yun Sheng risked advancing to immortal in my previous life. This round’s difficulty is rather high, unless a blood path Gu Master works with them.” Fang Yuan was in control of this place and could see the actions that Tai Bai Yun Sheng took as easily as reading the lines of his palm.

To a blood path Gu Master, this round was no less than a paradise. With so many blood path wild Gu to subdue and blood beasts to devour, their blood path cultivation would strengthen rapidly.

It was a pity blood path could not be easily revealed. Because of Blood Sea Ancestor, a blood path Gu Master would be hunted persistently by the righteous path the moment they appeared.

And because blood path Gu Masters could quickly increase their battle strength, even demonic Gu Masters widely feared it.

Often, when a blood path Gu Master was discovered, not only would they be hunted down by the righteous path, they would also suffer sneak attacks from demonic path Gu Masters.

There was not even one blood path Gu Master among Hei tribe army. Even if they existed, they were hidden deeply and would not appear for Tai Bai Yun Sheng’s use.

Fang Yuan ascertained for a moment and knew clearly that the chance of Tai Bai Yun Sheng succeeding was extremely minute.

The worry in his heart immediately dissipated by more than half.

Fang Yuan laid back on the beam and took out < >, passing the time while paying attention to Tai Bai Yun Sheng's progress.

Death was possible when advancing through Eighty-Eight True Yang Building.

Fang Yuan was scheming for landscape as before Gu, and could not allow Tai Bai Yun Sheng to die at the moment.

"Kill, we must break through this siege! Otherwise, we are all going to die!" Tai Bai Yun Sheng's face was filled with blood stains, roaring loudly to raise the morale.

Waves of blood beasts roared and snarled, before pouncing on the group like a blood colored giant wave.

…

The great hall was a scene of tranquility.

Fang Yuan leisurely flipped through the pages while adjusting his posture to make himself more comfortable.

…

Grrr!

A blood beast with the head of a tiger and body of a horse madly snarled while rampaging in the group of Gu Masters.

Two Gu Masters met its attack; one died while the other was heavily injured.

"Man As Before!" Tai Bai Yun Sheng shouted and raised his palm; a white light immediately shot out and shone upon that injured Gu Master.

The Gu Master immediately recovered his previous uninjured state. The terrifying injuries from the blood beast's attacks disappeared without a trace.

The Gu Master panted roughly, he was still frightened, retreating back behind the frontlines. The defensive gap he left behind was immediately filled up by another Gu Master.

But that dead Gu Master's corpse was swarmed by the blood beasts and roughly dragged away.

Tai Bai Yun Sheng did not make a move.

Without advancing to an immortal, even a rank five Gu Master would have limited primeval essence and have to use it cautiously.

Moreover, that dead Gu Master's Gu worms were severely damaged, his defensive Gu worm was even pierced and destroyed. Even if he was resurrected, he would be killed again.

The remaining Gu Masters grieved and cursed, but they could only look as their companion's corpse was madly torn apart by over ten blood beasts.

Blood beasts were extremely sensitive to blood and even a bit of bloody odor could make them go crazy. By swallowing stronger organism's blood, they could strengthen themselves.

Soon, the dead Gu Master's blood was completely absorbed by the blood beasts. The whole corpse became a dried up mummy, creating a wretched spectacle.

The beasts that had absorbed his blood started to grow human like forms. Some grew human like eyes; some grew several human ears; and some grew agile human arms.

But when they were spending time in absorbing the corpse, the pressure on Tai Bai Yun Sheng and the group greatly reduced and they took this valuable opportunity to break through and moved forward tens of steps.

…

Fang Yuan flipped through < > to chapter three, section fourteen.

Northern Dark Ice Soul awakened his elder sister Desolate Ancient Moon, and the two again asked for advice from cognition Gu on how to save their father.

Cognition Gu said: “Humans, Cheng Bai mountain has disappeared, who knows when it will form again. I am also not clear on other ways to bring your father back to life. But no need to be dejected, you can try asking wisdom Gu. I am its mother, wisdom is the crystallization of cognition.”

The student surpasses the master; the things cognition Gu did not know, wisdom Gu might not necessarily be unknowing of.

Under cognition Gu’s directions, Northern Dark Ice Soul and Desolate Ancient Moon found wisdom Gu.

Wisdom Gu had somewhat of a connection with Ren Zu, back then Ren Zu had used rules and regulations Gu to capture it. But it was able to escape in the end.

At first, wisdom Gu was not willing to help Northern Dark Ice Soul and Desolate Ancient Moon.

But seeing that they were introduced by its mother cognition Gu, it reluctantly said: “Oh humans, I can show you the right path. But I need remuneration, one of you need to hand over your middle age to me.”

“I will give my middle age to you.” Desolate Ancient Moon immediately replied with no hesitation.

She was awakened by her little brother Northern Dark Ice Soul and had been bestowed with the meaning of her life which was to bring her father, Ren Zu, back to life. Thus, she replied immediately without the intention of passing it to others.

Northern Dark Ice Soul was not able to argue with his sister and could only let her offer her middle age.

This meant, once Desolate Ancient Moon’s youth had passed, she would directly skip middle age to reach old age.

But to save her father, she did not have many misgivings.

Wisdom Gu obtained Desolate Ancient Moon’s middle age and gave her directions: “In the center of the golden desert in the west, there is a still blue sea with no ripples, as flat as a mirror. That is the source of all living beings, all lives in the world originates from there. And in the depths of the blue sea lie many life Gu shining upon all living beings. You need to infiltrate the sea, catch a human shaped life Gu and bring it to shore. This human shaped life Gu can bestow your father a new life. But remember, you cannot spend over fifteen minutes in the sea, otherwise you will be assimilated by the sea.

Wisdom Gu added another sentence in the end: “It is extremely difficult to find human shaped life Gu. Only a person who has truly comprehended the truth of life can do it. If you are not able to do it, don’t blame my solution for not being easy to use.”

Desolate Ancient Moon wanted to ask something, but Wisdom Gu quickly flew away and did not give the siblings any chance to make inquiries.

…

The clamorous shouts and cries resounded everywhere.

The blood beasts surged forward like sea tides. Tai Bai Yun Sheng and the group were like a reef, resisting the attacks of the blood beasts time and again, while also moving forward step by step with difficulty.

“Almost there, we are only three hundred steps away from the great hall door!” Someone shouted, boosting the morale.

“Careful!” Suddenly, a Gu Master at the side warned.

That Gu Master who had tried to boost morale was dazed and the very next moment, a blood beast with the head of a dragon and body of a bear fiercely smashed into him.

Crack.

The Gu Master's ribs instantly shattered from the crash, and the blood he puffed out contained pieces of internal organs.

His body was sent flying from the smash, the Gu Masters behind tried to stop him with all their strength; in an instant, the formation turned chaotic and there was a crisis of it collapsing apart!

“Hold on, continue to hold on!!” Tai Bai Yun Sheng, his face stained with blood, shouted furiously with extreme anxiety.

In such a battle situation, if the Gu Masters scattered, they would immediately be torn to pieces by the surrounding countless blood beasts. Only with the Gu Masters working in a tight formation, could they have a chance at survival!

But the Gu Masters were retreating step by step, large numbers of blood beasts broke the defense line and fiercely pounced upon them.

Miserable screams started rising continuously.

Many Gu Masters were still recovering their primeval essence as much as possible. Being caught unawares, they were immediately torn to pieces by the blood beasts.

A mantis-like blood beast brandished its sickle arms and charged in the very front.

Swish!

A Gu Master's head was slashed apart; blood started spurting out of the Gu Master's neck and the head flew high, but before it fell down, it was grabbed by a blood beast flying in the air and with a ‘gulp, was swallowed down.

But the red hot blood fell down, splashing right at Tai Bai Yun Sheng's face.

Tai Bai Yun Sheng quickly wiped away the blood and was barely able to open his eyes; the dense bloody stench assailed his nose, and agitated a group of blood beasts.

“Finished!” Tai Bai Yun Sheng's heart sank to the bottom, but right at this time, a figure pounced down like a tiger getting off the mountain.

BOOM BOOM BOOM.

After several rounds, the figure killed the mantis blood beast and finally stabilized the formation at this final juncture.

It was Zhu Zai!

A rank five Gu Master, a famous expert of the demonic path!!

Everyone was saved, feeling like they were dragged back from the cliff.

But Zhu Zai also paid a price, there were three new wounds on his body, all of them so deep one could see his bones.

Tai Bai Yun Sheng quickly activated man as before Gu to heal him.

Zhu Zai recovered his previous state and the new injuries completely vanished. At the same time, his intensely depleted primeval essence recovered back.

It was only that the several expendable Gu he had used to gain a burst in his battle strength earlier could not be restored.

Man As Before could only target human bodies and had no effect on Gu worms.

…

“This Man As Before has marvellous effect, but unfortunately, it cannot be used on one’s own body.” Fang Yuan sighed before gazing back to the book in his hand once again.

Desolate Ancient Moon and Northern Dark Ice Soul travelled an arduous journey through the golden desert and arrived at the center of the desert where they saw the blue sea.

The blue sea was so beautiful that nothing more beautiful than it could be imagined.

Just like wisdom Gu said, even strong winds could not cause the slightest of a ripple on the blue sea.

With the soft golden sand surrounding it, it looked like a deep blue gemstone embedded on this golden cloth.

The siblings infiltrated into the depths of the sea and sure enough found large numbers of life Gu packed together in the sea depths.

These life Gu were like blue gems. But they were of different sizes and shapes.

Some looked like a colt; some like a tiger or leopard; some like an eagle or dove; while some like a snake or flood dragon.

The siblings were dazzled from the sight. They saw all kinds of life Gu from flowers, birds, fishes, insects, beasts, snowmen, hairy men and all other shapes, except the human shaped life Gu.

Helplessly, the siblings could only get out of the sea and back to the shore.

The moment they had left the blue sea, a deer shaped life Gu Northern Dark Ice Soul had been holding, let out a soft light before jumping on the sand and turning into a fawn.

This was the birth of a life!

The siblings looked at this sight in wonder, with their eyes wide open.

Only when the fawn had hopped far away, the elder sister Desolate Ancient Moon suddenly comprehended: “No wonder wisdom Gu flew away immediately after speaking and did not let us question it. I have understood the truth of life.”

“The truth of life, what exactly is it?” Northern Dark Ice Soul quickly asked.

Desolate Ancient Moon pointed at this blue sea in front of them and asked in return: “Tell me, if we were to really find a life Gu, a human shaped blue gem, and we bring it back, what will it transform into?”

Northern Dark Ice Soul thought for a moment and replied: “It should be like that fawn and turn into a real active life form, right?”

He suddenly looked distracted.

Desolate Ancient Moon looked at him with a smile: “It seems you have also understood. We are these life forms. We were formed from life Gu! We, ourselves, are human shaped blue gems!”

Northern Dark Ice Soul completely understood, where did humans come from?

Wisdom Gu had already made it clear before: This blue sea is the source of all living beings, all lives in the world originate from here.

Humans, naturally also originated from here.

Their father Ren Zu was once a blue gem in the depths of this sea. By some opportunity and coincidence, it was able to come out from the sea and form a zestful life form that roamed the world, surviving with difficulty and reaching this stage.

But humans were the spirit of all living beings, so how many human shaped gems could there be in such a large sea?

It was definitely extremely few, and it was very possible Ren Zu was the only one.

Searching for a small blue gem in such a vast sea, how big of a project was this!

This was innumerable times more difficult than Desolate Ancient Moon looking for the only success Gu in Cheng Bai mountain.

“I know a method which can get us a human shaped life Gu quickly.” Desolate Ancient Moon suddenly said.

“What method?” Northern Dark Ice Soul had a bad feeling.

Desolate Ancient Moon smiled: “That is… I will go into the bottom of the sea and assimilate with this blue sea, returning back to a life Gu.”

Although Desolate Ancient Moon had transformed into a monster, she was intrinsically a human.

The essence of her life had not changed.

Since she was a human, once she was assimilated, she would form a human shaped blue gem like life Gu.

This speculation was not wrong.

No wonder wisdom Gu said: But remember, you cannot spend over fifteen minutes in the sea, otherwise you will be assimilated by the sea.

Wisdom Gu's words did not have any superfluous words.

Wisdom Gu had also said: If you are not able to do it, don't blame my solution for not being easy to use.

One could analyze from this sentence — it was extremely likely there were no human shaped blue gems in the blue sea. If the siblings were not willing to sacrifice themselves, they would not be able to obtain human shaped life Gu. As such, don't blame me, the wisdom Gu, if you are not able to do it.

“No, you can't sacrifice yourself like this, elder sister.” Northern Dark Ice Soul immediately dissuaded.

Although he wanted to bring his father back to life, he did not want to sacrifice his own sister.

“I need to do it, the meaning of my life is to bring father back to life.” Desolate Ancient Moon replied tranquilly.

Northern Dark Ice Soul suddenly could not say anything.

It was him who gave this meaning to Desolate Ancient Moon's life, and Desolate Ancient Moon was living for this. In other words, if her father could not be brought back to life, there would be no meaning in her life. Then what would be the use in continuing to live?

As long as she sacrificed herself, she could bring her father back to life; this was the greatest meaning of Desolate Ancient Moon’s life!

“Humans originally were gems of the world. It is only that whether the gems are bright or not require us to polish them. Every effort we make, every choice we take, are all polishing each of our gems.”

“And humans can only obtain life by sacrificing life.”

Desolate Ancient Moon leisurely spoke before sinking into the blue sea.

Northern Dark Ice Soul tried his best to stop her, but he was not able to. Desolate Ancient Moon had become a monster with incomparable strength, and he was not her match.

After fifteen minutes of time, Desolate Ancient Moon was assimilated by the blue sea and turned into a human shaped blue gem.

But this blue gem was not of a healthy human shape but a badly damaged, less than half a proper human shape.

This was because Desolate Ancient Moon had given her ‘middle age’ to wisdom Gu.

Humans, in the process of understanding what life was, would often have already used up half of their lives.

Northern Dark Ice Soul held this blue gem with tears in his eyes, and left the golden desert.

He did not have any of the happiness of success, but instead sank down into extreme remorse.

From a certain perspective, it was him who had killed his elder sister.

…

“There are still fifty steps left!” Tai Bai Yun Sheng shouted with all his strength.

They pushed forward with difficulty with a companion falling down every short moment, the intense and bitter battle had left them with only five people now!

But success was right in front of their eyes!

“Just a little more of a push…”

“I will tear these blood beasts into pieces!!”

Zhu Zai and Gao Yang protected Tai Bai Yun Sheng from left and right; they also shouted to raise the morale.

Thirty steps!

Two more fell down, leaving behind Tai Bai Yun Sheng, Zhu and Gao.

The surrounding blood beasts brandished their claws and fangs, looking extremely malevolent. They advanced wave upon wave in their endless numbers.

Ten steps!

Zhu Zai and Gao Yang used all their strength, suffering disastrous losses to their Gu worms because of excessive use, and their primeval essence was also almost depleted.

“This old man owes both of you a favor, I swear I will definitely reward you heavily sometime in the future!” Tai Bai Yun Sheng’s eyes shone brightly, his tone extremely earnest and sincere.

“Old sir, what are you saying! We were saved by you back then, without old sir, we would not be alive today!”

“Old sir’s life saving favor is as heavy as a mountain! Even if we die today, it can be considered repaying your favor.”

Gao Yang and Zhu Zai replied, full of emotions.

There existed two-faced hypocrites in the righteous path, and demonic path likewise was not without true heroes!

Five steps!

"Save me!" Zhu Zai shouted and without caring for defense, pounced on the blood beasts blocking the way forward, perishing together with them.

Tai Bai Yun Sheng stretched out his palm but the white light did not come out.

He shouted out involuntarily: "Not good, my primeval essence is finished!"

This bad news immediately made Gao Yang's expression turn pale white.

All along, Tai Bai Yun Sheng had served as the core of the group. Only with man as before Gu's continuous support, everyone was able to push forward this deep.

"It doesn't matter, no blood beasts will enter the great hall. As long as I can enter the great hall, I can recover my primeval essence quickly and save Zhu Zai!" Tai Bai Yun Sheng shouted.

Gao Yang's spirits rose.

Tai Bai Yun Sheng was right, blood beasts might tear apart the corpse, but their main priority was absorbing the blood. As long as most of the corpse was intact, there was hope of saving Zhu Zai.

Snarl!

Next moment, a strong blood beast that looked like a giant python suddenly moved in from behind and swallowed Gao Yang in one bite!

Two steps!

The great hall's door was very close; with a body filled with injuries, Tai Bai Yun Sheng staggered forward through a small gap among the blood beasts.

At the crucial moment, he used up his final precious bit of primeval essence to summon a golden armor which resisted the blood beasts' attacks.

He reached!

“Humans can only obtain life by sacrificing life. Gao Yang, Zhu Zai, I will remember your sacrifices!” Tai Bai Yun Sheng exerted all his remaining strength to push open the door.

He fell down inside the great hall, the blood beasts behind him roared, snarled and brandished their claws, but did not dare to enter the great hall.

It was just like what Tai Bai Yun Sheng had investigated before.

Tai Bai Yun Sheng lay down on the ground with no strength left in his body. The injuries all over his body were continually transmitting intense pain.

He took a few strong gasps of breath, and suddenly started laughing heartily, but his laughter contained a sobbing tone.

Tears were overflowing on his face.

“This round has three great halls and sixty-nine side halls! If one crosses the round completely within a certain time period, they can obtain high grade evaluation. Passing two great halls and forty-six side halls will be considered middle grade evaluation. I surpassed twenty-three side halls and one great hall, I can only obtain low grade evaluation. But regardless, I have obtained lifespan Gu!”

“Fifteen year lifespan Gu can increase my lifespan by fifteen years. A whole fifteen years…”

Tai Bai Yun Sheng was exclaiming with deep and boundless emotion, when suddenly, his eyes blacked out and he fainted.

Chapter 592 - Deep Dark Shadow

Chapter 592: Deep Dark Shadow

Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan lowered his head, observing Tai Bai Yun Sheng who had already fainted and lost consciousness.

He was the culprit who caused Tai Bai Yun Sheng to fall unconscious.

At this moment, Tai Bai Yun Sheng's body was bathed in blood, he was lying on the ground and within his deep eye sockets, his eyes were tightly shut.

There were lots of injuries on him, his snow white hair had stuck together because of dried blood, he no longer had the demeanour and appearance of the number one healing Gu Master in northern plains.

Merely a few steps away, outside the main hall's doors, a sea of blood beasts were growling, the messy overlapping noises were sent over with great force.

Fang Yuan raised his head, staring at them as he opened his mouth and said lightly: "Shut up."

Almost immediately, there was silence outside the hall.

The blood beasts all became quiet, lying prostrate on the ground like obedient cats or dogs, staying motionless.

Fang Yuan made use of the six-edge owner token to control this floor, he was the master of this floor, these beasts were all his to control, they listened to his commands and moved according to his will.

Fang Yuan shut his eyes, his mind entering this floor's control system as he let his senses observe the area.

At the moment, in this particular round, there were many Gu Masters remaining.

Among these Gu Masters, some were Gu Masters recruited by Tai Bai Yun Sheng, but during the earlier fighting they had been separated from the main party. Another portion were the information gatherers of all the different forces, they were all investigative Gu Masters. They came from Hei tribe, Ma Tribe, Ye Lui tribe, and all the other large forces, with the intention of observing whether Tai Bai Yun Sheng failed or succeeded.

As for this hall and its surroundings, within them, other than those rotten and dried corpses, only Fang Yuan and Tai Bai Yun Sheng were left now.

Fang Yuan closed the great hall's door, half squatting on the ground as he stretched out his right palm, grabbing onto Tai Bai Yun Sheng's skull.

His Gu worms had been prepared long ago, he activated them one by one.

Very soon, above Tai Bai Yun Sheng's head, a weak shining white light was formed, becoming the only source of light in this dark and dim great hall.

As the light got more and more intense, Tai Bai Yun Sheng's face gradually showed a painful expression, and his brows were frowning more intensely.

After a moment of stillness, Fang Yuan suddenly opened his eyes!

His eyes had no pupils, it was pure white in color.

The whites of his eyes gave off a weak light as at the same time, a large number of images flashed across in Fang Yuan's mind.

Tai Bai Yun Sheng's life, from his old age all the way until he was young, all the memories had been extracted by Fang Yuan.

…

An old man was walking in northern plains, the sky was vast and the wilderness was boundless, the winds blew as the grass was drooping in response, wolf groups were howling freely.

…

“Old sir, we brothers will never forget the kindness you have displayed by saving our lives!” Gao Yang and Zhu Zai kneeled down together before Tai Bai Yun Sheng.

…

A purple haired old beggar opened his mouth, showing his remaining few teeth, laughing in a weird manner: “What kind of Gu Master do you want to become? Hehehe, I happen to have three complete sets of inheritances with me here!”

…

“Mm, this lad has a passable appearance, we will choose him.” In the inkmen city, an inkman was pointing at Tai Bai Yun Sheng who was in his youth as he laughed loudly and said.

Even further back, during the time when he was even younger…

“Why, why did you betray me?!” On the night of their joyous wedding, Tai Bai Yun Sheng fell weakly on the ground as extremely loud shouting and fighting noises resounded outside the tent.

As for his wife, she had an expression full of coldness and hatred, she slowly got close to him as her eyes shone with a ruthless light, she gritted her teeth as she said: “Tai Bai Yun Sheng, if you want to blame someone, blame your parents. They were the ones who devoured my tribe, they killed my parents, I want to exact revenge for them!”

During the time of his childhood…

“My son, you are the next generation tribe leader of our Tai Bai tribe! You are not allowed to cry, do not have the heart of needless sympathy! To survive in northern plains, we need to have a tougher heart, a tougher stance! After all in the future, you have to lead our Tai Bai tribe.” His father was scolding him in a very strict manner.

…

“Ahhh…” Fang Yuan was screaming from the intense pain.

In his mind, countless images were flashing, they were depicting Tai Bai Yun Sheng’s entire life, a legendary tale. Such a huge amount of information had a large impact on Fang Yuan’s mind and caused great damage to him.

Thankfully, the images were not endless and unceasing, there came a time when they finally ended.

After browsing through Tai Bai Yun Sheng’s entire life, Fang Yuan immediately stopped using his Gu worms, sitting down on the ground to rest.

He was breathing roughly and panting, his entire body was coated in sweat. A long time later, his pupils regained their original color.

Soul searching, this was not an easy action. Especially when Fang Yuan was concerned about Tai Bai Yun Sheng’s safety and did not want to cause harm to his life, he could only endure most of the pressure of the soul search himself.

After stopping the soul search, Tai Bai Yun Sheng was still sound asleep, but his tightly knitted brows had slowly eased as he relaxed. His breathing was more stable now, and his expression was rather peaceful.

In contrast, Fang Yuan’s brows were starting to frown instead.

“I did not find it!” He heaved a long sigh in pity.

“What did you not manage to find?” In his mind, Mo Yao’s will could not hold in her curiosity as she asked.

Fang Yuan’s actions were very strange, it made her very curious.

Fang Yuan did not answer her, he only frowned even more as time passed. The matter of landscape as before Gu was related to his grand scheme after rebirth, how could he possibly tell this to Mo Yao?

Landscape as before Gu was an Immortal Gu that Tai Bai Yun Sheng obtained only after he became an immortal.

Rumors said: This Gu was created naturally on its own when Tai Bai Yun Sheng became an immortal, and heaven and earth resonated with him, causing it to spontaneously condense.

But there was another possibility, that within Tai Bai Yun Sheng's mind, he had the Immortal Gu recipe for Landscape As Before from the start.

If he really had the Immortal Gu recipe, then Fang Yuan could steal this Gu recipe, along with river as before Gu and mountain as before Gu, bringing to Lang Ya blessed land and asking Lang Ya land spirit to help by refining this Immortal Gu on his behalf.

This way, he did not have to take a risk and seize the food from the tiger's mouth, it would greatly reduce his danger.

But after this soul search, Fang Yuan obtained a horrible result.

Fang Yuan did not manage to find the Immortal Gu recipe for Landscape As Before, this indicated that the rumors were really true. Landscape as before Gu was indeed a product of the resonance of heaven and earth during the moment when Tai Bai Yun Sheng became a Gu Immortal.

That also meant that: If Fang Yuan wanted to obtain this Immortal Gu, he would have to snatch this Gu by force from Tai Bai Yun Sheng who had already become an immortal by then.

Fang Yuan was still not a Gu Immortal, as for battling an immortal as a mortal, Fang Yuan had never heard of any examples of success in his life, it was no doubt tougher than ascending to heaven!

But what other choices did he have?

Back then, among the three options, this was no doubt the easiest way. He had already invested time and effort into this plan, although Fang Yuan did not have absolute confidence of success, he had no choice but to continue making preparations and take a risk to try it anyway!

…

Outside Eighty-Eight True Yang Building, Tai Bai Yun Sheng's image appeared slowly.

"He is back, he is back!"

"How was the result? Someone saw Tai Bai Yun Sheng fighting his way into the main hall."

"Oh no, Lord Tai Bai Yun Sheng is motionless, it seems he has fallen unconscious!"

The surrounding Gu Masters immediately went over as a crowd.

After taking a look, all of their expression changed mildly. Tai Bai Yun Sheng's body was filled with extremely serious injuries, they were all secretly stunned in their hearts.

"He is still breathing!" Someone stretched out his finger and placed it below Tai Bai Yun Sheng's nose, shouting loudly: "Quick, who is a healing Gu Master, quickly stabilize Old Sir's current injuries!"

"I will do it, I will do it!"

"I am also a healing Gu Master!!"

Many healing Gu Masters quickly helped out, Tai Bai Yun Sheng's reputation and extremely kind hearted nature had already been ingrained in everyone's hearts.

There was no doubt that he was much more popular and loved by people compared to Hei Lou Lan and Chang Shan Yin.

"Even Lord Tai Bai Yun Sheng suffered injuries to such a grave extent, sigh, it seems that this time, the round might not have been passed." Someone sighed.

“The time for the challenge has already ended, but most of the Gu Masters did not return safely, we have truly suffered a huge loss this time!”

“Among all of you, has anyone seen Lord Gao Yang and Zhu Zai coming out?” Someone jolted abruptly, suddenly asking.

Everyone started looking around frantically, but they just ended up staring at each other.

No one saw the figures of Gao Yang and Zhu Zai, meanwhile in Eighty-Eight True Yang Building, that round was still intact and available for challengers. Except that in this short period, Gu Masters were not allowed to enter again.

Everyone was very clear about what this implied.

Ever since Eighty-Eight True Yang Building had formed, five rank five experts had already been sacrificed.

Such grave casualties and losses, it caused the entire area to go into deep silence.

When Tai Bai Yun Sheng opened his eyes eventually, he found himself lying on a bed, his entire body was feeling weak to the point where he even had difficulties sitting up.

Seeing that he opened his eyes, a servant nearby who was attending to him shouted immediately out of joy: “Old sir, you are finally awake, you have finally woken up! Someone quickly come, someone quickly come, old sir has woken up!”

Very soon, Tai Bai Yun Sheng could hear a large number of footsteps rushing over towards him.

A group of healing Gu Masters came to his side, checking his body’s condition for him collectively.

“Lord elder, rest assured, your injuries are no longer a problem. Except that you are of old age, so the injuries this time have affected your physical condition. From now on, you have to recuperate carefully, especially for the next few months, your body is weak and lacking in nourishment, you need to rest and recover slowly." The head of the healing Gu Masters urged him in a gentle tone.

In order to get a team to challenge the round, Tai Bai Yun Sheng had no choice but to agree to Hei Lou Lan's request and had already become an external elder of Hei tribe.

Tai Bai Yun Sheng's gaze was completely unfocused, ever since he woke up, he had been in a daze, after hearing these words, he regained some of his senses as he asked: "Where is this place?"

"Replying to lord elder's question, this is Lord Hei Lou Lan's residence. Ever since lord elder failed in challenging the round, and returned barely alive, our tribe leader has been very concerned, he personally brought you here to receive treatment. The servants have already reported your awakening, I believe that very soon, lord tribe leader will be here to see you." The leader of the Gu Masters once again replied.

"Failed in challenging the round, and returning barely alive?" Tai Bai Yun Sheng frowned slightly, the memories in his mind were slowly surfacing, as he recalled that final scene that had happened —

He expended his final portion of primeval essence, activating his defense Gu as he successfully charged into the great hall amidst the attacks and rampaging of the blood beasts.

But soon after, he fainted and fell unconscious, losing perception of all his senses!

When he woke up, he found that he was lying here.

"Does that mean, I really failed in challenging the round?!" Tai Bai Yun Sheng's tone suddenly turned sharp, as his gaze became sharper than ever.

"Lord elder…" The healing Gu Masters around the bed all looked at each other, they wanted to offer words of consolation, but they could not bring themselves to say a thing.

Thus, they could only lower their heads silently.

The room suddenly became completely quiet.

Tai Bai Yun Sheng's gaze was staring into the distance, after being silent for a while, he suddenly raised his head and laughed: "Haha, so I failed after all. All that sacrifice for nothing, all that sacrifice for absolutely nothing!"

He could not get up now, so he could only use his palm to slam the side of the bed with all his strength, laughing maniacally.

"Lord elder, lord elder!" The healing Gu Masters were frantic, they quickly tried to calm him down.

"My pitiful Gao Yang, my pitiful Zhu Zai, they sacrificed their lives in order to protect me!" Tai Bai Yun Sheng's eyes were overflowing with tears, his laughter was filled with pure agony.

"My condolences to lord elder, there is a limit to what a person can do, lord elder had already done his best!"

"Lord elder, the fact that you managed to survive is already the greatest fortune among misfortunes."

"People die when they are killed, the dead cannot be resurrected, old sir, you have to stay strong for all of us…"

Everyone spoke one after another, trying to calm down the unstable Tai Bai Yun Sheng.

But these words felt like utter sarcasm when they entered Tai Bai Yun Sheng's ears. They were like needles stabbing into his heart one by one.

At the final crucial moment, Tai Bai Yun Sheng preserved his primeval essence and did not choose to save Gao Yang and Zhu Zai. It was for himself, to activate the defense Gu and charge into the main hall.

That was him, for his own selfish gains, he had ignored the sacrifices of his comrades.

Was this still Tai Bai Yun Sheng?

Was this still that admirable and publicly recognised figure in northern plains who helped and saved the injured, healing people everywhere, the Tai Bai Yun Sheng who eliminated pain and suffering?

Why did he do that?

But at that crucial moment, he had no time to think about it carefully, he chose to do it in an instant!

Purposely sacrificing Gao Yang and Zhu Zai to obtain a chance for himself to obtain that fifteen year lifespan Gu which was the reward for passing the round! It was for his own purpose of extending his life!

Such a decision made Tai Bai Yun Sheng feel very unfamiliar with himself, he felt extremely ashamed, extremely inferior, and extremely regretful!

Back then, there was no hesitation, he did not think about it, that decision had transformed his morals into a whip, interrogating his soul and lashing at his conscience!

Tai Bai Yun Sheng shut his eyes in great pain, his fists were tightly clenched.

“Lord tribe leader has arrived!”

“Subordinate pays respects to lord tribe leader.”

The entire room kneeled, as Hei Lou Lan carried a smiling expression and walked towards Tai Bai Yun Sheng.

Seeing Tai Bai Yun Sheng’s pained expression, Hei Lou Lan frowned lightly, but soon his frown vanished: “Elder Tai Bai, I am very glad that you are awake. I have already heard about the situation, you, Gao Yang, and Zhu Zai had displayed the bravery and courage of us northern plains men, although you failed, it was an admirable attempt! As long as you learn from this attempt, I’m sure you’ll be able to pass this round in the future, overwriting failure with success and washing away the humiliation.”

Tai Bai Yun Sheng did not open his eyes, he did not speak a word as his expression remained painful.

He had already understood the reason why he failed.

After he charged into the main hall, he had successfully avoided the attacks of the blood beasts as he fell on the main hall. But after succeeding, he laughed wildly in great joy, and because his state of mind had been greatly volatile and fluctuating, together with his grave injuries, he lost consciousness.

To get through this round, there was a time limit as well.

Once the time was up, his unconscious self was sent out forcefully along with the other Gu Masters at the fringe of the battlefield.

He was obviously a single step away from success, but he failed because he had fallen unconscious.

Such an ironic ending, this was not the source of the intense pain in Tai Bai Yun Sheng's heart.

His pain was because he had abandoned his comrades for his own selfish gains.

Was this still Tai Bai Yun Sheng?

His memories flashed in his mind one by one once more.

From youth, he had always believed in the power of love.

Since he was a child, he had been reputed to have a kind heart.

When Tai Bai tribe devoured other tribes, he saw that his childhood friend was going to suffer the horrible fate of becoming a female slave, thus he stepped up and requested to marry her. Because of this, the batch of captives were also spared.

But on the night of their wedding, his wife betrayed him. The captives contacted outside enemies and assaulted his tribe, causing his parents to die from this incident.

His slave life after that was extremely tough and pitiful, and he had always been suffering the intense guilt and regret in his heart.

Finally, one day, he gave an unacquainted old beggar a bowl of water out of kindness, and the old beggar gave him three immortal inheritances to choose from.

The first could allow him to bathe in flames and step on fire, surpassing the mortal realm.

The second could allow him to control wind and fly in the air, roaming the world freely.

The third could allow him to surpass life and death, gaining the ability to assist the world's people.

Tai Bai Yun Sheng chose the third inheritance.

From then on, it was as if he found the light in the darkness, his heart was no longer in turmoil as he had no regrets anymore, he had been completely reborn!

After so many years, the old beggar's laughter was still ringing in his ears.

Surpassing life and death, gaining the ability to help people, this had become his life's goal.

And indeed, he truly achieved this in his life later on.

Countless people felt gratitude towards him, his kind reputation had spread widely, his light was shining over the entire northern plains.

He was a living legend.

But right now!

He had failed!

His failure was not in that he did not receive the lifespan Gu. But because he betrayed his comrades, he betrayed the way of life that he had set for himself!!

But the most ironic thing was, all these were done by his own subconscious.

He spent almost his entire life to establish a way of life for himself that he believed in. But that at moment, he completely destroyed his own ideals.

He had seen the other side of himself, his own selfish nature.

He had once thought, he was the person everyone knew him as — walking on the grassland under the setting sun, helping and saving people throughout the region, the savior of the world.

But now, in his heart, this image was slowly leaving him, it was limping away from him.

In the brilliance of the setting sun, his shadow was stretched out and extended into the horizon.

The shadow was extremely dark…

Chapter 593

Chapter 593: Appearance of the strength path Immortal Gu

Translator: ChibiGeneral Editor: ChibiGeneral

Hei Lou Lan's brows furrowed as he walked out of Tai Bai Yun Sheng's room.

"An expert cannot become conceited by success nor discouraged by failure; who could have thought the grand, renowned Tai Bai Yun Sheng was no more than this." he was very dissatisfied with Tai Bai Yun Sheng's mental state.

"Tai Bai Yun Sheng is the number one healer, if his state is not good, the difficulty for me to cross the rounds will increase by a lot." Hei Lou Lan raised his head and looked above.

On the summit of the sacred palace, the bright aurora was surging majestically.

Eighty-Eight True Yang Building had already condensed sixty-seven floors and was currently condensing sixty-eighth floor.

Hei Lou Lan gazed at Eighty-Eight True Yang Building with an obsessed look, a cold light of ambition flashing in his eyes.

In the sixty-eighth floor there existed a strength path Immortal Gu!

Hei Lou Lan possessed an one-edge owner token, this strength path Immortal Gu was assimilated into Eighty-Eight True Yang Building just moments ago, and he could immediately perceive it.

This was a rank six strength path Immortal Gu called flying bear strength Gu.

The flying bear was a desolate beast with battle strength that could match Gu Immortals.

Flying bear strength Gu could allow the Gu Immortal to have a definite probability of bursting out with a flying bear phantom during battle and strike with the divine strength of flying bear.

This was the Immortal Gu Hei Lou Lan wanted. With it, he could advance into a strength path Gu Immortal!

“I must get this Immortal Gu in my hands. My plan for revenge only has hope if I have it!” Hei Lou Lan unconsciously clenched his fists, but soon relaxed.

His trusted aide Hei Shu came towards him in short, quick steps, and kneeled before him.

Hei Lou Lan’s expression quickly changed back to normal.

Even in front of his trusted aide, he did not reveal even a trace of his true emotions.

Every day, during this time, Hei Shu would come to report on the movements of every great expert in the sacred palace: “Lord Chang Shan Yin is still at the ninetieth round of seventh floor and has still not made any progress. Lord Ye Lui Sang is at the forty-ninth floor, he has crossed the eighty-first round, thirty percent of the Gu Masters with him have perished….”

Hei Lou Lan had completely opened up Eighty-Eight True Yang Building to everyone; it was a generous move that was rarely seen in the history, attracting a craze in everyone to explore Eighty-Eight True Yang Building.

Even though every owner token’s price was raised to a sky-high amount, there were still countless people scrambling for them madly.

Humans die for wealth and birds die for food; blinded by greed, many had lost their lives.

Adding the casualties from the attempt of Tai Bai Yun Sheng, five rank five experts had died already – Chang Biao, Pan Ping, Hao Ji Liu, Gao Yang and Zhu Zai. This was an enormous loss to Hei Lou

Lan.

The smaller the forces he could mobilize became, the harder the difficulty in getting flying bear strength Gu.

Of course, there was also a certain benefit by completely opening up Eighty-Eight True Yang Building. As long as the participating Gu Masters could survive, most would be able to experience rapid increase in strength.

There were also not a small number who were able to successfully advance, creating many new rank four and rank five Gu Masters.

Eighty-Eight True Yang Building was originally arranged by Giant Sun Immortal Venerable for the benefit of his descendants.

“This sixty-eighth floor is the main focus of our tribe, it even far surpasses winning over the thirty-ninth floor. This is a task specially handed to me by a certain supreme elder of our tribe. Thus, every bit of strength in the sacred palace needs to be treasured. Hei Shu, make this news public: Starting now, Eighty-Eight True Yang Building will be closed and everyone will listen to my arrangements. After breaking through the sixty-eighth floor, Eighty-Eight True Yang Building will be opened again.” Hei Lou Lan instructed, his tone containing a will that could not be questioned.

When Hei Shu heard this was actually a task given by the tribe’s supreme elder, his body shook and his expression turned extremely solemn.

“Get to work.” Hei Lou Lan waved his hand.

Hei Shu accepted the command and retreated.

Every Imperial Court contest was a chess game played by Gu Immortals. Even the stronger Gu Masters were no more than chess pieces.

To seek some kind of Immortal Gu, Gu Immortals would provide support to certain tribes participating in the Imperial Court contest. This was a common set of circumstances.

Hei Lou Lan was sure that everyone would be dissatisfied by his decision to close Eighty-Eight True Yang Building, but under the pressure of a Gu Immortal's reputation, no one would dare to raise an issue.

"Tai Bai Yun Sheng's injuries are too severe, but I can make him participate in the battle after he rests for about half a month. After all, he is a healing Gu Master and will be in the rear of the battlefield. He needs lifespan Gu, I can start from this aspect to mobilize him."

"Chang Shan Yin is fighting the seventh floor. Hehe, his days have not been easy because his son suddenly perished in this round. To get back his reputation, he must pass this round. But he demanded flying bear phantom Immortal Gu from me before, taking loans and owing me a great deal of resources. I can mobilize him."

"There is also Ye Lui Sang, he has a fire path support type Immortal Gu and would be of strong help to me. I can entice him with heavy bait…of course, the crucial point will still be using the strength of the three Gu Immortals, Xue Song Zi, Hei Cheng and Hei Bai. Hehehe, I should send them letters."

…

Hei Bai was extremely excited after reading Hei Lou Lan's letter: "I waited so long and now finally the wooden chicken Gu has appeared, I did not think it would be within the sixty-eighth floor."

He did not doubt the contents of this letter in the least.

After all, Hei Lou Lan was Hei Cheng's son, and was the current Hei tribe leader. If his loyalty was doubted, then was there anyone in the world who was worth trusting?

Hei Cheng smiled brightly: "Virtuous brother, every cloud has a silver lining, hard work will eventually pay off. Did the letter mention anything about strength path Immortal Gu?"

Hei Bai's face flushed red: "I am ashamed, I was only thinking of wooden chicken Gu and forgot about nephew's situation. Nephew has

Great Strength True Martial Physique, he must have a strength path Immortal Gu to advance to Gu Immortal. Nephew has mentioned about this in the letter, but unfortunately a strength path Immortal Gu has yet to appear in Eighty-Eight True Yang Building."

"Still no strength path Immortal Gu?" Hei Cheng frowned.

Previously, when Hei Bai had been worried about wooden chicken Gu, he was consoled by Hei Cheng. This time, it was Hei Bai's turn to console Hei Cheng: "Brother, no need to worry, Eighty-Eight True Yang Building has altogether eighty-eight floors, there are still twenty floors that have not condensed yet."

Hei Cheng nodded, sighing: "Immortal Gu Dark Limit won't be able to mask his physique any longer, this can almost be considered as my son's final chance at life. Sigh… Man proposes and God disposes, we can only leave things to the will of heaven."

Hei Bai's heart was fervent as he changed the topic back to wooden chicken Gu. He reminded: "Brother, time waits for no man, let's quickly prepare to give some help to Hei Lou Lan!"

"Yes. This matter demands immediate actions, which place did the letter mention?" Hei Cheng slowly stood up from his seat.

Hei Bai also followed suit and stood up: "It is near Demon Blood Hill."

"Let's go."

The two Gu Immortals were very straightforward as they immediately set off.

Not long later, they arrived at the sky above Demon Blood Hill.

Demon Blood Hill was a famous area in northern plains where four great tribes of the righteous path had allied to annihilate a gang of demonic path bandits who had been ravaging around northern plains.

The demonic path bandits were extremely fierce because of their deep background, with demonic path Gu Immortals secretly supporting them from the dark.

After the intense battle, the bandit gang was completely annihilated while the righteous path also suffered serious losses. The blood of demonic path Gu Masters dyed the whole hill red, and thus later generations called the hill ‘Demon Blood Hill’.

Hei Lou Lan had requested help in the letter.

Hei tribe’s two Gu Immortals had already prepared for a long time and were ready to leave at any time; this was to help Hei Lou Lan to clear the floor as fast as possible.

But Eighty-Eight True Yang Building was located in Imperial Court blessed land, why would the two Gu Immortals from Hei tribe come here?

Eighty-Eight True Yang Building’s structure needed to be mentioned for this.

The previous ink text had explained: Eighty-Eight True Yang Building was a rank eight Immortal Gu house formed from innumerable small towers, with divert disaster Gu as one of the main cornerstones.

There were gaps of several li between each small tower, covering Imperial Court blessed land in accordance to each region of northern plains. During ordinary times, the small towers would be taking in the wild Gu within Imperial Court blessed land. As every ten year period arrived, these small towers would start to sink one after another, sacrificing the wild Gu inside them while also resonating with the blizzard in the outside world to achieve a miraculous power.

This power would carry out an enormous plundering of the whole of northern plains, taking in the precious Gu resources of northern plains to above the sacred palace in Imperial Court blessed land, and thus condensing floor after floor of Eighty-Eight True Yang Building.

These floors would form on top of one another, finally forming the complete Eighty-Eight True Yang Building!

Back then, Giant Sun Immortal Venerable’s plan had been rejected by Long Hair Ancestor. Long Hair Ancestor was a refinement path supreme grandmaster, and thought of an exquisite plan with a different approach, refining the current Eighty-Eight True Yang Building.

Every time Eighty-Eight True Yang Building formed was a process of refining Gu once again.

It not only made use of the wild Gu in the small towers but also the Gu worms absorbed into it.

For example, looking at the sixty-eighth floor, Eighty-Eight True Yang Building first absorbed flying bear strength Gu and refined it, using the strength of the Gu to form the hundredth round.

Again, absorbing other strong Gu worms to form the ninety-ninth round. Following was the ninety-eight round, ninety-seventh…..

It was like building a high building, one must first build a strong foundation.

If there were not qualified Gu worms, then Eighty-Eight True Yang Building would replace it with Gu recipe, primeval stones, inheritance secrets and so on.

Everyone knew the harder the rounds in Eighty-Eight True Yang Building were, the more bountiful the rewards would be. Conversely, the more bountiful the rewards or stronger the Gu worms, the more difficult the round would be.

One could say every Gu worm assimilated into Eighty-Eight True Yang Building was a part of its structure.

Countless Imperial Court contests passed by while countless generations of sagely immortals had been probing before the workings of this mechanism of Eighty-Eight True Yang Building were finally discovered.

Originally, there were no flaws in this.

But with the passing of time, changes started to appear which created a loophole, allowing northern plains' Gu Masters to exploit it.

This loophole was in the aspect of 'refinement'.

Eighty-Eight True Yang Building plundered northern plains and absorbed Gu worms, ‘refining’ them and using their strength to form rounds.

What did Gu refinement rely on?

Will!

Back then, how did Fang Yuan refine the liquor worm?

By using primeval essence as a carrier for the Gu Master’s will to continually wear down the Gu worm’s will, until the Gu worm was filled with the Gu Master’s will, thoroughly turning into the Gu Master’s tool.

When Fang Yuan refined Gu, he had used Immortal Gu Spring Autumn Cicada to get the desired result at the least expense.

If the Gu worms differ by two ranks or more, there would be suppression. Fang Yuan used Spring Autumn Cicada’s aura to force the lower ranked Gu worm’s will to curl up at a corner, and then poured in his primeval essence and will straight into the Gu worm, swallowing the withdrawn Gu worm’s will.

Eighty-Eight True Yang Building was not a Gu Master, how could it refine other Gu worms?

Giant Sun Immortal Venerable, thus, intentionally left behind his will!

Giant Sun’s will!

Fang Yuan had seen Giant Sun’s will when he was refining the guest halt stele before. It was genuinely majestic and vast like the sun.

Comparatively speaking, the will Fang Yuan left behind after refining the guest halt stele was as minute as an ant.

Eighty-Eight True Yang Building refined Gu worms by using Giant Sun’s will.

Immortal Venerable were unrivalled, their wills were also similarly unrivalled and could easily extinguish other wills.

Thus, Eighty-Eight True Yang Building had never encountered any problems when refining Gu worms.

However, there was a problem.

Wills were formed from thoughts, if there was not a soul to act as the carrier, continuous thinking would only lead to unceasing consumption.

To resist such astonishing consumption, the will would often choose to hibernate.

When Fang Yuan entered Water Pavilion, Mo Yao's will which was stored inside had awoken from her hibernation.

Giant Sun's will might be vast as the Sun, but Giant Sun Immortal Venerable had passed away for countless years now; the will was gradually unable to resist the power of time and also chose to hibernate!

When Giant Sun's will went into hibernation, Eighty-Eight True Yang Building's Gu refinement speed slowed down.

This reduction in speed caused a loophole to appear in Eighty-Eight True Yang Building.

Chapter 594 - Plan activated!

Chapter 594: Plan activated!

Translator: ChibiGeneral Editor: ChibiGeneral

Strong winds blew and snow wreaked havoc.

Demon Blood Hill which used to have dark red grass growing all over was now a scene of whiteness.

The lofty hill also had surrendered to the power of ten year's blizzard, appearing weak as a baby.

Roar Roar Roar….

Enormous figures that were as tall as thirty feet, appeared and disappeared in the blizzard. These were monsters that only appeared during the blizzard — snow monsters.

These snow monsters were stronger the larger their size.

A thirty feet tall snow monster could battle a rank three Gu Master. Forty feet tall had the strength of a rank four Gu Master. And fifty feet tall had the terrifying power of a rank five Gu Master.

Following the blizzard, the snow monsters began to devastate the whole of Northern Plains.

They slowly converged together and attacked several surviving areas of Northern Plains, bringing destruction to the dying humans and living beings.

But there is a weakness to everything, snow monsters were snowmen's prey.

Snowmen could rapidly propagate by devouring snow monsters' meat and blood, even prolonging their lifespan.

Hei Bai and Hei Cheng stood on the summit of the Demon Blood Hill for a while.

Their black robes were exceptionally conspicuous in the white snowy land.

Beside them were corpses of hundreds of snow monsters. Unless snow monsters that had reached the height of sixty feet appeared, even in great numbers they could only be trash throwing away their lives when fighting Gu Immortals.

Hei Bai and Hei Cheng had already waited for a long time now.

Suddenly, Hei Bai's expression shook as he got a response, his sharp gaze looking at his left.

There, maelstroms of wind and snow started to form in the air.

Within a blink of an eye, they turned one by one into whole giant hands formed from wind and snow — flying snow hand.

After the enormous flying snow hands condensed completely, they grabbed at Hei Bai and Hei Cheng.

"Haha, we have been waiting for you." Hei Bai laughed brightly and flicked his finger repeatedly, sending out large numbers of rank five Gu worms.

Hei Cheng also made his move.

The enormous flying snow hands grabbed Gu worms and soon each of them clenched tightly. The snow hands crumbled apart while the Gu worms inside disappeared without a trace, captured tightly by a power that took them into Imperial Court blessed land.

Hei tribe's two Gu Immortals did not resist in the slightest and let the Gu worms be taken by the flying snow hands.

Such a situation lasted for a whole hour before all the rank five Gu worms were captured away. Hei Bai and Hei Cheng only then stopped, looking at each other with a smile before flying away rapidly, disappearing into the horizon in a blink of an eye.

“Support has arrived!” After some time, Hei Lou Lan got a response, his gaze burned as he gazed above at Eighty-Eight True Yang Building.

At the peak of the sacred palace, an aurora was shaking.

The sixty-eighth floor was still condensing with the hundredth round already being formed before. The still not formed sixty-eighth floor was only in its embryonic stage, the aurora around it continually shook like liquid, holding the large numbers of Gu worms captured just before from outside the blessed land.

A part of these Gu worms were wild Gu whereas a portion came from Hei Cheng and Hei Bai, two Gu Immortals.

Eighty-Eight True Yang Building chose the strongest among them to form the ninety-ninth round, ninety-eighth round….

Hei Lou Lan carefully sensed it for a while before slightly frowning: “The two from Hei tribes have already made their move but that Xue Song Zi is still biding his time, hmph!”

He had bribed Xue Song Zi to reach an agreement. One of the contents of the agreement was Xue Song Zi help him at a designated time period.

However, Xue Song Zi was not showing any signs of movement at present.

Hei Lou Lan was displeased, immediately sending a letter through a Gu worm.

Soon, he received the reply.

In the letter, Xue Song Zi complained about how the two Gu Immortals from Hei tribe were pressuring him these days and how his snowman business had taken a dive, already running at a loss. He also added how he had already supported Hei Lou Lan with many rank five Gu for wooden chicken Gu some time ago. And it was beyond his power to send support now.

“Lies!” Hei Lou Lan was furious, almost pinching this letter Gu to death, “There is indeed no one good in the demonic path, they all are treacherous and sly bastards.”

But soon, Hei Lou Lan’s anger subsided.

Truthfully, he had predicted this.

After all, he was only a mortal while Xue Song Zi was a lofty Gu Immortal. A mortal dealing with a Gu Immortal was like an ant negotiating with an elephant.

The two were simply not at the same level. If the Gu Immortal refused to acknowledge and reneged back on the promise, the mortal could do nothing about it.

Hei Lou Lan was secretly worried.

The sixty-eighth floor was in the process of condensing and the longer the time went by, the weaker the effect of a Gu Immortal’s support would be.

“It seems, I need to first obtain wooden chicken Gu to make Xue Song Zi help me!” Hei Lou Lan sneered, immediately sending an order to convene everyone.

Wooden chicken Gu was on the thirty-ninth floor of Eighty-Eight True Yang Building.

For months now, Hei Lou Lan’s efforts had been concentrated on this floor. He also had Xue Song Zi’s help, thus the progress was very smooth, succeeding in pushing to the last round.

Wooden chicken Gu was exactly the reward for this final round.

This last round; it was difficult in a sense, but it was also very simple.

What it tested was patience in putting in effort over a long period of time.

Hei Lou Lan had personally led people and attempted the round for forty to fifty times altogether, now already having grasped its details. Every time, he would progress slightly and the accumulation of such progress gave shocking results. He was only a paper-thin distance away from success.

“This is good too. Grasping this thirty-ninth floor would raise the morale for when we tackle the sixty-eighth floor.” Hei Lou Lan thought for a while and immediately took action.

The next day, he mustered large numbers of people, convening all the Gu Masters in the sacred palace, and held a pep rally.

That very evening, he led everyone and successfully broke through the hundredth round, obtaining rank six Immortal Gu Wooden Chicken.

Just like Hei Lou Lan expected, the breakthrough of the round raised morale and fighting spirit greatly, sweeping away the haze of Tai Bai Yun Sheng’s defeat.

With Immortal Gu Wooden Chicken, Hei Lou Lan’s confidence rose greatly and he used it to lure Xue Song Zi into helping him.

Seven days later, the sixty-eighth floor had completely taken form.

Hei Lou Lan impatiently led everyone to charge into the floor.

However, after arriving at the floor, he did not tackle the rounds anxiously, instead commanding the Gu Masters to spread out.

Over a hundred refinement path Gu Masters were included in the troops.

These people were all carefully selected and their loyalty could be trusted. Although they had not attained master level, they were elites.

The refinement path Gu Masters formed a round formation upon which Hei Lou Lan slowly walked into the center.

He sat down cross-legged and took out the two-edge owner token.

The two-edge owner token slowly flew into the air and at the same time, Hei Lou Lan's body also began to let out grey light.

The light rays were sharp as needles, piercing into the air.

Not only Hei Lou Lan, the remaining refinement path Gu Masters also let out sharp grey radiance.

These needle sharp light rays continued to strengthen, becoming thicker and longer, flooding the whole round formation.

The individual needle sharp rays started to touch each other, instantly linking together. A giant grey radiance slowly stretched out from the round formation, directly piercing into the two-edge owner token which was floating in the air.

Outside the round formation were large numbers of Gu Masters spectating this while guarding against emergencies.

“What are they doing?” A young Gu Master asked in confusion.

An aged senior beside him patted his shoulder: “Hehe, this is the ability of super tribes! Kid, watch properly, the next scene will make your eyes open and jaw fall down.”

As he was saying this, the owner token suddenly shook.

The tremor was weak, but following the dissemination of the giant sharp grey radiance, the scope of the tremor quickly increased.

By the time this tremor spread to the round formation, it had already become a heavy tremor.

The grey light rays condensed in the round formation like a light lake. From this heavy tremor, the lake suddenly erupted with dazzling light, forcing everyone to narrow their eyes.

The grey light shone on every corner of the first round's area.

Just like the melting of snow, the world in the round gradually started turning transparent before completely dissipating.

It was like a cover had been lifted, and as if the second layer underneath was revealed, Hei Lou Lan and the group arrived at the second round.

“This is?!”

“We actually passed the round without even making a move?”

After a moment of silence, many young Gu Masters started making a big fuss.

That young Gu Master from just before had eyes wide open and his jaw hanging down: “What in the world is this method?”

The aged Gu Master beside replied with satisfaction: “This is a refinement path killer move that all super tribes have — Grey Meltdown. It can be used to rapidly pass rounds in Eighty-Eight True Yang Building. Kid, the scope of your vision should have expanded, right?”

The young Gu Master whose vision was expanded, nodded his head nonstop and praised: “Amazing! Truly an amazing method! But, what do they need us for with such a method in their disposal?”

The aged Gu Master’s smile turned forced: “This method is not effective every time. Some rounds can be crossed with this method, while some cannot.”

“Tsk tsk, this trick is quite interesting…” In Fang Yuan’s mind, Mo Yao revealed her body.

Her posture was enchanting and her eyes had a hint of seduction. She mumbled to herself in an analytical way: “This should be digging into the hibernating will of Giant Sun’s control, attacking with coordination from both outside and inside. The Gu Masters outside the blessed land would release Gu at certain places, and these Gu worms would be absorbed into Eighty-Eight True Yang Building, refined into the rounds. But Giant Sun’s will is hibernating, so the speed in refining the Gu worms has become slower. At best, they could only be considered half-refined.”

“The so-called killer move grey meltdown uses the owner token to connect with the half-refined Gu worms. As such, the core of the round will be directly refined. The round will naturally not be able to continue anymore and switch to the next round."

"To do this, the crucial key is time. The state of the half-refined Gu won't continue for long. Even if Giant Sun's will is hibernating, as long as there is sufficient time, it will completely refine these Gu worms. In the case that these Gu worms are refined, the Gu Masters tackling the round cannot induce any reaction and the chance to forcibly refine them would be thoroughly lost."

"Hehehe, you are indeed a refinement path grandmaster, being able to analyze so thoroughly with just a glance." Fang Yuan laughed in his mind, not stinting on his praise towards Mo Yao.

To speak bluntly, this method was fighting with Eighty-Eight True Yang Building to refine the Gu worms.

If Giant Sun's will was awake, the Gu worms would be refined instantly, not leaving behind any opportunity.

But it was hibernating now, the refinement had become slow and as such, there was a loophole that could be used.

Fang Yuan was from the future, thus he knew this clearly.

In his previous life, after central continent's Gu Immortals had broken through Imperial Court blessed land, they had shown this method in the image clips they had disseminated everywhere.

But this method could only be used as support.

What central continent's Gu Immortals truly relied on was still the glass owner token.

This secondary owner token could be considered a divine treasure! Who knew how much energy and resources central continent's forces had to spend for it, and now it was in Fang Yuan's possession, raised to six edges.

Taking advantage of everyone concentrating on the second round, Fang Yuan secretly took out the six-edge owner token.

He stroked the six edges of the owner token and sighed, muttering inwardly: “Such a long time of planning and now it is finally time for the plan to begin in full. Flying bear strength Gu with my flying bear phantom Gu, isn’t that what it should be? Hehe, I also think so.”

With that and a thought in his mind, he instantly grasped control over this floor!

Chapter 595

Chapter 595: Green vines blocking the round, Fang Yuan's backstab

Translator: ChibiGeneral **Editor:** ChibiGeneral

Hei Lou Lan gazed ahead at the troops making slow progress in the dense jungle.

The intense battle had already lasted for over six hours.

This was the second round; the weather here was hot and damp, and the terrain was a vast ancient rainforest.

To cross this round, Gu Masters needed to traverse through the whole jungle and reach a stone palace at the other side.

However, this jungle could not be taken lightly.

There might not be any beasts in the jungle but it was full of green vines.

These green vines were coiled around tall trees and piled up on the damp ground. Every green vine had the thickness of a king-sized bowl and length of seventy to eighty feet in the minimum.

The common green vines among these were called green snake vines which had snake scales growing all over their surface. And when Gu Masters neared them, the vines would suddenly move and coil around the Gu Masters, constricting them to death.

In every one hundred paces of the rainforest, there were about a thousand green snake vines, filling the whole area.

The difficulty in progressing forward was thus extremely high.

The whole journey was filled with green snake vines attacking from all sides; some shot down from sky, some creeped through the ground and some ambushed from under the ground, causing the group to struggle and not be able to defend properly.

The group's progress was met with attacks from the green vines at all times, seemingly like they were among an ocean of green vines.

The green vine had powerful attacks and quick speed. Even more dangerous were the wood path Gu worms that lived on their bodies. It was precisely because of these Gu worms that the group had suffered huge casualties.

"Reporting, we have discovered a green snake vine king ahead. Currently, Lord Ye Lui Sang is already in a fight with it." After a while of moving forward, an investigative Gu Master returned from the front group to report to Hei Lou Lan.

Hei Lou Lan nodded, still continuing with his slow movement.

In every group of green snake vines, there was a green snake vine king which had the battle strength of a rank four Gu Master.

However, Ye Lui Sang was a rank five peak stage expert, the current tribe leader of the super force Ye Lui tribe, and the fire path he cultivated subdued wood path Gu worms completely. There was also the fire path support type Immortal Gu on him, taking care of a green snake vine king was a cinch.

Sure enough, after a while, the report of victory came from ahead: "Lord Ye Lui Sang has eliminated the green snake vine king and has now retreated from the front lines. Lord Chang Shan Yin has switched with him and is leading the wolf group to open the path."

"Okay." Hei Lou Lan lightly replied.

Wolves were good at offense and not at defense, and were not a good match for the vines. But Chang Shan Yin had defense specialized wolves like turtleback wolves. He also had vermillion fire wolves upon which lived fire path Gu worms. In this situation, they were a sharp weapon to cut open the path.

‘Wolf King is truly powerful, he can even be said to have the number one battle strength. Especially when he also has the flying bear phantom Immortal Gu, a mere minor round cannot obstruct him.’ Hei Lou Lan pondered while walking.

‘Flying bear phantom Gu and flying bear strength Gu, if the two are paired up, that would be perfect. Hmph, I will first make Chang Shan Yin pour in his utmost effort for me and when the time is ripe, I must make him hand over that flying bear phantom Gu! As long as I become a Gu Immortal, wouldn’t a mere Wolf King be mine to toy with?”

‘This second round seemingly tests the Gu Master’s strength in doing prolonged battles, but more than that, it is actually testing investigative ability. In this jungle, there are not only the green snake vine groups, but also green dragon vine groups. Green dragon vines are dozens of times more terrifying than green snake vines, they are mutated beings among plants! The path we took avoided these green dragon vines as much as possible. There are only one or two territories of green dragon vines in this path, and presumably there will be one or two tough battles, and that will be the greatest difficulty of this round.”

Hei Lou Lan felt proud: ‘We are getting closer to the finish line, at this speed, we will cross this round in an hour!”

He had just thought of this when suddenly a change occurred.

Swish swish….

The green snake vines around the group suddenly penetrated the air with terrifying speed, even producing sonic booms!

The offense of the vines had suddenly increased by dozens of times.

The previous battles were the ones where the Gu Masters fought with the green snake vines nearby while the vines outside the range stayed still.

But now, the green vines within a hundred li, no, a thousand li, were engaging in the battle, surging out crazily like a tsunami as they pounced towards the Gu Masters.

The Gu Masters were caught unprepared, immediately suffering heavy losses. Countless Gu Masters were killed within a few moments of time.

“How could this happen? The green snake vines are rioting all of a sudden!” The experts shouted in fright.

“Someone, save me quickly!” Surrounding Gu Masters were wantonly constricted and twisted apart by the green vine group.

“I command all troops to attack, hold them off no matter the consumption! If we can’t hold them back, it will be our death!!” Hei Lou Lan shouted and rose to the air, attempting to control the situation.

Soon, a hundred or so green dragon vines rose to the sky, charging towards him.

Hei Lou Lan gave a shout of fury and used his dark path abilities, killing twenty to thirty green dragon vines instantly before moving towards the ground.

But the ground was also not safe, countless green snake vines and green dragon vines broke through the soil, trapping the entirety of the troops.

“How can this be? The scouting had been done properly, how could we encounter a green dragon vine group here?” The corners of Hei Lou Lan’s eyes were threatening to tear as he could not make sense of this no matter what!

Green vines were strongly territorial. But as long as one does not encroach upon their territory, they would remain still and not take the initiative to attack.

These green vine groups, however, had completely gone crazy, pouncing upon the Gu Masters like they had killed their father.

Green vines possessed strong vitality and even if they were cut into five to six parts, these five to six parts could still attack before dying. Hei Lou Lan even saw many green dragon vines struggling free from their root systems, and flying out to attack.

‘This, how is this possible? What the hell is happening?!’ Hei Lou Lan could not make sense of it no matter how he thought. By cutting off their own roots, these green dragon vines were looking for their own death.

All living things possessed survival instinct.

How deep a hatred was it for them to erupt in such bitter suicidal attacks?

The large army was broken apart, each fighting for themselves while slowly starting to retreat bit by bit; in a moment, many youths lost their lives.

“Could it be this second round is actually a giant trap?! This is too strange, this is only the second round, how could its difficulty be so high?!” Hei Lou Lan was dumbstruck, a huge doubt rising in his heart.

This was indeed a huge trap.

But the one who laid this trap was not Eighty-Eight True Yang Building but the one in control of this floor – Fang Yuan.

He had been patient, ordering the green vines everywhere in this round to stealthily move here. He then accepted the command to participate in the front line and switched with others from time to time, intentionally lowering the speed of progress to stall for time.

When large numbers of green vines had gathered, Fang Yuan immediately ordered a surprise attack without any hesitation.

The Gu Masters suffered disastrous losses because of the ambush!

Fang Yuan was an enslavement path master; the green vines which had lower intelligence than beasts, coordinated together under his control, and disregarded their own lives to burst out with a hundred times their normal strength!

Especially for the experts like Hei Lou Lan, Ye Lui Sang and Tai Bai Yun Sheng, he had paid even more attention and mobilized green dragon vines which were comparable to mutated beasts, to obstruct them.

“Retreat, retreat quickly.”

“There are green vines everywhere around us, if we continue on, the casualties will become even more severe!”

“Lord Hei tribe leader, my tribe leader requests to retreat!”

Several large tribes hurriedly sent their representatives.

Anyone could see they had landed into an ambush by the green vine groups. How could the green vines become so sinister? Right now, no one had the time to tackle this issue.

Hei Lou Lan fiercely gnashed his teeth, his face showed a struggling expression several times before he squeezed out a word: “Retreat!”

He also knew the situation was already out of control, the green vines were charging without fearing death and had already led the formation to turn chaotic. And the experts were not able to fight properly for the fear of hurting their own men.

If they suffered such serious casualties in the second round, then how could Hei Lou Lan have the power to seize the Immortal Gu in the last round?

Retreat was naturally a wise move, but it would depend on whether Fang Yuan would allow it.

He was in control of this floor, sealing the exit and entrance was only a small thing.

Soon, everyone made a terrifying discovery – they could not leave!

This discovery was huge blow on the morale.

The whole army seemed to be about to crumble apart.

At the crucial moment, Hei Lou Lan felt the situation going awry and stood up, his voice spreading everywhere: “All of you, persevere. I will use the killer move grey meltdown to forcibly cross this round. If we persevere, we will win, we will survive!!”

The despairing Gu Masters heard these words and felt like they were drowning men who had found a life saving straw.

The morale that had fallen to the bottom did not crumble in the end and instead stabilized.

Everyone again started fighting, opening a path and forming a tight and connected formation.

Under the heavy protection from all the troops, Hei Lou Lan led a group of refinement path Gu Masters to form a round formation and began to use the killer move grey meltdown.

“Lord, if we forcibly activate it, we will probably lose thirty percent of our men.” An old refinement path Gu Master who was familiar with the inside information advised Hei Lou Lan with a pale face.

The killer move grey meltdown naturally had its limitations.

This killer move relied on the coordination of the inside and outside; this required the reward of the round to be Gu worms deliberately provided by either Hei tribe’s Gu Immortals or Xue Song Zi.

But Eighty-Eight True Yang Building would not coordinate, it only chose the suitable Gu worms from those absorbed and refined them to form the rounds.

The first round’s reward were Gu worms that came from Hei Bai. Thus, Hei Lou Lan could use the killer move grey meltdown to exploit Giant Sun’s will still not having fully refined the Gu worms, to forcibly refine them. Like this, he would get the reward and pass the round.

But the second round's Gu worm reward was wild Gu. Hei Lou Lan was unable to connect with these wild Gu and the killer move grey meltdown could not be used.

The second round could only in accordance with this be completed by going through its requirement.

But the current situation was critical, Hei Lou Lan was left without a better option but to forcibly activate killer move grey meltdown to skip through the second round and connect to the Gu worm reward of the third round.

The third round's Gu worm reward came from Xue Song Zi. The Gu worm was only half-refined, thus still contained most of Xue Song Zi's will.

As Hei Lou Lan was working together with Xue Song Zi, Xue Song Zi's will approved him. He could thus use grey meltdown to connect to the third round's reward and refine it.

As such, the third round would be passed. And when the third round is crossed, the second round would have no foundation, collapsing apart. Because when Eighty-Eight True Yang Building condensed each floor, it would first form the hundredth round, then ninety-ninth round, ninety-eighth round….

However, if Hei Lou Lan did so, the killer move grey meltdown's power would increase by several times, far surpassing the amount these refinement path Gu Masters could bear.

Whether it was success or failure, a portion of the refinement path Gu Masters would not be able to bear it and die.

"Tens of refinement path Gu Masters dying is better than the whole army dying!" Hei Lou Lan gritted his teeth, his eyes filled with chilly and cruel light. The situation had forced him to choose the lesser of the two evils.

The old Gu Master did not say any more and retreated back to the formation.

Chapter 596

Chapter 596: Preparations from long ago, Mo Yao's shock and suspicion

Translator: ChibiGeneral **Editor:** ChibiGeneral

The refinement path Gu Masters had solemn expressions while quickly moving into formation. Grey rays of light gradually blossomed and merged into one.

Under everyone's expectant gaze, Hei Lou Lan waved his hand and threw the two-edge owner token into the air.

The owner token floated in midair, and the giant grey radiance which had been condensed in the round formation shot towards the owner token.

The grey radiance was so dazzling that one could not look at it directly.

"Haha, this is the moment." Fang Yuan had been observing this from the outside, and sent a thought at this time.

The two-edge owner token immediately disappeared, landing in his hand the next moment.

He was in control of this floor, teleporting a small owner token was as simple as breathing.

Without the owner token, the grey radiance immediately collapsed and the killer move grey meltdown forcibly ended; the refinement path Gu Masters in the round formation gave a frightened howl, puffing out blood, with almost all of them dying from the backlash in that instant.

Spurt.

Hei Lou Lan, who was in the center of the formation was no exception to this, spurting out a mouthful of blood and retreating back several large steps like he had received a heavy impact.

“My owner token!” He lost his self control and howled with an extremely shocked, angered and doubtful expression.

Everyone was also stupefied by this change.

Sun Shi Han was baffled, Tang Miao Ming covered her mouth and Pei Yan Fei was also despondent.

Even Mo Yao’s will was raving in Fang Yuan’s mind: “Brat, what did you do? His owner token has no more than two edges now. Adding in your six edges, it is only eight edges! What are you in such a hurry for? Wouldn’t it be good if you had waited for his owner token to rise to four edges?!”

“You don’t know shit.” Fang Yuan sneered and under the cover of his large sleeve, calmly put away the two-edge owner token.

The whole process happened under the bystanders’ gazes, but it was completed in total secret without incurring any suspicion.

“This, what the hell happened!” Ye Lui Sang rushed towards Hei Lou Lan with a fretful expression and asked, “Where is the owner token?”

“I… how would I know!!” Hei Lou Lan’s eyes seemed to shoot out flames of anger, his voice raised an octave higher as he burst out with foul language, “What the f*ck happened?!”

In the past records of history, there had never been a situation where the owner token suddenly disappeared!

Grey meltdown had been used so many times by all the large forces and the winners in the past, how could it suddenly fade away in Hei Lou Lan’s hand?

“Damn it, how do we go on without the owner token?” Fang Yuan also hurried over at this moment, his brows were furrowed into a knot and he had a genuine and heavily anxious expression, making others sympathize with him.

The killer move which everyone had placed high hopes on failed at the crucial moment. The two-edge owner token was also inexplicably lost.

The green vines’ offensive was becoming more fierce like a flash flood, not giving anyone the time for a breather.

Morale had fallen to the abyss and many started fleeing in disorder.

“It’s over, we are done for.” Xi Xue mumbled.

“Will I die in this place? Is this the final ending?” Tai Bai Yun Sheng laughed bitterly. In this recent period, he was being tormented by his conscience and his body looked extremely weak and thin.

However, the next moment, someone shouted in joy: “We can leave, someone left! We can leave!!”

Fang Yuan did not want to get rid of all these people in one go and left a lifeline, allowing the Gu Masters to freely enter and exit this floor.

If Hei tribe was completely annihilated, he would definitely attract the all-out revenge of Hei tribe’s Gu Immortals.

Moreover, Fang Yuan still required Tai Bai Yun Sheng to refine landscape as before Gu.

Therefore the collapsed and despairing army started retreating.

“I am actually alive!”

“This time was too terrifying, I don’t want to enter there again.”

“Boo hoo hoo….father, you died so miserably.”

The plaza around the True Yang Building became a scene of gloomy misery.

Hei Lou Lan had convened a large army and entered the tower with grand and vigorous momentum, but such a change while leaving the tower was beyond the expectations of almost everyone.

Hei Lou Lan's expression was ashen as he glanced at the plaza before leaving without any words.

Hei tribesmen followed behind him, silent and heads lowered.

Ye Lui Sang heaved a long sigh and shook his head, leaving the plaza.

Tai Bai Yun Sheng had a complex expression as he looked at Hei Lou Lan's receding figure: "After this expedition, it will probably be difficult to form a presentable party within a short period of time."

Tai Bai Yun Sheng was wrong.

The very next day, Hei Lou Lan again formed a large army and attacked the second round.

So what if he lost the owner token?

Even if he could not use grey meltdown, he could use brute force to pass the round!

Hei Lou Lan had deceived two great Gu Immortals in his pledge to take revenge; he could no longer turn back.

He must force himself to continue on!

However, during the night of the defeat, Fang Yuan had quietly entered Eighty-Eight True Yang Building.

"You are too impatient, you now only have eight edges. What can you do now!" Mo Yao sneered in his mind.

Fang Yuan walked slowly along the secret treasury corridor while gently touching the crystal wall, looking on as treasure after treasure swept past his gaze.

He had a slight smile on his face, replying calmly to Mo Yao's will: "You are an impressive refinement path grandmaster, a fairy of Spirit Affinity House, just speak clearly if you want to ask, why probe so superficially?"

Mo Yao heard this and immediately changed her expression, smiling coquettishly: "Young man, looks like you already have a plan…"

"That goes without saying." Fang Yuan's steps paused and he lightly stroked the right crystal wall, taking out a treasure stored within.

Ever since he had refined the guest halt stele, he could take out any treasures around this distance.

Fang Yuan walked a few steps further and took out three Gu worms on top of that.

He then moved to the left crystal wall and took out the objects within.

As this went on, Fang Yuan had taken out tens of Gu recipes, over a hundred Gu worms, all kinds of information on inheritances and over twenty documents on cultivation insights.

Fang Yuan kept around eighty of the Gu worms outside while sending the rest into storage Gu worms.

Mo Yao had observed the whole process quietly, getting more curious as time went on. These Gu worms that Fang Yuan left out here did not match together, she really could not tell what he was doing.

The video of central continent's Gu Immortals attacking Imperial Court blessed land in his previous life appeared in Fang Yuan's mind.

There were altogether eleven Gu Immortals who attacked Imperial Court blessed land, men and women, each with extraordinary presence.

A female immortal was the leader, a domineering aura lingered around her which pressured people; other Gu Immortals were cautious and respectful towards her.

She was known as Fairy Black Moon. A half-mask covered her nose, mouth and cheeks, only revealing the upper half of her face which showed her strong contours, sharp and long brows, bright eyes and a heroic aura. A dark gold armor covered her whole body, bringing a heavy feeling of suppression on any that looked at it.

Fang Yuan's current actions were replicating Fairy Black Moon's actions to the smallest details.

The treasures he took out were actually of great background. Countless years back, central continent's Gu Immortals sent outstanding Gu Masters to infiltrate into northern plains; the Gu Masters would pass some rounds with high grade evaluation, entering the treasure room and arranging these treasures here.

The whole process consumed close to a millenium.

Fang Yuan walked past the guest halt stele, and walked over three hundred steps into the long crystal corridor before stopping.

"It is here." He looked around him and after confirming it, began to put the Gu worms he had taken earlier into the crystal wall. Whether it was left or right, top or under his feet, they were placed in a certain pattern.

As for the original treasures within the crystal wall, Fang Yuan took some, left some and shifted the position of some.

"This, could it be…." Mo Yao was bewildered; she had been watching carefully and had gradually inferred some clues with her refinement path grandmaster attainment.

In the range of tens of steps, after Fang Yuan's adjustments, the Gu worms in the crystal wall had ingeniously formed a formation.

"Right, this is precisely the refinement path killer move grey meltdown. No, to be even more exact, this killer move originates from grey meltdown but its effects are much stronger!" Fang Yuan chuckled.

"What in the world are you trying to do?" Mo Yao asked.

Fang Yuan’s gazed eerily, a confident smile appearing on his face: “Just watch.”

He then sent out several Gu worms which floated in the air.

The Gu worms in the surrounding walls started to shake slightly one by one.

Dust seemed to rise up in the air.

The dust gradually became denser till it formed a thick grey fog.

The grey fog kept on accumulating and soon entirely submerged Fang Yuan; he could not even see his own hands.

Fang Yuan stood within the grey fog with his eyes closed and his right hand clutching the six-edge owner token, as he tried to carefully sense something.

Suddenly, he opened his eyes and shouted: “Come back, Fixed Immortal Travel!”

Rumble!

The crystal corridor shook strongly and Eighty-Eight True Yang Building had a sudden tremor.

The twenty-first floor where seventeen rounds still remained, disintegrated into nothingness.

The rewards for the seventeen rounds penetrated through space and appeared before Fang Yuan.

Among them, one Gu worm was dispelling a rank six aura, shining with a green gem-like luster, and flying elegantly like a green jade butterfly.

Its powerful presence pushed the rest of the Gu worms to the side.

What else could it be but Fixed Immortal Travel?

“Immortal Gu! This is Fixed Immortal Travel?!” Mo Yao blurted out.

Fang Yuan stored the other rewards into storage Gu worms while the Immortal Gu Fixed Immortal Travel was left outside, sitting on his shoulder.

Immortal Gu Fixed Immortal Travel was a rank six Gu and at its peak state, his mortal aperture could not store it.

Fang Yuan had not stored flying bear phantom Gu either, instead directly holding it in his pocket.

“There is one more.” Fang Yuan licked his lips in excitement.

Another explosive sound rang out.

Eighty-Eight True Yang Building shook greatly, the twelve remaining rounds of the thirty-fourth floor were immediately passed!

The rewards appeared in front of Fang Yuan out of thin air and one Gu among them, an Immortal Gu that looked like nothing special, just like a lump of earth, it was —

“Immortal Gu Gruel Mud!” Mo Yao’s will blurted out the name.

Fang Yuan laughed and stored the other rewards while putting the Gruel Mud into his pouch.

Back then, he had buried Fixed Immortal Travel and Gruel Mud deep under the ground, waiting for this precise moment.

When Eighty-Eight True Yang Building condensed, it plundered the whole of Northern Plains. This was the arrangement of an Immortal Venerable, his might extended up into the heavens and down into the abyss, nothing could stop his overwhelming force.

Immortal Gu Wooden Chicken had escaped the pursuit of Xue Song Zi and Hei Bai, but was still captured by Eighty-Eight True Yang Building in the end.

The wild Immortal Gu ended up like that while Fang Yuan’s meticulously buried Immortal Gu did not even have the will to resist, and were naturally collected by Eighty-Eight True Yang Building.

After the capture, they were placed separately as the last rewards for the twenty-first and thirty-fourth floor. But due to Giant Sun's will being in hibernation, the two Immortal Gu had all along been in a half-refined state, just as Fang Yuan had planned for.

“Brat, who in the world are you? Hmph, this is not a small arrangement. You were actually able to mobilize two Immortal Gu. Tell me, which region are you from, which force sent you here?” Mo Yao was unable to hold back after she saw this, and began to ask questions after questions.

Chapter 597

Chapter 597: True Inheritance Secluded Domain, Unexpected Event

Translator: ChibiGeneral Editor: ChibiGeneral

The appearance of two great Immortal Gu was way out of her expectations, Mo Yao was very surprised.

What was even more scary was, Fang Yuan had made ample preparations!

The Gu worms he used were originally treasures kept inside the crystal walls. His killer move was even more perfect than grey meltdown, and had stronger effect.

To get to this point, it was not something a single person could achieve, in fact, this could not be achieved with merely decades of set up. Huge amounts of strength and effort needed to be invested, at least hundreds of years of infiltration in order to hide all the Gu worms inside the crystal walls, and to prevent the Gu worms from being taken away by people, they needed to prepare several of each Gu.

All in all, this was not something a person or an ordinary force could accomplish, it had to be a super force with Gu Immortals at least!

Against Mo Yao's suspicion, Fang Yuan smiled lightly and did not speak.

All these were the set up of central continent's Gu Immortals. But Mo Yao had died long ago, her will was slumbering within Water Pavilion and was unaware of the changes in the outside world.

Fang Yuan was someone who had been reborn, he had a huge advantage, using the Gu Immortals' set up, he could accomplish all of this successfully!

To speak the truth, he should thank those central continent Gu Immortals who went around to distribute the footage.

Without the guidance of this clip, Fang Yuan would not be so sure of the inside information of Eighty-Eight True Yang Building.

His method was inherently the same as Hei Lou Lan's, but Fang Yuan was sensing his own Immortal Gu, while Hei Lou Lan was sensing other people's mortal Gu.

Refining an Immortal Gu was at least a hundred times as difficult as refining a mortal Gu, thus, Fang Yuan was not in such a rush for time unlike Hei Lou Lan. The two Immortal Gu were constantly in a state of half-refinement.

Most importantly, the refinement path killer move that Fang Yuan activated was the revised version of grey meltdown that central continent's Gu Immortals had painstakingly researched in, it had an amazing effect, freeing the Gu Master and saving them the trouble of facing backlash as Eighty-Eight True Yang Building would be the one enduring the pressure.

At the same time, he had to thank all of the Gu Masters who charged through the rounds enthusiastically. If the rounds were intact, Fang Yuan would need to traverse a hundred rounds to communicate with the Immortal Gu, it would be filled with difficulty.

But there were only seventeen rounds left on the twenty-first floor, and the thirty-fourth floor had even fewer rounds, at twelve.

After Fang Yuan successfully took the two Immortal Gu, these two floors were passed automatically.

He took out the two owner tokens, the glass owner token was still at six-edges, after all it was a cheat item and was not authentic.

Meanwhile, the owner token snatched from Hei Lou Lan had turned from two-edges to four-edges.

Combining the two, they were — ten-edges!

Ten-edges, that meant that Fang Yuan had met the minimum requirements to receive an Immortal Venerable Inheritance.

“Immortal Venerable Inheritance…” Fang Yuan chuckled, according to what was shown in the footage, he combined the two owner tokens and created the ten-edge owner token.

Swoosh.

The next moment, he vanished on the spot.

The scenery before him changed drastically, when Fang Yuan finally reacted, he found himself in an area of void.

The surroundings were pure darkness, there was neither heaven or earth, Fang Yuan was floating silently in the air.

Several traces of green or red starlight shone from far away.

“This is Eighty-Eight True Yang Building’s true inheritance secluded domain, to think that after so many years, I can come here again!” Mo Yao’s will was surprisingly dejected and downcast, as she muttered to herself.

“Eh? You’ve been here before?” Fang Yuan’s heart jumped.

“Back then… hmph, I’m not going to talk about it. It is your greatest fortune to be able to come here! Although with ten-edges, you can only receive the lowest grade ordinary true inheritance. But this will not hinder you from gaining some knowledge and experience. What you are going to see will surely broaden your vision, you will never forget it!” In just a moment, Mo Yao’s will went back to normal.

Fang Yuan laughed, Mo Yao’s arrogant tone did not make him angry, in fact he nodded in agreement: “Giant Sun Immortal Venerable, I cannot compare to him yet! Today, this will indeed hugely broaden my vision.”

Saying this, he waved his hands like he was swimming in water, moving his body forward slowly.

In the video from central continent in his previous life, there were many details omitted during this period.

Central continent's Gu Immortals invested more heavily than Fang Yuan, they used more than ten Immortal Gu to raise the owner token to forty-three edges.

They gained a lot, but all of the gains were concealed, such an act was no doubt a defensive measure to prevent attracting the greed of the viewers. This, however, increased Fang Yuan's interest and anticipation towards Giant Sun's true inheritances.

He followed after a blood red starlight, getting closer to it.

As he got closer, the starlight became brighter, and eventually, Fang Yuan stopped before a round circular light.

This lump of red starlight was the size of a bowl, silently floating around.

"This is an ordinary true inheritance, if you want to understand the contents, you just need to let your consciousness enter it." Mo Yao advised at the appropriate timing.

Fang Yuan was carefully navigating with his mind, as images flashed before him.

A grand and huge ancient forest!

Ancient and tall trees, beasts at the size of mountains!

"Hahaha!" A person with a broad shoulder and thin waist was laughing with his head facing up.

His image was blurred, but his skin was covered in rainbow colors, as ancient totems of every description were carved on it, his dominating presence pervaded heaven and earth!

He stepped on the grey clouds and treaded strong winds, his purple hair was fluttering as there were seemingly flames burning within his double pupil eyes.

Fang Yuan saw this and his heart was pounding, he could feel difficulty breathing. He recognised this person immediately: “This is one of the three Demon Venerables of the olden antiquity era, Reckless Savage Demon Venerable! He is facing the immemorial desolate beast — Primordial Ash Owl! Strange, why is there a Demon Venerable’s item within Giant Sun’s inheritances?”

“What’s so strange about this? Giant Sun Immortal Venerable was the venerable of an era, the supreme ruler of heaven and earth, the invincible being in the universe. He searched the entire world and obtained an item of Reckless Savage Demon Venerable, placing it inside his building for his descendants, this is very normal.” Mo Yao said.

Immemorial desolate beast, overlords that had existed within heaven and earth since the immemorial era, they had rank eight Gu Immortal battle strength.

This primordial ash owl had a bird head and beast body, it had two pairs of golden pupils and a dragon’s horn on its head. Its muscular body was covered in thick rainbow feathers, its bestial aura could overwhelm the world.

Its limbs moved quickly, and could easily destroy mountains and rivers. With one growl, its voice could travel ten thousand li, causing ripples in the air of the entire world.

Reckless Savage Demon Venerable praised: “Good beast!”

The primordial ash owl had intelligence that could rival men, it got angry upon hearing that, shooting out thunder like that of the heavens from its mouth, the blue thunderbolt shot out and pierced ten thousand li into the sky, instantly arriving before Reckless Savage Demon Venerable.

Fang Yuan’s expression changed, the magnitude of the lightning and thunder was beyond his imagination! Right now he was like an ant, but even if it was his Gu Immortal self from his past life, he could not survive for three breaths’ time from this!

But Reckless Savage Demon Venerable did not move at all, he allowed the frenzied thunderbolt to hit his body directly.

From within the electricity, his bronze colored body was intact, shining brightly. His muscles were like stone blocks, and all the totems on his body were like living beings, as all sorts of fierce beasts were roaming on his body.

From within the exploding lightning plasma, Reckless Savage Demon Venerable's face showed an expression of enjoyment. He laughed heartily as he punched with his right fist.

Bam — !

Immediately, heaven and earth changed colors, as winds and clouds moved violently.

The lightning vanished slowly, mountains were trembling, and forests were weeping.

With just one punch, the intense winds blew like an apocalypse, the clouds in the sky vanished, the heavens were stripped bare, and permeating sunlight dispelled all darkness!

Just one punch.

With the intensity of the force that repelled ghosts and deities, the primordial ash owl was crying out pitifully!

It was an immemorial desolate beast, an overlord of a region, it was untamable and wild earlier, giving off a strong aura, but the next moment, its bones were crushed to bits as its rainbow feathers floated in the air, its golden pupils were full of fear and it laid on the ground, like a dead dog.

Fang Yuan was completely moved, this was the first time he had seen the attack of a venerable.

Reckless Savage Demon Venerable, with the prowess of rank nine, he was truly invincible in all heaven and earth!

“Nine thousand nine hundred and ninety-ninth ash owl.” Reckless Savage Demon Venerable said plainly, opening his palm and grabbing the air.

The next moment, the primordial ash owl was held by a formless strength. It was like a chicken that was grabbed by a butcher, it was helpless and was shrieking for help.

“Transform.” Reckless Savage Demon Venerable’s body shuddered, he expanded along with the wind, becoming a giant in an instant!

What a true giant.

He was as tall as heaven and earth, as if he could grab the sun if he wished. No tribulations could move him, as he could barely be held by the universe itself!

The giant slowly opened his mouth, as the primordial ash owl struggled intensely, and yet to no avail as it was sent into the giant’s mouth.

The giant swallowed in one mouthful, chewing several times with a sound as if a mountain collapsed, lightning striking everywhere, it was loud as thunder.

With a gulp, the giant sent the primordial ash owl into its stomach.

He actually ate an immemorial desolate beast, a rank eight level existence, just like that.

The prowess of Reckless Savage, it was truly terrifying!

After eating this rank eight desolate beast, the giant patted his stomach, the sound was loud as thunder but his expression was like he did not have enough.

And on his belly, there was a new totem, in the form of the primordial ash owl, but among the innumerable totems on his body, it was not eye catching.

The giant seemed to have sensed something as he suddenly turned around and looked straight at Fang Yuan!

Urgh!

Fang Yuan fell on the ground like he had suffered a huge blow, vomiting out a mouthful of blood in the process.

His soul was trembling intensely, a strong sense of dizziness assaulted him, only recovering after a long time.

Gasp, gasp, gasp…

He breathed roughly, barely opening his eyes.

His eyes could not take it either, as two streams of bloody tears flowed out, flowing from his face towards the ground.

But thankfully, this place did not restrict Gu worms, such an injury could be easily healed with Gu worms.

“This is the test of the inheritance?” Fang Yuan healed himself as he asked.

“Hehehe, what sort of test is this?” In his mind, Mo Yao was gloating, replying in an arrogant tone: “This inheritance has a trace of Reckless Savage Demon Venerable’s will within it, only Gu Immortals could withstand it. But after getting this inheritance, Giant Sun Immortal Venerable had already modified it such that mortals could endure it. You owe it to Giant Sun Immortal Venerable’s mercy that you are still alive.”

Fang Yuan snorted coldly: “His mercy is only towards his bloodline descendants, what does that have to do with me? Anyway, Giant Sun true inheritances are not so easy to obtain, there is great danger inside.”

“That is of course the case. But you have already survived this test, and remember that this true inheritance is only an ordinary true inheritance. With the ten-edge owner token, you already have the authority to inherit it.” Mo Yao said.

As expected, when Fang Yuan’s mind entered, the red light lump opened its ‘doors’, as Reckless Savage Demon Venerable’s figure did not appear again.

“Primordial ash owl transformation…” Fang Yuan realized now that this was a transformation path killer move. This killer move could allow a Gu Immortal to transform into the primordial ash owl, gaining a huge boost in strength.

Reckless Savage Demon Venerable was the progenitor of strength path, but he was also the creator of transformation path.

His strength could shake heaven and earth, he was the fiercest venerable out of the ten. At the same time, he could transform into countless fierce beasts, having an endless number of transformations, and he could even revive from a drop of blood.

Fang Yuan did not hesitate, he let go of the red light lump and allowed it to fly away from him.

Although the true inheritance was precious, it did not suit him currently.

Fang Yuan was very calm, and held even more expectations.

To think that within Giant Sun's true inheritances, there would be something involving Reckless Savage Demon Venerable, and this particular inheritance was only the lowest grade ordinary true inheritance.

He could not imagine what other ordinary true inheritances there could be. As for the even greater unparalleled true inheritance, what would they be?

He moved his arms, and swam towards another area within this silent and dark void.

Chapter 598

Chapter 598: Three Olds, Three True Inheritances, Using Will
Translator: ChibiGeneral Editor: ChibiGeneral

Fang Yuan worked hard to swim towards a jade light.

This lump of jade light was harder to get closer to compared to the red light from before.

It was flying slowly, continuously twisting and turning, as Fang Yuan chased after it for a while before managing to grab it.

It was also as large as a bowl, and Fang Yuan's consciousness carefully entered it.

An unspeakable force of vibration spread from the jade green light into Fang Yuan's body.

"Be careful, this is Old Immortal Kong Jue's item!" In his mind, Mo Yao's will recognised this item and warned.

"Don't worry, it cannot escape!" Fang Yuan's tone was certain, he grabbed onto this light lump tightly.

"Idiot, I am not referring to that. Quickly let go." Mo Yao said this, but it was already too late.

The mystical vibration spread from within the jade light, all the way into Fang Yuan's aperture.

Fang Yuan's aperture started vibrating.

In his ninety percent filled aperture sea, waves were crashing violently.

Swish swish swish…

The huge waves crashed on the surrounding aperture walls, the rank five peak stage crystal clear walls were starting to develop cracks from the pressure of the waves.

Fang Yuan was shocked!

This true inheritance's test was very peculiar, it was hard to defend against, it actually directly affected the Gu Master's aperture.

"Lad, quickly cut off your arms using Gu worms. Only by making a sacrifice can you save your life!" Mo Yao's will shouted in Fang Yuan's mind.

"Cut off my arms?" Fang Yuan's expression sank, sweat was forming on his forehead.

He tried letting go of it but this lump of jade light gave off an extremely strong suction force, keeping Fang Yuan's hands tightly attached to it.

Fang Yuan could not get free from it, and the vibrations in his aperture were getting stronger.

"I got it!" In the moment of crisis, Fang Yuan had an inspiration as he quickly moved the primeval essence in his second aperture into his first aperture.

The vibration moved into the second aperture through the primeval essence.

The second aperture also started vibrating uncontrollably, but this way, the two apertures were enduring this together, and the first aperture's crisis was soothed to a great extent.

Mo Yao gasped.

As the jade light became dim and the vibrations vanished, it seemed that Fang Yuan had passed the test.

"What is going on, you have two apertures?" Mo Yao said.

With two apertures enduring the test together, although the aperture walls were cracked, they did not break.

"Lad, you hid this very deeply, you actually have two apertures! Second aperture… to think that the rumors that had been going around have been confirmed by you." Mo Yao said with deep emotions.

Fang Yuan was not willing to talk about this, he asked instead: "You mentioned Old Immortal Kong Jue earlier, is it that refinement path supreme grandmaster from the olden antiquity era?"

"That's right, it's him. Refinement path supreme grandmaster… even throughout human history, since ancient times, there had only been three. Future generations called them the 'Three Olds'. They were the remote antiquity era's Old Eccentric Tian Nan, olden antiquity era's Old Immortal Kong Jue, and medieval antiquity era's refinement path supreme grandmaster Long Hair Ancestor."

Mo Yao continued recounting: "Among them, Old Eccentric Tian Nan had a weird personality, he tried to refine the sky and ended up losing his life. Old Immortal Kong Jue had the deepest research in apertures, he created the < >, and helped the ten extreme physiques to become immortals. Before him, there had never been any cases where a person of the ten extreme physiques rose to become an immortal. As for Long Hair Ancestor, he had the longest lifespan and refined the most Immortal Gu. Eighty-Eight True Yang Building was refined by him. In fact, there were rumors that he could refine lifespan Gu, causing Old Ancestor Giant Sun to attack Lang Ya blessed land, although there were no results from that."

Mo Yao talked about many famous pieces of information.

Three old beings, three supreme refinement grandmasters, each of them was a legend.

They were the three peaks of refinement path in human history, even rank nine venerables could not mask their glory and reputation.

"Old Immortal Kong Jue's inheritance tests the fated person's aperture. You actually had two apertures, you managed to get through luckily. Look, this inheritance is very good, it will be a huge help to you." Mo Yao continued.

Fang Yuan's consciousness went in again.

This inheritance was known as the 'immortal ascension vital information', it recorded Old Immortal Kong Jue's understanding of the immortal ascension process of all the different paths of Gu Masters, all the difficulties they might face and how to deal with those difficulties, it listed the most crucial points for rising to immortal.

Fang Yuan assessed in his heart: "Although this is not a Gu recipe or an Immortal Gu, it has a huge value in terms of theoretical guidance. If Gu Masters get it, it will not only help themselves but even allow them to understand other paths, it is truly an important treasure."

"This immortal ascension vital information dates back to long ago, it might not be useful for the currently trending paths. After all, these years of development have caused the rise of many new paths, it is no longer as dull and simple as back in the olden antiquity era. What I want to remind you is, the essence of this inheritance is not the immortal ascension vital information itself, but Giant Sun Immortal Venerable's notes when he read through it. His assessment is like the summary of the most important points, it gets right to the point and is truly worth more than a thousand gold." Mo Yao gave another shocking revelation.

Old Immortal Kong Jue was a refinement path supreme grandmaster on par with Long Hair Ancestor.

His research, along with the Immortal Venerable's notes, truly has immense value.

When a Gu Master reads it, it will greatly increase the chances of them successfully rising to immortal. In addition, using the perspective of an Immortal Venerable, they can develop in the right direction, their Gu Immortal journey would be guided and they could avoid many pitfalls along the way.

This inheritance had really shocking attraction. Especially for geniuses like Fang Yuan who desired to take one more step and was not satisfied with being a mortal.

But Fang Yuan did not choose it.

He had his previous life's experiences, he could repeat his run on the blood path.

He had other motives for coming into the true inheritance space.

Thus, Fang Yuan let go and allowed the jade lump to fly away from him, at a speed faster than the red light as it went into an unknown zone.

"You are really giving it up? When you think about this in the future, don't regret it." In his mind, Mo Yao sighed.

"Regret? Hehe, there is no such word in my life." Fang Yuan laughed lightly, continuing his search.

He swam in the darkness for a while, discovering the third light lump.

This light lump was shining with a grey light, its speed was even faster than the first two light lumps, it was like a shooting star. As it flew in the space, there was a frost colored tail trailing behind it.

Fang Yuan tried to get close to it, but Mo Yao said: "Actually, you don't have to take such a risk every time, since you have already collected many wisdom path Gu worms, why don't you display their true value?"

"Oh? What do you mean?" Fang Yuan's speed did not get any slower.

"Lad, thank me well, the move I'm going to teach you will allow you to avoid the test of the true inheritance and search for the content of the true inheritance directly."

Mo Yao's method was not very complex.

After Fang Yuan found the true inheritance light lump, the first step was for his consciousness to enter the lump, and that would trigger the test of the inheritance.

Mo Yao's advice was, to use wisdom path Gu worms to create wills. By injecting this will into the true inheritance, he would wait for a while before recalling it.

This way, he would be able to avoid intimate contact with the true inheritance, it was a opportunist method.

"Wisdom path has thought, will, and emotion. The so called mind is made up of heart sense and divine sense. When your mind enters, your thoughts are exploring and interacting. Thoughts are like water droplets, they are the easiest to create, and also the most fragile. Because the numbers are huge, the droplets will merged into a river and enter to do the investigation. During this process, the Gu Master's mind has to continue creating them without any pauses. As for will, they are superior to thoughts, like an ice cube. They have greater defense but are harder to create. They can however, move independently, and recalled when needed." Mo Yao explained.

Fang Yuan was silent.

"Lad, at this point in time, why are you hesitating? Hehehe, I know you have been collecting information on wisdom path, and also purchasing those wisdom path Gu worms. Your special will Gu, deliberate will Gu, play will Gu, keep will Gu, and new will Gu are all useless now, when will you use them?" Mo Yao laughed alluringly.

Pausing for a while, she continued urging: "Right now, you must already be clear: My will is residing in your mind, it is already deeply connected to you. When you use these Gu to create wills, they would be pure and flawless, I cannot infiltrate them. Haven't you been wary of me? This method has a huge advantage, you can use it to avoid those true inheritance tests and check the secrets of the unparalleled inheritances. Unparalleled inheritance, they have much greater value than ordinary inheritances."

"What are you…" Fang Yuan's gaze was hesitant.

All along, he had never been so outspoken about his situation with Mo Yao. To think that Mo Yao would talk about it openly like this now.

What was her true intention? Was it really like what she said, she only wanted to return the rank seven Immortal Gu house Water Pavilion back to Spirit Affinity House?

Mo Yao’s honest expression created ripples in Fang Yuan’s heart.

Maybe he was too vigilant, and was too wary of Mo Yao? But wills were not like thoughts, thoughts were simple and were not good at deception. A land spirit formed from obsessions only spoke the truth.

But wills were different. They were the product of many thoughts fusing together, they were much more complex than thoughts. Thus, they could lie to others.

Fang Yuan shook his head, sending these chaotic pieces of information out of his mind, now was not the time to think about this.

Honestly speaking, Mo Yao’s words were truly useful in Fang Yuan’s viewpoint, he was successfully convinced to attempt it.

Fang Yuan took out the wisdom path Gu worms that he had bought.

He had the land spirit little Hu Immortal and could connect to treasure yellow heaven at any time. Standing on the foundation of a Gu Immortal, it was extremely easy for him to purchase mortal Gu.

Right now, the eight wisdom path Gu worms in his hands could produce wills, but they were all different.

Special will Gu could produce special wills, it could only be activated under special circumstances.

Deliberate will Gu could create deliberate wills, when such a will is produced, it would be like carvings on a steel board, extremely difficult to get rid of compared to other wills.

Play will Gu, creates playful wills. It is the will that is most capable of creating ’emotions’.

There are also keep will Gu, new will Gu, battle intent Gu and others…

What was worth mentioning was that these wisdom path Gu worms could produce different types of wills that were effective against other wills.

For example, special will Gu can produce special wills, but can also devour special wills. Deliberate will Gu can create deliberate wills, they were hard to get rid of but if one uses the right methods and finds the deliberate will Gu, it can be easily removed.

Why did Fang Yuan buy these Gu worms?

It was because of this.

He wanted to deal with Mo Yao's mysterious will. But he had already bought so many of these Gu, and discovered that none could deal with Mo Yao's will.

With the current situation, choosing which will Gu to use was not important.

He casually chose the special will Gu, injecting primeval essence as a will was formed.

The appearance of the will was similar to Fang Yuan, he looked like a youth with dark eerie eyes, but different from the main body, his face was more manly and had a more decisive expression.

"Wills can only reside within the soul, if you want to send this will out, you will need a small soul worm." Mo Yao reminded.

Small soul Gu was a rank one Gu in soul path, it was very common but was the foundation of soul path. Many higher rank soul path Gu worms were refined step by step with it as the foundation.

Mo Yao's reminder was redundant.

Before she finished speaking, Fang Yuan summoned a Gu worm.

It had no solid body, it was palm sized and looked like a butterfly, flickering like light and shadow. If someone grabbed it, they would not be able to catch its hollow body.

It was the rank two big soul worm.

Fang Yuan patted it lightly, sending his special will into the big soul worm's body. Next, he used the big soul worm and made it fly to the closest lump of green white true inheritance light lump.

The big soul worm's speed was much faster than him moving alone.

In just a short moment, it entered the true inheritance light lump and a while later, the big soul worm with a tattered body flew back while wavering.

Fang Yuan retrieved his will and looked.

This third true inheritance was also an ordinary true inheritance, but to some Gu Masters, or even Gu Immortals, it had much greater value than the first two true inheritances!

Chapter 599 - Longevity, Hard, Hard, Hard

599 Longevity, Hard, Hard, Hard

Translator:ChibiGeneral | Editor: ChibiGeneral The third true inheritance had huge value, because it talked about the method of extending lifespan.

The saying goes: Better to live a bad life than have a good death.

Unless there were special reasons, there was nobody who wanted to stop living or not live longer.

Gu Masters, although they could cultivate, and reaching rank six would improve the essence of their life, they could not gain lifespan directly.

Ever since the way of Gu had developed, countless talents had tried all sorts of methods to create a method to extend their own lifespan.

Like First Gen Gu Yue on Qing Mao mountain who chose to become a zombie. Or the demonic path Gu Master in southern border Century Boy, using the return to childhood Gu on himself to maintain a child's appearance and reduce the speed of the loss of his lifeforce.

These were only mortal methods, Gu Immortals had even more mystical methods.

This third inheritance was a lifespan increasing method targeted at Gu Immortals. The person who created it was none other than Giant Sun Immortal Venerable.

A lifespan increasing method created by an Immortal Venerable! One could imagine the value of this true inheritance!

According to the content, on a certain year, month, and day, Giant Sun Immortal Venerable had an inspiration, and it created a brilliant idea.

He named this immortal art — Possession.

The core was a rank six possession Immortal Gu! Other than that, there were about three thousand rank five mortal Gu of all kinds.

"To think that possession Immortal Gu's origin is actually here." Fang Yuan looked at this with a palpitating heart, in his previous life, during the chaotic battle of the five regions, possession Immortal Gu had been extremely well-known, many high ranking Gu Immortals managed to extend their lifespan and that changed the situation of the five regions battle.

Although possession Immortal Gu was rank six, it was a crucial Gu worm that could change the very structure of the world!

In an instant, Fang Yuan had a sudden urge — this is the origin of the possession Immortal Gu, as long as he took it and grasped the origin, in the future during the five region battle, he would be able to sell this possession Immortal Gu and gain a terrifying profit!

Especially with his previous life's memories, he knew who had the greatest need for this possession Immortal Gu, as long as he planned properly, the benefits were unthinkable!

But soon, Fang Yuan calmed down.

The special will on the big soul worm sent even more information.

This true inheritance was only an empty shell, the possession Immortal Gu inside along with the three thousand mortal Gu had all been taken away by someone already.

Inside Eighty-Eight True Yang Building, there were eighty-eight true inheritances that were set up by Giant Sun Immortal Venerable.

But after so many years, a portion of them had already been taken by people. Mo Yao had once said, during her time, when she explored Eighty-Eight True Yang Building, out of the eighty-eight true inheritances, only fifty-three were left.

Mo Yao was an expert from ten thousand years ago, as Eighty-Eight True Yang Building's rounds were hard to pass, for every ten years of the Imperial Court contest, there were very few occasions in which a winner reached ten-edges. But even so, after so many years, there were some capable individuals who managed to enter the true inheritance secluded domain.

The number of true inheritances left now was definitely smaller than fifty-three.

"Eh? This is…" While communicating with the special will on the big soul worm, Fang Yuan's pupils expanded suddenly.

Although the true inheritance was taken away, Fang Yuan's special will still made some shocking discoveries.

"Using the soul to take over a body, it is nothing but a struggle at death's door, death is still unavoidable. To extend one's life, lifespan Gu is the best option. The road of a Gu Immortal is filled with calamities and tribulations, it is hard for the body to resist them, and it is hard for the soul to exist independently, the maintenance of longevity means the defiance of heaven… it is hard, hard, hard!"

Inside the true inheritance, there was such a paragraph.

These words directly criticized Giant Sun Immortal Venerable's method of possession, the tone was simply too arrogant! After looking at multitudes of lifespan extending methods, lifespan Gu still remained as the best choice. The final three 'hard' words, were truly filled with emotions.

Finally, the person who wrote this also left his name — Spectral Soul Demon Venerable!

Seeing this name, one would feel that it was only natural for the criticism to exist.

Spectral Soul Demon Venerable and Giant Sun Immortal Venerable had the same status, they were both rank nine Gu Masters. But Giant Sun Immortal Venerable was an Immortal Venerable during the medieval antiquity era, while Spectral Soul Demon Venerable was a Demon Venerable who appeared after Giant Sun.

Two hundred thousand years after Giant Sun Immortal Venerable's demise, the demonic path venerable Spectral Soul who had the greatest nature for murder was born. Eighty-Eight True Yang Building had such a huge reputation, when Spectral Soul Demon Venerable was invincible in the world, he naturally found his way into Eighty-Eight True Yang Building, it was nothing strange.

"Don't tell me possession Immortal Gu was taken by Spectral Soul Demon Venerable? No, the possibility is very slim. Spectral Soul Demon Venerable was the creator of soul path, he was the greatest expert in terms of souls, not even Giant Sun Immortal Venerable could match him in that. From the words that Spectral Soul Demon Venerable left behind, he had no interest in the possession method at all. He wanted to exist alongside heaven and earth, but he as one person was facing increasing difficulties one after another, seeing that a predecessor had also searched for a longevity method, he felt some deep emotions and left behind these words." Fang Yuan analyzed.

Even rank nine venerables invincible in the universe during their time could not resist the flow of time.

Time was the greatest enemies of heroes and beauties.

Lifespan Gu was hard to find, their location was fixed, and they were produced in limited supply, only heaven and earth could create them naturally.

The rank nine venerables searched the lands, using up all of the lifespan Gu, but failed to find new lifespan Gu, thus they can only find new ways to extend their lives.

The number one people in this world, behind their invincible authority, there was the sadness and anxiety towards their limited lifespan.

Thus, Giant Sun Immortal Venerable's possession technique made Spectral Soul Demon Venerable lament about the difficulty of longevity.

“Even Immortal Venerables or Demon Venerables, such invincible beings, cannot escape the fate of death. Sigh… the wheel of fortune goes round and round, they may rule for generation after generation, but after their primes they will inevitably break down, and those at rock bottom can have their fortunes reverse. In this world, can there be any eternal existences?” In his mind, Mo Yao had a heavy emotion as she sighed deeply.

But this was not what Fang Yuan thought.

He had an eerie gaze: “The Great Dao of heaven and earth focuses on the balance of all beings, and the restraints they place on each other. But when a Gu Master cultivates, they search all over the world and gather resources, using them to promote the growth of oneself, thus this is really the path that defies the way of heaven. Maybe this is why tribulations and calamities occur. But precisely so, eternal life that surpasses longevity is the goal that is worth my pursuit!”

Thinking so, there was a fire burning in his heart, becoming brighter and hotter!

Immortal Venerables and Demon Venerables could only have a long life, but his goal was the greater level of eternal life! This was a realm that venerables could not reach.

Using a phrase from Fang Yuan’s previous world, that would be ‘competing against heaven, competing against earth, competing against humans, the joy is endless!’

Water can only produce beautiful waves when they hit on rocks, people can only feel the joy in life when they engage in competition.

In Fang Yuan’s previous life, he was only rank six, close to seven.

Towards the rank nine existences, he had never looked up to them, he only felt a strong aspiration in his heart.

Here, he saw another side of the venerables: fatigue, weakness, helplessness. These made his fighting spirit surge to another level!

The true inheritance ahead of him was empty, it was not worth wasting time for.

Fang Yuan continued searching.

Next, he found two ordinary inheritances, they were all involving wisdom path.

These two true inheritances had two rank six Immortal Gu respectively.

One was ‘false emotion fake will Gu’, and the other was ‘loving affection Gu.”

Giant Sun Immortal Venerable’s wisdom path attainment was very profound, this was a well known fact. Especially in terms of emotion Gu, he had expanded it and created many new Gu recipes.

Giant Sun Immortal Venerable created a harem and collected beauties, making girls all over the world fall for him, this showed the power of his emotion Gu.

These two inheritances were not what Fang Yuan wanted, he chose to let go.

“Strange, didn’t you say that there were not only ordinary true inheritances, but also unparalleled inheritances in this secluded domain? After searching for such a long time, why haven’t I found one?” Fang Yuan was confused and asked Mo Yao.

During this period, Mo Yao had not said a word, she seemed to have taken a blow from the possession immortal art, her fighting spirit had dwindled and she had hidden in Fang Yuan’s mind without showing herself.

Hearing Fang Yuan’s words, she showed her figure and said plainly: “Hmph, how long has it been, you are already impatient? Back in my day, I searched for a whole three months. The secluded domain is extremely huge, and all the inheritances are moving around, there are only a few unparalleled true inheritances, it is normal that you have not found one. Have some patience, lad.”

Fang Yuan asked again: “Actually, you came here before, what good inheritances did you find, give me some details about it.”

This was his true question.

“Hmph, I saw many inheritances of course, but here, the true inheritances fly around random with no pattern, there is no use in telling you, you can only rely on your luck to search. Heh, beware of the time, the more inheritances you come into contact with, or the longer you stay here, the faster these true inheritances fly, and the more dangerous your situation becomes. Back then, with my Gu Immortal realm, I could only stay for three months, and nearly died here.”

As Mo Yao said this, her tone was filled with lingering fear.

“Even you almost died here?” Fang Yuan saw the main point in her words.

“Lad, you are a mortal, you are too weak. I estimate that you can only check eight true inheritances, and can stay for at most a month. Right now, you have already seen five inheritances, you have to be careful!” Mo Yao vaguely reminded him.

“What was it that threatened the life of a grand Gu Immortal like yourself?” Fang Yuan asked.

But Mo Yao only smiled tenderly, saying, “If you are fated for it, you will know when you experience it,” before concealing herself.

Fang Yuan’s expression turned slightly grim.

He had always held a suspicion.

In the video in his previous life, there were eleven Gu Immortals from central continent, but after they entered the true inheritance secluded domain, after the omitted parts, there were only nine of them who reappeared, all with injuries.

Does that mean, the two missing had died in the secluded domain?

Sometimes, having this Mo Yao’s will was advantageous.

Fang Yuan had gotten Mo Yao’s reminder and became more careful, slowly investigating.

Three days later, he got close to the sixth true inheritance, and used the special will Gu and big soul worm to obtain the information inside the true inheritance.

This inheritance came from Giant Sun Immortal Venerable, it was similar to the third inheritance in that they were both lifespan extending immortal arts.

It involved a new path that Giant Sun Immortal Venerable had created from researching Ren Zu, he called it ‘yin-yang path’.

To use this method, two Gu Immortals, one male and one female, have to cooperate and copulate, to achieve the result of one of their lifespans increasing.

But there was a flaw.

If one gains lifespan, the other must lose the same amount.

In other words, it was transferring the lifespan of one person to another.

This inheritance had also been taken by others already.

The popularity of lifespan extending methods could be seen clearly here.

“This is the sixth true inheritance.” Fang Yuan muttered, thinking of Mo Yao’s reminder.

According to Fang Yuan’s endurance, he could see eight true inheritances at most, beyond this number, a huge crisis would descend upon him.

If he wanted to obtain a true inheritance, Fang Yuan needed to be careful now.

After all, he only had two chances left, and at the same time he needed to be wary of the inheritance being emptied out already.

Thirteen days later, Fang Yuan found the seventh true inheritance.

This true inheritance light lump was the size of a washing basin, it was shining brightly in white light and had a stronger aura compared to ordinary inheritances.

“Lad, this will broaden your vision, this is an unparalleled true inheritance!” In his mind, Mo Yao said.

Chapter 600 - Supreme True Inheritance!

Chapter 600: Supreme True Inheritance!

Translator: ChibiGeneral Editor: ChibiGeneral

“Unparalleled true inheritance!” Fang Yuan’s gaze brightened upon looking at the lump of burning white light in the distance.

He quickly took out special will Gu and a big soul worm. He condensed a will and moved it into the big soul worm, looking as it flew towards the true inheritance light lump.

“Unparalleled true inheritances far surpass ordinary true inheritances, I want to see what is so different about it.” Fang Yuan was waiting expectantly.

But an unexpected thing happened.

As the big soul worm approached closer to the true inheritance light lump, Fang Yuan sensed his connection with the big soul worm was weakening.

When the big soul worm had not even reached three hundred steps from the light lump, the connection between it and Fang Yuan had thoroughly broken.

“This… What is this situation?” Fang Yuan was startled, looking at the unparalleled true inheritance flying away leisurely in its original orbit. And the big soul worm he had released showed no signs of movement, being completely still. Saying it was dead was also not appropriate, but no matter how Fang Yuan commanded it, it quietly hovered without the slightest bit of response.

“Eh? This unparalleled true inheritance is not simple, be careful.” Mo Yao’s will also gave a sound of surprise and warned Fang Yuan.

“What is going on?” Fang Yuan curiously and cautiously approached the big soul worm, picking it up for examination.

There was no signs of injury on the big soul worm, but the will that had been instilled into it was completely gone.

Big soul worm was a rank two Gu; and its wild will was removed after being refined by Fang Yuan.

Fang Yuan’s will occupied its body, thus he could maneuver it like moving his fingers.

But right now, Fang Yuan’s will that was in it, refined into special will by using special will Gu, had inexplicably disintegrated with not even a trace remaining.

The big soul worm had become completely ownerless, anyone would be able to send a trace of their will and instantly refine it.

This was also the reason why Fang Yuan could not command it regardless of what he did.

The previous several times, Fang Yuan had exploited special will to probe out true inheritances, ingeniously avoiding the test of the true inheritance. This method had been proved successful time and time again, he had never expected it to fail before even verifying the unparalleled true inheritance.

What was this unparalleled true inheritance hiding that could completely clear Fang Yuan’s will?

“Ah, I remember! So it was this.” Just as Fang Yuan was hesitating, Mo Yao suddenly spoke up.

She laughed coquettishly: “Kid, should I say it is your good luck or bad luck? There are not many unparalleled true inheritances but there are not few either, and what you are encountering now is the most special among them.”

“Please advise me.” Fang Yuan’s expression turned calm.

“I saw this true inheritance before and it also left behind a deep impression on me. Back then, even I had to expend a lot of effort to approach it. Hehehe, inside it is a rank seven Immortal Gu Giant Sun Immortal Venerable personally refined, called human qi Gu. Its ability is mysterious and could even be said to be strange, even I had to spend a lot to investigate it clearly.” Mo Yao sighed.

While Mo Yao was alive, she had been a rank seven Gu Immortal, a fairy of Spirit Affinity House with awe-inspiring reputation.

However, she had to pay a considerable price to approach this true inheritance. Fang Yuan was only a mortal now, it was natural for him to not even be able to approach it.

“Human qi Gu…” Fang Yuan pondered over this crucial name.

He had a realization and asked: “Could it have some relationship with the three elements of immortal ascension?”

“Lad, your guess is correct.” Mo Yao sighed and explained, “In the advancement to Gu Immortal, the three qi of heaven, earth and human are particularly crucial. When advancing into a Gu Immortal, you would need to completely shatter your aperture and take in the heaven qi and earth qi. The more heaven qi and earth qi you can take in, the higher your chance of succeeding. But heaven qi and earth qi cannot be accumulated limitlessly, they need to be on an equal level with human qi.”

“And human qi is the sum of the Gu Master’s own accumulation. The Gu Master’s battle strength, toughness of their physical body, the depth of their soul, familiarity with Gu worms, understanding of heaven and earth, awareness of their own nature as well as luck, talent, aptitude, fortuitous encounters, insights and so on would transform into human qi when advancing to Gu Immortal.”

"The more the Gu Master has accumulated, the more man qi they would have. The more man qi there is, the more heaven and earth qi they can take in, and the higher their chance of advancing to Gu Immortal. And this man qi Gu's purpose is to take in the man qi of other people, purify them and add it to oneself when advancing to Gu Immortal, thereby greatly raising the chance of the breakthrough, as well as deepening the foundation and the potential of Gu Immortals."

Mo Yao's words greatly broadened Fang Yuan's vision.

He could not help but praise: "There is actually such an Immortal Gu, created with such an idea! Terrific!"

In human history, Gu Immortals had always been in extremely few numbers. The difficulty of advancing to a Gu Immortal, among numerous famous rank five Gu Masters, there might only be one who could successfully advance.

Among the crucial keys of advancing to a Gu Immortal, one was at the top – the Gu Master's accumulation.

Many Gu Masters don't have deep accumulation; the man qi they could condense when advancing to Gu Immortal would be very little but the amount of heaven and earth qi instead appears in very high amounts. As such, the balance would not be reached, heaven and earth qi would suppress and swallow the man qi, finally the Gu Master would be assimilated by heaven and earth and perish.

But if there was man qi Immortal Gu, this difficult test would be eliminated.

By collecting other's man qi, purifying them and gathering it into one's body; even if the accumulation is not enough, it would not matter.

One could say, with man qi Immortal Gu, the chances of advancing to Gu Immortal would increase to the extreme, raising the numbers of Gu Immortals.

And raising the numbers of Gu Immortals would mean a distinct increase in a region's strength.

No doubt, this was a Gu that could change the battle situation of the five regions! As long as the news was leaked, all super forces would fanatically rush over like ducks.

However, man qi Immortal Gu was too strong, it was at rank seven, higher than the Spring Autumn Cicada currently.

Fang Yuan had a mortal body, he could not endure the might of man qi Immortal Gu.

His will had been devoured by the Immortal Gu before it was even able to approach it, purified into a negligible amount of man qi and stored.

If not for Mo Yao giving the information, Fang Yuan would still be in the dark and unknowing of what happened.

"Man qi Gu is definitely good, but it does not suit me." Fang Yuan regretfully glanced one final time at the burning white light lump and sighed, shaking his head before leaving in another direction without the least bit of reluctance.

Man qi Gu's realm was too high, Fang Yuan simply did not have the qualifications to control it.

Man is the spirit of all living beings; Gu are the essence of heaven and earth. To Gu Masters, Gu were tools. But man qi Immortal Gu was too strong; if it was an ice blade, Fang Yuan was an infant, he would be frozen by the cold aura let out by the ice blade before he even approached it.

"The most crucial point is that I cannot use man qi Immortal Gu. I need to breakthrough from mortal to advance to Gu Immortal, before that I simply cannot handle man qi Gu. And if I become a Gu Immortal, what would I need man qi Gu for?" Helping others?"

Man qi Immortal Gu was not suitable for the lone Fang Yuan. Only those super forces would need it.

Unless Fang Yuan formed his own force.

He slowly flew around in the true inheritance secluded domain.

Fang Yuan gradually comprehended something and said after a moment of silence: “Mo Yao, I realized the danger you spoke of.”

“Hehehe.” Mo Yao smiled, not surprised, “When Gu Masters enter the true inheritance secluded domain, every time they come in contact with a true inheritance or the longer the time they stay here, the faster these true inheritances would move around. Thus, urging the Gu Masters to quickly choose a true inheritance. By the end, the true inheritances would move as fast as meteors, Gu Masters simply would not be able to capture them. Because of this, the Gu Masters could lose their lives at any minute.”

Pausing a while, Mo Yao continued: “And the danger to life originates from the true inheritances. You saw the unparalleled true inheritance just before. Your will had not even neared it before it was refined into man qi by man qi Immortal Gu. Think about it, if it crashes into you with the speed of a meteor, you won’t have any time to dodge, what will happen then?”

Fang Yuan lightly snorted.

He could completely imagine that scene.

If a mortal body was struck by the burning white light lump, no matter their physical body, soul or will, everything would probably disintegrate and be refined into man qi.

“Like I said before, you are too weak, only at the mortal realm. Even the tests of the ordinary true inheritances are a difficult hurdle to you. Unparalleled true inheritances are even more troublesome. Let me tell you, there is a higher level of inheritance above unparalleled true inheritance – Supreme True Inheritance.” Mo Yao revealed a sensational piece of information.

“Supreme true inheritance?!”

“In this whole true inheritance secluded domain, there are only three supreme true inheritances.” Mo Yao sighed with deep emotions, seemingly immersed in the depths of her memory, “It is simply impossible for a mortal to receive these three supreme true inheritances. The difficulty of an unparalleled true inheritance is already extremely high, moreover Imperial Court blessed land prohibits the entry of Gu Immortals. This is also the reason for Eighty-Eight True Yang Building being able to stand tall for so long, among the eighty-eight true inheritances, there are still over half remaining.”

Fang Yuan carefully pondered and approved of Mo Yao’s words.

Entering true inheritance secluded domain was extremely difficult, and the opportunity was very uncertain. First of all, one needed to be the winner of the Imperial Court contest held every ten years. Secondly, they needed to complete at least ten floors of Eighty-Eight True Yang Building. Finally, after entering, they still needed to successfully pass the test of the true inheritance.

In other words, every ten years, among the many heroes of northern plains, there would only be one who would rise above others and take control of the owner token.

Simply relying on the owner token was still not enough, the winner must have a strong force which should not be exhausted too greatly in the Imperial Court contest, and also should have enough experts beside him. His force should have enough talents in all fields and involving a wide range of paths, only then could he hope to pass ten floors.

After fortunately being able to enter true inheritance secluded domain, the tests of the true inheritances would further wipe away a batch of these winners.

The tests were very difficult, even Fang Yuan, a reborn old monster, almost suffered a setback, let alone these people.

What was more absurd was that even if they passed the test, would that true inheritance be coincidentally suitable for them?

Not necessarily.

Those who could reach this step were usually dragons among dragons, phoenixes among phoenixes, heroes among heroes, with all three aspects of aptitude, talent and fortuitous encounters. Such characters would have extremely high aspirations, and would naturally think about it a lot and look through more options.

As such, by the time they could no longer stay within true inheritance secluded domain, it would be too late for regret.

Who is to say they might not die here?

“The true inheritances’ flying speed is getting faster, you have one more chance left. No matter which true inheritance it is, take it quickly and leave… eh?! Not good, leave!” Just as she was persuading him, Mo Yao’s tone suddenly changed and let out a startled cry.

Fang Yuan turned his head around to take a glance and saw a true inheritance, the size of an adult man, blossoming with all kinds of mysterious colors, whizzing towards him. In the dark secluded domain, it had a very long dazzling and burning tail trailing behind it.

A light lump the size of a large bowl was an ordinary true inheritance.

A basin sized light lump was an unparalleled true inheritance.

Then what was a light lump the size of an adult?

Fang Yuan instantly thought of the name – Supreme True Inheritance!

In the whole true inheritance secluded domain, only three supreme true inheritances existed, and now, one was heading towards Fang Yuan!

Chapter 601: Profiting from the situation

Translator: ChibiGeneral **Editor:** ChibiGeneral

“Supreme true inheritance!” Fang Yuan’s pupils enlarged and his gaze burned brightly.

When the true inheritance light lump was still a thousand steps away, Fang Yuan felt its surging aura.

This was a feeling which ordinary true inheritances and even unparalleled true inheritances did not have.

Under the effect of this aura, thoughts started to gather in Fang Yuan’s mind; countless thoughts emerged out of thin air and his memories flashed past continuously.

If his mind was like a deep pond during normal times, then right now, the rapidly increasing thoughts were like a huge waterfall crashing down into this deep pond.

Thoughts surged madly, creating waves after waves!

This feeling was incomparably wonderful, and Fang Yuan was not able to find an accurate word to describe it.

The memories buried deep within his mind started to emerge one after another, the dust on them removed as they realistically and vividly appeared in his mind.

Great numbers of inspirational lights flashed past and all sorts of lively ideas emerged in Fang Yuan’s mind. Some problems and doubts regarding cultivation were being instantly solved under the inspirational lights.

An extremely strong self-confidence involuntarily arose in Fang Yuan’s mind.

This was an indescribably wonderful feeling, as if everything was within his control, as if there were no problems he could not solve…..

This was a special ‘power’ that people could not help but be deeply addicted to.

“Lad, wake up quickly, I also know how intoxicating this feeling is, but if you don’t want to die, don’t lose yourself in it! Look at yourself quickly!” Mo Yao shouted.

This voice awakened Fang Yuan, and when he looked at himself, he was pale with horror!

In just a short moment, his body had become weak and exhausted, his glossy forehead now had wrinkles, his strong arms gave a feeling of being old and decayed and were turning even more weak.

If not for Mo Yao’s reminder, Fang Yuan might have lost himself in that wonderful feeling and overlooked the changes to his body.

“This Gu is…?!” Fang Yuan thought of an incomparably shocking answer, and at the same time, used his movement Gu to quickly retreat!

True inheritance secluded domain did not prohibit the use of Gu worms.

The supreme true inheritance also was not chasing Fang Yuan and just continued to fly on its path.

Fang Yuan rapidly pulled distance with it before fearfully looking at this supreme true inheritance that was flying far away, cutting open the dark space.

“This is only the aura of a supreme true inheritance and it almost made me lose myself and die. How difficult would its test be?” Fang Yuan exclaimed in shock.

He could not even get near human qi Gu, an unparalleled true inheritance. There was no need to speak of supreme true inheritance; let alone approaching it, just by nearing it a little, the aura it leaked out almost took his life.

Just like Mo Yao said, Fang Yuan as a mortal was too weak!

This inheritance was definitely a great thing but he did not have the strength to bear it. It was like a bee picking honey, if the honey was as big as a fist, the bee would instead drown to death.

“The Immortal Gu of this supreme true inheritance, could it be… that legendary Gu?” Fang Yuan spoke with almost eighty percent certainty. But this answer was too shocking, making him somewhat unable to believe it.

“Hehehe.” Mo Yao laughed, “Lad, your guess is correct. Even I did not dare to believe it back then, but the truth is right before your eyes, there is no choice but to believe it! Right, the Immortal Gu contained in this supreme true inheritance is the rank nine Gu of legend, wisdom Gu!”

Wisdom Gu!

It was recorded in < >.

This was a rank nine Immortal Gu which could give endless wisdom to the Gu Master!

But the price to use it was extremely high.

The legends of Ren Zu clearly recorded that Ren Zu and Desolate Ancient Moon had to give their middle age to it to obtain its help.

In other words, using wisdom Gu meant using up lifespan!

Fang Yuan had not even approached it, but his lifespan had been worn down rapidly; wrinkles appeared and his body aged in just a short period of time.

In regards to Fang Yuan, wisdom Gu was a true death god!

“I really don’t know how Giant Sun Immortal Venerable obtained it back then and even more, what heaven defying methods did he use to seal it here. No wonder Giant Sun Immortal Venerable thought up all kinds of methods to extend lifespan, he must have used wisdom Gu a lot.” Fang Yuan was deeply moved.

Mo Yao instead sighed: “Giant Sun Immortal Venerable probably used wisdom Gu for one reason – to extend lifespan. Unfortunately, the more wisdom Gu was used, the shorter his lifespan became, and in the end, he did not obtain the solution he wanted as well.”

According to the historical records, Giant Sun Immortal Venerable lived for over eight thousand years before dying.

Eight thousand years was already a result on the middle to upper level among rank nine venerables. Primordial Origin Immortal Venerable who had the longest lifespan, lived for twenty-five thousand years. The one with the shortest lifespan was Red Lotus Demon Venerable who only lived for three thousand years.

Other venerables generally had a lifespan of around seven thousand years.

“There are three supreme true inheritances in true inheritance secluded domain. Tell me, what are the other two like? I really want to experience them.” Fang Yuan’s eyes let out an indescribable radiance.

Mo Yao felt something wrong with his tone, and quickly persuaded: “Lad, don’t have stupid thoughts, pick up an ordinary true inheritance quickly and leave! You have the ten-edge owner token and can only take away an ordinary true inheritance anyway. Even if you pass the test of an unparalleled true inheritance, you cannot take them. Don’t even mention supreme true inheritances, your weak body that can be blown away by the wind cannot even endure their aura!”

Fang Yuan laughed loudly: "Your words make me even more interested to see them! This opportunity is extremely rare, I am afraid I won't get another chance if I miss it this time."

"Brat, have you gone mad? Do you not know you lost at least two years of your lifespan just a few moments ago! If you continue squandering time like this, and the true inheritances start flying with the speed of a meteor, you won't be able to get anything, and you might even lose your life!" Mo Yao was anxious.

Fang Yuan kept on laughing without being moved.

He continued to wander, detouring far away when he saw ordinary true inheritances and unparalleled true inheritances, with not even a bit of intention to take them.

Mo Yao's will became more anxious: "You lunatic! Heavens, what in the world are you thinking in your brain? You are letting so many true inheritances go away just to broaden your horizons? You idiot, if you die, what should I do? What about Water Pavilion?"

"If I die, this will of yours will also not be able to survive, but you can rest easy, you still have a will left in Water Pavilion. You can wait for a fated person and entrust this precious task upon them." Fang Yuan unhurriedly replied.

Mo Yao tried to persuade him again, but Fang Yuan was adamant in doing things his own way.

He kept on exploring non-stop, and after several days, the true inheritances were moving faster; Fang Yuan went into dangerous situations every now and then.

Several times, he faced the danger of losing his life, but narrowly managed to escape in the end.

Mo Yao had been trying to persuade him the whole time, the anxiety making her go mad: "Lad, I surrender, you are truly stubborn! Alright, you don't have to continue, I will tell you about the other two supreme true inheritances."

"The first is a luck path inheritance founded by Giant Sun Immortal

Venerable, using his unique luck path attainment, he was able to become invincible in the world! Second is the control rights of Eighty-Eight True Yang Building. This tower was refined by Giant Sun Immortal Venerable and Long Hair Ancestor; it can plunder the Gu worms of a region, there would be endless Gu cultivation resources for one who obtains it!"

She was truly anxious.

Normally, she might not necessarily be in the mood to provide such inside details to Fang Yuan even if he asked. Now, however, she revealed it, afraid Fang Yuan would continue acting foolishly.

But what she was afraid of happened.

Fang Yuan chuckled and as if he had not heard anything, continued to wander.

Several days later, the true inheritances' flying speed was already as fast as birds. It was extremely easy for Fang Yuan to evade one or two, but true inheritance secluded domain seemed to be shrinking and all sizes of true inheritances had to fly in the narrowing space. The long tails of all sorts of colorful lights they dragged were almost interweaving a thinly spread light web. Fang Yuan could only survive moving through the cracks of it.

At this stage, Fang Yuan was using all his concentration and did not dare to relax for even a moment, for a moment of carelessness would lead to the tragedy of his death.

"Leave quickly. You can't even take away ordinary true inheritances now. As long as you continue to stay here, the danger will increase by each second. Sigh, you have actually gone crazy in such a crucial moment!" Mo Yao was getting dispirited from all the persuading.

Fang Yuan's gaze was burning, suddenly asking: "Tell me, is there a possibility I can find an opportunity to reap benefits when two true inheritances collide?"

Mo Yao was stunned upon listening to this.

But soon, she shouted in a shrill voice: "You fool, you idiot! Would the grand Giant Sun Immortal Venerable commit such a clear mistake? So you were thinking like that, I overestimated you! I overestimated you too much! You have clearly become a victim of your own ingenuity, how could there be such an obvious loophole for you to exploit? You have thought too wishfully, you are too naive!”

“Eh, so it was just my wishful thinking.” Fang Yuan chuckled, his expression undisturbed as he continued to explore.

Actually, he had already known this, but intentionally said it to provoke Mo Yao.

“Why are you still not leaving? Are you looking to die?!” Mo Yao was provoked and was completely driven mad by Fang Yuan.

“Whether I die or not is my matter, it is none of your concern. You have already died, why is a dead person making such a din?” Fang Yuan indifferently ridiculed her; his expression still tranquil as if the one in danger was not him.

“Damn it! Scoundrel! Idiot!” Mo Yao’s face flushed with rage and started hurling out curses.

Rumble…

Right at this time, an explosion suddenly occurred a great distance away.

Fang Yuan gazed at the source of the sound, seeing two true inheritances colliding which then sprang towards different directions.

Fang Yuan was dumbstruck.

He had not expected his nonsensical words to come true, true inheritances actually collided!

Especially when one of the inheritances seemed to be a supreme true inheritance!!

Mo Yao was also dumbstruck.

“How is this possible?” Her voice rose an octave higher into an ear-piercing sound that had no demeanor of a refinement path grandmaster, “Back then, when I explored this place, why did not I encounter such a good thing?!”

But soon, her eyes opened wide, coming to a realization: “So it was like that! That is the luck path supreme true inheritance, back then I did all I could to open up a crack in it to obtain the fortune rivalling heaven Gu, but in the end it flew away. I could only use the other inheritances I obtained to settle for the second best option, refining calamity beckoning Gu!”

Mo Yao had created a crack in this supreme true inheritance, because it was no longer in a perfect state, the original balance was tilted, allowing true inheritances to collide into one another.

Boom!

Another sound of a collision.

Fang Yuan’s eyes opened wide, this collision seemed to have caused a Gu to fly out from the luck path supreme true inheritance?

Fang Yuan was stumped: “What is that?”

Mo Yao was also stupefied before shouting: “That is a luck path Gu worm, what are being dazed for, aren’t you going to take it?”

Fang Yuan, however, hesitated: “If I try to take this Gu, wouldn’t I be met with the luck path true inheritance’s test?”

Luck path true inheritance was a supreme true inheritance, Fang Yuan would never be able to endure its test.

“What damned test! The collision has enlarged the crack in the true inheritance light lump, it is breaking down. Take it and leave quickly, if you don’t leave now, you are going to die here!” Mo Yao shouted.

Fang Yuan chuckled and moved forward, dodging here and there, before being able to approach with great difficulty and pick up that Gu worm.

This was a rank five mortal Gu and not an Immortal Gu.

“Lad, you are still not leaving?!” Mo Yao was almost howling by now.

“Haha, what’s the rush.” Fang Yuan laughed heartily, but did not leave, instead staying within true inheritance secluded domain, observing everywhere.

“Looking at the time, with the current chaos, it is almost ready.” he mumbled.

“Lad, what did you say?”

Mo Yao had just spoken when Fang Yuan sprinkled many Gu worms which activated together to form a whirlpool.

The whirlpool let out a majestic force of attraction, absorbing all the true inheritance lights.

Several breaths later, the whirlpool slowed down and crumbled with a loud sound, revealing a door.

“All according to plan!” Fang Yuan threw himself in without hesitation.

The next moment.

He saw the land spirit!

Chapter 602 - Frost Jade Peacock

Chapter 602: Frost Jade Peacock

Translator: ChibiGeneral **Editor:** ChibiGeneral

The scene before one's eyes was that of a grand and elegant white jade hall.

Four huge pillars were holding up the roof, on the ground, light casted shadows on a person.

Be it the walls, pillars, or roof, they were pure and white as snow, they were all created using white jade stones.

At the center of the hall, there was an elevated area with twenty-three steps of stairs.

On the elevated area, there was a green copper divine bird statue. The divine bird was looking up, and spreading its wings, but there were countless black chains, each with the size of an ancient tree, coiling around the divine bird's body, tangling around its long neck, its slim legs, and even piercing through its feathers and lodging itself into its body.

The divine bird's eyes were sharp as daggers, it was frowning and had its mouth wide open, almost as if screaming out loud. Its expression was very moving, it looked so real with delicate details, and there was an indomitable spirit of resistance oozing from it, this spirit could leave a firm impression after a single gaze.

Fang Yuan appeared on the stairs, looking at the tall and huge green copper divine bird statue covering his vision, his dark pupils seemed to have flames burning within.

“This, this, this!” The sudden turn of events shocked Mo Yao to the point of stuttering.

She gulped as she pointed her finger, shouting: “This is actually the Frost Jade Peacock, Imperial Court blessed land’s land spirit!!”

“Ah, what’s there to be surprised about?” Fang Yuan’s lips curled into a smile, he said: “Imperial Court blessed land originally had a land spirit, otherwise it would not have recognised Giant Sun Immortal Venerable and made him its master. The land spirit is formed by the combination of an obsession and the blessed land’s heavenly power, to get rid of the land spirit, you will have to deal with the entire blessed land. If the land spirit dies, the blessed land will be destroyed. If the blessed land is destroyed, the land spirit will die too. Currently Imperial Court blessed land is still in good shape, it means the land spirit is still alive.”

His words made Mo Yao shout in anger: “You bastard, such obvious reasoning, how could I not know this!”

Mo Yao had done all she could to research Eighty-Eight True Yang Building for her lover Bo Qing, in an attempt to get the fortune rivalling heaven Gu, and help Bo Qing advance to rank nine.

Eventually, although she succeeded in entering the true inheritance secluded domain, because of her insufficient power she could not obtain fortune rivalling heaven Gu. Instead she had to settle for something else, using her inheritance information and her own foundation as a refinement grandmaster to refine the calamity beckoning Gu.

Because of this, she understood the value of the land spirit of Imperial Court blessed land extremely clearly!

Back then, when Giant Sun Immortal Venerable was not rank nine, he had won in the competition for Imperial Court blessed land’s inheritance, and became the owner of Imperial Court blessed land.

When he became rank nine and was invincible in the world, he had the superior grotto-heaven, Longevity Heaven, and thus Imperial Court blessed land became one of Giant Sun Immortal Venerable's multiple residences within the world.

Giant Sun Immortal Venerable created Eighty-Eight True Yang Building and set it up within Imperial Court blessed land.

This formed a relationship — if one was targeting Eighty-Eight True Yang Building, they would need to first enter Imperial Court blessed land. Imperial Court blessed land thus became a protective shell for Eighty-Eight True Yang Building.

After Giant Sun Immortal Venerable's arrangement, this shell had been exerting great use, in that Gu Immortals could not enter.

But in this setup, there was a huge flaw, any Gu Immortal could see it clearly!

That was the existence of the land spirit of Imperial Court blessed land!

This flaw did not exist when Giant Sun Immortal Venerable was still alive. Because Giant Sun was the master of the land spirit, the land spirit would obey and do whatever he told it to do.

But after Giant Sun Immortal Venerable died, Imperial Court blessed land became ownerless. As long as one could meet the land spirit's expectations, anyone could become Imperial Court blessed land's new owner.

And Eighty-Eight True Yang Building was situated inside Imperial Court blessed land, thus whoever controlled Imperial Court blessed land would have Eighty-Eight True Yang Building in their grasp.

As long as one was a Gu Immortal, they would understand this from just a small amount of thinking.

In Mo Yao's lifetime, when researching Eighty-Eight True Yang Building, she had spent a huge amount of time and effort in this field.

But eventually, she made no progress.

All the hard work and effort she put into this resulted in nothing.

What sort of person was Giant Sun Immortal Venerable, how could he be unaware of this loophole? He dealt with this perfectly, sealing the land spirit deep within, and in Mo Yao's eventual exploration, she could not even find a single feather of the land spirit.

"To think that the land spirit was hidden inside the true inheritance secluded domain! Only when the true inheritances fly at a certain speed would this loophole appear, and allow for the possibility of opening this gateway!" Mo Yao's heart was shaken, at this moment, she understood what had happened.

The more she thought about it, the more she viewed Fang Yuan with a new and higher level of respect.

"This lad, I underestimated him! What sort of background does he have, he actually knew this method of entry?" Mo Yao was shocked and curious.

Fang Yuan's performance was very shocking, it greatly exceeded her expectations.

What she did not know was, this was inside the video from central continent's Gu Immortals in Fang Yuan's previous life.

In fact, the deep research of central continent's Gu Immortals was actually built upon the foundation of Mo Yao's findings.

Mo Yao was an impressive refinement grandmaster, for her lover, she researched the Eighty-Eight True Yang Building, and charged in alone. After she died, the previous research material that she left behind was in the hands of Spirit Affinity House.

For the ten thousand years after that, generations after generations of geniuses within Spirit Affinity House continued their research on it. At the same time, Eighty-Eight True Yang Building had been corroded by the power of time, showing more and more loopholes over the years, becoming easier to exploit.

But Spirit Affinity House knew that to take down this juicy meat called Eighty-Eight True Yang Building, it was not something a super force could do alone. Thus, Spirit Affinity House secretly worked with several other central continent sects and planned this for thousands of years.

Spirit Affinity House took the lead as they controlled the most important research materials from beginning to end. Later, good preparation would be the key to success, when central continent's Gu Immortals attacked, the group was led by Spirit Affinity House's fairy of that generation, Black Moon.

As he walked up the stairs, Fang Yuan arrived at the foot of the green copper divine bird.

This tall statue was Imperial Court blessed land's land spirit, Frost Jade Peacock!

Except that it was sealed tightly by Giant Sun Immortal Venerable, and could not move. Since hundreds of thousands of years ago, throughout the ages, it had been standing here without any movement.

As they got closer, Mo Yao had a discovery: "Heh, lad, your plan will be hard to execute. The green paste on the Frost Jade Peacock's body is created by the rank seven Immortal Gu Earth Prison. The black chains that are coiling around its body are made from the rank seven Immortal Gu Earth Net… Eh!"

While saying this, Mo Yao thought of something and her words stopped.

At once, in Fang Yuan's mind, she was staring with her eyes wide open, like she had seen a ghost.

Because she had suddenly remembered: Not long ago, Fang Yuan summoned two Immortal Gu, one of them was Gruel Mud!

Earth prison Gu, earth net Gu, although they were rank seven Immortal Gu and were higher than Gruel Mud by one rank.

But they were one time expenditure Gu, they vanished after one use.

The two rank seven Immortal Gu worked together to seal the land spirit, but after hundreds of thousands of years of corrosion from time, this strength had weakened greatly.

And Gruel Mud was a direct counter to this strength!

“Hahaha, it seems you have already thought about it, you are not too stupid.” Fang Yuan laughed heartily as he took out the gruel mud Immortal Gu from his pocket.

Although this Gu was rank six, because it was an expenditure type Gu, it was comparatively easier to use, there was no need to inject immortal essence into it, he just needed to squeeze it.

Fang Yuan squeezed lightly and it shattered.

The Gu worm burst and oozed out a brown-green light that was like liquid.

The light followed Fang Yuan’s will and flew up, fusing into the divine bird statue.

Throughout the process, Mo Yao watched in a daze, unable to say a word.

After the light fused into the statue, a slight tremor occured, but this tremor was simply too light, it was almost like an illusion.

But soon, this tremor became larger.

The entire divine bird statue starting shaking. Cracks were forming on the green paste covering the divine bird statue, next, the chains starting colliding with one another, making a loud and sharp noise.

“Su… success?! Don’t tell me, after hundreds of thousands of years of wear and tear, the powers of the two Immortal Gu were used up?” Mo Yao muttered to herself, she had a complex expression, there were disbelief, surprise, suspicion, and denial…

But afterwards, the tremors became smaller.

The divine bird statue became silent, and the chains stopped clashing, the entire white jade hall became quiet once again.

Mo Yao was deeply disappointed, she sighed: “Failed in the end! There was the difference of a rank, plus this was the setup of an Immortal Venerable.”

“Hehehe.” But at this point, Fang Yuan laughed lightly: “Mo Yao, look at the divine bird’s head?”

Mo Yao’s will looked over and was shocked: “The green paste on the land spirit’s head is slowly melting! That’s right, this is the gruel mud Immortal Gu’s real effect, I was too caught up with the commotion and got carried away, I lost my bearings and did not think of this. Hehe, laughable, how laughable.”

Mo Yao suddenly shook her head and sighed, immediately afterwards her expression had vanished completely, restoring the demeanour of a legendary Gu Immortal, a refinement grandmaster.

Actually, she could not help but briefly lose her cool.

In her life, she had paid too huge of a price for Imperial Court blessed land, for Eighty-Eight True Yang Building.

Right now, earth prison Gu and earth net Gu, the powers of these two Immortal Gu, although corroded mostly by the power of time, they still had a portion remaining.

Although gruel mud Immortal Gu was effective against them, it was only rank six, it was still very difficult to get rid of the remaining power.

But don’t forget about the existence of the land spirit!

The tremors earlier were due to the land spirit.

It was the one which exerted strength, causing the two Immortal Gu to divert the majority of their power to suppress it, allowing the gruel mud Immortal Gu’s power to sneak in.

As the green paste melted, it turned into gruel mud on the white jade floor, the green-black mud was a great contrast to the white tiles on the ground.

Drop by drop, they fell on the ground.

The Frost Jade Peacock’s head was released, but after getting to its neck, the speed of melting greatly reduced.

Evidently, earth prison and earth net Gu’s remaining power reacted and started to resist Gruel Mud, causing the efficiency to reduce greatly.

“Heh, just like in the video in my previous life, it is exactly the same.” Fang Yuan laughed as he looked at the land spirit, Frost Jade Peacock: “Oh Imperial Court land spirit, look down at your feet, I was the one who released you. How does it feel to breathe again after hundreds of thousands of years? As long as you recognise me as your master, I will help you to regain freedom!”

Frost Jade Peacock’s angry expression was still fixed on its face, hearing Fang Yuan’s words, it laughed arrogantly: “I am one with the blessed land, all the things that happened in the blessed land for the last hundreds of thousands of years are clear in my heart. If you want to be my new owner, you will need to fulfill one condition.”

Hundreds of thousands of years ago, Giant Sun Immortal Venerable’s fulfilled this land spirit’s request and became Imperial Court blessed land’s owner.

Today, Fang Yuan was facing this request as well.

At this point, the video in his previous life had no more value. Fang Yuan laughed as his eyes shone, asking —

“What condition?”

Chapter 603 - Sleepless Night

Chapter 603: Sleepless Night

Translator: ChibiGeneral Editor: ChibiGeneral

“No, don’t abandon me…”

“Save me, save me, benefactor!”

The voices were reverberating in Tai Bai Yun Sheng’s ears, he opened his eyes suddenly and sat up on his bed.

Huff, huff…

He was panting, with his body covered in sticky sweat, it was very uncomfortable.

Another nightmare!

Under the dim light, this rank five peak stage expert’s face showed an old and weary expression befitting his age.

In the silent room, Tai Bai Yun Sheng’s breathing sounds became softer, as his frown slowly eased.

Sitting on his bed, he fell into deep silence, like he was in a daze, there was an extreme fatigue hidden in his gaze.

Ever since he failed the round, he had been in deep guilt and self-blame for causing Gao Yang and Zhu Zai to be sacrificed due to his own greed.

Almost every night, he had the same nightmare.

In the nightmare, blood was pouring everywhere, the smell was overbearing. All sorts of ugly blood beasts bared their claws and fangs as he was encircled, facing Gao Yang and Zhu Zai's pleas.

They called him benefactor, they asked him to save them.

But every time, even though Tai Bai Yun Sheng had an aperture full of primeval essence, he would be unable to move, watching Gao Yang and Zhu Zai get surrounded by blood beasts and eventually consumed, leaving behind their pale white bones.

Throughout the process, Gao Yang and Zhu Zai would sometimes beg him, sometimes they would protect him, or curse furiously, or taunt him.

Eventually, when they turn into pale white skeletons, lying in the pool of blood, they would still say with their remaining skulls—

"I believe in Lord Tai Bai, he is so kind and righteous, he will definitely never abandon us!"

"Mm, I believe in him too! Even if I die, I will believe…"

Tai Bai Yun Sheng was in pain, he felt sadness, helplessness, and regret!

Especially at the end, he would kneel on the ground helplessly in his dream, letting the blood dye his white hair red as he cried profusely.

He felt that he was no longer Tai Bai Yun Sheng.

This experience made him reevaluate himself.

But every time he examined, it resulted in a severe negative answer.

Sometimes when he looked in the mirror, he felt that he was looking at a stranger!

Tai Bai Yun Sheng was not the only person who had a sleepless night.

It was late at night.

Imperial Court blessed land's night was dazzling with silver light, shining on the land.

Hei Lou Lan looked out of the window, above the sacred palace, Eighty-Eight True Yang Building was still forming new floors, the dazzling aurora was shining brightly in the sky, creating a beautiful scenery.

"Damn it! The owner token went missing, what in the world happened?" Thinking back to the time when he challenged the round, Hei Lou Lan gritted his teeth, he clenched his fists as his eyes shone with ruthlessness, ready to devour people with one glance.

Throughout history, there had never been any Lord of the Imperial Court who lost their owner token, but this had to happen to Hei Lou Lan.

"Forget it! So what if I don't have the owner token, so what if I cannot use the Grey Meltdown killer move? Whatever the difficulties, they cannot stop me from getting the strength path Immortal Gu! Mother, if you can watch this from the afterlife, see how I take revenge for you!"

Fang Yuan was slowly walking in the sacred palace's garden.

His expression was not nice, he had a grim look on his face.

In the flower garden, there was a jade fountain and a stone bridge, with flowers blooming and flourishing like it was spring, this beautiful environment was not something he could currently enjoy.

Right after coming out of the white jade hall, Fang Yuan was feeling vexed about the matter of subduing Imperial Court land spirit.

In his mind, Mo Yao's will chuckled: "Hehehe, to think that Imperial Court blessed land's condition for ownership was like that. Lad, with your gloomy personality, it will not be easy for you to find a woman that you love, while she also has to be deeply in love with you."

Not long ago, Fang Yuan faced Imperial Court land spirit Frost Jade Peacock, and was told the condition to become the owner of Imperial Court — true love!

To make the Frost Jade Peacock willingly submit to a master, and obey every command, one person was not enough, it had to be a Gu Master couple who were deeply in love.

It was very easy for Giant Sun Immortal Venerable to fulfill this condition.

But for Fang Yuan, it was filled with difficulty.

Not mentioning the other parts, just requiring Fang Yuan to be truly in love with a certain woman was a near impossible matter.

“If this was in my previous life, I would be able to fulfill it. But now…” Fang Yuan took a few steps and stopped at the stone bridge, he rested on the railing and looked at the jade lake below the bridge, laughing coldly.

The lake was like a mirror, under the radiance of the silvery night sky, it was a dazzling sight.

What he did in Eighty-Eight True Yang Building that night was really a scary experience, but that was over now.

At this moment, he was basking in the beautiful scenery around the sacred palace, compared to the dangerous predicament he was in earlier, this truly felt like a dream or illusion.

“Life is like a dream, like morning dew and nocturnal flower, like the shadow of a bubble…” Fang Yuan muttered, going into a daze.

The light breeze caused ripples on the surface of the lake.

Among the ripples, a blurry image of a woman’s figure seemed to appear in Fang Yuan’s absent-minded gaze.

That was the woman he had buried deep in his memories.

In Fang Yuan’s previous life, he had faced disaster and was a destitute wanderer, during the lowest time of his life, he had met her, the world's encounters were just so amazing, and the toying of fate was simply cruel and merciless.

"If we are talking about true love… why am I thinking of her?" Fang Yuan's fingers which were holding the railing exerted force unknowingly.

He frowned suddenly, and his gaze turned ice cold, the woman's figure silently vanished, and the surface of the lake appeared before him once again.

Fang Yuan fell into deep thought.

The current situation was not looking good!

Frost Jade Peacock was formed from the obsession of the blessed land's original owner, although it was arrogant, it would acknowledge true love.

But it was near impossible for Fang Yuan to meet its requirements.

If he could not subdue the land spirit, then Fang Yuan's plan for taking over Eighty-Eight True Yang Building would fail completely, he would have to stop here.

"No wonder the central continent Gu Immortals in my previous life chose to destroy Imperial Court blessed land, and destroy Eighty-Eight True Yang Building. Gu Immortals have lots of deep secrets and often have extreme personalities, it is harder for them to experience true love than mortals."

"After using Gruel Mud, even though the melting is slow, the land spirit's seal is getting weaker. After being sealed for hundreds of thousands of years, the land spirit is filled with hatred and desires freedom badly, it will definitely try to break the seal. Although Giant Sun's will is still slumbering, when the seal melts to a certain degree, or if the land spirit continues to resist, it will definitely awaken!"

This was Giant Sun Immortal Venerable's will!

When an Immortal Venerable rages, blood would flow like a river, all beings would mourn. But the land spirit has the territorial advantage, as long as the blessed land remains intact, it would have a continual source of strength.

When the two contest, it would be scarier than deities fighting. At that point, those who were mortals like Fang Yuan would suffer.

Especially when Fang Yuan was the culprit who released the land spirit, if he was targeted by Giant Sun's will, he would face a terrible end, there was no way out!

Fang Yuan's original plan was like this.

First, he would enter northern plains and make his way into Imperial Court blessed land.

He achieved this flawlessly, using his previous life's memories, he killed the Wolf King Chang Shan Yin who was at his last breath, taking over his identity and becoming a higher-up of Hei tribe army. Next, he hid within the alliance army and got into Imperial Court blessed land.

The second step was to get into Eighty-Eight True Yang Building and gain the most benefits for himself. Using the video from the central continent Gu Immortals in his previous life, he would subdue the land spirit and without alerting the Immortal Venerable's will, he would become the new owner of Imperial Court blessed land.

The third step, after becoming the owner of the Imperial Court, he would not be in a rush to take down Eighty-Eight True Yang Building, instead he would hide in the background and develop in secret.

Within Eighty-Eight True Yang Building, there was an Immortal Venerable's will, it was not easy to deal with. Imperial Court blessed land was a sacred place in the hearts of northern plains' Gu Masters, it could not be defiled or tainted.

If he was discovered, Fang Yuan would face the assault of the entirety of northern plains!

Such frightening power, even if Fang Yuan escaped to other places, it would be pointless. There would not be a single super force that would protect him from the pressure of the whole of northern plains' forces.

Unless it was during the chaotic five regions battle, when no one had the spare energy to bother with him, and when all five regions suffer setbacks, Fang Yuan would survive even if he was exposed.

After becoming the land spirit's owner, Fang Yuan would order the land spirit to stay inside the white jade hall, while cooperating with Eighty-Eight True Yang Building's operations.

This way, everything would progress smoothly.

First, he could use Imperial Court blessed land's strength to deal with the Gu Immortal Tai Bai Yun Sheng. This way, he would have a greater chance of success, and regardless of how their battle end up, Fang Yuan would not lose. Even if he failed to take the Immortal Gu Landscape as Before, Fang Yuan would not be in any mortal danger due to the land spirit's protection.

Secondly, Fang Yuan could use Fixed Immortal Travel to move between Hu Immortal blessed land and Imperial Court blessed land freely. Hu Immortal blessed land was being covetously eyed by Immortal Crane Sect, and every once in a while, there would be an earthly calamity, it would be the centre of many struggles and not the ideal place to cultivate peacefully.

By becoming the owner of Imperial Court blessed land, he could use Hu Immortal blessed land as his cover and Imperial Court blessed land as his true base. While cultivating, he could scheme against Immortal Crane Sect to gain the most benefits. If it failed, he could discard Hu Immortal blessed land and retreat into Imperial Court blessed land.

Imperial Court blessed land was protected by an Immortal Venerable's setup, it was hard for wisdom path Gu Immortals to make deductions involving it. Moreover, Fang Yuan would continue to fix and repair the loopholes in the future, thus it would be much safer than Hu Immortal blessed land!

Thirdly, Fang Yuan would own this precious resource, every time True Yang Building opens up, he could collect all these vast amounts of resources including Immortal Gu without putting himself in danger. When the time comes, he would do what he did in his previous life, subduing a blood path Gu worm and becoming a blood path Gu Immortal. It would be slow and steady, safe and sound.

But though the plan was perfect, reality was not.

Fang Yuan put in his best effort, but he was stuck at the second step.

Unable to become the land spirit's owner, he could not borrow its strength, as a mortal, there was nothing much he could do.

The situation was progressively getting worse, Giant Sun's will was definitely going to awaken. If Fang Yuan wanted to escape, he could use hole earth Gu and connect to Hu Immortal blessed land to flee. But he could not bring these few Immortal Gu with him!

Moreover, even if he obtained landscape as before Immortal Gu, how would he quickly and safely return to Hu Immortal blessed land?

Without the land spirit's help, as a mortal, Fang Yuan could not do that.

"At present, the plan can only be to first think of every possible method to convince the land spirit. If I am on its side, we can deal with Giant Sun's will together, and I might be able to borrow some of its strength. Sigh… I really do not want to use that final method."

Chapter 604 - Luck Inspection Gu

Chapter 604: Luck Inspection Gu

Translator: ChibiGeneral **Editor:** ChibiGeneral

Half a month later.

Eighty-Eight True Yang Building.

The wind scythe birds were densely packed together, a great number of them engulfed the sky as they charged towards the alliance army.

These wind scythe birds had beaks as sharp as swords, their wings were curved and razor-edged, like that of a scythe. They flew extremely fast, leaving behind afterimages in the air, and had no fear when they charged towards their enemies.

“Kill, kill, kill!” Hei Lou Lan shouted, the black smoke around his body was rolling, creating multiple black tentacles as they one after another captured the surrounding wind scythe birds and devoured them.

The battle of the army fighting against the wind scythe birds had been ongoing for an hour, with both sides suffering heavy casualties.

The floor was littered with bird corpses, but there were also many dead Gu Masters.

“Ahhhh…” Hei Lou Lan screamed, he was going berserk from fighting, stretching out his right hand.

His right arm was in a claw shape, as a dark spiral was formed, it rotated in the air and converged at the center of his right claw.

In the blink of an eye, thousands of dark streams gathered like they were flowing into the sea, into Hei Lou Lan's right claw like a black light ball.

The light ball was dark and mysterious, it spun on its own and gave out a thunder like sound.

"Go!" Hei Lou Lan's eyes suddenly opened wide as he shouted, using all his strength to point his claw at the sky.

He grabbed the round ball of black light like he was lifting heavy weight, his movement was very slow and strenuous.

Following this movement, the light ball slowly flew into the air.

In the air, it rapidly expanded, in a few breaths' time, it expanded to the size of a mountain.

At once, the black light ball occupied the sky covering half the alliance army's surface area.

Countless wind scythe birds were engulfed by it, melting and corroding, not even their bones were left intact.

The entire process was silent and strangely overbearing, people's hearts were turning cold from seeing this.

This was Hei Lou Lan's signature killer move — Dark Vortex!

After lasting for six breaths' time, the vortex killed tens of thousands of wind scythe birds.

The numbers of the wind scythe birds were too huge, and because they gathered above the alliance army, they were a terrifying threat.

After the dark vortex vanished, a huge clear hole appeared in the sky, but soon, the wind scythe birds flooded in like a tide, covering up the hole again. Above the alliance army, there were countless wind scythe birds again.

This was the twenty-fifth round of the sixty-eighth floor of Eighty-Eight True Yang Building.

The numbers of wind scythe birds were too great, among them were large numbers of bird kings, their assault was too powerful.

Actually, according to their experiences, they knew there had to be an easier way to challenge this round, but Hei Lou Lan directly charged in and mobilized all his strength to overwhelm the birds.

This attracted the revenge and counterattack of the frenzied wind scythe birds.

“Hahaha, kill all these damn birds!” At one side, Ye Lui Sang laughed. Hei Lou Lan’s explosive strength triggered his fighting spirit.

Ye Lui tribe was on the same level as Hei tribe, they were both super forces, having Gu Immortals backing them. Ye Lui Sang and Hei Lou Lan had the same status, they were both the tribe leader of their respective super tribes.

When he saw Hei Lou Lan’s killer move that killed countless wind scythe birds, he was not willing to hold back anymore.

“Look at my newly developed killer move — Flame Demon!”

Ye Lui Sang shouted loudly as his sleeves fluttered, and his primeval essence rushed into the Gu worms in his hands.

With a loud thud, his body was clad in flames as the flames burst out, all Gu Masters near him moved away.

Within the radius of a few hundred steps, he was the only person left.

His body trembled and the flames that could rise to heaven split to form a ten metre bronze ape that was completely made of flames.

The flaming bronze ape had an ugly appearance, with teeth like a gorilla, strange horns and bulging muscles. This was the flame demon!

The flame demon rose into the sky, crashing around as all the wind scythe birds that collided with it were ignited, screaming from being burnt alive.

Along its path, flames were burning, causing a straight line of them to form in the sky. Large numbers of wind scythe birds were roasted, falling to the ground.

The flame demon rampaged arrogantly, attracting the attention of many birds, it greatly reduced the pressure of the Gu Masters in the grand army.

“What fire demon, it is nothing much!” Far away, Hei Lou Lan laughed loudly, showing his smug arrogance.

Ye Lui Sang laughed as well: “Hei tribe leader, take another look!”

In saying this, his body shook as the flames fell off him, forming another flame demon.

Hei Lou Lan’s expression changed, not just him, even Fang Yuan who was in the army took a serious look. The flame demon had great strength, but to think he had more than one.

Eighty-Eight True Yang Building gave lots of opportunities, it was not just Fang Yuan and Hei Lou Lan who were improving, other Gu Masters were gaining many rewards as well.

When six flame demons entered the battlefield, the flames on Ye Lui Sang were finally extinguished.

“Six flame demons, thankfully…” Fang Yuan retracted his gaze.

Hei Lou Lan’s expression soothed as well.

Ye Lui Sang had true capability, this killer move was really extraordinary, but that was as far as it got. In terms of power, it could only be on par with dark vortex.

The flame demons rampaged for an hour as their strength fell more and more, eventually perishing among the wind scythe birds.

But soon after, Fang Yuan, Tai Bai Yun Sheng, Xi Xue, Pei Yan Fei, Tao You, Gu Guo Long and others attacked, using all their killer moves. The great strength of rank five experts quickly changed the battlefield, tilting the scales of victory towards the alliance army.

Eventually, they succeeded, getting into the twenty-sixth round.

“Reporting to lord tribe leader, thirteen tribe leaders have submitted a letter of request, they are asking for a temporarily halt of advancement. They are worried about the huge casualties, they need to rest and recover.” Before Hei Lou Lan had finished probing this round, his attendant Hei Shu had already reported.

Hei Lou Lan frowned immediately, shouting: “Begrudging already despite such few casualties! These useless bums, they are all useless cowards! Return this request to them, and tell them we will advance no matter what. Whoever dares to escape or run away from the alliance army will have their entire tribe and any related tribes executed, none will be spared!”

Saying so, he held the letter in his hand and tore it into pieces immediately.

“Continue advancing, charge!” Hei Lou Lan waved his hand, shouting as he commanded the army.

He was anxious.

These days, Eighty-Eight True Yang Building would emit a strange tremor every few days.

Coupled with the disappearance of the owner token, Hei Lou Lan felt that this was not a simple matter, his instincts were telling him that something unthinkable was about to happen.

To avoid any accidents in the future, he had to quickly get the strength path Immortal Gu now. Only after advancing to a Gu Immortal would he have the strength to control this changing situation.

The challenge this time lasted until the twenty-eighth round. Only after everyone was unable to continue and the casualties were too heavy did Hei Lou Lan have no choice but to retreat and recuperate.

…

In his room, Tai Bai Yun Sheng showed a bitter smile as he held several east window Gu in his hand.

These east window Gu contained the cultivation experience of previous generation Gu Masters, among them, most were time path attainment!

These were all the round rewards obtained from Eighty-Eight True Yang Building.

“Don’t tell me, this is the arrangement of destiny, for me to advance to Gu Immortal realm?”

Back then, Tai Bai Yun Sheng had failed in searching for a lifespan Gu, after wasting all his life’s savings, he had to become Hei tribe’s external elder.

He was a time path Gu master, rank five peak stage, with his sensitivity towards time he knew that he had little time left since a few years ago.

Although advancing to Gu Immortal realm could allow a Gu Master’s life to improve qualitatively, it could not increase his lifespan. But Tai Bai Yun Sheng’s situation was a little special.

His time path inheritance was extraordinary, it was a Gu immortal inheritance.

The core of his inheritance had three Gu, river as before Gu, mountain as before Gu, and man as before Gu.

The inheritance has theorized long ago: When he becomes an immortal, using the supreme opportunity of the resonance of heaven and earth, he could advance his man as before Gu into an Immortal Gu.

The mortal man as before Gu could only be used on others.

Immortal Gu Man As Before, could be used on himself.

“If I have the man as before Immortal Gu, I can use it on myself and extend my lifespan. Unfortunately, man as before is not like the Spring Autumn Cicada, I cannot save Gao Yang and Zhu Zai. Sigh…”

Thinking of this, Tai Bai Yun Sheng’s heart was worried, the intense regret and guilt assaulted him once again.

…

Fang Yuan stood at the peak of the tall tower, looking at Hei tribe.

Luck inspection Gu had been activated for a while, it gave him a different field of vision from others.

This rank five mortal Gu was the sole, unexpected gain that he obtained inside the true inheritance secluded domain.

Luck inspection, as the name suggests, could be used to inspect luck. It was an investigative Gu worm.

In his vision, in the living quarters of Hei tribe, there were countless smoke-like luck strands. But among them, two were extremely thick, like cranes among chickens, even the palace’s rooms could not hide them.

One came from Hei Lou Lan, his luck was like a huge pillar, with an azure color, it was thick and long. The other came from Tai Bai Yun Sheng, his luck was like the flames burning during sunset, red and bright, it accumulated above the roof of his house, it was like the feeling of dazzling flames.

“The luck of these two are extremely high, but they are different. Hei Lou Lan’s luck has a lasting feeling. Tai Bai Yun Sheng’s luck is like a pile of old firewood, burning at the last moment. In recent days, I secretly manipulated the rewards and placed many time path attainment experiences as rewards to give them to Tai Bai Yun Sheng. Every time he gets one, the firey red luck above him turns brighter by a bit. The possibility of becoming an immortal also increased slightly."

Fang Yuan thought about it for a long time, he sighed in his heart when he thought about the mysterious and unfathomable luck path.

But he had only obtained a single luck inspection Gu, he did not know the details of the inheritance, it was like opening a new window, towards this new path, he could only explore it slowly.

He used the luck inspection Gu on himself.

Fang Yuan's body was shrouded in black ink-like luck. This luck gathered and formed a huge coffin shape, completely covering his body, they were emitting a dense death energy, the energy of great misfortune.

Even though Fang Yuan had looked at this many times, his heart always sank when he observed this.

"My luck is not looking optimistic. But these days, all my talks with the Imperial Court land spirit have had no progress. This land spirit is too arrogant, it only wants to break the seal and regain its freedom. True Yang Building has already shaken thirty-eight times, eventually, Giant Sun's will would awaken."

"Eh?" Fang Yuan gasped, he looked at a group of Gu Masters, they were all shrouded in a black coffin-like luck, heading in the direction of Hei tribe.

A moment later, they all entered Tai Bai Yun Sheng's residence.

Fang Yuan thought about briefly before understanding their intentions.

"This is a good opportunity for me to understand the meaning of this black coffin luck." Fang Yuan's gaze was dark, he gave a deep glance towards Tai Bai Yun Sheng's location.

Chapter 605 - Pitiful Person (Double chapter)

Chapter 605: Pitiful Person (Double chapter)

Translator: ChibiGeneral **Editor:** ChibiGeneral

“We implore you to help us, old sir Tai Bai!”

“I am sincerely asking old sir to go forward and plead for us.”

“The whole of my tribe, our elderly, the weak, the women and children too, the future of all of our tribesmen are in lord’s hands…”

In the room, a group of Gu Masters were kneeling on the ground, crying profusely or showing a sad expression, they were desperately asking Tai Bai Yun Sheng for help.

These Gu Masters had rather special identities, they were all the tribe leaders of their respective tribes.

Lou tribe, Lu tribe, Xi tribe… all of these tribes were middle sized tribes or small sized tribes, during the process of challenging Eighty-Eight True Yang Building, they suffered the greatest numbers of casualties, if this were to continue, they might face the threat of being wiped out for good.

The previous few times, they had as a group written letters of request, asking to retreat, but they were all harshly rejected by Hei Lou Lan.

Survival was the number one priority.

Hei Lou Lan's oppressive and all out tactics had already severely harmed the survival and development of these small and middle sized tribes.

But because of the Black Tyrant's fierce reputation, these tribe leaders did not dare to approach Hei Lou Lan himself. After discussing among themselves, they decided to jointly approach Tai Bai Yun Sheng for help.

Tai Bai Yun Sheng was the current number one healing master in all of northern plains, he was well known to be kind and merciful, his reputation in northern plains was second to none. Now that he had become Hei tribe's external elder, he was greatly trusted and depended on by Hei Lou Lan.

If they could obtain Tai Bai Yun Sheng's help, their respective tribes might very well gain the precious time to rest and recuperate.

"Please get up and speak." Tai Bai Yun Sheng urged them.

"Old sir, if you do not accept our request, we will not get up!"

"Please go take a look at our tribes, you will understand our pain and grief then. Our injuries and casualties are simply too great, our women have lost their husbands, our children have lost their parents, and our elderly have lost their children…"

"Old sir, please go and talk to Lord Hei Lou Lan, if this carries on, our tribe is going to perish for good."

"Hmph, we did not die in the Imperial Court contest, but instead, we are facing extermination within Imperial Court blessed land, if word gets out, where would Hei tribe's reputation go to? This is simply too ironic!"

The tribe leaders talked one after another, they held a firm attitude and refused to get up from the kneeling position.

"Sigh…" Tai Bai Yun Sheng heaved a long sigh, he had already been very unhappy with Hei Lou Lan's actions to begin with.

There was enough time to go about this slowly, why did he have to be so anxious and rush their advancement?

Causing such grave and severe casualties, he could not bear to see this in his heart.

From Tai Bai Yun Sheng's perspective: Most likely, losing the owner token during the challenge of the second round had triggered Hei Lou Lan. Another reason was that the supreme elders of Hei tribe were pressuring him greatly. Because of this pressure, Hei Lou Lan had no choice but to give it his all in challenging the rounds.

"My servants, quickly come and serve tea to the tribe leaders." Tai Bai Yun Sheng instructed his servants.

He next turned around and consoled the band of tribe leaders: "This old man will do his best to talk to tribe leader Hei Lou Lan, but all I can say is, I will try my best."

"Old sir, you are truly a kind person, you are so benevolent."

"Gaining old sir's help, it is truly our tribe's greatest fortune!"

"Old sir, this is a letter of request that we have written collectively, we will be waiting for old sir's good news patiently."

All the tribe leaders were filled with gratitude and joy.

Tai Bai Yun Sheng received the letter of request from them and kept it in his pocket, after bidding farewell to the tribe leaders, he came to the grand hall and looked for Hei Lou Lan.

Hei Lou Lan was not settling the administrative matters of the army in the grand hall, instead, he was relaxing in the flower garden.

Tai Bai Yun Sheng hurried over quickly and when he saw Hei Lou Lan, the latter was playing chess in the lake pavilion.

Hei Lou Lan heard his intentions and first rejected him strictly, but when Tai Bai Yun Sheng urged him with reasoning and kind words, Hei Lou Lan slowly became less strict as he said: "How about this, I can let these tribes rest and recover temporarily, but they must lend out all of their Gu worms. My army will continue to advance, but we cannot reduce our strength just because of their absence! Every Gu worm that they lend will entitle them to one person who can rest, rank two Gu worm will exempt a rank two Gu Master. A rank three Gu worm will exempt a rank three Gu Master, and so on."

"Lord tribe leader is wise and merciful, I will thank tribe leader for his magnanimity on behalf of all the different tribes and their tribesmen." Tai Bai Yun Sheng knew this was the best result he could get, thus he returned and informed all of the tribe leaders about this result.

The tribe leaders looked at each other as they pondered over this, eventually accepting this condition.

Gu worms were the foundation and base of a Gu Master. Gu worms that were lent out were easy to get damaged, but it was much better than losing their own lives.

The casualties that these tribes were facing were simply too severe.

The next day, Hei Lou Lan ordered the black banner army to go to the respective tribes' resting area and collect their Gu worms, being late was not an option. He also sent Tai Bai Yun Sheng to control the situation and settle the relevant administrative matters.

After three days, this matter was finally settled.

Tai Bai Yun Sheng returned and reported to Hei Lou Lan, who invited him to a banquet.

During the banquet, Hei Lou Lan lifted his wine cup as he said: "Old sir, please have a drink! It was our great fortune that old sir joined our tribe, allowing the army to face much fewer casualties and injuries. Old sir, you revived countless people, you have accomplished great deeds."

"I am not worthy of such praise, but we have to try our very best at things, whether we succeed or not is up to heaven. With Longevity Heaven watching us, we can only do our best." Tai Bai Yun Sheng showed a look of shame, replying as he raised his cup. Hei Lou Lan's praise reminded him of Gao Yang and Zhu Zai.

In truth, every since he returned from the blood hall, every word of praise that he heard felt like an insult, like sarcastic comments that were whipping at his soul.

But today, after settling this matter, he resolved the conflict between Hei tribe and many small and middle sized tribes, in a way, he saved the lives of many Gu Masters.

This made him feel slightly better.

“With Longevity Heaven watching us, we can only do our best…” Hei Lou Lan drank his wine in one gulp, putting it down as he muttered, sighing: “Old sir’s words are very accurate and articulate, it is truly well said. Longevity Heaven is watching us, the road to the future is filled with mystery and unexpected circumstances, as mortals, we can only do our best. Elder Tai Bai had already done his best, I, Hei Lou Lan, should do the same as well!”

Tai Bai Yun Sheng heard this and suddenly felt that Hei Lou Lan had some additional meaning in his words, he immediately asked: “Lord tribe leader, what do you mean by that?”

Hei Lou Lan laughed heartily, he was about to speak when Hei Shu came in with a report.

His body was covered in blood, his expression was respectful and cautious, he came to Hei Lou Lan’s side and said: “Reporting to lord tribe leader, the black banner army has not failed your expectations, we have already settled it appropriately.”

Tai Bai Yun Sheng felt the killing aura around him and had a very ominous feeling, he quickly asked: “What do you mean by settled it appropriately? Hei Shu! What did you guys settle?”

Hei Shu did not speak, he raised his eyebrows as he gave Tai Bai Yun Sheng a passing glance, showing disdain in his eyes towards Tai Bai Yun Sheng’s compassionate and benevolent attitude.

“Hahaha, elder Tai Bai! It is exactly like what you said — we can only do our best! You are doing your best, and I am doing the same! I have to do all I can to break through the rounds, and accomplish the mission given to me by the supreme elder. Tell me, these people ran away in the middle of our task, what crimes have they committed? They were able to develop to this extent because they relied on me. Taking advantages when they can, and hiding when there is trouble, is there such an easy and simple thing in this world? Hmph! If everyone was like that, would my army need to exist anymore? Will there be anyone left who would challenge the rounds with me?" Hei Lou Lan said this with a sharp and resolute tone, his eyes were shining with a ruthless light.

Saying this, there was no need to mention what the task given to the black banner army was!

"Hei Lou Lan, you!" Tai Bai Yun Sheng stood up in a flash.

He stared at Hei Lou Lan with a furious gaze, he showed shock, anger, and even hatred on his face.

"Insolent!" Hei Shu was unhappy and was about to strike, but Hei Lou Lan stretched out his hand and stopped him.

"Elder Tai Bai, do not forget your current status." Hei Lou Lan kept away his ruthless expression and poured another cup of wine indifferently.

Tai Bai Yun Sheng clenched his fists, his body was shivering from pure anger.

He stared at Hei Lou Lan fixatedly, he wanted to scold him, but no sound came out of his mouth.

Hei Lou Lan chuckled, pouring a cup of wine for Tai Bai Yun Sheng personally: "Old sir, take a seat, such beautiful and relaxing scenery paired with good wine and food, we should not let it go to waste."

"Screw your good wine and food!" Tai Bai Yun Sheng swept his sleeves furiously, with a loud crash, all the wine cups fell onto the floor.

Hei Lou Lan was unmoved, instead he pointed at the dishes on the table as he laughed loudly: "Elder Tai Bai, this is a banquet to celebrate your success. If not for your support, why would they trust us so much and lend out their Gu? As they did not have their Gu worms with them, my black banner army could quickly swoop in and take them down, easily obliterating them. I have no one but you to thank for this.”

Tai Bai Yun Sheng heard this and felt like lightning had struck him, he staggered three steps back as his face turned completely pale as paper.

“Hei Lou Lan, you are really an unscrupulous scoundrel!”

“Unscrupulous? I cannot believe this, you are saying such naive things? Elder Tai Bai, you were also once the young tribe leader of a tribe, after living for so many years, have you not seen the reality of this world? These so called political affairs have always been dirty.”

Tai Bai Yun Sheng wanted to rebuke him, but there were no words he could say.

He snorted coldly, turning around and leaving, walking out of the hall quickly without even turning back once.

“Lord tribe leader, should I send people to surveil Tai Bai Yun Sheng?” Hei Shu inquired.

Hei Lou Lan raised his wine cup, his expression was plain, without a bit of nervousness. He glanced at Tai Bai Yun Sheng’s back as he laughed coldly: “Tai Bai Yun Sheng is merely a healing Gu Master, what’s there to be afraid of? His reputation? Hehe, after this matter, who would dare believe in him again? Good deeds go unnoticed, while bad deeds travel a thousand li…”

Hei Shu heard this and his heart jumped: “Anyone who holds a high political position is an unfathomable schemer indeed!”

At this point, he could see that Hei Lou Lan’s actions were killing three birds with one stone.

Firstly, by causing bloodshed in these small and middle tribes, he was creating an example to show the others. Secondly, he could suppress Tai Bai Yun Sheng, making him understand what status he is currently holding. Thirdly, it is to attack Tai Bai Yun Sheng's reputation, in order to strengthen his own political power.

Tai Bai Yun Sheng walked quickly towards the scene of the incident.

The slaughter had ended, in order to create more fear in people, Hei Lou Lan did not order his men to clean up the area.

Tai Bai Yun Sheng looked around, his expression turning white, and his heart was shivering.

The sacred palace was dyed in blood, corpses were everywhere on the ground.

Not just strong adult men, there were even the old, the weak, women and children. Some of them had their eyes wide open, dying an indignant death; some of them had their arms and legs chopped off, some were cut in half, it was a gruesome sight; some had messy clothing, their expressions were twisted and in agony, it was evident that they had been humiliated in an inhuman way before they died…

All of this… all of this…

"It was all caused by me. If not for me trusting Hei Lou Lan, if not for me trying to mediate the tension between the two… I was too foolish, I was too naive! I did not manage to see Hei Lou Lan's ugly and evil intentions! All these people, they all died because they placed their trust in me!"

Tai Bai Yun Sheng's body was shivering, the intense smell of blood was assaulting him, and the scene of a sea of corpses lying on the ground was causing a huge impact on his fragile state of mind.

His back was hunched, the mild wind blew at him and caused his beard to move slightly, he had deep wrinkles and a dazed expression, his fists were tightly clenched, soundlessly expressing the grief, agony, regret, and self blame that he was feeling deep in his heart!

Plop.

He kneeled on the ground weakly, holding himself up with his hands as the blood dyed his palms, his knees, and his pants bright red.

“Sorry, I am sorry…”

Tai Bai Yun Sheng wept profusely, at once, his face was like an overflowing river.

“This is a good person… even though there is also darkness in his heart, in the end, there is great terror when one is between life and death. Facing death, which normal person would not lose themselves?” Far away, at a hidden corner, Fang Yuan had been observing this intently and silently.

He watched the scene unfold with his very own eyes.

It turned out that the black coffin luck represented a severe disaster that would threaten his life. The extermination of these tribes was the best proof of that.

Meanwhile, the death energy on his body was more than dozens of times thicker than these tribes’ members, even a hundred times as thick!

“Hehe, this is so interesting. Luck huh…” Fang Yuan’s lips curled into a cold and arrogant smile, he wanted to see if this so called bad luck could stop him in his steps.

“In this life, there is no person, any reason, or any difficulties that can affect my determination in moving forward!” His gaze was cold and still as ice, looking towards Tai Bai Yun Sheng.

“Who said that kind people will be rewarded?” Thinking of this, Fang Yuan’s cold expression turned into one that had a trace of sarcasm: “Then let me give you a hand.”

He activated his Gu worms in secret, forming an illusory voice that was untraceable, as the soundwaves entered Tai Bai Yun Sheng’s ears one by one.

Tai Bai Yun Sheng’s state of mind was close to collapsing, his mind was extremely susceptible to influences.

At this moment, he could hear a voice, it sounded just like Gao Yang and Zhu Zai.

“I believe in you! You will definitely save us, isn’t that right?”

“Old sir, you are our benefactor. We are grateful to you, we are willing to risk our lives in order to come forward and help you!”

“Ah!” Tai Bai Yun Sheng screamed suddenly, opening his eyes abruptly.

With his blurred vision due to his tears, he looked at the blood puddle on the ground.

The blood puddle rippled, as the nightmare that haunted him appeared once again, the image of Gao Yang and Zhu Zai dying from the sea of blood beasts!

Tai Bai Yun Sheng’s body shuddered, he was still like a statue, but the next moment, he raised his head and screamed with all of his energy.

“AHHHHHHHHHH!”

His shrill and hoarse voice resounded in this bloody slaughterhouse.

“Hehehe, hihihi, hahaha!”

When his screaming ended, Tai Bai Yun Sheng started laughing like a maniac.

His laughter contained the feeling of madness, but also anger and sadness, there was also a trace of mockery towards himself, towards the mortal world.

“Crazy? He’s crazy!”

“Elder Tai Bai has gone mad!!”

The surrounding Hei tribe Gu Masters were shouting in shock.

Meanwhile, Fang Yuan was curling his lips and smiling, he was a transmigrator, and had also undergone rebirth, his rich life experience had allowed him to grasp the psychology of people to a very precise degree.

Tai Bai Yun Sheng was a very good person.

But his subconscious action in the blood hall was akin to betrayal.

This action created suspicion, doubts, and denial that he felt towards himself in terms of his personal values.

If a person denied himself, and suspected himself, then he would no doubt fall into a deep abyss of agony.

Very evidently, Tai Bai Yun Sheng was in great pain, he felt guilt in his heart, almost every night, he was tormented by a similar nightmare.

For him to accept that he had some kind of despicable and lowly character as a fact, it would be impossible to do so. His entire life revolved around justice and benevolence, he had walked on this road for too long, he wanted to return to it, but he knew that in the deepest part of his heart, this action formed a barrier that he could not cross.

He was stuck in the abyss of agony, sinking deeper and deeper the more he struggled.

The tribe leaders’ request towards him was a chance that he had towards salvation, and a redemption for his mistakes.

If he could really succeed, it was undeniably the best medicine for him to pay for his sins, and he would be able to forgive himself.

But the truth was, Hei Lou Lan ordered a mass slaughter, not leaving even a single woman or child behind. This in turn caused Tai Bai Yun Sheng to become the biggest assistant in this murder spree.

His medicine turned into a heart piercing poison, the intense toxins caused him to lose himself, his mental state was close to breaking down.

At this juncture, Fang Yuan pushed him lightly, finally causing Tai Bai Yun Sheng to explode, breaking from the deepest part of his heart.

Perhaps only Fang Yuan could understand him at this point.

To put it in another way, after searching through his soul, Fang Yuan, who had seen Tai Bai Yun Sheng's entire life, could be said to know him intimately.

But the cruel reality was, this person was not his kin or his friend, he was an enemy plotting against him.

Fang Yuan, who was hidden in the darkness listening to Tai Bai Yun Sheng's laughter, looked on with an expression of appreciation, smiling lightly.

This was a respectable and pitiful old man, he screamed his lungs out, in his laughter, on his face full of tears, he was questioning himself, he was questioning the cruelty of this mortal world, fate was toying with him and he was helpless to resist.

"If you deny even yourself, what can you do?" Fang Yuan muttered lightly, his gaze was as deep as night.

"Go to the blood hall again and try to challenge the round? No, if you are there, your mind will be full of Gao Yang and Zhu Zai's images. Go seek help? Who can help you now? Hei Lou Lan? It can be assumed that you have just fallen out with him. Or rather, even if you manage to get the lifespan Gu, will you be able to use it with peace of mind?"

"Hehe, the current you, what options do you possibly have? What choices can you still make? Denying yourself, wallowing in self pity, feeling intense pain and grief, you, a person who is facing a trial of your conscience, what option do you have?"

In Fang Yuan's heart, an answer was becoming clearer.

"Thus, go ahead and make your decision, I hope you will not let me down!" In the darkness, Fang Yuan's gaze was shining as he looked at the crazy Tai Bai Yun Sheng.

Tai Bai Yun Sheng was laughing wildly, his voice was bitter like he was wailing.

He tore his clothes, as tears and mucus were mixing on his face, he did not have the demeanour of a rank five peak state expert at this point.

He was someone who feared death, but he was also a good person who was pushed into a corner by this cruel and ice cold mortal world.

In truth, he was more like a —

Pitiful person.

Since some time ago, a mild wind had started blowing.

The wind gradually grew bigger and bigger, as clouds were forming in the sky.

With Tai Bai Yun Sheng as the center, the surroundings were quietly and rapidly transforming

Some sort of mystical change had started, heaven and earth were beginning to tremble.

"You did not disappoint me in the end…" Fang Yuan was extremely excited, he took his leave and vanished without a trace.

He rapidly travelled far away, retreating.

Because…

It was no joke when a Gu Master advances into an immortal.

Soon, the wind and clouds went wild, as heaven and earth changed!

The dark and thick black clouds looked like they were about to collapse at any time, destroying the sacred palace.

In and out of the sacred palace, shouting could be heard everywhere.

"What is going on?"

"What in the world is happening?!"

Countless people did not know what was happening, they fell into a panic.

“This… could it be?!” Some people with greater knowledge and experience stared at this grand scene with a dumbfounded expression.

“Go investigate, go investigate! Who is it?!” In the hall, Hei Lou Lan was furiously screaming.

“Lord, it is Tai Bai Yun Sheng!” Hei Shu was full of sweat as he stumbled his way into the hall and reported this.

Hei Lou Lan’s expression froze, he was as still as a statue for a moment.

A few breaths later, he reacted and shouted with a twisted expression: “Retreat! Order everyone to leave the sacred palace. Of course, those who wish to die can stay here!”

Chapter 606 - Awakening

Chapter 606: Awakening

Translator: ChibiGeneral Editor: ChibiGeneral

The sky turned dark and gloomy, and the wind howled.

A formless heavenly power slowly lifted Tai Bai Yun Sheng into the air.

He laughed maniacally, his white beard fluttering in the wind. There were no signs of the usual warmth and benevolence on his face, it was replaced by a crazed and distorted look.

Everyone in the sacred palace was in panic; Gu Masters fled in a hurry, forming a huge stream of people that was fleeing for life towards the outside.

Only after running an immense distance, did the crowd anxiously stop.

Expert Gu Masters moved toward the peaks of hills or directly flew to the sky, and used investigative Gu worms to observe the scene above the sacred palace with different thoughts going through their minds.

Other Gu Masters also raised their heads to gaze at the floating Tai Bai Yun Sheng with looks of respect, reverence, affection, worry, envy and so on.

The news of Tai Bai Yun Sheng advancing to Gu Immortal had already spread amongst everyone.

Advancing to Gu Immortal!

This was something that most people would not experience in their whole life, and unexpectedly it was happening before everyone's eyes at this very moment.

“Inconceivable, Tai Bai Yun Sheng has yet to use any Gu worms but he actually caused such a change in weather!” Looking at the surging clouds and hearing the raging winds, many Gu Masters shouted out in surprise.

Soon the surprised voices surged into a commotion.

Because it was not only the weather that had changed, even the ground under their feet was beginning to shake.

At first, it was only a negligible tremor, but soon vast smoke and dust started to rise from the ground.

“This is the turbulence of earth qi!”

“According to the records in the tribe, Gu Masters have to first break their aperture to advance to Gu Immortal! After breaking their aperture, they can attract heaven qi and earth qi!”

Ye Lui Sang, Hei Lou Lan and some others were from super tribes, and knew a lot more than normal people. At this moment, shock could clearly be seen in their eyes.

The first step in advancing to Gu Immortal was breaking the aperture.

Using primeval essence in an all-out assault to completely shatter one’s own aperture. Like this, the sealed aperture that was covered by the crystal wall would turn into a hole in the Gu Master’s body.

“Just this first step needs extremely great courage. Because there is no turning back after shattering the aperture.” Gu tribe leader Gu Guo Long said with a sigh.

“Advancement to a Gu Immortal is extremely difficult, with miniscule chances of success! Tai Bai Yun Sheng is too courageous, actually daring to take this step. He truly leaves us in admiration.” Nie tribe leader Nie Ya Qing was deeply moved.

Hei Lou Lan’s expression was complex.

He knew some inside details, a part of the reason why Tai Bai Yun Sheng was advancing to Gu Immortal was probably due to his actions.

“I was the one who provoked Tai Bai Yun Sheng, leading to him choosing to take the risk to advance in his crumbling mental state. This is good, although I learnt about immortal ascension from records, I really want to personally observe it. Tai Bai Yun Sheng’s advancement into Gu Immortal will provide a great reference and be helpful to me. It is just that… so be it if he fails, but if he really successfully advances into a Gu Immortal, how should I treat him?”

Hei Lou Lan immediately frowned at this thought, feeling a headache.

Fang Yuan observed the scene while sitting on a back of an azure wolf king, surrounded by an azure wolf group.

“Advancement to Gu Immortal…” His dark gaze had excitement and also showed an expression of recalling the past.

He again used luck inspection Gu to examine Tai Bai Yun Sheng, the luck on him was now like a raging wildfire, originally it had been like flames with a growing red glow. Now, it was even more flourishing, blazing like an inferno!

“His luck is blazing, he had successfully advanced into a Gu Immortal in my previous life, that should not be a big problem for him in this life.” Fang Yuan inwardly nodded.

Unlike Hei Lou Lan with his doubts and hesitation, Fang Yuan already had a plan to face the Gu Immortal Tai Bai Yun Sheng.

He tried to look once more, but the luck inspection Gu actually suffered injuries from the extreme pressure.

His own eyes also felt a burning pain.

Fang Yuan immediately stopped the activation, not surprised at all.

Tai Bai Yun Sheng had already broken his aperture, attracting heaven and earth qi in a huge surrounding range. Using Gu worms in this range will naturally create chain reactions, making the heaven and earth qi surge and trigger a backlash.

If one was stubborn and forcibly activated their Gu, even an Immortal Gu would be injured and might even die, not to mention mere mortal Gu.

Fang Yuan had not considered using Gu worms at this time to plot against Tai Bai Yun Sheng because of this reason.

If he rashly made a move in this period, he himself might be implicated.

In an instant, the dark clouds in the sky surged, and together took the shape of a giant vortex.

In response to this, yellow-brown dust churned endlessly on the ground, creating a vortex that resembled the formation of a loophole.

“This Tai Bai Yun Sheng has deep foundation and accumulation, his human qi is so majestic, actually attracting so much heaven and earth qi! This scene is actually more spectacular than when my tribe’s supreme elder advanced.” Ye Lui Sang was endlessly shocked.

Tai Bai Yun Sheng had an immortal inheritance and roamed northern plains his whole life, gaining extremely rich experience. By now, he had almost run the course of his entire life, thus his accumulation was incomparably deep.

The two giant vortexes covered miles of range.

Tai Bai Yun Sheng gazed up and saw the majestic and fierce vortex which looked like a giant beast opening its mouth.

In comparison, Tai Bai Yun Sheng’s body was small, like a tiny insect near a pond.

But Tai Bai Yun Sheng still kept on laughing maniacally.

“Come, come!” He shouted, his body shook with fear and excitement, but also relief. Even if he failed, he would at least be freed from this nightmare.

Seemingly hearing his shout, the brewing vortex began to slowly rotate.

In the sky and on the ground, two giant vortexes rotated like a millstone.

Lightning flashed in the dark and cloudy vortex in the sky, with the thunder rumbling repeatedly. On the ground, the dusty vortex caused purple smoke to ascend with violent explosive sounds.

Like grinding stone, the dark and cloudy millstone sprinkled down a clear and bright aura. While from the dusty one below, rose a golden aura.

They were heaven qi and earth qi!

Heaven qi was clear and moved freely; earth qi was profound and dense.

And Tai Bai Yun Sheng's body released a white human qi.

This human qi was extremely dense and like a cocoon, it formed a large sphere that tightly covered Tai Bai Yun Sheng.

Heaven qi was raining down while earth qi was bubbling up, both intertwined in the air with human qi.

Heaven, earth and human, the three qi converged together and began fusing.

"First step is breaking the aperture, the second step is taking in the qi." Hei Lou Lan mumbled.

"Breaking the aperture is a point of no return, the only possibility of survival is in success and failure means certain doom. And taking in qi tests the nature of the Gu Master and their ability to control it. This step is extremely crucial and is like walking between cliffs on a tightrope. If the balance is even a little off such that the human qi is slightly in excess, it will lead to self-detonation! If heaven qi is slightly more, the Gu Master will dissolve into the sky! If earth qi is slightly more dense, the Gu Master will turn into a fossil and suffocate to death! Difficult, truly hard, truly difficult!" Ye Lui Sang lamented while shaking his head, even as a spectator, his heart shook at this sight.

One can only move forward when they begin the advancement to a Gu Immortal, there is no going back. The danger is extremely high, thus many rank five peak stage Gu Masters, even if they knew the method to advance to a Gu Immortal, would not choose to take the risk unless as a last resort.

The expert observes the process while the layman simply enjoys the show.

Most people only watched the sight while bustling with noise and excitement.

But the few expert Gu Masters who knew the inside details were dripping with sweat, their hearts palpitating with fear from the sight.

Fang Yuan was the one with the most experience regarding this.

The process of charging to Gu Immortal realm and becoming a blood path Gu Immortal in his previous life had left behind an extremely deep impression on him.

“This second step is extremely difficult, it not only tests the Gu Master’s ability to control the balance, what it tests even more than that is the Gu Master’s nature.” He inwardly sighed.

Heaven qi and earth qi attacked the body, and the three qi converged; this was the process of a mortal blending with heaven and earth.

An ordinary person would never have such a moment where they are this intimately close to heaven and earth.

Heaven and earth were the cornerstones to nurture all living beings, the resonance between heaven qi and earth qi would fill the Gu Master’s mind with the wonders of the Great Dao.

Experiencing the Great Dao was an extremely rare opportunity and the Gu Master could easily lose themselves in it, not being able to extricate themselves. This could very easily lead to an imbalance between the three qi.

Even more crucially —

The higher the amount of heaven qi and earth qi taken in, the higher the chance of advancing to a Gu Immortal. At this crucial time, the Gu Master would often get greedy and take in too much heaven qi and earth qi, leading to an imbalance between the three qi and perishing.

Tai Bai Yun Sheng did not disappoint Fang Yuan, he persevered and stabilized the situation, controlling the three qi perfectly and progressing slowly.

“This Tai Bai Yun Sheng probably received an expert’s guidance!”

“Tai Bai Yun Sheng actually accomplished it, the second step could not stump him at all. This man really is not simple…”

“We need to keep on watching. Being able to do it now does not mean he can maintain the state until the end.”

Hei Lou Lan and Ye Lui Sang were feeling bewildered.

Rumble!

Right at this time, a change occurred.

As the aurora in the sky shook, Eighty-Eight True Yang Building experienced intense tremors. As its cornerstone, the sacred palace started shaking as well, dust rose and many beautiful courtyards collapsed.

“What is going on?”

“Eighty-Eight True Yang Building!”

Everyone shifted their gazes in shock.

“Hmph, it is here.” Fang Yuan sneered, but was well aware of this.

Inside the True Yang Building, the land spirit was furious!

Tai Bai Yun Sheng advancing to a Gu Immortal meant he was taking in heaven qi and earth qi. But this world was not the outside world of northern plains, but was Imperial Court blessed land, a small world of its own.

Tai Bai Yun Sheng was using up this small world's heaven qi and earth qi which was akin to weakening Imperial Court blessed land and was basically extracting the source of the land spirit's strength.

Could the land spirit not be angry?

It had been imprisoned for countless years and now finally had the hope of obtaining freedom.

Although it was formed from an obsession and did not know how to tell lies, but it had intelligence and understood the strategy of concealing itself.

The land spirit had originally planned to restrain itself, fearing Giant Sun's will. It would wait till Gruel Mud had corroded the shackles on it to a certain degree before it broke out in one violent move.

But now that Tai Bai Yun Sheng was charging into Gu Immortal realm, he was not only extracting the strength of the land spirit, but was sure to awaken Giant Sun's will! The land spirit would then have all its hopes dashed.

Even more likely, it would be forcibly suppressed by Giant Sun's will again.

With no choice, it could only make a quick decision and take advantage of Giant Sun's will still being in hibernation at the moment, to resist and avoid giving Giant Sun's will time to be prepared!

Thus, everyone looked on as the True Yang Building shook, bringing destruction to the fish in the ponds as many structures in the sacred palace collapsed.

In the True Yang Building, the land spirit Frost Jade Peacock let out a loud cry.

Its attack was extremely effective as the green paste covering its body immediately melted until below its neck and five to six black chains on its body also broke!

“Huh?”

A light mumble, as if just waking up from a dream, echoed out from the depths of the True Yang Building.

“Who has such guts to awaken me from my slumber?” From the infinite and eerie darkness, a giant will resembling the sun slowly woke up.

It was originally only a small glimmer, but soon brightened up to the extent that it could pierce through ten layers of the underworld, sweeping past every corner of the True Yang Building.

Fang Yuan’s will that had refined the guest halt stele simply could not defend itself and was immediately wiped out. The glass owner token he held also started becoming boiling hot!

Chapter 607 - Ambushing Giant Sun’s will

Chapter 607: Ambushing Giant Sun’s will

Translator: ChibiGeneral **Editor:** ChibiGeneral

A will blazing like the sun passed through the glass owner token and attacked Fang Yuan’s mind.

The will was like a golden flood as it rampaged directly into Fang Yuan’s brain!

Will was formed from large numbers of specific thoughts, if Giant Sun’s will was allowed to erode his mind, Fang Yuan could very likely turn into a demented amnesiac.

“This is bad! Quickly throw away that damned owner token!!” Mo Yao’s will appeared in his mind, and screamed.

She was the will of a Gu Immortal who had reached rank seven before death; her background knowledge of will was much deeper than Fang Yuan’s.

Her own gains and losses were linked to Fang Yuan, like two locusts tied with a thread.

The mind was a vital place, Fang Yuan would not want to start a battle in there.

“No need to worry.” he sneered. He was already prepared so he was not concerned, soon activating the special will Gu.

The special will Gu received the primeval essence and directly flashed into Fang Yuan's mind, blocking the will of Giant Sun.

The golden-like will came to an abrupt stop, completely halted by special will Gu!

The special will Gu then burst out with a strong absorption force, devouring Giant Sun's will unceasingly. The small will swallowed the big will, as if an ant swallowing an elephant, but Giant Sun's will had no ability to resist.

"This is…" Mo Yao's will was stumped for a while before coming to a realization, "So Giant Sun's will was a special will!"

Wisdom path had developed for a long time since its start at the Remote Antiquity Era, continuing to this day.

Will was classified under wisdom path and naturally the contents regarding it were plentiful. Not only was will divided into many types, there were also all sorts of effects.

Back when Fang Yuan had just ventured into it, he had already bought many wisdom path Gu worms. For example, special will Gu, deliberate will Gu, play will Gu, keep will Gu and new will Gu which were specially used to condense special will, deliberate will, play will, keep will and new will.

These five types of will had their advantages and disadvantages, requiring the Gu Master themselves to choose the appropriate will according to the situation.

Among them, special will could be arranged in advance and automatically trigger under special conditions.

To explain this in a simple fashion, let's take a rat trap as an example. When a rat comes in contact with the trap (fulfilling the special condition), the rat trap will then activate, trapping the rat (the prior setup is triggered, activating the trap).

Giant Sun Immortal Venerable considered dangerous situations occurring in the future, and for the benefit of his descendants, he chose to use the most suitable special will Gu to create a will of himself and placed it in Eighty-Eight True Yang Building.

As long as the danger reached a certain degree, the special condition would be fulfilled and the special will would trigger Giant Sun Immortal Venerable's prior setup. As for what the activation requirement of this prior setup was, outsiders did not know. Even Fang Yuan who had been reborn was not clear about it.

But from the video clips in his previous life, he knew Giant Sun's will was a special will.

Knowing this made it easier for Fang Yuan.

Giant Sun's will was an Immortal Venerable's will, but it must also follow the laws and Great Dao of the world. The will was condensed by a Gu worm, and similarly could be subdued by the corresponding Gu worm.

Thus, Giant Sun's special will was greatly restrained by special will Gu. Within Fang Yuan's mind, Giant Sun's will had yet to show its might before it was swallowed by Fang Yuan's special will Gu.

After swallowing this will of Giant Sun, special will Gu's belly immediately bulged like a fatty who had stuffed himself to the limit.

"Haha, what a great will." Fang Yuan praised it but was inwardly shocked, 'That was dangerous! Although it was restrained, it was after all an Immortal Venerable's will. Even if it was only a strand, it was really not easy to deal with!"

The glass owner token was a part of Eighty-Eight True Yang Building. Giant Sun's will attacked Fang Yuan through this owner token. But if the owner token was compared to a passage, this passage was way too small and could only allow a strand of Giant Sun's will to pass.

If the passage was just a bit bigger, the situation would be completely different.

This strand of will that special will Gu had eaten was simply negligible compared to the Giant Sun's will in True Yang Building.

Falling prey to Fang Yuan's small scheme, Giant Sun's will could not contain its anger: "Swindler, you dared profane my, Giant Sun's, honor! I will crush you to pieces!"

Rumble!

True Yang Building started shaking, giving off all kinds of lights which infused the sky, a peerless power seemed to manifest, shaking heaven and earth.

Even though Giant Sun Immortal Venerable had already died and was unable to mobilize Eighty-Eight True Yang Building using just his will, but within Eighty-Eight True Yang Building, Giant Sun Immortal Venerable had left behind a large amount of rank nine yellow apricot immortal essence!

Wild Gu could directly absorb the primeval essence in the air, but would lose this ability when they are refined and have to absorb the Gu Master's primeval essence.

Eighty-Eight True Yang Building was an Immortal Gu House and was under the command of Giant Sun's will, it could activate by absorbing the immortal essence left behind by Giant Sun Immortal Venerable; it was extremely simple and easy, as if it was natural!

"Run!" Looking at Eighty-Eight True Yang Building about to show its power, Mo Yao's will anxiously warned Fang Yuan.

Fang Yuan was a despicable thief who had refined a part of True Yang Building, and now that Giant Sun's will had awakened, it classified him as an enemy.

Fang Yuan did not have Giant Sun's bloodline, this enmity was too big, Fang Yuan was directly marked down and an unprecedented killing intent was about to befall upon him!

"There's no hurry." Calamity was coming right for him, but Fang Yuan appeared indifferent and relaxed.

He tightly held the glass owner token.

This particular token was not simple!

It was a product created by expending an Immortal Gu using an owner token as the base. It was a crucial key for which central continent's Gu Immortals and several large forces had prepared with meticulous care over thousands of years.

"Still causing trouble after death, hmph, what era are we living in now!" Fang Yuan snorted and with no fear sent a thought through the glass owner token, launching an ambush.

True Yang Building shook intensely, the aurora that filled the sky instantly collapsed by over half. The phantom image that appeared when condensing the floors was like a candle in front of a great wind, as it collapsed and dissipated.

Everything came to an abrupt stop.

In True Yang Building, Giant Sun's will let out a frightening and furious howl as it was besieged and attacked by countless special will Gu.

These special will Gu were the preparation of central continent's Gu Immortals which had been accumulated for thousands of years, a trump card specially arranged to deal with Giant Sun's will.

Giant Sun's will's weakness was thoroughly targeted, like a sheep surrounded by a pack of wolves.

It had immediately wanted to activate Gu worms to massacre these special will Gu.

Eighty-Eight True Yang Building was an Immortal Gu House, a solidified killer move formed from many Immortal Gu and mortal Gu. Naturally, it had methods to clean up the enemies.

But central continent's Gu Immortals had researched deeply and already calculated this.

Coordinating with special will Gu's attack were other shocking methods, actually sealing all of the yellow apricot immortal essence Giant Sun Immortal Venerable left behind.

True Yang Building was not able to move without the immortal essence and immediately stopped all actions. Even though Giant Sun’s will was seething with rage, it did not have any method to instantly resolve this, thus landing in a predicament.

True Yang Building sank into deathly stillness as Fang Yuan put his mind at rest.

In his previous life, central continent’s Gu Immortals relied on this method to slay Giant Sun’s will and destroy Eighty-Eight True Yang Building.

“A pity I am still a mortal and not a Gu Immortal, there is no way for me to reap profits from this.” Fang Yuan felt a slight regret.

This was Giant Sun’s will, even at its weakest moment, it was not something he could meddle with.

In truth, even if he advanced into a Gu Immortal, with just one Gu Immortal’s battle strength, the result would not be good. When the central continent Gu Immortals attacked Imperial Court blessed land, they had altogether eleven Gu Immortals, each of them an elite expert, but even then only three were able to return in triumph.

However, the sacrifices were worth it as they received rich battle spoils.

True Yang Building was a spiritual symbol of northern plains and when it was suddenly destroyed, the whole of northern plains suffered heavy impact, their morale fell to the abyss and they were forced into retreat continually in battles. If not for the Gu Immortal Ma Hong Yun who repeatedly playing a vital role as a pillar during the most crucial times, northern plains would have already been annexed by central continent.

As for the current Fang Yuan, he was safe for at least a period of time.

“What happened to True Yang Building just now?”

“Could it be the influence of Tai Bai Yun Sheng advancing to a Gu Immortal was too big and even Eighty-Eight True Yang Building was affected?”

"Imperial Court blessed land prohibits the entry of Gu Immortals, advancing to a Gu Immortal here like Tai Bai Yun Sheng is an extremely rare event. Does this violate the arrangements made by old ancestor Giant Sun back then?"

True Yang Building's abnormal changes caused this crowd of people who did not know the truth to be bewildered and start making guesses.

True Yang Building fell into a deathly stillness and did not show any movement for the moment. Soon, everyone's gazes were attracted towards Tai Bai Yun Sheng again.

Tai Bai Yun Sheng was floating in between the sky and the ground, continually taking in heaven qi and earth qi, combining them with his own human qi.

The balanced three qi were pouring into the space where his aperture had once been.

An extremely mysterious transformation was happening to his body.

Whether it was his physical body or soul, they were both being tempered by heaven and earth qi. The essence of his life itself was elevating to a higher level.

There were three steps in advancing to a Gu Immortal; the first was breaking the aperture, the second was taking in the qi.

Tai Bai Yun Sheng had an intact Gu Immortal inheritance and thus had a clear understanding of the key concerns in the process. So far, he was able to stabilize with no major hindrances.

But how could advancing to a Gu Immortal only have these obstacles?

Compared to the majestic heaven qi and the vast earth qi, human qi originated from only Tai Bai Yun Sheng himself.

Thus, there were endless amounts of heaven qi and earth qi, but human qi was limited in quantity.

The three qi needed to be in balance, there was no way to take in the surplus heaven qi and earth qi, so they were excluded and left to the side.

As time passed, these heaven and earth qi accumulated in the sky and on the ground, gathering and condensing, the sheer quantity causing a qualitative change.

“Tai Bai Yun Sheng had too deep of an accumulation, he was able to draw in so much heaven and earth qi. Now the extra heaven and earth qi are condensing into calamity and tribulation!” Ye Lui Sang’s eyes flashed with burning light.

The deeper the accumulation of the Gu Master, the greater the difficulty in advancing to a Gu Immortal. But if they succeeded, their potential future accomplishment would be that much higher.

The risk and profits in this were directly proportional.

Hei Lou Lan watched on tightly without saying a word, putting all his effort in observing and gaining reference.

Heavenly tribulations and earthly calamities, how did they form?

The scene in front of them was displaying the whole process before everyone’s eyes.

Golden earth qi continued to become denser and the turbid qi condensed into shape, gradually forming a one-horned great tiger. And the green heaven qi condensed into countless giant green willow leaves. Every willow leaf was the size of a boat.

The one-horned great tiger was as large as a hill; it raised its head while crouching down, taking a jumping posture.

The green willow leaves swayed as they spread in the sky, ready to strike.

“This is the earthly calamity lofty tiger and the heavenly tribulation willow wind!” Fang Yuan’s gaze flashed with a sharp light.

Tai Bai Yun Sheng stopped his crazed laughter, a grave expression filling his face.

The crowd who were so far from all this could feel the endless power of the earthly calamity and the heavenly tribulation, then what about Tai Bai Yun Sheng who was at the center of this, the target of the earthly calamity and the heavenly tribulation?

The spectating crowd was silent, the atmosphere turning heavy.

Imperial Court land spirit, however, laughed loudly: “The opportunity to break free from my captivity has appeared!”

Chapter 608 - Giant Sun's retaliation

Chapter 608: Giant Sun's retaliation

Translator: ChibiGeneral Editor: ChibiGeneral

Inside True Yang Building.

The land spirit was using all of its strength to attack the seal on it.

Bang bang bang!

Three soft explosive sounds could be heard consecutively, as three black chains binding it were broken.

The green paste on it had thoroughly melted from its neck and even to the tips of its two wings, revealing the bright and lively feathers.

“Little sparrow, you dare!” Giant Sun's will was bursting with fury.

“Giant Sun, despite being dead, you actually still imprisoned me for hundreds of thousands of years. Today, I will definitely break out of your damn cage!” Frost Jade Peacock let out a shrill scream, similarly furious.

Trapped for so many years, unable to even budge, the suffocation and indignance from being in captivity turned into the strength needed to break its seal.

Giant Sun's will gave a deep shout, the sun like will suddenly flared up, rushing in all directions like a majestic golden flood.

Ten thousand special will Gu were already surrounding him in layers after layers. They were like a dam blocking the flood, which was Giant Sun's will.

Giant Sun's special will was completely restrained by the special will Gu. The whole dam held tight without any cracks, but the situation only lasted for a few breaths of time; the special will Gu had already been swallowing Giant Sun's special will to the limit and started to burst one by one.

Several breaths later, the 'dam' formed by the special will Gu trembled, broke down and shattered apart!

Giant Sun's special will might have been subdued but the size of it was extremely large, having originated from Giant Sun Immortal Venerable. Even after the wear and tear of over hundreds of thousands of years, this was still not something ten thousand special will Gu could suppress.

Restraint was relative.

Water could extinguish fire, but if the fire was fierce enough, it could directly evaporate the water pouring on it.

Giant Sun's will that was like a sun was extremely grand and large, although there was a lot of consumption when he attacked special will Gu, it was still able to destroy the ten thousand special will Gu in the end.

Without the besiegement of special will Gu, Giant Sun's will was like a tied up prisoner who had broken out of the shackles, and immediately tried to control True Yang Building.

But the next moment, a full fifty thousand special will Gu rushed out and gathered again, forming a new encirclement!

Central continent's Gu Immortals had researched very deeply and would never underestimate Giant Sun's will, thus they had made sufficient preparations. Special will Gu was not an Immortal Gu, its quantity could be piled up.

Giant Sun's will who had just obtained freedom was again sealed off, letting out a furious roar.

He started attacking again, his momentum as vast as a rapidly flowing river, breaking apart the encirclement of special will Gu.

But soon, the third wave of special will Gu surrounded it. The quantity was even more this time, reaching over a hundred thousand!

Central continent's Gu Immortals had spent thousands of years for this; several great super forces had joined hands making large purchases, refining Gu non-stop, and spending an astronomical amount of Gu refinement resources.

They had paid such an astonishing price and now they were all being used by Fang Yuan, displaying extraordinary effects.

Being trapped once again, Giant Sun's will did not shout or roar.

Giant Sun's will was the will of an Immortal Venerable and knew how to think.

When he realized he had fallen into a scheme and the enemy side had made sufficient preparations, he became calm again.

He began to think and soon discovered a flaw in the encirclement!

Although Giant Sun's will was surrounded tightly in all directions by special will Gu with no area neglected, this did not signify there was no flaw in this encirclement.

These special will Gu were refined by Gu Immortals and refined Gu worms were unable to directly absorb the primeval essence from their surroundings, and there was no supply of primeval essence for them in here.

Then, where did the primeval essence used to activate these special will Gu come from?

There were so many special will Gu, and there could even be more, their primeval essence requirement would be gigantic. Giant Sun's will slightly thought over it and realized — what these special will Gu absorbed was not primeval essence but immortal essence!

A bead of the lowest grade rank six green grape immortal essence could convert to what was practically an almost unlimited amount of primeval essence!

Immortal essence was the source of fuel for these special will Gu.

And these immortal essence were concealed very well; clearly, there were other supporting Gu worms coordinating with special will Gu to form an enormous and hidden Gu formation.

“So long as I break their connection with the immortal essence, these special will Gu would not be of much threat.” Giant Sun’s will soon thought of this method.

However, to break the connection between the special will Gu and the immortal essence, he had to fully grasp this Gu formation first.

Just like how central continent Gu Immortals sealed all the yellow apricot immortal essence left behind by Giant Sun Immortal Venerable to suppress Eighty-Eight True Yang Building, Giant Sun’s will also had a similar idea.

On the spot, Giant Sun’s will thought rapidly and soon found over ten clues.

Following these clues and making deductions, the vague structure of the Gu formation began to gradually become clearer.

The land spirit naturally would not sit and wait for its death.

When it had sensed Giant Sun’s will being suppressed, it mustered all its strength to break the seals on it.

Gruel Mud had terrifying effectiveness against these seals; the green paste on its body was full of cracks and the edges were rapidly melting down. The black shackles on its wings once again consecutively collapsed and four broke apart.

The land spirit, Frost Jade Peacock, gave a shrill cry, its whole body shook intensely, shaking away most of the green paste on its two wings, shortly afterwards it impatiently unfolded them.

Cold aura permeated out from all over its spotlessly white body as it raised its head high, appearing noble and beautiful. But it had yet to completely unfold its large wings when they were tightly pulled in by the black chains.

Its movement came to a sudden stop, the intense pain making it even more furious.

Although there were only three chains left, they still tightly shackled its freedom.

“Break them!” Frost Jade Peacock suddenly turned around its elegant neck, its sharp brows flickering with terrifying cold light.

“Damn it!” Giant Sun’s will who had been thinking intensely, could not help but stop his thoughts as he sensed this situation.

If the land spirit broke his control, then Eighty-Eight True Yang Building could be thrown out from Imperial Court blessed land at any time.

Without Imperial Court blessed land’s protection, countless Gu Immortals would start rushing over to loot True Yang Building.

At that time, it would be the case of an army of ants devouring an elephant; even more yellow apricot immortal essence would not be able to stop the consumption from the dauntless advance of countless Gu Immortals.

But Giant Sun’s will was powerless to stop the land spirit at this moment.

He had been making several probing attacks while thinking at the same time, and although there were some results and he was able to recover some methods, they were still very limited and were not enough to suppress the situation.

……

At this moment, outside the True Yang Building….

Roar!

Lofty tiger roared and jumped.

The world trembled as the hill sized lofty tiger jumped into the air. Its enormous and malevolent tiger claws slammed towards the insignificant insect-like Tai Bai Yun Sheng.

Tai Bai Yun Sheng gave a light shout as he dodged quickly!

The tiger claws could not strike him, but the huge wind force from it was still able to make Tai Bai Yun Sheng feel uncomfortable.

At the same time, the willow winds in the sky fluttered down.

These willow winds were as large as a canoe, and their descent was graceful, resembling falling leaves. But the movement that felt slow was actually fast, and the destructive power contained within them was terrifying.

Tai Bai Yun Sheng was bathed with blood, paying close attention to the movements of the willow winds. Previously, he had carelessly come into contact with three willow winds, but just that had already destroyed all the defensive Gu on him.

Right now, when he saw the willow winds falling down, he quickly evaded them.

From the earth, the malevolent tiger pounced up; while from the sky, the willow winds fluttered down one after another. Tai Bai Yun Sheng was already finding it difficult to continue after a while, he was in a sorry state and was facing the danger of losing his life.

“Sigh, it bodes ill for Tai Bai Yun Sheng!”

“His accumulation is very robust, but he has not made sufficient preparations to advance to Gu Immortal.”

“Lord Tai Bai Yun Sheng, you can do it!”

Even Fang Yuan could not help but feel nervous at this scene: “Is Tai Bai Yun Sheng going to fail in advancing to a Gu Immortal in this life?”

He suddenly had a thought and disregarding the backlash, forcibly activated luck inspection Gu. But the luck on Tai Bai Yun Sheng was still burning and raging like boiling water, and was still blooming.

But the next moment, a quarter of this flaming luck had suddenly dissipated!

“What’s going on?” It was the first time Fang Yuan was seeing such a change in luck.

And right at this time, a light pillar suddenly erupted from True Yang Building.

The light pillar that was as thick as an ancient tree, charged straight to the sky.

The willow winds were pierced through by this light pillar, immediately crumbling apart and turning back into clear heaven qi, pure and warm.

The light pillar swept through repeatedly, shattering most of the willow winds in the sky, before shooting towards the lofty tiger. The lofty tiger dodged while howling in grief, but the light pillar followed it like a shadow, impossible to avoid!

The earthly calamity lofty tiger continued to decrease in size the more the light pillar touched it, till it vanished into thin air!

“What’s going on?” Everyone was shocked.

“Eighty-Eight True Yang Building has made a move! Old ancestor protected lord Tai Bai Yun Sheng!!” Many people cheered.

But there were also some who scoffed: “Nonsense, Tai Bai Yun Sheng does not have Giant Sun’s bloodline, why would old ancestor protect him?”

“This! Could it be the workings of the rumored divert disaster Gu?” Ye Lui Sang was endlessly shocked.

Hei Lou Lan was even more excited: “The luck path’s divert disaster Gu can divert heavenly tribulations and earthly calamities, greatly reducing their might, even directly obliterating them! If I can obtain this Immortal Gu…”

Divert disaster Gu was one of the cornerstones of Eighty-Eight True Yang Building. It was also one of the limited methods Giant Sun’s will could mobilize currently.

Giant Sun’s will’s actions did not stop at this.

He had forcibly extracted a trace of yellow apricot immortal essence by rampaging multiple times. After activating divert disaster Gu, Giant Sun’s will mobilized the human qi Immortal Gu in true inheritance secluded domain.

Right under Fang Yuan’s sight, Tai Bai Yun Sheng’s burning luck aura suddenly decreased by another quarter.

Human qi Immortal Gu was activated which similarly let out a ray of of white light.

This white light, however, directly shone on Tai Bai Yun Sheng.

Human qi Immortal Gu could increase the Gu Master’s human qi, raising their future potential after advancing to a Gu Immortal. When Tai Bai Yun Sheng obtained its help, the human qi on him instantly inflated by ten times!

With the increase in human qi, he naturally needed even more heaven qi and earth qi.

However, heaven qi and earth qi were drawn out of Imperial Court blessed land.

Tai Bai Yun Sheng laughed heartily, True Yang Building’s help had been out of his expectations, but he still quickly accepted it and absorbed large amounts of heaven qi and earth qi, merging the three elements into one; not only averting danger, his potential had also greatly increased, and his future prospects had turned much better!

The land spirit Frost Jade Peacock gave a shrill, furious cry.

Heaven qi and earth qi were extracted in large amounts, causing an intense feeling of weakness to fill its body.

“Little sparrow, you are still too green.” Giant Sun’s will snorted, he had used all the immortal essence he was able to extract on the most crucial area, acquiring the greatest results, greatly relieving the dangerous situation.

Giant Sun’s will was after all a will that originated from an Immortal Venerable, its wisdom was extremely high.

The situation had turned around quickly now and it was advantageous to Giant Sun’s will.

The weakening of the land spirit gave Giant Sun’s will plenty of time to grasp the Gu formation of the special will Gu surrounding him. Once Giant Sun’s will breaks apart this encirclement, he would regain control of the situation, and it would be extremely easy for him to undo the seal on the immortal essence then.

As long as the seal on the immortal essence was broken, Eighty-Eight True Yang Building would be able to display the supreme might of a rank eight Gu House in all its glory!

“This is bad, I still underestimated an Immortal Venerable’s will. I have less than half the expected time left.” Fang Yuan was able to understand the situation in True Yang Building through the glass owner token.

His heart sank: “Now, I can only put my hopes in Tai Bai Yun Sheng. Hopefully, he can quickly become a Gu Immortal and refine landscape as before Gu…”

Chapter 609: Better to die than not be free

Translator: ChibiGeneral **Editor:** ChibiGeneral

At the center of the scene, the three qi were fusing.

With the help of Giant Sun's will, the thick qi flows had almost formed a cocoon around Tai Bai Yun Sheng!

All his injuries were long gone without any trace, his body, soul and consciousness were all being refined to a higher level.

He looked back on his life, the scenes of the past quickly flashing through his mind.

The mysteries of the Great Dao circulated in his mind, inspirations came to him without pause, he was obtaining perfect solutions for the difficult problems in cultivation that had restrained him in the past.

At this moment, heaven and earth were like selfless teachers, imparting all their knowledge to Tai Bai Yun Sheng.

However, the mysteries of heaven and earth were too vast and profound, the more Tai Bai Yun Sheng knew, the more he realized his minuteness.

He had no choice but to focus on his time path, refining and developing his knowledge.

His understanding towards time path reached the peak of his lifetime!

Inspiration from nature!

Man is the spirit of all livings beings, Gu is the essence of heaven and earth. Gu Masters used Gu, refined Gu and raised Gu; this was actually an unending process of learning, exploring and studying the world.

In the process of advancing to a Gu Immortal, a Gu Master need not use Gu worms to indirectly understand the world, instead it was a direct interaction with heaven and earth.

This was probably the only chance in one's whole life before becoming a Gu Immortal to have such a precious opportunity.

Rank five peak stage was the finishing line of mortal Gu Masters. But rank six Gu Immortals were beyond mortal, becoming a Gu Immortal was only a new starting point.

At this crucial starting point, every Gu Immortal's future achievements would be different depending on the potential they accumulated.

"Such a beautiful experience, but my human qi is not sufficient…" Tai Bai Yun Sheng wished to continue immersing himself in this feeling but could not do so, a regretful expression appearing on his face.

His human qi was already nearly exhausted, and this was after obtaining the help of human qi Immortal Gu, otherwise the time would have been even shorter.

The qi cocoon dispersed and Tai Bai Yun Sheng's silhouette was revealed again.

The three qi had merged and shrunk down to a mass of tri-colored primordial qi, condensed into where Tai Bai Yun Sheng's aperture had originally been.

This step signified the completion of the second step in advancing to a Gu Immortal, receiving qi.

Next was the final step of becoming a Gu Immortal — releasing Gu!

Tai Bai Yun Sheng was being extremely serious, as he took out river as before, mountain as before and man as before Gu.

These three Gu were his core Gu worms and he was exceedingly familiar with them. Moreover, man as before Gu was even his vital Gu.

“Finally, the most crucial moment…” Tai Bai Yun Sheng first sent his vital Gu to the mass of tri-colored primordial qi in his body.

BOOM!

All of a sudden, a mystical sound like that of thunder storm echoed in Tai Bai Yun Sheng’s ears, causing his whole body to intensely shake.

The tri-colored mass of qi was originally merged together and constantly flowing in circulation. But after Man As Before intruded in, it was like it had ignited an explosive; the primordial qi mass immediately exploded loudly.

There can be no creation without destruction, in death there is new life!

This moment was when a mortal could ascend to a Gu Immortal!

The explosive sound was truly mystical, exploding out the marvels of life, exploding out a whole new world!

The mortal aperture was broken, an immortal aperture was being formed!

The immortal aperture was like a small world; the sky was azure like crystals and the ground was a desolate wilderness filled with yellow stones.

It was like a newborn baby and intensely demanded nourishment, erupting at the outside world with an extremely strong force of suction and absorption.

Whoosh whoosh whoosh….

Heaven qi and earth qi madly poured into Tai Bai Yun Sheng, flowing non-stop into the immortal aperture.

In the immortal aperture, the ground quickly expanded; two thirds of a thousand square kilometres, four thirds of a thousand, two thousand square kilometres…

And time flow also rose from the one to one ratio to one to ten, one to twenty….

The immortal aperture was gradually starting to become unstable from the mad flow of qi.

Tai Bai Yun Sheng then sent in River As Before and Mountain As Before, stabilizing the situation.

The immortal aperture was expanding continually, and a tributary of the river of time flowed in the darkness, causing the time flow to increase steadily.

Time passed, Tai Bai Yun Sheng kept on placing Gu worms to maintain the stability of the immortal aperture.

Three and one third thousand square kilometres, four thousand, four and two thirds of a thousand!

One to thirty, one to thirty-one, one to thirty-two, one to thirty three!

The immortal aperture had reached its extreme at this point, as if it had drunk and eaten to its fill, abruptly stopping its growth.

But the clear heaven qi was still pouring in from the sky, and golden earth qi was still surging up from the ground.

At this moment, the immortal aperture absorbed heaven qi and earth qi much slower than before. At first, it was drinking in big gulps, while now it was taking slow sips.

Heaven and earth qi converged into the immortal aperture, green and golden mists and clouds filled the whole immortal aperture.

The dense qi flow was brewing beads of immortal essence within.

They were precisely the green grape immortal essence of a rank six Gu Immortal, thirty six of them in total.

The tribulation clouds in the sky and the calamity dust in the ground, began to gradually dissipate.

The mist like heaven qi and earth qi in the immortal aperture, however, had yet to dissipate.

They condensed around Man As Before, River As Before, Mountain As Before and other Gu worms, causing a dense qi cocoon to form over these Gu worms.

The two qi mixed; heaven and earth interacted.

Within the qi cocoons, each Gu worm was beginning to ferment mysterious changes.

“It is time.” A Gu recipe flashed in Tai Bai Yun Sheng’s mind.

This Gu recipe was only a theoretical Gu recipe of an Immortal Gu, it was from the old beggar’s Gu Immortal inheritance.

Tai Bai Yun Sheng could not guarantee whether this theoretical Gu recipe could succeed.

But he no longer had another option.

His lifespan was near its end, about to exhaust completely. After advancing to a Gu Immortal, his senses reached a whole new level, especially the sense regarding time had heightened the most, it was precise to within a single breath.

This novel sensation did not put him in a cheerful mood for long before he fell into silence, feeling oppressed and even afraid.

Because he could sense that the time he had was truly not much, just like a small puddle under strong sunshine, with his lifespan being the thin layer of water left in the puddle.

He had planned to get lifespan Gu but it failed because of Fang Yuan’s secret manipulations. The bloody road he had experienced in reaching the great hall even became a knot in his heart.

Now, his only hope was in man as before Gu.

According to what the theoretical Gu recipe showed, when man as before Gu was advanced to rank six, it could be used on oneself.

“Refine!” Tai Bai Yun Sheng gave a soft shout, countless thoughts emerging in his mind.

These thoughts formed the theoretical Gu recipe which directly poured into the immortal aperture and then into the thick cocoon covering the man as before Gu.

These heaven and earth qi were the source of all living beings. As the two interacted, they evolved into all things in heaven and earth.

These two qi were the origin of all living beings and could replace any Gu refinement materials.

Tai Bai Yun Sheng’s thoughts were like keys that directed the heaven and earth qi in the proper direction.

The thoughts entered the cocoon and immediately brought upon a violent change.

Although it could not be compared to the explosion of the three qi in the first step of releasing Gu, its effect was not small either.

The qi cocoon erupted with devouring force, swallowing the remaining heaven and earth qi in the immortal aperture without pause.

Whoosh whoosh whoosh….

The qi flow surged non-stop, forming a screaming gale.

Man as before Gu turned into the eye of the storm, large amounts of heaven and earth qi poured into it, turning into Gu refinement resources.

“This it it, this is it….” Tai Bai Yun Sheng mumbled softly in the air, his tone carried gratification and also expectation.

After so much effort and risk, he was now finally seeing the hope of success.

Although the process had been filled with inconceivable events.

If True Yang Building had not made a move, Tai Bai Yun Sheng was sure to fall in the second step.

As he thought of this, he glanced at the True Yang Building.

He was not of Giant Sun’s bloodline, but True Yang Building had actually helped him; this was a fact.

“Did Giant Sun’s will wake up?” Tai Bai Yun Sheng inwardly guessed. He had a Gu Immortal inheritance, his experience and knowledge were not lacking compared to people like Hei Lou Lan and Ye Lui Sang.

“Giant Sun Immortal Venerable prohibits the entry of Gu Immortals, I have already violated this taboo by advancing into a Gu Immortal here. So, why would Giant Sun’s will still help me?” Tai Bai Yun Sheng was puzzled.

Even with his plentiful experience, he could not anticipate the things occurring in the True Yang Building.

Within the True Yang Building, Frost Jade Peacock gave shrill cries, the green paste on its body kept on shaking and bouncing, the iron chains also shook, producing clanking sounds when they collided with each other.

The powers sealing it were melting down from the corrosion of Gruel Mud.

But Frost Jade Peacock showed no signs of joy, instead it was filled with fear and anxiety.

Giant sun’s will, however, laughed brightly: “Little sparrow, your struggle is of no use.”

Through Tai Bai Yun Sheng, Giant Sun's will was able to exploit some methods to ingeniously strike the Imperial Court land spirit, weakening its strength at its foundation.

Despite the powers binding Frost Jade Peacock weakening constantly, Giant Sun's will had already bought some time.

He had already seen through most of the special will Gu formation that had besieged him.

How could an Immortal Venerable's arrangement be so simple?

As long as Giant Sun's will was completely free, he naturally had large numbers of methods to choose from like metal path, water path, fire path and so on, to seal the land spirit again.

"I have slept for too long, but it doesn't matter. I will first put this disobedient land spirit in its place, then I shall completely eliminate the minute loopholes in True Yang Building; at that time, Eighty-Eight True Yang Building will once again be like an iron bucket, standing tall for hundreds of thousands of years longer!" Giant Sun's will's tone was deep and profound.

"I won't let you have your way even if I die!!!" After hearing 'standing tall for hundreds of thousands of years', all the hairs on Frost Jade Peacock stood on their ends.

A land spirit was formed from an obsession and the matter of recognizing the master was not a flexible one. Frost Jade Peacock was distinct in this even from other land spirits; it was incomparably proud and would not yield even a little.

But Frost Jade Peacock did not struggle anymore, instead it strangely lay down dispiritedly. However, its gaze was still sharp as a knife, filled with hatred completely.

Giant Sun's will was stupefied before suddenly realizing something as he shouted in rage: "Little sparrow, you dare to do this!"

Outside the True Yang Building.

"The tribulation clouds and calamity dust are gradually dispersing, has Lord Tai Bai Yun Sheng succeeded in advancing to a Gu Immortal?" Those who did not know the truth felt excited at this sight.

"I had never expected Tai Bai Yun Sheng to actually reach the third step! Looking at his appearance, the immortal aperture has already formed. I wonder what grade of blessed land he has formed?" Ye Lui Sang mumbled.

In advancing to a Gu Immortal, after passing the second step, the Gu Master could form an immortal aperture.

Immortal apertures of rank six and rank seven Gu Immortals were blessed lands; rank eight and rank nine Gu Immortal apertures were grotto-heavens!

"Blessed lands are divided into three grades, corresponding to large, medium, and small in size; the more heaven, earth and human qi are fused, the higher the grade of the blessed land. Small blessed lands have an area of up to two thousand square kilometres, they can draw in a small tributary of the river of time, and form over ten beads of immortal essence; there are few resources. Medium grade blessed lands can range from two and two thirds to four thousand square kilometres, they can draw in a slightly bigger tributary of the river of time, and form over twenty beads of immortal essence; they have plentiful resources. High grade blessed lands can range from four and two thirds to six thousand square kilometres, and draw in a large tributary of the river of time, the quantity of immortal essence formed surpasses thirty, and there will be plenty of heaven and earth qi remaining which can mutually interact and refine a mortal Gu into an Immortal Gu!"

Hei Lou Lan's gaze was fixed directly ahead, the relevant information flashing in his mind.

His brows slightly furrowed, Tai Bai Yun Sheng was able to pass the second step with True Yang Building's help, reaching the third step. And now, it looked like there was a great chance for him to succeed in becoming a Gu Immortal.

'If Tai Bai Yun Sheng becomes a Gu Immortal, then what stance should I take, how should I treat him?’ Hei Lou Lan pondered over this issue.

‘If nothing unexpected happens, Tai Bai Yun Sheng will no doubt obtain a high grade blessed land. However, refining an Immortal Gu carries risk, forming calamities and tribulations in the immortal aperture.’ Fang Yuan’s gaze continuously flickered.

For a mortal to advance to a Gu Immortal, there naturally were special risks.

Gu Masters were like this, it applied to Gu worms too.

Humans took in heaven and earth qi, fusing with human qi, the fusion of the three qi would lead to heavenly tribulations and earthly calamities. Gu worms took in heaven and earth qi, and also would induce calamities and tribulations.

It was hard for outsiders to interfere in the calamities and tribulations within one’s own blessed land.

True Yang Building could influence Tai Bai Yun Sheng, but it could not influence the blessed land, the immortal aperture in his body.

In another words, Tai Bai Yun Sheng could only rely on himself.

“Huh?” Fang Yuan suddenly looked at the sky.

Regarding the sky of Imperial Court blessed land, in daytime, golden light glittered, while at night, warm silver radiance shone down.

But right now, pitch-black scars appeared in the golden sky from which specks of starlight shone down.

This was the night sky of the outside world of northern plains.

The whole of Imperial Court blessed land began to tremble.

Everyone started crying out in surprise and shock.

The tribulation clouds and calamity dust which had almost dissipated condensed again. Large amounts of heaven and earth qi poured into

Tai Bai Yun Sheng's body non-stop, directly entering his immortal aperture like moths to a fire.

"What's going on?!" Hei Lou Lan was dumbstruck.

"What the hell happened!" Ye Lui Sang held his head, shouting involuntarily.

"Too much heaven and earth qi were absorbed from Imperial Court blessed land, its foundation was injured, thus it is revealing the outside world, in linking up with northern plains!" Fang Yuan's mind shook, his gaze moved from Tai Bai Yun Sheng to Eighty-Eight True Yang Building.

He had guessed the truth.

Frost Jade Peacock was actually so proud, it would rather die than be suppressed by Giant Sun's will any longer.

It lived up to its words!

Chapter 610 - The key to victory and loss

Chapter 610: The key to victory and loss

Translator: ChibiGeneral **Editor:** ChibiGeneral

When a Gu Master advances to an immortal, their aperture will transform into an immortal aperture.

The immortal aperture is a qualitative evolution of the aperture, it is like the creation of a whole new small world.

Rank six and seven Gu Immortal apertures were known as ‘blessed lands’. Rank eight and nine Gu Immortal apertures were called ‘grotto-heavens’.

If a Gu Immortal’s lingering obsession was left behind when they died, it would combine with the heavenly power inside the immortal aperture and become the land spirit.

Every immortal aperture is unique, it is a part of the Gu Immortal’s body. In some ways, even if a Gu Immortal dies, the land spirit and immortal aperture that they leave behind could still be considered a strange form of life extension for them.

Precisely because the land spirit is formed from obsession, it is rigid and not flexible.

In history, there were many such cases. For example, if a Gu Immortal forcefully takes down a blessed land, but did not meet the requirements to become the owner, the land spirit would reject them, in the end, the land spirit may directly self-detonate, causing the Gu Immortal's efforts to be for nothing.

Giant Sun's will forcefully sealed Imperial Court blessed land's Frost Jade Peacock, this had accumulated hundreds of thousands of years of anger in the latter. Now that he wanted to continue sealing it, Frost Jade Peacock's resolute heart was finally ignited.

"What is going on?"

"Lord Tai Bai Yun Sheng's immortal ascension caused a loophole to form in the blessed land?"

"Imperial Court blessed land is currently being exposed to the outside world, this is unbelievable, this has never happened in the past!!"

"This is bad, I have a very bad feeling. Do you think the blessed land is going to be destroyed?"

In the blessed land, everyone was shouting in fear, they were panicking and their doubts were spreading.

In the sky, countless cracks were formed. The sky of the blessed land, which was silver and gold, had lots of cracks now, from these cracks, one could see the starry sky of northern plains.

Fang Yuan's gaze was still calm as ever.

"Imperial Court blessed land would not self-destruct so easily." He muttered in his heart, regarding this he was extremely confident.

In history, there were many cases of the land spirit suiciding, destroying the blessed land along with them, but that was not going to happen here.

This was Giant Sun Immortal Venerable's arrangement, how could it be broken so easily? This was the hard work of a rank nine Gu Immortal, this set-up covered the entire region of northern plains!

Eighty-Eight True Yang Building was the biggest obstacle.

"If this was in the past, how could the land spirit cause such trouble?

Except that now, Giant Sun's will had just awakened, he was caught off guard and had to waste time to resolve this mess. Meanwhile, the seal that imprisoned the land spirit had weakened drastically because of my gruel mud Immortal Gu, this allowed the land spirit to struggle so violently."

In his analysis, Fang Yuan could not help but internally praise Giant Sun's resolution and methods.

He had used the chess piece Tai Bai Yun Sheng, and with his limited methods, he managed to fight for precious time and allow the scales of victory to tilt towards himself.

"However, even though the land spirit cannot self-destruct, it could still do the most basic thing like absorbing its own heaven and earth qi."

Thinking of this, Fang Yuan directed his gaze towards Tai Bai Yun Sheng.

Above Tai Bai Yun Sheng's head, the scattered tribulation cloud formed once again, and the calamity dust on the ground also started spreading.

Large amounts of heaven qi and earth qi gushed out, they were about to form a new heavenly tribulation and earthly calamity!

"This, what is going on? Why are there still heavenly tribulations and earthly calamities?! Wasn't it over already?" Seeing this, Ye Lui Sang's eyes were wide open in shock.

"This is different from what is in the records. There is something strange going on with Tai Bai Yun Sheng, why are there two heavenly tribulations and earthly calamities in a row?" Hei Lou Lan was very confused as well.

Even they had no idea, not to mention the others.

Looking at the imposing heavenly tribulation and earthly calamity forming once again, many people were lost for words as they felt very worried regarding Tai Bai Yun Sheng's situation.

Tai Bai Yun Sheng’s expression was ashen.

“Why is there still a heavenly tribulation forming?! My inheritance did not state that this would happen!” He was shocked and furious.

Because not just on the outside, at the same time, the immortal aperture inside his body was also forming another heavenly tribulation and earthly calamity!

When a mortal Gu becomes an Immortal Gu, it is like a Gu Master becoming an immortal, it is a dangerous process to make a qualitative change that defied heaven. When Gu worms were refined into Immortal Gu, they would need to involve heaven and earth qi, this way, the corresponding heavenly tribulations and earthly calamities would form.

Being faced with trouble both internally and externally, Tai Bai Yun Sheng could neither advance nor retreat, he could not attend to one problem while neglecting the other, his situation was very worrying!

Fang Yuan used the gruel mud Immortal Gu to awaken the land spirit.

Tai Bai Yun Sheng’s immortal ascension became a crucial chess piece in the fight between the land spirit and Giant Sun’s will.

This immortal ascension had already gone out of his control.

Other than Fang Yuan, everyone else was kept in the dark, they were unaware of the truth.

Only Fang Yuan knew the land spirit’s intention!

In a race against time, the land spirit could not compete with Giant Sun’s will, thus it placed its attention on Tai Bai Yun Sheng.

The heaven qi and earth qi were extracted by sacrificing the land spirit’s own foundation. Its intention was to form the heavenly tribulation and earthly calamity that would destroy Tai Bai Yun Sheng.

What benefits would the land spirit gain from killing him?

This would involve the devouring of the immortal aperture.

Mortal apertures were not easy to devour and combine, but after ascending to immortal, the immortal aperture was a small world. Between worlds, they could be devoured and assimilated, there were great benefits to Gu Immortals.

On Tian Ti mountain back then, Fang Yuan discarded a portion of Hu Immortal blessed land's territory, which were quickly taken by the other Gu Immortals. Swallowing other immortal apertures and strengthening one's own immortal aperture, there was much to gain from this.

If the land spirit destroyed Tai Bai Yun Sheng, after he dies, his immortal aperture would remain. It would then be absorbed and assimilated by Imperial Court blessed land.

After devouring the aperture, the blessed land's foundation would rise, and the land spirit would become much stronger. This would be a great help for it to break through Giant Sun's seal.

In the sky, dark clouds were rumbling as lightning and thunder resounded.

Countless purple lightning bolts formed into balls of lightning.

On the ground, the calamity dust settled down, exposing the bare earth.

A crack formed on the ground, it was hundreds of meters wide, exposing red hot flames from within, it resembled a desolate beast opening its bloodthirsty mouth.

The flames rose up, forming many traces of restraining smoke as they gushed up.

"Chaotic lightning balls, restraining smoke!" Fang Yuan frowned slightly.

The chaotic lightning balls not only had great power, they could even ruin the Gu Master's mind and will, inducing a chaotic effect. Restraining smoke could seal away the environment, as long as the

Gu Master was trapped within, they would lose their five senses, like falling into a maze or an abyss, they would not be able to get free.

Chaotic lightning balls were not fast, but together with the suppression from restraining smoke, they were perfect partners and could unleash the greatest effect!

Fang Yuan could not help but feel some worry.

Tai Bai Yun Sheng's failure was not what Fang Yuan wanted to see.

Holding the glass owner token in his hand, Fang Yuan tightened his grasp as his gaze turned dark: "Still too weak, too weak! With my current strength, I am very heavily affected by circumstances…"

Howl, howl, howl!

The chaotic lightning balls flew through the air, emitting a strange and shrill noise. They sounded like a woman screaming and crying at the same time, it was very painful to the ears.

At the same time, the restraining smoke was rumbling, surging towards Tai Bai Yun Sheng.

Tai Bai Yun Sheng's expression turned pale.

The chaotic lightning balls changed their directions randomly, sometimes they traveled right, sometimes left, it was hard to dodge them. Furthermore, there were traces of restraining smoke around him, like he was in the middle of an ancient forest.

"If I come into contact with the restraining smoke, I'll be finished! Oh no, the heavenly tribulation and earthly calamity in my immortal aperture is also forming, moreover I have already lost my defensive Gu!" Tai Bai Yun Sheng gritted his teeth, his gaze was shining with resolution.

Risk it!

His body gave off a shining light, using several movement Gu, his body flew into the air.

The intense wind blew this old man's hair towards the back, showing an unrestrained demeanour.

Shocked screams could be heard coming from the crowd.

Tai Bai Yun Sheng charged towards the tribulation cloud, above him, there were countless chaotic lightning balls, looking from afar, he was like a moth flying towards a fire.

“Is Tai Bai Yun Sheng seeking death?” Ye Lui Sang frowned deeply.

“Good!” Hei Lou Lan, however, gave high praise.

Fang Yuan's eyes also shone.

Restraining smoke might seem harmless without any attack power and could only trap enemies, but it held much greater threat than the chaotic lightning balls.

Tai Bai Yun Sheng understood the situation and made the best decision.

Only to see that after he charged into the thunder cloud, countless lightning balls shot down like fish swimming in water.

Bam bam bam…

The lightning balls continued to explode, but it did not affect Tai Bai Yun Sheng at all.

He flew left and right, trying to find a survival chance in the barrage of attacks, his movement speed was fast at times and slow at others, he had great control over the situation!

“Amazing! What level of flying attainment is this!”

“To think that Lord Tai Bai Yun Sheng is actually a flying master!!”

“He hid himself too deeply, I only found out now…”

Everyone was overjoyed to find out that Tai Bai Yun Sheng was a flying master!

“To think that Tai Bai Yun Sheng was skilled at using cloud path Gu worms.” Ye Lui Sang praised, he was not very surprised at the display of flying.

Tai Bai Yun Sheng was a healing Gu Master, these years when he roamed northern plains, he had encountered many dangers. He had to have a secret ability in order to survive till now.

In truth, most healing Gu Masters were either skilled in defense or movement.

When these Gu Masters were nurtured, they were specially trained in this manner.

That was because in the battlefield, healing Gu Masters were usually the first to be targeted, many times they could not receive protection from their teammates. Thus, healing Gu Masters needed to have certain ways to protect themselves.

“As the number one healing Gu Master in northern plains, Tai Bai Yun Sheng is not skilled in defense, with his age, it is no wonder he has such flying attainment.” Hei Lou Lan thought about this and turned his head, looking at the sky far away.

There, Fang Yuan seated on the azure wolf king’s back, observing Tai Bai Yun Sheng closely.

Compared to Tai Bai Yun Sheng, Chang Shan Yin who was also a flying master was much younger.

“Little sparrow, you are really enjoying yourself.” In True Yang Building, Giant Sun’s will laughed instead of raging.

Eighty-Eight True Yang Building was shaking intensely, the aurora was wavering in the sky as a huge pillar of light shot out.

Immortal Gu — Divert Disaster!

The light of Divert Disaster shone around Tai Bai Yun Sheng, piercing through the lightning balls and restraining smoke.

“Old ancestor is really blessing Tai Bai Yun Sheng, he struck once again!” Amidst the shocked screams, there were jealous and envious people too.

“This is too weird, Tai Bai Yun Sheng is not part of Giant Sun’s bloodline, to think he could receive such blessings as well!” Someone was suspicious.

“As expected, he struck.” Fang Yuan sighed internally, Tai Bai Yun Sheng had already become a crucial factor in the contest between the land spirit and Giant Sun’s will, the land spirit wanted to harm him, while Giant Sun’s will wanted to protect him!

Chapter 611: Landscape As Before

“Luck inspection Gu!”

Fang Yuan’s heart moved, quickly sending his primeval essence into the Gu.

The next moment, his vision changed.

Luck inspection Gu, a rank five luck path investigative Gu, it could allow him to see luck despite its formlessness.

Looking at Tai Bai Yun Sheng’s luck now, his previous fiery red luck that was originally burning with a glowing red glow had shrunken by a bit.

“Earlier, Giant Sun Immortal Venerable’s will was helping him, thus his luck was being expended. Now that he helped once more, Tai Bai Yun Sheng has only a third of his initial luck left.” Fang Yuan evaluated.

Looking at his own luck, it was still the black coffin luck, as rich and dense as ink, and even larger than before.

Fang Yuan's heart jumped, but quickly snickered to himself, looking at the people in the blessed land.

The people who were watching Tai Bai Yun Sheng ascend to immortal realm had changes to their luck as well.

The overwhelming majority of the Gu Masters had unwittingly developed a small layer of black coffin luck.

Except for Hei Lou Lan, he still had his unchanged profuse azure luck.

Looking around, Fang Yuan felt his eyes hurting, he quickly stopped using the luck inspection Gu.

When a Gu Master ascends, there would be endless heaven and earth qi, using Gu worms in such an environment would cause a backlash.

If he forcefully continued to use them, both he and his Gu worms would suffer injuries, or even face death.

As his vision returned to normal, Fang Yuan looked at Tai Bai Yun Sheng again.

He was swimming in the thunderstorm, flying through the crevices of the clouds, showing off his master level flying attainment.

His body had no more defensive Gu, he was relying on his movement to evade the chaotic lightning balls, it was like walking on a tightrope, he was in great danger.

In order to avoid the earthly calamity of restraining smoke, he charged into the thunder clouds, this was a wise decision when weighing the two difficulties, but it was also a helpless choice.

"If not for the fact that I have green grape immortal essence, and can dilute it to form endless primeval essence, such an insane flying speed would have drained my aperture dry long ago." Tai Bai Yun Sheng was breathing roughly, his hair was in a mess and his body was feeling weak, the situation was getting more dangerous.

Swoosh!

Suddenly, a chaotic lightning ball changed directions and charged towards him.

Tai Bai Yun Sheng wanted to evade it, but it was too late, he could only stare indignantly with a furious gaze.

In the moment of crisis, a white light pillar shot over, directly hitting this chaotic lightning ball.

The lightning ball quickly melted from the ray of light, turning into pure heaven qi.

Divert disaster Gu!

Eighty-Eight True Yang Building's help came once again, saving Tai Bai Yun Sheng.

"So close, even though I became a Gu Immortal, I do not have any defenses on me, if I was hit by the chaotic lightning ball, I'd be heavily injured, the consequences are unthinkable!"

Tai Bai Yun Sheng swallowed his saliva, feeling some lingering fear.

After becoming a Gu Immortal, the foundation of his life had been elevated. If he was still a mortal, a chaotic lightning ball could easily kill him. Gu Immortals however, were tougher, even without any defensive Gu, they could endure over a dozen lightning balls without any problems.

But the thing was, these lightning balls had special effects.

After being hit, they would cause Tai Bai Yun Sheng's thoughts to be chaotic, once his mind is in chaos he would not be able to think properly.

At this crucial moment, as long as Tai Bai Yun Sheng stops in the air for a moment, he would be attacked by countless lightning balls at once.

If he was hit by these lightning balls consecutively, Tai Bai Yun Sheng would have no chance to gather his thoughts, he would just be drowned under the endless lightning balls.

“Quickly look, Eighty-Eight True Yang Building saved Tai Bai Yun Sheng once again.”

“That’s right, this has already happened at least ten times.”

“With True Yang Building’s help, it seems Tai Bai Yun Sheng’s tribulation will succeed without fail!”

Outside, everyone saw this with amazed and envious expressions.

“Such intensive assistance, will it really work?” Hei Lou Lan’s eyes were shining brilliantly, he saw the situation with a different perspective.

In such an environment, when heaven and earth qi were rampaging, usage of any Gu worm would create a huge backlash.

Divert disaster Gu was no exception.

In the history of Gu Masters, there were many instances of Gu Immortals helping out during the tribulation, and eventually the backlash destroying their Immortal Gu.

Except that most people were ignorant and did not know such secrets.

“Divert disaster Gu is one of the foundational pieces of Eighty-Eight True Yang Building, it is used for Imperial Court blessed land to divert away disasters. Without it, Imperial Court blessed land would face terrifying earthly calamities and heavenly tributations. Giant Sun’s will would not sacrifice such a precious Gu for Tai Bai Yun Sheng, that means the reinforcement of Giant Sun’s will is limited… What happens now is most crucial, it will depend on Tai Bai Yun Sheng, whether he can quickly survive the calamity and tribulation in the immortal aperture.” Fang Yuan was expressionless as he sat on the azure wolf king’s back, watching with growing tension.

After all, landscape as before Gu was one of his main goals in coming to northern plains.

Tai Bai Yun Sheng’s speed started to slow down.

He was facing troubles both in his aperture and outside of it, the land spirit was causing him harm, while the calamity and tribulation was forming in his own immortal aperture due to his mortal Gu's ascension.

This internal threat especially, it was taking away much of his attention, thus his reactions toward the outside world were getting slower.

Suddenly, his body shook, completely stopping his movements.

Immediately after, countless chaotic lightning balls flew towards him.

Divert disaster light pillar was shining brilliantly, it burst out and surrounded Tai Bai Yun Sheng.

"Now is the most crucial time!" Fang Yuan, Hei Lou Lan, Ye Lui Sang and others could see clearly that this was it, their eyes were shining.

At this moment, in Tai Bai Yun Sheng's immortal aperture, bright light exploded, engulfing the entire small world.

The aura of the Immortal Gu was spewing out like a fountain.

In that bright light, an Immortal Gu was rising up slowly.

It looked like a ladybug, it was fist sized and had a jade body. On its round back, there were natural markings, half was of rivers and seas, while the other half was of valleys and mountains.

"So this Immortal Gu was created by combining River as Before and Mountain as Before. It seems the effect is also the product of River as Before and Mountain as Before, but elevated." Tai Bai Yun Sheng analyzed.

This was refined during the resonance of heaven and earth, it was not refined by him personally, thus, he was still unclear towards the effect of Landscape as Before.

After looking at it for a few breaths' time, Tai Bai Yun Sheng placed his attention on the most central area of the blessed land.

Immortal Gu Landscape as Before, it was not part of his goal, only an additional surprise.

Now at the center of the blessed land, man as before Gu had turned into a huge cocoon, but cracks were starting to develop on it. Dazzling rainbow light was leaking from the cracks.

Breaking the cocoon and becoming a butterfly!

As the thick cocoon vanished, a colorful butterfly fluttered into the sky. Wherever it went, rainbow light rained down, trailing behind the butterfly's path as a curvy rainbow was formed behind it.

"Success, Immortal Gu Man as Before! Ahahaha…" Seeing this, Tai Bai Yun Sheng was extremely happy, he laughed maniacally.

So many years of accumulation, so many years of anticipation and worry, so many times he had fallen into grave danger, but at this moment, he obtained a perfect result!

But his internal threat still remained.

In the immortal aperture, the azure tribulation cloud was rumbling, forming a huge green scaled snake, the snake had a silver horn on its head, and its body was hundreds of metres long, the snake tail had turned into qi, fusing with the tribulation cloud.

As for the ground, it started shaking, making loud sounds that resembled thunder, causing pain to the eardrums.

The newly formed earth burst out with cracks, as lava spewed out of it, the smoke was thick as trees as the surroundings withered.

"Heavenly tribulation — silver horn green scale python, earthly calamity — molten earth!" Tai Bai Yun Sheng's heart shook, facing both the heavenly tribulation and earthly calamity alone at the same time, he felt an immense pressure.

He placed his hopes on the Immortal Gu Landscape as Before.

"Come." He willed, as a bead of green grape immortal essence flew out, fusing into the landscape as before Gu.

The ladybug-like landscape as before Gu immediately flapped its wings, flying away like a flash of lightning.

Everywhere it went, in the surroundings, the land returned to spring as the landscape was restored to normal, back to the moment before the earthly calamity struck.

“Good Gu, good Gu!” Tai Bai Yun Sheng’s heart settled, with landscape as before Immortal Gu, he had no fear towards the earthly calamity.

Hisss—!

The silver horn green scale python opened its mouth, making a shrill sound.

It shot out abruptly, its huge body bringing along a draft of wind, as it pounced on the landscape as before Immortal Gu.

Tai Bai Yun Sheng was nervous, although Immortal Gu had huge capabilities, those which were not defensive Gu were usually fragile. Landscape as before Gu was the same, if it was destroyed by the silver horn green scale python, Tai Bai Yun Sheng’s situation would turn bad.

Thankfully, landscape as before Gu was born from his aperture during the resonance of heaven and earth, he could control it like moving his limbs.

Tai Bai Yun Sheng had deep foundations accumulated in his life, he quickly mobilized landscape as before Immortal Gu and escaped. The silver horn green scale python behind him had attacked dozens of times, it destroyed mountains and rivers, the earth was pierced and rocks were sent flying, as savage winds ravaged the land.

“Oh no! At this rate…” Tai Bai Yun Sheng was concentrating intensely, after a few breaths’ time, sweat started forming on his forehead.

His eyes were shut tight, his body was still floating in the air, as the chaotic lightning balls crashed towards him.

But thankfully, due to the divert disaster Immortal Gu's light pillar, his body was protected.

Tai Bai Yun Sheng was unable to care about the outside world since long ago, but he had not forgotten his external threat.

This terrible situation forced him to cut his losses decisively.

"Eighty-Eight True Yang Building's reinforcement is limited, it might stop anytime. I can only do this… With man as before Immortal Gu in my possession, as long as I have time, there is hope! Cut, cut it off!"

Tai Bai Yun Sheng shouted in his heart.

Abandoning the territories to protect his headquarters, he gave up a portion of his immortal aperture, the sky began to cut apart.

The blessed land was the foundation and base of a Gu Immortal, cutting off the blessed land was like self-mutilation, it reduced their own strength and potential.

But Tai Bai Yun Sheng had no other choice.

Just like how Fang Yuan survived the earthly calamity back in Hu Immortal blessed land, in order to get rid of the blue charm lightning shadow, he discarded a portion of the blessed land, Tai Bai Yun Sheng also had to make such a sacrifice!

The blessed land's sky was shaved off layer by layer.

Along with the thick tribulation clouds, they were all sent out of his body.

Outside his body, it was Imperial Court blessed land, Frost Jade Peacock joyfully chirped as it devoured these blessed land fragments, to increase its own strength.

Giant Sun's will shouted in anger.

He was trying to protect Tai Bai Yun Sheng's life, but the latter was now fueling his enemy's strength!

Giant Sun's will had to protect him, because if Tai Bai Yun Sheng died, his entire immortal aperture would be devoured by Imperial Court blessed land.

Most importantly, divert disaster Immortal Gu was already full of cracks, if he reinforced Tai Bai Yun Sheng any more, the Gu might get destroyed from the backlash.

Divert disaster Immortal Gu was one of the foundation pieces of Eighty-Eight True Yang Building, it could not be lost!

But if Tai Bai Yun Sheng died, it was similarly disadvantageous for Giant Sun's will.

At once, Giant Sun's will fell into a difficult predicament.

Chapter 612 - Hoodwinking the Land Spirit

Chapter 612: Hoodwinking the Land Spirit

Translator: ChibiGeneral **Editor:** ChibiGeneral

The sky in the immortal aperture started to peel off layer by layer, the dense tribulation clouds thinned out along with it. The devastating silver horn green scale python's body decreased to one-tenth of its original size, its might extremely weakened.

The situation was taking a turn for the better for Tai Bai Yun Sheng.

"Success is at hand." Tai Bai Yun Sheng's eyes were filled with tears when he opened them. The situation in the immortal aperture was already stabilizing, and he had the room to pay some attention to the external crisis.

The light of Divert Disaster was covering him, preventing the calamity and tribulation from touching him; Tai Bai Yun Sheng felt gratitude from the depths of his heart: "This is all thanks to Eighty-Eight True Yang Building helping me, otherwise I would find it difficult to even have a hope of succeeding… Eh!"

The light of divert disaster suddenly dissipated!

Tai Bai Yun Sheng was caught off-guard and was bombarded by the chaotic lightning balls, his mind immediately turning chaotic. He flew around in disorder, knocking into large numbers of chaotic lightning balls as he was unable to act for himself with not even a trace of reason left.

Everyone was shocked but before they could express it, Eighty-Eight True Yang Building burst out with an absolutely powerful absorption force again, directly capturing the hysterical Tai Bai Yun Sheng.

Giant Sun's will could not sacrifice divert disaster Gu and also could not let Tai Bai Yun Sheng die.

The best method was, of course, to throw Tai Bai Yun Sheng out of the blessed land. Unfortunately, only Frost Jade Peacock could do that in this situation.

Helplessly, Giant Sun's will could only use this inferior method.

This was indeed an inferior solution.

Under everyone's shocked gazes, the tribulation clouds and calamity dust surged explosively, shrouding Eighty-Eight True Yang Building! Countless chaotic lightning balls crashed down like a violent storm; while restraining smoke coiled around the tower like an immemorial giant python, continually seeping inside.

Eighty-Eight True Yang Building had brought in Tai Bai Yun Sheng, thus becoming the target for the heavenly tribulation and earthly calamity.

To protect Tai Bai Yun Sheng's life, Giant Sun's will chose to forcefully resist the heavenly tribulation and earthly calamity!

"How could this happen!"

"Lord Tai Bai Yun Sheng was brought into Eighty-Eight True Yang Building!!"

"How on earth does he deserve such assistance from old ancestor? This is a heavenly tribulation and earthly calamity we are talking about, they are extremely dangerous to True Yang Building!"

Everyone looked on with stupefied and shocked gazes.

Under the presence of the heavenly tribulation and earthly calamity, using Gu worms was asking to suffer backlash.

Eighty-Eight True Yang Building was a rank eight Immortal Gu house; in its essence, it was an integrated body of many Immortal Gu and countless mortal Gu. And now, it was forcefully resisting the heavenly tribulation and earthly calamity, the pressure on it was already enormous. And because of the force of the backlash, the coordination between the Gu worms had been affected!

It was clear, this was by no means a wise course of action.

However, Tai Bai Yun Sheng had become a crucial key in the fight between Giant Sun's will and Frost Jade Peacock; Giant Sun's will, forced by the situation, could only settle for such a method.

Inside Eighty-Eight True Yang Building, Frost Jade Peacock rapidly moved its wings, continuously dodging in between the gigantic trees.

Five Immortal Gu, with all kinds of flaming tails trailing after them, were pursuing and obstructing it.

Frost Jade Peacock was not willing to be sealed again and used all its strength to run away, gradually it lost its head and was unable to take the exact path, crashing into countless giant trees on the way.

Under Giant Sun's will's control, True Yang Building was a natural cage that could utilize the strength of any round, while Frost Jade Peacock was the bird in the cage. The giant trees turned into treemen, opening their arms to block it.

Caaaw—!

Frost Jade Peacock screamed shrilly as it suffered damage.

It tore apart the defense line of three old treemen, but its speed lowered greatly by this, and was caught up by a metal path Immortal Gu from behind.

A golden stream of light rapidly flowed on its body. The golden light condensed into a thick golden shell wherever it touched, firmly covering Frost Jade Peacock.

Frost Jade Peacock sensed it could not budge in any areas covered by the golden light; it was instantly startled and furious.

It hurriedly flapped its wings to increase its speed again. But the next moment, it was attacked by the second Immortal Gu.

An intense sleepiness invaded its mind, causing its eyes to turn hazy as it felt an intense urge to sleep.

Boom.

It crashed down head-first onto the ground, unable to fly any longer.

It had a premonition that its fate was to be sealed again; two rows of tears filled with grief and indignance involuntarily fell down from its eyes.

“Don’t… even… think…” Frost Jade Peacock mumbled to itself, trying to use all its remaining strength to resist.

Although there was still the remaining power of Immortal Gu Gruel Mud on its body, the two Immortal Gu sealing it again were not restrained by Gruel Mud.

“Even if I die, I won’t let you prevail!” Frost Jade Peacock gave off an intense suicidal will, and disregarding everything, it drew out the foundation of Imperial Court blessed land — heaven and earth qi, to intensify the heavenly tribulation and earthly calamity.

And it was rapidly weakening.

Imperial Court blessed land was born from a space path Gu Immortal, thus the blessed land’s territory was vast, far surpassing any at an equivalent level.

Later, it was developed by Giant Sun Immortal Venerable, becoming a top-notch blessed land and also obtaining the ability to transit between day and night; it could be said to be at the doorstep of transforming into a grotto-heaven.

If it could swallow the time path Gu Immortal Tai Bai Yun Sheng’s immortal aperture, space and time could converge which was the greatest supplement to Imperial Court blessed land. It was extremely likely for there to be a qualitative change which could allow Imperial Court blessed land to advance to a grotto-heaven!

If that happened, Frost Jade Peacock could break apart most of the arrangements of Giant Sun Immortal Venerable. Although it could not suppress Eighty-Eight True Yang Building, it would have the power to expel it out of the blessed land.

However, Giant Sun's will was truly too resolute and would rather suffer the damage from the heavenly tribulation and earthly calamity to protect Tai Bai Yun Sheng's life.

Frost Jade Peacock was only an obsession left behind after a Gu Immortal's death, how could it scheme against Giant Sun's will?

But it was also because of its obsession, it was brave and unyielding!

On the verge of being sealed again, it would rather be exterminated, and disregarding the consequences, it drew out large amounts of heaven and earth qi from Imperial Court blessed land.

These heaven and earth qi were like adding fuel to the fire; as they assimilated into the heavenly tribulation and earthly calamity, the sky rumbled with lightning, the chaotic lightning balls immediately expanded tenfold in quantity, and the restraining smoke had even more changes, its body inflated and its dark color turned even deeper.

Crack crack crack!

Lightning balls rained down like a storm, fiercely striking Eighty-Eight True Yang Building.

Bursts of explosions sounded out; Eighty-Eight True Yang Building became filled with scars, the eaves of the tower collapsed piece by piece, and a crack even appeared on the outer wall.

Restraining smoke turned into an even bigger problem, becoming a deadly smoke calamity; it was much more powerful and seeped everywhere on Eighty-Eight True Yang Building's surface, gradually dying it black.

The pitch-black walls of the building seemed to have eroded for a thousand years, as they started to peel off.

“The heavenly tribulation and earthly calamity have become stronger!”

“This is too terrifying, retreat, retreat!”

“What is happening? Even the wind and snow from the outside world are pouring in!!”

Everyone started shouting in shock.

Frost Jade Peacock extracted large amounts of heaven and earth qi, injuring Imperial Court blessed land’s foundation. If Imperial Court blessed land was originally a strong house, now the tiles and bricks were taken out, only leaving behind the framework of the house.

This caused countless holes to appear in it, connecting to the outside world.

And the outside world of northern plains was currently experiencing the blizzard of every ten years.

Divert disaster Gu was dormant, causing Imperial Court blessed land to suffer the invasion of the blizzard calamity as well.

Imperial Court blessed land was no longer a refuge; large amounts of wind and snow poured in, the temperature quickly dropped as the heavy snowfall flew inside. Although it had not reached the level of forming snow monsters, it was not too far away.

“Little sparrow, look at what a big mess you have caused.” Giant Sun’s will shouted in annoyance.

Blessed lands and grotto-heavens would attract all sizes of calamities and tribulations in every set interval of time. The larger their fortune, the stronger the calamities and tribulations.

The great snow disaster that wreaked havoc over the whole of northern plains every ten years was actually the calamity and tribulation of Imperial Court blessed land.

Imperial Court blessed land had Eighty-Eight True Yang Building and was also a peak level blessed land with territory that was at the size of a small world; the fortune it contained was gigantic, thus the calamities and tribulations it attracted were extremely terrifying.

Right now, divert disaster Gu was hibernating, while Imperial Court blessed land had connected outside to northern plains, causing the once in ten years blizzard to return into it.

Eighty-Eight True Yang Building could forcibly resist the frenzied attacks of lightning balls, the invasion of the black smoke, but it was unable to contend against the blizzard that could wreak havoc over the whole of northern plains.

If this situation continued, Imperial Court blessed land would erode and crumble apart due to the snow disaster.

Frost Jade Peacock did not need Eighty-Eight True Yang Building, but Eighty-Eight True Yang Building needed Imperial Court blessed land.

There was one way to salvage this situation.

That was to use divert disaster Gu to eliminate heavenly tribulations and earthly calamities and turn them into heaven qi and earth qi. Making Imperial Court blessed land take in these heaven and earth qi to stabilize its foundation, and close the connection with the outside world of northern plains.

Giant Sun's will could take the risk in forcibly activating divert disaster Gu. But to make Imperial Court blessed land take in heaven and earth qi required Frost Jade Peacock's cooperation.

"Asking this little sparrow to cooperate is simply an impossible dream!" Even if it was Giant Sun's will, this was a difficult problem.

He helplessly thought of the only way —"Unless Frost Jade Peacock acknowledges a pair of new owners…"

Giant Sun's will did not know that Tai Bai Yun Sheng's immortal aperture contained landscape as before Immortal Gu which could conveniently deal with this trouble.

He thought of another Immortal Gu he had — false emotion fake will Gu!

The condition for Frost Jade Peacock to acknowledge its owner was a couple who had true love for each other.

However, nothing was absolute, even the land spirit could be hoodwinked.

Giant Sun's will knew as long as he found two candidates to use false emotion fake will Gu on, he could hoodwink the land spirit and make Frost Jade Peacock recognize new owners.

Once Frost Jade Peacock was controlled, each problem could be easily resolved.

Moreover, this method was very favorable to Giant Sun's will.

If a couple who had true love for each other became the owners of Imperial Court blessed land, what would Giant Sun's will do if this couple did not obey his commands?

Instead of that, he would hold onto the initiative if he found two unconnected people to use false emotion fake will Gu on and satisfy the requirement to become the owners.

Because false emotion fake will Gu contained Giant Sun's will!

False emotion fake will Gu was subjected to Giant Sun's will's control. Even if the two unconnected people were disloyal in the future, as long as Giant Sun's will still held false emotion fake will Gu, at worst, he could once again select two new candidates.

'Little sparrow, you are a long way from being able to fight with me.' Giant Sun's will was shrewd and wise, inheriting some of the main body's intelligence; the seemingly desperate situation could not hold him back. With just some thinking, he thought of a way to resolve it.

He immediately mobilized Eighty-Eight True Yang Building's strength to inspect the candidates.

Right now in Imperial Court blessed land, everyone was running away from danger here and there, with many casualties appearing.

The situation was quickly worsening, it was so cold that one’s spit could instantly freeze into a piece of ice. The majestic blizzard was pouring in without any pause, tall and formidable snow monsters started standing up from the depths of the snow, selecting targets to devour.

But this did not pose any difficulty for Giant Sun’s will.

Eighty-Eight True Yang Building could plunder resources from the whole of northern plains, let alone two people that were right in front of it.

These two people would naturally be those with Giant Sun’s bloodline, Giant Sun’s will soon selected two candidates who satisfied it.

“Eh?” Hei Lou Lan’s vision rapidly changed, he was at rank five peak stage, but he did not even have the strength to resist as he was absorbed into True Yang Building.

“Ahhhhh, save me!” Not far away, Ma Hong Yun was still running frantically and did not realize the changes in his surroundings.

Thud.

He bumped head first into a giant tree in front.

“Don’t tell me this kid was running with his eyes closed…” Hei Lou Lan was speechless.

“Painful, painful!” Ma Hong Yun rubbed his forehead that had turned red, pouting as he got up from the floor.

“Eh! What is this place?” He discovered that the blizzard had vanished without a trace, he was surrounded by a spring-like warmth; it was not a world of ice and snow, instead it was a vast ancient forest.

Around him were gigantic ancient trees, hundreds of metres tall, so thick that even a dozen adults joining hands could not surround it.

The ancient trees were very tall, and their lush leaves covered the sky; rays of sunlight penetrated through the small gaps, forming a tranquil scene under the shade.

Compared to the outside world, this was practically a paradise.

“You are in the center of Eighty-Eight True Yang Building.” A voice suddenly echoed within Ma Hong Yun and Hei Lou Lan’s ears.

“Who is this?” Hei Lou Lan’s pupils contracted.

Ma Hong Yun cried out in fear: “Ghost!”

He panicked and subconsciously ran to the side of Hei Lou Lan.

“Ghost? I am no ghost, if I could become a ghost, my affairs would be much easier to settle. Unfortunately I am merely a remnant will, inferior to even a ghost.”

Giant Sun’s will gave a sigh, and suddenly in mid-air, golden speckles of light appeared.

These speckles of light rotated slowly and suddenly condensed, transforming into an imposing body of light and shadow, similar in appearance to Giant Sun.

“Ah, you are!?” Ma Hong Yun stammered, his finger pointing towards the will of Giant Sun in endless shock.

Hei Lou Lan’s pupils contracted, as the head of Hei tribe, he knew a lot. His complexion turned solemn and respectful; placing his hands on his chest, he spoke dutifully: “Descendant pays respect to Ancestor Giant Sun!”

Giant Sun sighed once again, and said: “I know the two of you are feeling confusion within your hearts. To make a long story short, this man broke into True Yang Building, undid the seal on the Frost Jade Peacock land spirit, and thus put Imperial Court blessed land on the brink of crisis.”

As he said that, the golden speckles condensed into the image of Chang Shan Yin.

“Ah, it’s Lord Wolf King!” Ma Hong Yun immediately recognized.

“It was actually him?!” Hei Lou Lan also could not help but cry out.

But Giant Sun’s will immediately continued: “What you see is not his genuine appearance.”

As he spoke, the image of Chang Shan Yin changed, gradually turning into Fang Yuan’s true appearance.

“This is the true face of that person.” Giant Sun’s will spoke.

Fang Yuan disguised himself as Chang Shan Yin using the human skin Gu. This Gu was a mortal Gu, it was able to deceive people like Hei Lou Lan, but it failed to deceive Giant Sun’s will.

Even though when Fang Yuan explored the true inheritance secluded domain in secret, Giant Sun's will was asleep. But within the Eighty-Eight True Yang Building, there were many Gu worms that had recorded his actions.

Seeing the true face of Fang Yuan, Hei Lou Lan and Ma Hong Yun were unable to recognize him.

"So it turn out that this Chang Shan Yin was merely a fake! To actually infiltrate Imperial Court blessed land, he is extremely daring!" Hei Lou Lan let out a cold snort, sensing such a huge conspiracy, he could not help but be both startled and furious at once.

"He not only has guts, but he had also made ample preparations. Looking at the two methods he used to scheme against me, these are not something that one can accomplish on their own, there surely must be a larger force backing him. You two are my descendants; True Yang Building has been infiltrated by outsiders and is in deep trouble, I now need your strength." Giant Sun's will spoke.

Hei Lou Lan and Ma Hong Yun glanced at each other, both expressing their desire to cooperate with Giant Sun's will.

Giant Sun's will spoke concisely, in a short period of time, he was able to give a clear explanation.

"So it was like this." Hei Lou Lan came to a realization, and was now able to understand why True Yang Building helped Tai Bai Yun Sheng.

His heart jumped, Giant Sun's will's idea was for him to become Imperial Court blessed land's owner, that involved tremendous benefits.

"Imperial Court blessed land's ownership condition is special, the blessed land actually requires two owners. No wonder back then, when Giant Sun Immortal Venerable set up the sacred palace, he made it so that his empress could stay in it. He loved his empress very much, now it seems that the empress also had half the ownership of Imperial Court blessed land."

"Using false emotion fake will Gu to deceive the land spirit, this is quite a good idea. But this kid, how could he be selected to become Imperial Court blessed land's owner alongside me?"

Hei Lou Lan's eyes sparkled, shooting a glance toward Ma Hong Yun, concealing his deep disdain.

"Could it be that Ancestor Giant Sun thinks that he is an easier pawn to control?" Hei Lou Lan's gaze trembled, with Giant Sun's will present, he did not dare to do anything reckless.

Differing from Hei Lou Lan, Ma Hong Yun suddenly remembered something and shouted: "Wait a moment! Lady Xiao Yun and my wife Xiao Li are still outside, I do not want to be the owner of the blessed land, quickly let me out, I need to save them!"

Lady Xiao Yun naturally referred to Zhao Lian Yun.

His wife Xiao Li was Chang Li. Originally, Chang Biao, in order to coax Ma Ying Jie, allowed his adopted daughter Chang Li to be married off to Ma Hong Yun, consequently turning her into Ma Hong Yun's wife.

Giant Sun's will seemed to have taken a fancy to Ma Hong Yun, he laughed heartily: "Hahaha, caring for beautiful women, you are truly my descendant. Boy, once you become the owner of this blessed land, this will become your domain. Then, you will be able to have all the women you desire."

Ma Hong Yun stared blankly, before quickly shouting: "No, it's very dangerous outside, I have to go and save them both. No matter what this affair is, we can discuss it later. Release me outside, quickly let me go!"

"Foolish boy, relying on your own strength, you can barely defend yourself, how can you defend other people?" Giant Sun's will laughed. "Be obedient and stay here, cooperate and become the owner of Imperial Court blessed land. I will be the one to save your women."

Giant Sun's will moved rapidly without delay, starting to act the moment he finished speaking.

Great numbers of Gu Masters were in the True Yang Building, and almost all of them were Giant Sun's descendants.

These were his descendants, Eighty-Eight True Yang Building was built for their sake, as an inheritance for his descendants.

Naturally, not all of his descendants had the aptitude to become Gu Masters, Giant Sun's will had not made a move to save those.

Fang Yuan had a panoramic view of this scene.

"Giant Sun's will made a move, this time, many people were taken into the building." Within his mind, Mo Yao's will spoke.

Fang Yuan sat still on the back of an azure wolf king, floating at a high altitude in the sky, gazing at the distant sacred palace.

But it was a huge distance away from his original location.

The power of the calamities and tribulations getting more fearsome, Fang Yuan, in order to avoid the disaster, could only retreat.

In the surroundings of the sacred palace, the heavenly tribulations and earthly calamities continued to increase in power, the area was already extremely dangerous. This Frost Jade Peacock was putting in a last ditch attempt, even the once in ten years blizzard of the northern plains was attracted over.

Now the sacred palace had mostly been destroyed, the broken walls scattered in the wind, its former splendor nowhere to be seen.

Eighty-Eight True Yang Building was in a terrible state, it was wrapped in layers of heavenly tribulations and earthly calamities. Inside it were the chaotic lightning balls and restraining smoke, while outside was the raging blizzard that was getting stronger.

"Giant Sun's will has already awakened, he definitely wants you dead, it's a blessing that he isn't targeting you now; he absolutely won't come and save us. We should retreat and return to Water Pavilion. Within Water Pavilion, there is some immortal essence that

I have left behind in the past, you can use them to move the Gu House. You can return to central continent, and when you return Water Pavilion to Spirit Affinity House, you will receive more benefits than you can imagine, there is no need for you to take a risk here.” Within his mind, Mo Yao continued to coax him.

Things had already progressed this far, the entire Imperial Court blessed land had been affected, Giant Sun’s will had already awakened, Water Pavilion was still hidden; while True Yang Building was suppressed by the heaven tribulations and earthly calamities, it was a great opportunity to retreat.

“Retreat?” Fang Yuan’s eyes were cold and detached, his line of sight turning towards the glass owner token in his hands as he sneered softly.

He gripped the glass owner token tightly.

This was a crucial trump card he had not expended yet.

Central continent Gu Immortals left behind three methods to deal with Giant Sun’s will.

The first was the Gu formation of special will Gu, effective in dealing with Giant Sun’s will. The second method was a sealing Gu formation, which could temporarily seal the yellow apricot immortal essence left behind by Giant Sun Immortal Venerable.

The third method was even more hidden but had greater power, it could temporarily expel Giant Sun’s will from the True Yang Building!

The glass owner token was the key to all three of these methods.

Now, both the first and second methods were already used, only the third method was left.

But this third method was much stronger compared with the first two methods, it could be said to be a trump card!

Especially at this moment.

Eighty-Eight True Yang Building was wrapped in heavenly tribulations and earthly calamities, once Giant Sun's will gets temporarily separated from the building, he would definitely suffer the fearsome attack of the heavenly tribulations and earthly calamities!

Mo Yao's plan was indeed mature and stable, but great risks come with great rewards.

Meanwhile, in True Yang Building.

Chang Li and Zhao Lian Yun were brought into the building by Giant Sun's will, appearing in front of Ma Hong Yun.

"Lady Xiao Yun, my wife Xiao Li!" Ma Hong Yun was jubilant, and dashed towards them.

"Husband!" Chang Li was happy to have escaped danger, and threw herself into Ma Hong Yun's arms.

Zhao Lian Yun also moved quickly towards Ma Hong Yun's side, her face also full of joy from having returned from death's door, she lightly kicked Ma Hong Yun's leg: "Foolish kid, unexpectedly, you were useful for once."

"Hahaha, it's only natural." Ma Hong Yun loosened his hug and cordially looked towards Giant Sun's will floating in midair, and expressed his gratitude, "Thank you, old ancestor."

Just as he said that, suddenly, a violent tremor occurred.

For a moment, the entire forest shook.

"What's going on?" Chang Li and Zhao Lian Yun both turned pale.

"Alright, enough nonsense, the heavenly tribulations and earthly calamities are getting more and more severe, eventually, even Eighty-Eight True Yang Building will no longer be able to resist. You must become Imperial Court blessed land's owners as soon as possible." The complexion of Giant Sun's will's changed as he spoke.

Bam bam bam…

A group of large treemen moved slowly, each footstep they took sounding like thunder.

The treemen lowered their waists, opening their branch-like palms, revealing the giant immobilized peacock.

“This is the land spirit of Imperial Court blessed land, Frost Jade Peacock!” Giant Sun’s will introduced, while at the same time, false emotion fake will Gu flew towards the Frost Jade Peacock.

Hei Lou Lan and Ma Hong Yun stood before the Frost Jade Peacock, as the false emotion fake will Gu let out a yellow light that resembled a fog, gradually enshrouding Hei Lou Lan, Ma Hong Yun and the Frost Jade Peacock.

Chapter 614: Otherworldly Demon!

“Listen to my instructions. Hold your breath, be calm, be relaxed, and discard any superfluous thoughts…” Giant Sun’s will spoke in a pensive tone.

Hei Lou Lan closed his eyes and slowed his breathing.

Zhao Lian Yun and Chang Li stood to the sides and did not dare to speak.

A light breeze blew, and the tree leaves rustled, creating a tranquil atmosphere.

Ma Hong Yun looked left and right. Suddenly seeing the Frost Jade Peacock, he was amazed, shouting: “Look quickly, the peacock is alive, it actually shed tears!”

The tranquil atmosphere was disrupted, and the voice of Giant Sun’s will’s stopped. Hei Lou Lan held his irritation, and angrily opened his eyes. He berated: “Nonsense, of course the land spirit is alive. When the land spirit dies, the blessed land will be finished as well. Why do you care if it is shedding tears or not, quickly follow the instructions!”

“Oh, oh. So, it’s like this, my bad, my bad.” Ma Hong Yun was shocked by the Black Tyrant’s anger, he nodded quickly.

“Concentrate, clear your mind, don’t think excessively, this is the best way to display false emotion fake will Gu’s power to its limit.” Giant

Sun's will continued to instruct.

Hei Lou Lan closed both of his eyes and breathed gently, a light breeze blew, bringing with it the sweet fragrance of vegetation.

"Wait a moment, wait a moment!" Ma Hong Yun suddenly screamed.

"You despicable fellow, are you courting death!" Hei Lou Lan clenched his fist, an immense rage was building in his heart, he was outraged and anxious.

"Old ancestor, I am a man, he is also a man. Creating feelings between the two of us, I… I am unable to accept it!" Ma Hong Yun was afraid of Hei Lou Lan's terrifying aura, he whispered while being on guard against Hei Lou Lan, pleading with Giant Sun's will.

"You scoundrel…" Hei Lou Lan gnashed his teeth and clenched his fist until they made cracking noises, his eyes revealing an ominous glint.

Were it not for Giant Sun's will being right by his side, according to his brutal nature, he would have already sent a punch over, blowing Ma Hong Yun's brains out.

"Idiot! Saving the blessed land is the most urgent matter right now. So what if you're both men, just be free and relax, there will not be a problem! I will always support you!!" Zhao Lian Yun called out, she was fearful of Hei Lou Lan, yet simultaneously her eyes showed some unexplainable excitement.

"That's right, husband, look at the big picture, I… I do not mind it," Chang Li spoke softly in agreement.

Ma Hong Yun rolled his eyes and shouted: "Hey, this does not involve you so you can talk about it casually! Old Ancestor, I have an idea, how about you let me and my wife do it. Our love is genuine and sincere, you can even save up on using the false emotion fake will Gu."

Ma Hong Yun was straightforward, not giving much thought to the complex circumstances.

As far as Giant Sun's will was concerned, not using false emotion fake will Gu was out of the question.

Hei Lou Lan's killing intent burst out, Ma Hong Yun's proposal greatly encroached on his benefits, his anger was about to explode, almost reaching his limit, but he did not dare to attack in the presence of Giant Sun's will, he did not dare to flare up.

As expected, Giant Sun's will rejected Ma Hong Yun's proposal: "Boy, you are too young, true love, is it so easy to find? When calamity strikes, all the birds fly in different directions, human couples are also the same. Do you think this young lady truly loves you? Hehehe."

The words of Giant Sun's will made Chang Li's complexion pale.

Indeed, Chang Li had never sincerely loved Ma Hong Yun, originally, she was looked upon as a political bargaining chip by Chang Biao and delivered to Ma Tribe, intended to be used to form good bonds with Ma Ying Jie, but in the end, Chang Biao died, and Chang Li lost her backing. She could only accept her fate and stay by Ma Hong Yun's side.

Fortunately, Ma Hong Yun could cultivate to rank three, becoming a Ma Tribe elder, the resources he had available to him were incomparable to before, and as he also had Ma Ying Jie's trust, he could provide Chang Li with a good life.

Ma Hong Yun was to become one of Imperial Court blessed land's owners, and since he was close to Chang Li and Zhao Lian Yun, Giant Sun's will began to investigate them.

His investigative method was simple, direct, and effective.

He separated a portion of his will, and ventured into Chang Li and Zhao Lian Yun's minds, looking over their memories and thoughts.

With True Yang Building's support, along with the method of an Immortal Venerable, Chang Li and Zhao Lian Yun were not even aware that, at this time, each of their secrets were rapidly being learned by Giant Sun's will.

"Old Ancestor, what do you mean?" Ma Hong Yun pursed his eyebrows, he was foolish and brazen, while Hei Lou Lan did not dare to offend Giant Sun's will, he dared to ask a direct question.

Giant Sun's will laughed: "You are indeed a fool, boy. Your mind isn't that sharp, but it is excusable, I will now give you a lesson. This little wife of yours approached you with an ulterior motive, her adoptive father deliberately ordered her to come. Even your heroic action of saving this beauty was merely a show."

Chang Li's complexion immediately turned deathly pale and she trembled from head to toe.

Hei Lou Lan was indifferent, he was already accustomed to these dirty political games.

"How could that be?" Ma Hong Yun's eyes widened, unable to believe this.

Giant Son's will then said: "And there is also your little female companion, called Zhao Lian Yun. Hehe, she had matured young and gained some wisdom, she was forced by circumstances to had no choice but to be with you. From the very beginning she had looked down on you, only wanting to protect herself… Of course, now that you have grown stronger, she has gradually become dependent on you."

Zhao Lian Yun's heart went cold, her thoughts were exposed on the spot, making her feel extremely unpleasant, as if the clothes on her body had been forcibly stripped off by someone.

But facing Giant Sun's will, she did not dare to refute anything. She wasn't a normal child, she was a transmigrator, the suffering she had experienced in this life had made her aware of the mystery and cruelty of this world.

"Eh!?" Suddenly, Giant Sun's will's words came to a stop, and his image in the air showed an expression of shock and fear with his eyes wide open.

"To think, to think that!" Giant Sun's will's tone changed abruptly, he stared at Zhao Lian Yun with a hateful gaze, causing her to take a few steps back in fear.

“To think that you are an otherworldly demon! You are actually lurking by Ma Hong Yun’s side! Hehehe, you have such guts, you are really daring. Unfortunately… you met me.” Giant Sun’s will exuded a strong killing intent.

“Otherworldly demon, what is that?” Hei Lou Lan was astonished, as it was his first time hearing this term despite his status and experience.

He looked at Zhao Lian Yun but could not see anything extraordinary about her.

“Old Ancestor, what are you trying to do!” Ma Hong Yun, no matter how stupid, could recognize something was wrong.

He sprinted to the front of Zhao Lian Yun, spreading both of his arms, protecting her behind his body.

“Boy, you want to protect an otherworldly demon?” Giant Sun’s will raised his tone, his expression becoming ice-cold.

“What otherworldly demon! I don’t know any otherworldly demon, I only know she is Lady Xiao Yun, without her help, I would likely have been killed already.” Ma Hong Yun tried his best to defend Zhao Lian Yun.

Giant Sun’s will shook his head and sneered. He had no interest in explaining, yet for some reason, he had to explain: “Killed? Boy, you are a person destined to become a Gu Immortal. Had she not helped you, there would definitely have been others who would have given you assistance. Otherworldly demons are enemies of the entire world, they are a huge menace! If we let them grow, the consequences would be unthinkable. In the past, there was an otherworldly demon who managed to grow successfully, the five regions were almost destroyed as a result!”

Hei Lou Lan’s eyes widened.

The words of Giant Sun’s will were too sensational. Listening to his words, it seemed as if the otherworldly demons could rival rank nine venerables.

How was it possible?

But the one who said these words was someone Hei Lou Lan had no choice but to believe.

For a moment, Hei Lou Lan looked Zhao Lian Yun in the eyes, killing intent emerging.

“No, Lady Xiao Yun is innocent, you must not harm her!” Ma Hong Yun was extremely determined, he wholeheartedly wanted to protect Zhao Lian Yun.

Zhao Lian Yun was stunned.

She looked towards Ma Hong Yun’s lonely and powerless back, her eyes glistening with tears.

She did not know what bullshit otherworldly demons were, but could surmise that perhaps it was related to her own transmigration.

She forced herself to wipe her tears, the corners of her lips raising into a determined arc.

Since Ma Hong Yun wholeheartedly defended her, disregarding his own life, she consequently must not implicate Ma Hong Yun!

She took a step forward, stopping in front of Ma Hong Yun, she looked at Giant Sun’s will, speaking resoundingly: “You want to take my life, come and take it.”

“Good.” Giant Sun’s will had a ferocious smile, killing intent boiling with no trace of sympathy.

He was a huge will congealed by special will Gu, the difference between special wills and other wills were that: they could be given a special command by the Gu Master that would be triggered if specific circumstances were met.

And Giant Sun’s will, during its formation, was given a profound resolve by the main body —— if it discovered an otherworldly demon, no matter the circumstances, killing the otherworldly demon must take priority!

Giant Sun's will had to kill Zhao Lian Yun, to have been able to restrain himself until now was already really remarkable.

"No——! Ma Hong Yun saw the situation going south, he shouted out in a moment of desperation, extending both his arms and hugged Zhao Lian Yun within his bosom.

"Otherworldly demon, you deserve to die without pity!" Giant Sun's will sneered, and started to make his move.

Yet the next moment, his expression became rigid, and shortly after he faced towards the sky and bellowed: "Damn it——!"

The roaring voice suddenly came to a spontaneous end, and the image of the will abruptly disappeared in mid-air.

Giant Sun's will could sense a formidable, hard to resist force, that pulled it outside of the Eighty-Eight True Yang Building.

"What is going on?"

"What happened?!"

No matter if it was Hei Lou Lan or Ma Hong Yun, both stared blankly at the spot, surprised by the turn of events.

Just a moment ago, Giant Sun's will was still brilliant and mighty, how could he suddenly disappear?

Outside the Eighty-Eight True Yang Building, the golden speckles of the majestic will enveloped the entire True Yang Building.

Rumble!

Large amounts of chaotic lightning balls bombarded in succession, the lightning balls could cause one to sink into confusion and in essence attacked wills.

Giant Sun’s will was restrained by the chaotic lightning balls, in no time the explosions put him in a tough spot, a portion of his will was damaged and destroyed.

Meanwhile, the restraining smoke took advantage of the situation, swallowing up the pieces of Giant Sun’s will.

Giant Sun’s will really was too majestic, though the outer shell suffered the bombardment of the heavenly tribulation and earthly calamity, the inner layer desperately tried to enter the building.

Eighty-Eight True Yang building, presided over by Giant Sun’s will, was now an empty building, although the structure was intact, the Gu worms stopped functioning.

Like an army of soldiers suddenly losing their commander-in-chief, they can only rely on their instincts to act.

At this moment, Eighty-Eight True Yang Building had become exceptionally fragile.

Chapter 615: We are fellow apprentice brothers!

“You little pest, I will kill you!”

Giant Sun’s will was naturally furious at being subjected to such a scheme once again.

A portion of the majestic will was immediately sent flooding towards the distant Fang Yuan.

However, this torrential portion of will was weathered down by the chaotic lightning balls and restraining smoke in the inner layer, shrinking by thirty percent. And after being ground down by the outer layer’s blizzard, it decreased by another twenty percent.

By the time it approached Fang Yuan, it had already been reduced by more than half.

“This can only last for about fifteen minutes.” Fang Yuan turned a blind eye to the rapidly approaching attack, his mind was cool as ice, as he silently estimated the duration of this third method.

His thoughts moved while tightly clenching the glass owner token, and the next moment, he teleported inside Eighty-Eight True Yang Building.

This was a feature of the glass owner token.

Fang Yuan had been able to move in Eighty-Eight True Yang Building without anyone knowing of it, because of this.

He appeared on an ice mountain, causing the torrential will to strike empty air.

It was a scene of white, the icy-cold wind brushed past his face.

Grrr!

Three-eyed snow rabbits, at the size of adult men, with bulging muscles, drilled out from the depths of the snowy land, surrounding Fang Yuan in a few moments!

This was the round that Tai Bai Yun Sheng had been transported to in Eighty-Eight True Yang Building.

The snow rabbits kept on appearing endlessly and soon there were tens of thousands of them glaring at Fang Yuan.

Just based on close-quarter combat capability, these snow rabbits did not lose to wind wolves or turtleback wolves. Under the environment of ice and snow, their battle strength even surpassed ordinary wolves.

The large numbers of wild Gu living in their body further increased their ferocity.

One had to spend a lot of time and energy to break through their obstruction.

But Fang Yuan was in control of the glass owner token and did not need to use such a forceful method.

His thoughts moved and the glass owner token gave a faint glimmer.

The crowd of snow rabbits suddenly appeared to be at a loss, their killing intent instantly dissipating.

Fang Yuan waved his hand and they dispersed in confusion, drilling into the thick snowy ground, and before long, they were gone.

Fang Yuan was able to control many floors of True Yang Building with the glass owner token. He had intentionally held back before and did not use up the quota completely, saving several uses for later. Right now, he used it and immediately obtained control over this floor.

Without the obstruction of Giant Sun's will, he was this round's true controller and it was very easy for him to disperse these snow rabbits.

Crack…

A glacier split open, revealing a tunnel.

The tunnel directly extended down the inner part of the ice mountain.

Fang Yuan moved quickly in this tunnel and soon saw Tai Bai Yun Sheng.

Tai Bai Yun Sheng was sealed inside an ice block, seemingly in a deep sleep.

He had been bombarded by chaotic lightning balls when he tried to pass the tribulations before, his mind sunk into chaos and he was not able to think. Thus, he was easily absorbed into the tower by Giant Sun's will.

Tai Bai Yun Sheng was not of Giant Sun's bloodline, and moreover was a Gu Immortal, therefore he could not be easily controlled. To prevent him from causing trouble and to seize the moment to handle the land spirit, Giant Sun's will took advantage of this to seal him here.

With a thought from Fang Yuan, the ice block dissolved and Tai Bai Yun Sheng slowly woke up.

"Chang Shan Yin…" Tai Bai Yun Sheng gradually regained his consciousness, he glanced around and recalled, before gazing at Fang Yuan.

Although he found Fang Yuan's cruel way of doing things very repugnant, he was grateful at this moment: "You saved me?"

Fang Yuan arrogantly smiled: “If not me, who else could it be? Tai Bai Yun Sheng, do you know you are facing imminent catastrophe?”

“Imminent catastrophe?” Tai Bai Yun Sheng’s expression changed, but he was a famed character and was not scared by Fang Yuan’s frightening words.

Instead, he slowly stood up and lightly smiled at Fang Yuan: “Please explain.”

Fang Yuan looked at Tai Bai Yun Sheng with indignance and explained: “I was ordered by master to infiltrate into True Yang Building and release the seals on the land spirit, to overturn True Yang Building and take control of Imperial Court blessed land! Master gave me a glass owner token which can use three methods to deal with Giant Sun’s will. But something unexpected happened midway, you suddenly advanced to a Gu Immortal and it was used by Giant Sun’s will to weaken the land spirit, leading to the current peril. Did you think you were favored by Giant Sun’s will? Hmph, he was only using you to protect True Yang Building! Now that you have lost your value, you were sealed up, and if not for me saving you, you would definitely fall into the control of Giant Sun’s will, and end up in extreme misery!”

“What?” Tai Bai Yun Sheng’s brows furrowed as he revealed a bewildered expression. Fang Yuan’s words not only contained a lot of information but also were very impactful.

Tai Bai Yun Sheng stared at Fang Yuan, his gaze flashing with a bright light as his brows furrowed deeper: “I had been doubting why I suddenly received the help of Giant Sun’s will, but later absorbed into True Yang Building and sealed up for no reason. Your words explain everything. But if so, who are you? Why did you save me? You might have released me from imprisonment, but it doesn’t mean I will believe you unconditionally!”

Fang Yuan laughed heartily: “Who am I? Look carefully!”

He then took a step back and right in front of Tai Bai Yun Sheng, he used a knife to slowly cut his skin starting from his forehead.

A bloodstain extended down to his stomach, following the tip of the knife.

“What are you…?!” Tai Bai Yun Sheng was shocked.

Fang Yuan chuckled, he then held the knife behind his head and cut downwards. Using his hands in turn, he cut down a long wound smoothly.

The two long wounds soon exuded scarlet blood.

An intense pain attacked him, but Fang Yuan’s expression did not change.

Next, he started slicing at his arms, thighs and other crucial areas.

His hand was steady as a rock during the whole process, his expression was indifferent as if the one being cut was not him but someone else, not expressing even a trace of pain.

“What are you doing?” Tai Bai Yun Sheng felt a chill down his spine and took a step back, doubts forming in his mind.

But the next moment, his pupils shrunk and his shock could not be concealed on his face.

He saw Fang Yuan clenching his teeth and peeling his skin off like stripping clothes.

His movement was neat and efficient, there was almost not even an inch of skin remaining on his whole body. Like a blood monster, there was only a terrifying human shape with scarlet muscles and snow white teeth left behind.

Next, Fang Yuan activated healing Gu.

Under the emerald light, new tender skin started to grow over his body.

The skin gradually covered all his body and after the emerald light dispersed, the one before Tai Bai Yun Sheng was Fang Yuan with his real appearance.

“Ahh! So you were not Chang Shan Yin, but were just disguised as him. You, who are you?” Tai Bai Yun Sheng might have a benevolent character, but he was not foolish; he immediately realized the truth when he saw this scene.

His heart was filled with extreme trepidation.

Looking at Fang Yuan in front of him, he saw the appearance of an ordinary youth, but the presence he emitted was beyond ordinary, especially that pair of dark eyes, like an ancient lake with unfathomable depths.

He was giving off the intense aura of rank five peak stage, his gaze as chilling as a knife’s edge; Tai Bai Yun Sheng had seen countless people and one look at Fang Yuan told him, the latter was a genius character who was lofty, resolute and did not fear any challenges.

Even in all his life, the number of such people Tai Bai Yun Sheng had seen could be counted with his fingers.

“Who am I?” Fang Yuan chuckled, the corners of his lips curled up to reveal a smile, his expression was proud and vivid.

His burning gaze looked at Tai Bai Yun Sheng, his tone serious, containing an earnestness that made people want to subconsciously believe in them: “My true name is Fang Yuan, I came to northern plains from central continent because of an important assignment from master, we are fellow disciples.”

“Fang Yuan? Fellow disciple?” Shocked and astonished feelings attacked Tai Bai Yun Sheng’s mind: “What do you mean?”

“Hmph, you don’t even understand the meaning of fellow disciple? It means my master and your benefactor is the same person, our relation is of fellow apprentices!” Fang Yuan’s brows furrowed and his tone revealed some impatience.

There was no language barrier between Tai Bai Yun Sheng and Fang Yuan, he naturally understood the term, but he was not able to accept the great significance of it at this moment.

After he heard Fang Yuan’s explanation, an image appeared in his mind.

It was an image of an old beggar.

With disheveled purple-red hair, occasionally he was insane, occasionally he was in a stupor, but when he was clear-headed, his gaze revealed one who had experienced vicissitudes over time and an awe-inspiring aura manifested in him.

When he was young, Tai Bai Yun Sheng had given the old beggar a bowl of water out of kindness.

When the old beggar became clear-headed, he gave Tai Bai Yun Sheng three Gu Immortal inheritances to choose from. The young Tai Bai Yun Sheng chose the third inheritance in the end.

This was the most profound memory in Tai Bai Yun Sheng's life and he had never forgotten it in all his life.

Many times, he had recalled the old beggar's image.

It was him who saved the lost Tai Bai Yun Sheng, pulling Tai Bai Yun Sheng from his lowest point. It could even be said the old beggar created Tai Bai Yun Sheng. Without the old beggar's help, there would not have been the current Tai Bai Yun Sheng.

"Master…" Tai Bai Yun Sheng mumbled, he had always regarded the old beggar as his supreme benefactor!

His whole body involuntarily trembled.

He had tried to scout out the traces of the old beggar, and had never given up on this. But so many years had gone by and he had almost roamed the whole of northern plains without making any progress in his search.

The old beggar was mysterious; suddenly appearing before disappearing again.

Now when Tai Bai Yun Sheng suddenly heard of the news of his benefactor, his heart was filled with excitement, joy and naturally was even more in disbelief.

"Listen well." Fang Yuan pointed at Tai Bai Yun Sheng and spoke bluntly, "Benefactor's name is Purple Mountain True Monarch, master has six great disciples. I, Fang Yuan, am ranked at fifth, I cultivate strength and enslavement path, both are from Gu Immortal inheritances."

"Purple Mountain True Monarch, Purple Mountain True Monarch…" Tai Bai Yun Sheng pondered over Fang Yuan's fabricated name like a treasure, his mind involuntarily thinking of the old beggar's disheveled purple hair.

"Master doesn't care about his appearance and likes to wander around, exploring the unknown. Before I came to northern plains, I heard him mention you and how he gave you three choices but you chose the most useless time path inheritance. Hmph, if it had been me, I would definitely choose the first inheritance, that fire path inheritance that could burn seas and mountains, it has such extreme power." Fang Yuan's tone was filled with anger, yearning and regret, his expression was sincere and vivid as if this had really happened.

Tai Bai Yun Sheng's mind shook. He had never mentioned this experience to outsiders. Fang Yuan, however, described the situation back then so accurately!

He naturally did not know Fang Yuan had once searched his soul to confirm if he had landscape as before Immortal Gu recipe.

"Then, you, you are my apprentice brother?" Tai Bai Yun Sheng's gaze towards Fang Yuan was a whole lot different now.

"Hmph!" Fang Yuan twitched his mouth in dissatisfaction, "At most, you can only barely qualify as a disciple in name, benefactor has actually taken in many disciples, but they cannot be compared to legacy disciples like me. But according to master's rule, as long as a disciple in name can advance to a Gu Immortal, they can become his legacy disciple. According to ranking, you are my… uhh… that… fifth senior brother."

"Huh?" Tai Bai Yun Sheng's brows slightly furrowed.

"Hmph, what are you being proud for! It is only because of your Gu

Immortal identity, that you are ranked ahead of me." Fang Yuan coldly looked at Tai Bai Yun Sheng, "Wait till I become a Gu Immortal, with my enslavement and strength path dual cultivation, I will push you down and I will be your fifth senior brother! But looking at your elderly appearance, you clearly don't have much lifespan. I might not even need to become a Gu Immortal, I just have to wait for you to die of old age."

Fang Yuan's attitude was extremely rude, even revealing obvious resentment.

This was where the brilliance of his plan lied.

If he just spoke eloquent words and made a vow, that might not make Tai Bai Yun Sheng believe him too much. But it was because his words contained an attitude of rejection and also deep emotions, that made Tai Bai Yun Sheng quietly put down his guard and gradually choose to believe him.

Tai Bai Yun Sheng might be quite old, but his experience paled in comparison to Fang Yuan who had five hundred years of experience in his previous life.

Fang Yuan did not openly explain but using just a few words, he made Tai Bai Yun Sheng interpret the whole story himself and see a glance of his master's origin.

Tai Bai Yun Sheng muttered: "Then, sixth junior brother…"

Fang Yuan immediately put out his hand: "Don't call me that, I am not close to you! My task had been going smoothly but it was destroyed by you. Do you know how much time master had spent to make all the arrangements in Imperial Court blessed land? Now, the situation has changed like this, how do I explain it to master? You can just call me Fang Yuan!"

Tai Bai Yun Sheng was not angry at Fang Yuan's interruption, instead a guilty feeling emerged in his heart; he chuckled and cupped his fists towards Fang Yuan, asking sincerely: "Then… Fang Yuan, things have already reached this point, how should I help you to recoup the losses for master as much as possible?"

Success.

“Hehehe, spectacular, this is too spectacular, kid! You are truly insidious, tsk tsk, swindling a Gu Immortal to your side using just a few words!” Mo Yao had all along been observing this, and at this moment, she could not help revealing herself in Fang Yuan’s mind to praise him.

Fang Yuan sneered inwardly, on the surface however, he showed an unhappy expression: “Heh, after such a long time, you have finally spoken sense! Master has a discerning eye, he did not nurture a thankless wretch. Knowing to repay kindness is a trait we should have. Hmm… the situation right now is very bad, the crucial thing is there is not much time left. I have already used the third method master left behind, you must cooperate with me now. It will all depend on the two of us!”

“Please instruct me.” Tai Bai Yun Sheng bowed.

“First use this.” Fang Yuan grinned and tossed out a fifteen year lifespan Gu.

“This!” Tai Bai Yun Sheng’s expression changed, an astonished expression appearing on his face at the sight of this lifespan Gu.

“Use it, you may have Immortal Gu Man as Before, but that thing expends a lot of immortal essence. I don’t want you to suddenly end up dead at the crucial moment.” Fang Yuan spoke viciously, with an indifferent expression.

But Tai Bai Yun Sheng instead felt a warm feeling in his heart. In his previous five hundred years of life, Fang Yuan’s grasp of the human heart was able to reach to pinnacle after experiencing many trials and hardships..

“This lifespan Gu…”

“My glass owner token can control only a small number of the rounds. True Yang Building only has a single lifespan Gu, quickly use it, stop wasting time!”

But Tai Bai Yun Sheng did not use it, he kept it in his pocket.

He thought of Gao Yang and Zhu Zai.

Until now, he was still feeling guilty.

The lifespan Gu in his hand had a scent of blood that was very familiar to him.

“What is going on with you?” Fang Yuan acted furious, pretending not to know.

“There are reasons…” Tai Bai Yun Sheng’s eyelids drooped, he raised his gaze, looking at Fang Yuan with a determined look: “All in all, don’t worry, I can provide you the greatest assistance!”

Fang Yuan grabbed onto Tai Bai Yun Sheng, gritting his teeth: “Bastard, do you know that I disregarded the consequences in using the glass owner token just to obtain this lifespan Gu?”

Tai Bai Yun Sheng was silent, his expression was gentle as jade, but he was very determined.

Fang Yuan’s words made his heart feel great warmth, his last lingering trace of suspicion vanished like smoke.

After looking at each other for a while, Fang Yuan seemed to have felt Tai Bai Yun Sheng’s determination as he retracted his gaze: “Hmph, if you did not become a Gu Immortal and are also a legacy disciple, I would not care if you died. Alright, according to the details of your inheritance and your tribulation performance, you should have the Immortal Gu Landscape as Before now, right?”

“Mm.” Tai Bai Yun Sheng nodded: “Yes, that is correct.”

Fang Yuan’s eyes shone, his mouth cracked open to show his snow-white teeth, he did not conceal his joy: “Very good, come with me!”

Saying so, a large number of starlight firefly Gu flew out of his aperture.

“Oh, that’s right, hold these two for me, put it on your aperture, I cannot bring them along.” Fang Yuan tossed casually.

"Immortal Gu!" Tai Bai Yun Sheng's pupils shrunk.

A moment later, Tai Bai Yun Sheng and Fang Yuan entered Hu Immortal blessed land using the stargate.

Chapter 616: Repairing Dang Hun mountain

“Master, you are finally back!” Little Hu Immortal was already waiting before the stargate and when Fang Yuan appeared, she immediately jumped towards him and hugged his leg, rubbing it with her cute rosy cheeks.

“Hehe, you have worked hard during these days when I was not here.” Fang Yuan smiled warmly and lightly stroked Little Hu Immortal’s head.

Little Hu Immortal’s fox ears shivered slightly, a blissful expression appeared on her face and her snow-white tail started shaking lightly behind her.

“This is… a land spirit? So this is a blessed land!” Tai Bai Yun Sheng stepped out of the stargate closely after Fang Yuan, and was startled at seeing Little Hu Immortal.

He had heard Little Hu Immortal addressing Fang Yuan as ‘master’.

Fang Yuan was only a mortal, but he already possessed a blessed land! In history, there were some people who had such fortune. The most famous one was Giant Sun Immortal Venerable. He had luckily inherited Imperial Court blessed land when he was still just a mortal.

And in his later cultivation journey, Imperial Court blessed land was of huge assistance.

“Haha, this blessed land’s name is Hu Immortal blessed land. I seized it forcibly from several sects of central continent, under master’s order.” Fang Yuan proudly replied.

Tai Bai Yun Sheng’s gaze immediately changed.

There was a difference between immortal and mortal, but right now, he was looking at Fang Yuan as an equal, asking: “I would assume that the process of snatching this blessed land was very dangerous, right?”

“Naturally, even now when I think of it, I still have some lingering fear.” Fang Yuan laughed heartily, “But in the end, winner takes all, everything is just that simple. I obtained the blessed land, becoming the final winner. The greater the risk, the greater the profits!”

Tai Bai Yun Sheng nodded, sighing inwardly: this profit is simply too immense!

A blessed land with a land spirit was the immortal aperture of a fallen Gu Immortal. Possessing such a blessed land was akin to inheriting the Gu Immortal’s immortal aperture and cultivation resources!

Simultaneously, the impression of Fang Yuan’s audacious nature deepened by another level in Tai Bai Yun Sheng’s mind.

“Master, who is he? His aura is strong.” Little Hu Immortal sensed Tai Bai Yun Sheng brimming with Gu Immortal aura. She could not help but be tense, gripping on Fang Yuan’s pants, appearing somewhat nervous and on guard.

“Relax, he is on our side, and is here to help us save Dang Hun mountain.” Fang Yuan comforted Little Hu Immortal, “Take us to Dang Hun mountain.”

Little Hu Immortal’s eyes brightened upon hearing this. She trusted her master’s words unconditionally.

She immediately let down her guard and disappeared on the spot, taking Fang Yuan and Tai Bai Yun Sheng with her.

The next moment, Fang Yuan and Tai Bai Yun Sheng were teleported to the center of the blessed land, the location of Dang Hun mountain.

Dang Hun mountain had already been deformed completely from the corrosion of Gruel Mud. Only a small mound remained of the lofty Dang Hun mountain.

Dang Hun Palace, which was on Dang Hun mountain previously, had naturally been destroyed.

“Master, if you arrived any later, you would not have been able to see Dang Hun mountain.” Little Hu Immortal said with a sorrowful voice.

Fang Yuan lightly petted her head, then looked towards Tai Bai Yun Sheng.

Tai Bai Yun Sheng was a smart man and from this scene along with Fang Yuan’s previous words, he could guess Fang Yuan’s intention in bringing him here.

He nodded towards Fang Yuan, before taking out landscape as before Gu from his aperture.

Immediately, the surging aura of an Immortal Gu filled the surroundings.

“This is?” Little Hu Immortal’s bright eyes opened wide upon this first encounter with landscape as before Gu.

Landscape as before Gu was like a ladybug, it was the size of a fist and had the color of green jade.

Its round shell was engraved with natural patterns; half of the patterns portrayed rivers and lakes that twisted and turned, flowing continuously, while the other half was of mountains and hills, precipitous and overlaid upon one another.

Tai Bai Yun Sheng gave a soft shout; a bead of green grape immortal essence turned into a stream of light that instantly poured into landscape as before Gu.

The Immortal Gu suddenly burst out with green jade light that soared to an extreme height, giving off a radiance that people could not look at intently.

The light radiance covered the remaining Dang Hun mountain.

The corrosion of Gruel Mud on Dang Hun mountain immediately paused under the illumination of the green light. Immortal Gu Gruel Mud's power was quickly neutralized and then vanquished.

The green light gradually dimmed; Tai Bai Yun Sheng then threw in another bead of green grape immortal essence.

The green light brightened again, covering the devastated Dang Hun mountain and continually cleansing it.

The small mound sized Dang Hun mountain started to grow and strengthen at a visible speed under the radiance.

"Dang Hun mountain is changing back!" Little Hu Immortal clapped her little hands, prancing around happily.

But the good scene did not last long, Dang Hun mountain only recovered by twenty percent when the green light weakened again.

Tai Bai Yun Sheng's expression changed slightly: "What kind of mountain is this? It actually exhausted a green grape immortal essence!"

He was able to create thirty-six green grape immortal essence beads in his ascension to Gu Immortal. But later, using movement Gu crazily to dodge chaotic lightning balls expended one bead of immortal essence. Then in his own immortal aperture, to resist the heavenly tribulation and earthly calamity after the formation of Immortal Gu, he had continuously activated landscape as before Gu to restore his aperture to its previous condition, spending three whole beads on it.

Tai Bai Yun Sheng had a clear understanding of how precious immortal essence was; now he had just started to restore Dang Hun mountain but had used up two beads of immortal essence.

At this rate, he would have to at least expend five to six beads of green grape immortal essence!

Fang Yuan smiled: “Dang Hun mountain.”

“Dang Hun mountain?” When Tai Bai Yun Sheng heard the name, his expression underwent a great change, his eyes opened wide and he spoke with a shocked tone, “Could it be?”

“It is indeed the one in <<The Legends of Ren Zu>>, how could there be another Dang Hun mountain?” Fang Yuan laughed.

“To think, to think I would actually be able to see the legendary Dang Hun mountain! This is the sacred land of soul path cultivators that Spectral Soul Demon Venerable had praised endlessly.” Tai Bai Yun Sheng was extremely moved as he kept on exclaiming in admiration.

It was the first time even for him to witness a thing of such legend.

When he glanced at Fang Yuan, Tai Bai Yun Sheng’s gaze had another subtle change.

He did not say anything else but quietly used a third bead of immortal essence to maintain the activation of landscape as before Gu.

This time, Dang Hun mountain was restored to forty percent before the green light dimmed.

Tai Bai Yun Sheng used a fourth bead, then a fifth bead and finally a sixth bead before Dang Hun mountain fully recovered.

“It is truly Dang Hun mountain, requiring six whole beads of green grape immortal essence to recover completely.” Tai Bai Yun Sheng mumbled while looking at the tall mountain in front of him.

Dang Hun mountain was magnificently beautiful; ordinary mountains could not even compare to it.

It was a pink crystal mountain, emitting an unforgettably dreamy radiance.

“Mast… Master, Dang Hun mountain’s disease has been treated.” Little Hu Immortal’s eyes had turned red, “Sob sob sob….”

She cried tears of joy, before lowering her head and using her delicate little hands to wipe the tears.

Fang Yuan also let out a breath of turbid air when he gazed at Dang Hun mountain.

Now, the objective for infiltrating into northern plains was finally achieved!

So many days and nights of effort, taking risks in the battlefields, disguising, racking his brains to scheme; they were all not in vain.

At this moment, a soaring fire burned in Fang Yuan’s heart.

This burning fire had a name — ambition!

Restoring Dang Hun mountain could no longer satisfy his appetite. There were still opportunities left in Imperial Court blessed land!

Especially now, Giant Sun’s will was expelled out of the tower; Eighty-Eight True Yang Building had become akin to an ownerless object.

Even if false emotion fake will Gu was an Immortal Gu and was difficult to capture, Fang Yuan had used his silver tongue to obtain Tai Bai Yun Sheng’s trust, succeeding in roping in the crucial battle power that could influence the situation.

When the time comes, using a Gu Immortal’s will, forcefully refining false emotion fake will Gu was not an impossible matter.

“Let’s go, back to northern plains.” Fang Yuan came and left just as quickly, with Tai Bai Yun Sheng in tow.

Before leaving, he handed burial soul toad to Little Hu Immortal.

Burial soul toad was a storage Gu used to store souls. There were souls of humans and beasts, and they had mostly been gathered by Fang Yuan from the battlefields.

These would turn into large numbers of guts Gu through Dang Hun mountain.

When they returned to Eighty-Eight True Yang Building, the starlight firefly Gu supporting the stargate were already spent by over half; Fang Yuan quickly stored what remained into his aperture.

It was extremely difficult to accumulate starlight firefly Gu. The current amount could only support one more activation of the stargate.

“We are back again.” Tai Bai Yun Sheng was deeply moved.

In this trip, he had directly gone from northern plains to central continent and back to northern plains from central continent. It was truly a travel disregarding distance, he felt like he was free to go anywhere in the world!

Tai Bai Yun Sheng had only heard of hole earth Gu and connecting heaven Gu in methods that could allow one to connect between blessed lands and grotto-heavens; he had never heard of the method Fang Yuan used.

“Probably only people like sixth junior brother are worthy of such mystical methods. Maybe this was imparted to him by master.” Tai Bai Yun Sheng trusted Fang Yuan even more after the trip to Hu Immortal blessed land.

Fang Yuan was only a mortal at the moment, but he possessed a blessed land, this by itself was sufficient to prove many issues.

Dang Hun mountain’s magnificent scene was even more deeply imprinted in Tai Bai Yun Sheng’s mind.

Seeing is believing!

Tai Bai Yun Sheng had no choice but to believe it.

Fang Yuan first revealed his true appearance, then used lifespan Gu, revealing secret information to obtain Tai Bai Yun Sheng's trust. Fang Yuan had also resolved the doubt in Tai Bai Yun Sheng's heart — why True Yang Building had helped him endure the tribulation for no rhyme or reason.

Fang Yuan's words and the evidence he showed to Tai Bai Yun Sheng were almost all true, except the lies at the crucial points.

Nine truths and one lie; the lie would eventually become the truth. Especially when this lie involved the deepest secret of Tai Bai Yun Sheng. Tai Bai Yun Sheng had never revealed it to outsiders while Fang Yuan knew it by soul searching.

Among all these, the true marvel lied in Fang Yuan grasping Tai Bai Yun Sheng's psychology completely.

Tai Bai Yun Sheng had been feeling extreme guilt after betraying Gao Yang and Zhu Zai; he denied the value of his own existence. Under stimulation, he went through Gu Immortal ascension and even charged towards tribulation, thinking of ending it all.

But when he successfully passed the tribulation and became a Gu Immortal, he stood at a whole new height, looking at a different scene.

His mind came back to life, and after passing the tribulation with much difficulty as well as getting his immortal aperture blessed land, he did not want to die anymore.

He wanted to make a fresh start.

But he had an unresolved matter tugging his heart.

He needed hope, he needed acknowledgement!

Tai Bai Yun Sheng himself was not aware of this psychological need. But Fang Yuan was aware and gave him this acknowledgement.

Fang Yuan's acknowledgement, in a certain way, represented his master's acknowledgement.

And Tai Bai Yun Sheng respected his benefactor deeply. His master's acknowledgement made him feel there was value in him being alive. A mysterious force and a completely new environment attracted his interest.

He had been at the peak of mortals and had experienced all that the mortal world could provide, but in the journey of immortals, he was a child that had just begun to move.

The fifteen year lifespan Gu was in his pocket. He was no longer worried and guilty. He chose to believe Fang Yuan, not only because Fang Yuan explained everything and there were not many pieces of evidence he could contest, but even more importantly —

In the very depths of his heart, he wanted to believe in Fang Yuan!

Every single person who was cheated, was it because they were stupid?

No, it was only because they wanted to believe in it from the depths of their heart.

"Here, your Immortal Gu." Tai Bai Yun Sheng tossed Fixed Immortal Travel and flying bear phantom Gu to Fang Yuan.

Fang Yuan nonchalantly accepted them; this casual attitude towards Immortal Gu caused another ripple in Tai Bai Yun Sheng's heart and trust.

But he received a great shock when Fang Yuan brought out the glass owner token, as at the next moment, he appeared in another round.

Tall and ancient trees were everywhere. Fang Yuan and Tai Bai Yun Sheng were within a dense forest.

Roars and howls interlinked together, giant trees pulled out their roots and stood up, turning into tall treemen.

Within a few moments, Fang Yuan and Tai Bai Yun Sheng were surrounded by treemen one after another.

Tai Bai Yun Sheng had a grim expression; one treeman was nothing to him, but the number of treemen here was extremely astonishing, and to completely exterminate them would require him to pay a significant price.

But the next moment, Fang Yuan lightly waved his glass owner token, and this round immediately became under his control.

The treemen stopped moving forward, their killing intent gone as if it was never there.

While Tai Bai Yun Sheng was wearing a stupefied expression, Fang Yuan grabbed his arm and directly teleported in front of Hei Lou Lan and Ma Hong Yun.

There was already an enormous change in the situation here.

Frost Jade Peacock was half-lying on the ground, with Ma Hong Yun and Zhao Lian Yun turtling up under its wings. Surrounding it were layers after layers of treemen unfolding mad attacks.

Hei Lou Lan was fighting nearby with false emotion fake will Gu resting on his shoulder.

He blocked the attacks of the treemen while also launching attacks at Ma Hong Yun and Zhao Lian Yun at the same time.

But these attacks were blocked by the light barrier from Frost Jade Peacock before they could even reach their targets.

“Lord Hei Lou Lan, you are also being attacked by the treemen, your situation is the same as ours! We have neither hatred nor grievance between us, why must you try to kill us?” Ma Hong Yun shouted.

Hei Lou Lan snorted: “Didn’t you hear what old ancestor said? Your girl is an otherworldly demon with a mysterious background and will be a cause of endless disasters, she must be eliminated! Who knows if she and the Chang Shan Yin impersonator are on the same side! Old ancestor was about to attack her just earlier, but suddenly disappeared due to some mishap. You have Giant Sun’s bloodline, you are a person of northern plains; you are actually not able to distinguish right and wrong, you dare to shield an otherworldly demon!”

Ma Hong Yun was furious and immediately retorted: “She is not an otherworldly demon that you all claim, she is innocent! Lord Hei Lou Lan, don’t waste your strength in vain, we have already received the land spirit’s recognition; with the land spirit with us, you can’t kill us!”

When Giant Sun’s will was thrown out of the tower, this round did not have any controller and operated by itself; the treemen treated the land spirit, Ma Hong Yun and others as challengers challenging the round.

Hei Lou Lan wanted to kill Zhao Lian Yun in place of Giant Sun’s will. Ma Hong Yun was ready to give up his life to save her, which strongly shook Zhao Lian Yun’s heart and she started feeling true love for him.

Ma Hong Yun had already treated Zhao Lian Yun with earnest feelings; the two loved each other, and the land spirit acknowledged them as its masters by its own accord.

In this dangerous situation, the land spirit raised a defensive barrier around them, protecting them from the fatal attacks of the treemen and Hei Lou Lan.

As for Chang Li, she had already died miserably under the attacks of the treemen.

Fang Yuan and Tai Bai Yun Sheng appeared on the crown of a treeman, observing the battle situation.

“Ma Hong Yun… he actually obtained the land spirit’s recognition. Hmph, this kid’s dogshit luck is truly powerful.” Fang Yuan mumbled with a complex expression.

“You know him?” Tai Bai Yun Sheng was somewhat astonished as he had not thought the grand Fang Yuan would actually recognize this rank three initial stage minor character.

“It is you!” Hei Lou Lan quickly sensed the distant Fang Yuan and Tai Bai Yun Sheng; his eyes opened wide as he swiftly jumped back like he was facing a great enemy.

His eyes twitched and his heart had already sunk.

Giant Sun's will had suddenly disappeared, and the mysterious man impersonating Chang Shan Yin appeared with Gu Immortal Tai Bai Yun Sheng standing beside him, and the two seemed to have a very close relation at that! This was extremely unfavorable to Hei Lou Lan.

Ma Hong Yun, however, did not sense anything. The defensive barrier raised by the land spirit was shrinking constantly as it was attacked by the innumerable treemen. His and Zhao Lian Yun's sight were blocked by the dense amount of trees and leaves.

"What do we do now?" Tai Bai Yun Sheng asked calmly while casting a glance towards the gloomy Hei Lou Lan.

Fang Yuan sneered: "We need Imperial Court blessed land's land spirit, Frost Jade Peacock's strength to topple True Yang Building! Frost Jade Peacock might have already recognized its masters, but because Giant Sun's will is not present, the seals on it are not being manipulated and it is barely surviving. Most of its strength had already been sealed again. The defensive barrier is also on the brink of collapse and simply won't be able to block me. I will go kill Ma Hong Yun and Zhao Lian Yun. You go deal with Hei Lou Lan and seize the false emotion fake will Gu, I trust that it won't be a problem with your Gu Immortal battle strength. Let's move, we don't have much time!"

"Immortal and mortal are vastly different, it is just like a wide chasm separates them. You don't need to worry." Tai Bai Yun Sheng lightly smiled, moving elegantly towards Hei Lou Lan.

Fang Yuan directly shot forward towards Ma Hong Yun.

The surrounding treemen followed him under his control.

"Such a pity… Ma Hong Yun, I originally wanted to use you as a key to control the events of the future. But who told you to block my way? No matter how good your luck is, your death is certain today!" The brimming killing intent in his heart surfaced as a malevolent smile on Fang Yuan's face.

Chapter 617 - The reason for overwhelming fortune

Chapter 617: The reason for overwhelming fortune

Translator: ChibiGeneral **Editor:** ChibiGeneral

Bam bam bam!

Three ten meter tall treemen raised their hammer-like fists as they attacked time and time again, crashing on the light barrier.

Frost Jade Peacock cried out sorrowfully.

Its huge wings were sealed by gold, only the land spirit's head was still exposed.

"My masters, I cannot hold on anymore." The land spirit sighed, its long eyelashes trembling slightly. The light barrier was getting weaker, and under the treemen's endless attacks, it was on the brink of collapsing.

What was more scary was, Fang Yuan was closing in!

Imperial Court blessed land was already in bad shape, and the land spirit, Frost Jade Peacock, was sealed, the remaining strength of the barrier was not a problem for Fang Yuan, he could break through it any moment.

The fatal threat had already arrived, but Ma Hong Yun and Zhao Lian

Yun still had no idea.

Even though they could not sense Fang Yuan, the thick aura of death was suffocating them.

Zhao Lian Yun was silent and did not speak, she hid in Ma Hong Yun's arms as she shut her eyes.

After all, she was an ordinary woman.

Ma Hong Yun continually comforted her in a soft voice, even though he felt no hope himself.

"It's over." Fang Yuan shot out like lightning, stepping on twigs and branches as he entered the innermost layer of the treeman encirclement.

But just when he was about to execute the finishing blow, as he was charging, Mo Yao shouted in his head: "Eh? This aura! Wait… stop quickly!"

"What is it?" Fang Yuan's momentum was lost, he stopped at a high area on a tree as he asked in suspicion.

Ever since Mo Yao's will entered his head, he had never felt such intense emotions from her before!

At this moment, Mo Yao showed herself in Fang Yuan's mind.

She had tears all over her face as her slim body was shivering, she was muttering: "This aura, this aura… there's no mistake, there's absolutely no mistake! This is the aura of fortune rivalling heaven Gu!"

"Fortune rivalling heaven Gu?!" Fang Yuan's heart jumped, as he immediately recalled.

Mo Yao had researched deeply about Eighty-Eight True Yang Building in her lifetime, taking a huge risk to enter the true inheritance secluded domain for her lover Bo Qing.

Her original motive was to obtain the supreme true inheritance of luck path, she wanted to steal the fortune rivalling heaven Gu in it.

But in the end, she only succeeded partially.

As she spent a lot of effort and exerted all her strength, she was able to create a crack in the luck path true inheritance.

However, fortune rivalling heaven Gu flew into this crack and vanished into thin air.

But Mo Yao did not return empty handed, she obtained a portion of the luck path inheritance's details. Combined with her refinement path grandmaster foundation, she eventually refined calamity beckoning Gu.

But calamity beckoning Gu was inferior to fortune rivalling heaven Gu, Mo Yao used it to help Bo Qing with his tribulation, and in the end both of them died.

Eventually, Fang Yuan found Mo Yao's inheritance and refined calamity beckoning Gu once again, accepting Mo Yao's request to return the rank seven Gu House Water Pavilion to Spirit Affinity House.

Now, Mo Yao felt the aura of fortune rivalling heaven Gu, this was a crucial Immortal Gu that she had failed to obtain after spending her entire life and putting in immeasurable effort.

It was understandable that she had become so agitated and emotional.

"Fortune rivalling heaven Gu's aura is on this lad! I can't believe it, I, Mo Yao, spent my entire life and nearly died in the secluded domain, but eventually the fortune rivalling heaven Gu escaped and this mortal lad got it by chance. Hehehe, is this life?" Mo Yao raised her head and sighed, as she laughed and cried, her tone was extremely dejected.

Fang Yuan squinted, his eyes glowing with cold light.

He asked in his heart: "That means fortune rivalling heaven Gu is currently on Ma Hong Yun? Can you confirm that?!"

“Of course, I can never forget the aura of fortune rivalling heaven Gu!” Mo Yao replied unhesitatingly.

She continued and said: “Fortune rivalling heaven Gu is a one time expenditure rank eight Gu. It is formless and ethereal, being in essence a lump of luck, it is extremely difficult to capture with ordinary methods. Back then, my main body could not capture it, thus it managed to fly away from the scene and vanish without a trace. Even True Yang Building could not trap it. It must’ve escaped to northern plains, roaming until it landed on that lad!”

“So it is a one time expenditure Gu…” Fang Yuan was extremely disappointed.

Fortune rivalling heaven Gu was the greatest treasure in Giant Sun Immortal Venerable’s luck path inheritance, it had extremely great value.

Fang Yuan was unable to gain benefits in the true inheritance secluded domain, but if he could take fortune rivalling heaven Gu away from Ma Hong Yun, that would be the best.

But unfortunately, fortune rivalling heaven could only be used once before it vanished.

“Fang Yuan, you have to be careful! Fortune rivalling heaven Gu is extremely special, back then Giant Sun Immortal Venerable had fortuitous encounters endlessly, time after time he would turn disasters into blessings, he unceasingly had great luck, and he relied on this Gu to a great extent. Ma Hong Yun is affected by fortune rivalling heaven Gu, he is a true child of luck! His luck could be said to be ranked at number one in the five regions!! The luck that Giant Sun Immortal Venerable had back then would very possibly be replicated in him. Although luck is formless and ethereal, it is a part of strength and cannot be underestimated!” Mo Yao quickly said anxiously.

“I know what to do.” Fang Yuan held in his killing intent, his expression turning cold as he stopped on the tree branch, not attacking abruptly.

He looked down from above, at Ma Hong Yun and others, allowing the treemen below him to attack.

Actually, the two were not too far from each other, but even Frost Jade Peacock did not discover him.

This showed how weak the land spirit was right now.

It was obvious at one glance that the two sides had great difference in strength, it seemed that victory was in sight, and killing Ma Hong Yun was extremely easy.

But Fang Yuan did not think so, he was once a Gu Immortal, his vision surpassed mortals.

He understood: These so called paths — wisdom path, refinement path, metal path, time path and others, they looked like they were combinations of complex series of Gu worms gathered together, but in actuality, they were the deciphering of one's understanding towards heaven and earth, towards the mysteries of the universe.

Luck path was the same.

Based on Giant Sun Immortal Venerable's example, one could see that luck path, even compared to other paths, could more deeply explain the mysteries of heaven and earth in some aspect.

Fang Yuan had never looked down on Ma Hong Yun, he had always been vigilant towards him.

Because his previous life's memories made him understand how high Ma Hong Yun's future achievements would be.

In his previous life, Ma Hong Yun became the pillar of northern plains, the leader that resisted the attack of central continent Gu Immortals! When Fang Yuan was killed by the barrage of Gu Immortals, he was still growing and developing.

Fang Yuan knew about Ma Hong Yun's growth, and now he finally understood the origin of Ma Hong Yun's heaven defying luck.

That was, Giant Sun Immortal Venerable's greatest achievement in luck path — fortune rivalling heaven Gu!

And the cause of all this was Mo Yao who was residing in his mind!

Luck did not have any physical form, and it could not be touched, but Fang Yuan knew the ability of this mystical power.

“No wonder Giant Sun’s will purposely chose Hei Lou Lan and Ma Hong Yun as the people to become the land spirit’s master. Hei Lou Lan is the strongest person among his bloodline descendants, while Ma Hong Yun had fortune rivalling heaven Gu.”

Fang Yuan felt that this situation was troublesome.

Although Ma Hong Yun was a tiny rank three Gu Master, he had the power of a rank eight Immortal Gu protecting him!

A rank eight Immortal Gu, only inferior to rank nine, such as the wisdom Gu and strength Gu of legends. It had absurd and unimaginable strength, anyone who underestimated it would face a pitiful end.

Fang Yuan was only a mortal, back then in the true inheritance secluded domain, he could not even get close to the rank seven human qi Gu, not to mention the rank eight fortune rivalling heaven Gu.

Ma Hong Yun looked harmless, but in all his experiences, when did he ever suffer a true loss? Every time, he benefited from difficulties and had endless fortuitous encounters, all those who wished to harm or kill him faced a terrible end.

Although every time he did not personally take action, but there would always be an external force or accident, along with a series of small coincidences, all of these added together to form a shocking power!

Fang Yuan suddenly thought of Giant Sun’s will.

Earlier, Giant Sun’s will wanted to exterminate Zhao Lian Yun, but Ma Hong Yun protected her with his life. This was as if Giant Sun’s will had become an enemy of Ma Hong Yun.

Just as Giant Sun's will was about to strike, Fang Yuan appeared, pulling out True Yang Building and causing the heavenly tribulation to strike him.

"Even Giant Sun's will fell prey huh…" Fang Yuan looked at this from another angle and was shocked.

"I have the glass owner token, I can check the situation inside the entire Eighty-Eight True Yang Building. Why did I not strike earlier? Actually, it was completely unintentional! Or maybe… I heard that Zhao Lian Yun was an otherworldly demon and wanted to protect her, I was curious and wanted to investigate this?" Fang Yuan recalled the scene.

Giant Sun's will's was expelled from True Yang Building, he could be said to be the culprit. But the timing was too coincidental, it allowed Ma Hong Yun and Zhao Lian Yun to escape death.

"If I suddenly attack Ma Hong Yun, would I be like Giant Sun's will, will an outside force intervene, or will an accident occur?"

Fang Yuan grabbed his glass owner token, considering his plans again.

"Wait!" Fang Yuan thought about it again: "What I've heard on this matter was only Mo Yao's statement. It seems to be credible, but what if she lied to me due to some special reason?"

Fang Yuan suddenly thought of this.

Thus, he asked Mo Yao in his heart: "Strange, earlier when I used luck inspection Gu, I observed the luck of everyone in the sacred palace. If Ma Hong Yun had the fortune rivalling heaven Gu, why did I not discover it? I could only see that the two with the highest luck were Hei Lou Lan and Tai Bai Yun Sheng."

Mo Yao seemed to have predicted this question, she immediately answered: "What's so strange about this? Fortune rivalling heaven Gu is a rank eight Immortal Gu, your luck inspection Gu is only a rank five mortal Gu, an investigative Gu that can allow a Gu Master to see luck despite its formlessness. How can a rank five investigative Gu discover the luck created by a rank eight Immortal Gu?”

“If I cannot see it, how can I be sure that Ma Hong Yun has fortune rivalling heaven Gu’s influence on him?” Fang Yuan did not relent, he continued asking.

“Oh Fang Yuan, you are too suspicious.” Mo Yao sighed, immediately answering: “There is a method to make sure. That is to use investigative Gu and check your own luck. Every time you act against the child of luck, because of the mutual influence between luck, your luck will become bad, or even worse. If you do not believe me, you can check it that way.”

Time was limited, Fang Yuan immediately used luck inspection Gu.

His vision changed abruptly.

Ma Hong Yun and Zhao Lian Yun’s luck were rather tiny, they were the same as ordinary people.

Meanwhile, there was a massive black luck, almost three hundred meters tall, high enough to pierce heaven and earth!

Chapter 618 - Great Strength True Martial Physique

Chapter 618: Great Strength True Martial Physique

Translator: ChibiGeneral **Editor:** ChibiGeneral

This black luck aura was so dark that it reached the point of being extremely oppressive. The coffin shaped aura was tightly covering Fang Yuan.

Since an unknown time ago, the black aura on Fang Yuan had become much larger and much deeper.

Far away, Tai Bai Yun Sheng and Hei Lou Lan were engaged in an intense battle.

The luck aura of the two were exceptionally clear.

Above Hei Lou Lan was still the azure luck aura that gave a lasting feeling like a towering tree. The luck on Tai Bai Yun Sheng, however, was smaller than before, not even one-sixth of the original amount; it was no longer the bright burning red cloud, instead it was the shade of heavy evening mist that almost looked like a dark cloud.

Fang Yuan moved his sight back to above him and started testing like Mo Yao said.

Just like Mo Yao said, whenever he thought of attacking Ma Hong Yun, the black coffin luck on him enlarged a little and its dark shade seemed to become even gloomier.

“Fang Yuan, you should leave this troubled place as quickly as possible. The black coffin luck on you right now is too dense and too frightening. Your life is under great threat now! Don’t underestimate luck just because it is ethereal, just think of Giant Sun Immortal Venerable’s unrivalled powers. You are deep in danger right now, the black coffin luck has not worked its magic yet, but the karma will hit you eventually, it is only that the time is not ripe yet.”

Mo Yao continued to persuade Fang Yuan.

But Fang Yuan coldly snorted and replied with a resolute will: “Asking me to retreat? Being scared off by merely bad luck? Hehe, how could that be possible!”

He narrowed his eyes, his lips slightly curled up, revealing his snow-white teeth as he looked down from the cover of the treetop: “No matter how bad the luck becomes, it cannot attack me directly. It will need to rely on external influences to kill me. Right now, at this moment, at this place, I want to see who can obstruct me!”

Killing intent surged and bubbled in Fang Yuan’s heart.

He believed in the power of luck path, but he believed in himself even more!

He needed to kill Ma Hong Yun!!

He had to try!!!

If Fang Yuan cowered just because of luck, would it conform to his style?

Ordinary people would feel regret after facing the consequences, but he Fang Yuan would not feel any!

“Have you gone crazy? That is a rank eight Immortal Gu!” Mo Yao screamed when she felt the dense killing intent in Fang Yuan.

“Hehehe, precisely because the enemy is this strong, the battle would be even more interesting, wouldn’t it?” Fang Yuan instead laughed freely. Right now, he no longer had short hair of Chang Shan Yin, but had long black hair that fluttered freely with the wind and his countenance revealed a crazed recklessness.

He was never against bullying the weak, but even more than that, he had the bravery to fight the strong.

How could one obtain a tiger cub without entering the tiger's den?

If he did not stake it all at this moment, then when should he?!

"Fate teases the turbulent sea, cowardly insects avoid waves and flow along the current. A brave man does not need much wisdom, there is not regret or pain even if his body crumbles." Fang Yuan mumbled before restraining his crazed mood, his expression turning tranquil.

(Updated by NovelFull.Com)

"Lunatic, you have gone mad…" Mo Yao continued to mutter.

Right now, Fang Yuan's killing intent had accumulated to the peak.

The black coffin luck aura above him subsequently inflated, expanding by three times within moments!

"Let me see who will save you! Fortune rivalling heaven Gu, let me look at your might."

Fang Yuan made a motion to attack.

BOOOM!

An explosion occurred; the majestic wind current it created formed into a strong gale that pressed on from a distance.

Hei Lou Lan was standing unstably; while Tai Bai Yun Sheng got up from the crater, fresh blood flowing from his mouth.

He looked at Hei Lou Lan who was floating in the air, shock apparent on his face: "You are actually…"

Before he finished his words, Hei Lou Lan charged at him again.

BOOM!

Ground shook and dust surged everywhere.

"Ten extreme physique." Fang Yuan's pupils shrunk as he muttered the answer in place of Tai Bai Yun Sheng.

He had never imagined Hei Lou Lan to actually have the ten extreme physique. And from the looks of it, it was extremely likely to be the great strength true martial physique of the ten extreme physiques!

Several breaths later, a shadow flew out from the dust.

It was Tai Bai Yun Sheng!

His hair was a mess, dust covered his face; his chest was caved in till it revealed the deathly white bones.

Blood sprayed out like a spring.

But a green light soon covered his body and the blood-flow immediately stopped; the heavy injuries on his body also quickly recovered.

Fang Yuan and Tai Bai Yun Sheng had exchanged intel back at Hu Immortal blessed land. And he knew Tai Bai Yun Sheng possessed two Immortal Gu, landscape as before Gu and man as before Gu.

However, Tai Bai Yun Sheng was clearly not using the Immortal Gu Man as Before, but instead ordinary healing Gu.

Immortal Gu Man as Before required immortal essence to be activated, and had extremely great effects, but it was not easy to gather immortal essence. Thus, unless as a final resort, Gu Immortals would not easily use Immortal Gu.

"Tai Bai Yun Sheng, you are a grand Gu Immortal but are afraid of me, a mortal?" A roar shook the sky and earth.

Hei Lou Lan flew to the sky and started hunting down Tai Bai Yun Sheng.

"Such an intense ten extreme aura… terrifying! Hei Lou Lan not only has the ten extreme physique, he is also already on the verge of self-detonation!" Fang Yuan was able to decipher many details right now.

Back then at Qing Mao mountain, Fang Yuan had relied on Bai Ning Bing's northern dark ice soul physique to cross realms and fight a strong enemy, and overturn the situation.

Bai Ning Bing was only rank three back then!

As the ten extreme physique's cultivation increased, the power of their self-detonation would increase sharply by many times.

The self-detonation of the rank five peak stage Hei Lou Lan would be beyond compare, so terrifying that even killing Gu Immortals would not be a problem!

Tai Bai Yun Sheng had a bitter expression on his face, with not even the slightest battle intent.

Previously, Hei Lou Lan's ten extreme physique was sealed by Immortal Gu Dark Limit, not leaking out even a trace of its aura.

Now that he had torn off the seal, his majestic aura would cause terror to emerge in one's heart.

He was now a large human shaped bomb, who would dare to approach him? What if he exploded!

Tai Bai Yun Sheng had just advanced to a Gu Immortal, wouldn't it be injustice if he was killed by the desperate Hei Lou Lan in his impending death?

"I had never thought Hei Lou Lan would actually have great strength true martial physique of the ten extreme physiques. And he has actually managed to grow to this extent!" Tai Bai Yun Sheng fled with astonishing speed.

He was a flying master and his cloud path Gu was also one of the better movement Gu.

Hei Lou Lan was hunting him down from behind but could only look helplessly as the distance between them increased further and further.

Rumble!

Hei Lou Lan was furious, suddenly throwing a punch.

This punch had terrifying momentum as it directly broke the sound barrier and burst the surrounding air!

Following this punch, a fist qi suddenly flew out, forming into a strength path phantom figure.

Fang Yuan had also attacked with many beast strength phantoms back in southern border, but the phantom that Hei Lou Lan summoned was not beast shaped, instead it was human shaped.

And this human strength phantom was a vivid image of Hei Lou Lan.

The obese body like that of a bear, the jagged snow-white teeth that were like daggers. A pair of triangular eyes which flashed with malevolent glint. It was truly a second Hei Lou Lan!

“Even if I combine all the beast strength phantoms I used back at southern border, they might not be the human strength phantom’s match!” Fang Yuan’s eyelids twitched.

He had extraordinary judgemental ability and immediately saw the extremely high battle strength that this human strength phantom possessed. It was full of spirituality; once it was summoned, it could chase the enemy of its own will.

This was the strength of rank five peak stage great strength true martial physique!

Simply terrifying!

But how powerful this strength was, Fang Yuan could not estimate it easily. Unless he personally went to battle and experienced it for himself.

But he was sure this terrifying battle strength had already surpassed mortal realm.

It could even be said that Hei Lou Lan was currently at a state that was half a step to Gu Immortal realm.

Ten extreme physique originally broke apart conventions, they were existences that could shatter opponents at the same realm!

Back at Qing Mao mountain, Fang Yuan used the ten extreme physique to survive an ordeal. But this time, the ten extreme physique was his enemy.

“If not for the fact that Gu Masters obtain a qualitative improvement in their body’s defense when they advance to Gu Immortal, Tai Bai Yun Sheng would be in greater danger!”

“Tai Bai Yun Sheng had advanced to Gu Immortal just now, he has yet to accumulate the foundation of a Gu Immortal. Moreover, he is a healing Gu Master, but has to face against this tyrannical and battle-thirsty enemy like Hei Lou Lan…”

For a moment, thoughts shone in Fang Yuan’s mind like sparks.

“The strongest advantage of a Gu Immortal over mortals lies in their unlimited primeval essence. But Hei Lou Lan’s main cultivation path is strength path which relies on primeval essence the least among all paths and has the lowest primeval essence consumption. This advantage is thus almost non-existent.”

“There is also Hei Lou Lan’s killer move, it actually went in an innovative new direction, creating such a sentient human strength phantom. In just a short period, he has already created five to six human strength phantoms. These phantoms are anything but ordinary, filled with spirituality, they actually flanked and blocked Tai Bai Yun Sheng’s retreat paths; this is truly unimaginable!”

Unleashing human shaped phantoms was not a surprising thing.

The crucial point was that he could create such intelligent human shaped phantoms!

Moreover, all of these human shaped phantoms had astonishing strength. The might of their strength and wisdom made even Fang Yuan feel apprehensive.

“No wonder Hei Lou Lan died suddenly in my previous life. So it was because he had the ten extreme physique!” Fang Yuan suddenly realized.

Although he had rebirthed, it did not mean he knew everything.

Right now, this unexpected twist disrupted his plans.

“Damn it…” Fang Yuan subconsciously tightened his grip on the glass owner token.

According to his original plan, he would have gone with Giant Sun’s will’s train of thoughts, using false emotion fake will Gu to subdue the land spirit and become Imperial Court blessed land’s owner.

He needed to subdue false emotion fake will Gu first to accomplish this.

However, false emotion fake will Gu was one of the ordinary true inheritances and it contained a portion of Giant Sun’s will in it. How could a mere mortal like Fang Yuan refine an Immortal Venerable’s will?

Only Gu Immortal’s will had such a possibility.

Thereupon, Fang Yuan used his eloquence to dupe Tai Bai Yun Sheng into become his ally; it was to make use of his will to refine false emotion fake will Gu.

But when he returned to True Yang Building, the situation had already changed beyond his expectations.

Ma Hong Yun and Zhao Lian Yun obtained Frost Jade Peacock’s recognition, becoming Imperial Court blessed land’s owners.

Frost Jade Peacock’s condition for recognizing its masters was a Gu Master couple who had to have true love for each other.

Ma Hong Yun was a rank three Gu Master, but Zhao Lian Yun was still a young girl and had not begun her cultivation journey yet.

However, she was still recognized as a master!

This showed the condition of ‘Gu Master’ was only speaking of aptitude. As long as the person had the possibility of becoming a Gu Master, they could receive recognition. In Fang Yuan's previous life, Zhao Lian Yun was a wisdom path Gu Immortal, she naturally had strong cultivation aptitude.

This small details were not worthy bickering over. In Fang Yuan's opinion, what he needed to do were two things.

First was seizing false emotion fake will Gu. It was on Hei Lou Lan, and Fang Yuan had given this task to Tai Bai Yun Sheng.

Second was killing Ma Hong Yun and Zhao Lian Yun. As long as he killed them, Imperial Court blessed land would return to a ownerless state.

After completely these two matters, Tai Bai Yun Sheng could help Fang Yuan to refine false emotion fake will Gu and take control of the land spirit. Even if Giant Sun's will returns then, Fang Yuan had the capital to contend against him.

However, right now, none of these two goals were achieved.

Chapter 619 - The might of overwhelming fortune

Chapter 619: The might of overwhelming fortune

Translator: ChibiGeneral **Editor:** ChibiGeneral

Hei Lou Lan revealed his true trump card, displaying he had one of the ten extreme physiques and was close to self-detonation, it had shocking battle strength, with him managing to suppress the Gu Immortal Tai Bai Yun Sheng, and he was chasing after him.

This was quite a shock, but after some consideration, it was nothing strange.

“If he doesn’t defeat Hei Lou Lan, he would not get false emotion fake will Gu. Without false emotion fake will Gu, how will I subdue the land spirit? Damn it…” Fang Yuan gritted his teeth.

His plan was ruined.

“Is this the power of fortune rivalling heaven? The moment I wanted to strike, such an accident occurred!” Fang Yuan took a look at Ma Hong Yun, his expression turning grim.

For some reason, the killing intent in his heart intensified.

He crossed his arms, standing high up in the tree as his mouth showed a cold smile: “It is getting more interesting, fortune rivalling heaven… hmph, now that Hei Lou Lan and Tai Bai Yun Sheng are fighting, if I really want to kill you, what can you do to resist me?”

This time, Fang Yuan did not go personally, but instead manipulated the treemen.

The treemen at the most inner layer raised their hammer-like fists highly in the air.

Under Fang Yuan's manipulation, they slammed down at the same time.

Bam!

With a loud bang, Frost Jade Peacock cried out pitifully as its raised head fell onto the ground.

The defensive barrier that it had erected with all its effort was smashed, it turned into golden dust as it quickly vanished into nothingness.

Even the last obstacle was removed.

The closest treeman took a huge step forward, it stretched out its huge arm as it rapidly grabbed at Ma and Zhao.

Zhao Lian Yun shouted shrilly, while Ma Hong Yun held her in his arms, his back facing the treeman's palm.

"Die." Fang Yuan muttered, completely ignoring the black coffin luck above his head that was rapidly growing.

The treeman's palm was towering over Ma and Zhou, it only needed to squeeze lightly and Ma and Zhao would turn into meat paste.

But at this moment!

A huge tremor occurred in Eighty-Eight True Yang Building.

The entire place was shaking!

"Scoundrel, you dare to chase me out, quickly accept your death!!" A loud voice could be heard, piercing heaven and earth, and causing Fang Yuan's eardrums to feel slight pain.

Hearing this familiar voice, Ma Hong Yun raised his head in joy, saying: “It’s old ancestor, old ancestor did not die, he is back again!”

Hei Lou Lan expressed joy similarly on his face.

Tai Bai Yun Sheng’s expression was pale, if Giant Sun’s will returned, Eighty-Eight True Yang Building would display the might of a rank eight Immortal Gu House, it could definitely trap a Gu Immortal, this was no joke!

“How can this be! Even though I spent some time inside Hu Immortal blessed land, but fifteen minutes was far from over.” Fang Yuan’s pupils shrunk to the size of a pin, he was very stunned.

He quickly used the glass owner token and checked the situation.

Outside Eighty-Eight True Yang Building, there were layers and layers of golden sand-like light particles.

That was the colossal Giant Sun’s will.

He was still growling furiously, as he resisted the assault of the heavenly tribulation and earthly calamity, he constantly exerted pressure and attempted to barge into Eighty-Eight True Yang Building.

“The Giant Sun’s will that is outside did not come in. Then who is this Giant Sun’s will here? Where did he come from?!”

Fang Yuan was very perplexed.

But this Giant Sun’s will that just appeared did not want to give him time to think.

Heaven and earth shook, those which were running, those which were helping Tai Bai Yun Sheng, those which were standing in place, those which were trapping Ma Hong Yun, all the treemen stopped their actions, standing still like statues.

Fang Yuan’s face was red, the glass owner token in his hand was hot like fire!

Cracks started appearing on the owner token, in just a moment, the glass owner token was on the brink of collapsing!

“Damn it!” Fang Yuan gritted his teeth, this mysterious Giant Sun’s will was getting rid of the central continent Gu Immortals’ arrangements rapidly.

The third arrangement that central continent Gu Immortals made was extremely hidden, it was not easy for Giant Sun’s will to find it.

But right now, Fang Yuan had completely unleashed it, there was no way to hide it, this mysterious Giant Sun’s will found it easily.

Once the glass owner token breaks, the third arrangement would lose effect, and the Giant Sun’s will outside would be free to enter and exit True Yang Building!

By that time, even if Giant Sun’s will did not use Eighty-Eight True Yang Building, he could easily kill Fang Yuan using his own ability.

An unprecedented danger had descended upon Fang Yuan!

“Don’t tell me I need to use Spring Autumn Cicada? No! The risk of using Spring Autumn Cicada is too high, I am not at that stage yet! I have to persevere, I can still go on!” Fang Yuan growled angrily, he sent his will into the glass owner token.

Bam.

The next moment, through the glass owner token, his will clashed with the Giant Sun’s will that had appeared out of nowhere.

Ugh.

Fang Yuan’s body shuddered, he spurted out a mouthful of blood as the will he injected was completely obliterated!

His head hurt intensely, like it was going to break apart. His mind suffered a huge blow, as Mo Yao’s will screamed continually.

Fang Yuan’s body shook, he felt dizzy and could not stand, after enduring for a few breaths, he fell from the tall tree branch.

Swoosh!

Wind blew, as the three closest treemen suddenly stretched out their tree vine hands, grabbing at Fang Yuan with ill intent.

Fang Yuan lost the contest, Giant Sun’s will had regained control of this round, thus, the treemen also became Fang Yuan’s enemies, they would not rest until they killed Fang Yuan!

Because of this sudden event, Ma and Zhou escaped death, under the influence of their will to live, they started escaping blindly among the chaotic tree roots.

At the moment of danger, Fang Yuan was barely able to regain awareness.

He shouted lightly, injecting his primeval essence into his Gu worms, mustering his strength and punching and kicking the large tree hand that was coming for him.

Bam bam bam!

After three explosive sounds, the fists were shattered as Fang Yuan adjusted his balance in the air, landing hastily.

The aftermath of competing against Giant Sun’s will remained, his ears were buzzing and his hearing was nearly completely gone.

But Fang Yuan had no regret.

In fact, he opened his mouth, laughing loudly: “Excellent!”

The earlier clash of wills was not elegant in the least, but it not only allowed Fang Yuan to keep his glass owner token, he even found out the truth about Giant Sun’s will.

This newly appeared and mysterious will was not as powerful as expected.

He did not expect Fang Yuan to make such a choice either.

This will was split into three, the largest portion of it was dealing with the third arrangement, a small portion was busy fighting for the control rights of this round, while the last portion was victorious in the contest against Fang Yuan through the glass owner token.

In the end, Fang Yuan's injected will exterminated the victorious Giant Sun's will, and combined with the third arrangement, although his will was wiped out, he successfully caused harm to that large portion of Giant Sun's will.

Thus, Giant Sun's will was only left with a small portion that was controlling this round.

Giant Sun's will fell into extreme anger, he did not expect this tiny mortal to have the guts to challenge his will directly.

He did not expect that this mortal had stored so many wills in his mind either.

This was all thanks to Mo Yao honestly.

In order to deal with Mo Yao, Fang Yuan stored large amounts of wills in his mind as a back up.

He had special will, play will, deliberate will, keep will, heart will and others, he had a variety of many wills.

Giant Sun's will greatly underestimated Fang Yuan's capacity, and as he was anxious to save the situation, he was counterattacked by Fang Yuan and in the end, was caught off guard and suffered a great loss.

"Scoundrel, I will decimate your corpse!" Giant Sun's will was angered to his boiling point, he continued to manipulate the treemen to attack.

Fang Yuan dodged left and right, using all his effort to heal his injuries.

These treemen had thick skin and flesh, even if their branches, arms and legs were broken, they would not die, they had very strong vitality. It was not a good idea to fight them head on.

While he dodged, Fang Yuan's injuries recovered rapidly.

He quickly realized that the treemen were not only attacking him, but also Tai Bai Yun Sheng and even Ma Hong Yun.

More accurately, they were attacking Zhao Lian Yun who was beside Ma Hong Yun.

Ma and Zhao escaped under the pursuit of the treemen, they were in a dangerous situation.

They frantically escaped without a goal, but they actually got near to Fang Yuan.

“Please save us!” Ma Hong Yun finally saw Fang Yuan, shouting loudly for help.

“So naive.” Fang Yuan laughed sinisterly, immediately going closer to him.

As the two sides got closer, Fang Yuan shouted loudly: “Giant Sun’s will is trying to kill you, we have a common enemy, come here!”

“Be careful!” Zhao Lian Yun who was running showed hesitation and worry.

But the current situation was, only Fang Yuan could protect them.

They were unable to hold on much longer.

If they stayed, they would definitely get killed by the treemen, if they went to Fang Yuan, they at least had a chance of survival.

“Save, of course we’ll save them! Quickly save them!!” In his mind, Mo Yao’s will suddenly shouted. / NovelFull.Com

“What?” Fang Yuan thought he heard wrongly.

Mo Yao spoke quickly: “Do you still not understand? Giant Sun’s will is a huge special will, he knows the power of fortune rivalling heaven Gu, his intention is not to deal with Ma Hong Yun. But when he was first formed, his main body had placed a rule on him, that was to exterminate any otherworldly demon he sees!”

“She’s an otherworldly demon, don’t tell me you are not interested! But the most important thing is — if you save that Zhao Lian Yun, it will be the best weapon against Giant Sun’s will. Since Ma Hong Yun and Zhao Lian Yun are truly in love, they will definitely be enemies with Giant Sun’s will. By then, Giant Sun’s will would be dealt with using the power of fortune rivalling heaven Gu.”

Mo Yao’s words were very moving.

At once, the hidden killing intent that he had towards Ma Hong Yun shrunk.

“Wait! Ma and Zhao are in grave danger now, they might get squashed or trampled by the treemen at any moment! If I appear now, wouldn’t I be saving them?” Fang Yuan suddenly thought of this, becoming stunned!

Although Ma Hong Yun was rank three, he was too hard to kill!

The first time Fang Yuan’s killing intent appeared, Hei Lou Lan showed his trump card, he unleashed his extreme physique and chased after Tai Bai Yun Sheng!

The secome time he had killing intent, Giant Sun’s will came out of nowhere and gravely injured Fang Yuan.

And now, his ears were buzzing and his mind was weakened by at least thirty percent. Even though he protected the glass owner token and caused harm to Giant Sun’s will, he lost control over this round.

Now, Fang Yuan had his third wave of killing intent, and Mo Yao was the one who stopped him! But the problem was, she made perfect sense! Even Fang Yuan himself was convinced!

The reason Fang Yuan wanted to kill Ma Hong Yun earlier was to change the land spirit’s ownership.

But now that Hei Lou Lan showed his true battle strength and protected the false emotion fake will Gu, thus Fang Yuan did not have it. What use was there in killing the two?

“Don’t tell me that this third time, the one stopping me is actually myself?" As he was struck by reality, Fang Yuan was tongue-tied!

Chapter 620 - Stopped by himself?

Chapter 620: Stopped by himself?

Translator: ChibiGeneral **Editor:** ChibiGeneral

Fang Yuan truly experienced the might of fortune rivalling heaven Gu now.

This was a form of helplessness, like being played by destiny, where one would not know whether to laugh or cry, and the more they struggled, the deeper they would fall into despair!

Forced by the situation and in order to avoid calamity, it seemed Fang Yuan could only choose to maximize his benefits.

The distance between the two sides rapidly shortened.

To save them, or not to save them?

Mo Yao repeatedly screamed in Fang Yuan's mind: "Save, save them!"

Reason also told Fang Yuan that saving Ma Hong Yun would make him stand on the same side as Fortune Rivalling Heaven and he could borrow its strength to deal with Giant Sun's will.

However!

There was a voice in Fang Yuan's heart. This voice growled, shouted and roared!

"Save!? Am I going to surrender? Am I going to lower my head? I can kill him with one slap! What am I afraid of? Afraid of these two trash? Even Fortune Rivalling Heaven cannot obstruct me!!"

Fang Yuan's ears were buzzing non-stop, but this voice kept on getting louder, gradually suppressing every other sound.

He felt bursts of intense headaches.

He felt his mouth go dry in front of these choices.

That voice in his heart, however, was getting louder and clearer till his heart started to tremor!

Every howl, every roar, every shout, seemed to throw a bundle of firewood into the fury in Fang Yuan's heart.

The burning flames surged!

That was the fire of ambition, his fighting spirit, his unyielding, obstinate spirit of challenging the strong!

The flames soared; Fang Yuan's eyes turned bloodshot, his blood boiled and surged like the surging waves!

"Come, let me send you off personally!" Fang Yuan spoke, his voice hoarse like sand gritting on iron.

He did what he would normally not do, going against his style of prioritizing benefits.

With a malevolent expression and eyes shining with sharp killing intent, he smashed apart the giant treemen in front of him, tearing the countless twisting and coiling vines.

He reached Ma Hong Yun and Zhao Lian Yun.

Then…

He lifted his fist!

Before his punch even struck out, the terrifying fist aura already condensed into solid. The brutal killing intent almost solidified even the air!

“Ahhh!” Ma Hong Yun’s eyes opened wide, never having expected Fang Yuan to have such resolute killing intent. He turned pale with fright, and in his panic, he unexpectedly stumbled and fell to the ground.

“Ouch!” Zhao Lian Yun had been holding hands with Ma Hong Yun, and was thus also pulled down to the ground.

This unforeseen event shocked Fang Yuan.

He was already extremely vigilant because of the repeated accidents. But he soon found that this small accident only prolonged the time he struck them by a little.

At the same time, two giant treemen also reached Ma Hong Yun and Zhao Lian Yun.

No matter which treeman it was, it would only need one foot to crush these two to pieces. But Giant Sun’s will truly did not want to harm Ma Hong Yun, and could only mobilize vines to scuttle to Ma Hong Yun and Zhao Lian Yun, to separate them and then kill Zhao Lian Yun!

Five treemen suddenly pierced out of the ground at this moment and coincidentally blocked Fang Yuan’s way.

This strong defense required Fang Yuan to waste at least a dozen breath of time.

Giant Sun’s will was using his previous tactics again.

At present, the extremely weak land spirit was already booted from the playing field.

False emotion fake will Gu was safe as it was being protected by Hei Lou Lan.

Ma Hong Yun and Zhao Lian Yun might have become the owners of the blessed land, but as long as Zhao Lian Yun was killed, this connection would be cancelled.

At that time, it would not be too late to salvage the situation by using false emotion fake will Gu to make Hei Lou Lan and Ma Hong Yun the owners of Imperial Court blessed land.

Thus, Giant Sun's will was obstructing Fang Yuan from killing Ma Hong Yun.

"Damn it! This kind of feeling again, always at the crucial place and at the crucial time…" Fang Yuan gritted his teeth, and used all his strength to forcibly break through the defensive line.

Thud thud thud…

Thunder-like collisions occurred one after another. Fang Yuan was like a tiger let loose, his fierce offense directly breaking the treemen's defense.

The whole process only lasted less than ten breaths!

However, Fang Yuan also had to pay a heavy price. Three enormous wounds were added to Fang Yuan's body; one ran through his chest, another pierced his back, and another formed a bloody hole on his stomach with the size of a baby's fist.

His right forearm was severely fractured, his left leg was twisted grotesquely to the side.

"Hahaha!" Fang Yuan, however, howled with laughter!

He could not use his hand and leg for a while, but he still had movement Gu, he could still fly!

He rapidly chased after Ma Hong Yun and Zhao Lian Yun through the air.

Ma Hong Yun hunched over, protecting Zhao Lian Yun tightly under him. Vines were coiling around them from outside.

These vines wanted to separate the two without harming Ma Hong Yun.

Ma Hong Yun faced off against the vines. But naturally, he was weaker and looked on as he and Zhao Lian Yun were forcibly separated. He bit his lips and glared with furious eyes, but he was powerless!

“No—!” He roared with bloodshot eyes. Despair and pain filled him as he saw his lover about to die in front of him, appearing like a beast forced into a corner.

“Save him quickly, now is the best time to save him! As long as you save them, Ma Hong Yun will definitely feel grateful to you, you can then borrow the strength of his fortune that rivals heaven! Just think, why is Giant Sun’s will not killing Ma Hong Yun – it is to use his luck!!” Mo Yao shouted again, persuading Fang Yuan. / update by NovelFull.Com

“You really speak a lot of nonsense.” Fang Yuan replied with ruthless coldness.

Success was in front of him, but he instead calmed down, he had no expression on his face, not even the previous malevolent look.

“Die!”

When Ma Hong Yun and Zhao Lian Yun was in his range, Fang Yuan immediately struck out with a fatal attack.

This attack had earth-shattering power, bursting all the air in front of it.

The incomparably violent power was like an evil dragon rising to heaven, as it shrouded over Ma Hong Yun and Zhao Lian Yun.

“No!” This time, it was Giant Sun’s will who let out a helpless and desperate shout.

He immediately mobilized the surrounding treemen to use their own bodies to protect Ma Hong Yun and Zhao Lian Yun.

The tree vines no longer separated the two, instead they attempted to rapidly evacuate them.

But Giant Sun's will was still feeling dejected.

He knew all these would be of no use. This strike filled with Fang Yuan's pent-up wrath, how could it be so easily blocked and avoided?

The treemen's trunks were smashed apart, the vines also did not have enough time to evacuate Ma Hong Yun and Zhao Lian Yun. In the end, the attack that still had its peak offensive power was about to directly smash them into pieces.

Even though there were countless treemen filling the vast forest, it was all too late!

Fang Yuan was resolute, erupting with all his strength to break through the defensive line and succeeded in grabbing the crucial moment.

The treemen's movement was slow and they were not good at providing swift reinforcement.

Ma Hong Yun was definitely dead meat!

At this moment, not only Fang Yuan, even Giant Sun's will also thought this so.

Not only did they think so, even Ma Hong Yun and Zhao Lian Yun did not have any hope of surviving the attack.

Any factors that could influence the situation had seemingly already played their part.

Hei Lou Lan, Tai Bai Yun Sheng, Eighty-Eight True Yang Building, Giant Sun's will, Frost Jade Peacock, Fang Yuan, Mo Yao…

All these people or things had shown all their strength by this point.

Time seemed to slow down, Fang Yuan's lips curled up to reveal a smile: "Now, is there anything left that can save Ma Hong Yun?"

However, at the next moment!

Rumble—!

A loud sound rang out, causing huge tremors and making countless trees creak.

Dazzling golden rays of light shone over the whole round.

“Has Giant Sun’s will entered True Yang Building?!” Fang Yuan turned grave, but soon discovered that was not the case.

Giant Sun’s will was still taking a beating outside the building. Central continent’s Gu Immortals had planned for countless years to create the third method; it could never be underestimated.

If not for this, central continent’s Gu Immortals would not have been able to overthrow Eighty-Eight True Yang Building and return victorious in Fang Yuan’s previous life.

The enormous golden light lump moved like a meteor and before the sound even registered in one’s ears, it crashed onto the ground, instantly destroying the surrounding treemen and protecting Ma Hong Yun and Zhao Lian Yun within it.

“This, isn’t this — that luck path supreme true inheritance!” Mo Yao was so shocked she involuntarily screamed out.

“What’s going on? Shouldn’t this supreme true inheritance be in true inheritance secluded domain, how did it suddenly crash into this round and throw itself towards Ma Hong Yun’s body?!” With no choice, Fang Yuan could only stop his footsteps.

He had already experienced the might of a supreme true inheritance in true inheritance secluded domain.

This was not something he could touch.

‘But why, Ma Hong Yun is covered by this light, but why has nothing happened to him?’

For a moment, Fang Yuan could not help but feel extremely dejected.

He had used all his strength in his third attempt to kill Ma Hong Yun; he had even seen hope a moment ago, the success had seemingly been right in front of him, but he still failed in the end.

“Why did the supreme true inheritance move to Ma Hong Yun? Impossible, this is impossible!” Mo Yao completely lost self-control as she scratched at her head, causing her long hair to become messy, resembling a crazed woman.

This was not surprising.

She had suffered untold hardships, expended all her energy and effort but was only able to open a crack in the luck path true inheritance from which fortune rivalling heaven Gu escaped. Finally, she had no choice but to refine calamity beckoning Gu.

But this calamity beckoning Gu was not able to assist her husband, Bo Qing, causing her and Bo Qing to perish.

But at this moment, she was watching this luck path supreme true inheritance throwing itself at a rank three mortal!

Even if you had fortune that rivalled heaven, isn’t this going overboard?!

‘Why was it not me, I put in so much effort, paid such a huge price, why was it not me?’

‘Why was it this mere mortal, a fool, a kid!’

It is a comparison that could make one die from anger!

Fang Yuan forcibly calmed down and tried hard to remove the unneeded emotions, reflecting on this event.

A bright flash of inspiration seemed to roam around in his mind, but was extremely hard to get a grasp on.

“I understand!” Suddenly, Fang Yuan’s body shook as he grasped this flash of inspiration, and understood this seemingly impossible event.

This supreme true inheritance recognized Ma Hong Yun and not others as its master of its own accord. This was because, Ma Hong Yun had the power of fortune rivalling heaven Gu on him.

Fortune rivalling heaven Gu was the true essence of Giant Sun

Immortal Venerable's luck path, the quintessential crystallization of luck path. To the supreme true inheritance, it was the leader and the emperor.

But why did the supreme true inheritance not come earlier or later, but chose this exact moment?

Luck path supreme true inheritance was located in true inheritance secluded domain, how could it come here for no rhyme or reason?

These two questions actually pointed to the same factor — Giant Sun's will!

Chapter 621 - Fighting Hei Lou Lan

Chapter 621: Fighting Hei Lou Lan

Translator: ChibiGeneral Editor: ChibiGeneral

In the true inheritance secluded domain, all of the true inheritances had Giant Sun’s will in them. Otherwise, how could all these fated individuals succeed in taking these inheritances, especially those Immortal Gu?

It was just like charging through rounds in Eighty-Eight True Yang Building.

In every one of the rounds that had Gu worms as rewards, these Gu worms were all refined by Giant Sun’s will in advance.

When these Gu Masters succeed and obtain the Gu worms, they are able to refine these Gu worms instantly and keep them in their aperture because Giant Sun’s will was purposely letting them have the Gu.

Because of this reason, as long as a Gu Master is willing to give his Gu worm away to someone else, they can always create a phenomenon of ‘instant refinement’.

Earlier, when Giant Sun’s will was slumbering, the refinement of wild Gu worms was extremely slow. When Fang Yuan first ventured into True Yang Building, he made use of this loophole.

Every true inheritance was governed by Giant Sun’s will.

The reason why the luck path supreme true inheritance did not fly towards Ma Hong Yun earlier was due to this.

But now the true inheritance flew into Ma Hong Yun's arms and made him its master, this was not Giant Sun's will's intention.

What Giant Sun's will wanted was to control Ma Hong Yun, why would he allow him to grow stronger and become more uncontrollable?

Thus, the truth was revealed!

Within the luck path supreme true inheritance, there was no Giant Sun's will.

Giant Sun's will retreated on his own, this allowed the supreme true inheritance to act on its own.

Thereafter, the newly created wild Gu will went towards Ma Hong Yun.

This created another question.

Why would Giant Sun's will retreat for no reason?

Fang Yuan thought about the second time he struck and was about to kill Ma Hong Yun, but out of nowhere Giant Sun's will appeared!

At this point, it was no longer a mystery.

Fang Yuan used the third method, temporarily expelling Giant Sun's will out of True Yang Building.

Afterwards, he entered True Yang Building and successfully convinced Tai Bai Yun Sheng to revive Dang Hun mountain.

After that he came back, attempting to control Imperial Court blessed land. During the second attempt when he tried to kill Ma Hong Yun, he was obstructed by a sudden burst of Giant Sun's will.

At that point, Fang Yuan was very confused.

But now, he understood.

This mysterious Giant Sun's will was pulled out of those true inheritances.

Giant Sun's will was anxious at that time, in order to salvage the situation, he took this step.

He almost succeeded by doing this, but unfortunately, Fang Yuan was too resolute, he directly faced off against him.

Eventually, this forcefully extracted Giant Sun's will was left with a final small portion that controlled this round.

"This means, the luck path supreme true inheritance was able to save Ma Hong Yun because of me? If I did not expel Giant Sun's will out of the tower, if I did not face off against Giant Sun's will, why would this happen now?"

"To think that this third attempt was thwarted by myself after all!"

Thinking so, Fang Yuan sighed deeply as his killing intent towards Ma Hong Yun vanished without a trace.

The current Ma Hong Yun was protected by the luck path true inheritance. As a mortal, it was impossible for Fang Yuan to break through this defense.

"Sigh, I told you to save him earlier, you refused to listen!" In his mind, Mo Yao calmed down and sighed in pity.

Her tone carried some grievance: "If you had saved them, you would gain Ma Hong Yun's recognition and become protected by the luck path true inheritance just like Zhao Lian Yun. The current luck path true inheritance is a newborn wild will, it is like a baby without any internal defenses. If you are inside the luck path inheritance, you will be able to learn about the details of this true inheritance! This is an immense opportunity, but you gave it up…"

Helping Ma Hong Yun would result in benefits. Dealing with Ma Hong Yun would result in Fang Yuan's current heavy injuries.

Fang Yuan snickered.

He already did it, there was not a bit of regret in his heart.

He quickly retreated while healing his injuries, meanwhile replying to Mo Yao: “Even if I cannot do anything to this luck path true inheritance, do you think Giant Sun’s will would do nothing?”

This luck path true inheritance is one of the three supreme true inheritances inside the true inheritance secluded domain. Why would Giant Sun’s will allow it to acknowledge a new master like this?

In Giant Sun’s will’s heart, it was not unacceptable to pass this luck path true inheritance to Ma Hong Yun.

But Ma Hong Yun’s heart was with an otherworldly demon, that was a huge taboo!

Giant Sun’s will was a special will, when the main body first created it, he assigned a special meaning for it to ‘do its best to slaughter any otherworldly demon it comes into contact with’.

Now that Zhao Lian Yun was protected by the luck path true inheritance, if Giant Sun’s will wanted to kill this otherworldly demon, he would need to remove the luck path true inheritance’s hindrance.

Thus, the entire forest flew into a rage.

Countless treemen were uprooted, encircling the luck path true inheritance.

Large numbers of treemen were entangling with each other, all of their roots and vines were coiling around each other to form huge treemen, each were at least three hundred meters tall, their aura was shocking to Fang Yuan.

Giant Sun’s will put in all its effort in order to kill Zhao Lian Yun!

Fang Yuan managed to retreat successfully.

Exterminating the otherworldly demon was Giant Sun’s will’s most important mission. With the appearance of the luck path true inheritance, his attention was drawn over.

Fang Yuan was a threat that ranked much lower than them.

Giant Sun's will also knew that he could do nothing to Fang Yuan now. Weighing the two sides, and because Giant Sun's will had limited strength, he decided to focus solely on dealing with the luck path true inheritance.

Very soon, Fang Yuan got close to the place Tai Bai Yun Sheng and Hei Lou Lan were fighting at.

Tai Bai Yun Sheng was suppressed, but Hei Lou Lan had no ability to claim victory either.

Tai Bai Yun Sheng was a healing Gu Master and a flying master, the former allowed him to specialize in drawn out battles, while the latter allowed him to escape like a slippery eel, he was hard to pin down.

The two's battle had turned into a stalemate.

The two fought from the sky to the ground, their attacks were fierce and the battle brought disaster to the nearby trees, causing the surroundings to be full of fallen trees and debris.

"Senior brother Tai Bai, let me help you!" Fang Yuan shouted.

'Senior brother', these two words triggered Hei Lou Lan as he immediately thought of central continent. That was because in the five regions, the other four regions were overwhelmingly family based inheritances, only central continent was dominated by a sect based system.

Hei Lou Lan's eyes were staring wide, as he screamed like a bear: "You are a scoundrel that had planned for a long time indeed! You two sect brothers have hidden yourselves deeply! Right now, since you are seeking your own death, I will grant you your wish!"

Saying this, he aimed at Fang Yuan and Tai Bai Yun Sheng and sent four punches at them.

The fist qi burst out, transforming into a human strength phantom in midair, having Hei Lou Lan's appearance.

The four fist shadows split up, one of them charged towards Tai Bai

Yun Sheng, while the other three went towards Fang Yuan!

Fang Yuan was a mortal, Tai Bai Yun Sheng was a Gu Immortal, targeting the weakest link was a common strategy.

Three human strength phantoms attacked Fang Yuan, and the last one was to prevent Tai Bai Yun Sheng from reinforcing him.

“Quickly retreat!” Tai Bai Yun Sheng was shocked, he gave a quick warning.

He was very familiar with this strength path killer move’s power.

He had obtained a lot of defensive Gu worms in Hu Immortal blessed land thanks to Fang Yuan’s gift.

But after battling for so long, Tai Bai Yun Sheng’s defensive Gu worms were mostly dead, he even suffered heavy injuries several times, it showed the power of Hei Lou Lan’s strength path killer move!

Three human strength phantoms flew over with an imposing aura, whipping up a fierce wind.

“What a strong killer move!” Even Mo Yao’s will in his mind praised upon seeing this: “Be careful, Hei Lou Lan’s strength path killer move definitely surpasses your four arm earth king killer move!”

Fang Yuan snickered, he showed no fear but instead, oozed with battle intent, ready to fight.

“Of course I won’t use four arm earth king, because I have an even stronger strength path killer move.” Saying this, he paused for a while, before shouting: “Come, six arm heavenly zombie king!”

Bam!

A formless aura burst out.

The horrifying pressure flooded the surrounding area.

Intense pain could be felt, like surging waves, they attacked his heart!

Fang Yuan however, felt immeasurable pleasure, his body expanded rapidly, his skin lost its gloss and moisture, becoming dark and hard.

His defense rose rapidly!

In just a moment, he transformed into a six metre tall giant.

On his back, six huge monstrous arms grew out, the fingers were thick and scary, each having their own distinctive appearance, it made people feel fear upon seeing them.

Three human strength phantoms arrived before Fang Yuan.

“Good timing.” Fang Yuan muttered, facing them head on with no fear!

As fists and legs clashed, they fought directly!

Bam bam bam…

Thunderous explosions occurred endlessly.

Be it Fang Yuan, or Hei Lou Lan’s three human strength phantoms, they had great power and each of their blows tore through the air.

Tai Bai Yun Sheng had a worried expression, but after watching for a few breaths’ time, his eyes expanded.

Fang Yuan was a mere mortal, but he could face off against three human strength phantoms at once.

The two were evenly matched!

But the three human strength phantoms had sentience, after failing to take him down, they started cooperating, pincer attacking Fang Yuan from his front, upper left corner, and lower right corner.

“Be careful!” Tai Bai Yun Sheng shouted to warn him, he had previously suffered greatly due to this.

Fang Yuan laughed heartily, displaying his grand demeanour.

He had previously activated his killer move, growing six monstrous arms, with his own two arms, he had eight arms.

The eight arms moved in a circular motion, the punches were executed like a fierce rain, it defended him tightly. He managed to completely block the three human strength phantoms attacking from all directions without a single weak point.

“He actually blocked it, this killer move…” Hei Lou Lan’s heart jumped, his expression turned grim.

“Sigh, half an immortal’s battle strength, this guy is a monster…” Tai Bai Yun Sheng saw this and sighed. He was surprised, and yet not surprised.

Thinking of his master, everything could be explained.

Thus, Tai Bai Yun Sheng’s heart was at ease, he could concentrate on dealing with the human strength phantom fighting against him.

He waved his sleeve, and countless lights flew out from it.

Chainsaw wind blade, flame sword flash, azure blue water python, golden silk net…

Up to a hundred Gu worms were activated at once, they gave off a dazzling rainbow light, resembling fireworks.

The human strength phantom was covered by the smoke, its speed became slower, thus it immediately changed directions and shot out like lightning.

But Tai Bai Yun Sheng’s attacks followed after it, it was unceasing.

A fireworks-like display of attacks were unleashed endlessly.

The human strength phantom had the ability to think, it knew how to fly in an arc, attempting to get close to Tai Bai Yun Sheng.

But Tai Bai Yun Sheng also retreated at the same time, while his attacks showed no signs of slowing down.

He was a Gu Immortal with near limitless primeval essence. If not for the fact that he had just become a Gu Immortal and had not made any accumulations, resulting in a low quantity of Gu worms, he would have hundreds and thousands of Gu worms, once used together, they would create a terrifying attack.

Human strength phantom could block most of the attacks, but under the flurry of attacks, it continued to be weakened, and the phantom was turning lighter and more transparent.

But Hei Lou Lan's motive had been achieved.

Tai Bai Yun Sheng did not have a strong attacking method, he could only weaken the human strength phantom slowly.

He was old and wise, but because he was vigilant and had never charged ahead courageous, it was difficult for him to be an effective reinforcement for Fang Yuan.

This was because of his nature, otherwise, back then, he would not have chosen the 'as before' time path inheritance from the three immortal inheritances.

However, even though Hei Lou Lan achieved his goals in this battle, he was unable to be happy.

That was because he realized — Fang Yuan did not need reinforcements!

Over there, Fang Yuan was fighting three human strength phantoms at once, both sides used attacks to counter attacks, the six arm heavenly zombie king's defense was truly astounding.

"Hahaha!" Fang Yuan got more ferocious as he fought, his punches and kicks were lively and their speed was increasing. In the end, his fist shadows turned into a black afterimage from his sheer speed!

The three human strength phantoms were expended greatly in the battle.

Bam, bam, bam.

Three explosions occurred, the three human strength phantoms could not sustain themselves anymore and were smashed to bits, turning into fist qi and vanishing.

Hei Lou Lan's pupils shrunk, but the battle intent in his heart surged like raging tides.

“Interesting, this killer move is very powerful, it is almost on par with my killer move. But most importantly, he has such rich battle experience, his physical combat skills can be said to be at a master's level! If it were others, they might not be able to unleash the power of this killer move to such an extent!”

Hei Lou Lan licked his lips, his eyes were shining with ruthlessness and excitement.

The earlier attack was not his full strength, he was only probing.

The battle with Tai Bai Yun Sheng was very annoying, because Tai Bai Yun Sheng was escaping most of the time, while Hei Lou Lan could not catch up to him, thus he could not use any of his strength.

Now that this Fang Yuan who was a tough opponent appeared, his battle intent naturally surged.

After destroying three human strength phantoms, Fang Yuan did not attack rashly, but instead floated in the same spot.

The two were about a thousand steps away, and their vicious gazes were colliding.

“Stop fighting, come over here and help!” At this time, Hei Lou Lan heard Giant Sun's will's instructions.

“But, old ancestor…” Hei Lou Lan hesitated, his battle intent was wavering.

Giant Sun Immortal Venerable's status in his heart was still very high.

This was not about personality, but because he had been influenced to feel the pride of his bloodline since he was young. This was a significant element in Hei Lou Lan's self worth.

“Forget about them. Killing the otherworldly demon and taking back the luck path true inheritance is most important!” Giant Sun’s will replied quickly: “This is the only record of this luck path true inheritance that I left behind in the entire world. Even in Longevity Heaven, I did not leave behind any details regarding it. I am about to open the entrance to the true inheritance secluded domain, you will go and help push this luck path true inheritance into the secluded domain.”

This round was already controlled by Giant Sun’s will, the treemen filled the area like a sea. However, even though Giant Sun’s will had the ability to break apart the luck path true inheritance by force, he could not do so.

Firstly, it took too much time, that could lead to unexpected consequences.

Secondly, breaking apart the luck path true inheritance was the same as destroying the supreme true inheritance.

Chapter 622 - Grasping the biggest flaw!

Chapter 622: Grasping the biggest flaw!

Translator: ChibiGeneral **Editor:** ChibiGeneral

The situation in Eighty-Eight True Yang Building twisted and turned with no end in sight.

Once the invincible being dominating the entire world, the ruler of an era, the rank nine Immortal Venerable Giant Sun; the terrifying will that he had specially left behind to take charge of Eighty-Eight True Yang Building....

The winner of the last Imperial Court contest, the current tribe leader of a super force, Hei tribe, possessing the Great Strength True Martial Physique of the ten extreme physiques, Hei Lou Lan....

Standing tall above the centre of northern plains as countless years of change were experienced, and yet imprisoned for hundreds of thousands of years – the land spirit Frost Jade Peacock...

A living legend, helping the injured for almost all his life, his benevolence and his name renowned far and wide, owning a Gu Immortal inheritance, advancing to a rank six Gu Immortal, possessing two mysterious Immortal Gu, Tai Bai Yun Sheng...

As well as.

The owner of Spring Autumn Cicada, ranked seventh amongst the top ten mystical Gu, the owner of Hu Immortal blessed land, a mortal who has possession of multiple Immortal Gu, a reborn five hundred year old demon, Gu Yue Fang Yuan…

Favored by rank eight fortune rivalling heaven Gu, a Gu Immortal in Fang Yuan's previous life who had successively inherited Giant Sun's inheritance and an opportunity left behind by Thieving Heaven Demon Venerable, becoming a great hero of northern plains who resisted the invasion of central continent, Ma Hong Yun…

Viewed as an 'otherworldly demon' by Giant Sun's will, Ma Hong Yun's wife in Fang Yuan's previous life who became a wisdom path Gu Immortal and an provided innumerable amount of assistance to her husband, the legendary woman Zhao Lian Yun…

And also.

The former rank seven Gu Immortal, a refinement path grandmaster, the thirty-sixth generation fairy of Spirit Affinity House – Mo Yao who had schemed against Eighty-Eight True Yang Building; the mysterious will she left behind following her death…

All these existences had their own thoughts with their respective goals. And on this platform of the collapsing Imperial Court blessed land, they collided and contended with each other.

They had their own advantages, abilities and also had their respective weaknesses and flaws.

These were all individuals overflowing with talents, they were elites or heroes of their generations. They were either proficient in scheming and strategizing, being master tacticians, or had immense strength or absurd luck.

The intense stimulation of life and death, the enticement of enormous benefits, caused these existences to perform to their full strength, using all their abilities and trump cards, perhaps betting it all and risking everything in a single moment, or strategizing to control the situation.

Thus, the state of affairs became clear from time to time, while turning indistinct at the next moment.

They had contended till now, but the situation was still chaotic. Only Frost Jade Peacock was pulled out of the game, while the others could tilt the whole set of circumstances with their every move and were not existences that could be underestimated in their influence to the final outcome.

Now —

The main part of Giant Sun's will had been forced out of Eighty-Eight True Yang Building for the moment by Fang Yuan's trump card, suffering the intense assaults of the heavenly tribulation and earthly calamity.

Giant Sun's will was the most powerful existence among those present. On one hand, his main portion tried to return to Eighty-Eight True Yang Building, and on the other, he took the risk of drawing out the sub-wills from true inheritances to seize back the control of the round, and then wholeheartedly tried to eliminate the otherworldly demon Zhao Lian Yun.

Ma Hong Yun and Zhao Lian Yun had become the masters of Imperial Court blessed land by some twist of fate; they were also being protected by the luck path true inheritance and were safe for the moment.

Fang Yuan and Tai Bai Yun Sheng had made a temporary alliance, engaging in a round of probing confrontation with Hei Lou Lan.

Hei Lou Lan's battle intent soared violently and he was just about to fight Fang Yuan head-on, when Giant Sun's will asked him to leave and deal with Ma Hong Yun to take back the luck path true inheritance.

Hei Lou Lan hesitated, but chose to listen to Giant Sun's will in the end.

"I will let you guys off for the moment!" He glared at Fang Yuan before turning around and leaving quickly.

Fang Yuan looked on as Hei Lou Lan left, floating in the sky without giving chase.

“Huff huff…” Tai Bai Yun Sheng let out a breath of turbid air, flying towards Fang Yuan.

He might be a Gu Immortal, but he only specialized in healing and lacked large numbers of mortal Gu; his battle strength compared to ordinary Gu Immortals still had a great discrepancy. Through a prolonged battle, he had slowly worn down that human strength phantom to death.

“Hei Lou Lan is going to deal with Ma Hong Yun to retrieve the luck path true inheritance! Should we intervene in this?” Mo Yao’s will immediately suggested.

This luck path true inheritance was a supreme hidden treasure left behind by Giant Sun Immortal Venerable. Back then, Giant Sun Immortal Venerable used it as part of his journey in becoming the ruler of an era, invincible within the world.

This luck path true inheritance held extremely large temptation to any Gu Master!

Fang Yuan’s gaze slightly flickered, but he did not move, instead turning his sight to look at his left.

Not far from him, a whirlwind was forming.

“Careful, Hei Lou Lan’s fist qi can still condense back even after being destroyed!” Tai Bai Yun Sheng warned.

Fang Yuan snorted, and with one step, appeared before the hurricane, punching it.

Boom.

A muffled sound rang out and the fist qi was scattered again.

The first aura was mostly dissipated, but the remaining fist qi still persisted in condensing back. But this quantity was rather small and was not able to condense into form.

“This strength path killer move…” Fang Yuan’s expression was heavy.

Strength path phantoms were the long range attacking method of strength path, however this was the first time Fang Yuan had seen human strength phantoms possessing such spirituality.

This seemed to be an innovation of which no records existed in all the Gu Master history Fang Yuan knew of.

It could be even called as ‘Hei Lou Lan’s strength path phantom’.

More importantly, this ‘Hei Lou Lan’s strength path phantom’ could condense back even after being destroyed.

This gave the feeling of a ‘never-ending source of harassment’!

“Hei Lou Lan has certainly not used his full strength, if he can attack with twenty human strength phantoms at the same time, and the remaining fist qi can condense again, that power would be terrifying. If he can send out thirty human strength phantoms, then this strength path killer move can absolutely contend with your six arm heavenly zombie king!” Mo Yao’s will evaluated with a grave tone.

“What killer move is this, do you have any impressions of it?” Fang Yuan asked.

Mo Yao’s will slowly shook her head: “I am not a strength path Gu Immortal, this killer move also greatly involves soul path and qi path, in addition it has other pivotal mechanics. It should be a modern innovation as it is greatly different from ancient styles, I am guessing that this is an innovation of the current generation.”

Six arm heavenly zombie king was researched by Fang Yuan and perfected by Mo Yao.

But there were no lack of geniuses in this world, it was not just Fang Yuan alone who could innovate a strength path killer move.

Of course, Fang Yuan specialized in blood path in his previous life, and had only cultivated strength path on the side.

Treemen flocked one after the other, forming a majestic green wave that attempted to drown Ma Hong Yun and Zhao Lian Yun.

However, Giant Sun's luck path true inheritance was like a giant golden egg that firmly protected the two.

Giant Sun's will was concerned about the consequences of his actions; he truly wanted to kill the otherworldly demon Zhao Lian Yun, but also wanted to protect this unique existence that was Giant Sun's luck path true inheritance.

When he saw Hei Lou Lan near, he hurriedly transmitted his voice: "I will open the passage to true inheritance secluded domain, help me push the luck path true inheritance into it!"

Hei Lou Lan nodded. His whole body shook as he punched out with both his fists; fist qi surged out violently!

Boom boom boom…

Muffled explosions rang out in the air non-stop, the fist qi condensing one after another into Hei Lou Lan's strength path phantoms.

Ten, twenty, thirty… forty!

Fang Yuan's pupils could not help but shrink upon seeing this.

Tai Bai Yun Sheng's expression turned pale, revealing intense fear in his eyes.

Forty of Hei Lou Lan's strength path phantoms moved down together and surrounded the luck path true inheritance in just a moment.

A dark crack slowly appeared in the air above the luck path true inheritance. The crack enlarged till it formed a large and round passage.

This deep, dark passage was directly linked to true inheritance secluded domain.

Strength path phantoms shouted together before actually lifting Giant Sun's true inheritance slightly!

The surrounding treemen also moved their large hands to help. The python-like green vines coiled around together to assist in this.

Giant Sun's True Inheritance erupted with an intense and dazzling light; the treemen melted like snow, the coiling vines could not even last for two breaths before being destroyed completely.

Strength path phantoms also continued to crumble but condensed back a short while after.

Hei Lou Lan stood at the outer periphery; he was like an endless source of strength, striking out with large numbers of strength path phantoms one after another.

Under his effort, Giant Sun's true inheritance slowly left the ground.

At the same time, the round passage in the air also erupted with an intense force of suction, like a giant mouth attempting to take back Giant Sun's true inheritance into its belly.

"He can actually form so many strength path phantoms simultaneously! What kind of killer move is this?" Tai Bai Yun Sheng cried out involuntarily at this astonishing sight.

Mo Yao's will also said to Fang Yuan: "Your strength path killer move is specialized for close combat. Hei Lou Lan's killer move, however, is the exact opposite of yours, specializing in long range combat! This killer move is equally matched with your six arm heavenly zombie king. But in Hei Lou Lan's hands, the strength it can erupt with far surpassess yours by several times."

Hei Lou Lan was the possessor of Great Strength True Martial Physique of the ten extreme physiques, and Fang Yuan was not.

In the legends, Gu Masters who had Great Strength True Martial Physique not only had immense strength, their stamina would also never run out. At the same time, their self recovery ability was also extremely astonishing!

Any strength path killer move would erupt with strength that far surpassed their usual strength under the hands of Great Strength True Martial Physique.

"What should we do now?" Tai Bai Yun Sheng stood beside Fang Yuan, fixing his gaze at the contest of strength between Hei Lou Lan and Giant Sun’s true inheritance.

He continued with a regretful tone: “This is a supreme true inheritance! Giant Sun’s will is taking it back to true inheritance secluded domain, unfortunately Hei Lou Lan is there, so we cannot get a share of the action.”

His tone contained the meaning of not being able to contend with Hei Lou Lan.

This was not surprising, Tai Bai Yun Sheng had a passive nature; a wise man looks after his own hide, he would not take extreme measures unless forced into a corner.

Fang Yuan looked at Tai Bai Yun Sheng and smiled.

“What to do?” He asked and answered himself, “Of course we go to true inheritance secluded domain!”

Tai Bai Yun Sheng was surprised: “True inheritance secluded domain?”

Mo Yao’s will shook before reacting, almost slapping her own thigh at the sudden realization: “Right, there is no more of Giant Sun’s will remaining in true inheritance secluded domain. Those true inheritances have become masterless objects!”

Previously, these true inheritances contained Giant Sun’s will, thus one could only obtain the qualifications for the true inheritances by using an owner token.

But it was different now, Giant Sun’s will had moved away all the sub-wills. Young wild will grew soon after in the true inheritances, and they only needed to be manipulated appropriately to refine them easily.

“But you don’t have much time, Giant Sun’s main will outside the tower is going to return soon. You will only be able to choose one true inheritance in this time.” Mo Yao’s will reminded, “Fang Yuan, you must quickly consider which inheritance you are going to choose!”

Tai Bai Yun Sheng also realized this and asked another crucial question: “This round is already controlled by Giant Sun’s will, how do we enter true inheritance secluded domain?”

He had not even finished speaking when Fang Yuan took out Fixed Immortal Travel Immortal Gu.

Tai Bai Yun Sheng had held this Immortal Gu for safekeeping before, thus he was not surprised; but his gaze turned serious as he looked at Fang Yuan: “If I am not wrong, Fixed Immortal Travel can only carry one person, right?”

“You are right.” Fang Yuan nodded, “So open up your immortal aperture and let me in. I will send you the image of true inheritance secluded domain through thoughts transmission.”

Tai Bai Yun Sheng suddenly realized: “I almost forgot that I am a Gu Immortal!”

The immortal aperture of rank six and rank seven Gu Immortals was called a ‘blessed land’.

Imperial Court blessed land, Lang Ya blessed land and Hu Immortal blessed land were immortal apertures; they had vast space and were akin to a small world. Tai Bai Yun Sheng’s Tai Bai blessed land was naturally not an exception.

Fang Yuan lent Fixed Immortal Travel to Tai Bai Yun Sheng and entered his immortal aperture, then sent his thoughts that recorded the image of true inheritance secluded domain.

Tai Bai Yun Sheng activated Fixed Immortal Travel, Giant Sun’s will had no spare energy to stop him and could only let him go to true inheritance secluded domain one step earlier.

Within the true inheritance secluded domain was a scene of chaos.

The dozens of true inheritances were ruled by new wild wills and were like headless chickens, flying around chaotically. From time to time, they collided with each other, letting out sparks and causing unceasing wear and tear.

Mo Yao felt great heartache at this scene: “Make your choice quickly. These true inheritances are destroying each other, if the situation gets worse, even if you can get an inheritance, it might have already lost its essence.”

Fang Yuan did not have much time left and could only pick one true inheritance. He had already made a plan for this.

He said in a deep voice: “Mo Yao, I need your help.”

“Speak quickly.”

“Point me the location of the final supreme true inheritance!”

Mo Yao was stumped at Fang Yuan’s words.

Soon, her eyes and mouth opened wide, her mind was greatly shaken!

Eighty-Eight True Yang Building contained three supreme true inheritances. Mo Yao was extremely clear about them and she had introduced them to Fang Yuan when he had charged into true inheritance secluded domain before.

The first supreme true inheritance was rank nine wisdom Gu.

The second supreme true inheritance was Giant Sun Immortal Venerable’s luck path inheritance.

The third supreme true inheritance was Eighty-Eight True Yang Building itself!

That is to say the one who obtains this true inheritance could control Eighty-Eight True Yang Building!!

“Why did I not think of it?” Mo Yao mumbled in a daze, “Giant Sun’s will had transferred all the sub-wills away, now is the best time to seize the authority over Eighty-Eight True Yang Building!”

“Right! Giant Sun’s will had neglected this in fulfilling his desire to deal with Zhao Lian Yun, thus exposing his greatest flaw, and giving us the opportunity to turn around this crisis!” Fang Yuan’s eyes shone with a sharp brilliance.

He looked at his surroundings, the fire of ambition soaring ever so high in his heart.

He acutely grasped the flaw in the enemy!

Win or lose, it all depended on this move; as long as he could take Eighty-Eight True Yang Building for himself, he would have the territorial advantage!

By that time, even if Giant Sun’s main will were to be more formidable, he would only be a despondent dog locked out of the house, standing at the door and barking helplessly!

Chapter 623 - Refining Eighty-Eight True Yang Building

Chapter 623: Refining Eighty-Eight True Yang Building

Translator: ChibiGeneral **Editor:** ChibiGeneral

Fang Yuan and Tai Bai Yun Sheng moved forward in the true inheritance secluded domain.

In the dark true inheritance secluded domain, there was no more of the order and serenity from before.

Because Giant Sun's will had been extracted fully, the dozens of true inheritances here were ownerless inheritances, wild wills formed in them within a short time.

These true inheritances were like shooting stars of all colors, flying extremely quickly in this dark space, they weaved a beautiful huge net with their trails.

Swoosh!

Another true inheritance flew quickly past Fang Yuan's left side.

This true inheritance was only the size of a bowl, it was giving off a silvery light and was very dazzling.

It almost touched Fang Yuan's body as it flew past, the silvery light shone on Fang Yuan and Tai Bai Yun Sheng's faces.

Their expressions were quite ugly, their gazes were full of anxiety and nervousness.

These true inheritances were powerful and had special abilities, most of them had Immortal Gu among the Gu worms in them. Be it Fang Yuan or Tai Bai Yun Sheng, they could not endure an attack from them.

Especially now, when the true inheritances were guided by the newly birthed wills, who knew when they would display their Immortal Gu abilities?

This could not be predicted!

Moving around this place was like walking on a tightrope above death.

“These true inheritances are getting faster, have you found the target yet?” Tai Bai Yun Sheng shouted at Fang Yuan, his voice was trembling.

“Soon.” Fang Yuan answered.

He also felt the pressure intensifying, even though he was a flying master and had exceptional skill, the pressure now was tremendous.

Bam!

Just at this moment, there was a loud explosion.

“Oh no, quickly dodge!” In Fang Yuan’s mind, Mo Yao reminded.

Not far away, two true inheritances collided, from the intense sounds produced by them, several Gu worms were destroyed on the spot.

Tai Bai Yun Sheng had yet to feel pity at this, when his expression paled.

The collision changed the two true inheritances’ directions, one of them which was bright yellow flew towards them.

During the moment of crisis, Tai Bai Yun Sheng quickly activated all of his defensive Gu, setting up a hundred lines of defense around him and Fang Yuan.

The incoming true inheritance came with a strong force, destroying all of the defensive lines without any difficulty.

But during this period, Tai Bai Yun Sheng managed to earn some precious time for him and Fang Yuan to escape.

The shrill sound almost burst their eardrums, as the meteor-like true inheritance flew away with a blazing tail.

In the blink of an eye, it was more than ten thousand steps away from the two of them.

“My defense Gu were almost all destroyed!” Tai Bai Yun Sheng’s expression was pale: “Where there is life, there is hope, we should retreat.”

Tai Bai Yun Sheng had the intention of leaving already.

Fang Yuan frowned, he was very clear on Tai Bai Yun Sheng’s nature.

The older one was, the more cowardly they become.

Tai Bai Yun Sheng lacked the enthusiasm and spirit to take risks now, it was fine to ask him to heal others, but he was not an expert at putting himself into life and death situations.

Just as Fang Yuan was thinking of what to say to spur Tai Bai Yun Sheng’s fighting spirit, Mo Yao screamed in his mind: “Quickly look, just above you guys, we found it!”

Fang Yuan’s mind became sharp, he quickly looked up.

Indeed, a supreme true inheritance was flying slowly, the speed of the light lump was not fast, it was a stark contrast to the other ordinary true inheritances.

It was the size of an adult person, glowing with an orange and red light, giving off the feeling of warmth.

The surrounding true inheritances, when they got close to it, took detours and changed their directions.

Between Gu worms, there was absolute authority when they had a difference of two ranks.

The authority of a supreme true inheritance was not something ordinary or unparalleled true inheritances could offend.

“Go!” Fang Yuan was overjoyed, he shouted at Tai Bai Yun Sheng before flying over.

…

“Hold on! All of you hold on!” Ye Lui Sang’s eyes were red, he shouted loudly as he activated his Gu worms, emitting fierce flames.

The flames burned, quickly spreading.

The golden horn leopard group that was attacking them had good resistance to high temperature. But Ye Lui Sang’s flames used the power of an Immortal Gu, the golden horn leopard group quickly melted in the flames, turning into puddles of golden mud.

Seeing this, the surrounding Gu Masters cheered loudly.

“Lord Ye Lui Sang is incredible!”

“Thankfully lord is here, otherwise we would be dead meat.”

Ye Lui Sang breathed roughly, he was exasperated, helpless and angry.

“Damn it, what is going on? First, Tai Bai Yun Sheng became an immortal, next Imperial Court blessed land was facing destruction, ravaged by the once in ten years blizzard. Now even Eighty-Eight True Yang Building has come into the picture. I thought we could leave the trap, but the building’s rounds suddenly triggered! If I knew this, I would not have entered the last Imperial Court contest!”

Ye Lui Sang was scolding in his heart.

Not just him, Ma Ying Jie, Luo Bo Jun, Gu Guo Long and the other survivors were all kept in the dark, they did not know the truth.

These people were all northern plains Gu Masters who had entered Imperial Court blessed land.

After Imperial Court blessed land was torn with several holes, the once in ten years blizzard entered and wreaked havoc, killing almost all the mortals. Large numbers of low rank Gu Masters were injured or dead.

But later, Giant Sun's will's found some time, despite being busy, to save some of the blood related descendants.

Ye Lui Sang and the others were placed into the golden leopard round.

When Fang Yuan activated the final trump card and sent Giant Sun's will out of Eighty-Eight True Yang Building temporarily, without Giant Sun's will controlling the round, the large golden horn leopard group started attacking Ye Lui Sang and the others fiercely.

…

Outside Eighty-Eight True Yang Building.

The golden sand-like Giant Sun's will was covered the building like a thick layer of armor.

Meanwhile, the terrifying heavenly tribulation and earthly calamity had combined into one, fusing to connect heaven and earth, it was pure white like snow, like a giant cocoon, enveloping the entire Eighty-Eight True Yang Building and Giant Sun's will in it.

Outside the cocoon, wild winds blew, sharp blades made of ice were flying around everywhere. Inside the cocoon, lightning flashed and the snow poured like a storm.

Crack!

A snow-white lightning flash was formed abruptly, in the shape of a trident.

The strange lightning descended from heaven, stabbing into Giant Sun's will.

"Snow war tribulation lightning!"

Giant Sun's will howled, this attack destroyed a large portion of Giant Sun's will. There was a huge injury appearing on the golden sand-like armor.

This snow war tribulation lightning had amazing strength, it was extraordinary. Even Gu Immortals would be moved when they see it, because it was one of the publicly recognised top ten catastrophes!

Just this hit alone destroyed countless numbers of Giant Sun's thoughts.

But Giant Sun's will was left behind by an Immortal Venerable, its foundation was immensely thick. The will that was like a golden sand armor quickly repaired itself.

But other than the snow war tribulation lightning, there were also flying needle rain, explosive thunder hail, cruel wind scythe and others.

These did not exist earlier, they were formed from Tai Bai Yun Sheng's heavenly tribulation chaotic lightning balls and earthly calamity restraining smoke, fusing with the once in ten years blizzard.

Heavenly tribulations and earthly calamities continued to rain down carrying the intense rage of heaven and earth.

Giant Sun's will resisted them desperately, his losses were great.

"Soon, very soon! In just several minutes, I will be able to break free of this obstacle and enter Eighty-Eight True Yang Building again… You actually dared to expel me from the building, and keep me outside! I will tear your tendons and bones out, I will grind you to ashes, I will make you suffer a fate worse than death!" Giant Sun's will had already transcended anger when he thought of Fang Yuan.

…

Inside Eighty-Eight True Yang Building, there was still a small portion of Giant Sun's will.

Right now, he was controlling the treemen round, manipulating them in trying to push Giant Sun's inheritance back to the true inheritance secluded domain.

"Softly, don't be too rough, this is the only one in the world!" Giant Sun's will paid close attention to Hei Lou Lan.

Hei Lou Lan was extremely irritated, but he could only reduce his strength.

This was the one and only record of this luck path true inheritance that Giant Sun Immortal Venerable had left behind, once it was destroyed, it would be irrecoverable.

Precisely because of this consideration, Ma Hong Yun and Zhao Lian Yun who were inside the luck path true inheritance were able to survive.

The two of them were hugging each other closely, they had no choice but to watch the giant light ball that was the luck path true inheritance slowly pushed towards the round tunnel.

Even though they were famous and powerful characters in Fang Yuan's previous life, both Gu Immortals, right now, they were still too weak.

One was a newly advanced rank three Gu Master, while the other was a mortal who had not even started her cultivation journey.

"Tai Bai Yun Sheng and that Chang Shan Yin have gone missing." Success was at hand, as Hei Lou Lan could not control it anymore, saying.

Ever since Fang Yuan vanished, he had felt a vague sense of unease.

"Forget about them, in just a moment my main will is going to return. By then, even if two or three more Gu Immortals come, they cannot do anything. The important thing now is to get this luck path true inheritance into the true inheritance secluded domain! Most luck path Gu worms are formless and ethereal. Only that place can contain these Gu worms." Giant Sun's will's voice resounded in Hei Lou Lan's ears.

Hei Lou Lan nodded, shouting lowly as he mustered his strength.

At once, he unleashed fifty strength path phantoms.

These strength path phantoms had superior wisdom, they quickly rushed towards the luck path true inheritance. Enduring the blazing light, they pushed.

The luck path true inheritance was finally completely pushed into the true inheritance secluded domain by this force.

The tunnel closed.

"Success." Giant Sun's will breathed out a deep sigh.

Almost at the same time, the giant main will charged into the building.

Giant Sun's will which was controlling the treemen round fused with the main will, sharing their memories together.

"Fang Yuan, where are you?!" The main will screamed loudly with deep hatred.

"Greetings to old ancestor." Hei Lou Lan bowed deeply, showing great joy.

The main will was like a small sun, it shone brightly and was very domineering.

It could be said that Hei Lou Lan had helped Giant Sun's will in many ways.

Giant Sun's will was just about to praise him, but suddenly shouted in anger: " You are all courting death! You dare to refine my Eighty-Eight True Yang Building!"

Inside Giant Sun's secluded domain, Fang Yuan and Tai Bai Yun

Sheng stretched out their palms, pressing the true inheritance light lump forcefully, their expressions were pale and their bodies were shivering.

“Quickly! Just one last bit and we would succeed!!” In his mind, Mo Yao’s will shouted anxiously.

Chapter 624 - Shameless and devious scoundrel!

Chapter 624: Shameless and devious scoundrel!

Translator: ChibiGeneral **Editor:** ChibiGeneral

In true inheritance secluded domain, Fang Yuan and Tai Bai Yun Sheng were firmly holding a supreme true inheritance from its left and right.

Thanks to the guidance of Mo Yao's will along with Giant Sun's will being emptied out, Fang Yuan and Tai Bai Yun Sheng were able to get close to the true inheritance.

The most crucial point was there was no primeval energy in true inheritance secluded domain.

Wild Gu worms could absorb primeval energy directly from the surrounding air for their use. Without primeval energy, most Gu worms would lose their threat. This was also one of the reasons Giant Sun's will was trying to push Giant Sun's Luck Path True Inheritance back into true inheritance secluded domain.

The supreme true inheritance had been letting out a warm orange light before, but in Fang Yuan's and Tai Bai Yun Sheng's hands, it let out three colors.

Silver-white light occupied the bulk of it; caused by the refinement from Tai Bai Yun Sheng's Gu Immortal will. The second color was grey from Fang Yuan. The third was black light from Mo Yao.

Silver-white light was the most abundant, grey came second and black was in the least amount.

Eighty-Eight True Yang Building was a rank eight Immortal Gu House, formed from extremely large numbers of Gu worms. Fang Yuan's group had to use all their strength to quickly refine Eighty-Eight True Yang Building.

It could be said, whether it was Fang Yuan or Tai Bai Yun Sheng, they had both spent all their strength.

"Just a little left, just a little more effort!" Tai Bai Yun Sheng anxiously yelled.

The main portion of Giant Sun's will had returned to True Yang Building, the three had heard its furious roar.

The round light lump with the size of an adult had only a final trace of orange left on it. As long as this light was eroded, Eighty-Eight True Yang Building would completely change its master and the situation would greatly incline towards Fang Yuan's side!

However, Giant Sun's will furiously made his move at this final moment.

The will left by an Immortal Venerable could not be looked down upon!

And this will was the original master of Eighty-Eight True Yang Building! Thus, in just an instant, the final trace of orange was replaced by dazzling golden light.

Fang Yuan's group immediately felt gloomy at this color.

This color meant that Giant Sun's will had refined the final remaining trace of the supreme true inheritance's will!

"Juniors, you are really audacious, you dare to go after my Eighty-Eight True Yang Building! I will make you pay the most terrible price in the world!" From within the light lump, a roar from Giant Sun's will sounded out.

“Quick! There is only a meagre trace of Giant Sun’s will, we need to move together and destroy it, spare no energy!!” Fang Yuan shouted.

Tai Bai Yun Sheng’s forehead was filled with sweat; he did not need any reminder to be aware of the utmost importance of this matter.

The two gave a deep shout and moved together, mobilising their wills to form a huge army of thoughts that unfolded a fierce assault towards the last trace of will.

Giant Sun’s will’s roar stopped abruptly as he poured all his energy in defending against the assault.

Its main body was enormous, but it had only refined a trace of the true inheritance and controlled the smallest portion. Even if it possessed majestic strength that far surpassed the allied thoughts army of Fang Yuan and Tai Bai Yun Sheng, it did not have the room to display its might, and the power it could let out was an insignificant fraction compared to that of the main body.

The newborn wild will that had been born just recently in the supreme true inheritance had already been thoroughly extinguished.

The tranquil true inheritance light lump became an unconventional battlefield that pitted Fang Yuan, Tai Bai Yun Sheng and Giant Sun’s will.

Contest between wills involved profound techniques and skill.

But be it Fang Yuan or Tai Bai Yun Sheng, they were not truly soul path Gu Masters. Fang Yuan could be considered to have started it just recently while Tai Bai Yun Sheng was truly a novice, relying on nothing more than the instinct to move his thoughts.

As for Giant Sun Immortal Venerable, his soul path attainment was definitely out of this world. Unfortunately, the one confronting the enemy was only the special will he had left behind.

Thus, in this battle of wills, there were no fancy skills; it was only a head-on collision, a bloody fight.

After a dozen or so breaths later, Fang Yuan and Tai Bai Yun Sheng's wills suffered disastrous losses.

The quantity of Giant Sun's will might be small, not even filling one percent of the true inheritance light lump, but it stood lofty and majestic.

The main Giant Sun's will was vast, its power flowed without pause. Every bit of loss it suffered was immediately replenished.

By contrast, Fang Yuan's group might have occupied the advantage of vast quantity, but they did not have high battle strength and were soon lacking the fuel to continue.

"Damn it! We can't expel Giant Sun's will, the situation has gone south!" Tai Bai Yun Sheng was deathly pale, the combined attack earlier was their most powerful method, but it showed no effect.

Giant Sun's will was laughing heartily.

Fang Yuan and the group lacked the energy to continue the attack, and after Giant Sun's will had resisted their most intense attacks, he began to expand his territory.

In the true inheritance light lump, the part occupied by golden light began to expand bit by bit.

Fang Yuan and Tai Bai Yun Sheng looked on with wide eyes; they staked all their energy, but were only able to slow down Giant Sun's will's speed of expansion.

Giant Sun's will was truly terrifying.

Even when it was schemed against repeatedly before, and most of its will was outside, suffering the deathly attacks from the heavenly tribulation and earthly calamity, the remaining part was still a tall, mountain-like barrier to Fang Yuan's group.

This enormous difference in their strengths was like a gulf between heaven and earth.

"We are going to lose!" Tai Bai Yun Sheng's tone was grave, "This is just a will Giant Sun Immortal Venerable left behind, I really can't imagine how powerful he was when alive!"

"Damn it, only one last step was remaining!!" Mo Yao's will grabbed her head, her voice mixed with a tone of sobbing and extreme regret, "If only we were a step earlier, as long as we had three breaths of time, we would have succeeded."

"Never mind!" Fang Yuan gnashed his teeth, his expression heavy.

He had not given up yet, speaking with ruthless intent: "In this situation, we are unable to get our hands on Eighty-Eight True Yang Building. We cannot exterminate Giant Sun's will, sooner or later it will swallow the space we occupy. But we have yet to lose! Don't forget, there are still the heavenly tribulations and earthly calamities outside True Yang Building!"

"Are you saying?" Tai Bai Yun Sheng's expression changed, blurting out.

His nature was benevolent and passive, but he was not stupid, and immediately realized when Fang Yuan mentioned it.

"That's right, if I can't obtain it, no one else should think about getting it. Since I can't get Eighty-Eight True Yang Building, I would rather destroy it!" A ruthless glint shone in Fang Yuan's eyes, his tone was so cold it could make the listener shiver.

"But this is Eighty-Eight True Yang Building…" Mo Yao resounded, but her tone was wavering.

She had no choice but to accept this was the best method to escape their predicament.

Giant Sun's will finally stormed into true inheritance secluded domain.

"You two tiny ants, you actually forced me to this extent! You scheming scoundrels, your good days have come to an end, your sins are so great that even death would be letting you off cheaply. I will give you a punishment worse than death! I will peel off your skin, pull your tendons and let blood flow! I will burn your souls in flames and let you taste incomparable suffering for all eternity!”

The golden will roared like a furious sea, and whipped up huge waves with it!

Schemed upon time and time again by Fang Yuan, suffering the unrestrained bombardment of the calamities; Giant Sun’s will’s fury had already reached the summit, swearing to kill Fang Yuan, the main culprit.

Compared to the golden wave, Fang Yuan and Tai Bai Yun Sheng were as small as ants.

The flying true inheritances were swallowed by the golden wave, resulting in splashes but they stopped moving soon after.

Giant Sun’s will had once again taken control of these inheritances.

However, most of the Gu worms required primeval essence or immortal essence to be activated, and just Giant Sun’s will could not activate them.

At present, most of Eighty-Eight True Yang Building was controlled by Fang Yuan’s group.

As long as they did not let Giant Sun’s will obtain Giant Sun’s immortal essence, these Gu worms could not be used.

“Start.” Fang Yuan gave a soft shout, his gaze flashing with sharp intent.

Giant Sun’s will’s powerful approach also dispelled Tai Bai Yun Sheng’s hesitation. He was already completely tied to Fang Yuan’s side and could only choose to forcibly advance together.

Eighty-Eight True Yang Building originally shone with an aurora, but with the actions of Fang Yuan’s group, the aurora rapidly dimmed until it dissipated.

The furious golden sea suddenly stilled.

The next moment, Giant Sun’s will’s furious roar reverberated:

"Bastards! You dared to make Eighty-Eight True Yang Building stop its operation, you, you damned scoundrels, you damned devious, shameless scoundrels!"

Eighty-Eight True Yang Building might have had wild will before, but it had just been born, thus it had still automatically operated as normal.

However, Fang Yuan's group had refined most of Eighty-Eight True Yang Building and they forcibly made it stop its operations.

Even the strongest fort would find it hard to resist an internal collapse.

Although Eighty-Eight True Yang Building had not collapsed, its operations had stopped and just its shell had no might.

Without any might, how could it resist the terrifying heavenly tribulations and earthly calamities?

Fang Yuan's group could neglect Eighty-Eight True Yang Building, in any case, they would not be able to obtain Eighty-Eight True Yang Building if this situation progressed.

However, Giant Sun's will could not neglect it.

This was an inheritance from Giant Sun Immortal Venerable, left behind for the benefits of his descendants; it must not be destroyed.

Giant Sun's will was left behind by the Immortal Venerable to manage Eighty-Eight True Yang Building, how could it just watch as the True Yang Building was destroyed?

"Just you wait!" The golden sea of will swiftly retreated.

The vast will of Giant Sun surged out of the tower like water, forming a golden armor as a defense around it.

Giant Sun's will had no choice but to suffer the ravaging bombardment of the heavenly tribulations and earthly calamities to protect the weak Eighty-Eight True Yang Building. However, it still left behind a portion of will which surged towards Fang Yuan and Tai

Bai Yun Sheng like a furious river.

Fang Yuan, however, let out a breath of turbid air.

Compared to the majestic furious sea from before, this will might be strong but they could deal with it, albeit with difficulty.

Fang Yuan reluctantly took out a Gu from his pocket.

It was flying bear phantom Gu.

Fang Yuan's will moved and threw the Gu casually; the flying bear phantom Gu flew forward, blossoming with beautiful white light.

The white light dissipated and a giant flying bear protected Fang Yuan and Tai Bai Yun Sheng, obstructing the river of will.

"Damn it, flying bear phantom Gu!" Giant Sun's will cursed.

Flying bear phantom Gu was rather special; it was an Immortal Gu but it could be activated with just one's mind, without requiring immortal essence.

Refining it was difficult and feeding it was not easy, requiring the fresh flesh of the desolate beast flying bear.

Fortunately, Fang Yuan possessed Hu Immortal blessed land and could feed this Immortal Gu with the help of treasure yellow heaven.

Even so, he had to pay an enormous price.

Train an army for a thousand days to use it in one fight. Now, it was time for flying bear phantom Gu to show its worth!

Chapter 625 - Remaining trump card

Chapter 625: Remaining trump card

Translator: ChibiGeneral **Editor:** ChibiGeneral

The flying bear phantom's battle strength, almost not at the level of the desolate beast flying bear, it had at least half immortal battle strength. Most importantly, it might look bulky and slow, but it was very agile.

The river of Giant Sun's will swirled to its left and right, attempting to get past the flying bear phantom, to directly attack Fang Yuan and the others, obtaining victory.

But he was still obstructed by the flying bear phantom.

The flying bear phantom, even without Fang Yuan's manipulation, had some intelligence and was quite crafty, it could battle entirely alone.

Swoosh.

The fat and large bear paw slammed down, carrying the sound of the wind with it.

Bam!

The golden sand-like Giant Sun's will was smashed into bits by the bear paw, turning into golden dust as it dissolved in the air.

But this was just a subsidiary.

The golden river that was Giant Sun's will was like a huge python coiling around the flying bear phantom tightly.

At the same time, countless subsidiaries were created, attacking many areas of the flying bear phantom.

The two were fighting closely, at a stalemate, neither could do anything to the other party.

Giant Sun's will could fuse and split at will, it had the freedom to change forms, flying bear phantom could not take it down. But Giant Sun's will was tangled by the flying bear phantom and could not deal with the most crucial person — Fang Yuan.

Giant Sun's will had inherited a portion of the Immortal Venerable's wisdom, it knew from the situation after some thinking: To kill Fang Yuan, it needed to use at least half of the river's will.

But the remaining half was not the flying bear phantom's match.

If he attacked forcefully, it was like he was handing the initiative over.

If Fang Yuan retreated with the true inheritance light lump and dragged for time, after flying bear phantom destroys the Giant Sun's will that was left fighting it, the situation would become dangerous.

He had already suffered a loss from splitting up earlier when he drew his will out of the true inheritance secluded domain.

At that time, Fang Yuan had used the glass owner token to challenge a small portion of Giant Sun's will resolutely. In the end, both suffered injuries and eventually led to Giant Sun's will taking a huge risk and paying a huge price, but only managing to regain control of the treemen round.

Fang Yuan's expression was grim.

He sustained the true inheritance light lump, slowing Giant Sun's will's expansion progress while observing the situation and current battle state.

“If Giant Sun’s will would split up again, that would be great. Unfortunately, it will never make the same mistake twice.” Fang Yuan observed for a while, seeing Giant Sun’s will fighting the flying bear phantom so intensely, but yet it did not think of splitting up, Fang Yuan sighed in his heart.

The opponent was not making a mistake, thus Fang Yuan’s predicament was getting more dangerous.

Right now, most of Giant Sun’s will was outside the building enduring the heavenly tribulation and earthly calamity, to protect Eighty-Eight True Yang Building, only two portions were left now.

A portion was fighting with flying bear phantom. The other was competing with Fang Yuan and Tai Bai Yun Sheng, trying to refine the Eighty-Eight True Yang Building.

The supreme true inheritance that represented Eighty-Eight True Yang Building’s ownership only had a trace of golden color originally, but now this trace had grown to palm size.

Fang Yuan and Tai Bai Yun Sheng had already squeezed out all of their potentials, they were shivering and their expressions were pale, they were sweating profusely but could not resist the expansion of Giant Sun’s will’s refinement.

Giant Sun’s will was simply too great.

Tai Bai Yun Sheng felt like he was facing a valley and mountain during the resistance, he was helpless and felt hopelessness.

Even Fang Yuan, a demonic head with an iron will, felt a strong sense of dejection growing in his heart at this point.

If he allowed the situation to develop like this, one day, when Giant Sun’s will successfully expands, he would regain control of Eighty-Eight True Yang Building. By then, Fang Yuan and the others would be dead meat.

He had to do something!

Despite so, Fang Yuan had already been too deeply involved in this supreme true inheritance, he could not do anything else.

His greatest battle strength now was the flying bear phantom Gu, but it was already in use.

Tai Bai Yun Sheng was a temporary alliance mate that he obtained through swindling, but similar to Fang Yuan, he was already here engaging with Giant Sun's will, he could not do anything else.

It could be said that other than the Spring Autumn Cicada, Fang Yuan had used all of his trump cards.

"Don't tell me, I really have to use the Spring Autumn Cicada this time?" A thought flashed in Fang Yuan's mind.

But immediately after, he rejected it.

"Spring Autumn Cicada is not an Immortal Gu that has a guaranteed success rate, I could fail. The black death bad luck on me right now is so thick. Once I self-detonate, my remaining consciousness would enter the Spring Autumn Cicada and travel upstream in the river of time, there is a high chance of meeting my end! My chances are probably lower than one out of ten."

How could he resolve this situation?

"Sigh… Fang Yuan, we have no hope of success, let's retreat! Using Fixed Immortal Travel, we can return to your blessed land." Tai Bai Yun Sheng suggested.

Should he really retreat?

At this point, if he gave in, Giant Sun's will would immediately regain control of Eighty-Eight True Yang Building. By then, through his obstruction, would Fixed Immortal Travel Gu still activate successfully?

Even if he succeeded, would this satisfy him?

Fang Yuan was indignant!

He had planned this for so long, he schemed so hard, victory was almost in sight, an immense fortune and benefit was right before him, he was just one step away!

Just one tiny step!!

“I am really indignant… Wait!” Fang Yuan’s expression changed, he thought of Ma Hong Yun.

“I have no trump cards, but I can make use of this chess piece.” Inspiration flashed in his mind as Fang Yuan had no more hesitations, he flapped his wings and flew up with the supreme true inheritance.

“Where are we going?” Tai Bai Yun Sheng asked quickly.

“Just follow me.” Fang Yuan replied curtly.

Fixed immortal travel Gu was in his possession and was refined by him, even if Tai Bai Yun Sheng wanted to retreat, without Fang Yuan’s cooperation, he could not escape.

“Don’t think of running away!” The river-like Giant Sun’s will growled, splitting up and forming back into one entity again, passing the flying bear phantom and charging towards Fang Yuan and Tai Bai Yun Sheng.

The flying bear phantom reacted quickly, it followed after them.

Fang Yuan snickered, changing his direction. After moving in many directions, flying bear phantom returned to Fang Yuan’s side.

Fang Yuan fled while battling, as the two sides fought and stopped many times. Sometimes, the river-like Giant Sun’s will was in front, sometimes, Fang Yuan took detours, using the flying bear phantom to fight back.

The road was filled with shocks but no real danger.

Although there were true inheritances of all sizes flying around chaotically, because of the supreme true inheritance’s aura, none got close.

Using flying bear phantom as a shield, the river-like Giant Sun's will could not stop Fang Yuan's movement, he could only slow him down.

But Fang Yuan's circumstances were the same.

He and Tai Bai Yun Sheng could not do anything to the portion of Giant Sun's will that was refining the Eighty-Eight True Yang Building. In the contest of will, Fang Yuan and Tai Bai Yun Sheng were heavily suppressed, the golden light was expanding steadily, the two were bound to lose eventually.

"So you are here!" When Fang Yuan saw the luck path true inheritance in his vision, he laughed loudly.

"What are you trying to do?" The river-like Giant Sun's will felt something amiss, he screamed out in panic.

Tai Bai Yun Sheng looked at Fang Yuan with similar confusion.

Fang Yuan laughed heartily: "Tell me, what will happen when two supreme true inheritances collide?"

The color on Tai Bai Yun Sheng's face changed, Fang Yuan's insanity made his heart jump.

But thinking about it, he realized: This was an amazing and brilliant plan!

He and Fang Yuan were unable to turn back now. The true inheritance light lump in their hands were extremely troublesome, if they let go, they would die, but if they did not, they would die sooner or later.

But if the two supreme true inheritances collided, the results would be unthinkable.

The consequences were so severe even Giant Sun's will lost his composure!

"You, don't come over!" Ma Hong Yun shouted.

Zhao Lian Yun was tightly held in his arms.

But on this stage, the two of them were simply the weakest. If not for their extreme luck, they would have been grinded to dust long ago during the intense battles.

Under the influence of luck and coincidences, the luck path supreme true inheritance became their guardian angel, but it had been pushed into the true inheritance secluded domain.

After entering the true inheritance secluded domain, the threat of the luck path true inheritance hit rock bottom, it was almost a guaranteed success for Giant Sun's will to deal with the otherworldly demon.

If not for Giant Sun's will being careful about protecting the luck path true inheritance, and was forced by Fang Yuan thus he could not leave and had to deal with him, he would have dealt with Ma and Zhao long ago.

Ma Hong Yun was safe and sound here, in a way, it was all thanks to Fang Yuan and Tai Bai Yun Sheng.

But now, Fang Yuan was dragging the supreme true inheritance and rushed here on his own.

"He, what is he trying to do?!" Zhao Lian Yun's body was shuddering, through the translucent barrier, she was frantic and could see Fang Yuan's cold smile.

"No, you cannot do this! Quickly stop, stop it!!" The river-like Giant Sun's will was shouting insanely from behind him.

He was anxious!

Once these two supreme true inheritances collide, they would definitely suffer great damages together.

By that time, not only would the last remaining luck path true inheritance get damaged or even destroyed, Eighty-Eight True Yang Building would even suffer immense damage that would be hard to imagine.

The river-like Giant Sun's will underwent intense thoughts, all of the thoughts that formed its will started self-detonating.

The golden sand-like will in the shape of a river burst out with an eye piercing light, his battle strength surged by at least half.

Flying bear phantom growled angrily, but was suppressed thoroughly.

Fang Yuan's brows were tightly locked, the situation was very dangerous, he had to put a portion of his concentration on the flying bear phantom, manipulating it to battle personally.

Five hundred years of battle experience was nothing to be scoffed at!

Under her manipulation, flying bear phantom moved more agilely, it ignored the injuries on it and blocked the river-like Giant Sun's will completely in the end.

"Fang Yuan, you are courting death! You want to deal with Ma Hong Yun, but do not forget the overwhelming power of fortune rivaling heaven Gu that he has! As long as you carry ill intent towards him, your luck will decrease drastically, even if you have half immortal battle strength, and is able to resist it temporarily, how long can you last?" The river-like Giant Sun's will saw that he could not break through and started shouting.

"Fang Yuan, Giant Sun's will is absolutely right, you need to be very careful!" Mo Yao's will also said.

Fang Yuan snorted, without a bit of hesitation in his heart.

Seeking fortune amidst danger, to Fang Yuan, only by emerging victorious amidst chaos could he have a chance of survival.

Seeing that the two supreme true inheritances were less than a thousand steps away from each other, at this moment, there were ripples in the air, as dozens of figures were transported into the true inheritance secluded domain.

They appeared ahead of Fang Yuan's flying route, they were almost all familiar faces.

Ye Lui Sang, Gu Guo Long, Bian Si Xuan…

The leader was a brawny and muscular man, with hammer-like fists, he laughed ruthlessly towards Fang Yuan: “So you are called Fang Yuan! Old Ancestor Giant Sun has already exposed both of your crimes to the outside world. Your schemes have been exposed, it is all over, your life will be over here!”

Who else was it but Hei Lou Lan?

Tai Bai Yun Sheng’s expression changed abruptly, he could not free himself now as he was using all his strength to resist Giant Sun’s will who was refining the supreme true inheritance.

The appearance of Hei Lou Lan and the others was simply too devastating.

At the final juncture, this was akin to a fatal blow!

“Hahaha!” The river-like Giant Sun’s will laughed loudly behind them: “You are all just in time!”

He praised Hei Lou Lan and the others fervently.

This was definitely the act of the main will who took some time to inform and mobilize this bunch of reinforcements.

If this was during normal times, Hei Lou Lan and the others contained battle strength that was insignificant in Giant Sun’s will’s eyes. But at this time and place, they became a life-saving chess piece, they were the best bet in toppling the balance between the two sides!

“Fang Yuan, Tai Bai Yun Sheng, you are all dead meat!” The river-like Giant Sun’s will growled, slowing down and attacking.

The initiative was grasped by Giant Sun’s will’s side once again.

“We lost!” Tai Bai Yun Sheng heaved a long sigh, turning over to look at Fang Yuan, mustering his spirit: “Junior brother, enter my aperture, we will retreat! I have immortal essence, and you have Fixed Immortal Travel, now that Giant Sun’s will is being troubled by the heavenly tribulation and earthly calamity, we have to retreat now before it is too late!”

Fang Yuan however, shook his head: “It is already too late! Once we let go, Eighty-Eight True Yang Building will fall into the control of Giant Sun’s will. This building has the ability to suck in Immortal Gu, and the range extends to the whole of northern plains, even if we use Fixed Immortal Travel, there is a high chance of failing in the end.”

“Of course I know this.” Tai Bai Yun Sheng’s tone was anxious: “But we can only take a risk, in order to fight for that slim chance of success. If we drag any longer and lose this last opportunity, we would not even have this slim chance of success left!”

Fang Yuan’s gaze was flickering in hesitation, he looked at the supreme true inheritance in his hand once again.

In the true inheritance light lump, the golden dazzling light had occupied a third of the light lump’s capacity, and was expanding at an increasing speed.

Fang Yuan breathed in deeply: “I did not think that we will still get to this point. Sigh, if not for the circumstances, I would not want to do this!”

“Junior brother, you still have a method left?” Tai Bai Yun Sheng heard this and was shocked, overjoyed, and suspicious.

Chapter 626 - Immortal Ascension!

Chapter 626: Immortal Ascension!

Translator: ChibiGeneral **Editor:** ChibiGeneral

At this moment.

In true inheritance secluded domain.

Ma Hong Yun and Zhao Lian Yun, who were mutually dependent on each other and under luck path supreme true inheritance's protection, looked with panicked expressions.

Fang Yuan and Tai Bai Yun Sheng were in control of the supreme true inheritance that represented Eighty-Eight True Yang Building.

The two sides were cut off by Hei Lou Lan and the others, forming a firm defensive line.

Behind Fang Yuan and Tai Bai Yun Sheng, the river-like Giant Sun's will and the flying bear phantom were fighting.

Going even farther outside, the main Giant Sun's will covered Eighty-Eight True Yang Building, forcibly resisting the terrifying heavenly tribulation and earthly calamity, protecting the inheritance treasure of Giant Sun.

Hearing Fang Yuan still had a method left, Tai Bai Yun Sheng was naturally overjoyed and immediately urged: "Junior brother! What method do you have left, quickly use it."

Fang Yuan gave a bitter smile: “Senior brother, honestly, because of this desperate situation, I have no other ways but to use this method. I hope you will ensure my safety at the crucial moment.”

“That goes without saying, we are fellow disciples after all!” Tai Bai Yun Sheng immediately guaranteed.

Fang Yuan nodded and instructed: “Senior brother, Giant Sun’s will originated from Giant Sun Immortal Venerable, you must never underestimate it. Next, if it tries to sow discord between us, I won’t be able to talk and defend myself, you must never believe it!”

Tai Bai Yun Sheng muttered: “Junior brother, we are of one family, you do not need to say anything and can rest assured. But from your tone, it seems you have a lot of concern and reservation towards using this method, if you are not too sure, we can still use Fixed Immortal Travel and leave immediately!”

Fang Yuan smiled lightly, revealing a confident expression: “Haha! Senior brother, rest assured, this method has unparalleled might, even the main Giant Sun’s will cannot leave unscathed. Just watch.”

The two had not used any Gu worms to conceal their conversation. The experts present could not help but reveal shock and doubt.

‘A method that can harm the main Giant Sun’s will, what exactly is it?’ Hei Lou Lan frowned, he might looked crude but was actually astute, and did not carelessly move forward to fight.

Under everyone’s gaze, Fang Yuan closed his eyes, slowly withdrawing his palms that were tightly grabbing the supreme true inheritance.

This action immediately increased the pressure on Tai Bai Yun Sheng by several times!

Tai Bai Yun Sheng was shocked, but fortunately Fang Yuan had reminded him before, and he was able to quickly exert all his strength to resist the fierce encroachment of Giant Sun’s will.

“Junior brother, use your method quickly, I cannot hold on for long!” Tai Bai Yun Sheng shouted, beads of sweat dripping down his face.

In just a few short breaths of time, the golden light on the supreme true inheritance light lump wantonly expanded, becoming the size of a washing basin!

The speed was quick and violent!

“Let me see what deceit you are pulling!” Looking at this state, Hei Lou Lan and the group did not dare to rashly charge ahead at this juncture.

However, they had waited for a dozen breaths but still did not see any terrifying offense from Fang Yuan.

This battlefield had sunk into a strange silence.

The two sides did not speak, there were only the swoosh sounds of the flying true inheritances and the occasional collisions of the true inheritances!

“Damn it, we were tricked!” Ye Lui Sang was furious, “This thief that disguised as Chang Shan Yin is truly crafty. He is already at a dead end and has exhausted all his methods, but is still pretending that he has an unfathomable and profound trump card!”

“Everyone let’s go, kill this audacious conspirator!” Gu tribe’s leader Gu Guo Long shouted from the side.

The leader, Hei Lou Lan, however, did not move.

Not only was he not moving, his expression even turned grave.

“Could it be…” Tai Bai Yun Sheng looked at Fang Yuan with bewilderment, he was the nearest and thus felt a formless heavenly power suddenly forming around Fang Yuan, gently lifting him up.

Tai Bai Yun Sheng had an extremely deep impression of this heavenly power, after all he had personally experienced it not long ago.

“Junior brother, you are shattering your aperture and ascending to immortal at this moment?”

Tai Bai Yun Sheng’s words startled everyone present.

The journey of a Gu Master crossing the mortal realm and ascending to an immortal was extremely dangerous and risky. To think Fang Yuan actually recklessly shattered his aperture at this dangerous moment, charging towards Gu Immortal realm.

“Does this guy have a screw loose?”

“He can’t even understand his situation, is he stupid?”

“Did he see no chance of success and used this unusual method to die?”

For a moment, Ye Lui Sang and the others were filled with heavy doubts.

But the next moment, Giant Sun’s will’s furious roar reverberated over the whole of the true inheritance secluded domain: “Fang Yuan! I curse you to have a terrible death!! You actually shattered your aperture at this moment to attract the heavenly tribulation and earthly calamity!! You are actually so bent on destroying True Yang Building. Everyone, kill this sinner quickly, the heavenly tribulation and earthly calamity are already showing changes!”

This roar was different from before, besides the overflowing fury, Giant Sun’s will’s voice now also contained panic!

The fusion of so many heavenly tribulations and earthly calamities would not be a simple addition of one plus one equals two.

The once in ten years blizzard wreaked havoc over the whole of northern plains; its range might be large but its might was not great. Even mortals could rely on some special places to forcibly resist it.

The chaotic lightning balls and restraining smoke, left from Tai Bai Yun Sheng’s ascension, were mostly targeting wills and were only troublesome for Giant Sun’s will.

But these two merged together and formed snow war tribulation lightning!

This was one of the ten great catastrophes!

This tribulation lightning had terrifying power, and Giant Sun's will had to pay a large price to resist it.

Now, if a new heavenly tribulation and earthly calamity was added on top of snow war tribulation lightning and if these two heavenly tribulations and earthly calamities merged together, the resulting change would have unparalleled power!

Even Giant Sun's will felt fear!! It was after all only a special will left behind by the Immortal Venerable, even if it could kill Gu Immortals, but under the might of heaven, it paled in comparison.

"Quick, old ancestor has spoken, we need to attack together!"

"Follow me, kill these two!"

"Heroes of northern plains, crush these two outsiders to meat-paste."

Hei Lou Lan and the rest were startled awake and started acting according to Giant Sun's will's command, fiercely charging forward.

Before they even neared, their respective Gu worms were already activated, forming a majestic offense. Strength path phantoms, malevolent fiery snakes, terrifying sword lights, pure white snow… all kinds of attacks converged together, seemingly forming beautiful fireworks.

The fatal crisis was approaching him, but Tai Bai Yun Sheng did not spare even a trace of his thoughts to it, and used all his strength to resist the encroachment of the portion of Giant Sun's will in the true inheritance light lump.

Fang Yuan opened his eyes, maneuvering the flying bear phantom as well as activating his killer move.

Six arm heavenly zombie king!

He turned into an eight armed monster, his aura erupted and his will to fight flared.

The flying bear phantom gave a miserable howl before using its gigantic body as a meat shield, blocking the attacks.

The river-like Giant Sun's will was free to move, immediately attacking Fang Yuan.

Fang Yuan protected Tai Bai Yun Sheng, and welcomed the river-like Giant Sun's will without evading.

Boom!

The two sides fiercely collided, the resulting explosion let out brilliant golden sparks everywhere.

Large numbers of special will shattered and dissipated.

Fang Yuan also suffered heavy injuries; six of his arms broke apart, his chest caved in, his right lower leg was completely gone and one eye was blinded.

"Fang Yuan, your death is certain this time! You dared to ascend to Gu Immortal at this moment, who do you think you are? A reincarnated Immortal Venerable? Hmph, since you are seeking your own death, I shall help you with it."

The river-like Giant Sun's will formed a python shape that coiled around into a circle, accumulating its power, its whole body radiating with dazzling golden radiance.

Fang Yuan snorted, not replying. The terrifying injuries on his body rapidly recovered at a visible speed.

He had transformed into a heavenly zombie; the feeling of pain was completely gone and death energy replaced his life energy. His recovery speed was thus greatly amplified, having no need for any rank five healing Gu.

Boom, boom, boom…

The intense collisions erupted repeatedly; Fang Yuan and the river-like Giant Sun's will carried out an intense battle.

"Thief, come down now!" Giant Sun's will suddenly transformed into a giant hand and fiercely clawed at Fang Yuan's back.

With a tearing sound.

The eagle wings on Fang Yuan's back were directly torn apart, forming two enormous wounds that revealed his bones.

Eagle rise Gu perished!

Fang Yuan was heavily injured, but he did not budge a bit, instead he fiercely twisted his waist.

Crack… He moved with such strength that he actually broke apart his waist!

Disregarding the injuries on his body, Fang Yuan swung his hammer like fist straight into Giant Sun's will.

Boom…..

In an instant, fierce wind surged and fist shadows flew with unstoppable momentum like a dragon overturning the river, like a fierce tiger leaving the mountain.

The giant hand that Giant Sun's will had condensed into had no time to split apart before it was struck by this vicious strike. The massive will was bombarded by the attack and shattered, suffering huge damage.

Amidst the drizzle of golden sand-like will, Fang Yuan took the chance to pull back like a bolt of lightning.

Giant Sun's will had been waiting for a counterattack, but could only roar in fury as Fang Yuan was already far away.

Fang Yuan was not a battle maniac and was as cool-headed as ice, never letting himself be overtaken by the heat of the fight. As the injuries on him rapidly healed, Fang Yuan gasped for breath; the pressure on him was as heavy as a mountain in this battle with Giant Sun's will.

He had already used all his strength but there was no doubt this was the strongest opponent he had faced since his rebirth!

The two organized themselves again and after a few breaths of time, they charged at each other again.

“So what if you are an Immortal Gu? Go and die!” On the other battlefield, Hei Lou Lan’s violent shout could be heard.

Tens of strength path phantoms suddenly retreated and entered Hei Lou Lan’s body.

Hei Lou Lan’s body merged with the strength path phantoms, transforming into a giant phantom within moments.

The giant reached a height of over a hundred feet. The muscles on it were bulging and vivid, and its appearance was exactly similar to Hei Lou Lan.

“Feel my killer move!!” The giant strength path phantom’s voice rumbled like thunder; it headed straight towards the flying bear phantom and smashed its right fist at the flying bear phantom’s skull.

The flying bear phantom was being held under control by Ye Lui Sang and others; caught unprepared, it was sent rolling down.

Smash.

The giant strength path phantom showered the flying bear phantom with punches; the flying bear phantom was heavily injured after suffering the continuous attacks, and angrily counterattacked.

However, the giant strength path phantom was nimble and displayed a master level attainment in close combat. After a while, the flying bear phantom’s body was beaten into such a mess that its original appearance was indistinct.

“The final strike!” The giant strength path phantom raised its right leg and smashed down like an axe.

Boom!

A huge rumbling sound echoed, the flying bear phantom could no longer endure and its stout giant body disappeared, turning back into Gu form and flying away shakily.

The giant strength path phantom grabbed the Immortal Gu and smiled malevolently towards Fang Yuan.

“Hei Lou Lan’s true strength has reached such a level!”

“Too terrifying, he can almost destroy an Immortal Gu!”

“My loss in this Imperial Court contest was not unjust…”

Ye Lui Sang and others looked on with wide open eyes.

Hei Lou Lan’s battle strength was absolutely not inferior to Fang Yuan’s, and was even higher in certain aspects because of his Great Strength True Martial Physique.

Flying Bear Phantom was an Immortal Gu but without any Gu worms as assistance and Fang Yuan not maneuvering it personally, it was normal for it to be captured by Hei Lou Lan.

The flying bear phantom was destroyed, while Tai Bai Yun Sheng was using all his strength to contend with Giant Sun’s will for the supreme true inheritance. As such, Fang Yuan who was in an intense battle with the river-like Giant Sun’s will was alone and facing danger.

“You have a good head on your shoulders, I will take it as my victory trophy and preserve it.” Hei Lou Lan’s voice came out from the giant strength path phantom.

It slowly flew towards Fang Yuan.

“Fang Yuan, give up resisting. You no longer have a way out!” The river-like Giant Sun’s will spoke.

Although it had fought with Fang Yuan only for a short time, its size was already less than half of before.

One could say Fang Yuan, being able to force the Immortal Venerable’s will to this state, had tremendous battle strength which was not inferior to Hei Lou Lan’s.

Unfortunately, he was shrouded in a black coffin luck aura and his circumstances were extremely bad. Even if he was greatly resourceful and extremely brave, it seemed that he would be unable to reverse this situation!

“Hahaha…” Fang Yuan threw his head back and laughed loudly!

His laughter resounded through the battlefield, displaying a matchless bravery!

“Giant Sun’s will, you want to break my spirit by every possible means, but my heart is like iron and my will is like steel! Our battle has just begun.”

The river-like Giant Sun’s will did not retort, instead falling into silence.

The giant strength path phantom Hei Lou Lan had transformed into also stopped its movements.

Heaven and earth qi manifested around Fang Yuan.

Gu Masters shattered their aperture to ascend to Gu Immortal realm, which would attract heaven and earth qi. Fang Yuan was inside Eighty-Eight True Yang Building which delayed this for a moment.

That short moment was the most dangerous and most difficult time, but Fang Yuan was able to hold on by exerting all of his methods.

In the vicinity of heaven and earth qi, ordinary Gu worms could not be used and their activation would cause a backlash. In severe cases, even Immortal Gu could also perish.

Hei Lou Lan was only using mortal Gu, and had no choice but to stop.

The process of Fang Yuan’s immortal ascension had officially begun.

Chapter 627

Chapter 627: Top Ten Catastrophes, Chaotic Branching Teeth

Clear and glorious heaven qi, golden earth qi, more and more of them surrounded Fang Yuan.

Hei Lou Lan and the others retreated.

The river-like Giant Sun's will growled endlessly, but did not dare to charge in abruptly.

After the intense battle with Fang Yuan, its mass was reduced by more than half.

It was anxious internally: "Damn it! Unless the main will sends reinforcements over, I alone cannot take down this Fang Yuan."

The battlefield turned silent temporarily.

Fang Yuan saw that the situation had progressed just as he expected, breathing out a huge sigh of relief.

In the contest for Eighty-Eight True Yang Building, after several twists and turns, the current situation was becoming clearer.

Fang Yuan's situation was like walking on a tightrope, intense wind was blowing and he was almost blown away several times, losing his initiative. If not for his brilliant schemes and endless trump cards, he would not have lasted this long.

Especially this time, Fang Yuan gambled his life, bravely going for a mutual defeat, finally managing to get back the initiative.

"My northern plains trip has reached the most crucial climax! Next, my immortal ascension is extremely important, it can almost decide victory and loss in this battle!" Fang Yuan concentrated his mind, just as he had said, the real battle was just beginning.

“Junior brother, don’t be too careless!” Tai Bai Yun Sheng’s tone was solemn, his gaze was anxious as his heart was full of worry.

He had just become an immortal, he was extremely clear about the difficulties of immortal ascension. He knew: If not for Giant Sun’s will’s help, he would not have succeeded. Even if he had his life’s accumulation and that deep foundation!

“Sigh, junior brother is too young and daring, he should not have made this choice! Had I known earlier, I would not have let him take this step! Sigh, hopefully, he had received master’s guidance and can succeed luckily…” Tai Bai Yun Sheng sighed in his heart.

Fang Yuan made eye contact with Tai Bai Yun Sheng, nodding his head.

Next, he closed his eyes, his mind entering his aperture.

Ordinary Gu Masters and Gu Immortals, in their entire lives, they can only have one aperture. But Fang Yuan had once taken a major risk in three kings blessed land, obtaining an immense opportunity. Thus, after using the second aperture Immortal Gu, he now had two apertures.

After the imperial court contest, both his apertures were rank five peak stage, crystal purple primeval essence!

There were three steps in immortal ascension, the first was to shatter the aperture.

Fang Yuan shattered the second aperture.

When Gu Masters shatter their aperture, they can only advance with no way of retreating. That is because they only have one aperture.

But Fang Yuan had two.

That means, even if Fang Yuan fails this tribulation, he would lose one aperture, but he would still keep another aperture.

Keeping one aperture could preserve his life.

This was one of the benefits of second aperture Gu.

Tai Bai Yun Sheng did not know this secret, if he knew, the worry in his heart would dissipate greatly.

Crack!

Crack!

Crack!

Lightning bolts shot down endlessly, targeting Giant Sun’s will.

“Fang Yuan you scoundrel, you will die a terrible death!” Giant Sun’s will howled, he resisted the tribulation lightning as his golden sand-like will exploded time and time again.

This lightning bolt was extraordinary, it had the appearance of a trident and had great power, as one of the ten great catastrophes.

Originally, snow war tribulation lightning did not strike at such close intervals, one bolt would form every tens of breaths’ time. But now, when Fang Yuan shattered his aperture and drew in the heaven and earth qi, a new heavenly tribulation and earthly calamity were formed.

The heavenly tribulation and earthly calamity fused with the once in ten years blizzard, increasing the power of the snow disaster.

Snow war tribulation lightning acted like it was on drugs, in its excitement, several bolts were shot down with less than a breath’s interval each time!

Every time he resisted it, Giant Sun’s will paid a heavy price.

But he could not leave.

Eighty-Eight True Yang Building needed his protection.

Now that Eighty-Eight True Yang Building had lost almost all its functions, it was like an empty shell. If Giant Sun's will's protection was lifted, in just a moment, the entire Eighty-Eight True Yang Building would be crumbled under the terrifying might of the heavenly tribulation and earthly calamity.

Eighty-Eight True Yang Building was an inheritance treasury that Giant Sun Immortal Venerable had left behind, with Giant Sun's will as the controller of this building. Its main objective forced Giant Sun's will to resist the heavenly tribulation and earthly calamity head on.

This way, he had become Fang Yuan's protector during this tribulation.

Protecting his sworn enemy and helping him to ascension to immortal realm, Giant Sun's will, who was forced by circumstances and had to do this, could feel an immense humiliation and rage in his heart.

“Fang Yuan, you scoundrel, once I survive this heavenly tribulation and earthly calamity, I will tear your tendons out, I will drink your blood and eat your flesh!” Giant Sun's will howled, even though there was the sound of thunder, it could not mask his rage.

Very soon, his howling came to an end, it turned into shock: “This, this is the chaotic branching teeth!”

Only to see that in the air filled with lightning and thunder, eighteen spirals appeared.

The spirals spun faster and faster, as they expanded rapidly.

In each of these black spirals, there was a large snow-white beast tooth forming slowly.

A total of eighteen beast teeth, each white as snow, with a huge size like that of ancient trees, over thirty meters tall.

The beast teeth were waiting to strike, and an intense feeling of danger struck Giant Sun's will's heart.

Chaotic branching teeth was also one of the top ten catastrophes, ranked higher than even the snow war tribulation lightning, and had greater might.

“I cannot allow all eighteen chaotic branching teeth to strike at the same time! At that time, even I cannot resist it… I must destroy them in advance!!” Giant Sun’s will was full of battle experience, he chose to strike immediately.

He had no hesitation, creating ten wills in the form of dragons, flying about and charging towards the heavenly tribulation in the sky with no fear.

However, along the way, there were wind blades, icy hail, and snow war tribulation lightning that attacked non stop. The ten dragon will suffered heavy casualties along the way, only five made it to the spirals.

In fact, the result of their attacks was not very evident.

Only three succeeded, destroying the spirals. The remaining two dragon wills suffered too much damage, the spirals that they charged towards flickered for a bit before recovering.

The tribulation lightning crackled, the speed of attacks becoming even quicker than before! It was like a wordless mockery towards Giant Sun’s will.

“Damn it! Despicable!’ Giant Sun’s will was helpless, he split out another ten dragons and charged again in desperation.

Within true inheritance secluded domain, it was a scene of serenity.

Fang Yuan shut his eyes, his expression was calm and he breathed in relaxation.

His mind was mostly focused on the shattered second aperture.

“My first aperture is my vital Gu Spring Autumn Cicada. This Gu is incomparably important, if I ascend to immortal realm with it, I will be a time path Gu Immortal. But my knowledge of time path is too limited, and to undergo tribulation with Immortal Gu, I cannot take this risk without any experience.”

"Only the second aperture, with the vital Gu all-out effort Gu, I can become a strength path Gu Immortal. Since rebirth, I had studied strength path intensely, although it is not on the level of blood path, I still have the foundation to become an immortal."

This second aperture had already shattered into a mess, forming a hole and sucking in the heaven qi and earth qi.

Tai Bai Yun Sheng was less than a hundred years old, but he had the foundation and accumulation to become a Gu Immortal. Fang Yuan had five hundred years of experience, and his knowledge surpassed Tai Bai Yun Sheng who had an immortal inheritance, it was definitely more than sufficient for him to rise to immortal.

"Except that now, it is still not the best time to ascend to immortal." Fang Yuan laughed bitterly in his mind.

Fang Yuan's strength path cultivation had not reached its limits. He had only a hundred jun of strength, and his bones were impermanence bones, his skin was turtle jade wolf skin, and his strength path Gu worms were not all rank five.

All these affected his future potential after becoming an immortal, as well as the size of his immortal aperture, it would be best if he could perfect them. Fang Yuan's original intention was to accumulate his foundation to the absolute limit before taking the risk of immortal ascension after making ample preparation.

Unfortunately, plans do not keep up with changes.

Forced by the situation, Fang Yuan could only do this.

As the heaven and earth qi entered his body, at the same time, Fang Yuan's body was emitting a thick white human qi.

The thickness of the human qi was like a huge balloon, completely covering Fang Yuan's entire body.

Hei Lou Lan saw this and his pupils shrunk.

Ye Lui Sang said in disbelief: "How is this possible, he has such thick human qi, this is even greater than Tai Bai Yun Sheng!"

“To think that junior brother’s foundation is so deep. I can see that junior brother had made preparations for this immortal ascension long ago, he is not taking an impulsive risk.” Tai Bai Yun Sheng looked with a surprised gaze, his heart settling.

The clear and unrestrained heaven qi, the golden and heavy earth qi, together with the pure white as snow human qi, the three merged and formed a multi-colored lump.

At this point, he had reached the second step of immortal ascension — taking in the qi.

“Damn it, the scoundrel has starting taking in the qi. Why are the reinforcements not here yet?” The river-like Giant Sun’s will was burning with anxiety.

He did not dare to act rashly.

Once he was stained by heaven qi, he would melt into air. If he was corroded by earth qi, he would turn into rocks and die.

Fang Yuan, who was the intersection point of the three qi faced dangers after dangers even more so.

He had to balance the three qi at all times, if there were too much heaven and earth qi, he would die. Even human qi, if the balance was off, would cause him to self-detonate.

However, fortune is found within danger, the greater the risks, the greater the opportunities.

The balance of the three qi, the fusion between them was bringing Fang Yuan an unceasing amount of inspiration.

Heaven and earth were the foundation stones that nurtured all life, the fusion of heaven and earth qi filled Fang Yuan’s mind with the grand mysteries of the Great Dao.

The three qi were fusing intensely, as Fang Yuan was inside, returning to his usual appearance after recalling the six arm heavenly zombie king killer move.

His injuries were rapidly healing, the healing speed was faster than his healing during six arm heavenly zombie king mode!

The three qi cleansed his body, not just his flesh, but his soul, mind, and will, they were being elevated.

He felt like a baby, being cleansed and returned to a pure state. Fang Yuan's eyes became clearer, the contrast between the black and white parts became more evident. His muscles were reconstructed one by one, the scars on his body fell off, and new skin grew on him. Even his hair started growing wildly, it grew longer and longer, when they were waist long, they broke, before growing again, and breaking, repeating the cycle…

Be it his body, his bones, his organs or his face, they were undergoing a magical transformation.

At the same time, the experiences in his previous five hundred years, as well as the events since rebirth flashed in his mind rapidly.

In just a short amount of time, Fang Yuan revisited his entire life.

A complex feeling that was indescribable, his memories that were deep within his mind all resurfaced, filling Fang Yuan's heart.

In his memories, all those cultivation questions that could not be answered obtained perfect answers like the work of a deity.

At this moment, heaven and earth were impartial, they were generous and imparted the mysterious of the Great Dao towards Fang Yuan.

Fang Yuan had to deal with his emotions while cherishing this opportunity to learn more about the mysteries of the Great Dao, and in the meantime balancing the three qi. Should he lose balance, he would die.

Countless Gu Masters failed at this step during their ascension!

Chapter 628 - Formidable Hei Lou Lan

Chapter 628: Formidable Hei Lou Lan

Translator: ChibiGeneral **Editor:** ChibiGeneral

In true inheritance secluded domain, Fang Yuan was surrounded by the thick lump of the three colored qi, his body completely hidden.

“Junior brother, you have to control yourself. I am not concerned with you having to deal with the emotional turbulence, but I’m afraid that you are young and brave, and might be greedy towards the mysteries of the Great Dao, forgetting your limits and taking in too much heaven and earth qi.” Tai Bai Yun Sheng’s gaze was filled with worry.

Heaven and earth qi had already spread to his surroundings, he had to flew away from Fang Yuan slowly.

Giant Sun’s will who was fighting with him over the control of the supreme true inheritance slowed his steps.

Tai Bai Yun Sheng’s pressure reduced, and his situation turned for the better.

“This accursed scoundrel, he actually has so much human qi. Damn it, why hasn’t he lost balance yet?” The river-like Giant Sun’s will gritted his teeth and cursed.

He was not the only one hoping for such a result, Hei Lou Lan and the others were having the same thoughts.

“This guy is so young, yet he can balance the three qi for so long!”

“He and Tai Bai Yun Sheng address each other as disciple brothers, they must have some extraordinary origin. Don’t tell me he is really going to become a Gu Immortal?”

“No way! Is becoming a Gu Immortal so easy! Do you think Ancestor Giant Sun is useless?”

Everyone conversed in secret, not daring to make a move. With such intense heaven and earth qi, once they suffer a backlash, it would be no joke.

Fang Yuan was inside the lump of qi, but his calm face showed a faint smile.

“Incredible, simply incredible…” his eyes were shut tight as he mumbled. All sorts of Great Dao mysteries were flowing into his mind like a warm spring.

In his previous life, Fang Yuan underwent immortal ascension and became a blood path Gu Immortal, this was his second ascension.

With this valuable experience, he was much calmer than any other Gu Master in the world. Compared to usual Gu Masters, he also knew the truth behind this event.

Man is the spirit of all being, they have the greatest spirituality. Gu are the essence of heaven and earth, they are the carriers of the Great Dao.

Any path to longevity was a path of transcendency.

To transcend, one needed accumulation.

And the most basic method of accumulating one’s foundation was to learn.

Gu Masters use Gu, nurture Gu, and refine Gu. From Gu, they learn about the mysteries of heaven and earth indirectly.

But when a Gu Master undergoes ascension, they were directly conversing and interacting with heaven and earth.

This interaction was extremely precious, most likely, each person only had one of such an opportunity in their life.

Fang Yuan treasured this opportunity greatly, he grabbed onto it and tried his best to make use of it.

The mysteries of heaven and earth were even deeper and more profound than the depths of the sea. Fang Yuan knew his limits, he did not venture into it aimlessly, but instead, steered towards strength path, deepening his understanding and feeling the true essence of this path.

He had after all, only cultivated strength path on the side in his previous life, even though he cultivated strength path directly in this life, it was only for a short time.

His original attainment in strength path, strictly speaking, was only quasi strength path master.

But making use of this opportunity, his understanding of strength path surged, bursting through the sky! Very quickly, he got past the barrier to strength path master, quickly surpassing master realm and charging towards the realm of grandmaster.

Fang Yuan had no choice but to do this.

The second aperture that he shattered had the rank four all-out effort Gu as its vital Gu. This Gu was of the strength path, if it was put in first during the third step, it would help Fang Yuan become a strength path Gu Immortal.

But this Gu was not rank five, with a lower rank, Fang Yuan could only use a higher strength path attainment to compensate for the difference, otherwise, the third step of putting in Gu would be extremely risky. If the immortal aperture could not be created, this immortal ascension would end in failure.

Outside True Yang Building.

Intense winds were blowing, tribulation lightning was striking!

The heavenly tribulations and earthly calamities formed a cocoon qi lump, the qi lump was extremely huge and completely covered Eighty-Eight True Yang Building within it.

After Fang Yuan shattered his aperture, the heavenly tribulations and earthly calamities underwent a new terrifying change.

In order to protect Eighty-Eight True Yang Building, Giant Sun's will had no choice but to resist it, now was the crucial moment!

Bam…

Following the intense sounds of the wind, nine snow white chaotic branching teeth shot out together like lightning.

Their speed was so fast only nine shadows could be seen, resembling flashes of lightning.

Giant Sun's will was already mentally prepared, he had been waiting.

The will armor that was shielding Eighty-Eight True Yang Building increased in thickness by many times, becoming ten meters thick.

At the same time, Giant Sun's will split out dozens of will hands, opening the palms and creating a barrier in the air.

Nine chaotic branching teeth shot down at once, during their descent they collided with each other, causing their directions to change randomly, turning left and right, it was unpredictable.

The will hands flew around following them, defending desperately.

The chaotic branching teeth pierced many of the will hands, stabbing the main Giant Sun's will and causing nine deep holes to appear on the thick will armor that was a thousand times tougher than steel.

Giant Sun's will grunted, the will's main body was only chaotic for a moment before calming down.

Looking at his injuries, Giant Sun's will could not help but feel shocked.

Nine wounds of varying depth, two were six meters deep, almost piercing into Eighty-Eight True Yang Building, it was really a dangerous scene.

“Thankfully, I spared no effort in destroying half of the chaotic branching teeth earlier. Otherwise, if all eighteen moved at once, their trajectory would be even harder to predict, how would I be able to weaken them while in the air?”

Giant Sun’s will felt some relief, but his hatred and anger towards Fang Yuan also intensified: “This accursed scoundrel Fang Yuan! I am actually shielding him during his immortal ascension! As long as I recover sufficiently, I will definitely… eh!”

Giant Sun’s will stared at the eighteen spirals forming in the air in a daze.

“There is actually a second wave of chaotic branching teeth?!” Seeing this, Giant Sun’s will was fuming with anger.

To defend against the chaotic branching teeth earlier, he had expended a sixth of his thoughts. But now there was a second wave!

“Wait, this is?!”

Among the eighteen spirals, another eighteen spirals started forming.

Seeing this, even Giant Sun’s will felt suffocated.

“The third wave of chaotic branching teeth came together with the second?!” He howled at the sky, the armor-like main will shook intensely, almost breaking apart. If he could vomit blood, he would have vomited a river by now.

Earlier when defending against the nine chaotic branching teeth, Giant Sun’s will had already used his full strength.

Right now, there were a total of thirty-six spirals, thirty-six chaotic branching teeth, this fearsome power could not be calculated by simple addition!

“This scoundrel Fang Yuan! I curse you to die!!” Giant Sun’s will almost wanted to discard Eighty-Eight True Yang Building at this moment, directly going to Fang Yuan and killing him without considering the consequences.

But he was not an anger will, but a special will.

He had to think of the big picture, he had to protect this inheritance treasure which was Eighty-Eight True Yang Building.

He had to contact the other subsidiary wills and gather all his strength, in order to resist these heavenly tribulations and earthly calamities.

“What? The main will wants to send me to defend against the heavenly tribulations?!” Within true inheritance secluded domain, the river-like Giant Sun’s will was still waiting for reinforcement, but the reply from the main will caused his heart to turn cold, like he had fallen into an icy river.

“God damn it!” Giant Sun’s will which was contesting with Tai Bai Yun Sheng over the supreme true inheritance felt great regret, but he had to divert most of his strength to the main will.

But to prevent Eighty-Eight True Yang Building from being taken by Tai Bai Yun Sheng, a portion of Giant Sun’s will was still needed to maintain the situation inside the true inheritance light lump.

Tai Bai Yun Sheng felt his pressure decreasing all of a sudden, and heaved a sigh of relief.

“Giant Sun’s will has finally stopped expanding! Junior brother, your plan has worked perfectly. It seems that the fusion of three heavenly tribulations and earthly calamities creates terrifying might that would force even Giant Sun’s will to defend against it with all his strength. Junior brother, you are worthy of being benefactor’s disciple, you need to survive this. The third step of putting in Gu is the most important of all, success or failure will all depend on this!”

As time continued to pass, the three colored qi lump surrounding Fang Yuan started shrinking, until it completely went into the area of Fang Yuan’s broken aperture.

“He actually completed the step of taking in the qi, he is at the final step!” Hei Lou Lan and the others were watching by the side, seeing Giant Sun’s will retreating, they panicked.

“What do we do now? Do we just watch him become a Gu Immortal?!” Ye Lui Sang screamed.

“Fang Yuan has no more heaven and earth qi around him, we should go and kill him now.” Bian Si Xuan suggested, but she made no movement.

Everyone looked at each other, they were shocked, suspicious, and in a difficult spot.

Fang Yuan still had the Gu Immortal Tai Bai Yun Sheng supporting him.

Tai Bai Yun Sheng’s pressure was lifted, he held the true inheritance light lump as he faced Hei Lou Lan and the rest of the gang, showing an unyielding attitude.

“Tai Bai Yun Sheng is not a problem, but once the immortal ascension succeeds, our problems would be endless. He is not a weak healing Gu Immortal like Tai Bai Yun Sheng…” Hei Lou Lan clenched his fists, a fierce light shining in his eyes.

After thinking about it, he made up his mind and shouted: “Attack!”

Saying so, the strength path phantom giant took huge strides forward, attacking.

Tai Bai Yun Sheng was crying in his heart, he did not dare to take on Hei Lou Lan’s attacks directly, he shouted: “You dare! As long as you come, I will throw this supreme true inheritance at the luck path true inheritance, let’s see how you account to Giant Sun’s will then!”

Everyone’s fighting intent evaporated after hearing Tai Bai Yun Sheng’s threat, their morale sinking.

Don’t listen to him, we’ll leave a few people to protect the luck path true inheritance, the rest will come with me!” Hei Lou Lan snorted, immediately saying.

Tai Bai Yun Sheng's heart sank, it was difficult for him to handle the situation.

"Hahaha..." At this moment, Fang Yuan laughed wildly from behind him.

He had already opened his eyes: "Never mind! Come and chase me. Let's see how many of you are flying masters!"

Eagle rise Gu had already been destroyed, but why would the vigilant him not have spares?

Fang Yuan owned Hu Immortal blessed land and could connect to treasure yellow heaven, he did not lack any mortal Gu.

This sentence was even more demoralising to the gang compared to Tai Bai Yun Sheng. Once they thought of Fang Yuan's flying master attainment, and the huge space that was available in true inheritance secluded domain, all of their morale almost hit rock bottom.

Hei Lou Lan's gaze shone for a bit, but he was unmoved.

He was the Lord of the Imperial Court for this round, he had exemplary talent and a ruthless nature, he would not become dejected with just a few words.

"We will chase him even if we cannot catch him, I want to see how he can undergo immortal ascension under such pressure!" Hei Lou Lan's words lifted the morale once again.

Fang Yuan's expression turned grim, he did not speak anymore.

Hei Lou Lan hit the main point.

During an ordinary immortal ascension, the heavenly tribulation and earthly calamity would be all around him, if his enemies wanted to obstruct him, they would face the might of the heavenly tribulation and earthly calamity.

But now that Giant Sun's will was blocking the heavenly tribulations and earthly calamities outside, it gave Hei Lou Lan and the others an opportunity to intervene.

Although in this true inheritance secluded domain, there was still heaven and earth qi left that could cause backlash in mortal Gu.

But Hei Lou Lan and the others were just like Fang Yuan, they were all using mortal Gu, thus they all faced the same backlash.

At once, the situation changed again.

Although Giant Sun's will left to resist the heavenly tribulations and earthly calamities wholeheartedly, Fang Yuan's predicament did not become any easier.

Hei Lou Lan was indeed a formidable character, he was an outstanding person and knew the perfect timing to strike.

Fang Yuan's immortal ascension was stuck between the second and third step, the situation had turned dangerous yet again.

Chapter 629 - Formless Hand

Chapter 629: Formless Hand

Translator: ChibiGeneral **Editor:** ChibiGeneral

“Fang Yuan, why are you running?”

“You cowardly scum, are you afraid? Do you have the guts to fight me for three hundred rounds?!”

“You are unworthy of disguising as Chang Shan Yin. You don’t even have one percent of his bravery.”

Inside true inheritance secluded domain. Fang Yuan was flying away rapidly while the others chased from behind, taunting him endlessly.

These insults and provocations fell on deaf ears, Fang Yuan’s expression was tranquil without any emotions.

He was closely observing his surroundings, true inheritance secluded domain was vast but it was not a flat area and many true inheritance meteors flew around in disorder, even colliding occasionally.

Giant Sun’s will had taken control of many true inheritances just before, but there were still many masterless true inheritances left in true inheritance secluded domain.

If Fang Yuan was unfortunately obstructed by these true inheritances, the group of Gu Masters behind him would be able to near him. Once he was encircled, the situation would turn much more dangerous.

Right at this moment, a dark red true inheritance meteor flew towards Fang Yuan.

Wind flower Gu.

Fang Yuan, however, had a slight smile on his face as he inwardly willed.

A gust of wind condensed into a giant flower which suddenly appeared beside him. The wind flower nimbly changed its direction, carrying him with it.

Swoosh—!

A sharp ear-piercing wind breezed past; Fang Yuan brushed past this unparalleled true inheritance light lump.

The unparalleled true inheritance shot forward directly towards the group of Gu Masters behind; the group was caught unprepared and panicked for a moment, dodging and fleeing.

Taking advantage of this time, Fang Yuan increased his speed and rapidly pulled apart the distance between him and the group.

Hei Lou Lan's group naturally was not willing to see this situation. Each of them was an elite; they immediately reacted and sent out countless long range attacks.

Fang Yuan sneered, using the primeval essence in his first aperture.

Flash bug Gu.

This was a rare space path movement Gu and under its effect, Fang Yuan immediately disappeared from the spot.

When he appeared, he was already five hundred steps ahead.

The attacks from Hei Lou Lan and the others thus landed on nothing.

Fang Yuan stopped flash bug Gu and changed to eagle rise Gu.

Flash bug Gu was a rank five Gu but its speed was not great, and it also expended a lot of purple crystal primeval essence to move forward by five hundred steps per use. Its main usage was to make sudden movements to avoid attacks.

To truly speed up and fly for a long distance, eagle rise Gu was still a lot better.

Eagle rise Gu might only be rank four Gu, but there were six wings on Fang Yuan's back; he had simultaneously used three eagle rise Gu!

Eagle rise Gu's speed was very impressive and rapidly transported him away, while also consuming less primeval essence.

The group of Gu Masters chasing Fang Yuan could only gnash their teeth as he rapidly flew away.

"Damn it! This guy is truly slippery, only focusing on running away, he has not even a bit of bravery."

"Didn't he shatter his aperture to ascend to Gu Immortal? How come he still has so much primeval essence left?"

"Hmph, there are many methods for Gu Masters to preserve primeval essence. So what if the aperture is shattered? One just needs to have Gu that can store primeval essence like fish bubble Gu, beggar moth or grave yam Gu."

"My movement Gu can't endure it, the backlash from heaven and earth qi is really terrifying."

Hei Lou Lan sneered: "We are suffering backlash, he is also in the same situation. We will continue chasing without stop. The enemy is a flying master, it is normal for us to not be able to reach him. But as long as we chase closely and not give him time to advance to a Gu Immortal, we will have fulfilled our objective!"

Fang Yuan glanced back and seeing that the pursuers had no intention of giving up, the anxiety in his heart deepened.

Without doubt, he had to admit that Hei Lou Lan was striking at his weak point.

Bursts of pain spread from his second aperture.

The second aperture was already shattered, forming a hole which was occupied by a lump of three colored qi at this moment, waiting for the vital Gu to be put into it and reach the final step, accumulating its foundation till the immortal aperture is born.

If the immortal aperture was not created, Fang Yuan would perish from the backlash of heaven and earth qi.

If the immortal aperture was created, no matter which grade it was, Fang Yuan would have to concentrate on it fully at that moment, causing him to enter a period of weakness where he would be defenseless.

This time could be long or short, depending on the person.

If the enemies took advantage of this time, Fang Yuan's situation would be bleak and was very likely to die in a tragic end!

At present, Hei Lou Lan's group was firmly blocking Fang Yuan at this step.

Fang Yuan did not dare to place in his Gu and could only look on as the extremely compressed three colored lump of qi started to vibrate.

"I can't continue like this! If it is put off any longer, the three colored lump of qi will disperse and all my accumulations used in advancing to Gu Immortal will vanish into thin air." Fang Yuan kept on thinking of one solution after another to get out of this predicament.

Rumble…

Right at this time, true inheritance secluded domain started shaking.

Rumble…

Another tremor soon spread, causing everyone to panic.

"What is going on?"

"What happened, is true inheritance secluded domain collapsing?"

Hei Lou Lan, Ye Lui Sang and others had a worried expression, realizing fully well in their mind: this was the heavenly tribulations and earthly calamities outside starting to affect Eighty-Eight True Yang Building.

Fang Yuan and Tai Bai Yun Sheng were instead overjoyed, this signified Giant Sun's will had already staked all its strength but the heavenly tribulations and earthly calamities was so terrifying that even it had reached its limit.

"Damn it, damn it… I barely endured it!" Giant Sun's will gasped for breath with fear and joy, it did not even have the energy to curse Fang Yuan.

The ten meter thick golden armor created by Giant Sun's will that had covered Eighty-Eight True Yang Building tightly was now left with nothing but a thin layer with its luster dimmed.

Thirty-six chaotic branching teeth attacking together was not a simple matter of addition, their overall might was amplified by close to ten times!

During this whole process snow war tribulation lightning attacked crazily like the attacks were free. The lightning which flashed in intervals before had almost become unending like sunlight; one could see the terrifying frequency of snow war tribulation lightning.

Giant Sun's will avoided death narrowly, but there was not even one percent of the original will remaining.

He used all his strength and put in all of his effort to destroy eleven spirals in advance. The remaining chaotic branching teeth erupted together, Giant Sun's will used all his ability and blocked most of them, but he could not block seven of them.

Seven scars appeared on Eighty-Eight True Yang Building. Four scars even directly penetrated through True Yang Building, opening up four passages.

The tremor Fang Yuan and the rest felt in true inheritance secluded domain originated from this.

"My Eighty-Eight True Yang Building…" Giant Sun's will's heart bled at the sight and almost howled out in grief.

The losses were too severe, not only were the numbers of Gu worms destroyed extremely huge, two immortal Gu were also destroyed.

Who knew how long it would take to replenish these Gu worms and restore Eighty-Eight True Yang Building to its complete form.

“Fang Yuan, you insufferable bastard. You are undergoing the tribulation, yet I was the one who bore the consequences! I will make sure you regret being born into this world!”

Giant Sun’s will cursed fiercely in his heart.

The giant cocoon formed from the heavenly tribulations and earthly calamities had already thinned.

Several rays of light pierced through the layers of dark clouds and shone down on the damaged Eighty-Eight True Yang Building.

Heavenly tribulations and earthly calamities were slowly dissipating.

Giant Sun’s will felt a huge stone lifting off his heart and was joyous to the point of crying: “The heavenly tribulations and earthly calamities have finally ended!”

“I managed to endure it! Although Eighty-Eight True Yang Building suffered heavy damage, the fundamental Gu worms haven’t been lost, and the mortal Gu might have been destroyed in large numbers, but they can be replenished. The destroyed immortal Gu are rather troublesome to obtain, but they also can be refined again. Even if others refine them first, I can use other Gu worms to replace them. The situation is set, now I shall get rid of the otherworldly demon then teach that scum Fang Yuan his place!”

The heavenly tribulations and earthly calamities were dissipating in front of his eyes, Giant Sun’s will saw the time to take revenge was here and his mood took a turn for the better.

However, right at this time, a light blue giant hand gradually appeared in front of Giant Sun’s will.

“Thi…This is…?!”

The remaining Giant Sun’s will trembled intensely, even more frightened than seeing seventy or even eighty chaotic branching teeth at once.

“This is Thieving Heaven Demon Venerable’s killer move — Formless Hand. This accursed Fang Yuan, how is his luck so bad that he attracted this disaster!”

Rank nine Gu Immortals were invincible under the heavens and could leave behind unique traces in the whole world.

Even after death, some of their killer moves could emerge again during heavenly tribulations and earthly calamities.

“I got it! This Fang Yuan is too audacious, he was set on killing the child of luck Ma Hong Yun and suffered the backlash from fortune rivalling heaven Gu, causing his luck to be completely messed up, thus attracting such terrifying a heavenly tribulation and earthly calamity!”

Giant Sun’s will felt extremely agonized when he realized the cause.

Going to the bottom of this, it was Giant Sun Immortal Venerable who left behind fortune rivaling heaven Gu. Under an absurd combination of different factors, Giant Sun’s will was actually suffering a loss from his own arrangement!

“Back then, the whole world was helpless when Thieving Heaven Demon Venerable used formless hand to rob countless Gu worms. Fortunately, this formless hand only has five fingers, thus at most, it can only seize rank five Gu, Gu, Gu… oh heavens!”

Giant Sun’s will’s pitch suddenly rose an octave higher, crying out in shock.

The heavenly tribulation and earthly calamity slowly dissipated, large numbers of formless hands appeared one after another.

Two, three… twenty, thirty… two hundred, three hundred…

Innumerable formless hands appeared, covering the whole sky!

Among them, one finger to five fingered formless hands occupied the majority.

There were sixteen six fingered formless hands and nine seven fingered formless hands.

There were even three eight fingered formless hands!

“Impossible! Even if Fang Yuan was targeted by fortune rivaling heaven Gu and his luck became terrible, it could not have gotten to this extent!” Giant Sun’s will shouted in an incredulous tone.

“It’s over, everything is finished!” Giant Sun’s will howled, if he could cry, his face would be filled with tears right now.

Instantly, the large number of Giant Sun’s will dispersed and fell down from Eighty-Eight True Yang Building like sand.

This was the self-collapse of a will!

There was not even a trace of fighting spirit left, it could not endure such an impact.

The heavenly tribulations and earthly calamities had not ended, but were transforming into this final tribulation.

Formless hands!

The remaining Giant Sun’s will curled up into a lump, exposing Eighty-Eight True Yang Building.

Inside true inheritance secluded domain, Fang Yuan and the others were still in the dark, not knowing anything that occurred outside.

The chase was still continuing.

Due to the backlash of heaven and earth qi, the loss of Gu worms on both sides had reached the hundreds. But they were still persisting firmly.

Fang Yuan had almost no movement Gu left, but he had already found a way to resolve this predicament!

He led the pursuers to make a large detour before suddenly changing direction and flying towards Tai Bai Yun Sheng.

“Senior brother, quickly open your immortal aperture and let me in. I can evade these pursuers and smoothly advance to a Gu Immortal there!” Fang Yuan secretly transmitted his voice.

“This…” Tai Bai Yun Sheng could not help but hesitate.

The immortal aperture was the foundation of a Gu Immortal. If Fang Yuan was let in and he failed, the resulting destruction would have to be endured by Tai Bai Yun Sheng.

“Senior brother, what are you hesitating for at such a crucial moment? Once I advance to a Gu Immortal, we will have the strength to survive this danger. Don’t worry, I have complete assurance in advancing successfully!” Fang Yuan shouted.

Chapter 630 - Chaotic and Dangerous Situation

Chapter 630: Chaotic and Dangerous Situation

Translator: ChibiGeneral **Editor:** ChibiGeneral

Tai Bai Yun Sheng was already bound firmly on Fang Yuan's chariot, and thinking of the Fixed Immortal Travel that was with Fang Yuan, he had no choice but to accept Fang Yuan's request.

Fang Yuan was overjoyed and charged into Tai Bai Yun Sheng's immortal aperture.

"Damn it!" The pursuers paled at this sight.

"This scum is too crafty, actually hiding in Tai Bai Yun Sheng's immortal aperture. We can't hunt him now!" Ye Lui Sang helplessly shouted.

"Then, we shall slaughter an immortal! Kill Tai Bai Yun Sheng!!" Hei Lou Lan's eyes glinted ominously, killing intent pervading from his body.

The strength path giant phantom he had turned into, charged towards Tai Bai Yun Sheng with overwhelming momentum, like a bear pouncing at its prey!

Tai Bai Yun Sheng was scared witless, quickly fleeing with the supreme true inheritance light lump.

“Don’t forget that I am also a flying master!” Tai Bai Yun Sheng had learned from Fang Yuan and shouted loudly while flying away.

The pursuers’ momentum was involuntarily destroyed.

Someone powerlessly cursed: “F*ck, two flying masters appeared in this Imperial Court contest and both of them had to be these two!”

Only Hei Lou Lan was provoked by the remark, his battle intent soared to an unprecedented level.

‘Looks like I have to use my full strength as well!’ His expression was solemn as he made a resolution and punched fiercely.

The fist qi surged majestically like a mountain peak!

Tai Bai Yun Sheng nimbly dodged it without receiving any injury.

But the barrage of grand fist qi suddenly transformed into strength path giant phantoms.

Tai Bai Yun Sheng was caught unprepared and in a short moment was completely surrounded by these strength path giant phantoms.

“What bad luck.” Tai Bai Yun Sheng’s face turned pale white.

“Who could have thought Hei Lou Lan’s strength had actually reached such a powerful level! Sixteen strength path giant phantoms, this strength can truly slaughter an immortal!” Ye Lui Sang and the others were greatly shocked at this scene.

“Huff huff huff…” Hei Lou Lan gasped for breath, the strength path giant phantom on him had already dissipated. This move clearly used a lot of his energy and strength.

Even Great Strength True Martial Physique of ten extreme physiques could not endure its usage.

His fat body flickered with a layer of faint black light; that was the power of Immortal Gu Dark Limit, helping him to suppress and conceal Great Strength True Martial Physique.

“What a close call, I almost broke the seal of dark limit Gu!” Hei Lou Lan rejoiced inwardly, a vicious gaze flashing on his eyes as he looked at Tai Bai Yun Sheng, “Your death is assured now! My grand plan of revenge will start from you, Tai Bai Yun Sheng!”

However, a change occurred right at this moment!

Giant light blue hands suddenly appeared in true inheritance secluded domain.

The dense giant light blue hands soon attracted everyone’s gazes.

“What is that!”

“What kind of thing?”

Whoosh.

An ordinary true inheritance that was flying like a meteor collided into a giant light blue hand.

The giant light blue hand opened its palm and grabbed this true inheritance, holding it so tightly the true inheritance could not even budge.

The giant light blue hand paused for a breath of time before flying away swiftly.

Under everyone’s gazes, it left behind a trail of gorgeous blue light while its speed kept on increasing.

After it moved thousands of steps away, it suddenly disappeared without a trace, even the true inheritance it was holding was gone.

Everyone’s pupils involuntarily shrunk at this sight.

“These giant hands are so terrifying, they easily subdue the true inheritance!”

“I know, this is definitely Ancestor Giant Sun’s ability. Haven’t you noticed these giant light blue hands are similar to the flying snow hands?”

“Haha, Ancestor Giant Sun has made his move. It seems the heavenly tribulation and earthly calamity has already passed, these two scoundrels are finished now!!”

Some people made guesses which were quickly approved by everyone. However, right when they were cheering, a miserable shriek spread to their ears.

Everyone looked at the source of the voice and saw that a Gu Master in the outer periphery was grabbed by the giant light blue hand.

Shortly after, the giant hand seemed to have grabbed something, flying far away with a clenched fist.

That Gu Master let out a miserable howl: “My… that hand seized all my Gu worms!!”

“What!?”

There was a commotion.

Soon, the second victim appeared.

“My vital Gu was actually seized… puff!” He spurted a mouthful of blood. Vital Gu was closely related to the Gu Master’s life and when it was forcibly seized by the giant hand, the Gu Master immediately suffered backlash.

The hands fell down like rain, beginning to wantonly seize Gu worms.

“Run away…” Everyone dispersed in confusion.

“Isn’t this Ancestor Giant Sun’s ability!? Could it be that this is a heavenly tribulation and earthly calamity?” Many cried out in shock.

“What kind of heavenly tribulation is this, it can actually seize Gu worms!!” Someone shouted in bewilderment. The importance of Gu worms to Gu Masters was self-evident.

“Quick, store your Gu worms into your apertures!” Someone reminded in panic.

However, everyone soon discovered even after storing in the aperture, the Gu worms were still being seized.

The giant light blue hands were formless. They did not inflict the slightest injuries and only captured Gu worms. Once the Gu worm was captured by them, the Gu worm would immediately lose connection with the Gu Master.

“What kind of tribulation are these giant light blue hands? Can it seize even Immortal Gu?” Tai Bai Yun Sheng could not make out any details on these giant light blue hands and was very nervous from the scene unfolding in front of him.

At this time, three giant hands moved towards him. He evaded in panic.

Even as a flying Gu Master, he was soon in danger, his face perspiring heavily.

The giant hands were very fast and extremely nimble; the crucial point was they could sneak attack like flash bug Gu, making it very hard to defend against them.

Even Tai Bai Yun Sheng was cutting out a sorry figure, there was no need to mention other Gu Masters.

“There seems to be information of this in the tribe records…” Hei Lou Lan frowned. He could not dodge in time and was grabbed by a four fingered giant hand.

For a moment, he could not budge.

The giant light blue hand seemingly had no substance and like wind brushing past one’s face, it caused no harm to Hei Lou Lan’s body.

However, Hei Lou Lan felt his head go dizzy, instantly losing connection with a rank four Gu.

“Oh no.” Hei Lou Lan inwardly exclaimed, the Gu that was seized might only be rank four but it was very important. It was one of the necessary Gu worms to use his strength path killer move.

Roar!

Hei Lou Lan suddenly let out a beastly roar.

Rank five — fixed sound Gu!

A formless soundwave rapidly chased after the four fingered giant hand and locked it in place like a formless iron chain.

“I don’t care what all these hands are, I’ll destroy them!” Hei Lou Lan gave a loud shout to raise his spirits, and turned into strength path giant phantom once more.

The giant grabbed the giant light blue hand with its house sized fist, and clenched!

The giant light blue hand flickered twice before shattering apart like glass. Hei Lou Lan immediately sensed that crucial Gu worm.

The shattered giant light blue hand fell apart like ice melting into water.

Hei Lou Lan smoothly grabbed the Gu worm and was just feeling joyous when five formless hands suddenly appeared behind him.

His face turned pale instantly. He fiercely turned his body and delivered a horizontal strike with his arm!

He used all his strength in this strike!

Wind erupted, and soundwaves burst out like thunder.

But when the strike touched the formless hands, the giant arm directly passed through like they were image of the moon in the water.

Hei Lou Lan was stupefied, the formless hands quickly moved and grabbed specific parts of the strength path giant phantom.

Hei Lou Lan was paralyzed once more.

Next moment, the strength path giant phantom collapsed with a loud sound.

His killer move was broken!

“My Gu worms… puff!” Hei Lou Lan spurted out large amounts of blood.

His vital Gu was seized which was the core Gu of his strength path killer move! Besides it, four other crucial Gu worms were also seized.

What gave Hei Lou Lan the most heartache was false emotion fake will Gu and wooden chicken Gu, two Immortal Gu, were also seized!

“Stop right now!” Hei Lou Lan exerted all his strength to chase the hands, the matter of Fang Yuan thrown out of his mind.

The giant light blue hands moved everywhere, seizing Gu worms.

The Gu Masters fled and evaded in disorder.

A rumble erupted in true inheritance secluded domain, threads of light shone down as the True Yang Building began to crumble.

“No, I absolutely can’t let Eighty Eight True Yang Building perish! Formless hands cannot be attacked, but when they grab a Gu worm and clench their fist, they can be destroyed. As long as I can protect the several rank eight core Gu worms, with enough time, I will be able to rebuild True Yang Building!”

Outside the tower, the remnant Giant Sun’s will curled up in a ball and was accumulating its energy.

The enormous True Yang Building was like an old man with a foot in the grave, letting the formless hands fly in, grab the Gu worms and fly away.

The beautiful and grand True Yang Building soon turned into a nibbled giant corn; its surface was a mess, filled with holes.

The formless hands continued to rain down endlessly.

True Yang Building’s complete destruction was not far away.

Inside Tai Bai Yun Sheng's immortal aperture blessed land, however, was a scene of tranquility.

Fang Yuan waited for a while before carefully transferring his second vital Gu.

All-out effort Gu had a beetle-like shape with an oval body and an arching carapace. The majestic horn on its head appeared dignified and powerful. It had three pairs of strong legs, and its entire body was brown which shone with a metallic luster.

Fang Yuan obtained this Gu back in southern border, later he refined it rank four which allowed him to casually strike out with beast strength phantoms.

"Go." Fang Yuan softly spoke.

All-out effort Gu obeyed Fang Yuan's intent, charging towards the extremely compressed three colored qi lump.

BOOM!!!

Fang Yuan's body shook intensely as lightning seemed to have burst in his mind.

The qi lump exploded loudly and like the process of creation after destruction, it gave birth to an immortal aperture!

The sky in the immortal aperture was orange yellow and a white mountain stood tall on the earth.

Since the immortal aperture was newly born, the space inside was limited, but it soon rapidly expanded all around.

Like a newborn baby, it demanded nutrition intensely.

The immortal aperture's nourishment was the heaven and earth Qi.

"Senior brother, let me out quick." Fang Yuan immediately sent his voice.

"You succeeded!" Tai Bai Yun Sheng was overjoyed before warning, “You need to be careful when you come out, the situation now is quite dangerous!”

Fang Yuan’s vision changed as he was let out of the immortal aperture by Tai Bai Yun Sheng; the next moment, he appeared beside Tai Bai Yun Sheng.

“This, this is formless hand?!” Five hundred years of experience was not for show, Fang Yuan immediately recognized the origin of the giant light blue hands and turned pale with fright.

Feeling his aura, a six fingered formless hand suddenly appeared above Fang Yuan and grabbed!

Chapter 631 - Striking a fortune

Chapter 631: Striking a fortune

The six fingered formless hand's appearance was so sudden that Fang Yuan only had the time to raise his head.

The light blue radiance shone down on his face as his sight was filled with the giant light blue hand.

The formless hand did not show any notions of stopping, grabbing towards Fang Yuan, completely shrouding over his body.

"Junior brother!" Tai Bai Yun Sheng shouted in fright.

The next moment, however, this six fingered formless fist loosened up and spread open.

Fang Yuan's figure showed up five hundred steps away. The six fingered formless hand had grabbed at nothing.

Flash bug Gu!

This Gu was a rare rank five space path movement Gu. Fang Yuan had to spend a lot of efforts to purchase it in treasure yellow heaven.

"Hufff…" Tai Bai Yun Sheng let out a breath of turbid air, a giant stone lifted off his heart.

Tai Bai Yun Sheng knew Fang Yuan was unable to react properly because he had just came out. In truth, it was nothing difficult for flying masters to evade these formless hands.

"Close call!" Fang Yuan's body let out cold sweat from the fright.

He had much more understanding of formless hands than others; as such, he knew their threat level clearly!

"Formless hand is Thieving Heaven Demon Venerable's killer move; it can range from one finger to nine fingers, respectively able to seize rank one to rank nine Gu worms! They can even seize the vital Gu without any problems. If that six fingered formless hand succeeded in grabbing me, I would have definitely lost either Spring Autumn Cicada or Fixed Immortal Travel… my luck is too bad, it actually provoked such a catastrophe!"

Fang Yuan rapidly flew, dodging the pursuit of the formless hand while observing his surroundings.

True inheritance secluded domain had already fallen into complete chaos.

True inheritance meteors and formless hands filled one's sight; Gu Masters flew around in disorder – some were evading the formless hands, some cried out in grief after their Gu worms were seized, while some used all their strength to attack the formless hands.

"It seems that they have found out already! Once a formless hand captures a Gu worm, it will clench its fist; this is the moment it can be attacked! When it is in its spread out palm form, it is almost completely immune to all attacks and can only be dodged."

Fang Yuan recalled the relevant information on formless hands.

He was very familiar with the formless hands. In his previous life, Ma Hong Yun had successively obtained a portion of Giant Sun Immortal Venerable and Thieving Heaven Demon Venerable's inheritance, also obtaining a similar method of capturing Gu worms. He had used this method many times in the great battle of the five regions, resulting in the disastrous loss of many strong enemies and making them flee.

Fang Yuan had thus researched a lot on this.

Fang Yuan continued to dodge, use flash bug Gu, wind flower Gu, eagle rise Gu and so on before he was able to pull apart a huge distance, making the six fingered formless hand chasing him to change its target.

He immediately sent a portion of his consciousness to inspect his

immortal aperture.

There were remnants of heaven and earth qi in true inheritance secluded domain.

Ever since Fang Yuan came out, his immortal aperture had been crazily absorbing these heaven and earth qi, growing rapidly.

In just a short while, his immortal aperture had expanded to over 2000km2 and was still growing.

At the same time, the time flow inside the immortal aperture was starting to become faster than the outside world. From a one to one ratio, it increased to six times as fast.

“Damn it.” Fang Yuan suddenly frowned and his face paled.

The change in the immortal aperture was going smoothly, but the problem appeared in the first aperture; more accurately, the problem was the Spring Autumn Cicada.

Spring Autumn Cicada was recovering rapidly and the first aperture was already showing signs of being unable to bear the huge pressure from it!

“Oh no! When an immortal aperture is born, not only does the space enlarge, the time flow also changes. The change in the time flow is the main reason an immortal aperture can turn into a small world and attract a tributary of the river of time! Spring Autumn Cicada feeds on the water of the river of time, and now being so close to the source, it is able to drink a lot and accelerate its recovery speed!”

Fang Yuan was able to instantly understand what was going on.

Since the last activation of Spring Autumn Cicada which had fortunately succeeded, it had been slowly recovering.

It has been a long time since Fang Yuan arrived in northern plains; Spring Autumn Cicada was gradually recovering causing the pressure on the first aperture to increase day by day.

The first aperture was already at rank five peak stage and should have been able to endure for some time according to Fang Yuan's estimation. But this unforeseen event had greatly shifted the time limit to an earlier date!

Since rebirth, Spring Autumn Cicada had been a hidden danger to Fang Yuan. Now that Fang Yuan was advancing to a Gu Immortal, this hidden danger had expanded to a serious danger that directly pushed itself to Fang Yuan's sight.

“Damn it.” Fang Yuan gritted his teeth. He suddenly descended; a formless hand passed by his hair, grabbing at the air.

For now, Fang Yuan had no way to deal with this situation.

The immortal aperture must be successfully created, otherwise all his efforts would go to waste. Without a Gu Immortal's strength, it would be impossible for him to continue contending.

However, Spring Autumn Cicada also could not be ignored.

Crack…

A huge sound echoed in true inheritance secluded domain like some important thing had shattered, causing palpitation in everyone's heart.

Everyone paused and hurriedly looked up.

Like an egg shell that was smashed, countless cracks appeared on true inheritance secluded domain. The cracks rapidly enlarged and let the outside world's light flow in.

At the same time, many formless hands also squeezed in through the cracks, a seven fingered formless hand among them!

The Gu Masters let out shocked cries at the sight of so many giant light blue hands.

“Why are there so many giant hands?”

“This is bad, look, a seven fingered giant hand has actually squeezed in!”

With the endless giant light blue hands flying in true inheritance secluded domain, everyone's situation had become even more perilous.

Hei Lou Lan's expression was grave and even Tai Bai Yun Sheng felt an intense suffocation.

Flying masters were not omnipotent.

With so many formless hands, the difficult in evading them increased greatly.

Moreover, the longer they spent, the more likely it was for them to make an error under such a strained state.

“This is turning worse!” Tai Bai Yun Sheng was gloomy, what he was afraid of came, he made a mistake in the crucial time.

His sole remaining escape path was blocked by six formless hands.

At this moment of crisis, Tai Bai Yun Sheng gritted his teeth and directly crashed towards a three fingered formless hand.

The formless hand grabbed him; Tai Bai Yun Sheng was immediately paralyzed.

But this time period was extremely short and soon, the three fingered formless hand flew away with a clenched fist. Out of danger, Tai Bai Yun Sheng immediately burst out with his greatest speed and escaped through this gap.

Tai Bai Yun Sheng's back was soaked with cold sweat from this thrilling situation.

Even Tai Bai Yun Sheng was in such a predicament, let alone others.

All the Gu Masters met with calamity, at worst, not even one of their Gu worms remained.

Without Gu worms, Gu Master's battle strength plunged down to the very bottom. And even if they had a lot of primeval essence, it would be of no use.

“Save me!” A Gu Master looked on with fright a true inheritance that was flying right towards him.

All his Gu worms were already seized by the formless hands. At this moment of life and death, he cried out for help while swinging his arms crazily to speed up his flight, but his movement speed was no faster than a snail in comparison to the true inheritance.

The surrounding Gu Masters heard his plea for help, but right now they had no way to help however much they wanted to.

Thud!

There was no unexpected event; the unlucky Gu Master was directly crushed into meat paste by the true inheritance.

This blue colored true inheritance did not stop after crushing the Gu Master and kept on flying away.

On its way, formless hands kept on obstructing its path while it kept on evading.

The wild newborn Gu will in the true inheritance also sensed the deadly threat of the heavenly tribulation formless hands, and did its best to escape.

However, the will of Gu worms was not as intelligent as humans.

The blue colored true inheritance evaded several formless hands before it was finally grabbed by a five fingered formless hand.

The formless hand clenched its fist tightly but did not stop at the place.

The true inheritance light lump’s speed was too fast; the formless hand was pulled in its inertia, except that the speed was greatly reduced.

The five fingered formless hand flew away with a Gu worm. But even more formless hands pounced down and covered the true inheritance light lump.

One hand was not enough, another came followed by the next. Soon, ten formless hands were tightly grabbing the true inheritance light lump.

The true inheritance light lump continued to slow until it came to a stop.

The formless hands suddenly separated and flew in all directions with clenched fists.

There was nothing left at the spot, the blue colored true inheritance was already robbed clean.

At this moment, Fang Yuan snickered and flew towards the target he had his eyes on, and started attacking fiercely.

A formless fist was broken by his attacks and revealed the Gu it was holding.

Fang Yuan immediately reacted and grabbed it.

This was a rank five mortal Gu and after he refined it, he stored it in his pocket.

Flash bug Gu!

He disappeared from the spot and suddenly appeared three hundred steps away, right beside another formless fist.

Bam bam bam.

He punched heavily and broke the formless fist in three punches, leaving after grabbing the Gu.

It was an Immortal Gu!

Almost at the very next moment, a formless hand pounced at him, and naturally it was in vain.

Fang Yuan moved like lightning, occasionally soaring like a sparrow and occasionally piercing forward like an eagle.

He was dodging the formless hands while also taking any chance to strike a fortune, grabbing many Gu worms of the true inheritance.

However, the formless fists were very fast and the opportunity to destroy them was fleeting.

The blue colored true inheritance was a good opportunity Fang Yuan ran into, but he only had enough time to break three formless fists, obtaining two mortal Gu and an Immortal Gu.

While Fang Yuan was occupied with breaking the formless fist, the other formless fists had already flown far away and Fang Yuan was not able to chase after them.

“Suppress!”

Fang Yuan transferred his will into the Gu worms to temporarily suppress them.

He did not have the time to refine these Gu worms, let alone study their uses.

Suddenly, Fang Yuan’s sight was covered with blue light.

Maybe it was because Fang Yuan was too active and attention drawing, eight formless hands attacked him together!

Fang Yuan’s heart jumped and he quickly evaded.

He moved and stopped at times, changing his directions madly; his vision kept on changing intensely, one moment he was above while the next he was below. He almost made himself go dizzy.

He spent tremendous effort before he was able to get rid of the formless hands.

He had just stabilized his breathing when suddenly, there was the sound of wind!

A formless hand was flying right towards him.

Fang Yuan was just about to dodge, but his pupils enlarged rapidly the next moment. This was a formless fist!

He laughed heartily and flapped his six wings, directly punching towards the formless fist. He obtained a rank five Gu after breaking the formless fist.

The Gu worm was vibrating in his hand and struggled intensely, attempting to escape.

Fang Yuan sent a portion of his will inside, but was not able to suppress it.

He immediately frowned as he realized this Gu was not a wild Gu, but a Gu Master's Gu worm. Because the Gu worm had someone else's will, the difficulty in refining it was several times greater than refining wild Gu, and even temporarily suppressing it was difficult!

“Let go of my Gu!” A familiar voice sounded by Fang Yuan's ears at this moment.

Fang Yuan looked at the source of the voice, and immediately smiled.

He saw Hei Lou Lan flying towards him hurriedly and furiously, his gaze fixed on the Gu in Fang Yuan's hand.

Chapter 632 - Coexistence of Pain and Joy

Chapter 632: Coexistence of Pain and Joy

Translator: ChibiGeneral Editor: ChibiGeneral

Hei Lou Lan poured incessant grievances in his heart.

He had outstanding battle strength along with an extremely powerful strength path long range killer move, it was just that they were not enough to cover his weakness in the movement aspect.

More accurately speaking, Hei Lou Lan cultivated strength and dark path which were not impressive in movement ability.

But in the present situation, only flying masters could barely survive. Hei Lou Lan's weakness was thus completely revealed under the pursuit of the formless hands.

The formless hands wantonly seized the Gu worms in Hei Lou Lan's body.

He had destroyed many formless hands and chased after many, but at the same time, new formless hands would appear to grab even more of his Gu worms.

Right now, Hei Lou Lan was flying fiercely like a berserk bear, his expression was one of malevolence and anger.

He knew Fang Yuan had big advantage in this situation, but he could not give up. The reason was that the Gu worm Fang Yuan had captured was, very unfortunately, Hei Lou Lan's vital Gu!

The vital Gu was closely interlinked to the Gu Master's life. Once it was destroyed, the Gu Master would immediately suffer heavy injuries. By grabbing this Gu, it was akin to Fang Yuan controlling a huge weakness of Hei Lou Lan.

Mentioning this vital Gu, it had gone through many difficulties as well; being seized by the formless hands many times while Hei Lou Lan seized it back again.

Counting the number of times, this was already the sixth time this vital Gu had been seized. Only this time, an accident happened, it landed in Fang Yuan's hand.

His vital Gu was with the enemy, this was a very serious situation and it needed to be retrieved!

Fang Yuan's eyes shone with a cold light.

He did not know the rank five Gu in his hand was Hei Lou Lan's vital Gu, but he could tell the huge importance of this Gu from Hei Lou Lan's behavior.

"Hmph! You want to take back this Gu? Keep on dreaming." Fang Yuan moved the six wings on his back and rose up, flying far away.

Hei Lou Lan had hunted down Fang Yuan again and again before; the hatred between them was already very deep.

But this moment was not a good time to kill Hei Lou Lan.

There were more and more formless hands, Fang Yuan was already feeling difficulty in dodging them. If he fought under this situation, he would surely have to pay an extremely disastrous price even if he succeeded.

It was more so when Hei Lou Lan had Great Strength True Martial Physique, if he was forced into a corner and self-detonated, Fang Yuan would have to suffer the terrible consequences.

"Let's see how long he can continue chasing me!" Fang Yuan snorted, and forcibly suppressed the restless Gu worm in his hand.

Soon, he shook off Hei Lou Lan. While dodging the formless hands on the way, he sent a portion of his consciousness into his immortal aperture.

The immortal aperture was growing without stop.

Ever since Fang Yuan exited Tai Bai Yun Sheng's immortal aperture, his immortal aperture had been continuously absorbing heaven and earth qi. Now, it was already over 2600km^2; the sky was orange and yellow while the earth was rugged with steep white stone mountain ranges that stood tall and lofty.

The terrain of the immortal aperture was related to the Gu Master's paths, accumulation, temperament and comprehension.

This was the first time Fang Yuan became a strength path Gu Immortal and he only roughly understood it now, only knowing the general situation. If he wanted to have a deeper understanding, he needed to research in the future

"The time flow has reached one to twelve ratio. One day in the outside world is twelve days inside the immortal aperture. The growth rate is gradually slowing down…" Fang Yuan assessed.

By now, he had almost absorbed all the heaven and earth qi in true inheritance secluded domain.

He was now waiting for the immortal aperture to stabilize completely which was the most important. Once he possessed a Gu Immortal's battle strength, everything would change.

"I will let you hold onto my Gu for the moment, I will get it back no matter what!" Hei Lou Lan could only roar helplessly as he looked at Fang Yuan fly further and further away.

He was obstructed by the formless hands when he chased and had lost many Gu worms. It was already very difficult for him to evade the formless hands, it was no wonder he would suffer the consequences when he chased after Fang Yuan under such conditions.

Hei Lou Lan helplessly gave up. If he still persisted in chasing, it would definitely make Fang Yuan suspicious. And if Fang Yuan guessed the Gu was Hei Lou Lan's vital Gu, the situation would turn even worse.

“I can only rely on my connection to my vital Gu and slowly get near him while dodging the formless hands, then I will ambush this damned thief!”

Hei Lou Lan gritted his teeth till they made cracking noises, while thinking of all kinds of schemes.

Formless hands could seize Gu worms but could not refine them. Once the formless hand was broken apart, the Gu worm would be released upon which the Gu Master would be able to immediately sense the Gu and use his will to recall them.

Fang Yuan forcibly suppressed Hei Lou Lan’s vital Gu, but had no time or energy to spare to refine it. Thus, Hei Lou Lan still had connection with the Gu worm, and had hope of turning the situation around.

Time passed, the formless hands had completely gained control of the situation in true inheritance secluded domain. Giant light blue hands could be seen everywhere like swarms of bees hovering around.

Be it Gu Masters or true inheritance light lumps, they only had the choice of escaping.

“Spring Autumn Cicada…” Fang Yuan’s mouth was dry as the pressure in him continued to increase.

Following the growth of the immortal aperture, Spring Autumn Cicada continued to absorb the water of the river of time, causing the pressure in the first aperture to continue to increase. There were already many cracks on the first aperture’s walls.

To decrease the pressure on the first aperture as much as possible, Fang Yuan had already emptied out all the primeval essence in the aperture.

He flew rapidly, using tens of movement Gu which had huge demand towards primeval essence.

“Fortunately I had already planned and prepared long before this, and bought large numbers of beggar moths. But even so, I need to pay attention to my primeval essence. The consequences will be unimaginable if my primeval essence is completely exhausted!”

These beggar moths were Gu worms used to store primeval essence.

They looked like moths, but their wings had round holes. These holes made the beggar moth look tattered, resembling a beggar’s clothings.

In truth, however, the more holes there were on the beggar moth’s wings, the better. More holes meant the beggar moths could store higher rank primeval essence.

In the mortal world, these beggar moths were limited in supply. But Fang Yuan possessed Hu Immortal blessed land and was able to buy groups of beggar moths in treasure yellow heaven.

Fang Yuan directly purchased a group; although there were not many rank five and rank four beggar moths, rank three and rank two were huge in numbers.

Fang Yuan had close to a thousand beggar moths and had brought almost all of them with him.

Mortals could not buy them and would also find it hard to bear the expenses of raising Gu. But Fang Yuan had a Gu Immortal’s assets in Hu Immortal blessed land, and it was easy for him to raise them.

Not only beggar moths, he also had a lot of spare eagle rise Gu and other Gu.

Fang Yuan would keep his eagle rise Gu after using them for certain time and activate another eagle rise Gu.

There were six wings on his back and it looked like he was using three eagle rise Gu, but in truth, he was using more than a dozen eagle rise Gu in turns.

This was because of the heaven and earth qi.

Using Gu worms under this situation would be met with the backlash from heaven and earth qi, the Gu might even perish if they were used for too long.

Fang Yuan's immortal aperture was growing, as such he was the center of the gathering heaven and earth qi; causing the backlash force on him to be very high.

Thus, by alternating the use of Gu like eagle rise Gu, he could prolong their duration to the greatest limit.

It was again thanks to having Hu Immortal blessed land, having the help of a Gu Immortal resources, that he could be such extravagant.

The backlash of heaven and earth qi was also one of the barriers for a Gu Master to advance to Gu Immortal.

When Tai Bai Yun Sheng faced the tribulations in his ascension, his Gu worms perished in large numbers. If not for Fang Yuan's support, he would already have no more Gu worms to use after using them all up in facing chaotic lightning balls outside Eighty-Eight True Yang Building.

If a Gu Master was lucky enough to advance to a Gu Immortal, all their mortal Gu would normally be destroyed.

Advancing to a Gu Immortal was extremely risky and there was a high price to be paid.

In lots of cases, a newly advanced Gu Immortal would have nothing on him. Almost all the Gu worms they accumulated before would be completely used up.

Six Arm Heavenly Zombie King!

Fang Yuan suddenly turned into heavenly zombie form while flying and evading; his six wings soared and he raised his eight arms.

Bam.

The next moment, he directly clashed against a formless fist!

Fang Yuan did not feel any pain and directly shattered the formless fist, obtaining a Gu.

Fang Yuan was overjoyed when he saw the Gu.

This was the third wild Immortal Gu he had obtained after exiting Tai Bai Yun Sheng's immortal aperture. He was unable to examine it closely, but he stored it in his pocket after suppressing it.

Right now, he had the internal danger of Spring Autumn Cicada while on the outside, there was the formless hand disaster. He had to concentrate completely on flying, as well as pay attention to his primeval essence and the condition of his Gu worms.

But he could not deny his plentiful harvests.

Fang Yuan was deeply realizing what was called the coexistence of pain and joy.

His flying master attainment was a great help to him in this situation.

"Where is Ma Hong Yun?" Fang Yuan stored the third Immortal Gu and looked around him with insatiable greed.

Luck path supreme true inheritance had all along been of extreme interest to him.

Back then, Giant Sun Immortal Venerable had, to a large extent, relied on this to dominate the lands and become invincible in the world.

Previously, Fang Yuan had no way to do anything about this luck path true inheritance but now borrowing the strength of formless hands, he could seize the luck path Gu worms. This was an extremely rare opportunity!

However, even after searching all over whenever he had the chance, he did not see even the shadow of the luck path true inheritance.

Clearly, luck path true inheritance was also moving around.

The supreme true inheritance might be protecting Ma Hong Yun and Zhao Lian Yun, but it was only an acknowledgement of Fortune Rivaling Heaven; and it was still being controlled by a wild will. It was an instinct for wild Gu worms to dodge heavenly tribulation and earthly calamity.

It was a scene of chaos in the large true inheritance secluded domain; there were formless hands everywhere, true inheritance meteors, fleeing Gu Masters or dazzling attacks towards the clenched formless fists, all these were obstructing Fang Yuan's vision.

Fang Yuan also had to evade the formless hands and could not casually search. Both sides were on the move, thus it was actually normal for them to not bump into each other.

Crack, crack…

The sound of something cracking, like the cracking of egg shell, started to spread.

The cracks in true inheritance secluded domain were enlarging; it was only at one side first, but now the cracks had gradually spread to cover all sides.

More and more giant light blue hands squeezed in through the cracks.

Time passed, the losses to Fang Yuan's Gu worms were also becoming more severe.

On one hand, because of the backlash from heaven and earth qi, especially the movement Gu worms, even after being used in turn, they had reached the limit and many perished.

On the other hand, the quantity of formless hands had surpassed the point of qualitative change; sometimes, many formless hands would appear together and block all escape paths. Fang Yuan was thus grabbed two-three times.

But every time he was grabbed, he would intentionally choose the formless hand with less fingers, prioritizing his safety and letting his Gu worm be taken of his own accord.

Chapter 633 - Finally becoming a Gu Immortal

Chapter 633: Finally becoming a Gu Immortal

Translator: ChibiGeneral **Editor:** ChibiGeneral

As time continued to pass, Fang Yuan had no more opportunity to go shatter formless fists. He was busy running from the pursuit of the formless hands.

“Return my Gu!” By some coincidence, Hei Lou Lan appeared in front of Fang Yuan.

Fang Yuan sneered and activated wind flower Gu.

A translucent wind flower appeared beside him and quickly changed direction, taking him with it.

Whoosh!

With the wind flower Gu’s help, Fang Yuan’s speed remained the same when he changed his direction, and was able to avoid Hei Lou Lan.

Hei Lou Lan, however, was very happy: “I am finally lucky for once! He actually ran that direction!”

Fang Yuan had not flown far away before his speed rapidly declined.

“This is…”

His expression changed as he sensed that he had fallen into a dark vortex.

This was the trap Hei Lou Lan had set using one time expenditure Gu, specially used to trap enemies.

The formless hands were less than a hundred steps away.

Fang Yuan snorted and without losing his composure, used flash bug Gu; he disappeared from the spot and appeared five hundred steps away the next moment.

After getting out of his predicament, Fang Yuan immediately increased his speed, but not even a few breaths later, he once again fell into a dark vortex.

He again used flash bug Gu to free himself.

But following that, he fell in the third dark vortex again.

True inheritance secluded domain was originally a place filled with darkness, as such dark vortexes were extremely concealed here. Without someone running into them, they would remain still and there would be no way to sense them. But once someone ran into them, they would form a sinking force like one had stepped into a swamp or quicksand.

“You can’t run away! I have placed countless traps all over the surrounding hundred li!” Hei Lou Lan shouted while rapidly flying towards Fang Yuan.

Fang Yuan was suffering the consequences of a lack of investigation. He shouted furiously: “You are seeking your own death, don’t blame me!”

He activated six arm heavenly zombie king and forcefully freed himself from the vortex, charging straight towards Hei Lou Lan.

Hei Lou Lan felt a chill before it turned into joy. He was not afraid of Fang Yuan attacking him, but afraid of Fang Yuan fleeing all the time and not give him the chance to fight.

New and old hatred overlapped; both sides wanted nothing more than to kill each other.

However, they had not even fought yet, when Hei Lou Lan suddenly changed his direction and fled.

Shortly, Fang Yuan's expression also changed and retreated towards the back extremely quickly.

Too horrifying!

A large group of formless hands breezed down from above, their numbers were at least five to six hundred!

The light blue radiance dyed the surrounding space into a scene of blue.

The formless hand group divided into two, chasing after Fang Yuan and Hei Lou Lan.

Fang Yuan was facing an unprecedented crisis.

He did not dare to fly in between the formless hands. There were too many formless hands, even a light movement could easily seal all his paths.

Fang Yuan could only fly forward swiftly, with the large group of giant light blue hands closely chasing him.

"No, don't come here!" Ye Lui Sang shouted in panic. He was moving with three other Gu Masters, and coordinating with each other, he was barely able to ensure the safety of his fire path Immortal Gu; however, now he suddenly saw Fang Yuan flying towards them!

And when he saw the group of formless hands behind Fang Yuan, Ye Lui Sang's heart nearly jumped out in shock.

Fang Yuan not only increased his speed, he also quickly made his move; long range attacks sealed the best escape routes of Ye Lui Sang's group and also greatly slowed down their speed.

Next, Fang Yuan turned a little and flew past them, continuing to fly swiftly.

Ye Lui Sang’s group was escaping with all their strength, but it was nowhere near enough.

“No—!” This unlucky Ye Lui tribe leader let out a miserable scream as hundreds of formless hands filled his vision.

Like a burst of strong wind wreaking havoc or like locusts passing through the fields, the giant light blue hands plundered Ye Lui Sang’s group and continued to chase after Fang Yuan.

Ye Lui Sang’s group stood on the spot with dazed expressions. There were too many formless hands and in just a few breaths of time, all their Gu worms were seized.

In an instant, they had become completely penniless. Although they still had primeval essence remaining in their apertures, there was nothing to use them on!

“How will I report to supreme tribe elder when I return?!” Ye Lui Sang’s heart was filled with fear and bewilderment.

His fire path Immortal Gu was lent to him by Ye Lui tribe’s supreme tribe elder Ye Lui Lai to help him obtain victory in this Imperial Court contest.

The value of the Immortal Gu was self-evident.

Ye Lui Sang lost in the contest, but to preserve the Immortal Gu, he had to bear the disgrace of siding with Hei Lou Lan who was also a super tribe leader like him.

And now, because of Fang Yuan sending the disaster towards him, the fire path Immortal Gu he had protected with his heart and soul was gone!

Fang Yuan flew rapidly before glancing behind him; he felt relieved when he saw the formless hands had decreased in number.

This was the contribution of Ye Lui Sang’s group.

Fang Yuan saw hope in getting rid of this group of formless hands.

That was to draw the disaster towards others!

He had flying master attainment while others did not.

“Eh? That is!” While fleeing, Fang Yuan finally discovered trace of Ma Hong Yun.

Luck path supreme true inheritance was shielding Ma Hong Yun and Zhao Lian Yun, while dodging and flying away from many formless hands chasing it. Of course, when compared to the group chasing Fang Yuan, it paled in comparison.

Without the least bit of hesitation, Fang Yuan immediately flew towards Ma Hong Yun.

Sensing an even greater danger, luck path true inheritance light lump instinctively changed its direction.

However, Fang Yuan chased it relentlessly and with extremely deft movements, he was able to gradually get closer.

“Let us go, I beg you, please let us go!” Ma Hong Yun’s pleading came from within luck path true inheritance.

“Don’t come over, don’t come over!” Zhao Lian Yun was also shivering in fear.

Fang Yuan’s heart was tough like iron and cold as steel, how could he be swayed?

His speed suddenly increased violently as he made a beautiful arc beside the luck path true inheritance.

The formless hand group was immediately attracted to the aura of luck path true inheritance and flocked to it.

“We’re finished!” Both of Ma and Zhao’s faces turned as they looked at the hundreds of formless hands blocking their escape routes, attacking like a storm.

“Hahaha, luck path supreme true inheritance!” Fang Yuan made a full circle, before flying back.

“My immortal aperture has almost finished forming, this is truly wonderful, I can use it to store the luck path Immortal Gu!” Fang Yuan’s gaze burned looking at the formless hands shrouding the luck path true inheritance.

Whooosh Whoosh Whoosh…

Soon, many formless fists started flying away.

Fang Yuan immediately started using all his methods to seize the Gu.

One, two… five, six… the number soon crossed ten.

Fang Yuan knew he would not be able to catch all luck path Gu worms, but he was satisfied at having such a harvest.

“Wait a moment, a six fingered formless fist!”

Fang Yuan suddenly discovered a major target. The six fingers signified this fist was holding a rank six luck path Immortal Gu!

Fang Yuan’s eyes reddened and his breathing sped up as he used all his strength to chase the six fingered fist. He turned into six arm heavenly zombie king and directly pounced towards the fist. His eight arms burst out with fist shadows as he rained down violent punches!

The formless fist shattered and as expected, revealed a luck path Immortal Gu.

“Haha!” Fang Yuan laughed heartily as he quickly grabbed it.

However, right at this instant, a six fingered formless hand flew over and grabbed Fang Yuan! Its timing was impeccable as Fang Yuan’s guard was slightly relaxed due to the happiness; the result was extreme joy turning into sorrow!

Fang Yuan felt his mind go blank and cursed out; the time seemed to have stretched out extremely long at this moment.

After two breaths, the six fingered formless fist flew away from him and Fang Yuan recovered the ability to move.

Fang Yuan immediately unfolded his six wings and left the spot immediately.

He hurriedly glanced behind him and saw fifty to sixty formless hands crashing into each other at the spot where he had just been before.

If he had even the slightest hesitation…

Fang Yuan's forehead was soaked with cold sweat.

He then examined his body and the discovery caused him to turn gloomy. The Gu that was seized was not any of the Immortal Gu he had seized or Spring Autumn Cicada, it was Fixed Immortal Travel.

"This damned luck!" Fang Yuan cursed. Fixed Immortal Travel was his primary method to leave this place and return to Hu Immortal blessed land!

He must get it back!

Fang Yuan temporarily suppressed the luck path Immortal Gu and stored it in his pocket, then he stared at that six fingered formless fist and gave chase.

When one walks by the river, how could one's shoes not get wet?

Fortunately, his immortal aperture finished stabilizing during the chase.

Fang Yuan's risky attempt at advancing to Gu Immortal ended in success, at this moment he had become a true strength path Gu Immortal!

His strength path immortal aperture was very huge with about $3500km^2$ of area. The sky was orange-yellow and there were all sorts of lofty, tall and straight mountains on the ground made of white stones with not even a blade of grass on them.

An invisible tributary of the river of time was pulled into the immortal aperture blessed land, supporting the normal operations of this small world.

In comparison to the outside world, the flow of time here was one to sixteen.

The most important point was there were twenty-two green grape immortal essence beads!

“This is a medium grade blessed land…” Fang Yuan sighed.

When a Gu Master advanced to Gu Immortal, their immortal aperture could be classified into three grades.

A small blessed land has a size of 2000km^2 at the maximum, can draw in a small tributary of the river of time and create over ten beads of immortal essence, while being a land of few resources.

Medium grade can have a size of 2000km^2 to 4000km^2, draw in a slightly bigger tributary of the river of time, create over twenty beads of immortal essence and has plentiful resources.

High grade blessed land can have a size of 4000km^2 to 6000km^2 , draw in a large tributary of the river of time and create over thirty beads of immortal essence. There will be plenty of heaven and earth qi remaining which can mutually interact and refine a mortal Gu into Immortal Gu during a burst of inspiration!

When Tai Bai Yun Sheng advanced to Gu Immortal, he refined two Immortal Gu; no doubt, his was a high grade blessed land.

Fang Yuan’s strength path immortal aperture, however, was a medium grade blessed land.

“I might have much more human qi compared to Tai Bai Yun Sheng, but he received the help of human qi Gu and his human qi was able to greatly surpass mine. I received the protection of Eighty-Eight True Yang Building and Giant Sun’s will; this was both an advantage and a disadvantage. Large amounts of heaven and earth qi were isolated outside and only a small part was able to seep into true inheritance secluded domain which was absorbed by me.” Thoughts flashed Fang

Yuan's mind like sparks.

Giant Sun's will was after all forced to help Fang Yuan resist the heavenly tribulation and earthly calamity due to helplessness.

It absolutely would not kindly allow the heaven and earth qi to enter true inheritance secluded domain which could provide Fang Yuan with more potential.

"Besides this, there is also another important factor – Spring Autumn Cicada."

Spring Autumn Cicada absorbed the water of the tributary of river of time which was akin to cutting off the nourishment and greatly weakened the accomplishment of strength path immortal aperture.

Thus, Fang Yuan's strength path immortal aperture's time flow had one to sixteen ratio which was lower than normal standard.

Chapter 634 - Wind Veil of Assimilation

Chapter 634: Wind Veil of Assimilation

Translator: ChibiGeneral **Editor:** ChibiGeneral

Fang Yuan felt no regret towards obtaining a medium grade blessed land.

This was for the best!

Within the first aperture, Spring Autumn Cicada's pressure had already reached its limits, the first aperture's walls were full of cracks. If he continued, he might cause the aperture to explode.

If it was a high grade blessed land, it could refine an Immortal Gu and create a heavenly tribulation and earthly calamity within the blessed land.

Fang Yuan's predicament was extremely dangerous, he had both internal and external threats. If his immortal aperture had a heavenly tribulation and earthly calamity wrecking havoc inside, Fang Yuan would surely become too distracted, it would be fortunate if he only suffered a great loss, but most likely he would lose his life.

"Regardless, becoming a strength path Gu Immortal means I have the ability to interfere in the battle now." Fang Yuan sighed deeply, throwing all of his Gu worms, be it mortal or Immortal Gu, into his strength path immortal aperture.

The immortal aperture had a huge space, it could easily hold

Immortal Gu.

Next, Fang Yuan willed and used a bead of green grape immortal essence.

Immediately afterwards, the green grape immortal essence spread and filled the entire blessed land, turning into almost limitless primeval essence.

Fang Yuan heaved a sigh of relief, from this moment on, he no longer had to worry about primeval essence expenditure, he could use mortal Gu without any restraints anymore.

This was the biggest difference between mortal and immortal.

“At the same time, after becoming an immortal, the heaven and earth qi were all consumed, thus there would no longer be any threat of a backlash!” Fang Yuan’s aura was surging, his eyes were shining with brilliance.

His body shook slightly, and another pair of eagle wings grew on his back.

Flying with eight wings, Fang Yuan’s speed become faster again, chasing after Fixed Immortal Travel.

Seeing that he was about to reach his target, Tai Bai Yun Sheng called out for help behind him.

“Junior brother, assist me, that hand took away my Immortal Gu Landscape as Before!”

Fang Yuan turned around and saw a six fingered formless fist flying towards his left. Tai Bai Yun Sheng was dragging the supreme true inheritance light lump as he chased after it desperately.

Fang Yuan hesitated for a moment, this six fingered formless fist was right beside him, if he did not help, he would not be able to explain himself.

He immediately activated the wind flower Gu, barely turning around.

His speed was simply too fast, even the wind flower Gu in his immortal aperture could not take it, as many petals fell out.

Fang Yuan caught up to the six fingered formless fist and smashed at it, breaking it open and rescuing Landscape as Before.

Tai Bai Yun Sheng was overjoyed upon seeing this: “Great, junior brother, if not for your help…”

Fang Yuan’s pupils shrunk, shouting anxiously: “Senior brother, dodge!”

Too late!

An eight fingered formless hand flew over and grabbed onto Tai Bai Yun Sheng.

Tai Bai Yun Sheng was immobilized, his face was full of shock and fear. During this time, hundreds of formless hands flew over and encircled Tai Bai Yun Sheng!

At the same time, large numbers of formless hands were flying over from far away.

“Damn it… not only was Tai Bai Yun Sheng caught, he had the supreme true inheritance with him. This is bad, Eighty-Eight True Yang Building is going to be destroyed! I have to take back Fixed Immortal Travel quickly!” Fang Yuan did not dare to save him, his eyes flashed with a cold light as he placed the landscape as before Gu into his immortal aperture and turned around to leave.

Fixed Immortal Travel Gu was the best method to escape, it was more important than any other Immortal Gu right now in Fang Yuan’s heart!

Fang Yuan flew rapidly, about to reach the formless fist.

“After I take Fixed Immortal Travel, I will leave, who cares about Tai Bai Yun Sheng anymore!” Fang Yuan’s eyes shone with brilliance, he had made up his mind.

True inheritance secluded domain was at the deepest part of Eighty-

Eight True Yang Building, and there were already so many formless hands here, not to mention the outside world.

He had obtained enough benefits, and he had even successfully advanced to an immortal, if he continued staying here, he might lose his life.

Fang Yuan had the intention to retreat already.

But just when he was about to succeed, Hei Lou Lan blocked his path.

“Don’t think that I’ll be afraid just because you became an immortal! Return my Gu worm to me now and I’ll give way immediately!” Hei Lou Lan screamed.

“You are courting death!!” Fang Yuan stared furiously, he wanted to tear Hei Lou Lan into several pieces, but his logic dictated him to change directions and swerve around Hei Lou Lan, continuing his pursuit.

Hei Lou Lan snickered, he was unable to catch up to Fang Yuan, but in terms of long range methods, he had his ways to obstructing Fang Yuan in his chase.

Fang Yuan was obstructed by Hei Lou Lan time and again, he had to change his direction.

“Is this worth it? Just return my Gu to me and you’ll be able to reach this formless fist. Don’t forget, after the formless fist flies for a certain distance, it will vanish along with the Gu worm.” Hei Lou Lan urged.

He was extremely anxious, his vital Gu was in Fang Yuan’s hands, but he had to control himself and mask his anxiety.

Fang Yuan shouted out in anger, his expression still as water.

There was no way he would return the Gu worm to Hei Lou Lan.

The more Hei Lou Lan cared about this Gu, the more important this Gu was to him.

Hei Lou Lan was a huge enemy, even if he returned the Gu worm, if he did not keep his promise and continued obstructing Fang Yuan, what then?

Fang Yuan could only make detours and continue chasing after his target.

Bam!!!

Right at this moment, there was a huge sound.

True inheritance secluded domain completely broke apart, instantly exploding.

Eye piercing sunlight filled everyone's vision. At once, Fang Yuan and the others were caught off guard, their entire vision turned white.

In such a situation, who would dare to shut their eyes completely?

Even though their eyes were overflowing with tears due to the intensity, they had to open a slit.

As the white light faded slowly, from their blurred vision, everyone could see that they were floating in the air.

"Save us!" Many Gu Masters cried out desperately for help.

They were all unlucky people who had their Gu worms taken away. Without Gu worms, this rapid descent would cause them to die upon impact with the ground.

Nobody lent a hand to help them. Those Gu Masters who were barely floating in the air could only care about themselves, as they looked around in shock.

In the sky, there were thousands of formless hands, closely packed together.

On the ground, smoke was rising and there was debris of Eighty-Eight True Yang Building everywhere. These broken walls and structures were disintegrating, turning back into Gu worms.

The number of Gu worms was too many, each tile could split up into an ant’s nest worth of Gu worms.

“Oh my heavens!”

“Eighty-Eight True Yang Building collapsed!”

“Oh Longevity Heaven, why is this happening?”

Everyone was flustered and shocked, when suddenly a bright golden rainbow shot up in the sky!

“Leave behind the Immortal Gu!” The remaining Giant Sun’s will had been storing energy for this moment, he finally made his move!

The golden rainbow shot out like lightning, in the blink of an eye, it destroyed one formless fist and obtained the Immortal Gu within.

Divert disaster Gu!

Giant Sun’s will entered the Gu and quickly activated it.

Divert disaster Gu shot out pillars of light and shone everywhere.

The formless hands that were swept by the light pillars shrunk in size and their speed fell. Those formless hands that were hit by the light pillar disintegrated rapidly and the Gu worms within were released.

At once, Giant Sun’s will regained several Immortal Gu!

“Otherworldly demon! Luck path true inheritance!!” Giant Sun’s will looked at the luck path true inheritance that was trapped by the formless hands, as well as Ma and Zhao who were inside the light lump.

Without a trace of hesitation, he flew over with killing intent.

“My Fixed Immortal Travel…” Fang Yuan’s heart sank to rock bottom.

He lost his target.

The formless fist that contained Fixed Immortal Travel had gone missing, it had flew away with Fixed Immortal Travel into the unknown.

Fang Yuan had completely lost Fixed Immortal Travel!

“Damn it!” Fang Yuan controlled his heartache as he forced himself to calm down.

Without Fixed Immortal Travel, he could still use the stargate to return to Hu Immortal blessed land, but this stargate needed to be sustained, so if Fang Yuan wanted to leave this place, he first needed to find a safe environment.

“Old Ancestor is here, you have no way out now. Return my Gu worm to me and I can still help you ask for mercy.” Hei Lou Lan flew over, shouting.

Fang Yuan’s eyes flashed with cold light.

Hei Lou Lan’s words reminded him, his biggest threat now were the formless hands, followed by Giant Sun’s will.

Although the current Giant Sun’s will was heavily damaged and was not even a tiny fraction of its original state, it was still not something Fang Yuan could take on!

The will that Giant Sun Immortal Venerable left behind was too grand and majestic. Even though it had undergone such tremendous weakening, even though Fang Yuan was now a Gu Immortal, he was still not its match.

Most importantly, it was currently snatching Immortal Gu all over the place, once it activates the Gu, its battle strength would surge!

“Ordinary Gu worms need primeval essence or immortal essence to activate. No matter how powerful Giant Sun’s will is, he is still a will and needs to use the rank nine yellow apricot immortal essence that Giant Sun Immortal Venerable had left behind.”

Fang Yuan’s gaze was like an eagle, he looked towards Giant Sun’s will who was far away.

He had just taken a look when a formless hand flew over.

Fang Yuan flapped his wings, evading successfully.

“Damn it!” Hei Lou Lan cursed ruthlessly, he had also suffered the attacks of three formless hands along the way.

True inheritance secluded domain was broken apart, the number of formless hands in the air increased by at least ten times!

These formless hands attacked, causing Fang Yuan and Hei Lou Lan to be dodging them with all their effort, they could not spare the energy to care about other things.

Bam bam bam…

Wind blades danced in the air, cutting apart several formless hands.

The Gu that were caught earlier were released, while Giant Sun’s will was like a golden dragon, pouncing on them.

He had much of Giant Sun’s immortal essence, he had the capability to instantly refine Gu worms when he got them, his battle strength surged and his aura was like a rainbow.

“Otherworldly demon! Luck path true inheritance!” Soon, Giant Sun’s will found Ma and Zhao.

They were surrounded by countless formless hands, the originally large true inheritance light lump had shrunk by at least a third of its size.

Giant Sun’s will howled loudly, as several Immortal Gu and hundreds of rank five mortal Gu were used together at once.

The light of divert disaster shot straight, a thousand wind blades danced in formation, a bright red fire crow spread its wings and flew while screeching…

All sorts of attacks surrounded the luck path true inheritance like the falling petals of a flower.

Once any formless hands flew out, they would be instantly destroyed, and the Gu worm within would be taken by Giant Sun’s will.

“Oh no, this luck path true inheritance originally belonged to Giant Sun Immortal Venerable. If Giant Sun’s will obtains it, it would truly be a tiger gaining wings, or a flood dragon entering the sea!” Fang Yuan flew rapidly, taking a look at this scene, his heart turned heavy.

He looked around, but realized that to leave this place, he needed the stargate Gu.

“Imperial Court blessed land is on the brink of destruction, the outer fringe of the blessed land is already blowing with winds of assimilation, forming a huge circular wind veil. This wind has tremendous force, even if I am a Gu Immortal, I cannot resist it, I cannot force my way out!”

Chapter 635 - Important Decision

Chapter 635: Important Decision

Translator: ChibiGeneral **Editor:** ChibiGeneral

Imperial Court blessed land was the number one blessed land of northern plains, it had deep foundations and tremendous fortune.

Despite this, after Fang Yuan entered it, first, there was the contest of the land spirit, Frost Jade Peacock, and Giant Sun’s will.

Next, Fang Yuan and Tai Bai Yun Sheng underwent immortal ascension and took in the heaven and earth qi of the blessed land.

Furthermore, there was the once in ten years blizzard ravaging the blessed land, and it even fused with Tai Bai Yun Sheng and Fang Yuan’s tribulations to form a terrifying heavenly tribulation.

Frost Jade Peacock was able to endure it for so long, that was really quite a miracle already. Imperial Court blessed land’s destruction was a foregone conclusion, now that the wind veil was formed, Imperial Court blessed land was surrounded like a sphere, and the walls of the sphere were extremely thick, at least hundreds of meters.

Even if the formless hands flew there, they would be crushed into bits, being assimilated into wind and lead to growing the strength of the winds of assimilation.

Even with flash bug Gu, Fang Yuan could not get through it.

However, this wind veil also formed an isolation barrier and prevented outside forces from intervening.

At this moment, thousands of meters above the ground, in the sky.

Three Gu Immortals looked down at the grand winds of assimilation that was like a giant dark green bowl inverted on the ground with a grim expression.

The wind veil's surface was very tranquil, but no one dared to underestimate the power of the winds of assimilation!

"Imperial Court blessed land's destruction is unavoidable! What happened inside? How did it become like this?!" One of the Gu Immortals, an elderly man, looked with a furious gaze as his brows were tightly folded.

Eighty-Eight True Yang Building, Imperial Court blessed land, they were the arrangement of Giant Sun Immortal Venerable to benefit his descendants.

As descendants with Huang Jin bloodline, they had already considered Imperial Court blessed land as their territory since long ago.

But now, the domain that held great treasures had been destroyed, these righteous path Gu Immortals of northern plains' super tribes were like dormant volcanoes turning active.

"Very evidently, this is a huge scheme. Our investigations earlier have shown that the most suspicious person is that Wolf King Chang Shan Yin. We have enough evidence to conclude that this person is an impersonator, the real Chang Shan Yin had died long ago!" Another young Gu Immortal said solemnly.

After pausing for a while, he continued: "Obviously, not just Chang Shan Yin, but other than him, Tai Bai Yun Sheng, Bian Si Xuan and the others are also suspicious. This scheme is very deep, it involves the forces of central continent!! According to what we've learnt, there are at least three of the ancient sects in central continent plotting against the Eighty-Eight True Yang Building for the last hundred years!”

Central continent Gu Immortals’ secret plot expended a lot of their effort and resources, to create the loopholes and setups. In the end, Fang Yuan made use of these arrangements in advance, all of their hard work had gone to the benefit of someone else.

Northern plains Gu Immortals were not to be trifled with.

Imperial Court blessed land, Eighty-Eight True Yang Building, they were the spiritual symbols of northern plains, they were extremely important.

The moment something happened to Imperial Court blessed land and the happenings inside were exposed to the outside world, northern plains’ forces all paid close attention to it.

Unfortunately, they were all outside, and the situation had advanced too quickly, it was already too late by the time they wanted to save Imperial Court blessed land.

“Sigh…” The leader of the Gu Immortals sighed deeply.

He was good looking with red lips and white teeth, but for some reason, he had the appearance of a child, the aura he was emitting was extremely powerful, he was subtly the leader of the three.

“The most important thing now is not to investigate these matters, but to consider the ways to salvage this situation! Eighty-Eight True Yang Building was the arrangement of Giant Sun Immortal Venerable, a rank eight Immortal Gu House, it is profound and mysterious, its heavenly power is not something we can understand. Although the winds of assimilation this time are fierce, forming a wind veil, it might not be able to destroy Eighty-Eight True Yang Building. We will stay here and look for an opportunity to help, while being careful of any unexpected situations.”

The child Gu Immortal’s words made the elderly man and the young man Gu Immortal breathe in deeply.

“Lord Tong Zu, you are absolutely right. Our Chanyu tribe has the immortal killer move — Winged Blade, as long as we activate it together, we will be able to forcefully break the wind veil of assimilation.” The young man Gu Immortal said this, unable to conceal his pride.

“The winds of assimilation is not to be underestimated, even with winged blade, we only have one chance to attack. I have made my calculations, the injury that we cause on this wind veil of assimilation would recover in only eight breaths of time.” The elderly man was a wisdom path Gu Immortal, he could make deductions and predictions.

The leader of the three, Chanyu Tong Zu, nodded slightly: “Right now, Hei tribe, Ye Lui tribe, Dong Fang tribe and others are surrounding the wind veil, all these righteous path super tribes have sent their Gu Immortals. There is also the number one demonic path force Snowy Mountain, they sent six Gu Immortals, attempting to take advantage of the situation. Don’t underestimate them, we have our trump cards, so do they. When we use the winged blade, we have to prevent them from taking advantage of us.”

…

“The luck path true inheritance cannot fall in the hands of the otherworldly demon, all these are mine, mine!” Giant Sun’s will shouted loudly, his voice reverberated over the entire battlefield.

He turned into a golden dragon, taking form at will. Sometimes, seventeen to eighteen small dragons were created, while at the next moment, they combined into a giant dragon!

He carried Giant Sun’s immortal essence, using it without holding back.

More than ten Immortal Gu were embedded on the dragon’s body, there were two on its dragon horns, one in each of its eyes, and six to seven in its scales.

Blazing flames, divert disaster light beam, frost energy, all sorts of attacks were unleashed unceasingly.

At this point, Giant Sun’s will could finally use his full strength.

Giant Sun's will had suppressed his anger for too long, he released all of it at this moment!

First, he had to get rid of the otherworldly demon, and because of the luck path true inheritance's importance, Giant Sun's will first surrounded Ma and Zhao.

Large numbers of formless hands covered the luck path true inheritance tightly, at times, formless fists that captured luck path Gu worms flew out.

Giant Sun's will was like a golden dragon, surrounding the luck path true inheritance and coiling around it, destroying all of the formless fists that came out.

There were many formless fists, even Giant Sun's will could only choose some and attack those, trying to free more Immortal Gu to raise his battle strength.

But near the giant will dragon, there were also large numbers of formless hands.

When Giant Sun's will snatches these Gu worms back, the formless hands would steal them again. During this contest, the two were fighting intensely and occupied the sky.

Below this battle, the remaining surviving Gu Masters were fighting with a smaller number of formless hands.

Even though Giant Sun's will attracted most of the formless hands, the Gu Masters were not having an easier time.

With the destruction of true inheritance secluded domain, the Gu Masters were completely exposed and out in the open, they were attacked by even more formless hands.

The formless hands were almost immune to all attacks, they flew in the sky and pierced through rocks, nothing could obstruct them. Only after stealing a Gu worm would they form into a fist and be susceptible to attacks.

But the speed of the formless fists was very fast, not all Gu Masters could chase after them and destroy them successfully.

Fang Yuan, Hei Lou Lan, and the others were a minority, they were geniuses among geniuses.

“Old ancestor, please help… ahh—!”

A shrill scream could suddenly be heard.

Everyone could not help but raise their heads and look.

Only to see that a Gu Master from a super tribe, one who bears a pure bloodline, was left with no other choice after being chased by the formless hands and flew into the sky to seek help from Giant Sun’s will. But in the end, he was the first to be slaughtered by Giant Sun’s will after he activated the Immortal Gu to attack.

“Such might…” Hei Lou Lan raised his head and looked, even with his Great Strength True Martial Physique, he did not dare to get close to Giant Sun’s will.

Giant Sun’s will had completely erupted, his attacks were fierce and carried tremendous might. His entire mind was on the luck path true inheritance, while competing with the formless hands, he had no energy to care about Giant Sun’s bloodline descendants.

“So painful…” At this moment, Ye Lui Sang drew in a breath of cold air, crawling up from the ground.

The Gu worms on his entire body were stolen, he had fallen from the sky. Thankfully, his body was once tempered using Gu worms, thus he only suffered bone fractures while keeping his life.

Looking at this unlucky person who died, he suddenly felt extremely glad. At least, compared to this unlucky guy, he was still alive!

Being alive was more important than anything.

Fang Yuan could feel an immense mental pressure.

“Damn it…” He gritted his teeth in annoyance, he wanted to leave but had no way to break out of this predicament.

"Thankfully, Giant Sun's will did not target me at the start, but instead went after that otherworldly demon Zhao Lian Yun, while also wanting to protect the luck path true inheritance."

Fang Yuan was very clear in his heart, once Giant Sun's will gets rid of this problem, he would not let him off.

By then, he would be like a sheep standing near a tiger, or a rabbit near a python.

"Giant Sun's will alone cannot activate so many Immortal Gu. Even though I became a Gu Immortal, if we fought head on, I would still not be Giant Sun's will's match. That is unless I cut away his connection with Giant Sun's immortal essence!"

Fang Yuan's mind was very sharp.

But unfortunately, there were too many formless hands, he had to exert himself in dealing with them.

Other than Giant Sun's will, he was the one with the most Immortal Gu, their aura was attracting the attack of many formless hands.

At the same time, Hei Lou Lan's continuous attacks were also quite a problem.

He had the Great Strength True Martial Physique of the ten extreme physiques, a true child of heaven, he could be thought of as the matured version of Bai Ning Bing. Be it his battle capabilities or foundation and accumulation, they were very outstanding.

He had heaven defying battle strength, even Tai Bai Yun Sheng was not his match, the power of his self-detonation could slay an immortal!

After being obstructed once again by Hei Lou Lan, Fang Yuan's gaze towards him became more ominous.

At the same time, Fang Yuan thought to himself: "This Hei Lou Lan has an absurd number of Gu worms. He had many of his Gu worms taken away, yet he still has so many remaining!"

There was a reason for this of course.

Hei Lou Lan's sole purpose was to enter Eighty-Eight True Yang Building and obtain a strength path Immortal Gu, before attempting his immortal ascension in Imperial Court blessed land.

Thus, he made ample preparation, especially with his father's help, he accumulated many Gu worms.

He considered the backlash of the heaven and earth qi during his immortal ascension which would lead to the death of Gu worms, thus he prepared a lot of Gu worms, more than what anyone could imagine.

"Junior brother, save me!" After dodging for a while, Fang Yuan heard Tai Bai Yun Sheng's cry for help.

It turns out, Tai Bai Yun Sheng was trapped by the formless hands, floating in the air as he desperately defended himself.

Eventually, his Gu worms were all taken away.

After losing the support of his Gu worms, even as a Gu Immortal, he started falling towards the ground.

Tai Bai Yun Sheng was his only alliance mate, he could not abandon him yet.

Fang Yuan immediately made a turn and took a risk to save him.

But who knew that during that period, Tai Bai Yun Sheng's anxious shout could be heard: "Quick, junior brother, take back my Immortal Gu Man as Before!"

Fang Yuan's heart jumped, seeing that a six fingered formless fist was flying out.

If at this moment, Fang Yuan chooses to save Tai Bai Yun Sheng, then he would lose the best opportunity to take back man as before Immortal Gu. Most likely, after he saves Tai Bai Yun Sheng, Man as Before would be transported away by formless fist.

To save Tai Bai Yun Sheng, or to take back the Immortal Gu Man as Before?

At this moment, Fang Yuan had to make an important decision.

Chapter 636 - Shocking Change

Chapter 636: Shocking Change

Translator: ChibiGeneral **Editor:** ChibiGeneral

To save Tai Bai Yun Sheng, or take back Man as Before?

At this instant, Fang Yuan hesitated.

Man as Before, this Gu was extremely famous even though it was a mortal Gu. Now that it had become an Immortal Gu, its ability was even greater.

According to what Tai Bai Yun Sheng had said earlier, when it was a mortal Gu, it could turn a Gu Master's condition back to a state in the past. After becoming an Immortal Gu, it could not only affect others but even himself.

This 'himself' naturally meant Tai Bai Yun Sheng.

Tai Bai Yun Sheng was a Gu Immortal, it was not hard to deduce that the Immortal Gu Man as Before could affect Gu Immortals as well!

As a Gu worm that can heal a Gu Immortal, the value of Man as Before need not be mentioned. In fact, its value far surpassed ordinary Immortal Gu!

Thus, Tai Bai Yun Sheng was so anxious, forgetting his own predicament and reminding Fang Yuan to take back Man as Before.

But Tai Bai Yun Sheng's words were merely out of anxiety, he said it without truly considering the consequences.

In the case that Fang Yuan really abandoned him and attempted to retrieve Man as Before Immortal Gu, Tai Bai Yun Sheng would be in great danger.

Even though the essence of a Gu Master's life undergoes a qualitative change when becoming a Gu Immortal, if he fell from such a high altitude, even if Tai Bai Yun Sheng survived, he would be gravely injured.

And don't forget that there were many other Gu Masters who were remaining on the ground.

"Taking back Man as Before would use up a lot of time. Even if I retrieve Man as Before, if this causes a rift between me and Tai Bai Yun Sheng, what should I do then?"

Tai Bai Yun Sheng shouted out of anxiety, once he was in grave danger and his life was at risk, he would immediately realize: Compared to the Immortal Gu, his life was more important. If at that moment, he saw his 'junior brother' chasing the Immortal Gu and giving up on saving himself, how would he think?

A person's heart is very fickle and ever changing.

Even though this sentence was said by Tai Bai Yun Sheng himself, when thinking of the circumstances and seeing things from another's shoes, he would feel doubt and suspicion.

"So be it if I still had Fixed Immortal Travel, but now that I have lost it, and the wind veil of assimilation is still contracting, isolating us from the outside world, I will need to use a stargate to leave this place and connect it to Hu Immortal blessed land!"

Fang Yuan was facing great difficulty.

To open the stargate, he would need to use starlight firefly Gu.

The formless hands were flying about and ravaging the place, they were an unstoppable force.

Once the starlight firefly Gu appeared, the formless hands would show up like flies. Even as a Gu Immortal, Fang Yuan had no confidence in protecting them from the formless hands.

“But now that the wind veil of assimilation has been formed, there is no more heaven and earth qi, even though there are a lot of formless hands, no new ones will appear. Furthermore, with Eighty-Eight True Yang Building breaking apart and dissolving into different Gu worms that are flying around…”

The formless hands had no energy source, they could not be sustained.

Fang Yuan was a veteran demonic path cultivator with five hundred years of experience, he naturally had good insight.

“Once the formless hands weaken, Giant Sun’s will would become the strongest force in this battlefield. By then, after he gets rid of Ma and Zhao, retrieving the luck path true inheritance, he would come after me!”

By then, Giant Sun’s will would have Giant Sun’s immortal essence and many Immortal Gu, he would truly be the strongest foe.

As the weaker party, Fang Yuan had to choose to cooperate against this strong foe, to resist the enemy with numbers.

In this entire battlefield, Tai Bai Yun Sheng was the only suitable person.

Even though he was a healing Gu Immortal, he was still a Gu Immortal!

Even though his Gu worms were all stolen, Fang Yuan could lend him some.

Moreover, Hei Lou Lan and the other blood related descendants were all Giant Sun’s will’s natural allies. No matter how well Fang Yuan could speak, in such a short time and in such a situation, they would not switch sides.

After thinking so deeply, in reality, merely a short moment passed.

Fang Yuan moved like lightning, without hesitation, he flew towards

Tai Bai Yun Sheng who was falling.

“Junior brother, you… sigh!” Seeing Fang Yuan make such a choice, Tai Bai Yun Sheng who had calmed down looked with shining eyes, he was touched and wanted to say something, but eventually ended up sighing.

Along the way, many formless hands were obstructing them, but Fang Yuan twisted left and right, he was agile like a bird, he quickly shortened the distance between him and Tai Bai Yun Sheng.

But right at this moment, the figure of a person suddenly appeared around Tai Bai Yun Sheng.

“Old fool, you have finally fallen into my hands!” The figure quickly turned solid as Hei Lou Lan grabbed Tai Bai Yun Sheng by the collar, capturing him.

Although Tai Bai Yun Sheng was a Gu Immortal, he had no Gu worms on him, it was simply too easy for Hei Lou Lan!

Hei Lou Lan quickly activated his Gu worm, sealing Tai Bai Yun Sheng’s four limbs and making him faint.

Seeing the captive in his hands, Hei Lou Lan was overjoyed.

He was able to capture Tai Bai Yun Sheng under such chaotic circumstances mostly due to luck. But the result was already a success, now Hei Lou Lan’s mind was full of ways to threaten Fang Yuan, to use this captive to take back his vital Gu!

But he had just raised his head and had yet to speak, before he saw Fang Yuan’s body turning around and flying high up into the air.

“Hei Lou Lan captured Tai Bai Yun Sheng, it is obviously because he wants to threaten me and ask for that Gu worm!” Fang Yuan had guessed Hei Lou Lan’s intention at the first moment.

His heart sank, but he was still as calm as ever.

Since Hei Lou Lan had such an objective, he would not cause harm to Tai Bai Yun Sheng’s life. That means, Tai Bai Yun Sheng was safe for the time being.

In that case, the most important thing for Fang Yuan now was to retrieve the Immortal Gu Man as Before!

He dodged left and right, avoiding the formless hands' attacks. His eight wings flapped intensely as wind flower Gu and flash bug Gu were used in turns, eventually after fifteen minutes, after exerting all of his strength, with great difficulty he smashed the formless fist and took back the man as before Immortal Gu.

Because he obtained Tai Bai Yun Sheng's trust, man as before Immortal Gu did not struggle in Fang Yuan's hands.

Fang Yuan did not use his will to suppress it, he placed it into the strength path immortal aperture.

"Your senior brother's life is in my hands, quickly return my Gu worm!" At this point, Hei Lou Lan finally caught up and had the chance to issue a threat.

He was full of sweat, chasing Fang Yuan was not easy.

Especially when his movement speed was insufficient, and he still had to carry Tai Bai Yun Sheng.

He thought he understood Fang Yuan's objectives, he was very confident in himself.

Just as he said that, a formless hand flew over to him, Hei Lou Lan did not dare to resist it head on and had to dodge. This way, the imposing aura that he had tried to create was immediately weakened.

Fang Yuan's figure was like a lightning shadow, moving around the formless hands easily, when he got close to Hei Lou Lan, he was expressionless, but he was sighing over the inconvenience in his heart.

Fang Yuan knew that he could not resist Giant Sun's will alone, he needed Tai Bai Yun Sheng's help.

But now that Tai Bai Yun Sheng was a captive, Fang Yuan was quite restricted.

Although he had man as before Immortal Gu, he was not given permission by Tai Bai Yun Sheng to 'use the Gu'. If he could use it, when Hei Lou Lan kills the captive and Tai Bai Yun Sheng dies, Fang Yuan could revive Tai Bai Yun Sheng using Man as Before.

But there was a major problem here.

Using Immortal Gu Man as Before required immortal essence.

To revive a mortal, there was no issue. But to revive an immortal, the immortal essence expenditure would surely be huge.

Fang Yuan only had twenty-two beads of green grape immortal essence. He used up one in diffusing it into endless primeval essence, thus he only had twenty-one left.

This was his greatest assurance in fighting Giant Sun's will.

But to revive Tai Bai Yun Sheng, he would need to use at least ten green grape immortal essence!

Unless there was no choice, Fang Yuan did not want to do that.

Hei Lou Lan was truly a formidable character, it was no fluke that he was the person who became the victor of the Imperial Court contest. He had overwhelming talent and ability, once an opportunity appeared, he knew how to grab onto it.

"Don't tell me, I really have to return his Gu worm?"

Once that thought appeared, Fang Yuan suppressed it.

Hei Lou Lan was so anxious about that Gu, it was surely something extraordinary. Fang Yuan was not willing to return it just like that.

Most importantly, Hei Lou Lan was not trustworthy!

As time passed, Giant Sun's will and the formless hands' battle intensified.

Giant Sun's will originated from Giant Sun Immortal Venerable, he was very ruthless and wise, now that his original strength could be displayed fully, he showed off a matchless disposition.

He drew support from the luck path true inheritance light lump, and while fighting against the formless hands, he took back control of the one and only copy of the luck path true inheritance.

After so long, the luck path true inheritance light lump was still quite intact.

There were simply too many Gu worms inside this true inheritance, it was shocking. In just this short while, six luck path Immortal Gu were already taken by the formless hands.

No wonder it was the one and only copy.

Immortal Gu were unique, even for Giant Sun Immortal Venerable, he exerted all his efforts and could only elevate the true inheritance to this extent.

Three of the six Immortal Gu were retrieved by Giant Sun's will when he broke the formless fists. Giant Sun's will could only watch as the other three were taken away by the formless fists.

“Damn it! Too hateful!” Giant Sun's will got more furious as he fought, he had already hated Zhao Lian Yun to the depths of his soul, now he no longer cared about Ma Hong Yun's life.

“I want to see how long this luck path true inheritance can protect you for!” Giant Sun's will gritted his teeth.

If not for him wanting to protect the luck path true inheritance and being unable to attack all out, he would've destroyed this light lump and killed Ma and Zhao.

Ma and Zhao hugged each other, towards this situation, there was nothing they could do but to await death.

The great pressure was a huge turmoil on their hearts, their feelings for each other rapidly grew.

But this was useless.

The Frost Jade Peacock that recognised them as its master had already died.

The size of the luck path true inheritance light lump was less than a third of what it had been originally. Seeing that death was approaching closer and closer, Ma and Zhao lost any hopes of surviving.

Fang Yuan and Hei Lou Lan were at a stalemate, they were bargaining. Both sides were very distrustful of each other, this talk was progressing very slowly.

Clang—!

Right at this moment, from outside the wind veil, there was the sound of a blade.

The sound of the blade was crisp and sharp, it reverberated in everyone’s ears.

“What?”

“This is!”

Everyone raised their heads, they were attracted by this strange event, even the giant dragon of Giant Sun’s will stopped its attacks.

Only to see that above them, on the wind veil of assimilation, there was a huge opening created by a blade.

Everyone could see the outside sky of northern plains through the opening caused by the blade.

In the sky, three Gu Immortals from Chanyu tribe were breathing roughly.

This was the immortal killer move that they activated — Winged Blade!

Around them, there were a dozen or so Gu Immortals.

It turns out that when the three of them were colluding not too long ago, other righteous path Gu Immortals approached them. Because Hei tribe's Gu Immortals were very sincere and put in a lot of effort, they came to an agreement quickly and thus chose to attack earlier than expected.

With the blade opening, the inside and outside world were connected.

This was a huge influence to anyone in the battlefield!

The ones who reacted faster than Fang Yuan and the other humans were the Gu worms!

Eighty-Eight True Yang Building was an ownerless object, after being destroyed by the heavenly tribulations and earthly calamities, the walls collapsed and turned into large number of wild Gu worms.

At this crucial moment, using their instincts, these Gu worms flew into the air, towards the opening.

During the process, formless hands were capturing them all over the place.

“This is the best chance to charge through the wind veil and escape from this dangerous place!” The Gu Masters' eyes were glowing.

“Ah! So many Gu worms, these are all formed from Eighty-Eight True Yang Building!” Northern plains Gu Immortals watched with burning and shining eyes.

Chapter 637 - Huge Shocking Change

Chapter 637: Huge Shocking Change

Translator: ChibiGeneral **Editor:** ChibiGeneral

Originally, within the wind veil of assimilation, the Gu worms were lifeless.

Now, a huge opening was cut into the wind veil of assimilation, opening a link outside to northern plains, the Gu worms all went into a frenzy, frantically rushing towards the opening.

Formless hands arrived, attempting to grab them along the way.

Nearly half of the Gu worms were captured by the formless hands, and carried off by the formless fists, vanishing into thin air.

Despite this, the majority of the Gu worms managed to rush out of the opening, escaping this dangerous area surrounded by the wind veil of assimilation, and arriving in the outside world of northern plains.

“Come to me, be mine!”

“So many Gu worms, eh, that is an Immortal Gu?!”

“Stop at once! Do not fight, distribute the Gu according to our prior arrangement, no one should act recklessly!!”

The northern plains Gu Immortals saw a cluster of Gu worms, like an unceasing torrent of water rushing forth, they were already in a state of shocked ecstasy.

They struck at once, repeatedly shouting, competing against each other, and displaying all kinds of methods.

Fang Yuan raised his head to look, and saw a scene of Gu Immortals madly fighting over Gu worms.

“There are more than twenty Gu Immortals… they probably used the immortal killer move winged blade; this killer move is a first class attacking method of northern plains, during the battle of the five regions in the future, many central continent Gu Immortals died from it.” His expression was grim, his eyes were flickering with cold light, the memories of his previous life was still vivid within his mind.

Winds of assimilation, the number one wind in the world, they were able to assimilate all things, there are few methods capable of restraining it.

But the immortal killer move winged blade had peerless might, it was a rare method that was even able to cleave open the wind veil of assimilation!

“Naturally, this is also because the wind veil of assimilation had not formed for a long time, the wind walls are still not too thick, given a longer period of time, even the winged blade will be unable to damage it.”

Winds of assimilation, they were a wind that blew when immortal apertures faced destruction.

Once the wind gained momentum, and there was enough wind blowing, even rank eight Gu Immortals would struggle to resist it.

As for rank nine Gu Immortals, they were the rulers of the world, they were invincible beings! No matter how strong the winds of assimilation became, it could do nothing to them.

This shocking change was out of Fang Yuan’s expectations, to him, this was not a method of escaping.

He had caused harm to Giant Sun's will and caused the collapse of Eight-Eight True Yang Building, he was the culprit behind Imperial Court blessed land's destruction! Once he went outside, and got caught by the angry northern plains Gu Immortals, he would end up facing a terrible fate. By then, even death would be a luxury.

He placed his attention on Hei Lou Lan now.

If Hei Lou Lan got distracted now, Fang Yuan would launch a sneak attack and take back Tai Bai Yun Sheng.

But Hei Lou Lan's eyes were fixed on Fang Yuan without a single bit of distraction.

His objective this time was to obtain a strength path Immortal Gu and become a Gu Immortal. But he was did not excel in movement and could not break the formless fists.

However, he had made an agreement with Giant Sun's will, as long as he helped him, Giant Sun's will would give him a strength path Immortal Gu as a reward.

This was also the sole reason why Hei Lou Lan had followed Giant Sun's will since the battle began.

"This fellow…" Fang Yuan had no opportunity at all, he could only grit his teeth.

Right at this moment, there was a transmission from above the wind veil, but the voice was choppy: "Hei Lou Lan… my son… father is here… to bring you back…"

Hei Lou Lan's own father, the supreme tribe elder of northern plains' super tribe, Hei tribe, a legendary figure in northern plains who was also the famous main character of the love story, Su Xian's Night Elopement — Hei Cheng!

He was rank seven and cultivated dark path, his eyes were like ink while his face was like jade, he had a handsome appearance and looked carefree.

At this moment, he was floating in the air, keeping some Gu worms while calling out Hei Lou Lan's name with much worry: "Don't worry… father… has already found the strength path Immortal Gu for you…"

But Hei Lou Lan snorted coldly when he heard his father's call.

He pretended he did not hear Hei Cheng's words, instead it triggered his anger as his expression turned into one of hatred.

Filled with the deep intent of revenge, he growled at Fang Yuan: "My patience is running out, do you still want your senior brother's life? Quickly hand over my Gu worm to me, otherwise I will kill him!"

He obviously had to save Tai Bai Yun Sheng, this was the only useful reinforcement that Fang Yuan could use to resist Giant Sun's will.

Thus, Fang Yuan shouted: "I can give the Gu to you, but you must wake my senior brother up first and let him run a thousand steps away from here!"

His suggestion was immediately denied by Hei Lou Lan: "Impossible! You have to pass the Gu to me first, otherwise I will crush his skull directly!"

Both sides did not trust each other.

Fang Yuan wanted Hei Lou Lan to release Tai Bai Yun Sheng, but Hei Lou Lan was afraid of Fang Yuan's movement speed.

Hei Lou Lan wanted Fang Yuan to return the Gu first, but Fang Yuan was afraid of Hei Lou Lan playing tricks.

Of course, there was the most common way to settle this.

That was for both parties to act at the same time, releasing Tai Bai Yun Sheng and the Gu together.

But in this environment, where formless hands were flying around everywhere, who would dare to let their Gu worms fly around?

It was not that Fang Yuan did not want to save Tai Bai Yun Sheng, but the discussion was always stuck at this stage.

Fang Yuan raised his head to look, and the scene was making his heart sink: “Oh no… the formless hands disappear after capturing Gu worms. The formless hands will continue to decrease in number, and soon, Giant Sun’s will would gain control of the situation!”

Not only was Hei Lou Lan anxious, Fang Yuan was also starting to become anxious.

Giant Sun’s will was a special will, exterminating the otherworldly demon was his top priority. This objective ruled above his desire to live.

The dragon made of will roared, it ignored the passage above its head as it coiled around the luck path true inheritance.

The remaining luck path Gu worms were the true inheritance’s core.

Giant Sun’s will did not dare to be careless.

“Are we going to die?!” Seeing the luck path true inheritance light lump reduce to a thin layer, Ma Hong Yun and Zhao Lian Yun felt that all hope was lost.

But right at this moment!

The true inheritance light lump burst out with a dazzling light, the light was so strong it could blind everyone’s vision.

With a whoosh, the true inheritance light lump carried Ma Hong Yun and Zhao Lian Yun, flying up and turning into a rainbow of light, charging towards the opening in the wind veil.

The luck path true inheritance was governed by the will of a wild Gu, it had a very strong instinct for survival.

“Don’t even think about it!” The dragon of Giant Sun’s will shouted furiously, without hesitation, it gave chase immediately!

The true inheritance light lump was really fast, Giant Sun’s will could not catch up to it.

Seeing that true inheritance light lump was about to get out of the wind veil of assimilation and escape into northern plains, Giant Sun's will finally let go of his reservations and set his mind on exterminating the otherworldly demon Zhao Lian Yun!

This was the primary objective that Giant Sun Immortal Venerable had given to the special will!

When one could not get the best of both worlds, Giant Sun's will had no choice but to discard one to achieve the other objective!

Giant Sun's immortal essence was injected into all the Immortal Gu, as the dragon of will shined with a dozen spots of lights. In three breaths of time, the light expanded rapidly, ready to attack.

The will dragon's aura surged, as it readied itself, a shockingly powerful attack was about to be launched!

But, right at this moment.

From among the group of Gu worms, another true inheritance light lump appeared suddenly!

This true inheritance light lump was about the size of an adult, it was a supreme true inheritance!

This supreme true inheritance gave off a thin layer of light.

This light was not dazzling in brightness alone, but it kept changing into different colors. The light was also very dense, and it covered a huge area, forming a giant halo.

The supreme true inheritance along with the halo crashed fiercely into the dragon of Giant Sun's will.

Crack crack crack…

Under the halo's effect, Giant Sun's will rapidly expanded and exploded, leaving behind the sound of firecrackers.

The giant halo with the supreme true inheritance as its center attacked the dragon of Giant Sun's will, and attempted to cut the dragon into two at its waist.

Giant Sun's will howled, falling into extreme anger and shock.

It had broken into two, originally the dozen Immortal Gu were ready to attack, but their lethal attacks had been cancelled already.

"Rank nine wisdom Gu!" Fang Yuan's expression was unchanging, but his heart jumped.

From the appearance of this supreme true inheritance, its true identity had been exposed.

Within the true inheritance secluded domain, there were only thee supreme true inheritances.

One was Eight-Eight True Yang Building itself, it had already been broken up by the formless hands. This was also why Eight-Eight True Yang Building had collapsed completely and split back into Gu worms.

The other was the luck path true inheritance, it had once fuelled Giant Sun Immortal Venerable's glorious success. Right now, it was heading towards the opening in the wind veil of assimilation, rushing for its freedom.

The final one was the rank nine wisdom Gu, Fang Yuan had once seen it inside the true inheritance secluded domain, if not for Mo Yao's will reminding him back then, he may have nearly lost his life under wisdom Gu's influence.

Being as high as rank nine, wisdom Gu which was recorded inside <<The Legends of Ren Zu>> was definitely extraordinary.

It gave off the light of wisdom.

Basking in this light, lifeforms would lose their lifespan rapidly, thoughts would be created and destroyed in their minds quickly, they would collide with each other and create the sparks of wisdom in the process.

When a person thinks, countless thoughts would be created, destroyed, or collide into each other, to obtain the results of thinking.

Wisdom path, with this principle, became one of the paths of Gu Masters.

The light of wisdom would increase the number of thoughts to the limit, the speed of thinking would be raised to the limit, and the collisions would occur at the most rapid rate. By reducing the time to think greatly, one could attain greater effects.

This was the true effect of wisdom Gu!

“That’s right, wisdom Gu also has a wild will, and had been hiding since long ago. Now that the wind veil of assimilation is broken, it is instinctively trying to escape. Except that it had remained silent until now before suddenly striking!” Fang Yuan realized at once.

Fang Yuan felt no shock towards how wisdom Gu was able to easily deal great damage to Giant Sun’s will.

It has been mentioned previously — wisdom path is classified into thought, will, and emotion.

What were wills made up of?

Multiple thoughts!

Under the shining light of wisdom, these thoughts collided intensely, they expanded and faced destruction rapidly.

If the light was shone on humans, new thoughts would develop in their minds.

But Giant Sun Immortal Venerable was dead!

This was only a will that he left behind!

This special will was just like the formless hands, without a source of energy!

Under the light of wisdom, these thoughts collided at an extremely fast face, they were rapidly destroyed but no new thoughts were generated. The dragon of Giant Sun’s will was thus easily snapped into two.

It could be said that wisdom Gu directly countered Giant Sun's will!

"But this advantage is not enough to take down Giant Sun's will, unless…" Fang Yuan's gaze was sharp as an eagle, he looked up while enduring the piercing light from the inheritance.

Indeed!

He saw that in the sky, up to a hundred beads of immortal essence were falling down.

These yellow immortal essence were skull sized, each was filled to the brim and they had their auras concealed. Fang Yuan's rank six green grape immortal essence could not hold a candle to them.

These were rank nine yellow apricot immortal essence!

Giant Sun Immortal Venerable's immortal essence which he had left behind!

Chapter 638 - Unfilial Descendants

Chapter 638: Unfilial Descendants

Translator: ChibiGeneral **Editor:** ChibiGeneral

Immortal Gu normally required immortal essence to activate. Under most circumstances, will could not activate Gu worms alone. Even Giant Sun’s will was not exempt from this rule.

The reason the dragon of Giant Sun’s will could activate Immortal Gu was because it was holding Giant Sun’s immortal essence.

However, the wisdom Gu’s attack cut apart the dragon of Giant Sun’s will into two and actually revealed it was holding Giant Sun’s immortal essence.

“As expected of wisdom Gu! Such an amazing result in just one move!!” Fang Yuan’s gaze brightened and praised wisdom Gu inwardly.

He had also thought of cutting apart the connection between Giant Sun’s immortal essence and Giant Sun’s will, but he did not have enough strength to do so.

However, wisdom Gu accomplished it!

Wisdom Gu was not the slightest bit afraid of formless hands. The most terrifying formless hands only had eight fingers while wisdom Gu was a rank nine Immortal Gu and could only be grabbed by nine fingered formless hands.

However, wisdom Gu was extremely fragile despite being rank nine. It was not an offense oriented Gu and could still be destroyed.

It wanted freedom and wanted to soar to the skies, and the dragon of Giant Sun's will which possessed many Immortal Gu was its primary obstacle.

From wisdom Gu's perspective, dealing with the dragon of Giant Sun's will was of the utmost importance.

Thus, it concealed itself and waited for an opportunity to strike. It remained inconspicuous when it did not make a move, but when it made a move, it was extremely shocking, striking the weak point of the Giant Sun's will dragon and cutting its connection with Giant Sun's immortal essence in one move, thereby causing the Immortal Gu controlled by Giant Sun's will, more than ten in number, to be of no use.

Giant Sun's will let out a furious roar at the heavy damage!

However, it did not turn around to attack wisdom Gu and instead relentlessly chased after the luck path true inheritance which was holding Ma and Zhao.

Giant Sun's will instantly condensed into a huge golden hand that struck towards Ma and Zhao like a meteor.

For a moment, the whole battle situation turned into this

The wind veil of assimilation was separating the ruins of Imperial Court blessed land from the outside world of northern plains.

In the outside world were northern plains' Gu Immortals.

Inside was the ruins of Imperial Court blessed land.

There was a giant tear in the wind veil of assimilation from which countless Gu worms flew out, sparking conflicts among the Gu Immortals.

Inside the wind veil.

At the highest point was the luck path true inheritance which had turned into a rainbow and flew rapidly towards the tear in the wind veil of assimilation, it was already close to it.

In the middle was the huge hand of Giant Sun's will which could no longer activate Immortal Gu.

Below Giant Sun's will was wisdom Gu which was following closely.

Even further below in the mid-air was the deadlock between Fang Yuan and Hei Lou Lan.

On the ground were dozens of surviving Gu Masters. Formless hands were attracted towards the Gu worms that filled the sky, and as such the Gu Masters' situation was a lot better.

The huge hand of Giant Sun's will which had burst out with all its strength was rapidly closing the distance between it and the luck path true inheritance.

Crackle crackle crackle…

Giant Sun's will was bursting out with explosive sounds.

Wisdom Gu was not far below and Giant Sun's will had all along been under the light of wisdom; its thoughts violently collided and perished.

The huge hand of Giant Sun's will was shrinking rapidly at a visible speed.

However, the light of wisdom Gu was not just exhausting Giant Sun's will, the intense collisions of the will was further increasing the speed and power of the huge hand of Giant Sun's will.

Finally, when the luck path true inheritance was just about to charge into the wind veil, the huge hand of Giant Sun's will was able to block its path.

"None of you can escape, die!" The huge hand of Giant Sun's will grabbed down with extreme killing intent, not caring that the luck path true inheritance was a unique existence and just focused on killing Ma and Zhao.

“Are we going to die?!” Ma and Zhao hugged each other, terror and shock filled them as they looked at the giant hand falling down upon them.

Boom!

Powerful attacks rained down like a hailstorm, smashing down ruthlessly at the huge hand of Giant Sun’s will.

“You unfilial descendants!!” Giant Sun’s will let out a furious roar as its giant hand collapsed.

The luck path true inheritance carried Ma and Zhao, and flew through the wind veil of assimilation to the outside world of northern plains.

“These are Immortal Gu!”

“Grab the Immortal Gu!”

“They are mine, all mine!!”

How could the righteous path Gu Immortals whose hearts were filled with greed know about the identity of the giant hand of will. Even if they knew, would they just look on as the huge hand of will crushed the Immortal Gu?

A man whose heart cannot be satisfied is like a snake trying to swallow an elephant!

The luck path true inheritance was brimming with dense Immortal Gu aura which further intensified the greed of the northern plains’ Gu Immortals.

“Fight!”

“Courting death, who dares to seize the Immortal Gu in front of me?!”

“You shameless bastards! Did you guys forget the agreement we made earlier?”

Verbal agreements between Gu Immortals were already fragile; who would comply with such agreements in front of huge profits?

The northern plains’ Gu Immortals removed all consideration for face and grabbed at the luck path true inheritance!

The majestic auras of the Gu Immortals collided against each other.

Ma Hong Yun and Zhao Lian Yun blacked out, almost fainting on the spot.

They had left the wolf’s nest and entered the tiger’s den!

“Eh? This aura and radiance, I am not wrong, this definitely is connected to luck path! Everyone move together!” Suddenly, a long and loud whooshing sound rang out.

Over ten Gu Immortals appeared.

At the lead was an old Gu Immortal with a snow-white beard that reached the toes.

The righteous path Gu Immortals narrowed their eyes at the sight of this man. Someone cried out in surprise, introducing this man’s origins: “Old Ancestor Xue Hu, you actually came in person!”

Old Ancestor Xue Hu was the leader of Snowy Mountain blessed land, a rank eight Gu Immortal and the number one demonic path Gu Immortal of northern plains!

Following him were Snowy Mountain blessed land’s demonic path Gu Immortals, legendary experts whose names were known far and wide.

“Imperial Court blessed land is about to be destroyed, of course I have to come and reap some benefits! Enough nonsense, strike!” Old Ancestor Xue Hu screamed out before leading the group behind him to join in the fight.

The scene turned even more chaotic.

Righteous and demonic factions battled with all sorts of Gu worms flying about. The luck path true inheritance changed hands several times; Ma and Zhao were in a precarious situation, walking on the edge of life and death.

“Don’t fight, inside the wind veil of assimilation there are definitely many more Immortal Gu!” A Gu Immortal shouted in the chaos.

“The three immortals of Chanyu, make your move. The wind veil of assimilation is closing up!” Another Gu Immortal gave a reminder from within the chaotic battlefield.

The three Chanyu immortals had gathered with the Gu Immortal Tong Zu as the lead. They hurriedly glanced below when they heard the reminder.

Sure enough, the tear on the wind veil of assimilation was already closing up and there was only a thin crack remaining.

The tear that winged blade had created was extremely large, but the wind veil of assimilation’s recovery speed was very fast.

Gu Immortal Tong Zu had estimated the cut would be closed in eight breaths of time. And from the looks of it, it indeed took around eight breaths.

If they used the winged blade now, they would be able to open up a tear again. However, Chanyu tribe’s three immortals showed no signs of using it.

This immortal path killer move had extremely terrifying power, but the price to pay was equally large, consuming a lot of immortal essence. And in this chaotic situation, the three Chanyu immortals did not dare to use it again so as to keep it in reserve to intimidate enemies.

“Brother Hei Cheng, what are we going to do now?” Hei tribe’s Gu Immortal, Hei Bai, lost his cool when he saw the wind veil of assimilation closing up, and hurriedly consulted Gu Immortal Hei Cheng.

Hei Cheng was silent, his expression extremely unsightly.

Hei Bai had been seeking Immortal Gu Wooden Chicken since long ago, they had also received information from Hei Lou Lan that he had already obtained the Immortal Gu. But the wind veil of assimilation was now closed, Hei Lou Lan had not escaped when he had the chance, causing Hei Bai's plan to be fruitless.

Hei Cheng did not have the ability to cut apart the wind veil of assimilation.

His voice turned extremely gloomy: "Brother Hei Bai, you still have a chance. Those formless hands inside the wind veil are extremely likely to have seized wooden chicken Gu. When they travel through space and their energy is used up, the captured Gu worms will also be freed."

The investigative abilities of Gu Immortals were much stronger than that of Gu Masters.

After the tear was opened on the wind veil of assimilation, they had immediately glanced at the dangers within the wind veil. And because of the formless hands as well, they did not dare to enter the wind veil and risk themselves.

"It's like that?" Hei Bai's eyes brightened before he thought of something, "Then nephew Hei Lou Lan…"

Hei Cheng didn't speak, but his expression turned even more gloomy.

……

Hei Lou Lan did not grab the opportunity to escape the wind veil of assimilation, this made Fang Yuan inwardly shocked.

However, he did not have the time to ponder over this and threw it to the back of his mind.

He fixed his gaze on the falling immortal essence of Giant Sun.

His mind was filled completely with the thoughts of this immortal essence of Giant Sun.

Gu Masters cannot use the primeval essence of others. Gu Immortals were also unable to use the immortal essence of others.

After Fang Yuan obtained Hu Immortal blessed land, he had obtained a lot of green grape immortal essence left behind by Hu Immortal. But only the land spirit, Little Hu Immortal, could use this immortal essence.

Land spirits were formed from a Gu Immortal's obsession. Giant Sun's immortal essence also could only be used by Giant Sun's will. Even if Fang Yuan obtained this immortal essence, he would not be able to use them.

But this did not affect Fang Yuan's resolve to seize the immortal essence of Giant Sun even a little bit!

"I can't use it, but as long I seize all this immortal essence, the power of Giant Sun's will will drop down to twenty to thirty percent!!" Fang Yuan soared to the sky, crazily activating all sorts of movement Gu to increase his speed.

This exceptionally good opportunity was created by wisdom Gu, Fang Yuan would not be worthy of being an authoritative figure of the demonic path if he did not grab this chance.

"You dare!!" Attacked by his own descendants, and now sensing what Fang Yuan was attempting, Giant Sun's will was furious as well as anxious.

Without immortal essence, it was not able to activate Immortal Gu and could only use the power of its special will to battle.

It understood the severity of this more than anyone else!

Fang Yuan's extremely fast speed gave Giant Sun's will an unprecedented fear!

"Damn it, it's too late!" The will condensed back together into a giant hand which fell down like a meteor.

"Hahaha…." Fang Yuan threw his head back and laughed loudly, he was less than a hundred steps away from Giant Sun's immortal essence.

Even if Giant Sun's will was mighty, Fang Yuan was not worried.

Because between Fang Yuan and Giant Sun's will was the rank nine wisdom Gu!

"Wisdom Gu is the bane of Giant Sun's will, Giant Sun's will would have to detour around wisdom Gu which would waste a lot more time! Hei Lou Lan does not have high speed and he still has to hold Tai Bai Yun Sheng, so he can't chase me. The only worry is the formless hands…"

Fang Yuan thought of every possible scenario with his understanding of the whole situation.

Wind whistled past, Giant Sun's immortal essence was already within reach!

Chapter 639

Chapter 639: Giant Sun flaunts his might, Fang Yuan receives help

Translator: ChibiGeneral Editor: ChibiGeneral

Seeing that he was about to succeed, Fang Yuan's lips curled into a faint smile.

But that did not stop unexpected events from happening.

Wisdom Gu quickly descended, as the light of wisdom shrouded Fang Yuan.

Once he entered the wisdom halo, Fang Yuan's thoughts were created and destroyed intensely, he aged rapidly.

"This?!" Fang Yuan was shocked, raising his head to take a look, he saw wisdom Gu descending towards himself.

Meanwhile, Giant Sun's will which had lost a huge portion of its body shrunk into a tiny ball and followed closely after.

In reality, Giant Sun's will knew that if he took a detour around wisdom Gu, he would not be able to stop Fang Yuan. Thus, he forcefully got close to wisdom Gu and used a technique to send it flying.

Although wisdom Gu countered Giant Sun's will, Giant Sun's will was large enough and after paying a huge price, he could barely come into contact with wisdom Gu by risking his life.

This way, wisdom Gu was like a rubber ball flying straight for Fang Yuan, it became greatly troublesome for Fang Yuan now.

"As expected of Giant Sun!" Seeing wisdom Gu approaching himself, Fang Yuan could not help but praise Giant Sun's will's decision.

He laughed heartily, his heart was extremely resolute.

If you, Giant Sun, could make such a sacrifice, why can't I, Gu Yue Fang Yuan?

Thus, Fang Yuan endured the light of wisdom and used his method to sweep away all of the falling immortal essence of Giant Sun!

Immediately afterwards, he used wind flower Gu to change his direction, moving to the side and trying to get away from wisdom Gu.

Wisdom Gu continued to descend, as Fang Yuan narrowly passed by it.

"Cough cough cough…" Fang Yuan coughed non stop, he was finally out of the range of the light of wisdom. But his face no longer had the appearance of a young man, anyone who saw him would think he was a middle aged man.

The closer one was to wisdom Gu, the more intense the light of wisdom would be.

Earlier when Fang Yuan was inside the true inheritance secluded domain, he was still a great number of steps away from wisdom Gu, but in just a few breaths' time, he lost two years of his life.

Earlier, he was so close to wisdom Gu, and had endured the light of wisdom for such a long time, thus he lost more than ten years of lifespan.

Ordinary people only had a hundred years of lifespan.

In order to snatch Giant Sun's immortal essence, Fang Yuan paid a heavy price!

"Little scoundrel, die!" Drawing an arc in the air like lightning, Giant Sun's will pounced like an eagle.

Fang Yuan immediately felt an intense sensation of danger and death assaulting him, at the crucial moment, he only had time to activate six arm heavenly zombie king.

Bam!

With a loud bang, Fang Yuan was swatted like a fly.

Crashing down like a meteor, he landed heavily on the ground, forming a huge crater.

Rocks were sent flying as dust clouds formed.

Fang Yuan was lying in the deepest part of the crater, he regained his senses three breaths of time later.

Out of his eight arms, six were broken. His entire back was in a terrible state, his spine and ribcages could be seen. He was dizzy, he could barely think — the attack of Giant Sun's will earlier had not just targeted his body, but a large amount of special wills entered his mind, trying to destroy it and affect his cognitive ability!

While only barely conscious, Fang Yuan actually dodged without thinking about it.

The next moment, Giant Sun's will in the form of a huge golden axe swung down from high in the sky, cutting away Fang Yuan's left arm and left leg.

If Fang Yuan did not dodge in time, perhaps he would have been split into two by this attack.

As his consciousness recovered, Fang Yuan quickly used his sole remaining palm to support himself, his immense strength pushing his body out of the crater.

But as he was doing so, Giant Sun's will turned into a huge golden hammer, flying into the sky and slamming towards Fang Yuan.

Bam!

Fang Yuan was like a giant elephant who was hit while running, his ribcage was completely broken while his intestines were crushed to bits due to the impact.

At the same time, in his mind, he was invaded by Giant Sun's will again, as he fell into greater confusion.

Fang Yuan was like a rubber ball that was slammed on the ground, he rolled along the ground as he flew, causing a long trail to appear on the ground where he was sent flying.

The intense collision caused his clothes to be torn, and he was covered in dust.

Eventually, he sprawled on the ground weakly, motionless. His broken bones and hanging flesh were all exposed, as blood flowed, they were not red, instead, his blood had a deep green color due to six arm heavenly zombie king.

His expression was distorted, his fangs were exposed as he struggled in pain.

At this moment, there was a huge battle in Fang Yuan's mind, the battle of wills was intense, and Giant Sun's will had the upper hand.

Fang Yuan was taking a beating passively, although he resisted stubbornly, he could barely think clearly now.

Only after he exterminated the portion of Giant Sun's will in his mind could he reawaken and regain his consciousness.

But Giant Sun's will would not give him such a chance.

It condensed into a golden sword, sixteen meters long and six meters wide, it gave off an indomitable aura, and had the ability to judge all beings.

"This, this is Giant Sun's will's true battle strength? This is too terrifying…" Far away, Hei Lou Lan held the unconscious Tai Bai Yun Sheng as he said with a tongue-tied expression.

Giant Sun's will had refined many Immortal Gu, and was struck by wisdom Gu and also attacked by a group of over twenty Gu Immortals, in the end, he had to make a sacrifice and forcefully charge ahead to send wisdom Gu flying.

After all these, he had suffered great injuries, his mass was a miniscule fraction compared to the time he was slumbering.

But even so, Fang Yuan had no way of fighting back. And without using a single Immortal Gu, no wonder Hei Lou Lan watched with such nervousness, this battle strength was simply too terrifying!

But immediately after, Hei Lou Lan calmed down: “No, the special will is not this strong. But earlier, Ancestor Giant Sun struck at the perfect moment, while he was unprepared, he dealt a serious blow. The scoundrel wanted to retaliate, but he could not think as his mind was already invaded by the special will, falling into chaos. If he was prepared and had ample time to react, it would not have ended this way!”

“The main factor was because he inherited Old Ancestor’s battle experience, he is ruthless and decisive, once he finds an opening, he would strike at the opponent’s weakness and give him no chance of fighting back! Especially the will invading the mind, this is too scary, it is simply impossible to fight back. It seems that I need to be careful about this when fighting a wisdom path Gu Master!”

Hei Lou Lan reminded himself as he landed slowly on the ground.

He looked at the sword of will, it was floating and eventually landed above Fang Yuan, the tip of the blade was right on top of his brain.

“This guy is finished.” Hei Lou Lan muttered softly; the great foe before him had landed in such a state because of a mistake that was strictly not his fault. He felt some relief, some joy, and even a slight sadness.

The strength of Giant Sun’s will was due to the battle experience that it had inherited from Giant Sun Immortal Venerable.

Although Fang Yuan had five hundred years of experience, in this aspect, Giant Sun’s will was much stronger than him and had much greater experience.

Once Giant Sun’s will gets a chance, he would attack consecutively and gain the upper hand, expanding on his advantage and preventing Fang Yuan from recovering any of his footing!

Giant Sun Immortal Venerable was not only lucky, this aspect of him displayed his invincible nature, his firm and domineering battle talent.

“It’s over.” Hei Lou Lan looked at Tai Bai Yun Sheng who was in his arms.

Inside the wind veil of assimilation, he was Fang Yuan’s only ally, but now he was unconscious.

Hei Lou Lan threw him onto the ground casually, his gaze fixed on the sword of Giant Sun’s will.

Without hesitation, the sword of Giant Sun’s will shot down soundlessly, the tip of the sword pointed at Fang Yuan’s brain.

Even though Fang Yuan was in six arm heavenly zombie king state, and had transformed into the body of a zombie, but once his head was pierced, Giant Sun’s will would completely destroy his brain, along with his entire soul.

This was a truly fatal blow!

Tai Bai Yun Sheng had fainted, Fang Yuan was unconscious, he had no way to fight back.

But just when the sword’s tip was about to reach Fang Yuan’s forehead, with just an inch away, a water wall suddenly appeared.

At the same time, a shrill woman’s voice could be heard: “With me here, don’t think of taking his life!”

“Who is this?” Hei Lou Lan gasped, he looked at the water wall with shock, the surface of the water wall had turned into a spiral, coiling around the sword tip and preventing the sword of Giant Sun’s will from descending.

At the same time, a strong aura burst out from Fang Yuan’s body.

Giant Sun’s will pulled back the sword, retreating several hundred steps away rapidly.

He stood in the air for a moment before saying in a low voice, as he remembered: “It’s you! Over ten thousand years ago, you barged into Eighty-Eight True Yang Building, you were the one who freed fortune rivalling heaven Gu!!”

Mo Yao laughed delicately: “I’m surprised you remember.”

Saying this, the water wall turned into a liquid armor that covered Fang Yuan’s body.

A light blue glow surrounded Fang Yuan, causing his wounds to heal rapidly, his broken limbs, flesh and bones were all rapidly healing.

Giant Sun’s will was able to remember because Eighty-Eight True Yang Building had recording Gu worms that filmed all that had happened inside it.

When Mo Yao explored Eighty-Eight True Yang Building, she did not wake up Giant Sun’s will. But this time, after Fang Yuan woke up Giant Sun’s will, he used the respective Gu worms to look through the records, learning what had happened.

Mo Yao’s voice, appearance, Fang Yuan’s name as well as his wicked deeds inside Eighty-Eight True Yang Building, Giant Sun’s will was very aware of all of them, that was why he was able to expose the secret of the Chang Shan Yin impersonation.

Giant Sun’s will was extremely furious: “You unscrupulous and shameless thieves, you have been targeting my True Yang Building for tens of thousands of years! Die!”

Giant Sun’s will attacked with rage, the golden sword flew like lightning, piercing the air and drawing a golden rainbow in the air.

The rainbow hit the liquid armor, causing ripples on it, but could not pierce the armor’s protection.

Fang Yuan slowly woke up.

“This is… the rank seven Immortal Gu House Water Pavilion?” He looked at the liquid armor on him and realized.

It turns out that since an unknown time ago, Water Pavilion had been on him.

When he was in a chaotic state and his life was at risk, Mo Yao’s will activated Water Pavilion and protected him.

Giant Sun’s will could control Eighty-Eight True Yang Building, Mo Yao’s will could naturally manipulate Water Pavilion.

Eighty-Eight True Yang Building had Giant Sun Immortal Venerable’s yellow apricot immortal essence, how could Water Pavilion not have Fairy Mo Yao’s red date immortal essence?

“Lad, you are finally awake. The immortal essence that my main body had left behind is limited, Water Pavilion’s consumption is too great, quickly take over the battle, I will defend your mind!” Mo Yao’s will said.

“Hmph, I could escape death all thanks to you, fairy!” Fang Yuan squinted, his eyes shining with cold light.

He loosened his joints, rubbing his palms as his newly born bones creaked, his battle intent surged again!

“If you want to repay me, return Water Pavilion to Spirit Affinity House.” Mo Yao’s will sighed: “Quickly battle!”

“Hahaha, okay!” Fang Yuan howled, jumping up.

He had turned into six arm heavenly zombie king form, it had great physical strength. With green eyes and fangs, he looked extremely vicious and ruthless.

The water armor shrunk into a lump, before turning into a helmet, protecting his head. This way, he was no longer afraid of Giant Sun’s will’s mental attack.

Without any worries left, Fang Yuan took huge steps forward, raising his fists and punching at Giant Sun’s will!

Swoosh.

The expected impact did not occur, instead, there was a light sound.

Giant Sun's will was very experienced, he did not fight with Fang Yuan directly. At the crucial moment, the sword turned into a golden ribbon and coiled around Fang Yuan's wrist lightly, before flying away like a flash of light.

Fang Yuan's hammer-like fist was cut apart around the wrist and fell on the ground.

Even with the defense of Fang Yuan's six arm heavenly zombie king, it could not match Giant Sun's will's sharpness.

Fang Yuan rolled away and quickly picked up his hand.

The injury on his arm was oozing with green blood slowly. Fang Yuan paid attention to Giant Sun's will while pressing the fist back onto the wound on his arm.

The flesh on the wound quickly mended and healed, even the bones started to join together.

This was the strong regenerative ability of six arm heavenly zombie king.

But why would Giant Sun's will give Fang Yuan time to recover? The will turned into a sword resembling a rainbow and charged at Fang Yuan again.

Fang Yuan squinted, he pushed with his legs as his body shot into the sky.

The sword rainbow followed closely behind him, chasing relentlessly.

Fang Yuan activated four eagle rise Gu at the same time, but the sword rainbow was faster, as their distance was pulled closer.

Fang Yuan activated wind flower Gu again.

He had already lost track of which wind flower Gu this was, all in all, he had already expended a lot of them.

Wind flower Gu allowed Fang Yuan to change directions rapidly, but the sword rainbow of will was even more agile, not only did their distance not become larger, the rainbow made use of this chance to catch up to Fang Yuan.

At once, the two sides fought intensely in the air, exchanging blows.

The sword rainbow of will drew a golden arc in the air, circling around Fang Yuan and attacking from time to time.

Fang Yuan was completely at a disadvantage, six arm heavenly zombie king's strong defense was extremely weak when matched against the sword rainbow of will.

Flesh kept falling from the sky.

These were all cut off from Fang Yuan's body by the sword rainbow of will.

Thankfully, after activating six arm heavenly zombie king, Fang Yuan lost his sense of pain. Together with Water Pavilion as a helmet, Giant Sun's will did not manage to succeed in attacking Fang Yuan's mind.

"You're not making any progress!" Seeing that Fang Yuan was not taking back the lead, in fact he was taking more of a beating and finding fewer and fewer chances to retaliate, Mo Yao's will was getting anxious.

"Easy for you to say!" Fang Yuan snorted, his gaze becoming more ruthless.

Giant Sun's will was different from ordinary enemies, he hardly had any mass and was extremely quick, even when turning. Fang Yuan's flying master attainment was nothing compared to it.

Giant Sun's will did not have a fixed form, it could turn into a sword rainbow to cut, an axe to chop, a rain of needles for a wide range attack, or even a hammer for a strong blow.

The most troublesome thing was that he could split and form at will. Suddenly, he could split into two or three sword rainbows and do a pincer attack, distracting Fang Yuan. At times, he could turn into one hammer and one sword. The hammer would strike at Fang Yuan's defense while the sword would shoot like lightning, all sorts of combinations were used flexibly, with absolutely no errors.

One could say, he fully displayed the advantages and abilities of a will in battle.

Meanwhile, Fang Yuan had been reborn, and walked on the strength and enslavement paths. He was skilled at fighting head on, attacking fists with fists, or using numbers to suppress the enemy.

But meeting this kind of enemy was something he had no methods to deal with.

He was at a disadvantage, taking hits passively, that was very natural.

In the sky, Fang Yuan's green-black figure clashed with Giant Sun's will's golden rainbow, forming a large battle arena.

Great numbers of Gu worms were still flying around, their instincts were telling them to give way to Fang Yuan and Giant Sun's will, while avoiding the attacks of the formless hands.

"Even though so many Gu worms flew out, there are still countless Gu worm groups left here, I cannot begin to imagine how many Immortal Gu were used to form Eighty-Eight True Yang Building." Ye Lui Sang raised his head and sighed, the injuries on his body had mostly healed.

At the crucial moment, his status of being the leader of a super tribe worked, Ye Lui Sang obtained the help of other Gu Masters.

"There are not many formless hands left, although we have lost many Gu worms, there are so many Gu worms here, we can capture them now and regain our battle strength!" Some Gu Masters suggested.

This suggestion was quickly supported by the other Gu Masters: "We need to work together sincerely, we need to be fast! The wind veil of assimilation is getting thicker, it is spreading and the space in here will continue to shrink."

Hei Lou Lan looked at the unconscious Tai Bai Yun Sheng, walking over: “The wind veil of assimilation is not something us mortals can deal with, to escape with our lives, we need Ancestor Giant Sun’s strength!”

Everyone was silent.

Above them, in the air, Fang Yuan and Giant Sun’s will were engaging in fierce combat, at times, furious growls and shouting could be heard.

Be it Fang Yuan or Giant Sun’s will’s terrifying battle strength, everyone was scared, they subconsciously avoided those two and did not want to interfere in the battle of these two top experts.

But Hei Lou Lan’s words were extremely true.

Relying on the mortal Gu that they subdue, no matter how many they have, they cannot break the wind veil of assimilation.

Hei Lou Lan asked again: “Don’t worry, how can this scoundrel be Ancestor Giant Sun’s match? Can’t you see that ancestor is having the upper hand all along?”

Everyone’s eyes were shining. The battle situation was very visible in the sky, everyone could clearly tell what was happening.

Hei Lou Lan changed the direction of the conversation: “Although ancestor has the upper hand, he cannot turn the advantage into victory. The root of the problem is that ancestor’s immortal essence has been completely taken by that scoundrel, ancestor has over a dozen Immortal Gu, but he cannot use any of them.”

Everyone nodded, they agreed with Hei Lou Lan’s analysis.

Ye Lui Sang asked: “Then what do we do next?”

Hei Lou Lan laughed heartily, displaying Tai Bai Yun Sheng in his hands: “I have captured this old thief, he is that guy’s senior brother, they share a tight bond. Our ability is limited, we can only try to help old ancestor. My suggestion is still the same, we should capture Gu worms first to increase our strength! In order to cooperate well, we should report all of the Gu worms that we have now! I will start."

Gu Masters were normally very secretive about the Gu worms that they owned.

This was important information, once it was exposed, others could use it against them and they might lose their lives.

However, this was a special circumstance where their lives were about to be lost.

Thus, everyone could only do this to increase the hopes of their survival.

Hei Lou Lan was a natural leader and had a fierce reputation, as he took the lead to expose his own Gu worms, the remaining Gu Masters followed along and Hei Lou Lan was able to recruit these people into his force once again.

Hei Lou Lan had great ambitions.

He wanted to ascend to immortal and needed a strength path Immortal Gu for it, thus he needed to rely on Giant Sun's will. These people were the pawns that he needed to fulfill his ambition.

In the sky, the battle was already at its climax.

"I've caught you!" Fang Yuan howled, pouncing down as his six arms that were tougher than steel grabbed the sword made of Giant Sun's will at lightning speed.

But Giant Sun's will instantly split apart, Fang Yuan's long awaited counterattack only destroyed a bit of his thoughts.

"Damn it!" Fang Yuan cursed, Giant Sun's will could split and gather together, it was agile beyond belief, Fang Yuan did not have methods to deal with him, thus most of the time he could only be a punching bag without any feasible counterattacks, he did not manage to make any progress.

"Sigh, if there is no other choice, we can only undergo a drawn out battle." Mo Yao's will said: "Giant Sun's will has no source of energy, during the battle, he needs to think, that will accelerate the collision of his thoughts and thus the expenditure of them.”

Fang Yuan was concentrating on the fight while denying Mo Yao’s suggestion: “We cannot afford to drag this on! Don’t forget six arm heavenly zombie king’s weakness, it can only be used for thirty minutes. Once that time passes, the backlash of the killer move would make me a zombie. If I completely turn into six arm heavenly zombie king form, the entire body would be zombified and both my apertures including my immortal aperture would lose all life force, my cultivation will be cut off from advancing further!”

Mo Yao retorted: “You underestimate yourself, don’t forget that you are a strength path Gu Immortal, the essence of your life has undergone a qualitative change. Thus, the time that you can use the killer move has also been extended, it is far from thirty minutes. My rough estimate is that you have about an hour in length!”

“Even so, we cannot delay this, don’t forget that the wind veil of assimilation is getting thicker, shrinking the space in here. My methods cannot counter the special will, does your Water Pavilion have any methods?” Fang Yuan asked.

Mo Yao heaved a long sigh: “Although Water Pavilion is a rank seven Immortal Gu House, it is not skilled at attacking, but rather, its ability lies in concealment and movement. Most importantly, my main body only left behind twenty or so beads of red date immortal essence. After sustaining the Immortal Gu House’s operations over the years, there are only five left. If you want to use Water Pavilion to turn this around, you should dispel this thought! Watch out!!”

Mo Yao suddenly alerted, but it was too late.

Giant Sun’s will feigned an attack and attracted most of Fang Yuan’s attention, but it suddenly made a turn and got behind him, attacking brutally.

Fang Yuan vomited out a mouthful of green zombie blood, his eight eagle wings were smashed to bits, and his spine was completely shattered, his back was caved in and his chest was caving out of his body.

The intense force caused him to descend rapidly.

Fang Yuan quickly mobilized his Gu worm, attempting to fly into the sky.

But why would Giant Sun's will give him this chance?

It would beat the dog while it was down, the golden rainbow coiled around Fang Yuan as it attacked. Fang Yuan raised his eight arms to cover his whole body while curling up and was barely able to protect himself.

Giant Sun's will changed shape freely, slashing, cutting, slamming, piercing, all sorts of attacks caused Fang Yuan's eight arms to be destroyed, the six arm heavenly zombie king's body was tattered as there were many injuries on him from the front to back.

Fortunately, Fang Yuan had turned into six arm heavenly zombie king form, otherwise with his human body, he would have already had a tragic death.

Fighting with Giant Sun's will gave Fang Yuan great pressure, only by using six arm heavenly zombie king non-stop could he barely keep up.

Chapter 641 - Fang Yuan vs Giant Sun's will (2/2)

Chapter 641: Fang Yuan vs Giant Sun's will (2/2)

Translator: ChibiGeneral **Editor:** ChibiGeneral

Fang Yuan had, just a moment ago, conversed with Mo Yao's will and these few sentences were exchanged at lightning speed. Unfortunately, Giant Sun's will noticed this tiny moment and attacked at the point when Fang Yuan was slightly distracted.

Giant Sun's will had incredible methods at controlling the fight, he was even stronger than Fang Yuan at grasping battle opportunities!

Bam!

A loud bang.

Fang Yuan crashed on the ground harshly, rocks were sent flying and the ground was shaking slightly.

Giant Sun's will followed closely after.

Adding salt to the wound!

It turned into a golden sword again, the blade was extremely sharp and fast, it stabbed after leaving a golden trail in the air.

Fang Yuan had no way to resist, at the crucial moment, Mo Yao's will manipulated Water Pavilion and turned it back into a liquid armor, preserving Fang Yuan's life.

Giant Sun's will stabbed again and again, causing huge ripples to appear on the liquid armor.

"Quick, quickly stand up!" Mo Yao's will shouted anxiously.

Fang Yuan gritted his teeth, he used his remaining left arm to support his body off the ground, enduring the strong impact of Giant Sun's will's as he stood up.

"It is useless, you cannot kill me. I have stored all of your own, Giant Sun's, immortal essence in my immortal aperture! Hahaha." Fang Yuan laughed crazily, attempting to break Giant Sun's will's fighting spirit.

But his words caused it to become even more furious.

The attacks became faster, he was stabbing at several times the original frequency!

Crack crack crack…

Because he had exceeded his limit, Giant Sun's will's thoughts were destroying themselves too.

But because of the furious attacks, the liquid armor could not defend against it, occasionally, the sword would pierce through.

Fang Yuan laughed unceasingly, as he protected his brain. In addition, as long as his mind was protected, he would not be invaded by Giant Sun's will, he did not care how many times his organs were stabbed.

The liquid armor was pierced through continuously, but also recovered rapidly. Emitting a blue glow, Fang Yuan's body was nourished as his injuries healed.

"Quickly dodge, at this rate, my immortal essence is expending too rapidly!" Mo Yao's will reminded him frantically.

"No! This is a rare chance!! We have to endure it!" Fang Yuan refused, standing at the same spot enduring the frantic attacks of Giant Sun's will: "Even if your immortal essence is used up, you can lend Water Pavilion to me, I still have over twenty green grape immortal essence beads! Giant Sun's will went crazy, he is doing something very stupid, that is to consume his own thoughts for strong attacks. At this rate, the amount of thoughts he destroys would surpass the damage I have been dealing to him."

"This…" Mo Yao's will went into deep hesitation.

The two were expending resources intensively, falling into a stalemate.

"Should we go and assist old ancestor?" Gu tribe leader Gu Guo Long asked.

While Fang Yuan was fighting Giant Sun's will, Hei Lou Lan led everyone and captured many Gu worms, they had recovered their battle strength.

The reason they were able to capture Gu worms so easily was because there were still many Gu worms inside the wind veil, meanwhile, the number of formless hands was decreasing.

With Gu worms in their possession, they were no longer scared.

In addition, because they saw that Fang Yuan was on the ground taking hits from Giant Sun's will, not just Gu Guo Long, the other Gu Masters were also moved and wanted to go in and fight.

Hei Lou Lan was silent, watching the surroundings.

The wind veil of assimilation continued to spread, the wind walls getting thicker as the space inside was unceasingly being squeezed between.

Out of their survival instincts, Gu worms could only fly inwards. Thus, the density of Gu worms became even higher, they were all over the place.

In fact, sometimes, a Gu Master only needed to stretch out his hand and grab beside him to capture a Gu worm.

Crack crack…

On the ground below, cracks started forming, this was a sign that the area was collapsing.

Far away.

A huge spherical light halo was created again.

Wisdom Gu, which had been sent flying by Giant Sun's will earlier, seemed to have sensed the danger of extermination as it exerted all of its strength to defy its fate, preventing other existences from getting near it.

All this showed that: There was not much time left!

Hei Lou Lan decided not to wait anymore, he nodded and shouted: "Everyone listen to my command, we will attack together, do not cause internal conflict and weaken our offensive!"

Everyone nodded, their expressions were serious.

To them, killing Fang Yuan was the same as surviving this crisis.

However, just when Hei Lou Lan and the others were about to strike, Giant Sun's will suddenly laughed loudly: "Fang Yuan, you have fallen into my trap!"

Saying this, he retreated quickly.

Wills had almost no mass, he retreated as he liked, taking a huge number of steps back in the blink of an eye.

"What?" Fang Yuan's pupils shrunk, he saw a formless hand grabbing at him.

He shouted in shock: "Seven fingered formless hand!"

It turns out, when Giant Sun's will was pretending to fight with Fang Yuan, even using self-destruction to lure Fang Yuan into tanking the hits, his frenzied attacks were only to attract all of Fang Yuan's attention, to obscure his vision so that this formless hand could be lured over.

In the wind veil, although there were decreasing numbers of formless hands, a large number of them still remained.

Giant Sun's will lacked immortal essence, he could not use Immortal Gu, but he had never relied on Hei Lou Lan and the others, his plan was to use the external force called formless hands.

He split out a small portion of his will, carrying several Immortal Gu to attract the formless hand.

The formless hand was faster than Giant Sun's will, Giant Sun's will thus split up into ten wills that carried Immortal Gu each at regular intervals. Once the formless hand got near, he would destroy the Immortal Gu!

The formless hand did not have any gains, after feeling the aura of the next Immortal Gu, it would go over.

This way, after Giant Sun's will lost eight Immortal Gu, the formless hand was finally lured over.

"Quickly dodge it!" Mo Yao's will screamed.

"It's too late!!" Fang Yuan had already darted away, simultaneously activating eagle rise Gu. But it was no use, he needed time to accelerate, but the formless hand had already arrived.

At the moment of life and death, Mo Yao's will sighed gloomily, she suddenly activated Water Pavilion and had it leave Fang Yuan, crashing towards the seven fingered formless hand.

The seven fingered formless hand grabbed, and immediately took away the rank seven Immortal Gu that formed part of Water Pavilion, water harmony Gu, away.

Water Pavilion was a rank seven Immortal Gu House, it was made up of over three thousand Gu worms, each of the Gu worms were interlinked and connected to each other.

Their core was the rank seven water harmony Immortal Gu.

Other than that, there were two supporting Immortal Gu, the rank six movement Immortal Gu Worldly Wave Trace, and the wisdom path Immortal Gu Delight in Water and Mountain.

Right now, the one and only core, water harmony Immortal Gu, was taken away by the formless hand, Water Pavilion broke down immediately!

“Hahaha, let’s see what you can use to block me now!” Giant Sun’s will laughed continuously, he paid a huge price and obtained the result he wanted to see.

The formless fist carried the water harmony Gu and flew into the sky.

“Quickly destroy it!” Mo Yao’s will screamed, the remainder of the over three thousand Gu worms carried red date immortal essence as they floated around Fang Yuan.

Without her reminder, Fang Yuan had already begun to do that.

He used all of his movement Gu, chasing the formless fist and attacking fiercely.

Giant Sun’s will snorted, blocking them.

“We will strike too!” Hei Lou Lan and the others saw the good chance and came to join in, attempting to thwart Fang Yuan’s plans.

“You’ve come at the right time!!” Giant Sun’s will praised loudly, he changed his battle tactic and stopped blocking Fang Yuan, turning into a bright rainbow and attacking him instead.

Fang Yuan was faced with the Gu Masters’ attacks, but he did not mind it, he could use six arm heavenly zombie king to resist them.

But Giant Sun’s will’s attacks were very threatening to him.

Giant Sun’s will did not block Fang Yuan at all, his battle tactic was — go ahead and chase it, I’ll let you! In the process of chasing it, I will kill you!

Water Pavilion was broken apart, Mo Yao’s will could no longer provide him any defense.

Fang Yuan got into an even more dangerous situation, Hei Lou Lan and the others' attacks were troublesome, they hindered his speed.

Pop!

Giant Sun's will slammed, turning into a monk's spade as he changed directions, cutting the Gu worms circulating around Fang Yuan into two segments.

"Oh no, my red date immortal essence!" Mo Yao was caught off guard, not only were many Gu worms destroyed by Giant Sun's will, the red date immortal essence was taken by Giant Sun's will.

There were already few red date immortal essence left, now they were completely gone, Mo Yao was stunned.

"Mo Yao, I'll open my aperture, quickly come in!!" Fang Yuan shouted, retreating rapidly at the same time.

The technique of Giant Sun's will was ongoing and he could not give chase immediately, Fang Yuan was able to pull some distance.

He snorted, flying over quickly in pursuit.

During this time, Mo Yao's will moved the remaining Immortal Gu and together with them entered Fang Yuan's immortal aperture.

"Quickly lend worldly wave trace Gu to me!" Fang Yuan urged.

Mo Yao's will did not hesitate at all, shouting: "Since I have no immortal essence left anyway, I'll lend these Gu to you."

Although Fang Yuan had obtained many Immortal Gu earlier, he did not have time to refine them, he could only suppress them with his will.

There were only two Gu he did not suppress with his will, Tai Bai Yun Sheng's Man as Before and Landscape as Before.

It was a pity that he did not obtain Tai Bai Yun Sheng's permission, thus Fang Yuan could not use them.

After obtaining Mo Yao’s agreement, Fang Yuan immediately used the rank six Immortal Gu.

He shouted while using one bead of green grape immortal essence, activating Worldly Wave Trace.

This Gu was like a jellyfish, it was the size of a baby’s fist, wrapping around the green grape immortal essence as it consumed it.

Swoosh!

A huge wave appeared below Fang Yuan’s feet, bringing Fang Yuan away at rapid speed, pulling distance away from Giant Sun’s will.

Worldly Wave Trace was a rank six Immortal Gu. Although Fang Yuan was not a water path Gu Immortal, he had rank six cultivation and could activate it fully.

Giant Sun’s will was stunned, this was the first time Fang Yuan was able to shrug him off since the battle began.

But he was merely slightly shocked, snickering immediately after: “If this was the outside world, I would be helpless against you. But inside this wind veil of assimilation, the space is becoming more limited. Go ahead and run, as time passes, I will eventually catch you! Give up on struggling, you destroyed Eighty-Eight True Yang Building and ruined Imperial Court blessed land, and you still want to leave? Hmph, don’t think of the impossible, you are dead meat!”

“Don’t worry, if I die, I will drag all of you with me, don’t think of leaving unscathed!” Fang Yuan gritted his teeth, his green face and sharp fangs made him look extremely vile and ruthless.

“Then come and battle, don’t run away if you have the guts!” Although Giant Sun’s will could not catch up to Fang Yuan, he chased behind with menacing killing intent.

Fang Yuan did not dare to fight it!

He did not have Water Pavilion to protect his brain, once he exposes a weakness in battle, Giant Sun's will would invade his mind.

By then, he would fall into confusion again and be unable to think. He would be meat on the chopping block, without any way to fight back.

However, Giant Sun's will's earlier words were not wrong.

As the wind veil of assimilation spreads, the space would get smaller. Eventually, it would become small to the extent where Fang Yuan cannot dodge, and would be killed by Giant Sun's will.

Chapter 642 - Thirty-Eight Sealing Arts

Chapter 642: Thirty-Eight Sealing Arts

“Giant Sun, I admit your power. But don’t forget that all of your Giant Sun’s immortal essence is in my immortal aperture. Without any immortal essence, how will you use Immortal Gu? You have no chance of breaking through the wind veil of assimilation just by relying on your special will!” Fang Yuan’s thoughts were racing as he attempted to negotiate with Giant Sun’s will.

“Want to negotiate? Hahaha!” Giant Sun’s will laughed loudly, not concealing the hatred within, “Why would I negotiate with you? Won’t it be the same if I kill you and seize the immortal essence back from your immortal aperture? Why don’t you try to destroy the immortal essence, you might even succeed.”

Giant Sun’s will was self-confident.

It was not that the immortal essence could not be destroyed, but at the moment it was not possible.

If Fang Yuan destroyed the immortal essence in his own immortal aperture, the foreign immortal essence would inflict serious harm to his immortal aperture; this would be the same as seeking his own doom!

If he destroyed the immortal essence outside his body, the scattered immortal essence aura would instead help Giant Sun’s will to activate

Immortal Gu.

“Fang Yuan, I won’t compromise. You can’t fight me and can’t escape either. What can you still do? Just let it be, die quickly!” Giant Sun’s will taunted while chasing.

Fang Yuan did not respond and only concentrated on fleeing.

As time passed, the wind veil of assimilation was creeping closer; it made no sound, but it devoured everything in its path, assimilating everything.

The space Fang Yuan could flee to was shrinking. As Giant Sun’s will intercepted his paths, Fang Yuan was facing great dangers all around him.

“Giant Sun’s will, I will stand here, do you dare to come?” Fang Yuan suddenly stood still and stopped using worldly wave trace Immortal Gu.

Giant Sun’s will, however, stopped chasing; they were still hundreds of steps afar, but it did not dare to move closer.

“Hmph, I already expected you would make such a choice.” He scoffed in disdain, “But so what? You are only delaying your death by a few moments. I will watch as you die!”

The area Fang Yuan was standing on was the area covered by the light of wisdom.

The light of wisdom was the bane of Giant Sun’s will; Giant Sun’s will could only stop its chase.

Through this intense battle, its remaining will was only the volume of an adult man, and could no longer endure any more severe exhaustion.

“Fang Yuan, your lifespan!!” Mo Yao’s will warned.

“There is no other way, tell me, what else can I do in this situation?” Fang Yuan gritted his teeth, his tone filled with hatred and extreme helplessness.

Standing in the light of wisdom, Fang Yuan could clearly feel his lifespan was decreasing unceasingly, but he did not have any other choice. Giant Sun's will hated him to the extreme and gave him no chance to make compromises.

"Sigh…" Mo Yao's will heaved a long sigh, "This is simply a struggle at death's door. Perhaps wisdom Gu might stop sending out the light of wisdom in the next moment."

Fang Yuan was silent.

Giant Sun's will suddenly shouted to Hei Lou Lan's group: "Go deal with this thief! Most of his defensive Gu have already perished in our fight! Force him nearer to wisdom Gu where the light of wisdom is much stronger; his life span will be used up even faster. Let me see how much lifespan he can waste!!"

Hei Lou Lan's group accepted the order immediately.

Even Hei Lou Lan with his Great Strength True Martial Physique did not want to fight Fang Yuan in close combat.

They had long ago discussed as appropriate and right now, all of them used long range attacks.

Inside the light of wisdom, Fang Yuan gave a cold snort and used his Gu to counterattack with his own long range attacks while maintaining defensive Gu.

Four to five layers of light barriers covered his body, tens of bone shields hovered around him, and occasionally, stone barriers emerged from the ground to shield him from the attacks of Hei Lou Lan's group.

Ordinary defensive mortal Gu were not of much use against Giant Sun's will. But they were still effective in dealing with these mortal Gu Masters.

Fang Yuan cultivated strength path and was not specialized in long range battle. However, he had no shortage of long range attacking Gu worms, it was only that they did not follow a proper fighting system.

More importantly, he had unlimited primeval essence. Thus, he was not at any disadvantage and the situation was even many times better compared to when he fought with Giant Sun's will.

"Speed up the attacks, don't stop for even a moment! Even if he has unlimited primeval essence, mortal Gu cannot be activated non-stop!" Hei Lou Lan shouted.

"Right! Mortal Gu are not Immortal Gu and have a limit to what they can endure, activating them unceasingly will only cause them to collapse." Ye Lui Sang also added.

They were tribe leaders of Hei tribe and Ye Lui tribe, they understood the situation deeply.

Gu were the essence of heaven and earth, carriers of the Great Dao. Essentially, they were tools.

Every tool has their own respective usage. The more they were used, and when the burden on them crosses the limit, they will start breaking down.

When mortal Gu Masters used mortal Gu, they could only activate the Gu worms a few times because of the limitations in primeval essence, thus this flaw was not too evident. When Gu Immortals activated mortal Gu, this issue would become conspicuous.

However, after some time, Hei Lou Lan's group's hopes came to nothing.

"Why does he have so many Gu worms?" Someone shouted in an incredulous tone.

The quantity of Fang Yuan's Gu worms surpassed their imagination. During the course of the fight, he switched Gu worms one after another as if it was very natural and effortless.

"Even if he has a mysterious origin and made prior preparations for Gu Immortal advancement, preparing many mortal Gu, a mortal aperture is not able to hold so many Gu." No one could explain this no matter what they thought of and were bewildered.

“Could it be…” Giant Sun’s will recalled the scene of Fang Yuan opening a stargate.

Fang Yuan had opened a stargate within Eighty-Eight True Yang Building, thus Giant Sun’s will knew it clearly.

“It seems he relied on that gateway to leave Imperial Court blessed land and obtained significant support!” Giant Sun’s will was very experienced and knowledgeable, immediately realizing the usage of the stargate when it thought of hole earth Gu and connecting heaven Gu.

It was thanks to Fang Yuan having Hu Immortal blessed land behind him that he was able to purchase large numbers of mortal Gu from treasure yellow heaven.

Although he had given most of them to Tai Bai Yun Sheng, he had also left many for himself.

Fang Yuan’s naturally cautious nature of being prepared for anything had paid off at this moment.

“Hmph, you borrowed external strength. Unfortunately, your opponent is me!” Giant Sun’s will gave a cold snort before suddenly making a move.

He pierced the air at lightning speed.

He did not move into the light of wisdom but shot towards the Gu worms.

Several breaths later, he appeared above Hei Lou Lan’s group and dropped a large group of mortal Gu.

“Take it. I am going to impart a killer move to you!” Giant Sun’s will split itself into a dozen or so parts which covered the Gu worms and directly moved into everyone’s apertures.

Every person received thirty-eight Gu.

These mortal Gu had already been refined by Giant Sun’s will.

Under the coordination of Giant Sun's will, the group was able to immediately refine the Gu worms and learn the killer move through the directions of the special will.

"This killer move!" Hei Lou Lan's group showed expressions of joy and shock when they comprehended the killer move.

"It is just a small trick my main body created when I had inspiration during my leisure time, I have not given it name yet." Giant Sun's will said in a light tone, "Now is a good time to use it, for the time being let's call it Thirty-Eight Sealing Arts."

Hei Lou Lan's group immediately activated the killer move, breathing out rays of purple light qi from their mouths.

Fang Yuan's eyes narrowed and he immediately dodged them.

But he had limited space and the purple light qi mixed in with other attacks, as such he was still struck.

"So it was like this, this killer move's effect is this…" Fang Yuan's expression changed slightly.

Thirty-eight sealing arts was targeted against Gu worms.

This concept was not unusual. A Gu Master's battle strength came mostly from their Gu worms, thus many Gu worms targeted this point like rank four problem nipped in the bud Gu, or rank five pitch black Gu.

However, this killer move, thirty-eight sealing arts, was much stronger than pitch black Gu. It could contaminate moves that were used by a Gu Master, and all the Gu worms used for it would be sealed one after another.

This killer move naturally could not seal Immortal Gu. And as for mortal Gu, the higher the rank of the Gu, the shorter the duration of the seal.

But it could seal them completely, and the Gu worms that formed this killer move were mostly ordinary and could be easily gathered. It touched upon qi path and even if an attacking Gu was used, it could follow the qi back to the source, sealing the Gu.

This was an exceptional killer move which particularly suited the current situation.

After Fang Yuan was struck, his defensive Gu were sealed successively.

The stone barriers were pervaded by the purple light qi, the stone barrier shield Gu were immediately sealed. The white bone shields hovering around Fang Yuan were also shrouded in the purple light qi, falling down one after another, turning back into flying bone shield Gu.

The windblades Fang Yuan attacked with were touched by purple light qi and even if the corresponding wind blade Gu were inside his aperture, the Gu worms would be covered by a faint layer of dense purple qi and be sealed.

Historically, sealing defensive Gu was easy while sealing attacking Gu was difficult all because defensive Gu were easier to attack. But thirty-eight sealing arts could deal with both equally.

Fang Yuan's Gu worm quantity decreased the more he used them.

He already did not have a lot of defensive Gu and could not forcibly resist the purple light qi, only able to dodge and evade all over the place.

But there was only so much space, he would sooner or later run out of space to run to.

At this moment, Fang Yuan took the initiative to attack the purple light qi. He would rather more of his attacking Gu be sealed, he required defensive Gu to protect his whole body.

Once the purple light qi touched his six arm heavenly zombie king form, who is to say it might not seal the corresponding Gu worms and break the killer move six arm heavenly zombie king.

Soon, Fang Yuan's offensive started becoming sparser as he was suppressed into disadvantage by the crowd of Gu Masters.

“Kill, kill this demon!” Ye Lui Sang shouted excitedly and sent out hundreds of fireballs; the fireballs detonated in an intense explosion with dust and dirts flying everywhere. Fang Yuan dodged here and there but he was still struck by the explosions, his skin and flesh were torn open.

“You demon, you are guilty of the most heinous crimes, you went as far as daring to topple True Yang Building! We ended up in this state all because of you!” Gu Guo Long shouted furiously, throwing out endless wind blades that were as sharp as knives and could also chase the target, new cuts were formed on Fang Yuan’s body.

Rays of purple light qi were also constantly sent out now and then.

These surviving Gu Masters, more than ten in number, gritted their teeth with eyes filled with fury; they wished they could eat Fang Yuan’s flesh and drink his blood!

They had painstakingly fought in many battlefields and taken huge risks to arrive at Imperial Court blessed land. It was supposed to have been an enormous opportunity, but they ended up in this plight, almost all of their tribesmen, relatives and friends were dead.

The disparity from the beginning to the end was too large, it could easily be imagined how much hatred and anger they felt towards the main cause of this disaster.

“You will die a dog’s death today, this is your end for offending Ancestor Giant Sun!” One Gu Master did not forget to flatter Giant Sun’s will. It was a pity Giant Sun’s will was not human and his expression could not be seen.

He only reminded everyone: Do not cause harm to wisdom Gu no matter what!

Chapter 643 - Final Trump Card

Chapter 643: Final Trump Card

Translator: ChibiGeneral **Editor:** ChibiGeneral

Giant Sun's will was too strong.

Not just his battle strength, but also his deep foundation.

It inherited some of the Immortal Venerable's experience, just a killer move created out of boredom drove Fang Yuan into a desperate state again.

"Damn it, is it time to use Spring Autumn Cicada again?" Fang Yuan gritted his teeth, a thought arising in his mind.

The first aperture was filled with pressure, the surface of the aperture walls was covered with cracks resembling a spider's web.

Spring Autumn Cicada floated in the center, as yellow and green lights flickered on the cicada's body.

Fang Yuan was not ignorant, the aperture had obviously reached its limits, it could break the very next second!

But he quickly dispelled the thought of using Spring Autumn Cicada.

More and more of his Gu worms were being sealed, his firepower was weakening, Fang Yuan was starting to take hits passively.

"Come on, why don't you strike back!" The Gu Masters laughed maniacally.

"Are you afraid now? Come out and fight if you have the guts!" Someone laughed coldly.

"You demon, this is your deserved fate, go and die!" Someone cursed.

Seeing Fang Yuan suppressed by them, they felt unbelievable joy.

Suddenly, Mo Yao's will's frantic voice resounded in Fang Yuan's mind again: "Oh no! Fang Yuan, zombie speckles are showing up on your body. The death energy is starting to invade your body. If the speckles spread over your whole body, you will turn into a six arm heavenly zombie king for real!"

An even worse situation had arrived.

The estimated hour limit had not been reached, but Fang Yuan was already starting to become a zombie.

A body that is zombified will be completely immersed in death energy, they cannot return to normal.

Unless he removed the six arm heavenly zombie king killer move now, the zombie speckles would continue to spread.

"No, once I stop using the killer move, Giant Sun's will would attack. At this distance, I would not be able to react!" Fang Yuan shook his head, his expression turning solemn.

Although he had defensive Gu, these mortal Gu were not worth mentioning in front of Giant Sun's will.

Only six arm heavenly zombie king could allow Fang Yuan to hold his own.

Right now, although Giant Sun's will had not entered the wisdom halo, that was only because the price to pay was too great for a small gain.

Giant Sun's will was definitely capable of making sacrifices.

To attract a seven fingered formless hand, he lost eight Immortal Gu!

"If I cancel the killer move now, Giant Sun's will would go all out and kill me regardless of the sacrifice. Once I die, he would take back the immortal essence of Giant Sun, I cannot take this risk!" Fang Yuan's attitude was firm.

"But, your body…" Mo Yao's tone was hesitant, sounding worried.

Fang Yuan was unmoved, his expression was determined.

The zombie speckles continued to spread, there was only a dot on his back at first, but now almost his entire back was covered.

The speed of spreading was getting faster, soon, Fang Yuan's chest turned black.

The Gu Masters saw this and were shocked.

Giant Sun's will laughed heartily: "So this is it, you have turned into a zombie for too long, the balance of life and death energy had been broken, now that the death energy is invading you, you will turn into a real zombie, a member of the living dead, a monster that is neither human nor a ghost, your cultivation will be stagnant forever!!"

Giant Sun's will had great experience and knowledge, he understood Fang Yuan's situation immediately.

The Gu Masters felt a surge in morale, some laughed heartily: "Hahaha, persisting in evil brings about self-destruction, demon, you have committed too many wicked deeds, this terrible end is brought about entirely by yourself!"

"Even without us attacking now, you are finished! Hmph, members of the demonic path crave strength and disregard all else, you have finally experienced the painful consequences now. What a pity, even if you became an immortal luckily, you still became a zombie, a monster!"

"This is the result of you toying with evil schemes and causing harm to everyone, being enemies with Ancestor Giant Sun, and with us of the righteous path!"

Mo Yao's will urged as well: "Fang Yuan, the price to pay is too huge.

In my opinion, Giant Sun's will might not necessarily attack, it does not have much strength left. You have great talent and ability, you should not end up like this! It is not too late to stop now, once you turn into a six arm heavenly zombie king for real, it will be far too difficult to revert back to being a human!"

Fang Yuan's gaze was shining, his emotions were in turbulence, as his expression was changing.

But eventually, his gritted teeth did not loosen.

He turned into a six arm heavenly zombie king completely!

The speckles turned his body black, in the strength path immortal aperture, the bright and clear heaven and earth turned into an eerie dark color, white stone mountains collapsed one after another. The sky was dark grey and the land was rotting, there was not a trace of life energy.

Meanwhile, in the first aperture, it was deathly silent too. The purple crystal aperture walls no longer had the crystal clear appearance, they looked like grey rocks.

But precisely because of this, Spring Autumn Cicada's pressure was no longer so threatening.

Right after becoming a Gu Immortal, he degraded into a zombie! All his past accumulations, all his achievements, all turned into nothing.

From this point on, his cultivation could not advance in the slightest!

Without any potential to progress, in this regard, Fang Yuan was worse off than a mortal.

Even with Fang Yuan's iron will, he felt a bit of desolation.

The thought of using Spring Autumn Cicada appeared in his head once more —"If I use Spring Autumn Cicada and restart everything, I will be able to quickly retreat and avoid this terrible situation to the best of my ability!"

But Fang Yuan forcefully suppressed this thought.

The wind veil of assimilation was very close now, without any sound from the wind, it spread silently, compressing the space and bringing an immense mental pressure to all at the scene.

Fang Yuan observed everyone from afar, suddenly doing something shocking — he stopped the activation of all his Gu.

He had completely become a six arm heavenly zombie king, he did not need to use Gu worms to activate it.

As the purple light qi hit him, this move, thirty-eight sealing arts, had no effect.

As long as Fang Yuan did not activate his Gu worms, the purple light qi would not be able to follow the qi within and trace it back to the source, sealing the Gu worms.

Everyone was stunned, even Giant Sun's will gasped lightly.

But next, the Gu Masters erupted with fierce momentum.

"Kill, kill this demon!"

"He stopped using his Gu worms right in front of us, he is courting death!"

Everyone shouted, screamed, and yelled with their lungs.

Fang Yuan retreated step by step, using the six arm heavenly zombie king's defense and recovery speed to endure the attacks.

"Be careful, don't hit the wisdom Gu!" Seeing that Fang Yuan was getting close to wisdom Gu, Hei Lou Lan quickly gave a reminder.

The Gu Masters controlled their firepower, no longer unleashing flashy attacks, but aiming more precisely at Fang Yuan.

Fang Yuan's appearance was nothing like before, his chest was blown open, his bones were broken, and his intestines were smashed.

He had no choice but to turn around, with his back facing everyone and using it to endure the intense attacks.

Bam!

A bolt of lightning struck Fang Yuan's back.

An intense force slammed him to the ground.

From behind him, cheering could be heard: "Hahaha, I beat him! This newly caught Gu is not bad, it should be the rank five thunder hammer Gu."

Fang Yuan crawled up in difficulty.

His back was burst open, the injury was coiling with lightning, his spine and bones were exposed to the air.

"Look at my wind path killer move!" Someone shouted.

Swoosh!

A huge wind blade with jagged teeth spun and shot out, making a loop around Fang Yuan's arm and cutting it off, it fell on the ground.

This person was breathing roughly, almost all his primeval essence had been expended, but his eyes were shining with a ruthless light of excitement.

He shouted; "Did you see, did you see! I took away one of his arms!!"

"Hmph, you made use of that weakness, if the flesh and skin of that area of his arm hadn't already been fully removed, left with only a segment of his bone, would you be able to cut it off?" Someone scoffed.

The body of six arm heavenly zombie king was strong, but it could not endure such fast paced and strong attacks.

Everyone laughed wildly, they shouted and cheered, torturing Fang Yuan, feeling pride from the heavy injuries they were inflicting on him, competing against each other.

Fang Yuan was defeated time and time again, his tall and muscular body was becoming smaller.

But he got up every time.

Even though he had one out of eight arms remaining, even though he did not have a patch of undamaged skin left, even though his zombie blood was dying the ground, even though his organs were exposed to the air, even though his right shoulder was only left with a pale white shoulder blade.

“Why, to this extent? Why…” Mo Yao’s will sobbed.

Fang Yuan was silent.
